approximately from 10:00 to 10:30 in the morning. The witness has stated that his house is located in Lane No.4, Jawannagar and cannot even approximately say as to at what time he had reached his house. The witness is cross-examined as to in what manner he was brought home. The witness is confronted with his statement dated 7.3.2002 recorded by the police to the effect that he had stated therein that at around 11:00 to 11:30, a huge mob of people came shouting and pelting stones and the police had released tear gas and resorted to firing and that the mob started damaging the houses and setting them on fire and in the police firing, he was injured by a bullet on his side and had sustained injury. Upon seeing the mob, they, that is, the residents of that area started fleeing towards Gangotri Society behind Jawannagar, where also there was a huge mob and they were surrounded from all four sides and the people in the mob started pelting stones and resorted to arson and sprinkled kerosene and set them ablaze and he too had sustained burns.

142.19 The witness is sought to be contradicted as to his statements dated 1.3.2002 and 7.3.2002 to the effect that he has not stated that he had come out near Gafurbhai's house on the road as stated by him in paragraph 3 of his examination-in-chief. The witness is further sought to be cross-examined with regard to certain facts deposed by him in paragraph 4 of his examination-in-chief; however, the same cannot be said to be an omission in the nature of contradiction, and hence, ought not to have been permitted to be put to the witness. The witness is further sought to be contradicted as to his police statements dated 1.3.2002 and 7.3.2002 to the effect that he had not stated the contents of paragraph 5 in both the police

statements, however, it appears that the omission which is sought to be brought out is not wholly correct, inasmuch as, the witness has deposed with regard to being injured on his left side with a bullet and has also referred to being injured in the police firing. The witness is also sought to be contradicted as to his previous statement recorded by the police to the effect that he had not stated the contents of paragraphs 6, 7, 8 and 9 of his deposition in both the police statements. Insofar as paragraph 9 of his examination-in-chief is concerned, it appears that the witness did state before the police that they had fled towards Gangotri Society.

142.20 The witness is confronted with his police statements to the effect that he had not stated the facts stated in paragraph 9 of his deposition, wherein he has stated that they had gone on the terrace in the evening whereafter the Muslims were driven out from the terraces of Gangotri and told to escape from the rear side, and hence, he too had gone with other Muslims and had reached till Teesra Kuva, where they had seen a huge mob with swords and other weapons and from there, they had returned to Jawannagar, at which point of time, a mob had also come from near the S.T. Workshop and all of them were cornered near the water tank at Gangotri and Gopinath. Similarly, the witness is also confronted with his previous statements to the effect that he has not stated the facts stated in paragraph-10 of his examination-in-chief, viz. that the mob started cutting and killing them and pouring kerosene and petrol upon them and set them ablaze.

142.20 [The witness in his statement dated 7.3.2002 has stated facts regarding kerosene and petrol being poured upon

all and being set ablaze].

142.21 The witness is also cross-examined to the effect that he has not stated the facts stated in paragraph 11 of his examination-in-chief, wherein he has narrated that he had also sustained burn injuries on his right hand, chest, abdomen as well as legs and that thereafter, he had returned home and upon the police vehicle coming, his family members had come to take him with them at which point of time, he was slightly conscious, but thereafter he had become unconscious in any of his statements.

142.22 The witness is confronted with paragraph 12 of his examination-in-chief to the effect that he has not stated the facts stated therein in his previous statements recorded by the police. However, the averments made therein only relate to his being treated at the Vadilal Hospital and the period of his hospitalization, which in no manner can be said to be an omission amounting to a contradiction. The witness has, however, voluntarily stated that the police have actually not recorded his statements on either of the two days and that they had only asked his name and address and had gone away, and hence, there is no question of recording anything in the statement. The witness has denied that he has not sustained any bullet injury and that he has not been set ablaze after pouring petrol and kerosene. The witness has admitted that whatever has been stated by him before the court, has been stated by him for the first time and that the police has not recorded his statement and had only taken his name and address and had gone away and that he has not stated the facts regarding the incident to the police or any other

authority. The witness has denied that he is falsely deposing at the instance of their institution or their Jamaat.

142.23 To prove the omissions and contradictions in the testimony of this witness as to his statement dated 1.3.2002 recorded by Shri Katara (deceased), the Investigating Officer PW 274 Shri K.K. Mysorewala has been cross examined by the defence.

142.24 In the cross-examination of PW-274 Shri Mysorewala, it is brought out that this witness has stated before Shri Katara that on 28.2.2002, communal riots had erupted in Ahmedabad city due to which, at around 10 o'clock in the morning, the riotous mob had entered Jawaharnagar hutments and the people in the mob started entering the houses in Jawannagar hutments, damaging them and burning them due to which, he tried to flee from his house and a bullet grazed his left arm and upon trying to flee from there, since the houses were set on fire, the clothes that he had worn, had caught fire, due to which he had sustained burn injuries in varying degrees on his face and his entire body and he fled from there and gone towards the Noorani Masjid. That he has been admitted in the Hand Surgery Ward for treatment and that at present, he is totally conscious and under treatment and that there was firing from the people in the mob, due to which he had sustained bullet injury and he did not come to know the names and addresses of any of those people.

142.25 In the cross-examination of the Investigating Officer, it has been brought out that the witness has not stated that at that time, he was running a scooter garage by the

name of Punit Auto Garage near Thakkarbapanagar, as stated by him in paragraph 3 of his deposition and that he had not stated the facts stated by him in paragraphs 6, 7 and 8 of his examination-in-chief in his statement recorded by Shri Katara. It has further come out that the witness in his statement recorded by Shri Katara had not stated that on that day, he was at home and that on that day in the morning at around 10:00 to 10:30, he had come out on the road near Gafurbhai's house, where at present the Naroda Patiya Police Chowky is situated, as stated by him in paragraph 4 of his examination-in-chief.

142.26 The Investigating Officer has been cross-examined as regards the contents of paragraph 5 of the examination-in-chief of this witness and he has denied that such facts have not been stated by the witness. The Investigating Officer has stated that the witness in his statement had referred to his being injured by a bullet on his left arm and that he had sustained such injury in firing. However, the remaining facts are not there in his statement. The Investigating Officer has further admitted that the witness, in his statement recorded by Shri Katara, has not stated the contents of paragraphs 9 and 10 of his examination-in-chief. In the cross-examination of the Investigating Officer, a contradiction is sought to be brought out as regards the last two lines in paragraph 12 of the examination-in-chief of this witness, wherein he has stated that for six months, the hospital people had not paid attention to him, which the Investigating Officer has admitted that the witness had not stated before Shri Katara. In the opinion of this court, the above fact cannot be said to be an omission which is so material so as to amount to a contradiction, and hence,

such a question ought not to have been permitted to be put to the Investigating officer.

142.27 It appears that while cross examining PW 276 Shri P.U. Solanki, the assignee officer, due to inadvertence, part of the cross-examination of this witness has been recorded in continuation with the cross-examination relating to Parveenbanu Kureshi (PW-152). Therefore, it appears that the contents of paragraph 71 of the deposition of PW-276 relate to the statement of this witness dated 7.3.2002 recorded by him.

142.27 The assignee officer has been read over the contents of paragraph 29 of the deposition of PW-154 Ahmadbadshah Mehboobhussain and he has admitted that the witness had stated before him that he had not gone for his job and was present at home and at that time, in the morning at around 11:00 to 11:30, a huge mob came to where he was residing at Saijpur Patiya and the people in the mob started shouting and pelting stones and there was intensive stone pelting and the policemen released tear gas and resorted to firing, despite which, the mob being huge did not disperse and damaged the houses and started setting them on fire and in the police firing, he had sustained a bullet injury on his left arm and was injured and after seeing the mob, they, that is, the residents of the area started fleeing and ran towards Gangotri society situated behind Jawannagar and there also, there being a huge mob of people, they were surrounded on all four sides and the people in the mob had pelted stones and set ablaze and were sprinkling petrol and burning them and he too was burned.

142.28 In the cross-examination of the assignee officer, it has been brought out that this witness had not stated before him that at the relevant time, he was running a scooter garage by the name of Punit Auto Garage near Thakkarbapanagar. The last three lines of paragraph 4 of the examination-in-chief of this witness are read over to the assignee officer, wherein the witness has stated that on that day, in the morning at around 10:00 to 10:30, he came on the road near Gafurbhai's house where at present Naroda Patiya police chowky is situated and he has stated that these facts have not been stated by the witness in the statement recorded by him. The contents of paragraph 5 of the examination-in-chief of this witness are read over to the assignee officer and he has stated that this witness has not stated such facts in his statement dated 7.3.2002. The assignee officer, however, has voluntarily stated that the witness has stated before him that he had sustained injury when the policemen were firing and except that, no other facts are stated. The assignee officer has further admitted that the witness had not stated the facts stated in paragraphs 6, 7 and 8 of his examination-in-chief in his statement dated 7.3.2002 recorded by him.

142.29 The assignee officer has further admitted that part of paragraph 11 of his examination-in-chief, wherein he has stated that thereafter, in some manner or the other, he had come home and does not know as to what was the time, but thereafter he had stayed in his own house and at night, upon the police vehicle coming, his paternal uncle, his father and his brother came to fetch him from his house and when they came to take him, he was slightly conscious, but thereafter he became unconscious, have not been stated by him in the

statement recorded by him.

142.30 The assignee officer has also admitted that the contents of paragraph 12 of his examination-in-chief wherein he has stated that he was treated at the Vadilal Hospital for nine months and three days, however, for six months, the hospital people had not paid any attention to him.

142.31 [From the questions put to the assignee officer in connection with the above referred facts stated in paragraph 12 as well as in connection with the witness having a scooter garage by the name of Punit Auto Garage at the relevant time, are not omissions which can be said to be so material as to amount to contradictions and therefore, ought not to have been permitted to be put to the witness].

142.32 The assignee officer has further admitted that the statement dated 7.3.2002 was recorded in his presence and that he had recorded it in terms of what was stated by the witness and that he had also explained the facts to the witness. He had not just asked the witness his name and address and gone away, but had recorded the statement as stated by the witness.

142.33 SUBMISSIONS: The learned counsel for the appellants submitted that this witness is stated to have seen the mobs in the morning as well as in the evening and has sustained injuries. Though he is residing in the area since twenty years, he has not named any accused. It was submitted that many accused are residing in that area, despite which this witness has not named them, which indicates that it was not

possible for anyone to identify anyone in the mob on that day, and, therefore, whenever the statements are recorded by the police in the hospital, including the dying declarations, no one has named any accused. It was further pointed out that according to this witness, he was injured in the police firing and not in a private firing. It was submitted that this witness does not implicate any accused in connection with the incident and upon appreciation of the evidence; the question that arises is whether he received burn injuries at home or at the passage of the water tank.

142.34 ANALYSIS: From the testimony of this witness, it emerges that he had sustained injuries in two stages: firstly, in the morning, in the police firing and secondly, in the evening. The witness has categorically stated that he was injured in police firing and not private firing. Since, the witness is an injured witness, who has sustained bullet injuries in the firing; his testimony that he was injured in police firing would carry more weight than the testimonies of other witnesses who had merely witnessed the incident. Insofar as the statement dated 1.3.2002 recorded by Shri Katara is concerned, on the face of it, it does not appear to have been correctly recorded. A perusal of the statement as brought on record in the cross-examination, shows that it has been recorded therein that at around 10 o'clock, a riotous mob had charged into Jawaharnagar Chhapra (hutments). The people in the mob set the houses in the Jawannagar hutments on fire and entered the houses and started breaking and damaging them. Therefore, he tried to flee from his house, whereupon, due to the firing a bullet scraped through his arm pit and while trying to flee from there, since the houses were aflame, the clothes that he was

wearing caught fire and he had sustained burn injuries in different degrees on his face and his body and he fled from there and went towards the Noorani Masjid. From the evidence on record, there is nothing to show that the mobs had entered Jawannagar at 10 o'clock in the morning, nor is there any evidence to the effect that there was firing at Jawannagar at that time. Evidently, therefore, the witness is justified in saying that the statement has not been recorded as stated by him. The overall evidence on record supports the version given by the witness as against what has been recorded by the assignee officer.

142.35 Insofar as the statement dated 7.3.2002 is concerned, a perusal of the testimony of PW 276 Shri P.U. Solanki, the assignee officer, shows that he has recorded identically worded statements of several witnesses on 6th and 7th March, 2002, which gives reason to believe that the statements were not recorded as stated by the witnesses. No reliance can, therefore, be placed on such incorrect police statements to contradict the witness.

142.36 This witness is an injured witness. The testimony of this witness regarding having sustained a bullet injury in the police firing and burn injuries in the evening incident is corroborated by the medical case papers at Exhibit 285. The history recorded in the injury certificate is "*burns during riots on 28/2/02 at 5 pm by opposite mob by throwing inflammable material over body. H/o burns over both upper limb and lower limbs.*" The certificate further refers to burns on the chest. The medical case papers further refer to a bullet injury on the left side of the upper part of the chest.

142.37 Considering the overall testimony of this witness, he comes across as a truthful and trustworthy witness. The version given by him is natural and there are no exaggerations and embellishments. From the testimony of this witness, it emerges that at around 10:00 to 10:30 in the morning, the Noorani Masjid was being vandalized and there was police firing, wherein he sustained a bullet injury on his left arm pit. He was lifted and taken home, where he stayed till 2:00 to 2:30. Thereafter, for the purpose of providing medical treatment, an attempt was made to take him to the S.R.P. Quarters, but they were not allowed to enter. From there, they went to Gauriben's terrace at Jawannagar. In the evening they went towards Teesra Kuva, but there was a huge mob there, due to which, they started coming back towards Jawannagar, when another mob came from the side of the S.T. Workshop. To escape from the mob, they went inside the passage of the water tank where they were assaulted by the mob and set ablaze after sprinkling kerosene and petrol on them. The witness has sustained burn injuries and somehow managed to reach his house in Jawannagar which is quite close to the place where the incident had occurred. The witness appears to have given a true account of the incident and has not named any accused. His testimony appears to be credible and truthful and there is no reason to disbelieve the version given by him.

143. **PW-155 Shahenazbanu Munavarbhai Shaikh**, aged 40 years, has been examined at Exhibit-1067. The witness has deposed that she is residing at *Jawannagar, Naroda Patiya* since the last twenty years. She has stated that

Jawannagar and Jawaharnagar are one and the same. In the year 2002, she was residing there along with her husband and her children. She had three sons and two daughters.

143.1 The witness has deposed that the incident must have taken place approximately eight years ago. She does not remember the exact date. On that day, there was a call for Gujarat Bandh. On the day of the incident, she was at home. At that time in the morning, there were disturbances on the road outside, where there was stone pelting and assaulting. Her husband came home and told her that there was stone pelting and ransacking at the Noorani Masjid and hence, she came to know about it.

143.2 At around 4 to 5 o'clock, the mobs came to Jawannagar and were pelting stones, they had broken the Jawannagar wall and had come inside. Hence, they fled and went to a terrace of Gangotri Society, however, they were asked to get down from the terrace and they had fled towards the S.R.P. Quarters.

143.3 At the S.R.P. Quarters, they were not permitted to enter and were driven away. While they were coming back, they were caught between the mobs. In the stampede which ensued on account of the mobs, she, her husband and their children got separated from each other.

143.4 The people in the mob threw petrol, acid, etc. on them and set them ablaze. She was burnt. She had sustained burn injuries on her back, both her hands and her knee. Thereafter, she went from there to a terrace behind Gangotri

Society and sat there.

143.5 Thereafter, during the night time, the police came and took them to the Shah Alam Relief Camp, where she took treatment for eight days. However, thereafter, she was taken to the V.S. Hospital and provided treatment. She was given treatment for about two and a half months.

143.6 The witness has stated that she does not know any of the persons in the mobs which she has referred to. The police has recorded her statement. She has stated that the police had asked her questions in Hindi and she had answered them in Hindi.

143.7 CROSS EXAMINATION: This witness in her cross-examination has admitted that the police had recorded her statement on 10.3.2002. The witness has denied that after her statement was recorded, the police had read it over to her and thereafter had obtained an impression of her right hand thumb at the bottom of the statement. The witness is shown the thumb impression at the bottom of the statement and she has stated that it is not her thumb impression

143.8 The witness has admitted that she has stated before the police that on 28.2.2002 in the communal riots which had erupted in Ahmedabad city, at the hutments in Jawaharnagar near S.T. Workshop.. (illegible), a riotous mob with sharp edged weapons was rioting at Naroda Patiya as well as the Noorani Masjid, etc. and had set their houses on fire and in the stampede amongst the residents of Jawaharnagar hutments, she, her husband and children had fled towards

Naroda Patiya to protect their lives. In the meanwhile, at 6:30 in the evening, she had fled with her family towards Naroda S.T. Workshop, when a riotous mob had stopped her and had poured kerosene over her body set her back on fire due to which she had sustained burn injuries on her back and had sustained simple burn injuries on the elbows of both her hands. During this time, her husband took the children and escaped from the middle of the riotous mob, and in the meanwhile, because the police vehicles were present, they escaped and on the same day, they were taken to a safe place at Shah Alam camp in the police vehicles. This part of the testimony of the witness is inadmissible in evidence inasmuch no part of the testimony of the witness is sought to be contradicted by it.

143.9 The witness has stated that at the time of the incident, she was residing in the second lane of Jawannagar. At the time of the incident, she had not seen any of her Muslim acquaintances. At that time, she knew the Muslims residing in lane No.2, namely, Halimbhai Shehnazapa, Mumtazkhala, Kherunapa, etc. She does not know the names of the male members of their family. She had admitted that lane No.2 is situated in the Jawannagar khada (pit). She has voluntarily stated that earlier it was known as khada and now it is known as Jawannagar.

143.10 The witness has admitted that she could see the Uday Gas Agency road and the pit area from her house. She has admitted that on the day of the incident, till 4 to 5 o'clock she was at home, and till then, people had not caused any damage to her house. She has admitted that before 4 to 5 o'clock, no damage was caused at Jawannagar.

143.11 The witness has admitted that at around 4 to 5 o'clock, for the first time, the mob of people had broken the wall to come inside Jawannagar. The witness has admitted that she had not seen any truck in the Jawannagar pit but has clarified that she has not seen it but she cannot say as to whether or not it was there. The witness has stated that she cannot say whether when she went to the terrace of Gangotri Society, the sun was there in the sky. She has admitted that at that time, it had become dark. The witness has admitted that it had become dark, thereafter everyone was getting down in Gangotri Society, and hence, she also had come down. The witness has admitted that she was at home at 5 o'clock and till then she had not seen anyone on the Uday Gas Agency road.

143.12 The contents of paragraph 3 of her examination-in-chief from the second to the last line are read over to the witness to the effect that she has not stated such facts in her statement recorded by the police. The contents of paragraphs 4 and 5 of the examination-in-chief of the witness are read over to her to the effect that she has not stated such facts in the statement recorded by the police. The witness has denied that at the instance of voluntary Muslim organizations and the people of their Jamaat, she was falsely deposing before the court and that she has not seen the incident and has not sustained any injury in the incident.

143.13 To prove the omissions and contradictions in the testimony of this witness, PW-274 Shri Mysorewala has been cross examined by the defence in connection with the statement dated 10.3.2002 recorded by Shri Katara

(deceased).

143.14 PW-274 Shri Mysorewala is cross-examined as regards the contents of paragraph-3 of the examination-in-chief of this witness, wherein she has, *inter alia*, stated that on that day, there was a call Gujarat Bandh and she was at home. At that time, in the morning, there were riots on the road outside. There was stone throwing and assault. Her husband had come home and informed her about the stone pelting and damaging of the Noorani Masjid, and hence, she came to know about it. The Investigating Officer has denied that these facts had not been stated by the witness before Shri Katara and that the witness had stated that there were riots on the road and that there was stone pelting and assault, whereas the remaining facts have not been stated by the witness.

143.15 In the cross-examination of the Investigating Officer, it has come out that the witness has not stated the facts stated in paragraph 4 of her examination-in-chief in her statement recorded by Shri Katara. As regards the contents of paragraph 5 of her examination-in-chief, the Investigating Officer has denied that the witness has not stated these facts before Shri Katara and has stated that the witness had stated that the mob had stopped her in the middle and that her husband together with the children had escaped from the middle of the riotous mob. The remaining facts have not been stated before Shri Katara.

143.16 SUBMISSIONS: The learned counsel for the appellants submitted that this witness is residing in the second lane of Jawannagar since twelve years prior to the incident.

The witness is an injured witness who has stated that when they came down from Gangotri Society, it was dark and thereafter, the incident has taken place. That till 5:00 p.m., there was no disturbance in Jawannagar. It was submitted that this witness is a local resident, but has not implicated any of the accused.

143.17 ANALYSIS: This witness appears to be a truthful witness and the omissions sought to be brought out in her cross-examination to contradict her testimony are not material omissions as would impeach the credibility of the witness. The witness is an injured witness. She has not named any accused. From her testimony it emerges that the mob broke the Jawannagar wall and entered Jawannagar at about 4:00 to 5:00 p.m. in the evening. The fact that in her cross-examination, the witness has admitted that when she was on the terrace of Gangotri it had become dark and it was after dark that everyone had got down from Gangotri, and therefore, she too had got down, does not in any way help the defence for the reason that the witness has deposed that she had gone on the terrace of Gangotri when the Jawannagar wall was broken. But thereafter, they were made to come down from the terrace, and hence, they had fled towards the S.R.P. Quarters. They were not allowed to enter the S.R.P. Quarters and were driven back, when they were caught in the middle of the mob. The mob poured inflammable substances on them and set them ablaze, whereafter she went to the terrace of Gangotri Society. Therefore, when she went to the terrace, for the second time, it had become dark. The witness has stated that she did not know any person in the mob, and has stated that she could not recognize anyone because it was dark.

143.18 This witness has not named any accused, and hence, her testimony is relevant only for the purpose of ascertaining the manner in which the incidents had taken place.

144. **PW-157 Mahammadsafi Allabax Mansuri**, aged 52 years, has been examined at Exhibit-1108. The witness has deposed that he has been residing at *Hussainnagar* since about the last twenty years. In the year 2002, his family was comprised of him, his wife Rasidabanu, his sons Mahammadyasin and Mahammadyamin, his daughter-Yasmin and the youngest son Sahejad, were all residing together.

144.1 In the year 2002, he was engaged in the business of making quilts and pillows at *Naroda Baithak, Payalnagar Road*, in a shop, in the name and style of Rajasthan Mattresses.

144.2 In the year 2002, his shop was looted and set on fire. He is a native of *Village Bheruda, Taluka Medata, District Nagor, Rajasthan*. He has studied up to the 2nd Standard in Gujarati medium. He was residing in Ahmedabad city, Gujarat State since the last about forty seven years.

144.3 The incident took place on 28th February, 2002. On that day, there was a call for Gujarat Bandh, which he came to know on the previous day, and hence, he had not opened his shop in the morning. He was at home till 9:30 in the morning and at around 9:00 to 9:30, he had heard that there was a mob outside which was ransacking the shops near the Noorani

Masjid and burning the shops and houses. Upon hearing this, he came out to watch on the road. Outside his house at the entrance, there is *Chetandas-ni-Chali*, where at present a police chowky has been set up. He had come near Chetandas-ni-Chali to look.

144.4 Upon coming out, he saw that there was a huge mob near the Noorani Masjid. Another mob was coming from the direction of Krushnanagar and one mob was coming from the direction of Natraj Hotel. He had seen the mob coming from Natraj as well as from Krushnanagar. At the Noorani Masjid, the mob was pelting stones and ransacking it. That mob at the Noorani Masjid till the S.T. Workshop was comprised of scattered groups. He saw that in the mobs from Natraj and Krushnanagar, people were armed with weapons like swords, dharias, rods, pipes, etc. and some of the members of the mob had tied saffron coloured bands on their foreheads and around their necks.

144.5 In this mob, **Bipin Autowala** (A-44) was present. The police was there and behind the police, there was **Kirpalsing (A-62)**, who was a member of the mob at the S.T. Workshop, Opposite the Noorani Masjid. Guddu Chharo and Suresh Langdo were also present in this mob near the Noorani Masjid. While ransacking was going on near the Noorani Masjid, the Muslim people started gathering near Chetandas-ni-Chali which is on the opposite side of the Noorani Masjid.

144.6 At this time, mobs of Hindus started pelting stones at the Muslims. The stones were pelted from the open space where presently, there is a police chowky. At this time, the

police released tear gas shells and thereafter, indiscriminately fired at the Muslims. P.I. Shri Mysorewala and Shri Gohel, both were present there with their vehicles. At that time, there was a worker with a saffron scarf around his neck with the police and the witness felt that he must be a worker of the Bajrang Dal or the Vishwa Hindu Parishad. This person was pointing out to the police the direction in which they should shoot and the police was firing according to his instructions.

144.7 In this firing, four to five persons were injured by bullets on the spot, in front of his eyes. Abid, Khalid, Piru Painter and Kaladiya were amongst the persons who were injured in this firing. Due to the firing, they were all shocked and started running hither thither in their lanes and he too had also come inside the lane. However, he had heard that thereafter also, the firing had continued.

