This is particularly required since certain documents have been introduced by the SIT obtained from the accused after conclusion of the Preliminary Inquiry (which means they were not made available by the Accused No I during the period of the PE being conducted). Since these documents were not available for assessment or access before the Hon'ble Supreme Court or possibly even the Amicus Curiae it is critical that Inward and Outward registers of the relevant government departments (Home, GAD, Revenue) are also made available to the Court and the Complainant.