144.8 At this time, it must have been approximately 12:00 to 12:30. He had come inside the lanes and had gone back to his house at Hussainnagar. After returning home, he took out his family from his house, locked his house and together with his family stealthily, went around in the lanes till around 4 o'clock.

144.9 Till around 4:00 to 4:30 in the evening, they were stealthily roaming around in the lanes, and in the meanwhile, at around 1:30 to 2:00, both the PI of Naroda Police Station and other staff members were standing near Lane No.5, Hussainnagar. The members of their community, Dilshadkhan and Basirbhai went to the police and requested them to have mercy on them and stop the riots, when Mysorewala had told

both of them that they had pulled two Hindus and brought them inside and that they should return both of them. Whereupon, Dilshadkhan and Basirbhai told them that no such incident had taken place and that they could investigate on their own, whereupon both the policemen talked with each other and then, all of them started laughing. At that time, he was present in Lane No.5 at a little distance from them.

144.10 After hiding in this manner till around 4:00 to 5:00 in the evening, they started going towards the S.R.P. Quarters which are situated near their houses. From the S.R.P. Quarters compound wall, there is a way for going inside the S.R.P. Quarters. They requested them to permit them to go inside from that way and similarly, other Muslims were also requesting them to let them enter the S.R.P. Quarters. At that time, the S.R.P. PSI Shri Ketan Parikh and other S.R.P. personnel were there, but did not let them go inside. They fervently beseeched them, whereupon they started beating them with the butt of the guns and told them that what the Muslims had done at Godhra was going to happen to them there.

144.11 Hence, they sat outside the S.R.P. compound wall near the chawls and huts near Jawannagar. At this time, it was around 4:30 in the evening.

144.12 After a little while, a mob came from the side of Uday Gas Agency which was comprised of people who were armed. In this mob, he saw **Bipin Autowala (A-44), Guddu Chhara (deceased), Kirpalsing (A-62) and Suresh Chhara (A-22)**. Out of these people, some of them climbed on the

terrace of Tiniya Marathi's house near the S.R.P. compound wall and started pelting stones at them, which included women, men and children. According to this witness, if they had been allowed to sit there, possibly the incident that occurred may not have taken place. However, the S.R.P. people, in connivance with the people in the mob, had planned in one way or the other to get all of them into the open field which is behind Gangotri and Gopinath Society, and hence, stones were pelted on them with a view to drive them into an open space.

144.13 The witness has deposed that Ketan Parikh had also pointed a pistol at them and told them to go to the rear side. At this time, Ketan Parikh had also lobbed tear gas shells. Upon seeing all this, he had felt that there was a conspiracy by all of them to send them to the open ground at the back.

144.14 Upon such shells being burst and guns being pointed at them, all of them climbed the staircase at Jawannagar and went on the terrace of Gangotri Society on the rear side. He too took his family and in this manner, went to the terrace of Gangotri Society.

144.15 At this time, a sweeper by the name of Keshabhai Popat was standing in the lane of Gangotri Society and he too was sending everyone on the rear side. His daughter was very frightened and her health was deteriorating, and hence, he asked for water from Kesha Popat because his house was near the S.R.P. compound wall. He had also asked for a shelter from Kesha Popat as well as asked for drinking water; however, he (Kesha Popat) told them that they should go to the rear side,

where all arrangements were made for them. Therefore, the witness had told him that when they were not in a position to escape from there, how would it be possible for them to escape from the open field? However, Kesha Popat insisted that they should go on the rear side. The witness was suspicious about what he was saying, and hence, they had not gone on that side.

144.16 At this time, other Muslims after hearing Kesha Popat's words, tried to go to the field on the rear side, however, he had stopped them. However, some people had already gone there and he could not stop them. Out of those people who have already gone, many of them died which he had learnt afterwards. At this time, it must have been around 5:30 in the evening. Like Kesha Popat, certain S.R.P. personnel were also insisting that they should go on the rear side.

144.17 They went near Gangotri Society and from there, they returned to Lane No.4, Hussainnagar. One Umrudin Mansuri's two storeyed house is situated in Lane No.4, Hussainnagar, where many Muslims were hiding. The Muslims were hiding on the ground floor, the middle floor as well as on the terrace. From there, some of the Muslims shouted to them and called them, and hence, they had gone to the terrace of Umrudin's house.

144.18 When they went to the terrace, some of the Muslims had mobile phones and were calling the police control room and the fire brigade; however, all those services were shutdown on that day. Hence, they did not get any help from the police or the fire brigade. They stayed on the terrace till

late at night when the police came and took them in a bus to the Shah Alam relief camp.

144.19 The witness has further deposed that while on the way to the relief camp, they had seen burning dead bodies on the road.

144.20 The witness has deposed that in the riots, his house and his shop were looted and burnt. He had stayed at the relief camp for about three and a half months. While they were at the relief camp, he had heard about the incidents of killing, burning and rape.

144.21 The police had recorded his statement in connection with the incident. The police had merely come by way of formality and that the witness felt that they were not recording their statements in true spirit.

144.22 Sometime in the year 2008, he came to know that the SIT was going to investigate and that they would investigate impartially, and hence, he had made an application to the SIT. His statement was recorded by the SIT, Gandhinagar, where he had given an application. At Gandhinagar, he had stated everything that he knew about the incident. The SIT people had recorded his statement on the second occasion to inquire about Haresh Chhara. On another occasion also, an explanatory statement of his was recorded in connection with Kirpalsingh.

144.23 The witness has stated that as per his information, Guddu Chhara is dead and has stated that he will be able to

recognize Bipin Autowala, Suresh Langda and Kirpalsingh despite the fact that a long time has elapsed. The witness has thereafter identified Kirpalsingh (A-62) and Suresh Langda (A-22) before the court. Bipin Panchal had made an exemption application and hence, he is deemed to have been identified. Thus, the witness can be said to have identified all the three accused.

144.24 CROSS EXAMINATION: This witness has been extensively cross-examined with regard to the topography of the area which runs into several paragraphs.

144.25 In his cross-examination, the witness has denied that on the entire day of the incident, he had not seen the compound wall of Jawannagar khada. The witness has stated that he has seen the compound wall from Jawannagar. At the time when he had gone, he had gone through Jawannagar and while returning, he had come through Gangotri Society. When he was at Jawannagar, he had seen the compound wall being broken. The witness has admitted that when he went out at 4:00 to 4:30, a mob was breaking the wall. The witness has denied that when he entered Jawannagar and while he was there, he had not seen any incidents take place. The witness has denied that at that time, he had seen only stone pelting in Jawannagar. The witness has voluntarily stated that he had seen S.R.P. people pointing guns and lobbing tear gas shells. The witness has admitted that while he was at Jawannagar, except for the stone pelting, lobbing of tear gas shells by the S.R.P. and pointing guns, he had not seen any incident.

144.26 The witness has admitted that there may be a

discrepancy of a half an hour to an hour in the timing shown by him in his examination-in-chief with regard to different incidents. The time stated by him is not accurate, but is based on estimate. The witness has stated that on the day of the incident, he had come out at about 9:30 in the morning. He had come out in the open space near National Highway No.8, where at present there is a police chowky and was standing there. The witness has denied that on the day of the incident, he had stood at the same place for around half an hour, but has explained that he was not standing at one place and was standing at different places and that, he must have stood there for about two to two and a half hours.

144.27 In his cross-examination, the witness has stated that he has not noticed as to whether in the Hindu mob near the Noorani Masjid, there was any Muslim woman. The witness has voluntarily stated that there was a constable like woman in the mob near the Noorani Masjid; however, he does not know whether she was a Muslim. The witness has admitted that the mobs had pelted stones at Muslims. He has denied that in response thereto, the Muslims had pelted stones in retaliation for the reason that thereafter, the police had resorted to firing. The police had fired at the Muslims and driven them inside.

144.28 The witness has stated that the SIT had recorded his statement on 2.6.2008. In his cross-examination, it has come out that he had firstly seen Guddu near the Noorani Masjid. The witness is not aware as to in which mob Guddu had come, but when he saw him, he was near the Noorani Masjid. It was morning time. The witness has denied that thereafter, during the entire day, he had not seen Guddu Chhara and has

voluntarily stated that thereafter, he had seen him in the evening. In the morning, he had seen Guddu with Bipin Panchal and Suresh Chhara. The witness has admitted that he had seen only these three persons and no one else near the Noorani Masjid. The witness has voluntarily stated that he had seen the others near the S.T. Workshop. The witness has admitted that on the day of the incident, he had afterwards seen these three persons in the evening on Tiniya's terrace and thereafter, he had not seen them anywhere. The witness is confronted with his statement dated 2.6.2008 recorded by the SIT; however, no part of the statement is put to the witness to bring out any omission or contradiction in his primary statement, and hence, the same is not admissible in evidence.

144.29 The witness has denied that in his statement recorded by the SIT, he has not stated any facts regarding the mobs having gathered near the S.T. Workshop gate and the police having fired at the Muslims mob.

144.30 The witness has stated that he is not aware as to whether Shri Gondia had called for any police vehicles to rescue them or that any arrangement was made to take them to the camp. The witness has admitted that no person in his family has been injured in the incident. The witness is shown internal pages 230 and 231, Exhibit-47, which is a list of documents, submitted with the chargesheet, and he is shown the signature at the bottom of such document, which he has admitted to be his signature.

144.31 The learned Special Public Prosecutor has submitted that the printed complaints at pages 230 and 231 have been

included with I-C.R. No.177/02, which has subsequently been merged with I-C.R. No.100/02. Moreover, in the FIR Mark 264/14, there is a reference to the witness's complaint at Serial No.21.

144.32 The witness has stated that he is not aware that the document shown to him is his complaint. The witness has stated that as far as he knows, at that time, they were filling in the loss damage forms and he had also filled in such form and his signature was taken on such forms. The attention of the witness was drawn to internal pages No. 231 and 233 viz. the loss damage analysis form. The witness has denied that when the loss damage analysis form was filled up, he was absolutely healthy and has voluntarily stated that they were under shock. The witness has further stated that their signatures were being taken on several forms at the relevant time. The witness has denied that the complaint which was read over to him, had been dictated by him, but has admitted his signature thereon. The witness is shown two documents, one being a ready-made complaint and another being a loss - damage analysis form which is given combined Exhibit-1111. (It may be noted that despite the fact that the witness has not admitted the contents of the printed complaint, the same has been exhibited by the court.). The witness is thereafter examined with regard to the number of signatures that he had made in the camp etc.

144.33 The witness has denied that he has not given the names of Kirpalsingh and Suresh Langda before any authority prior to 2008 and has voluntarily stated that the police was not writing as stated by them. The witness has stated that prior to 2008, he has not made any complaint to any authority

regarding his complaint or statement not being recorded as stated by him. The witness has voluntarily stated that there was no one to take their complaint, no one was listening to them, and after the SIT came, their statements were recorded by the SIT.

144.34 The witness is shown the application Mark 644/36 and the contents thereof are read over to the witness. The witness has stated that he has not stated all the facts recorded in the application, but has admitted his signature thereon. The witness has voluntarily stated that the object of giving the complaint was to see that his statement is recorded by the SIT. The application is given Exhibit-1112. (From the deposition of the witness, it is evident that he has not admitted the contents of the application despite which, the same has been exhibited by the court.). Thereafter, the witness has been cross-examined with regard to the application as to who and how and in what manner it was written down. Several parts of the police statement of the witness, wherein there is a reference to the topography of the area, have been put to the witness. Since no part of this statement has been used to contradict the witness, the trial court ought not to have permitted the same to come on record, inasmuch as the same is clearly in violation of the provisions of section 162 of the Code.

144.35 Through the process of cross-examination, without putting any question to the witness regarding any omission or contradiction in his examination-in-chief, more or less the entire police statement of the witness has been brought on record.

144.36 The witness has denied that in his statement dated 13.4.2002, he has not stated the name of Kirpalsingh and has not attributed any role to him.

144.37 The witness has stated that while recording his statement, he did not have to ask Suresh Langda's name to anyone. The witness has admitted that in his statement, he has neither given the name of Haresh Chhara, nor attributed any role to him for the reason that he had not seen Haresh Chhara. The witness has denied that in this statement, he has not stated any fact regarding the Hindu mob having set the Noorani Masjid on fire and having pelted stones at the Noorani Masjid. The witness has admitted that when they went from Hussainnagar to Jawannagar, they had gone from near Tiniya's house. The witness has admitted that Tiniya's house is touching the S.R.P. compound wall. The witness has stated that when he passed from near Tiniya's house, he had not seen anyone inside or on his house. He has stated that subsequently, he had seen people on Tiniya's house. The witness has denied that he has not stated the fact regarding the people having climbed on Tiniya's terrace and having pelted stones from there in his statement dated 13.4.2002.

144.38 In his cross-examination, it has come out that the witness knew Guddu Chhara since many years, he did not go around with him, but he was residing in his area and therefore, he knew him. The witness has stated that he had heard that Guddu Chhara commits thefts in groups, namely, that he has formed a gang for the purpose of stealing. He has stated that he has never gone to Guddu's house and he has not seen his house. The witness is cross-examined with regard to the

topography of the area.

144.39 The witness has admitted that when the police vehicle came to take them, the police had come with a child with them. The witness has admitted that this child was entrusted to someone and that his hands and legs were burnt and that the police had seen the child crying amidst the dead bodies and the police had brought the child. The witness has admitted that in his statement dated 23.5.2002 recorded by the police, he had stated that he does not know as to who has committed loot of his house and has damaged his godown. The witness has denied that he has not given the names of the accused named by him in his examination-in-chief or attributed any role to him before the police. The contents of paragraph 2 of Exhibit-1111 are read over to the witness, who has stated that he has not stated these facts, but has stated that he had seen Bipin Autowala, Guddu Chhara and Suresh leading the mob on the day of the incident. He had not seen Haresh Chhara.

144.40 The witness has denied that he has not seen any of the accused at the time and place stated in his examination-in-chief and that at the instance of the people of his community, he was falsely deposing before the court. The witness has admitted that like him, many other people had come on the road to see what was happening. The witness has denied that Piru had sustained bullet injury in the lane of his house and has stated that he had sustained a bullet injury at the entrance of Chetandas-ni-Chali. The witness has denied that the Muslims who had sustained bullet injuries, except Piru, were injured at the entrance of their lane, opposite the S.T. Workshop and has

voluntarily stated that those who were injured by bullets in front of his eyes, they were all injured in the nearby area of Chetandas-ni-Chali.

144.41 The contents of paragraph 7 of his examination-in-chief are read over to the witness to the effect that he had not stated such facts in his statements dated 23.5.2002 and 14.9.2008. (It may be noted that the statement dated 23.5.2002 is in respect of the loss, damage analysis and the statement recorded by the SIT is a subsequent statement. Therefore, unless a contradiction is pointed out in the first statement, not stating facts which are already stated in the first statement, would not amount to a contradiction.)

144.42 The contents of paragraph 7 of his examination-in-chief, from the last line of page 3 till the end of the paragraph, are read over to the witness to the effect that he had not stated such facts in his statement dated 13.4.2002. The contents of the first four lines of paragraph 8 of the examination-in-chief of the witness are read over to him. The witness has admitted that in his statements dated 13.4.2002 and 23.5.2002, he has not stated any fact regarding accused Kirpalsingh. The witness, however, has denied that in his statement dated 2.6.2008, recorded by the SIT, he has not stated these facts. The last four lines of paragraph 8 of the examination-in-chief of the witness are read over to him, wherein he has stated that ransacking was going on near the Noorani Masjid, in the meanwhile, the Muslims had started gathering near Chetandas-ni-Chali which is on the opposite side of the Noorani Masjid, to the effect that he has not stated these facts in his statements dated 13.4.2002, 2.6.2008 and

14.9.2008. In the opinion of this court, the fact regarding the Muslims having gathered near Chetandas-ni-Chali cannot be said to be so material an omission so as to amount to a contradiction.

144.43 The contents of paragraph 9 of his examination-in-chief, from the third line to the last line, are read over to the witness to the effect that he had not stated such facts in his statements dated 13.4.2002 and 23.5.2002. The contents of first five lines of paragraph 10 of his examination-in-chief are read over to the witness to the effect that he had not stated such facts in his three statements. The contents of paragraph 12 of his examination-in-chief, from the second line to the last line, are read over to the witness to the effect that he had not stated such facts in his statements dated 13.4.2002, 23.5.2002, 18.6.2004 and 14.9.2008. The contents of paragraph 12 of his examination-in-chief, from the second line to the last line, are read over to the witness to the effect that he had not stated such facts in his statement dated 2.6.2008.

144.44 The contents of paragraph 15 of his examination-in-chief are read over to the witness to the effect that he had not stated such facts in his statements dated 13.4.2002, 23.5.2002 and 14.5.2008. The contents of the first four lines of paragraph 15 of his examination-in-chief are read over to the witness. The witness has denied that in his statement dated 2.6.2008 recorded by the SIT, he has not given the names of accused Kirpalsingh and Suresh Chhara in the mob which came from the direction of Uday Gas Agency. The same extracts of paragraph 15 of his examination-in-chief are read over to the witness to the effect that he has not stated such facts in his

explanatory statement dated 18.5.2008. The contents of paragraph 15 of his examination-in-chief are read over to the witness to the effect that he had not stated such facts in his statements dated 13.4.2002 and 23.5.2002. The contents of the fourth line of paragraph 15 till the first line on page 9 of his examination-in-chief are read over to the witness to the effect that he had not stated such facts in his statement dated 2.6.2008.

144.45 The contents of paragraph 16 of his examination-in-chief are read over to the witness to the effect that he had not stated such facts in his statements dated 13.4.2002, 23.5.2002 and 14.9.2008.

144.46 The contents of paragraph 15 of his examination-in-chief are read over to the witness to the effect that he had not stated such facts in his statements dated 13.4.2002, 23.5.2002 and 14.5.2008.

144.47 The contents of paragraphs 18, 19, 21 and 22 of his examination-in-chief, are read over to the witness to the effect that he had not stated such facts in his statements dated 13.4.2002 and 23.5.2002. The contents of paragraph 17 of his examination-in-chief are read over to the witness to the effect that he had not stated such facts in his statements dated 13.4.2002, 23.5.2002, 2.6.2008, 8.6.2008 and 14.9.2009. The contents of paragraph 24 of his examination-in-chief are read over to the witness to the effect that he had not stated these facts in his statements recorded by the SIT.

144.48 In the cross-examination of this witness, it has come

out that he had no social or financial relations with Guddu, Suresh, Kirpalsingh and Bipin Panchal. The witness has stated that he is not aware whether accused Suresh has a mutton shop in this area and as to whether Guddu Chhara is a leader of his community. The witness has denied that he had a dispute with regard to some outstanding amount with Suresh and that Guddu had come with come with Suresh and that with a view to lodge a false complaint against Guddu and Suresh, he had gone to take help from Kirpalsingh and upon Kirpalsingh refusing to do so, he had felt bad and out of vengeance, he had wrongly given the names of all the three persons and that during the entire day of the incident, he had not seen any of the accused and that he is falsely deposing before the court.

144.49 The witness has denied that prior to the SIT recording his statement; he had not given the name of Bipin Autowala or attributed any role to him. (The trial court has put a note to the effect that in his statement dated 13.4.2002, the witness has specifically made reference to Bipin Autowala as Bipinbhai whom he knows.)

144.50 In his cross-examination, it has come out that the witness has seen Bipin Auto Centre which is on the opposite side of Uday Gas Agency. The witness has stated that he had no occasion for visiting Bipin Auto and that he had no occasion to meet Bipinbhai. The witness has admitted that in none of his statements, he has given the full name of Bipin Autowala and his address. The witness has stated that he knows him only in that manner, and, therefore, he has given his name and description accordingly. The witness has admitted that he has

not given the physical description of Bipin Autowala in his statements and that he has only described him as Autowala. The witness has admitted that his house at Hussainnagar has been repaired by the Jamat people. The witness has admitted that the Islamic Relief Committee has repaired the house of all Hindus and Muslims at the spot. The witness has denied that as tutored by the Islamic Relief committee, he was wrongly giving the name of Bipin Autowala.

144.51 PW-300 Shri N.S. Malek, the assignee officer in his cross-examination has admitted that he has recorded the statement of this witness on 23.5.2002. The assignee officer has admitted that this witness has not named Kirpalsingh and Suresh Langdo before him. The assignee officer has admitted that this witness had stated before him that on 28.2.2002, as there was a call for Gujarat Bandh, he had not opened his shop and had kept a holiday and was at home and in the morning, at around 9:30 to 10:00, the mobs had gathered on the road and there were incidents of stone pelting and arson and he had gone on the road to watch and saw that on both the sides of the road, mobs of people had gathered, due to which, he returned home. However, people from the chawl had also gathered there and he locked his house and took his wife and children and together with the people of the other chawls, went on the rear side of the chawl to Jawannagar near the S.R.P. compound wall. However, they were not permitted to go inside the S.R.P. headquarters. Hence, they sat near the compound wall. However, mobs of people were pelting stones on them and hence, they went to Gangotri Society and several people from Gangotri Society as well as S.R.P. were standing there. They advised them to go towards the field. However,

they had not gone and after coming back on the road tried to go to Zikarhasan-ni-chali on the other side. However, there is a two storeyed house of Umrudin Pinjara in Hussain-ni-chali, in that house as well as near that house, several people of their community were sitting and those people shouted at them and, therefore, they went together with the people of their chawl in that house.

144.52 The assignee officer has denied that the witness in the statement recorded by him had stated that on the day of the incident they were roaming around to protect themselves and had also come on the National Highway road and were trying to cross the National Highway road and go to Zikarhasan-ni-chali on the other side of the road.

144.53 Certain extracts of paragraphs 13, 15, 18 and 21 as well as the contents of paragraphs 7, 12, 16, 17, 19 and 22 of the examination-in-chief of the witness are read over to the assignee officer, who has stated that insofar as paragraph 13 is concerned, the witness has stated that they were not being permitted to enter the S.R.P. Quarters. The assignee officer has admitted that the witness has not stated the contents of paragraph 15 and 18 and 21 of his examination-in-chief in the statement recorded by him.

144.54 Insofar as the contents of paragraph 7 of the examination-in-chief are concerned, the assignee officer has denied that all the facts stated therein have not been stated by the witness. He has stated that the witness has not stated as to from which spot, the mob was coming but he has stated that he had come out on the road and that on both the sides of the

road, mobs of people had gathered, however, the rest of the facts have not been stated by him.

144.55 The assignee officer has admitted that the facts stated in paragraphs 12, 16, 17, 19 and 22 of his examination-in-chief have not been stated by the witness in the statement recorded by him. Certain extracts of paragraphs 9 and 10 of the examination-in-chief are read over to the assignee officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him.

144.56 PW-178 Shri P. N. Barot, the Investigating Officer has admitted that he has recorded the statement of this witness on 13.4.2002.

144.57 The contents of the statement recorded by the Investigating Officer are read over to him and he has admitted that such facts have been stated by the witness in the statement recorded by him. However, the contents of the police statement have been simply put to the witness without seeking to contradict any part of his examination-in-chief, and hence, it was not permissible to bring on record the contents of the police statement. The evidence of the Investigating Officer to the extent the contents of the police statement are brought on record is, therefore, inadmissible in evidence.

144.58 The Investigating Officer has admitted that this witness had not stated before him that he had gone to the terrace of Gangotri Society. The Investigating Officer has further admitted that this witness had not named Kirpalsingh before him nor had he attributed any criminal role to him. The

Investigating Officer has admitted that the witness had not stated before him that the Hindu mob had set the Noorani Masjid ablaze and had pelted stones at the Noorani Masjid. The Investigating Officer has admitted that this witness in the statement recorded by him had not stated as to where the accused were on the day of the incident; what they were doing and which weapons were in their hands as well as at which time they were there. He, however, has clarified that the witness had given the names of the accused, the role played by them as well as their surnames in the statement recorded by him.

144.59 Certain extracts of paragraph 7 of the examination-in-chief of the witness are read over to the Investigating Officer, who has denied that the witness had not stated all these facts in the statement recorded by him. The Investigating Officer has stated that the witness had stated before him that the mobs had come on the road opposite the Noorani Masjid from the side of Naroda Patiya as well as from the side of Krushnanagar shouting and making a lot of commotion and had charged towards the Noorani Masjid and both the mobs had merged and were pelting stones at the chawls, in the statement recorded by him. However, the other facts have not been stated by him.

144.60 The last four lines of paragraph 8 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein he has stated that while ransacking was going on near the Noorani Masjid, the Muslim people had started gathering at Chetandas-ni-Chali, which is on the opposite side of the Noorani Masjid. The Investigating

Officer has admitted that the witness had verbatim not stated such facts before him but had stated that several people from the chawl had come at the corner of the S.T. compound wall to see what was happening on the highway. Except this, the other facts stated in the four lines, have not been stated by him in the statement recorded by him.

144.61 The contents of paragraph 9 from the third line to the last line are read over to the Investigating Officer, who has admitted that the witness had not stated such facts in the statement recorded by him but had stated that he could hear sounds of firing.

144.62 The contents of the first five lines of paragraph 10 of the examination-in-chief of the witness are read over to the Investigating Officer, who has denied that all the facts have not been stated by the witness in the statement recorded by him. The Investigating Officer has stated that the witness had stated that he had heard the sounds of police firing and that the police were releasing teargas shells.

144.63 The contents of paragraph 12 of the examination-in-chief of the witness from the second line to the last line are read over to the Investigating Officer, who has admitted that these facts have not been stated by the witness in the statement recorded by him.

144.64 The contents of paragraph 13 of the examination-in-chief are read over to the Investigating Officer, who has admitted that the witness had not stated such facts in the statement recorded by him. However, he had stated that he

had gone near the S.R.P. Group-II compound wall.

144.65 The contents of paragraph 15 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that the witness had not stated such facts in the statement recorded by him, but had stated that at this time, armed mobs of thousands of Hindus in such fury as had never been seen before had come.

144.66 Certain extracts of paragraphs 16 to 19 and 21 and all the facts stated in paragraph 22 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that this witness had not stated such facts in the statement recorded by him.

144.67 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross examination, admitted that he has recorded the statements of this witness on 2.6.2008, 18.6.2008 and 14.9.2008. The Investigating Officer has admitted that this witness in his statement dated 2.6.2008 had stated that this mob had come near the masjid and had pelted stones and had damaged the masjid and nearby shops of Muslims and had set them on fire and had caused damage to the Muslims due to which, the Muslim youth from the chawl, for the purpose of protecting the masjid, gathered together and the Hindu mob started pelting stones at the Muslim mob and at this time, Naroda Police Station Senior P.I. Shri K.K. Mysorewala and Second P.I. Shri Gohil were present with their vehicles and staff near the Noorani Masjid in the middle of the opposite mob, and the S.R.P. police people were also present. Upon the Hindu mobs coming towards their chawl, the mobs of

both the communities came opposite each other and there was stone pelting, whereupon, the above referred police officers and policemen fired upon the Muslim mob, due to which, four to five persons in the Muslim mob were injured by bullets. Other than this, the two statements recorded by the police on 13.4.2002 and 23.5.2002 have been read over to him and they are correct and proper.

144.68 The Investigating Officer has admitted that this witness had not stated before him the fact regarding “near S.T. Workshop Gate”, but has clarified that the witness had clearly stated “Opposite the Noorani Masjid”, which means “the S.T. Workshop Gate”.

144.69 The Investigating Officer has admitted that this witness in his statement dated 18.6.2008 has stated that he has been shown the attached complaint application with Naroda Police Station I-C.R. No.177/02 for the offences under sections 143, 147, 148, 149, 395 etc. of the Indian Penal Code, which application is read over to him and that the complaint application has been made by him.

144.70 The Investigating Officer has admitted that this witness has in his statement dated 14.9.2002, stated that on 2.6.2002, he had given the names of Bipin Autowala, Guddu Chhara and Suresh Langda Chhara, Kirpalsingh who is a person of Mayaben Kodnani and Safai Kamdar Kesha Popat. In the context of why he had not given the names of these accused in the earlier statement, he has stated that they were at the Shah Alam camp when the police had recorded his statement. At this time, he was in a state of shock on account of the Naroda

Patiya incident and his mental position was not good at that time and at the relevant time, the names of the persons whom he could remember were involved in the riots, had been stated by him; since he could not remember the names of the other accused, they were not stated at that time; thereafter, he had given the names of such persons who were involved in the riots, before him.

144.71 The Investigating Officer has admitted that this witness in his statement dated 2.6.2008, has not mentioned any fact regarding saffron bands being tied, as stated by him in paragraph 7 of his examination-in-chief. He has further admitted that the witness had not stated all the facts stated by him in paragraph 7 of his examination-in-chief in his statement dated 14.9.2008. He has clarified that as stated by him earlier, the statement dated 14.9.2008 was for a limited purpose and that the main statement was dated 2.6.2008.

144.72 The contents of first four lines of paragraph 8 of the examination-in-chief of this witness are read over to the Investigating Officer, wherein he has stated that Bipin Autowala was in this mob. The police was there and behind the police, Kirpalsingh was there who was in the mob who had come near the gate of the Workshop opposite the Noorani Masjid. The Investigating Officer has admitted that in his statement dated 2.6.2008, in these four lines, the witness has not stated anything regarding Kirpalsingh. He, however, has stated that the meaning of this fact stands included that he has stated that "Opposite the Noorani Masjid".

144.73 Certain extracts of paragraph 8 of the examination-

in-chief of the witness are read over to the Investigating Officer, wherein the witness has stated that while damage was being caused to the Noorani Masjid, in the meanwhile, the Muslims had come to Chetandas-ni-Chali which is opposite the Noorani Masjid and had started gathering there. The Investigating Officer has admitted that this witness has not stated such facts in his statement dated 2.6.2008. He, however, has denied that this witness has not stated such facts in his statement dated 14.9.2008. The Investigating Officer has stated that the witness had stated before him that he and other Muslims of the chawl were standing at the entrance of Chetandas-ni Chali when they saw. Certain extracts of paragraph 10 of the examination-in-chief of this witness are read over to the Investigating Officer, wherein he has stated that at the site of firing, five persons were injured by bullets before his eyes. Amongst the persons who were injured in the firing were Abid, Khalid, Pirubhai Painter and Kaladiya. During this period, on account of firing, all of them were stunned. The Investigating Officer has admitted that this witness had not stated such facts in the statement dated 14.9.2008.

144.74 Certain extracts of paragraph 12 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that the witness had not stated such facts in his statements dated 18.06.2008 and 14.09.2008, but has clarified that both these statements were only for the limited purpose of making certain clarifications.

144.75 The contents of last two lines of paragraph 12 of the examination-in-chief of the witness are read over to the

Investigating Officer, wherein he has stated that he was present in lane No.5, who has admitted that the witness has not stated such facts in his statement dated 2.6.2008. He, however, has clarified that the witness had stated that he was nearby the police. The contents of paragraph 13 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that the witness has not stated such facts in his statement dated 2.6.2008.

144.76 It appears that there is some mistake in recording the evidence of this witness, inasmuch as after reproducing the contents of paragraph 13 of the examination-in-chief of the witness, the Investigating Officer has clarified that all these facts find place in the main statement of the witness dated 2.6.2008, whereas the statement dated 14.9.2008 was only for the limited extent of clarification.

144.77 Certain extracts of paragraph 15 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein he has stated that after sometime, a mob had come from the direction of Uday Gas Agency; the people in the mob were armed with weapons and in this mob, Bipin Autowala, Guddu Chhara, Kirpalsingh and Suresh Langda were present. The Investigating Officer has admitted that this witness had not named these four accused in his statement dated 2.6.2008, but has referred to a mob. He, however, has clarified that in the first statement, the witness had mentioned the names of Bipin Autowala, Guddu Chhara, Suresh Langda and Kirpalsingh in the mob that was present in the morning. Thereafter, the witness had referred to a mob having come from the direction of Uday Gas Agency at

4 o'clock, wherein he had not given the names of any of the accused. That when the witness had referred to a mob having come in the open ground in the evening on the day of the incident, the witness has named Guddu Chhara and Bipin Autowala in that incident.

144.78 The Investigating Officer has admitted that this witness in his statement dated 18.6.2008 had not mentioned the presence of Kirpalsingh in the mob.

144.79 Certain extracts of paragraph 12 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein the witness has stated that certain persons out of these people had climbed on Tiniya Marathi's terrace near S.R.P. compound wall and amongst them (the Muslims), there were women, men and children. The Investigating Officer has admitted that such facts have not been stated by the witness in his statement dated 2.6.2008.

144.80 The contents of paragraph 16 of the examination-in-chief of the witness are read over to the Investigating Officer who has admitted that the witness has not stated such facts in his statement dated 14.9.2008, but has clarified that the statement dated 14.9.2008 was for the limited purpose of clarification, whereas the witness had stated all these facts in statement dated 2.6.2008.

144.81 The contents of paragraphs 17 and 24 of the examination-in-chief of the witness are read over to the Investigating Officer who has admitted that the witness has not stated such facts in all the three statements recorded by

him.

144.82 From the cross-examination of the Investigating Officer, it is apparent that he has recorded as many as three statements of this witness. The first statement being the main statement dated 2.6.2008 and the subsequent statements are clarificatory statements. Therefore, if certain facts are stated in the first statement dated 2.6.2008, it is not necessary for the witness to reiterate the same in his subsequent statements. Therefore, non-stating of certain facts in the subsequent statements would in no manner amount to an omission, leave alone a material omission amounting to a contradiction. Under the circumstances, such questions ought not to have been permitted to be put to the witness as well as to the Investigating Officer, inasmuch as, the same is not admissible in evidence and has resulted into unnecessarily increasing the volume of the evidence.

144.83 SUBMISSIONS: The learned counsel for the appellants submitted that considering all the facts that have come on record, as far as accused No.62 Kirpalsingh is concerned, his name was not mentioned in both the incidents in the police statement dated 13.4.2002, whereas as far as the statement recorded by the SIT is concerned, the name of Kirpalsingh is not there in respect of the second incident, that is, the incident after 4:30 in the evening. It was submitted that Kirpalsingh's name has come up for the first time before the SIT. It was submitted that as far as Bipin, Guddu and Suresh are concerned, their names are mentioned in both the police statements, whereas, as far as the second incident is concerned, only the names of Bipin and Guddu are mentioned

and the name of Suresh is missing in the SIT statement. It was submitted that in the police statement, the names of all the four accused in respect of the second incident are not there including the incident of stone pelting from the terrace as well as the motive alleged to drive them out at the field, which is situated on the back side of Gopinath. It was submitted that in the first statement before the police, the witness has not named Kirpalsingh qua both the incidents and he has also not named the remaining three accused for the evening incident. He does make a reference only of the names in the mob without any further attribution to Bipin (A-44), Guddu and Suresh (A-25). It was submitted that as far as the SIT statement is concerned, the witness admittedly does not mention Kirpalsingh and Suresh in the evening incident and for the evening incident, the names of Bipin and Guddu are mentioned. It was submitted that before the SIT for the morning incident, the names of all the four accused are shown only as a part of the mob without attributing anything. It was submitted that the witness is not a reliable and trustworthy witness who in his entire examination-in-chief has narrated a new story.

144.84 The learned counsel for the appellants further submitted that this witness has been residing at Lane No.3, Hussainnagar since 12 years prior to the incident. It was submitted that the accused who were at the Noorani Masjid were either destroying the properties at the Noorani Masjid or attacking the Noorani Masjid, hence, the people standing at Chetandas-ni-Chali would be able to see the backs of those people, and hence, would not be in a position to identify them as they would not be able to see their faces. It was submitted

that in the cross-examination of this witness, it has come out that he had gone from Gangotri Society to Hussainnagar which is highly improbable inasmuch as when the incidents were at their peak, it was not possible for anyone to go from Gangotri Society to Hussainnagar. It was submitted that this witness has given evidence which is contradictory to the evidence of various other witnesses and certain facts stated by this witness have not been stated by any other witness. It was submitted that this witness has no occasion to come in contact with the named accused before the incident, and therefore, he has not given the name of the accused in his police statement and he gave those names only before the SIT and before the court. It was submitted that having regard to the overall testimony of this witness, the same does not inspire confidence and cannot be relied upon for the purpose of establishing the charge against the accused.

144.85 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that the presence of this witness at the scene of offence is established. The witness has also identified Suresh and Kirpalsingh before the court and in case of accused Bipin, there was an exemption application, and hence, there is deemed identification. It was submitted that this witness has stated that the accused were armed with lethal weapons in the mob. He has not seen any incident of killing and he has, therefore, deposed only about the mob damaging the properties and setting them ablaze.

144.86 It was submitted that insofar as the accused No.62 is concerned, his name appears in the statement dated 2.6.2008 recorded by the SIT, but not earlier. It was contended

that in view of the fact that before the SIT he had already named accused No.62, not mentioning the name of the accused in the police statement, cannot be termed to be an omission amounting to contradiction.

144.87 It was submitted that when the defence has suggested some omission in respect of the statement before the police, there is no reference to the statement in further investigation, and therefore, the such omission cannot be termed as an omission as per law. It was submitted that therefore, the evidence of this witness is not in contradiction of the narration before the police and in the further statement, and hence, so far as the accused No.22, 44 and 62 are concerned, the prosecution has proved beyond doubt the presence of the accused through this witness.

144.88 ANALYSIS: Considering the entire evidence of this witness, it appears that a major part of what has been stated by him in his examination-in-chief has not been stated by the witness in his statement dated 13.4.2002 recorded by the police. The subsequent statement dated 23.5.2002 is in the nature of loss and damage analysis statement. After considering the omissions and contradictions brought out in the cross-examination of the witness, it emerges that on the day of the incident at around 9:00 to 9:30, he had heard that mobs had come from outside and were damaging shops near the Noorani Masjid and were burning the shops and houses. Upon hearing this, he came on the road and stood at the corner of Chetandas-ni-Chali where, at present, there is a police chowky and was watching from there. When he came out he saw a huge mob near the Noorani Masjid. One mob was

coming from the direction of Krushnanagar and another mob was coming from the direction of Natraj Hotel. Bipin Autowala was present in the mob. In the mob which was towards the Noorani Masjid, he had seen Guddu Chhara and Suresh Langdo. At that time, a Hindu mob was pelting stones at the Muslims. There was a firing by the police, due to which, they started running hither and thither in their lanes. It must have been around 12:00 to 12:30 in the afternoon. From the lanes, he went to his house in Hussainnagar, locked his house and took his family members, and till about 4 o'clock they were hiding in the lanes and thereafter, they all went and sat outside the S.R.P. compound wall near Jawannagar. It was around 4:30 in the evening at that time. Subsequently, they went near Gangotri Society and returned to Lane No.4 of Hussainnagar and went to the house of Umrudin Mansuri where many Muslims were hiding. Late at night, the police came and took them in a bus to Shah Alam relief camp.

144.89 From the testimony of this witness, after considering the omissions and contradictions, it is evident that the core part of his deposition, wherein he has named Kirpalsingh in the mob near the S.T. Workshop gate has not been stated by him in his statement recorded by the police. Thus, the witness is consistent only in respect of the presence of Bipin Autowala, Guddu Chhara and Suresh Langdo in the mob in the morning incident. None of the other facts had been stated by him in the statement recorded by the police. At a subsequent stage, after a period of more than six years, the witness has named Kirpalsingh in the statement recorded by the SIT and has also attributed specific role to him, one in the morning and the other in the evening. In the police statement,

the witness has attributed roles only to Bipin Autowala, Guddu and Suresh Langdo in the morning incident; however, before the SIT there is a considerable improvement in the statement wherein he has stated that he had seen all the four accused with weapons. The allegation made insofar as the evening incident is concerned, is that he had seen some of these persons climb on the terrace of Tiniya Marathi's house and pelt stones from there. Insofar as this version is concerned, no other person has given such a version regarding stones being pelted from the terrace. The testimony of this witness runs into as many as 89 pages, comprised of 139 paragraphs. In case of almost every witness, the defence has cross-examined them at such a great length bringing on record relevant as well as irrelevant material and thus unnecessarily burdening the record.

144.90 From the cross-examination of the witness (paragraph 91), it emerges that at the time when the police vehicle came to pick them, there was a child with the police, who had sustained burn injuries on its hands and legs. The witness has admitted that the custody of this child was handed over to someone and that the child had sustained burns on its hands and legs and the police had found the child crying amidst the corpses and had brought the child there. This part of the testimony of the witness corroborates the testimony of PW-294 Shri Gondia, who has stated that he has rescued a child from the heap of dead bodies.

144.91 On an overall analysis of the testimony of this witness, it appears that he has made substantial improvements in his original statement and does not come

across as a truthful or credible witness. The testimony of this witness cannot be taken into consideration insofar as accused Kirpalsingh is concerned, inasmuch as, his name has been revealed for the first time after more than six years in the statement recorded by the SIT. Insofar as accused No.22 Suresh Chhara and accused No.44 Bipin Autowala is concerned, there is no omission or contradiction as regards their presence in the mob in the morning. Therefore, to that extent, the testimony of this witness is required to be taken into consideration.

145. **PW-158 Naemuddin Ibrahim Shaikh** has been examined at Exhibit 1124. This witness has deposed that he was residing at Chetandas-ni-Chali since he was one and a half years old and was residing at Hussainnagar Lane No.3, since the last fifteen years. In the year 2002, he was residing with his family which was comprised of his mother Abedabibi, his father Ibrahimbai, his wife Zarinabanu, his daughter Fauzia, his brother Maheboobsultan, his brother's wife Kausarbanu, his brother's daughter Mahenoorbanu, his divorcee sister Saidabanu and her daughter Gulnazbanu. In 2002, his father used to ply a rickshaw and he used to sell bakery products like biscuits, toast, bread etc. from lane to lane going around on a bicycle. His brother used to drive a rickshaw and his sister used to do tailoring work.

145.1 The incident took place on 28.2.2002. On that day, the Hindu Parishad had given a call for Gujarat bandh.

145.2 On that day at around 6:30 in the morning he went to Jawannagar to sell his bakery items. After selling the goods,

he returned home at around 9:00 in the morning. When he returned home, Hajrabibi Abdulrahim Shaikh who is known as Jadikhala asked him if he had heard something and that the atmosphere does not appear to be proper. While they were talking, they could hear shouts from outside and there were sounds of '*Maaro! Kaapo!*' (Kill! Cut!), which were horrific. Sounds of gas cylinders bursting could also be heard and he was very worried.

145.3 On account of these sounds he ran in front to where Rashidbhai's house is situated. Rashidbhai's house is situated towards the S.T. Workshop in the lane in front of his house. Rashidbhai's house is two storeyed and he had climbed on its terrace. Upon climbing the terrace he could see the Noorani Masjid clearly and loud voices could be heard saying '*kill and cut the Miyans*' and the mobs were pelting stones. Mobs were also coming from Krushnanagar and Patiya. The people in the mobs coming from both the sides were mostly armed with swords, hockey sticks and other weapons. Only a very few people did not have any weapon in their hands.

145.4 He saw that the people in the mob were attacking the masjid. Out of the persons from their chawl who had gathered below someone told him '*Naem run, the atmosphere is very bad*'. Abid has been injured by a police bullet and is dead and Khalid has also sustained a bullet injury on his stomach and is alive. Upon all this happening, he was worried and went home.

145.5 Upon returning, he saw that Khalid was made to lie down at Jadikhala's house and he was bleeding profusely.

Khalid was brought to Jadikhala's house in a cart. His mother suggested that they read the Quran as in such time it is only Allah who can support them. Their entire family was reading the Quran Sharif and they must hardly have read a little when they could hear people saying that the mob has entered everywhere in Jawannagar and Hussainnagar and is burning people alive, and hence, they told them to come out. At this time out of fear, they locked the house and left it and the entire family went towards Jawannagar.

145.6 There was a house in Jawannagar where they secured the chain from inside and hid. They must have hardly stayed in the house for about half an hour when they started hearing sounds of gas cylinders bursting there also and the mobs had started coming. Hence out of fear they went from there and took shelter in Gauriapa's house which is on the rear side. There were many frightened children, old people, youth, women, men and many persons of their chali were sitting and hiding there. The people there were saying that it was certain that now they would have to die, hence out of her they went from there to Gangotri Society where he used to go to sell buns and came down from the staircase of Gauriapa's house and went to Gangotri Society. Other persons from their chali also came with them.

145.7 When they were at Gauriapa's house, it must have been around 1:30 to 2:00 in the afternoon. When they went to Gangotri, there was a hosiery factory in a closed condition. This was a very big place and many Muslims had gone to this place. All of them hid in the factory. At that time the shutter was half closed and from the half open shutter an S.R.P. person

told them that they should hide and sit there. He does not know the name of the S.R.P. person but his surname was Malek. They sat at that place till 5:00 to 5:30 in the evening.

145.8 At around 5:00, an S.R.P. person came and lifted the shutter of the factory and told them that arrangement for their safety has been made and that police vehicles would take them to the safe places and therefore they should go. Trusting the S.R.P. person they set out towards Gopinath Society at that time Kudratbibi's and Hajrabibi @ Jadikhala's families and people from their chawl and his family were there.

145.9 Till they reached Gopinath Society they could not see any police vehicle and hence they were worried. Till the end of Gopinath Society there was nothing, viz., there was no arrangement for their safety or police vehicle. At this spot there is an open ground. In this ground a mob with weapons was coming towards them shouting "Cut! Kill!" Such mob was coming from the direction of Naroda Navyug School. On seeing the mobs, they were frightened but there was no other way.

145.10 To escape from this ground, they tried to go inside the S.R.P. Quarters where there were S.R.P. people and police, all of whom were in uniform. They went to them for help and folded their hands and beseeched them; however they did not let them enter the S.R.P. Quarters. Jadikhala, who is overweight, had fallen at the feet of the policemen and the S.R.P. personnel and requested them that even if they do not take the men inside, they should at least take the women and children amongst them inside for their protection. However, the police and the S.R.P. present there jabbed them with the

butts of their guns and sticks and did not let them enter the S.R.P. Quarters.

145.11 Since they had no alternative, his mother Abedabibi had said *"Let us go home, if we die, at least we will die at home!"*, hence to return to their home they took the road from Gopinath Society. They had gone only slightly further from Gopinath Society, when the people of Gopinath Society and Gangotri Society in the form of a mob surrounded them and when they reached the water tank situated there, the mob comprised of people from Gopinath and Gangotri and others, who were wielding weapons like swords, dharias, hockey sticks, bamboos, etc., started assaulting them and pelting stones at them. When they were near the water tank the mob surrounded them from both sides and attacked them. They were indulging only in killing and hacking, and were saying *"cut and kill the miyas"* and were attacking them. Majority of the people in this mob were from Gopinath Society and Gangotri Society and there were other people also. The witness has deposed that he can identify the people from Gopinath and Gangotri Society if he sees them.

145.12 The witness has deposed that even today when he closes his eyes, he can see twenty five to thirty persons from the mob in front of his eyes and he cannot forget the manner in which they had hacked and killed with the weapons. At this time, Kudratbibi's entire family, Jadikhala @ Hajrabibi's entire family, Jadikhala's two daughters-in-law and his family etc. were there. Over and above them, Kausharbanu's family, Kausharbanu's maternal aunt's family, Gauriapa's brother in law Salaam, Farzanabanu, Farhanabanu and others were there.

145.13 At this time, his wife Zarina, his daughter Fauzia, his paternal cousin Abdulaziz, Haroon, Yunus, Yunus' wife from their chawl, etc. fled by jumping over the wall in the lane in front. The people, who had got separated from them and had gone in this manner, were surrounded by the mobs wherein his wife was pulled by four persons in the mob and was being beaten. He saw with his eyes that her left hand was cut with a sword and she was struck with a sword on her right hand and a sword blow was also inflicted on her head and she was hit with a hockey stick on her leg.

145.14 They started tugging at his wife's clothes and tearing them and continued till there was not a single cloth on her body. At last she was rendered totally naked. He had seen the entire incident.

145.15 Apart from this, where they were standing near the water tank shouts of "Kill! Cut!" were continuously heard and the mob had continued attacking different persons with whatever weapons they had. At this time there were four women from the society who were giving kerosene to the people in the mob and were telling that after they kill these people they should burn them, all of which he had heard and seen. He knows all the four women by their faces, because he used to go to sell bread, biscuits, etc. in their area and their family members had the bakery items which he used to sell for breakfast.

145.16 At this time, the people in the mob hit him on his right hand with an acid bottle, due to which his shirt was torn

and his muscles had come out from his right shoulder and he was wounded. Thereafter he was also struck on the thigh with something and he was hit on the head and hand with a sword. There are still marks on his head and hand. At that time screams of "*Help! Help!*" were heard from all four sides.

145.17 The witness has deposed that they had relations of exchanging pleasantries with the people of Gangotri and Gopinath Society; however they did not even feel pity on their screams for help and today also he is astonished by the extremely inhuman behaviour of the people of Gangotri and Gopinath Society towards them.

145.18 The mob comprised of the people of Gangotri and Gopinath Society and others, including the four women, poured kerosene over his entire family namely his mother Abedabibi, his sister Saidabanu, etc, Saidabanu's daughter Gulnazbanu, Jadikhala and Kudratbibi's family and set them ablaze. His sister Saidabanu was severely burnt.

145.19 Out of those who died at the water tank spot, out of Kudratbibi's family Kudratbibi was severely burnt and ultimately died in the Civil Hospital, Kudratbibi's son Sabbir died on the spot in this very incident, his mother Abeda also died on the spot, his sister Saida's daughter Gulnazbanu also died on the spot and his sister did on the next day at the civil hospital on account of being burnt in the incident. Kausharbanu's mother and her maternal aunt died on the spot. Kausharbanu was pregnant; she also died on the spot. In this very incident, Farzana's daughter Farhanabanu and Gauriappa's brother in law Salaam died on the spot. Jadikhala

and her two grandsons also died in the incident. At that time he and Abdulaziz's two sons Wasim and Salim were lying with him in a wounded condition. In front of his eyes, a woman from Gopinath Society came and pulled Wasim and Saleem on the tank and in front of his eyes she threw them from the tank into the fire and in this manner both the children died on account of being thrown in the fire.

145.20 The entire incident took place prior to seven in the evening and it was still bright and it was not dark. In the incident he lay on the spot in a wounded condition. He lay there in a partly unconscious position.

145.21 He has also stated before the SIT that he knows the people who committed the incident by face however, the SIT people did not take him anywhere. He had also told the SIT about his wife Zarina's incident however, nothing had happened in this regard in the SIT.

142.22 All of them were lying in a different manner on account of being burnt or attacked with weapons out of whom, Farzana, he, Maharooof, Maharooof's son, daughter, Farzana's daughter Reshma, Bibibanu, her daughter Parveen, Jadikhala's both daughter-in-laws Sufiya and Shabana, Sabera and his sister Saidabanu etc. were there. Out of whom, Farzanabanu was in a half naked condition, his sister and Sabera were in a totally naked condition all of which he had seen. Even he was beaten on the back and his pant was torn.

145.23 At this time, sounds of painful voices and screams of his mother, Jadikhala and others were coming and the

children lying nearby were screaming. His dying mother, till her last breath kept saying his name Naem Naem. She and Jadikhala and others were also saying "*Ya Allah! Ya Allah!*" There was unimaginable fire on all four sides.

145.24 All of them were lying in a half dead condition at the spot. After a long time the police vehicle had come. All of them were very terrified and frightened and they thought that maybe someone must have come to kill. However the police came and uttered unbearable abuses and kicked their bodies and asked as to who was alive and he mustered courage and said that he was alive and they said that they should lie in the same position and that they were coming with a big vehicle. After some time they came with a vehicle. The police did not help him in going from there to the vehicle and said that throw those who are alive in the truck. Those of them who were alive both naked and burnt helped each other and somehow reached the vehicle. Kudratbibi who was alive was overweight however, taking support of each other they had reached the vehicle brought by the police. The police told them that their heads must not be seen or they will be set on fire and they hid themselves in the vehicle and they took them to the Civil Hospital.

145.25 It was only when they actually reached the Civil Hospital that they had felt they had reached the hospital; otherwise, they had felt that these people would kill them and that they were taking them to kill them. The witness has stated that though the treatment was not satisfactory, they were given treatment. They stayed at the Civil Hospital for six to eight days.

145.26 His brother told him that his wife is alive and that her hand has been cut and she is at the V.S. Hospital. Thereafter, he went to meet his wife at the Vadilal hospital. His wife had 56 stitches on her head and her hand had been operated and a rod was inserted and even today her left hand is useless and she cannot do anything with her left hand. She was required to take stitches on her right hand also and even today there are marks of stitches. She also has marks on her left hand till date. He stayed at the V.S Hospital for two days and then went to the Shah Alam Relief Camp and his wife came after her treatment was over.

145.27 In the entire incident their house and their world was destroyed before their eyes.

145.28 At the Shah Alam Camp his wife's mental condition was very bad. She used to remain lost throughout the day and used to remember the events of the day of the incident and become very melancholic and used to say that the moment she remembered the incident she felt that a nerve in her brain would burst. Today also she gets very upset when she remembers the incident.

145.29 After eight days at the Shah Alam Camp she told him that when she was running in the passage of Gopinath and Gangotri on the day of the incident, four youth had attacked her on her hand and head and had also raped her. While narrating this incident she was crying profusely and was saying that he should not tell anyone about it, or they would lose their prestige. She had also told him that she did not know any of them,

but they four youths appeared to be Marathis.

145.30 The police had recorded their statements about the incident, however, at that time their condition was so bad that they were not even in a position to speak. They had given their statements to the police but did not know as to what they were writing down and only Allah knows. They did not read over their statements to them.

145.31 The police had recorded their statements several times. The police must have recorded his statement around four to five times. He does not know exactly. They used to come, record his statement and go away. The S.I.T. people had called him. He had made an application to S.I.T. after which he was called to Gandhinagar. The S.I.T. had also called him a second time and recorded his statement a second time.

145.32 Even today, he can identify the four persons who pulled his wife. Over and above that he can also identify all the persons involved in the incident near the water tank. The witness has thereafter identified accused No.30 Shashikant @ Tiniyo Marathi as being near the water tank and hacking and killing people.

145.33 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that he was engaged in the business of selling biscuits, buns and bread, etc. since the last nine years prior to the incident. He used to make rounds from six to ten in the morning. The witness has admitted that ordinarily he would be acquainted with the people at whose houses he went to sell the biscuits etc. The witness is cross

examined regarding the topography and the manner in which he used to sell biscuits etc.

145.34 In the cross-examination of this witness, it has come out that he has not seen Khalid being injured by a bullet but has seen Khalid being taken in a cart after he was injured with his own eyes. When Khalid was brought to Jadikhala's house, he was there. Khalid was made to lie down on a cot in the Jadikhala's compound. It may be noted that PW 135 Hussainabanu in her testimony has stated that her brother was tied to an upside down cot and a blood stained mattress was placed over him. This part of the testimony of this witness supports the version given by Hussainabanu.

145.35 In his cross-examination it has further come out that he cannot say as to at what time they had left their house, because the situation was such that one would not know about it. From their house they had taken refuge in a house in Jawannagar and till they were in that house, no one had attacked them. From that house, they had gone to Gauriapa's house. He does not know how long they stayed at Gauriapa's house and has stated that his family, Kudratbibi and Jadikhala had left Gauriapa's house together. It has further come out that Gangotri Society starts immediately after Gauriapa's house. Gangotri Society starts from the rear wall of Gauriapa's house. They had crossed Gauriapa's terrace and gone to a place which was a factory. They had stayed for about two and a half to three hours in the factory. It has further come out that an S.R.P. person had told them to hide in the factory whose name was Manek. The water tank was at a distance of five minutes from the factory. The water tank is situated at the end

of Gangotri Society and there are residential houses near the water tank.

145.36 In his cross-examination it has been elicited that he was struck on the thigh due to which his pant was torn. He was hit with a bottle which was filled with something and upon being hit, it burned the body and the clothes would tear. It has further come out that he, Hajrabibi and Kudratbibi's families never got split up, while his wife and daughter Fauzia were separated from him. It has further come out that Kausharbanu and her family was also with him.

145.37 It has further come out that when the police vehicle came, other than him there were people who could not walk namely Saberabanu, his sister Saida, Kausharbanu's brother Sarmuddin, Mahammadmaharroof's son and daughter, Kudratbibi, etc. he, Maharroof and Jadikhala's two daughter-in-laws were instrumental in lifting the wounded in the vehicle. In his cross examination it has further come out that he was admitted in the E-7 ward at the Civil Hospital together with Mahammadmaharroof, Mahammadmaharroof's son and daughter, Bibibanu's daughter Parveenbanu, Farzana, Farzanabanu's daughter Reshmabanu and Sarmuddin. Sarmuddin who was extensively burnt died in E-7.

145.38 It has further come out that he had not asked Zarina as to whether she had narrated the incident to the doctor and has stated that he too had not informed any doctor at V.S. Hospital for the reason that at that time they did not have the courage to talk about this incident to anyone. It has further come out that he had stayed at the relief camp for

about two and a half months. After leaving the camp, out of fear, they did not return to their house but rented a place at Sundaramnagar. It is further elicited that at the time when he was admitted to the hospital he was under such a shock that he was not in a mental condition to talk.

145.39 In his cross-examination it has been elicited that while he was at the hospital he did not talk with the doctors and nurses and that due to shock he did not talk with anyone. He has admitted that the police had come to record his statement at the Civil Hospital and has stated that he may have given his name and address but he does not remember exactly what as to whether his statement was recorded on 3.3.2002. The witness is confronted with the contents of his statement dated 3.3.2002 without seeking to contradict any part of his testimony, which the witness has denied. In such statement it has been recorded thus: “.... On 28.2.2002 on *jhummerat* in the evening at 7 o’clock mobs of several Hindu people with swords, dharias, sticks, burning rags and cans filled with kerosene and petrol had charged upon the houses of Muslims in Hussainnagar shouting hack, kill. ...” “Therein these mobs were looting properties and setting them on fire due to which the scattered families of people ran out of their houses to save their lives and near Gopinath Society, the people in the mob surrounded me and sprinkled kerosene and set me ablaze due to which I have sustained burns on both my legs and hand and on the back of my waist and have sustained a stone injury on my head. In the meanwhile upon the police arriving, the people in the mob ran helter skelter and the police brought me to the hospital.” “I do not know anything regarding the condition of my other family members. The people in the mob

belonged to the Hindu community.” “I do not know the names and addresses of the people who sprinkled kerosene on me and set me ablaze and pelted stones at me.” Insofar as the statement dated 3.3.2002 of the witness is concerned, the court has noticed that the concerned assignee officer has recorded more or less identically worded statements of all the witnesses and does not appear to have recorded the statements as stated by the witnesses. The assignee officer has recorded that in the meanwhile, upon the police arriving there the mob started running helter skelter and the police had sent him to the hospital, which is not the case of any of the witnesses or even the police. Moreover, the witness has stated that he did not sustain any injury on his leg and he was injured on the head with a sword and not with a stone and he has not stated the facts as recorded in the statement. Evidently, therefore, such statement cannot be relied upon to contradict the witness.

145.40 The witness has admitted that on the date of the incident he was not set ablaze by sprinkling kerosene and throwing a burning rag on him. The witness has stated that something was thrown on his waist and right shoulder which caused burn injuries and was very explosive in nature and he clearly remembers that the injury on his head was caused with a sword.

145.41 The witness is also sought to be contradicted as to his dying declaration Exhibit 841 recorded by Urvashiben Silvansh Gohil, an Executive Magistrate.

145.42 The witness has admitted that he has not named

any accused or given their physical description or identification marks in any of his statements.

145.43 The witness is confronted with almost his entire statement dated 19.4.2002 recorded by Shri M.T. Rana, Assistant Police Commissioner, without pointing out which part of his testimony is sought to be contradicted. The witness has partly admitted and partly disowned the contents thereof. The witness has admitted that he had seen Hindu mobs on the terrace of the shops and they had poured kerosene and thrown burning rags on the people below and set them ablaze and pelted stones at them. In his cross-examination, it has come out that in his statement dated 19.5.2002, he had stated that he does not know the names of the persons who had sprinkled kerosene on the persons named in therein and burnt them alive but he is of the belief that they are residents of Gopinath Society and he can identify them if he sees them. The incident has taken place in front of his eyes and he himself is a victim who has sustained burns and hence he can identify them if he sees them.

145.44 The witness is also confronted with his statement dated 13.5.2002 which was in the nature of a loss and damage statement. The entire procedure adopted for cross examining the witness leaves a lot to be desired, inasmuch as the witness is first confronted with all his statements recorded by the investigating agencies without pointing out as to which part of his testimony is sought to be contradicted and in the process the entire contents of the statements recorded under section 161 of the Code are brought on record, which is impermissible in law. In view of the provisions of section 162 of the Code, a

statement recorded under section 161 can only be used to contradict a witness in the manner provided in section 145 of the Evidence Act. However, in this case the provisions of law have been given a go by and the witness is first confronted with his previous statements and subsequently at a much later stage, the omissions and contradictions are sought to be brought out.

145.45 The witness has admitted his signature of the application Mark 644/03 as well as the contents thereof and the same is exhibited as Exhibit 1130. The witness is thereafter cross examined regarding the manner in which the application was made.

145.46 The witness has admitted that his statement was recorded by the SIT on 27.5.2008. The witness (in paragraph 141) is confronted with a part of such statement without seeking to contradict any part of his examination-in-chief, which is not admissible in evidence.

145.47 The witness is cross examined regarding the topography of the area and he has admitted that his house is situated next to Jadikhala's house.

145.48 The witness has admitted that at the time of the incident near the water tank of Gopinath Society, Jadikhala was with him. The witness has admitted that Jadikhala was set ablaze near the water tank and had died there. The witness has admitted that Kausharbanu was with them in the hosiery factory as well as when they went to Gopinath Gangotri and Teesra Kuva. She was with them when they went to S.R.P.

Quarters and when they returned to the Gopinath Gangotri road.

145.49 In the cross examination of the witness it is brought out that the SIT people have not shown different people to him to identify the accused. The SIT people have not shown him photographs of the accused to verify as to whether any of them were involved in the offence.

145.50 In his cross examination, it has been elicited that his wife Zarina was under treatment for about two to two and half months. For two years after the incident she was required to undergo physiotherapy, however she could not lift her hand. For two years she needed her mother's help for her daily routine. Thereafter, she could manage on her own, but her hand is not working. He has further stated that the incident has had a very adverse effect on her mind and she becomes anxious and tense if there is any talk about the 2002 incident.

145.51 The witness is sought to be contradicted with his statement dated 3.3.2002 recorded by PW 296, however as discussed hereinabove, since the statement has not been recorded in terms of what the witness has stated, the contradictions and omissions qua such statement have no relevance. It may be noted that while the learned counsel for the defence had confronted the witness with his police statement in the context of various paragraphs of his examination-in-chief, he was not contradicted qua the contents of paragraph 21 thereof. However, for reasons best known to the learned Assistant Special Public Prosecutor, he has pointed out to the court that the contents of paragraph 21 of his

examination-in-chief have not been stated by the witness, though the defence had not sought to bring out such omission, which makes one wonder whether there was any prosecution at all.

145.52 The contents of paragraph 4 from the 6th line at page 3 to the end, the contents of paragraph 5 at page 4 from the second to the fourth line, the contents of paragraph 6, the contents of paragraph 7 except the last two lines, the first five lines of paragraph 8 at pages 5 and 6, the contents of paragraph 8 from the 3rd line to 6th line at page 6, the contents of paragraph 9 from the last line at page 6 to the end except for the last two lines, the contents of paragraph 10, the first five lines of paragraph 11, the contents of paragraph 12 except for certain facts in the last line, the first four lines of paragraph 13 and the last five lines thereof, the contents of the first four lines of paragraph 14, the contents of paragraph 15 and 16, the contents of paragraph 17 from the 6th line to the end, the contents of paragraph 18 and 19, the first two lines of paragraph 20, the last six lines of paragraph 21, the first two lines of paragraph 22, the last line of paragraph 24 at page 16 and two lines at page 17, the contents of paragraph 25, 26 and 27 and the contents of paragraph 30, 31 and 34 of his examination-in-chief are read over to the witness, to the effect that he has not stated such facts in his statement dated 19.4.2002 recorded by Shri Barot, which the witness has denied. Insofar as the contents of paragraph 19 of his examination-in-chief are concerned, the same are merely an expression of his emotions and cannot be said to be an omission.

145.53 Here also it may be pertinent to note that while the defence has sought to contradict the witness qua the first four lines of paragraph 14, the ever enthusiastic learned Assistant Special Public Prosecutor has pointed out to the court that the entire contents of paragraph 14 are not there in the statement.

145.54 The witness is thereafter read over various parts of his examination-in-chief to bring out omissions and contradictions as to his statement dated 19.4.2002 recorded by Shri M.T. Rana, his statement dated 13.5.2002 as well as his statement dated 27.5.2008 recorded by the SIT.

145.55 It may be noted that even in case where the witness has stated something in his previous statement, he is sought to be contradicted with that part of his testimony as to his subsequent statements. In this regard, it may be noted that once a witness has stated something in his first statement, he is not required to reiterate the same facts again and again in his subsequent statements which are only in the nature of further statements and therefore, not having stated facts already stated in the first statement would not amount to an omission and hence, the defence ought not to have been permitted to put such questions to the witness which has resulted in unnecessarily long and confusing deposition. Though this fact regarding a fact once stated in the first statement if not stated in the subsequent statements would not amount to any omission, was brought to the notice of the learned counsel on several occasions, the learned counsel persisted in pointed out all the so called omissions qua all the statements recorded.

145.56 The defence has cross-examined the Investigating Officer/assignee officers who have recorded the statements of this witness from time to time to bring out the omissions and contradictions in the testimony of the witness as to the statements recorded by them.

145.57 PW-296 Shri J. V. Surela, the assignee officer in his cross-examination has admitted that he has recorded the statement of this witness on 3.3.2002. In view of what is discussed hereinabove as regards the veracity of the statement recorded by the assignee officer, the omissions and contradictions as to such statement are not required to be referred to.

145.58 PW-277 Shri M.T. Rana has admitted that he has recorded the statement of this witness. After he had recorded the statement he had signed that it was recorded in his presence. He has admitted that he had read over the statement to the witness and he had accepted that the contents thereof were correct. PW-277 has admitted that this witness has stated before him that since S.R.P. people were residing in this society they had kept them in a closed factory and had pulled down the shutter from outside and had, accordingly, saved them for three hours. That the witness had stated that, therefore, they had gone towards Gopinath where there was a mob from the direction of Naroda which was assaulting Muslims. He has further admitted that this witness had stated before him that as there was fire there, he had got burnt on his back and upon his wife trying to flee, the people in the mob had cut her hands and had struck her on the head with a sword and thereafter he does not know where she had

gone. The contents of paragraph 4 wherein the witness has stated that Hajrabibi Abdulrahim Saiyed, who is also known as Jadikhala who lives in the neighbourhood, had told her whether she had heard that the situation is not proper. Upon this talk between them, from outside they could hear her shouts and sounds of “kill” “cut” started coming and the sounds were horrendous. That sounds of gas cylinders bursting started coming and she was terrified as well as the contents of paragraph 5, contents of paragraph 6 from the second line till the end and the contents of paragraph 7 except for the last two lines, the contents of paragraph 8 except the last three lines, the facts stated in paragraph 9 “however, his surname is Manik” and the contents of paragraph 10 of her examination-in-chief are read over to the witness, who has admitted that the witness has not stated the above facts stated in paragraphs 4, 5, 6, 7, 8 and 9 before him. He, however, in the context of paragraph 10 has stated that the witness had stated that the S.R.P. people had kept them in a closed factory and had downed the shutter from outside and they had opened the shutter and told them that now there is no danger and now they should escape towards Naroda, due to which they had all gone towards Gopinath, have been stated by him. The other facts stated in paragraph 10 have not been stated by him. The contents of paragraph 11 of the examination-in-chief of this witness, wherein he has stated, till Gopinath Society they could not see any police vehicle and hence, they were afraid. In this manner, till Gopinath Society ended, there was nothing and there was no arrangement for any police vehicle for their safety. All the contents of paragraph 12 of his examination in chief have not been stated by him in the statement recorded by him. The contents of paragraph 14 of his deposition, wherein he has

stated that even today if he closes his eyes, faces of 25 to 30 people appear before his eyes and that he cannot forget the manner in which they had killed and cut with weapons. Insofar as the facts stated in paragraph 14 of his examination-in-chief, the same is merely an expression of the belief of the witness, which can hardly be said to be an omission. The contents of paragraph 15 of the examination-in-chief wherein he has stated that at this time his wife Zarina, his daughter Fauziya, his brother Abdul Aziz, Harun, Yunus, Yunus's wife etc. from their chawl had tried to escape in the next lane and had jumped over the compound wall and fled. At this time, the people who had got separated from them and had gone were surrounded by the mob wherein four people had pulled his wife and had started assaulting her; he had seen with his own eyes that his wife was struck with a sword on her left hand and her left hand was cut and the sword blow was inflicted on her right hand and she was also given a sword blow on her head and a blow with a hockey on her leg are read over to the PW-277, who has admitted that the witness had not stated the facts stated in paragraph 14 of his examination-in-chief. He, however, has denied that all the facts stated in paragraph 15 of his examination-in-chief have not been stated by the witness. He has stated the facts that, the fact that they started assaulting her, have not been stated by him, however, the remaining facts have been stated by him.

145.59 The contents of paragraph 17 from the fifth line till the end thereof, the contents of paragraph 18 and 19, the reference to four women also being there in paragraph 20 and the last six lines of paragraph 21 are put to PW-277 in his cross-examination and he has admitted that all these facts

have not been stated by this witness in the statement recorded by him. The witness has voluntarily stated that there is reference to the incident in the statement, however, there is mention of throwing alive from the terrace into the fire.

145.60 PW-277 has admitted that this witness has not stated the facts stated by him in paragraph 22 of his deposition that the entire incident had taken place before 7 o'clock when there was light and it was not dark have not been stated by him in the statement recorded by him. He, however, has clarified that the witness had stated that the incident took place by 7 o'clock. The contents of last five lines of paragraph 24, the contents of paragraph 25, as reproduced in paragraph 141 of the deposition of PW-277, the contents of paragraph 26, have been put to PW-277 as well as the contents of paragraph 31 to the extent reproduced therein, have been read over to PW-277 and he has admitted that this witness has not stated such facts in the statement recorded by him.

145.61 PW-277 has further admitted that this witness Naemuddin had not stated before him that he can identify the four people who had pulled and taken away his wife. However, he has clarified that the witness has stated before him that he knows those persons but does not know their names, namely, that he knows those persons who were involved in burning people alive. He has admitted that this witness has stated before him that in burning them alive there were people of Gangotri and Gopinath Societies which he knows because he used to go to sell biscuits but he does not know their names. PW-277 has admitted that this witness has not described the physical features of any person on his statement and has

further admitted that he has not carried out any test identification parade of the people residing in Gangotri Gopinath Societies through this witness.

145.62 PW-302 D. A. Rathod, the assignee officer has, in his cross-examination, admitted that he has recorded the statement of this witness on 13.5.2002. The assignee officer has admitted that this witness has not named any accused before him. It may be noted that the witness in his examination-in-chief has not named any accused and hence, there is no omission or contradiction in that regard, despite which such question is permitted to be put to the assignee officer. Various omissions and contradictions have been proved through the testimony of this witness, however, with a view to avoid prolix the same is not referred to in detail.

145.63 PW-178 Shri P. N. Barot, the Investigating Officer has admitted that he has recorded the statement of this witness on 19.4.2002.

145.64 The Investigating Officer has admitted that this witness in the statement recorded by him had not stated any fact to the effect that the incident at Gopinath Society took place in day light. The contents of the statement recorded by the Investigating Officer are put to the Investigating Officer, who has admitted that the witness had stated such facts in the statement recorded by him. However, most of the contents of the statement had been put to the witness without seeking to contradict any part of his primary statement and hence, the same is not admissible in evidence. The Investigating Officer has admitted that this witness in the statement recorded by

him had not named any accused. The Investigating Officer has further admitted that this witness in the statement recorded by him had not stated any facts regarding his wife having been raped.

145.65 The contents of paragraph 4 from the third line to the sixth line of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him.

145.66 The contents of paragraph 5 on page 4 from the second line onwards, the contents of paragraph 6, the last two lines of paragraph 7, certain extracts of paragraph 8, certain extracts of paragraph 9 from the last line on page 6 to the end, are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him.

145.67 The contents of paragraph 10 of the examination-in-chief of the witness are read over to the Investigating Officer, who has denied that the witness had not stated such facts in the statement recorded by him and has stated that the witness had stated before him that two or three people from Gangotri Society, whose names he does not know, had opened the shutter of the hall where they were hiding and had told them that there are no people of the Hindu mob and that they can escape from the road on the rear side, the road is safe. Upon informing them about this and saying that, the police and military vehicles are present there, they started going through Gopinath Society towards the open field.

145.68 The contents of first five lines of paragraph 11 and the contents of paragraphs 14, 19, 25, 26 to 30 as well as 31 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that these facts have not been stated by the witness in the statement recorded by him. Certain extracts of paragraph 12 of the examination-in-chief of the witness and the first four lines of paragraph 13, are read over to the Investigating Officer, who has admitted that the witness had not stated such facts in the statement recorded by him.

145.69 The last five lines of paragraph 13 of the examination-in-chief of the witness are read over to the Investigating Officer, who has clarified that the witness had stated before him that he knows the people of Gopinath Society by their faces and that the rest of the facts have not been stated by the witness in the statement recorded by him.

145.70 The contents of paragraphs 15 and 16 and the sixth line to the last line of paragraph 17 of the examination-in-chief are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him.

145.71 The contents of paragraph 18 of the examination-in-chief of the witness are read over to the Investigating Officer, who has denied that all these facts have not been stated by him in the statement recorded by him. The Investigating Officer has stated that the witness had stated before him that, therefore, it was difficult to escape from such a situation and

his clothes were also burnt and somebody had struck him on the head with something like a stone and at this time, in front of his eyes his mother Abeda, as he had sustained burns on his body, he mustered courage and went near the police jeep.

145.72 The first two lines of paragraph 20 and the last six lines of paragraph 21 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that the contents of the first two lines of paragraph 20 have not been stated by the witness in the statement recorded by him, however, insofar as the last six lines of paragraph 21 are concerned, the witness had stated before him that his nephews Wasim and Salim were burnt to death in the incident.

145.73 The first two lines of paragraph 22 are read over to the Investigating Officer wherein the witness had stated that the entire incident took place before 7 o'clock in the evening when it was day light and it was not dark. The Investigating Officer has denied that the witness had not stated such facts in the statement recorded by him. The Investigating Officer has stated that in the statement recorded by him, the witness had stated that the incident took place after 5:30 and hence, the fact regarding the incident having taken place before 7 o'clock has been stated by the witness. The other facts have not been stated by the witness in the statement recorded by him.

145.74 Certain extracts of paragraph 24 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by

him.

145.75 The contents of paragraph 34 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein he has stated that he can identify the four persons who had pulled his wife and taken her away on the day of the incident. Moreover, he can also identify all the people, who were involved in the attack that took place near the tank on the day of the incident. The Investigating Officer has denied that the witness had not stated such facts in the statement recorded by him and has clarified that the witness had stated that his mother as well as his sister Shahidabanu and her daughter Nagma as well as brother-in-law Mohammad Yunus and his paternal uncle's son Abdul Aziz's two sons Salim and Wasim were done to death by sprinkling kerosene on them and setting them ablaze. He does not know the names of such persons, however, he believes that they are people from Gopinath Society whom he can identify by their faces but he does not know their names, and the incident having taken place in front of his eyes and he himself being the victim thereof and having sustained burn injuries, he can identify those people if he sees them.

145.76 The Investigating Officer has admitted that no test identification parade of the accused has been carried out through this witness. The Investigating Officer has admitted that the witness was not taken to Gopinath and Gangotri Society for the purpose of pointing out any person there. The Investigating Officer has admitted that during the course of his investigation, the witness has not named any accused before him.

145.77 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross examination, admitted that he has recorded the statements of this witness on 27.5.2008 and 15.10.2008. He has admitted that this witness in his statement dated 27.5.2008 has stated that his earlier statements dated 3.3.2002, 19.4.2002 and 13.5.2002 have been read over to him which are as dictated by him and are correct and proper. That he has received police protection and that he is not receiving any threats from any accused. Since this part of his statement recorded by the Investigating Officer has been put to the Investigating Officer only to bring on record the contents thereof, without seeking to contradict the witness qua any part of his primary statement, the same is not admissible in evidence.

145.78 The Investigating Officer has admitted that this witness in his statement dated 27.5.2008 had stated that the incident between Gopinath and Gangotri Society must have taken place at around 7 o'clock in the evening; he was lying against a pan-galla between Gopinath and Gangotri Society; he was injured and was in a semi-conscious condition. The Investigating Officer has admitted that the statements of this witness came to be recorded on 15.10.2008 at SIT, Gandhinagar. That he had casually questioned him at Jawannagar and had made certain notes in this regard. He has stated that at present, he does not remember as to whether he had made other casual notes in his case diary, but that he had orally examined the witness is certain.

145.79 The Investigating Officer has admitted that in his

statement dated 15.10.2008, the witness has stated that his business was of a commission agent. He was a resident of Khanpur, Ahmedabad. That upon asking personally, he says that his statement dated 27.5.2002 has been read over to him today, wherein the facts recorded are correct and proper and in this statement, he had stated facts that amongst the persons who had assaulted his wife, he can recognize four Marathi boys from Gangotri Society and four women from Gopinath Society who were there in the mob whose names he does not know, but he can identify them by their faces. Such facts have been stated by him and after the incident, even in his earlier statements, he had stated such facts and on that basis, during the course of investigation, to identify or to obtain the name and address of four Marathi boys and four women, it was necessary to carry out investigation in his presence and that the officer had sent summons to him and called him, pursuant to which he had come before him to give his statement and that the Investigating Officer had explained him to identify four Marathi boys and four women from Gopinath and obtain their names and addresses and the witness had stated that because he knows them by their faces, he would ascertain their residential houses and obtain their names and give the correct information to him.

145.80 In the opinion of this court, such facts which have been stated by the witness as recorded in the above paragraph could not have been brought on record as they do not relate to the incident in question, nor are they put to the witness to contradict any part of his testimony. This part of the testimony of the witness is, therefore, not admissible in evidence. Moreover, the conduct of the Investigating Officer is required

to be taken note of. Instead of carrying out a test identification parade to identify the accused, the Investigating Officer has called upon the witness to find out the names and addresses of such accused which clearly reflects on the nature of the investigation carried out even by the SIT.

145.81 Certain omissions and contradictions in the statement of this witness have been brought out in his cross-examination.

145.82 SUBMISSIONS: The learned counsel for the appellants submitted that this witness implicates Shashikant @ Tiniyo only by identifying him for the first time before the court without naming him in any of his four statements before the police and two statements before the SIT and also before the Nanavati Commission. It was submitted that identification in the court for the first time in the circumstances of this case is not at all credit worthy and should not be accepted against the accused. It was submitted that all the major facts stated by this witness in his examination-in-chief are not there in his statement dated 3.3.2002. It was submitted that none of the facts regarding Jadikhala; Khalid being brought to Jadikhala's house in an injured condition in a cart; places where the witness says they have hidden, namely, house in Jawannagar, Gangotri Hosiery Factory; the fact regarding an S.R.P. opening the shutter and asking them to go as safety provisions are made; on request being made to the SRP to let them go inside the Quarters they were beaten; they were coming back home, and while they were on their way, they were surrounded and set ablaze; and other incidents referred to by him; including hate utterances being made by the accused; people of

Gangotri and Gopinath being part of the mob; fact of recollection of faces when he closes his eyes; have been stated by him in any of this statements. It was submitted that the incident of his wife Zarina being beaten and stripped, and four ladies supplying kerosene and instigating; injuries to himself; incident of Wasim and Salim viz. that a woman took them up and threw them in the fire; Farzana, his sister Syeda and Sabira being in a half naked or naked condition; his mother and Jadikhala shouting specific words; the police kicking them at night and asking; treatment at the hospital not being proper; his say that he can identify the persons in the mob; all these major facts were not there in the first statement. Many are not there in the second statement dated 19.4.2002 and some are missing even in his statement before the SIT.

145.83 Next it was submitted that the witness did not state anything about the accused or their identification, etc., either before the doctor who treated him or before the Executive Magistrate who recorded his dying declaration.

145.84 The next submission advanced by the learned counsel for the appellants was that in his statement dated 3.3.2002, the witness has stated that he cannot identify the persons in the mob even if he saw them (paragraph 80). He has specifically stated at two places in his deposition that he has not given any physical description or identification marks of the accused (paragraphs 95 and 115). Next it was submitted that the witness has specifically stated in his police statement on 19.4.2002 before the Investigating Officer PW-178 that he had hidden below a paan galla at one of the sides, which is a different story, which he has not even stated in his

examination-in-chief. The witness has specifically stated that the incident of Jadikhala has taken place near the water tank and she died there only. It was submitted that this may be seen with reference to the postmortem of Jadikhala Exhibit-348 and inquest panchnama Exhibit-357.

145.85 It was submitted that if the witness has seen the incident of Kausarbanu and Kausarbanu was with them, there is no reference to the incident of Kausarbanu' stomach having been cut, her foetus having been taken out etc. Therefore, whether such an incident has occurred is doubt.

145.86 Lastly, it was submitted that even after his last statement recorded by the SIT dated 15.10.2008, he has admitted that till the date of his deposition, he has not given any description, identification marks, names, addresses, etc., of the four women and four Marathi boys (paragraphs 161 read with 163). He has admitted that even before the Nanavati Commission, he has not given any particulars as contained in paragraph 174. It was urged that having regard to the totality of the facts, where the court would believe the first time identification before the court and such identification whether lends any assurance about criminal complicity of accused No.13 in such a serious incident.

145.87 The learned counsel for the appellants submitted that this witness has given a version which is contrary to the version of the other witnesses, as none of the other witnesses have said that they went to the S.R.P. Quarters after going to Gopinath and again after going to the S.R.P., they came to Gopinath, and hence, his presence at the khancha (passage) is

doubtful. It was submitted that this witness wants the court to believe that after the attack on him, he was semi-conscious, and after he fell down, he had seen the incident of his wife across the wall which is highly improbable. It was submitted that his version before the court is completely different from the version given by him in various police statements and even in his police statements, he has improved his version step by step and ultimately before the court, he has stated a completely improved version. It was submitted that it is highly doubtful that whatever has been stated by this witness before the court was seen by him. It was submitted that the evidence of this witness is inconsistent with the evidence of other witnesses like PWs 106, 198, 191 and other witnesses. It was urged that though this witness is residing in this area since thirty years, he has not given the names of any local residents in any incident, except the accused whom he has identified before the court. It was submitted that in the case of this witness, no test identification parade has been carried out and without stating any identification marks or physical description in the statements recorded by the police, he has identified the accused for the first time before the court. It was further stated that no other witness has stated anything regarding two boys being taken and thrown from the top of the tank. It was submitted that the version of this witness is not corroborated by his wife Zarina who says that after jumping over the wall, she came back to the khancha. It was submitted that the evidence of this witness is inconsistent with the evidence of other witnesses and that he does not come across as a credible witness and no part of his evidence can be relied upon to establish the charge against the accused.

145.88 ANALYSIS: After omitting that part of the testimony of the witness in respect of which omissions and contradictions as to his previous statements in accordance with law, (viz. if something has been stated in a previous statement and not stated in the subsequent statement, it would not amount to an omission. It may be noted that while doing so the statement dated 3.3.2002 has not been taken into consideration for the reasons set out hereinabove), it emerges that the witness has stated that on 28.2.2008 he had gone to sell his bakery products at Jawannagar early in the morning and had returned home. Thereafter, he heard commotion and climbed up on the terrace of Rashidbhai's house, which has two floors and is situated towards the S.T. Workshop. From the terrace one could see the Noorani Masjid clearly. He saw mobs armed with weapons coming from both sides of the road. Thereafter, he, together with his family, left their house and went towards Jawannagar. They took shelter in Gauriapa's house. From there they went to Gangotri Society. When they went to Gauriapa's house, it must have been around 1:30 to 2:00. When they went to Gangotri, there was a hosiery factory there, which was in a closed condition. It was a huge place and many Muslims had gone to this place and had hidden in the factory. The S.R.P. people had told them to stay inside the factory and had downed the shutter from outside. At around 5:00 in the evening, the S.R.P. people opened the shutter and told them to escape, therefore, they had all gone towards Gopinath. There was an open ground there wherein there was an armed mob which charged towards them shouting "kill, hack". Upon seeing the mob they were terrified. To escape from the open ground they tried to go towards the S.R.P. Quarters, but they were not permitted to go inside. When they reached a little ahead of

Gopinath Society, a mob of people from Gopinath and Gangotri Society encircled them and when they reached near the water tank there was a mob comprised of people from Gopinath and Gangotri Society as well as from outside. The mob was armed with weapons and started assaulting them and pelting stones at them. At the water tank, they were surrounded by mobs from both the sides, which attacked them and started thrashing and hacking. At this time, Kudratbibi's entire family, Jadikhala's entire family, Jadikhala's two daughters in law, his family, etc. were there. Moreover, Kausarbanu's family, Kausarbanu's maternal aunt's family, Gauri Apa's brother-in-law Salam, Farzanabanu, Farhanabanu, etc. were present. Near the water tank where they were standing, there were shouts of "kill, hack" and the people in the mob were attacking their people with whatever weapon they were armed with. The mob sprinkled kerosene on all the people mentioned in paragraph 20 of his examination-in-chief and set them ablaze. Out of those who died at the water tank spot, from Kudratbibi's family, Kudratbibi was severely burnt and ultimately died in the Civil Hospital, Kudratbibi's son Sabbir died on the spot in this very incident, his mother Abeda also died on the spot, his sister Saida's daughter Gulnazbanu also died on the spot and his sister died on the next day at the Civil Hospital on account of being burnt in the incident. Kausarbanu's mother and her maternal aunt died on the spot. Kausarbanu was pregnant; she also died on the spot. In this very incident, Farzana's daughter Farhanabanu and Gauriappa's brother-in-law Salaam died on the spot. Jadikhala and her two grandsons also died in the incident. At that time, Abdulaziz's two sons Wasim and Salim were lying with him in a wounded condition. The witness was lying wounded at the scene of offence in a semi conscious

condition. Thereafter, late at night, the police came and took them to the hospital.

145.89 It may be noted that while the witness claims to have seen four youths drag away his wife, this part of his deposition does not appear to be credible for the reason that as per the version given by the witness, on the one hand he says that his wife and some others jumped over the wall and fled and then he says that those who had got separated from them and had gone were surrounded by the mob and he had seen his wife being pulled by the mob and assaulted and her clothes being stripped off, etc. Moreover, in paragraph 31 of his examination-in-chief, the witness has stated that at the Shah Alam camp, after eight days his wife had told him that on the day of the incident when she was running in the lanes of Gopinath and Gangotri, four youths had attacked her on her hands and her head and had raped her. Therefore, it appears that it is at this stage that he came to know about such incident. However, this witness is an injured eyewitness and to the extent he has deposed about all the persons referred to hereinabove being with him and being killed or injured in the incident that took place at the passage of the water tank, he is consistent right from the beginning, and therefore, through the testimony of this witness it is established that the main massacre took place at the passage of the water tank and the persons named by him either died or were injured in the incident that took place there.

145.90 Insofar as the complicity of the accused in the incident is concerned, in his entire examination-in-chief, the witness has not named any accused but has identified accused

No.30 Shashikant @ Tiniyo Marathi son of Yuvraj Patil as the person who was assaulting them in the incident near the water tank of Gopinath Society. It may be noted that though the witness in his statement dated 19.5.2002 had stated that the people in the mob were from Gopinath and he could identify them if he sees them, none of the investigating agencies have thought it fit to carry out any test identification parade to identify the accused and on the contrary had called upon the witness to ascertain the names and addresses of such people. In these circumstances, the accused has been identified for the first time before the court. Ordinarily when the accused has not been named by the witness, the court would not accept such identification when it is at a belated stage and that too, before the court for the first time. However, if such a stand is adopted in this case, it would amount to playing in the hands of the concerned Investigating Officers, who for reasons not far to seek, have made no efforts to carry out a test identification parade to identify the culprits. However, the evidence of this witness qua the accused identified by him would still be in the nature of weak evidence and can only be used for the purpose of corroboration.

145.91 It may be noted that though this witness has not named any accused and has identified one accused in the dock, his testimony runs into 220 paragraphs out of which is examination-in-chief is comprised of 37 paragraphs.

145.92 The testimony of this witness would support the prosecution only for corroborative purposes insofar as accused No.30 Shashikant @ Tiniyo Marathi son of Yuvraj Patil is concerned.

146. **PW-159 Shabbirahemad Munirahemad Shaikh**, aged 22 years, has been examined at Exhibit-1143. The witness has deposed that in the year 2002, he was residing at Jawannagar and was learning tailoring work. He was residing with his parents as well as brother, sister-in-law and nephew. In the year 2002, he was residing with his father Munirahemad, mother Jenabbibi, elder brother Mebalahussain, his wife, his nephew Mohsin, his second elder brother Mahammadhussain, his wife Noorjahan, Mahammadhussain's children, viz., Ahemadhussain and Hamidarzana and his younger brother Anwar, Sabir and sister Hamida. All were residing together.

146.1 The incident took place on 28.2.2002. On that day, in the morning, he was at home. There was a call for bandh. The sounds of shouting "the mob has come, the mob has come" were heard, and hence, at about 10:30 in the morning, he came out to see. At that time, his elder son met him on the way and he had told him to go home. Thereafter, he had not gone on the road and had returned home. Thereafter, he remained at home till 6:00 to 6:30 in the evening.

146.2 At around 7 o'clock in the evening, a mob of five to six thousand people armed with weapons had come to Jawannagar, wherein people had tied saffron bands on their foreheads. The people in the mob were looting and assaulting and the public was frightened and was fleeing. He had not seen the face of any member in the mob.

146.3 Thereafter, out of fear, he started going towards Gangotri society. His sister-in-law Noorjahan, his nephew

Mohsin, his sister Hamida, his second nephew Ahemadraja and Hamidraja were with him.

146.4 They must have reached the water tank, at that time, from the rear side, from the direction of Teesra Kuva, a mob of around three to four thousand people had come, there were disturbances and a hubbub and the people jumped over the wall and were falling on each other. At this time, he was standing near the water tank when somebody hit him on the head with a hockey stick and he fell down and became unconscious. At the place where he fell down and became unconscious, there was a fire, and hence, he had sustained burn injuries. He had sustained burn injuries on his left leg. He had sustained burn injuries, but his pant had not been burnt.

146.5 The witness has stated that he was unconscious on that spot when the police came and woke him up and took him to the Civil Hospital for treatment. When he reached the Civil Hospital, he learnt that he had sustained burn injury on his left leg. He was admitted in the Civil Hospital for three months for the purpose of treatment.

146.6 From the Civil Hospital, he had gone to the Shah Alam camp. While he was at the Civil Hospital, the police had come and had recorded his statement as regards the manner in which he was burnt. After treatment, he had gone to the Shah Alam camp and stayed there for two and a half months.

146.7 His sister-in-law Noorjahan was also burnt near the water tank in this incident and had died. His nephew Mohsin was also with his sister-in-law Noorjahan. His nephew Mohsin

was totally burnt on the spot in this incident.

146.8 CROSS EXAMINATION: This witness has not named any accused. The witness has been cross-examined by the learned advocates for the accused and it has been elicited that the witness does not know any person who was involved in the incident near the water tank regarding himself, his sister-in-law Noorjahan as well as his nephew Mohsin.

146.9 PW-296 Shri J. V. Surela, the assignee officer in his cross-examination has admitted that he has recorded the statement of this witness on 3.3.2002. The assignee officer has admitted that this witness has not given the name of any accused in the statement recorded by him. When the witness has not named any accused, there was no question of putting such question to the assignee officer. The assignee officer has admitted that this witness in the statement recorded by him had not verbatim stated that he had come out in the morning and his elder brother had told him to go back, that the witness had seen the incident of Noorjahan and his nephew and that at the time of fleeing, his sister-in-law and nephew were with him but the witness had stated that his family members were with him.

146.10 SUBMISSIONS: The learned counsel for the appellants submitted that this witness has been residing at Jawannagar since fourteen years prior to the incident. It was submitted that this witness was around fourteen years of age at the time of the incident. No police statement of this witness has been recorded. It was submitted that this witness has categorically stated that the incident at the passage of the

water tank took place after 7:00 p.m. and it was dark and there was no electricity in that area on that day. It was submitted that the witness has also categorically stated that the mob which came from Teesra Kuva, encircled the victims at the passage and that the mob was involved in the incident at the passage. It was submitted that according to this witness, no incident took place at Jawannagar till 7:00 p.m. It was pointed out that this witness is the brother of PW-76 Mahammad Hussain Munirbhai Shaikh and PW-111 Mehblahussain Munirahmed Shaikh.

146.11 ANALYSIS: This witness is an injured witness, whose sister-in-law Noorjahan and nephew Mohsin have died in the incident that took place at the passage of the water tank. From the testimony of this witness it emerges that a huge mob had come to Jawannagar at around 7 o'clock in the evening. The mob was huge and was committing loot and assault. Out of fear, he, together with his family members fled towards Gangotri Society. When they reached near the water tank, a huge mob came from the side of Teesra Kuva and there was rioting and people tried to jump over the wall and escape and in the process fell over each other. While he was near the water tank, someone inflicted a blow on his head and he became unconscious. There was fire near where he had fallen and he was burnt on both his legs. The witness has not named any accused; hence, his testimony would not come to the aid of the prosecution to prove the charge against any specific accused. However, the witness has given a credible version of how the incident had taken place.

147. **PW-161 Shahjahan Kabirali Shaikh**, aged 25

years, has been examined at Exhibit-1146. The witness has deposed that in the year 2002, she was doing the work of making elastic at home. At that time, she was around thirteen to fifteen years old.

147.1 In the year 2002, she was residing in *Lane No.3, Hussainnagar, Naroda Patiya* together with her parents and six brothers and sisters. Her elder sister was Noorjahan, thereafter her brother Mahammadali, then her sisters Farzana, Saira and her brother Shahrukh. Her mother's name is Afseraben.

147.2 In the year 2002, her father used to ply a rickshaw and her mother used to do labour work.

147.3 The incident took place on the 28th day in the year 2002. It was a *jumme raat* on that day. She, her brother and sister, all were at home on the day of incident. On that day in the morning at around 9 o'clock, they could hear the sounds of mobs from the road outside. She had not gone out on road, but had stayed at home. The people of their mohalla had told them that they should all go towards the S.R.P., hence, she took her brother and sister outside the house in the morning and all of them went outside the S.R.P. and sat there. Thereafter, the S.R.P. people told them that there were no orders for them to sit there and told them to go away from there, and hence, they all went away from the S.R.P. Quarters.

147.4 At around 4 o'clock, in the aforesaid circumstances, they went away from the S.R.P. Quarters to Gopinath Society. At this time, from the open ground near Gopinath Society, the mobs started coming and they were surrounded on all four

sides by the mobs. The place they were all surrounded was near the water tank. They were all set on fire near the water tank. Kerosene, petrol and burning rags were thrown on them from the terrace and they were set ablaze.

147.5 She herself was burnt in the accident. Her brother Shahrukh who was in her lap was also burnt along with her. She was burnt on the right side of her body. In the same incident, her sister Noorjahan who was with her was also burnt to death. Her maternal aunt (*mami*) by the name Saliya was also burnt on the same spot and she also died there. Her maternal aunt's daughter Muskan also died on the spot in the same incident. Her maternal aunt's son Subhan was also burnt and died in the incident on the spot. In the incident, her entire face was burnt and both her hands were also burnt. (The trial court has noted that the signs of burns on the face of the deponent could be clearly seen even on that date.).

147.6 During all this, her father together with her brother Mahammad had got separated from them. Her other brother and sisters, namely, Farzana, Saira were with her maternal aunt (*masi*) and had got separated from them, whereas she, her sister Noorjahan, her brother Shahrukh and her maternal aunt and their children had got separated.

147.7 The witness has stated that she saw all the above persons being burnt and she also had sustained injuries and had become unconscious. Thereafter, several people with swords and sticks, etc. came there and were hitting them and ascertaining as to whether they alive or dead. She was beaten twice on her head to ascertain whether she was dead,

however, she pretended to be unconscious and lay there. She does not remember as to how long she was lying there in this condition, however, at night when the police came, she pretended to be unconscious. The police came and said that those who are alive should come with them. At that time, she had thought that there was a little life left which she did not want to lose. Thereafter, the police had stated that they had come to save them and the police took them to the Civil Hospital. She stayed in the Civil Hospital for two months for taking treatment and thereafter, stayed at the relief camp for one month. Thereafter, they got a house at Faizal Park and they went to live there.

147.8 When she was at the Civil Hospital, the police had come and had asked about their name and surname and written down something, however, she does not know what the police had written down.

147.9 The witness has stated that her father's name was Kabirali and she has never stated that her father's name was Kabir Ahemad. Her father's name was wrongly written in the injury certificate (Exhibit-376) and the name Kabir Ahemad written in her statement is also incorrect. The police have also written this fact incorrectly.

147.10 CROSS EXAMINATION: The witness has been cross-examined by the learned advocates for the accused. In her cross-examination, she has admitted that while they were sitting outside the S.R.P. Quarters at 4 o'clock, till then, nobody had come near them. The witness has, however, voluntarily stated that on the other side, sounds of gas cylinders bursting

and disturbances were coming and hence, the S.R.P. people had told them to get up.

147.11 The witness has admitted that they had gone near S.R.P. from Hussainnagar and the pit. The witness has admitted that when they were near S.R.P., no mobs or vehicle had come from the direction of Uday Gas Agency and has voluntarily stated that they were cutting and burning near the tank near Gopinath Society. The witness has admitted that while they were sitting outside the society, other Muslims were also sitting there. She has admitted that while she was sitting near the S.R.P., she has not seen that any person who had been beaten by anyone or who had sustained any bullet injury had come there.

147.12 The witness has admitted that till she was there, she has not seen anyone being set ablaze in the open ground. The witness has admitted that when she went to Teesra Kuva which is on the rear side of Gopinath Society, it was dark. The witness has admitted that, to go to the open ground, they have to go through *Jawannagar-ni-Chali*. The witness has admitted that while they were going through the Jawannagar, no one had stopped them and has voluntarily stated that they were beaten and driven away from Gopinath Society and were not permitted to go. The witness has admitted that while she went from Jawannagar, no incident had taken place in Jawannagar. The witness has admitted that the Teesra Kuva ground comes after crossing Gopinath Society. The witness has admitted that while they were going towards the Teesra Kuva open ground, there were mobs there also. The witness has admitted that while they were going, vehicles full of mobs were coming. The

witness has stated that she had seen the mob of persons coming with swords and pipes. She has stated that they were surrounded by the mob near the water tank of Gopinath Society. The witness has admitted that she did not know any of the persons in the mob and has voluntarily stated that she felt that they were the persons from Gopinath Society. The witness has admitted that she had occasion to go to Gopinath Society as several Muslims were residing there. The witness has denied that the faces of the persons in the mob were covered.

147.13 To prove the omissions and contradictions in her testimony as to her police statement dated 3.3.2002, the defence has cross-examined PW-296 Shri J. V. Surela, the assignee officer, who in his cross-examination has admitted that he has recorded the statement of this witness on 3.3.2002. The assignee officer has admitted that this witness has not given the name of any accused in the statement recorded by him. The assignee officer has admitted that this witness had stated before him that on Thursday 28.2.2002, in the evening at around 7 o'clock several people belonging to the Hindu community entered their chawl shouting "kill" and "cut" and they had cans filled with petrol and kerosene in their hands which they were sprinkling on houses and at that time, she and her father, brothers and sisters entered their house with her mother had gone for her job and she was outside and kerosene and petrol were sprinkled upon them and which was ignited by throwing burning rages and they were set on fire. At this time, they were shouting and screaming, due to which, the people in the mob had fled and at this time, upon the police coming they were sent to the Civil Hospital for treatment. She does not know the names and addresses of the people who

burnt them.

147.14 SUBMISSIONS: The learned counsel for the appellants submitted that this witness was residing at Lane No.6, Hussainnagar. It was submitted that considering the age of the witness at the time when she deposed, she must have been between 13 to 15 years of age at the time of the incident. It was submitted that from the testimony of this witness, it transpires that they were encircled and attacked by the mob which came from Teesra Kuva. It was submitted that this witness has clearly stated that they were attacked at the passage of the water tank by a mob which came from Teesra Kuva. She has further admitted in paragraph 22 of her deposition that the incident at the passage took place when it was dark. It was submitted that this witness has not implicated any of the accused.

147.15 ANALYSIS: From the testimony of this witness, it emerges that they could hear the sounds of the mob on the road in the morning, but she had not gone on the road. The people of their mohalla said that all of them should go together towards S.R.P., and therefore, she took her brothers and sisters and came out of the house in the morning. They were sitting outside the S.R.P. till 4 o'clock in the evening and till then no one had come near them. At around 4 o'clock the S.R.P. people had driven them away and they went to Gopinath Society. At this time mobs came from the open ground near Gopinath Society and encircled them from all sides near the water tank and set them all ablaze. Rags were being soaked in kerosene and petrol and thrown from the terrace nearby and they were being set ablaze. The witness and her brother sustained burn

injuries and her sister Noorjahan, her aunt Saliya and her cousins Muskan and Subhan were burnt to death on the spot.

147.16 In her cross-examination, no omission or contradiction in her testimony has been brought out as to her previous statement recorded by the police. The witness is simply confronted with the contents of her police statement without reference to any part of her testimony, therefore, that part of her deposition is not admissible in law.

147.17 This witness has not named any accused, and in her cross-examination she has admitted that she could not recognize any person in the mob, but has stated that they were under the impression that they were people from Gopinath Society. This witness is an injured witness, whose family members have died in the incident. The version given by her is credible and trustworthy and there is no reason to disbelieve her.

148. **PW-163 Usmanbhai Valibhai Mansuri** has been examined at Exhibit-1155. The witness has stated that he knows Gujarati. The witness has stated that at the time when the SIT recorded his statement in the year 2008, he was residing at Musibatnagar, Ugamna Talav, Dehgam, District Gandhinagar. The witness has deposed that he was working in a gum factory at Surendranagar and was residing in a room allotted by the factory and at present, he was residing alone. His family was residing at Dehgam.

148.1 In the year 2002, he was residing in Hussainnagar, Naroda Patiya at Ahmedabad, with his wife Sakinabanu and

son Yasin. In the year 2002, he used to work as a hawker and sell and purchase old sarees. The incident took place on 28.2.2002. On that day, there was a call for Gujarat Bandh. On that day, on account of the bandh call, he, his son and his wife were at home. On that day, at around 9 o'clock, from outside, from the public which was coming and going in their chawl, they came to know that there were riots outside, and hence, he came out and went and stood near his house. In the afternoon, at about 12 o'clock, the people in the mob started coming inside towards their house, and hence, out of fear, all of them started going to the rear side. They left their house and went away. The people in the mob had pipes, sticks, swords, etc. This mob was assaulting and was damaging houses. To escape they had fled towards S.R.P. There they had tried to enter the S.R.P. Quarters; however, they were not permitted to go inside. Upon them not being permitted to go inside the S.R.P. Quarters, they had gone towards Jawannagar and from the terrace of Gangotri Society gone on the rear side. There people were saying that they should go from the rear side towards Naroda and hence, he had gone on that side.

148.2 At around 5 to 6 o'clock in the evening, a mob came from the open ground near the closed well. Upon seeing the mob, they turned back, when they returned back there was another mob there. They were surrounded between both the mobs. There was a constructed shed near the water tank with walls on three sides; they were surrounded in the shed. There stones were pelted on them. In the stone pelting, he was injured on the head and he was required to take stitches. At the place where they were surrounded, the people in the mob had plastic bags and they were burning them and throwing

them on them. Upon throwing them in this manner, the people were getting burnt by the plastic bags and were burning. In the incident that took place, he had sustained burn injuries on his waist and his son Yasin had sustained burn injuries on both his legs.

148.3 Since he was injured on the head, he became unconscious and his son on account of his burns was lying with him. On all four sides, everything was burning.

148.4 At night, the police had come there and had woken them up and taken them to the Civil Hospital. His son had woken him up. Both of them went to the Civil Hospital in this manner and there they were given treatment. He was under treatment for fifteen to twenty days and his son was given treatment for one and a half to two months. Thereafter, he had stayed with his son at the Civil Hospital.

148.5 In the disturbance, he and his son had got separated from his wife. His wife, together with the other women had taken shelter in a house and they were taken to the relief camp by the police at night.

148.6 The police had recorded his statement at the Civil Hospital. Thereafter, the SIT had recorded his statement. After the treatment was over, he and his son had gone to the relief camp. From the relief camp, he had gone to Vatva and from there they had gone to Dehgam and his permanent address is at Dehgam.

148.7 CROSS-EXAMINATION: In the cross-examination

of this witness, it has come out that he was residing in lane No.3 at Hussainnagar. He has admitted that till 12:00 to 12:30, no incident had taken place in his lane at Hussainnagar. However, the mobs had come. The witness has admitted that at 11 o'clock in the morning, mobs of people were standing on the road. He has admitted that at around 6 to 7 o'clock in the evening, a huge mob of people had entered Jawannagar and the other chawls and both these facts have been stated by him in his statement dated 3.3.2002.

148.8 The witness has admitted that he has stated before the police that since the people in the mob had come from outside, he could not recognise anyone. The witness has voluntarily stated that when he stated from outside, he meant that from the road outside the chawl. He has stated that since he was absolutely new in this area, he did not know anyone including the neighbours.

148.9 The witness has admitted that the SIT had recorded his statement on 3.3.2002 and at that time, his dying declaration was read over to him and the facts stated therein were correct. The witness has admitted that he has stated such facts in the statement recorded by the SIT. The witness is shown his signature below the dying declaration Exhibit-844 and he has identified the same.

148.10 The witness has denied that in his statement dated 3.3.2002, he has not stated before the police that to escape they had gone towards the S.R.P. Quarters but they had not let them enter.

148.11 The witness has admitted that in his statement dated 9.6.2008, he has not stated any fact regarding the S.R.P. Quarters before the SIT, but has stated that he has stated such facts in the statement recorded at the Civil Hospital.

148.12 The contents of paragraph 8 of the examination-in-chief of the witness are read over to him to the effect that he has not stated such facts in his statement dated 3.3.2002, which the witness has denied. The witness is also confronted with the facts stated in paragraph 8 of his examination-in-chief to the effect that he has not state such facts in his statement dated 9.6.2008, which the witness has admitted.

148.13 The witness has stated that they gone to the S.R.P. Quarters through Jawannagar and had reached there at about 3 o'clock. He has admitted that when he reached Jawannagar, at that time, he had not seen any incident taking place and had not seen any mob and has voluntarily stated that there were mobs outside.

148.14 The witness has stated that they had stayed outside the S.R.P. for about one to two hours, but thereafter, they were driven away from there. The witness has denied that no such incident had taken place at the S.R.P. The witness has stated that there were mobs at that spot and that they were shouting. The witness has stated that he cannot say as to whether incidents have taken place at any other place and has voluntarily stated that out of fear, they had remained near S.R.P.; however, riots were going on nearby. The witness has stated that at the place where he was sitting near the S.R.P., no incident had taken place during the two hours that he was

there.

148.15 The witness has denied that he has not seen any incident and that he is falsely deposing before the court.

148.16 PW-296 Shri J. V. Surela, the assignee officer, in his cross-examination has admitted that he has recorded the statement of this witness on 3.3.2002. The assignee officer has admitted that the witness has not stated the name of any accused in the statement recorded by him. He has admitted that this witness had not stated before him that they had gone to S.R.P. Quarters to save themselves and that they were not permitted to enter inside. He has further admitted that this witness in the statement recorded by him had not referred to occurrence of any incident between 5 to 6 o'clock in the evening but has stated facts regarding the incident of 6 to 7 o'clock. He has admitted that this witness had not stated that the mob had come from the direction of the open ground where there is a closed well and upon seeing the mob, they had turned back and on the way back, another mob was there. The assignee officer has admitted that the witness has not stated before him that there was a shed with three walls constructed near the water tank and that they were surrounded in the shed and there was stone pelting on them and in the stone pelting, he was injured with a stone and was required to take stitches on his head. He, however, has clarified that the witness has stated that to protect themselves they had run from the chawl and when they were going in front of Gangotri Society, the people from the mob surrounded them from all four sides and had injured him with a stone on his head, had poured acid and kerosene and burnt him, due to

which, he was burned on the stomach, left leg and hand. At that time, his son Yasin was also burnt on both his legs. The assignee officer has admitted that the witness has not stated before him that at the place where they were surrounded, the people in the mob were burning plastic bags and throwing them on them and that people were getting burnt by the plastic bags thrown in this manner and that in this manner, the witness was burnt on his waist and his son was burnt on both his legs.

148.17 SUBMISSIONS: The learned counsel for the appellants submitted that this witness and his son were injured in the incident at the passage of the water tank and were taken to the Civil Hospital. It was submitted that this witness has not implicated any accused, including the local residents and that this witness has not stated in his police statement as well as the statement recorded by the SIT that he and his son were injured in the incident at the passage. Moreover, there are contradictions between his police statement, deposition and the statement recorded before the SIT.

148.18 ANALYSIS: This witness was residing at Hussainnagar at the relevant time. From his examination-in-chief and the facts elicited in his cross examination, it emerges that at round 12 o'clock in the afternoon the mobs started coming towards their chawl. Out of fear they went towards the rear side. The mob was armed and was assaulting people and damaging properties. They went towards the S.R.P. Quarters, but were not permitted to enter inside and hence, they went towards Jawannagar and from a terrace of Gangotri they went on the rear side. From his cross examination, it emerges that

the mobs had come to Jawannagar and other chawls at around 6 to 7 o'clock in the evening. According to this witness, he and his son were injured at the passage of the water tank; however, the description of the incident as given by this witness is different from the narration of facts given by other witnesses. An omission has been brought out that the witness had not stated such facts in his previous statements. This witness has not named any accused and hence, his testimony does not come to the aid of the prosecution for proving the charge against the accused.

148.19 Insofar as the contention raised in behalf of the appellants that the witness has not implicated any local accused is concerned, from the contents of paragraph 14 of his deposition, it is apparent that this witness had newly come to reside in that area and therefore, he did not know anyone.

149. **PW-164 Yasin Usmanbhai Mansuri**, aged 24 years, has been examined at Exhibit-1156. The witness has deposed that in the year 2002, he was residing at *Lane No.2, Hussainnagar, Naroda Patiya*, with his parents. At that time, he was doing the labour work in Sonia Biscuit Factory.

149.1 The incident took place on 28.2.2002. On that day, there was a call for Gujarat bandh. He and his parents were at home on that day. In the morning at around 9 o'clock, they came to know from outside that the mob of Hindus had come and that they had swords and sticks in their hands and were saying "kill the Miyas" and hence, all three of them had hidden in their house.

149.2 Till 12:00 in the afternoon, they were hiding in their house, however, as and when the mobs started coming, they started going to the chawls on the rear side and were hiding in other houses. In the meanwhile, stone pelting continued. While they were doing so, it became 5 to 6 o'clock in the evening.

149.3 At around 6:00 in the evening, they were hiding on a terrace of Gopinath Society. At that time, the people in the mob had continued pelting stones. From the terrace, they had climbed down towards the interior side of Gopinath Society. Two or three S.R.P. men were standing there. The S.R.P. men told them that the military had come on the rear side and that they would take them to some other place for their safety. Thereafter, they proceeded towards the open ground behind Navyug, where a mob surrounded them. At this time, there was a water tank near the Gopinath Society, where the mob had surrounded them from both sides. They were encircled between one hundred to one hundred and fifty people on both sides. The people in the mob started assaulting them with pipes and sticks. The mob threw kerosene, petrol etc. from the top of the water tank and started setting them ablaze.

149.4 In this incident, his left hand was fractured and he had sustained burn injuries on both his legs. He and his father were together at that time. His father was injured on the head and had become unconscious and he had sustained burn injuries on his stomach. He had feigned unconsciousness and was lying there. The mob went away and there was no light on this spot and upon it became dark, they just lay there. At 11 o'clock at night, the police came and took him and his father and other injured persons to the Civil Hospital. He was treated

at the Civil Hospital for about two to two and a half months. While he was at the hospital, his statement was recorded by the police. After being treated at the Civil Hospital, they had gone to the Shah Alam camp from where, he had gone to stay at Dehgam and his father had gone to reside at Vatva.

149.5 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that the houses in his lane are in a straight line and on one side of the lane of his house there is the S.T. Workshop compound wall and on the other side the lane is closed. He has admitted that the wall on one side of their lane was the Uday Gas Agency wall. The witness has denied that at the scene of incident at Gopinath Society referred to by him, only kerosene and petrol was being thrown from above the tank and there was assault and no other incident had taken place. The witness has voluntarily stated that many other incidents had taken place, but he was not aware of all them and he had not seen them. The witness is confronted with his previous statement dated 3.3.2002 as to what has been stated by him in paragraphs 3 and 4 of his examination-in-chief and he has admitted that he has not stated such facts because the police had only asked his name, address, place of service and preliminary questions and had not asked anything else, and hence, he had not stated anything more. The witness has admitted that at first, they had hidden on a terrace, but he does not know as to on the terrace of which house in Gopinath Society they were hiding. The witness is certain that they had climbed down from the terrace towards the interior side of Gopinath Society. The witness has admitted that the incident had taken place after they had climbed down from the terrace. The witness has further stated

that they had reached the terrace at around 6:30 and must have hidden there for around an hour. The witness has denied that the incident took place one hour after they got down from the terrace and has voluntarily stated that immediately the mobs from both the sides came there. The witness has denied that after getting down from the terrace of Gopinath Society, they had gone towards the open ground and has stated that he had seen the mob which was coming from the open ground at a distance of about twenty to twenty five feet. The witness is cross-examined with regard to the topography of the area.

149.6 PW-296 Shri J. V. Surela, the assignee officer, in his cross-examination has admitted that he has recorded the statement of this witness on 3.3.2002. The assignee officer has admitted that this witness has not named any accused before him. He has denied that he had only asked the witness his name, address and place of service. The assignee officer has admitted that this witness had stated before him that he was at home, in the meanwhile, at around 6 o'clock in the evening. therefore, they had come out of their house.

149.7 SUBMISSIONS: The learned counsel for the appellants submitted that this witness has been residing at Lane No.2, Hussainnagar. He has not stated about anybody having gone to the S.R.P. Quarters. Referring to the contents of paragraph 5 of his deposition, it was submitted that the version given by this witness is highly improbable. It was submitted that the contradictions between the testimony of this witness and his father (PW-163, Usmanbhai Valibhai Mansuri) would render the evidence of both of them unreliable. It was submitted that this witness talks of only one mob which

had come from Teesra Kuva. Referring to the contents of paragraphs 13 and 15 of his cross-examination, it was submitted that the witness is stated to have been injured at 7:00 p.m. and hence, the incident at the water tank must not have taken place before 7:00 p.m. on the day of the incident.

149.8 ANALYSIS: From the testimony of this witness it emerges that he and his father were surrounded by the mob near the passage of the water tank, near Gopinath Society. They were assaulted with pipes and sticks and petrol and kerosene, etc. were thrown on them from the top of the water tank and thereafter they were set ablaze. The witness is an injured eye witness, who had taken treatment at the Civil Hospital. The injury certificate Exhibit 375 issued by the hospital reveals that the witness has sustained 1st to 3rd degree burns on his lower limbs, on the front side. Therefore, the version given by the witness is duly corroborated by the injury certificate issued by the hospital. The witness has not named any of the accused involved in the incident. However, the testimony of this witness supports the prosecution case that Muslims were cornered near the passage of the water tank near Gopinath Society and were assaulted and set ablaze by sprinkling kerosene, petrol and other inflammable substances on them from the top of the water tank.

150. **PW-165 Pirmahammad Allabax Shaikh**, aged 47 years, has been examined at Exhibit-1157. The witness has deposed that from the year 1986, he was residing at *Lane No.1, Hussainnagar, Naroda Patiya*. In the year 2002, he was residing there with his mother, his wife Khurshidabanu, his two daughters Noorjahan and Najmunnisha, his son Badesaab, all

were residing together.

150.1 The witness has deposed that he used to do the work of colouring the buildings and hence, he was known as “Piru Painter” in the chawl. His son also used to do colouring work with him and his mother and wife used to do the labour work of sweeping and mopping at the Ice Factory. His father has passed away in the year 1985.

150.2 On that day, he was at home when at around 9:30, his wife woke him up and told him that a lot of commotion could be heard from outside and asked him to go and see what was happening. He asked his wife where his daughters were and she said that they had gone to fetch water, and hence, he went out of his house to bring his daughters back. He came out and went straight to the road where there are water taps. There, at the Noorani Masjid, the people were saying “*Shri Ram, Shri Ram*” and had attacked it. There was a lot of public at the entrance of the chawl; however, he had gone to look for his daughters. At this time, from somewhere, a bullet came and struck him on the leg. His right leg was injured by the bullet, whereupon he fell down on the spot. It must have been approximately 9:45 at that time. The bullet had injured him below his knee and the people standing there had lifted him and taken him home because he could not walk. In the firing, his leg was fractured, and hence, he could not walk.

150.3 His wife had heated a knife and asked him to remove the bullet because it was stuck in his leg. Somebody had told him to extricate the bullet, or else the poison would spread. He himself had extricated the bullet from his leg with a

knife. At that time, he, his wife and his mother were crying profusely. Thereafter, he started feeling drowsy.

150.4 At that time, the residents of the chawls were saying that the mobs have come inside the chawls, and hence,, they should all flee from there. Everybody was fleeing towards the rear side. His wife and his son lifted him and took him from his house to the house of one Akhtarbhai Bhangarwala.

150.5 He did not find his daughters at all. The rest of the members of his family left the house, taking him along in a wounded condition. When they reached Akhtarbhai's house, it was around noon time.

150.6 When they reached Akhtarbhai's house, there was a lot of commotion by the public. While they were sitting at Akhtarbhai's house, iron scraps and burning rags were being thrown on them. Stones were also pelted at them from the S.T. Workshop. The burning rags fell on many people present there. Upon seeing this, everybody started fleeing from Akhtarbhai's house. Since the people had started fleeing, his wife and son lifted him and started walking towards Jawannagar. At this time, his mother got separated from them.

150.7 They went and sat in the house of one Pinjara in the fourth lane of Jawannagar. When they reached the Pinjara's house, many Muslims from their chawl were sitting on the terrace as well as in the rooms. He was taken there and made to lie down. They stayed at Pinjara's house till about 5:30 to 6:00.

150.8 At that time, in front of lane of Jawannagar, where shops are situated, mobs of Hindus came chanting "*Shri Ram, Shri Ram*". The people in the mobs burnt the flour mill which was situated close by, due to which sparks were flying and cement sheets also started flying. People started saying that "*the situation has deteriorated immensely, hence, run, run!*" His wife and son lifted him and took him near a small gap for going inside the S.R.P. Quarters.

150.9 At that time, his wife and son requested the S.R.P. men to let them enter the S.R.P. Quarters as the witness was injured by a bullet; however, they did not accede to their request and started prodding them with sticks and guns and were saying that they should run towards the rear side. At that time, they found his mother and daughters, who were sitting outside the S.R.P. Quarters compound wall.

150.10 His nephew's wife Sajjobanu, who was pregnant, had taken all of them and was sitting there. At that time, his daughters and mother were overcome with emotion and hugged him and started crying. He could not bear the physical pain on account of the injuries sustained. At that time, there was a house in Jawannagar, which was locked. His son broke the lock and made them sit inside the house.

150.11 Near that house, there was a chawl and in that chawl, the people in the mob were passing by shouting "*Kill the Miyas*" and "*Jay Shri Ram*" which he could hear. There, some person was saying, "*Hey Guddu, call that Bipin, that Miya is running away*", which he had heard. He could hear

these voices from outside. At that time, his nephew's wife started becoming unconscious and due to fear, the rest of his family members shut their mouths and started crying. They were constantly wondering as to whether or not they would survive. They had remained inside, and outside, they could hear the cries of "*Mujhe bachao! Mujhe bachao!*" (Save me, save me). The witness has deposed that he is not aware as to who was shouting in this manner.

150.12 They were apprehending that they would not escape and were wondering as to whether they could escape if someone broke the door.

150.13 He does not remember as to how long they had stayed in that house. However, when the noises from outside stopped, they sprinkled water on his nephew's wife and woke her up and after lifting him, all his family members went to the terrace of a house in Jawannagar and made him lie down on a cot. The police came to the terrace at night and told them that they would take them to the camp and since the public was climbing down, they too started climbing down. He was lifted and taken to the police vehicle which took them to the Shah Alam camp. From the Shah Alam camp, he was taken for treatment to the V.S. Hospital, where he was treated. He was admitted in the V.S. Hospital for eighteen days and was operated.

150.14 While he was under treatment at the V.S. Hospital, the police had recorded his statement twice. Upon being discharged from the hospital, he had gone to the camp where the police had again recorded his statement. They had stayed

at the Shah Alam camp for around six months after which, they had returned to Patiya. The SIT people had recorded his statement in the year 2008. The witness has deposed that it had not happened that he was hiding in the house and from there, he had seen the mobs and had seen as to who was there in the mob.

150.15 The witness has further deposed that it had not happened that while they were in the first house, he had seen several members of the mob with his own eyes and had identified them and that the members of the mob had burnt a man alive and that he had witnessed such incident with his own eyes. The witness has stated that he had heard voices but he had not seen any such thing. At this stage, the learned Assistant Public Prosecutor stated that the witness does not support the case of the prosecution and sought permission to cross-examine him.

150.16 CROSS EXAMINATION: The witness was then confronted with his statement dated 21.6.2008 recorded by the SIT. He, however, has stated that he does not remember the same. The witness has further stated that he knows that Guddu Chhara is dead and does not know Bipin Autowala. That he had heard his name, but he does not know Bipin Autowala. The witness has denied that he knows Bipin Autowala, but is deposing falsely at his instance.

150.17 ANALYSIS: This witness has been injured in the firing that took place on the main road in the morning. According to the version given by this witness, he had gone out of his house on the road, when suddenly a bullet came

from somewhere and struck him on his leg. Thereafter, he was lifted by the people who were standing there and taken home. Upon the mobs entering chawls, he was lifted by his wife and taken to Aktar Bhangarwala's house where they reached in the evening. From the testimony of this witness it emerges that burning rags, etc. were being thrown from the S.T. Workshop and stones were also pelted from there. Thereafter, his wife and son lifted him and proceeded towards Jawannagar to the Pinjara's house in the fourth lane. Upon the mob coming near, out of fear they left the Pinjara's house and went towards the S.R.P. Quarters, but were not permitted to enter inside. Thereafter, they broke open a lock of a house in Jawannagar and took refuge there. While hiding inside, he heard a person asking Guddu to call Bipin as the Miya was running away.

150.18 This witness has not named any accused and has been declared hostile by the prosecution as he is not fully supported by the prosecution case and has been cross-examined by the learned Special Public Prosecutor. However, even to the extent the testimony of this witness supports the prosecution case; he has not been cross-examined by the defence. Therefore, to the extent testimony of this witness supports the case of the prosecution, it can be accepted.

151. **PW-166 Shahinbanu Mahammadhasan Kureshi**, aged 30 years, has been examined at Exhibit-1162. The witness has deposed that she understands Gujarati to a certain extent but will depose in Hindi.

151.1 The witness has deposed that she was residing at *Lane No.7, Hussainnagar, Naroda Patiya, Ahmedabad*, since

her childhood. After the incident, she is not residing at Naroda Patiya. She is a native of *Gulbarga, Karnataka*.

151.2 The witness has stated that in the year 2002, she was residing in a rented house at *Lane No.7, Hussainnagar* with her husband Mahammadhasan, her three children, viz., son Mahammadnafish, daughters Nazneenbanu and Afreenbanu, together. Her in-laws used to reside at Karnataka and her parents used to live in Hussainnagar.

151.3 The incident took place on 28.2.2002. On that day, there was a call for Gujarat Bandh. On the day of the incident, she was at home with her parents and children. At the relevant time, her husband used to run a provision store near her house.

151.4 At about 9 o'clock, she had prepared tea for her family members. Her husband had breakfast and had gone to his shop. He had gone to his shop and was cleaning it, when somebody told him that there was a call for bandh and that he should close his shop, hence, he closed his shop and came back home and sat on the veranda of their house and was sitting with his friends and talking.

151.5 At that time, they heard shouts from outside that a huge mob has come and hence, her husband had also gone out. Thereafter, since there was commotion, she lifted her daughter Afreen, who was seven months old in her lap and followed her husband. There is a flour mill before one reaches the main road, they went and stood there. At that time, there was a mob on the road. The mob was on the highway. There

was another mob towards the Noorani Masjid also.

151.6 The people in the mob had entered the masjid and were ransacking it, and hence, her husband and others from the chawl tried to go to the police. They wanted to tell the police to stop the mob from ransacking and to remove the mob from the road; however, before they could reach the police, her husband was injured by a bullet. Her husband was standing on her left side together with other men and she was standing with the women. The bullet which came from the road to where her husband was standing, hit him on the head. Upon her husband being hit by the bullet, he fell on the ground and started writhing in pain. At that time, her seven month old daughter was in her lap, and hence, she could not do anything. The other Muslims were very frightened. She shouted and asked for help, however, everyone was interested in saving his own life, and hence, no one came forward to help them. She requested people to pull her husband on one side; however, no one helped her.

151.7 At that time, tear gas shells were released at the spot and hence, her eyes were burning severely. Her husband was lying on the spot. In the meanwhile, several Muslims pulled her and took her away on one side to save her. At this time, after she was pulled towards the interior side she was watching and saw that the mob was advancing more and more. She was watching her writhing husband. The people in the mob put a quilt, cycle, etc. on her husband and burnt him. At this time, it must have been around 11:30 in the morning.

151.8 At this time, people from their chawl started

running away and hence, she too did not go home and went towards Gangotri Society taking her daughter with her. At this place, she found her other two children also and she asked for help for taking all her three children towards the S.R.P. Quarters. They went near the S.R.P. Quarters through the Gangotri Society. However, they were not permitted to go inside the S.R.P. Quarters. She could only understand that in Gujarati, they were refusing to let them go. Thereafter, she went on the terrace of Gangotri Society with her children, where there were other Muslims and they stayed there.

151.9 Thereafter at night, the people who looked like police came to take them and started saying that they would take them to a safe place; however, they could not trust them. They told them to have faith in them, and hence, they got down from the terrace at Gangotri and at night, she met her parents, brothers and sisters. Thereafter, all of them were taken to the Shah Alam relief camp. While she was going to sit in the vehicle, she stood where her husband was set ablaze and tried to see, however, she was told that there was fire and she could not go there and was also told to take care of those who are alive and to take care of her children.

151.10 They were taken to the Shah Alam camp in the vehicle. She could not identify anyone in the mob at the place where her husband had sustained bullet injury and was burnt. In the other mob also, she had not seen any person whom she knew.

151.11 The witness has deposed that she stayed at the camp for around six months during which period, the police

had come to record her statement.

151.12 From the Shah Alam camp, she went to stay at Faizal park, Vatva. She does not remember as to how many times the police had recorded her statements. The SIT had also recorded her statement at Naroda Patiya and that she had stated whatever she knew before the SIT.

151.13 In the incident, their house as well as their provision store was looted.

151.14 The witness has stated that she does not know anyone from the mob which set her husband ablaze. However, she knows several people from the mob at Gangotri Society and she has named the two persons whom she knew as **Jaybhavani** and **Guddu**.

151.15 The witness has stated that she knows that Guddu and Jaybhavani have passed away. However, since both of them were staying in that area, she knew them since her childhood.

151.16 CROSS EXAMINATION: In the cross-examination of this witness, she has admitted that since she resides in the Naroda Patiya area since her childhood, she knows the people residing in the neighbourhood. When she looked from the terrace of Gangotri Society, she had seen Jaybhavani and Guddu Chhara walking and that from the terrace of Gangotri, she had seen both of them walking, roaming about and standing. The witness has voluntarily stated that she had seen them two to three times and that she was on the terrace of

Gangotri for hours.

151.17 The witness has stated that she does not know as to which house in Gangotri Society is Jaybhavani's house. She has denied that she had seen him at the place where he was residing. She has stated that she had seen Jaybhavani at a distance of about six houses from his house. She has stated that she does not know whether Guddu has a house in Gangotri Society and that she had seen him in the area. The witness has stated that between Gangotri Society and the S.R.P. Quarters, there is a small wall and that many Muslims had jumped over the wall and gone to the S.R.P. Quarters. She too had tried to do so, however, the S.R.P. people told her not to come in. The witness is cross examined with regard to the topography of the area.

151.18 The witness has admitted that she has no complaint against the SIT, but has denied that when the SIT read over her statements dated 12.5.2002 as well as 22.5.2002, she had stated that they were proper and correct. The witness has voluntarily stated that it is true that the statements were read over to her, however, certain things were wrongly written therein in connection with which she had drawn the attention of the SIT and had informed them that certain facts in the earlier statements were incorrect. The witness is sought to be confronted with certain parts of her statement dated 12.5.2002, however, the facts referred to therein cannot be said to be in the nature of omissions amounting to contradictions or material contradictions so as to affect the credibility of the witness. In paragraph 27 of her deposition, the witness is confronted with her statement dated 22.5.2002

wherein she had stated that on that day in the morning at around 9:30, a huge mob of about five to seven thousand had come and the mob was shouting “kill, kill and cut” and hence, all the people in their chawls ran towards Jawannagar and at that time, her husband was injured by a bullet and fell down, whereafter the mob dragged her husband and burnt him and she along with her children ran towards Jawannagar and hid in a Muslim chawl and on 1.3.2002, at around 1:30, the police vehicle came and took them to the relief camp. The witness is further confronted to her statement to the effect that she had stated therein that she does not know the names or any details of the people who were in the mob and she had not recognized any person in the mob. The witness is thereafter confronted with certain parts of her examination-in-chief to the effect that she had not stated the facts stated therein in her statement recorded by the police.

151.19 From her cross-examination, a contradiction is brought out to the effect that the facts stated by her in paragraph 9 of her examination-in-chief, viz., she had not gone home, but has first gone to the S.R.P. Quarters for help through Gangotri Society; however, the S.R.P. people did not let them enter, whereafter she went to the terrace in Gangotri Society with her three children where there were other Muslims and had stayed there, were not stated by her in any of her police statements.

151.20 PW-301 Devendragiri Himmatgiri Goswami, the assignee officer has, in his cross-examination, admitted that he has recorded the statement of this witness on 12.5.2002. The assignee officer has admitted that she had stated before him

that both of them were sitting on the platform in front of their house and were talking, when suddenly a mob came from the side of Krushnanagar and Sardarnagar. At that time, the police had lobbed tear gas at the mob. Suddenly, her husband was injured by something like a bullet. Thereafter, in the evening at around 2:30, they were on the terrace when the police came. They asked them to come down and assured them that they would take them to a safe place and told them that they would take them to Shah Alam and had thereafter, left them there and since then, she is staying there. The assignee officer has admitted that this witness had mentioned before him that as her eyes were burning, she could not see anything. The assignee officer has admitted that this witness had stated before him that she and her husband were sitting in the platform (Opla) outside their house.

151.21 The assignee officer has admitted that this witness has not used the words "There was a mob on the road, the mob was on the highway and there was a mob in the direction of the Noorani Masjid also." However, the witness had stated before him that suddenly, the mobs came from the side of Sardarnagar and Krushnanagar; however, the remaining facts were not stated by her.

151.22 The contents of first five lines of paragraph 7 of the examination-in-chief of the witness are read over to the assignee officer, wherein the witness has stated that the people in the mob were entering the masjid and were damaging it, and hence, she, her husband and other people from the chawl were trying to go near the police. They wanted to tell the police to stop the mob which was causing damage

and remove it from the road. The assignee officer has admitted that the witness has not stated such facts in these words to him, however, the witness had stated before him that she and her husband both had gone to ask for help from the police towards the mob outside their houses, when he was injured by something like a bullet.

151.23 As is evident from what is stated in paragraph 7 of the examination-in-chief of the witness and what is stated by the witness in the police statement, the witness has merely used a different form of expressing what she had stated in her police statement while deposing before the court. Therefore, there can hardly be said to be any omission or contradiction insofar as the contents of paragraph 7 of the examination-in-chief of the witness is concerned.

151.24 The contents of paragraph 9 of the examination-in-chief of the witness are read over to the assignee officer, wherein the witness had stated that she had lifted her daughter and gone from there to Gangotri Society. At this place, she had found her two other children. In this manner, she had taken her three children and asked for help to go inside the S.R.P. Quarters. They had gone from Gangotri Society near S.R.P. Quarters. They were not permitted to go inside the S.R.P. Quarters. She could only understand that they were saying "No" in Gujarati. The assignee officer has admitted that the witness had not stated such facts in the statement recorded by him.

151.25 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross examination, admitted that he

has recorded the statement of this witness on 22.6.2008. Certain extracts of paragraph 5 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein the witness has stated that he had come to the platform of their house and was sitting. He was sitting and talking to his friends. The Investigating Officer has admitted that this witness has not stated before him that she was talking with her friends. In the opinion of this court, non-mentioning the fact that the witness was sitting with her friend and talking with her, can hardly be said to be so material so as to amount to a contradiction.

151.26 The contents of certain extracts of paragraph 6 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein the witness has stated that at this time, there was a mob on the road. The mob was on the highway. There was also a mob in the direction of the Noorani Masjid. The Investigating Officer has stated that the witness had stated before him that a mob had come from the direction of Krushnanagar and another huge mob had come from the direction of S.T. Workshop, but the facts stated in the examination-in-chief were not stated by her.

151.27 Certain extracts of paragraph 7 of the examination-in-chief of the witness, are read over to the Investigating Officer, who has denied that the witness has not stated such facts in the statement recorded by him. That her husband and other Muslim persons from their chawl were going from the flour mill which was outside their house to ask police for help, when suddenly her husband was injured on the head with a bullet.

151.28 Certain extracts of paragraph 9 of the examination-in-chief of the witness, are read over to the Investigating Officer, who has admitted that the witness has not stated such facts in the statement recorded by him.

151.29 SUBMISSIONS: Mr. Y. S. Lakhani, learned counsel for the appellants submitted that this witness has stated that her husband had sustained a bullet injury and was thereafter set ablaze by the mob. It was submitted that none of the other witnesses have said that anyone injured with a bullet was set on fire. It was submitted that when all the others who were injured were lifted by the people from their chawl, it is not possible that this witness's husband would have been left out. It was submitted that the story propounded by this witness about her husband is not believable. It was submitted that the witness has named two people, viz., Jaybhavani and Guddu, however, in her examination-in-chief, she has not stated as to where she had seen them and in any case, no overt act has been attributed to them.

151.30 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness has stated in her police statement that her husband was injured in police firing and the mob had set him ablaze. It was submitted that from the testimony of this witness, she comes across as a truthful witness and there is no reason to disbelieve her.

151.31 ANALYSIS: From the testimony of this witness, it emerges that her husband had sustained a bullet injury in the police firing and was set ablaze by the mob, which version has

been consistently given by the witness in her police statement as well as in her deposition. However, to the extent the witness has stated in her examination-in-chief that upon the mob coming, she had fled to the S.R.P. Quarters and then to a terrace of Gangotri Society, she has given a contradictory statement before the police to the effect that she had fled towards Jawannagar with her children and had hidden in a Muslim chawl till the police came at around 1:30 on 1.3.2002 and took them to the relief camp. Thus, to the extent the witness has stated that she had gone to Gangotri Society, the version given by her is not consistent with her police statement. The witness has, in her examination-in-chief, stated that she could not recognize anyone in the mob that had burnt her husband, but has referred to two persons in the mob at Gangotri Society, viz., Jaybhavani and Guddu. Therefore, to the extent the witness has referred to Jaybhavani and Guddu as having been spotted by her at Gangotri Society, such version is not consistent with her police statement and to that extent, her deposition does not appear to be credible. In any case, both Jaybhavani and Guddu have passed away prior to the recording of the evidence of this witness, under the circumstances, nothing much turns upon that part of her testimony.

151.32 Since the witness has named only two of the deceased accused, her testimony would not help the prosecution in establishing the charge against any of the accused.

152. **PW-167 Mahammadhussain Kaiyumbhai Shaikh**, aged 35 years, has been examined at Exhibit 1163.

The witness has deposed that he is a native of *Village Kutvadi, District Solapur, Maharashtra* and that he is residing in *Lane No.1, Hussainnagar* since the last about twenty five years.

152.1 The witness has deposed that in the year 2002, he was residing in his house in *Lane No.1, Hussainnagar* with his father Kaiyum Abdul, mother Merunisha, wife Khatunbibi, son Saeed Anwar, daughters Gulshanbanu, Tabassumbanu, and son Gulamrasul. In the year 2002, he was doing the iron welding, that is fabrication work.

152.2 The incident took place on 28.2.2002. On that day, he had gone on his bicycle at around 9 o'clock in the morning for his work. When he had set off and reached near the S.T. Workshop compound wall, near the water tap, at that time, he had seen that a Hindu mob was coming from the direction of Natraj. Another mob of Hindus was coming from the direction of Mahajaniyavas. He had also seen a mob which came from the direction of Krushnanagar.

152.3 This mob was a very huge mob and there were people wearing khakhi shorts and white shirts and some of them had also worn saffron bands. He thought that the people in the mob belonged to the Vishwa Hindu Parishad and Bajrang Dal. He saw that the people in the mob had weapons like pipes, swords, trishuls, etc. The Hindu mob was pelting stones at the Muslims, at that time, firing commenced and tear gas shells were also being lobbed.

152.4 The people in the mob were shouting, "*hack and burn the miyabhais*" and "*bring them out and kill them*".

152.5 In this incident, his paternal aunt's son Pirmahammad was injured by a bullet, and hence, he fell down. He ran to pick him up and at that time, he was hit by a bullet on the elbow of his left hand. The bullet had come from the crowd. He and Pirubhai were lifted by the people of their chawl and taken to Rasidaben's provision store near Lane No.1, Hussainnagar, and he was made to lie down. In this incident, Khalidbhai and Khalidbhai's brother Majidbhai were also injured by bullets on their stomach and leg respectively.

152.6 The people of the chawl brought them both and made them lie down next to them. In the incident, Abidbhai had sustained a bullet injury on his private parts and had died on the spot. At that time, it must have been approximately 10 o'clock in the morning. The mob started assaulting and there was firing from the mob as well as from the police and all the Muslims, with a view to save their lives, fled towards the rear side of their chawls.

152.7 Noorbhai Ibrahimbhai resides next to his house. His wife took him on his terrace and made him lie down there. Apart from his wife, his parents as well as Noorbhai Ibrahimbhai's family members, in all, approximately thirteen persons were there. At this time, it must have been around 12:00 to 12:30 in the afternoon.

152.8 They stayed on the terrace for one to one and a half hours.

152.9 On this day, in the mob which had come from the

direction of Natraj Hotel, he had seen **Manoj Videowala** (A-41), who was saying, "*hack the Miyabhais, kill them! Don't leave them alive*".

152.10 In the mob which had come from the direction of Mahajaniyavas, he had seen **Suresh Langdo** (A-22) who had a sword in his hand. He too was shouting "*kill the Muslims, cut them! Burn them*". The people in this mob were pelting stones at the Noorani Masjid and on the carts and stalls near it.

152.11 He had seen **Lakha** (A-34) in the mob which came from Krushnanagar, who had a trishul in his hand and was saying, "*Cut the Miyas, burn them, loot them, don't spare them.*"

152.12 While they were on the terrace, Noorabhai Mansuri's mother was standing down, and since they are Mansuris, their attire is similar to the attire of Gujaratis and his mother could speak Gujarati fluently and she also wore such attire, and hence, the people in the mob asked her whether she was a Hindu or Muslim and she said that she was a Hindu, and hence, in the incident, their house was not looted on that day. The people in the mob had not entered and ransacked their house.

152.13 On the terrace, his father had done his dressing by putting some Dettol and tying a bandage.

152.14 There is a paan cabin outside the second lane of Hussainnagar, which was run by a boy called Modin, who was suffering from polio in his leg. This boy was put in his paan

cabin and set ablaze by the mob. He could hear his screams for help from the terrace. It must have been around 1:00 to 1:30 in the afternoon.

152.15 They were on the terrace till 1:30 at night whereafter, a police vehicle came. When they got down from the terrace, Modin's dead body was lying near the paan cabin and the paan cabin was completely burnt. The dead body was charred. When the police took them to the road for boarding the bus, he had seen the charred dead body.

152.16 While they were going in the vehicle to the Shah Alam camp, there was a mob on the road, which tried to stop them and pelted stones and was saying that just like they had burnt the train at Godhra, they would burn them also.

152.17 Upon the police lobbing teargas shells, the road was cleared and the vehicle was taken towards Saijpur tower. The vehicle was stopped by a mob near Saijpur and stones were pelted at them and rocks were put to stop the vehicle. At this time, the police had fired in the air and had cleared the road and they took the Kalupur road and dropped them near the door of the Shah Alam camp.

152.18 From the Shah Alam camp, they were taken to the V.S. Hospital for treatment, where he was treated for one and a half months.

152.19 In the incident, his brother Gulamrasul was injured on the leg and was experiencing severe burning sensation in both of his eyes because he continued to suffer for eight days

and had taken treatment for the same at the relief camp.

152.20 After being treated at the V.S. Hospital, he was taken to the Shah Alam camp, where he stayed for six months.

152.21 In the incident, his house and household articles along with ornaments, cash, etc., were looted.

152.22 While he was at the V.S. Hospital, the police had come once to record his statement, however, they had asked him details like his name, address, etc. and had gone away. During the period when he was at the camp also, the police had come and recorded his statement. Thereafter, the SIT had also recorded his statements, once at Gandhinagar and once at Naroda Patiya.

152.23 He has stated that he can identify Suresh Langdo (A-22), Lakho (A-34) and Manoj Videowala (A-41) whom he had seen in different mobs and has, accordingly, identified all the three accused, namely, accused No.22, 41 and 34 correctly.

152.24 CROSS EXAMINATION: In the cross-examination of the witness, it has come out that he does not know who the members of the Vishwa Hindu Parishad or Bajrang Dal are. The witness has admitted that he was always residing at Lane No.1, Hussainnagar. The witness is cross-examined with regard to the topography of the area. He has admitted that if he stands in his house, he cannot see the gate of the S.T. Workshop, and that from his house he cannot see the roads from Krushnanagar and Kubernagar. The witness has denied that there is a tap at the corner of the lane and has admitted

that the water tap is situated at the corner of the S.T. Workshop where presently there is a police chowky.

152.25 The witness is cross-examined at length with regard to the topography of the area, etc. In his cross-examination, it has come out that the mob from the side of Krushnanagar was comprised of about one thousand people and that the mobs from Mahajaniyavas and Natraj were also approximately comprised of one thousand people. The witness has said that he had seen the first mob towards Natraj and that he had then seen the mob towards Mahajaniyavas and then, he had seen the mob towards Krushnanagar and that except for the three mobs, he had not seen anything else on the road. The witness has voluntarily stated that he had also seen the accused. He has admitted that the very same accused whom he has identified in the court, had been seen by him in the mob. He has admitted that except for them, out of these three mobs of one thousand people each, he had not identified any other accused. The witness has admitted that the three accused whom he had identified were in different mobs and has stated that he cannot say as to exactly at what time he had seen the three accused, but has stated that he had seen them in the morning.

152.26 The witness has admitted that Manoj did not have any weapon with him and has further admitted that he had not seen any of the three accused assaulting anyone. The witness has admitted that at the time of the incident, he did not know Lakha's full name. He has admitted that he knows Suresh Langda. He has denied that only the mob that came from the side of Mahajaniyavas, was pelting stones and other mobs

were not doing anything.

152.27 The witness has admitted that his statements were recorded on 12.6.2008 as well as 25.9.2008. The witness is sought to be contradicted as to his statement dated 12.6.2008 to the effect that he had only referred to the mob which came from Chharanagar Mahajaniyavas, had come near Noorani Masjid in the passage on the road and were damaging Noorani Masjid as well as the carts and stalls nearby and there was stone pelting. The witness has denied the suggestion that the other mobs were not indulging in looting and ransacking.

152.28 In his cross-examination, the witness has stated that he had reached the scene of incident at 9 o'clock and had stayed there at around 10 o'clock and was injured by a bullet at 10 o'clock.

152.29 The witness has admitted that his statement was also recorded on 1.3.2002. The witness is confronted with the contents of his statement dated 1.3.2002 to the effect that he had stated therein that on 28.2.2002, he was at home and at that time, in the evening at around 6 o'clock, in the riots that erupted in the city, a mob of about three to four thousand people came inside Jawaharnagar and was pelting stones and attacking with sharp edged weapons and was sprinkling kerosene and burning things. At this time, there was a stampede and he too had fled and come on the road. At this time, the police had released tear gas shells and upon the tear gas shells being lobbed, there was smoke and in the sudden firing, he was wounded by a bullet on the shoulder of his left hand, whereupon he was taken to Shah Alam and from there

he was taken to the Vadilal Hospital. He does not know the names and addresses of any one in the mob. It may be noted that the witness is simpliciter confronted with his previous statement without seeking to contradict any part of his testimony; therefore, this part of his deposition is inadmissible in evidence. Moreover, if one peruses the contents of the statement, there is reference to a mob of three thousand to four thousand people coming into Jawannagar at 6 o'clock in the evening and the attacking them with weapons and committing arson and the witness fleeing from there and coming on the road and the police lobbing tear gas shells and resorting to firing, wherein the witness sustained the bullet injury, which is totally contrary to the facts on record. Therefore, it appears that the assignee officer had not recorded the statement of the witness correctly, inasmuch as there was no police firing on the road after 6:00 p.m. and it is the specific case of the witness that he was injured in police firing on the road in the morning. The witness is, therefore, justified in denying the contents of such statement.

152.30 The witness is also confronted with his statement dated 7.3.2002 to the effect that he had stated therein that on 28.2.2002, there was a call for Gujarat Bandh in connection with the incident that had taken place at Godhra and he was present at home. In the meanwhile, at around 11:00 to 11:30 in the morning, a huge mob came from the direction of Saijpur Patiya and started shouting and pelting stones and the police lobbed tear gas shells to disperse the mob and resorted to firing, despite which, the mob did not disperse and started damaging the houses and setting them on fire and he was injured with a bullet on the elbow of his left hand. Since there

were many people in the mob, they were surrounded on all four sides and hence, his family members had hidden themselves and at night, upon the police vehicles coming, they were taken to Shah Alam and from there, he was admitted in the Vadilal Hospital for treatment. That he does not know any person in the mob and does not know where any of them is residing. The witness has of course denied such suggestion.

152.31 Apart from the fact that this part of his previous statement is put to the witness without seeking to contradict any part of his evidence, and is therefore, inadmissible in evidence, insofar as the statement dated 7.3.2002 is concerned, the same is recorded by PW-276 Shri P.U. Solanki, an assignee officer, at the V.S. Hospital, wherein he has recorded the statement as referred to hereinabove. As noted in detail in the evidence of PW-205, this officer has recorded statements of PW-145 Shahnawazkhan Abbaskhan Pathan, PW-152 Parveenbanu Salambhai Qureshi, PW-154 Ahemadbadshah Mehboobhussain, PW-156 Abdul Majid Mohammed Usman Shaikh, PW-205 Zarinabanu Naeemuddin Shaikh and this witness PW-167 Mohammedhussain Kayumbhai Shaikh. During the cross-examination of the assignee officer, the police statement of each of the above witnesses, as recorded by him has been brought on record. On a conjoint reading of the statements of all the above witnesses, it is found that the statements are identically worded, except the names, addresses and particulars of family members as well as names of family members, who are injured or who have died in the incident and injuries sustained by the witnesses. The main part of statements of each witness is absolutely identically worded. Evidently, therefore, this officer appears to have written down

the statements as per his own whims and has not written down what is stated by the witnesses. Such statements, therefore, cannot be said to be statements of the concerned witnesses and no part of such statements can therefore, be used to contradict the witnesses.

152.32 The witness has denied the suggestion that he has not named any accused in either of the above two statements. The witness has admitted that the mob which was committing loot was near Noorani Masjid. He has denied that the police had fired at the mob which was looting and has voluntarily stated that the police were firing at the Muslims.

152.33 The witness has admitted that in his statement recorded by the SIT, he has not made any clarification as to whether he was injured in police firing or private firing. The witness has denied that in his statement dated 12.5.2002, he has stated that in the mob, apart from the above three persons, there were about forty to forty five thousand people, out of whom, they could identify the above three persons who were in the mob.

152.34 The witness is cross-examined with regard to the persons who were injured in the firing and as to who was injured prior in point of time. In his cross-examination, it has come out that stone pelting was going on. He had gone where Pirubhai was and that he too was injured by a bullet on the *kachcha* road. The people took him and Pirubhai to Rasidaben's ota (a raised platform). From Rasidaben's ota, he alone was taken to Mansuribhai's terrace. The witness has denied that where he was hiding on Mansuribhai's terrace he

was lying down and has voluntarily stated that the terrace being open, it was not possible to hide. The witness has admitted that in his statement recorded by the SIT, he has stated that from 12 o'clock in the afternoon till 1:30 at night, they were sitting and hiding on Noorbhai's terrace. The witness has admitted that he does not know where Abid, Khalid and Majid had sustained injuries and admitted that he was not at the spot where these three persons were injured by bullets. In his cross-examination, he has denied that he and Pirubhai had sustained bullet injuries between 10 to 11 o'clock and has voluntarily stated that first Pirubhai was injured by a bullet and thereafter, at 10 o'clock, he was injured by a bullet.

152.35 In his cross-examination, the witness has stated that he has never gone to Lakha's house and has voluntarily stated that when he used to go for fabrication work at Saijpur Fadeli, at that time he had come to know that he had a liquor business there. The witness has denied that he was saying that Lakha was engaged in the liquor business at the instance of somebody else and has stated that he has seen him with liquor bags in his hands, and that prior to the incident, he had seen Lakha in this manner, several times. The witness has admitted that prior to his identifying the accused before the court, he has not identified him before any other authority. The witness has admitted that he has stated before the police as well as the SIT that he does not know Lakha's full name. The witness has admitted that in his statement dated 25.9.2008, he has stated that out of the people in the mob who were involved in rioting, one person, viz., Lakho, whose full name he does not know, resides at Saijpur Fadeli, whose name he had given.

152.36 The witness has admitted that no test identification parade of Suresh Langda or Manoj Videowala was carried out in the presence of any authority. The witness has admitted that he has no relations of visiting Manoj and Suresh Langda at their homes nor did he have any occasion to talk with them or sit and have tea with them. The witness is confronted with the 3rd and 4th lines of paragraph 6 of his examination-in-chief, wherein he had stated that he set off and reached near S.T. Workshop, viz., at the water tap near the wall, and is further confronted with the first six lines of paragraph 7, as well as the contents of paragraph 8 of his examination-in-chief, to the effect that he had not stated such facts in his statement dated 12.5.2002, which he has denied.

152.37 The witness is confronted with the contents of paragraph 9 of his examination-in-chief wherein he had stated that in the incident, his paternal aunt's son Pirmahammad was injured by a bullet due to which he had fallen down; he had run to pick him up; at that time, he was injured on the elbow of his left hand by a bullet, the bullet had come from the crowd; the people of the chawl who were standing there lifted him and Pirubhai, and made them lie down in Rasidaben's provision store which is located at Lane No.1 of Hussainnagar; in the incident, Khalidbhai as well as Khalidbhai's brother Majidbhai had sustained bullet injuries on the stomach and leg respectively; has not been stated by him in his statement dated 12.5.2002, which the witness has denied. It appears that after stating that the witness and Pirubhai had sustained bullet injuries, the witness in his statement dated 12.5.2002, had stated that the people from their chawl took them to their house and made them lie down on the terrace of the adjoining

house.

152.38 The witness is further confronted with the facts stated in paragraph 10 of his examination-in-chief to the effect that he had not stated such facts in his statement dated 12.5.2002. The witness is further sought to be contradicted as regards the contents of paragraphs 14 and 15 of his examination-in-chief, wherein he has stated that in the mob which came from Natraj Hotel, he had seen Manoj Videowala; in the mob which came from Mahajanyavas, he had seen Suresh Langdo; and he saw Lakha in the mob coming from the direction of Krushnanagar to the effect that these facts have not been stated by him in his statement dated 12.5.2002. It appears that the witness has named all the three accused as being in the mob in his statement dated 12.5.2002, but the other facts stated in these paragraphs have not been stated by him. The witness is also confronted with the facts stated in paragraphs 16, 17 and 18 of his examination-in-chief, to the effect that he had not stated any such facts in his statement dated 12.5.2002. The witness is further contradicted with the facts stated in paragraphs 19, 20 and 22 of his examination-in-chief to the effect that he had not stated such facts in his statement dated 12.5.2002. The witness is confronted with the facts stated in lines No.4 and 5 of paragraph 20 of his examination-in-chief, wherein it has been recorded that "just like people have been burnt in the train at Godhra, burn them in the same manner" to the effect that such fact had not been stated by him in his statement recorded by the SIT. The witness is thereafter cross-examined with regard to the topography of the area.

152.39 In the cross-examination of the witness, he has stated that he does not know in which lane Lakho resides. He has denied that he and Suresh were in service together. In the cross-examination of the witness, it has come out that on the day of the incident when he reached the road for the purpose of going for his job, the riots had not started. However, the people were standing on the road. The mob from Krushnanagar had started pelting stones after a little while. The witness is read over the contents of paragraph 8 of his examination-in-chief. He has denied that in view of the facts stated therein, the people in the mob were speaking very loudly and therefore, there was commotion and a lot of noise on the road. The witness has admitted that till the time he was on the road, none of the mobs had entered their chawl. The witness has stated that he does not know as to whether he was first taken to Rasidaben's ota after he was injured by a bullet and as to whether they had stayed there for about ten minutes. The witness has admitted that from Rasidaben's ota, they had gone to hide on the terrace. The witness has admitted that while he was on the terrace, he had not seen what was happening in their chawl. The witness has stated that he has not seen Lakho, Suresh or Manoj in the mobs which had entered the chawls and has voluntarily stated that he had seen them on the road. The witness has denied that since he was working for Naranbhai Desai who had enmity with Lakha, he was falsely naming Lakha at the instance of Naranbhai. The witness has further denied that at the instance of the leaders of their community, at the relief camp a note was handed over to him with the names of Manoj and Suresh and he had, accordingly, falsely implicated them.

152.40 The omissions and contradictions in the testimony of this witness as to his previous statements recorded by the investigating agencies are sought to be proved by the defence through the cross-examination of the concerned Investigating Officer or the assignee officer of the concerned Investigating Officer.

152.41 PW-274 Shri K.K. Mysorewala, in his cross-examination, has admitted that the statement of this witness was recorded by Shri Katara (deceased) on 1.3.2002. The Investigating Officer has admitted that this witness apart from the formal statements in his statement dated 1.3.2002, had stated that on 28.2.2002, he was present at home. At that time, in the evening at around 6 o'clock, upon the riots erupting in the city, a mob of about three to four thousand people charged into Jawannagar and attacked by pelting stones as well as with sharp edged weapons and started sprinkling kerosene and burning. At this time, there was a pandemonium and he too ran from there and came to the road. At this time, the police were bursting tear gas shells. Upon releasing tear gas shells, there was a smoke and in the sudden firing, he was injured on the shoulder of his left hand by a bullet and upon being injured, he had gone from there to Shah Alam and from there, he was taken for treatment to the Vadilal Hospital. He did not come to know of the names and addresses of any of the people in the mob and that he was fully conscious and his treatment was going on.

152.42 The Investigating Officer has admitted that the witness has not stated before Shri Katara that the mob had come from the side of Natraj, Mahajanyavas as well as

Krushnanagar, but had stated that a mob of about three thousand people had charged into Jawaharnagar.

152.43 The Investigating Officer has further admitted that before Shri Katara, the witness has not stated regarding Khalid and Majid being injured by bullets. The Investigating Officer has further admitted that before Shri Katara, the witness has not stated any fact regarding a boy named Modin being put in a pan-galla and burned. The Investigating Officer has further admitted that the witness has, in his statement recorded by Shri Katara, not stated that he had taken a cycle for the purpose of going for his job and then, he had reached near the water tap. The Investigating Officer is shown the contents of paragraph 10 of the examination-in-chief of the witness and he has admitted that the witness has not stated such facts before Shri Katara. In paragraph 10 of the examination-in-chief, the witness has stated that the people in the mob, like them, had also brought both of them and made them to lie down next to them. Abid was injured by a bullet on his private parts in the incident and had died on the spot. The time must have been around 10 o'clock in the morning.

152.44 The Investigating Officer has admitted that before Shri Katara, the witness has not stated that he was doing fabrication work at Saijpur Fadel.

152.45 It may be noted that insofar as the witness is concerned, in paragraph 64 of his testimony, during the course of his cross-examination, he has, in general, been confronted with his entire examination-in-chief to the effect that he had not stated any such facts in his statements dated 1.3.2002 and

7.3.2002. The witness is not contradicted in respect of specific parts of his examination-in-chief, whereas specific parts of his examination-in-chief are put to the Investigating Officer to bring out omissions and contradictions in his previous statement. The mode and manner of bringing out the omissions and contradictions and proving them, leaves a lot to be desired.

152.46 PW-276 Shri P.U. Solanki, the assignee officer has stated that he has recorded the statement of this witness on 7.3.2002 at the V.S. Hospital. He has admitted that this witness, in his statement dated 7.3.2002, had stated before him that yesterday, that is, on 28.2.2002, there was a call for Gujarat Bandh in connection with the incident that had taken place at Godhra and he was present at home. In the meanwhile, at around 11:00 to 11:30 in the morning, a very huge mob had come to Saijpur Patiya and started shouting and pelting stones and the police had released tear gas shells and resorted to firing to disperse the mob, despite which the mob did not disperse and started damaging the houses and torching them and he had sustained a bullet injury on the elbow of his left hand and since there were a large number of people in the mob and they were surrounded on all four sides, he and the members of his family had hidden themselves and upon the police vehicle coming at night, they were taken to the Shah Alam camp and from there, he was taken for treatment to the Vadilal Hospital. At that time he was under treatment. His wife and children were safe and sound. He did not know as to who were the people in the mob. He did not know them and also did not know where they were residing. PW-276 has admitted that this witness has not named any accused before

him.

152.47 Insofar as this part of the cross-examination of the assignee officer is concerned, the same has been dealt with hereinabove and hence, it is not necessary to reiterate the same.

152.48 The assignee officer has also admitted that this witness in his statement dated 7.3.2002 has not stated that he had gone for his job on his cycle and had reached near the water tap. The assignee officer has also admitted that the witness in his statement dated 7.3.2002 has not stated the facts stated by him in paragraphs 9 and 10 of his examination-in-chief, wherein he has stated that in the incident, his paternal aunt's son Pir Mohammad was injured by a bullet, and hence, he had fallen down; he had lifted him up and run; at this time, he was injured by a bullet on the elbow of his left hand; this bullet had come from the crowd; the people of the chawl who were standing there had lifted him and Pirubhai had made them lie down near Rasidaben's provision shop in Hussainnagar, Lane No.1; in this incident, Khalidbhai and Khalidbhai's brother Majidbhai were injured by bullets in their stomach and leg respectively; the people in the chawl had also brought both of them and made them lie down next to them; in the incident, Abidbhai was injured by a bullet on his private parts and hence, he had died on the spot; at this time, it must have been around 10 o'clock in the morning.

152.49 In the cross-examination of the assignee officer, he has admitted that the facts stated by the witness in paragraphs 44 and 45 of his deposition, have not been stated

by him in the statement recorded by him. It may be noted that this assignee officer has not recorded the statement dated 1.3.2002, therefore, the question of cross examining him qua the contents of that statement did not arise inasmuch as he could not have proved the omissions and contradictions as to the statements recorded by some other officer. What is disturbing is that this kind of cross-examination has gone unchecked, both by the prosecution and the court.

152.50 PW-298 Shri M. B. Gohil, the assignee officer has admitted that this witness in the statement recorded by him had stated that the mob from Noorani Masjid started pelting stones on them and at this time, it must have been about 10 o'clock in the morning. In the meanwhile, the police first lobbed teargas on the people who were standing on the corner of the chawl and then resorted to firing, due to which his paternal aunt's son Pirmohammad Allabax Shaikh, aged 32 was injured by a bullet and he fell near the road. Hence, he (the witness) threw his cycle and went to rescue him, when a bullet fired by the police struck him on the elbow of his left hand and the people from the chawl took him home and he was made to lie down on the terrace of a house adjoining their house. In this mob these three people as well as about forty thousand to forty five thousand people were there, out of whom he could identify these three people.

152.51 The assignee officer has admitted that this witness in the statement recorded by him has not stated that Khalid, Abid and Majid were injured by bullets. The assignee officer has admitted that this witness has stated before him that "he and all his family members had hidden on the terrace of

Mansuribhai Noorabhai's house which is situated next to their house. Thereafter, the people in the mob" The assignee officer has further admitted that this witness has not stated before him that he had come out and gone near the S.T. Workshop, namely, near the compound wall where the water tap is situated.

152.52 Certain extracts of paragraph 7 and the contents of paragraph 8 of the examination-in-chief of the witness are read over to the assignee officer, who has admitted that the witness has not stated such facts in the statement recorded by him. Certain extracts of paragraph 9 and the contents of paragraph 10 of the examination-in-chief of the witness are read over to the assignee officer, who has admitted that the witness has not stated the contents of paragraph 10 of his examination-in-chief in the statement recorded by him but has stated that the witness has said that an incident had taken place wherein he and Pirmohammed were injured by bullets which had taken place at around 10 o'clock in the morning.

152.53 The assignee officer has admitted that the witness had not stated before him that Manoj Videowala was saying "*Cut the Miyabhais. Kill them. Do not leave them alive.*" while he was coming in the mob from the side of Natraj hotel in the statement recorded by him, but has clarified that the witness has stated that Manoj Sindhi Videowala, who has a shop in 'A' Ward in Kubernagar was in the mob and that the witness knows him.

152.54 The contents of paragraph 15 of the examination-in-chief of the witness are read over to the assignee officer, who

has admitted that the witness has not given the names of accused Lakha and accused Suresh Langdo as stated in the examination-in-chief, but has clarified that the witness had named both the accused and had stated that they were present in the mob which had entered the chawl.

152.55 The contents of paragraphs 16 to 20 of the examination-in-chief of the witness are read over to the assignee officer, who has admitted that the witness has not stated these facts in the statement recorded by him, except that they had reached the Shah Alam camp.

152.56 The contents of paragraph 22 of the examination-in-chief of the witness are read over to the assignee officer who has admitted that such facts were not stated by the witness in the statement recorded by him.

152.57 The assignee officer has admitted that the witness had not stated any fact regarding any firing from the mob, but had stated that there was firing by the police.

152.58 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statements of this witness on 12.6.2008 and 25.9.2008. He has admitted that this witness in the statement recorded by him, had stated that therefore, to protect themselves from the mob, the Muslims standing at the entrance of the chawl had also resorted to pelting stones. It may be noted that in a question put to the witness in the cross-examination, he has denied that there was any cross stone pelting and to contradict such part, reference is made to the

statement of the witness. The Supreme Court in the case of **Tahsildar Singh v. State of U.P.** (supra) has held that through the process of cross-examination, the contents of the statement recorded by the police cannot be brought on record. Therefore, when the witness in his examination-in-chief has not made any assertion in this regard, something elicited in the cross-examination cannot be sought to be contradicted with reference to the statement made under section 161 of the Code, inasmuch as, it would result in eliciting what has been stated in the police statement through the process of cross-examination. The Investigating Officer has admitted that at the time when the SIT recorded his statements, the witness has not made any grievance that the facts stated by him had not been recorded properly in the earlier statements.

152.59 SUBMISSIONS: The learned counsel for the appellants invited the attention of the court to the contents of paragraph 12 of the examination-in-chief of the witness to submit that the witness was made to lie down on the terrace and therefore, it was not possible for him to see the incident narrated in paragraph 18 of his deposition. It was submitted that the witness has not named any accused in the first two statements and has named them for the first time in his third statement. It was submitted that even in the third statement, the witness has referred to the accused as Lakha and not by his full name. It was submitted that in such circumstances, a test identification parade ought to have been held.

152.60 It was submitted that the names of the three accused have surfaced for the first time in the third statement of this witness recorded on 12.5.2002. Even if the facts stated

in the third statement are taken at face value, the only allegation is that they were seen as a part of the mob without any overt act and on an admission that he had not seen any of them causing any injury to anyone. It was submitted that in the examination-in-chief, the witness has tried to attribute utterances of hate words to all the three accused separately, but they were not stated even in his third statement and all this is stated for the first time only before the SIT. It was submitted that this witness had no acquaintance with accused No.22 and 41 and even as far as accused No.38 is concerned, he had not even given his full name and no test identification parade was held to establish the identity of the accused beyond reasonable doubt. It was submitted that this witness has given different timings about the incidents that he had witnessed in all his three police statements and therefore, it is very doubtful whether in fact he had seen any incident or the accused at all.

152.61 It was further submitted that the witness has been residing at Hukamsing-ni Chali since many years, but the names of the persons he has given are not residents of any of the chawls or Gangotri Society. It was submitted that this witness has referred to the presence of three mobs, whereas most of the witnesses have referred to two mobs. It was submitted that the main infirmity in the statements of this witness is that he does not refer to any attack on the Noorani Masjid, burning of the Noorani Masjid, the tanker dashing against the Noorani Masjid, bursting of gas cylinders in the Noorani Masjid, and the burning of tea stalls and shops near the Noorani Masjid. It was submitted that all these facts would create a doubt as to whether the witness was on the spot and

had seen the accused persons in the huge mob.

152.62 It was submitted that this witness does not refer to any weapon in the hands of Manoj, whereas another witness says that Manoj had a weapon in his hand and therefore, there is an inconsistency *inter se* between the testimonies of the witnesses.

152.63 Referring to paragraph 18 of his deposition, it was submitted that the witness has stated that he was on the terrace of a house in Lane No.1. It was submitted that Noorabhai's house is also in Lane No.1 and therefore, he could not have seen the incident that took place in Lane No.2. It was submitted that the witness does not have to pass by the cabin to go out on the road. It was argued that the witness has not named any of the accused in the first and second statements recorded by the police and has named them only after he went to the camp. It was submitted that the witness has only sustained an injury on his elbow, and hence, was not in a condition where he could not give a proper statement. It was submitted that from the cross-examination of the witness, it is evident that he had no occasion to come in contact with the named accused and in the absence of a test identification parade, the accused cannot be said to have been properly identified. Referring to paragraph 101 of the deposition of the witness, it was pointed out that till 10:00 to 10:30 a.m., no one had entered the chawl. Referring to the contents of paragraph 102 of his deposition, it was submitted that this witness has not seen any incident in his chawl and hence, he could not have seen the Modin incident.

152.64 It was urged that there are vital and important contradictions in the deposition of this witness and in his statements before the police. That the witness has identified the accused after more than eight and a half years from the date of the incident without there being a test identification parade and he had no occasion to come in contact with the accused in the past and therefore, his evidence does not inspire confidence and cannot be relied upon.

152.65 Mr. Prashant Desai, learned Special Public Prosecutor, with all the vehemence at his command submitted that when in the statement dated 12.5.2002 the names are given by a victim and he has also given the names before the SIT in his further statement which was brought in his examination-in-chief and when the Court is considering all the statements recorded by the police, if the names are there in three of such statements, not to believe those names only because they are not given in the statements dated 1.3.2002 and 7.3.2002 would not be proper. It was argued that if the defence wants to contend that when on 1.3.2002 and 7.3.2002, the witness does not remember the names and gives them on 12.5.2002, he is tutored, then it is for the defence to establish that the witness, in fact, has been tutored. It was emphatically argued that no inference can be drawn only because in the statements dated 1.3.2002 and 7.3.2002, no names have been given and only on 12.5.2002, the names of the accused have been disclosed and hence he seems to have been tutored or that the accused have been named as an afterthought. Such an inference is uncalled for and cannot be drawn.

152.66 It was submitted that this witness is an injured and natural witness and an affected victim. He took treatment at the V.S. Hospital, which shows that he was injured, and therefore, it cannot be said that this witness cannot be believed as regards the three accused whose names have been stated by him. It was urged that the witness has named the accused in his statement dated 12.5.2002, as well as in the statement recorded by the SIT and in his examination-in-chief and it cannot be said that the names given on 12.5.2002 or before the SIT and in the court cannot be believed without any further evidence on record. It was submitted that the prosecution has placed the witness in the witness box and he has deposed and if the defence wants the witness not to be believed it is for the defence to make efforts for the same.

152.67 ANALYSIS: As per the testimony of this witness, when he came out on the road at about 9 o'clock in the morning, he had seen the three accused in different mobs. He has stated that he had seen accused No.41 Manoj Videowala in the mob coming from the side of Natraj Hotel and has attributed certain utterances to him. He has deposed that he had seen accused No.22 Suresh Langda with a sword in his hand in the mob coming from Mahajaniyavas, and he had seen accused No.34 Lakha with a trishul in his hand in the mob coming from the side of Krushnanagar and has attributed certain utterances to him. In his cross-examination (paragraph 37), the witness has admitted that he had not seen any weapon in the hands of accused Manoj. He has further admitted that he had not seen any of the three accused assault anyone. Thus, he has not attributed any overt act to the accused except having attributed certain utterances to two

of the accused.

152.68 The witness has admitted that Pirubhai was injured in the firing before him. He does not remember the exact time, but says that he must have reached near Pirubhai within five to six minutes of his being injured by the bullet. In his cross-examination, he has further stated that Pirubhai was looking for his daughters and was calling out their names and that he was injured by the bullet on the kuccha road in front of the public tap. PW-165 Pirmohammed Allabax Mansuri has deposed that his daughters had gone to fetch water and he had gone out of his house to bring them back. After coming out of his house, he straight away had gone to the road where there were taps. He was looking for his daughters, when all of a sudden a bullet came from somewhere and he was injured on the leg. In his cross-examination, the witness has also stated that he was injured by a bullet when he went to the kaccha road where Pirubhai was. PW-165 has stated that he was injured by the bullet at about quarter to ten, whereas this witness has stated that he (the witness) was injured after Pirubhai at around 10 o'clock. Thus, on a conjoint reading of the testimony of this witness and the testimony of PW 165, it can be seen that they corroborate each other.

152.69 Insofar as acquaintance with the named accused is concerned, the same is clearly brought out in paragraphs 67, 72 and 104, qua accused No.34 Lakha. Insofar as accused No.22 Suresh Langda and accused No.41 Manoj Videowala are concerned, the witness has admitted that no test identification parade had been carried out to identify these two accused. He has further stated that he had no social or any other relations

with them. A suggestion has been made in paragraph 104, that Suresh Langdo used to serve with him, which the witness has denied. Therefore, qua these two accused, acquaintance has not been specifically established.

152.70 As regards the omissions and contradictions as to the previous statements recorded by the police, initially while the witness was in the hospital, his statements came to be recorded on two occasions, firstly, on 1.3.2002, and secondly, on 7.3.2002. Subsequently, another statement came to be recorded by the police on 12.5.2002. In the first two statements the names of the accused were not disclosed and for the first time the names of the accused were disclosed in the statement dated 12.5.2002 and thereafter in the statement recorded by the SIT in the year 2008, and then in his examination-in-chief before the court. However, while referring to the cross-examination of the witness, the nature of the statements dated 1.3.2002 and 7.3.2002 recorded by the respective assignee officers has been discussed and this court has come to the conclusion that neither of such statements appear to have been recorded in terms of what the witness has stated, and therefore, cannot be used to contradict the witness to bring out any omissions and contradictions in his testimony. This court has assigned detailed reasons in that regard.

152.71 On behalf of the appellants it has been urged that the witness had not disclosed the names of the accused in the first two statements and had disclosed such names for the first time in his statement dated 12.5.2002, which leads to an inference that the naming of the accused in such statement is a result of tutoring. The learned Special Public Prosecutor, as

noted hereinabove has vehemently and emphatically made submissions to counter this argument. Alas, if only the efforts put in the matter, had matched the vehemence with which the submissions had been made! As can be seen from the submissions advanced by the learned Special Public Prosecutor, very simplistic submissions have been put forth to the effect that if the names are given in the subsequent statement the same have to be considered and not naming the accused in the previous statements would not lead to an inference that the witness is tutored. The court had called upon the learned Special Public Prosecutor to show as to why the witness had not given any names in his first two statements and for the first time on 12.5.2002, he had named the accused. However, instead of coming with a plausible explanation based on the material of record, the learned Special Public Prosecutor appeared to be annoyed by the query and shrugged it aside with a facile answer that all the statements of the witness have to be taken into consideration in their totality and as long as a fact is mentioned in one statement, no matter the length of the delay, there is no omission. Consequently, despite the fact that the learned Special Public Prosecutor was assisted by a battery of lawyers, all at the expense of the exchequer, the burden of scrutinizing the evidence minutely, fell upon the court.

152.72 In the opinion of this court, for the reasons recorded while considering the cross-examination of this witness and the concerned assignee officers, the statements dated 1.3.2002 and 7.3.2002 alleged to have been given by the witness are required to be ignored. Therefore, the statement dated 12.5.2002 would be the first legitimate statement of the

witness, wherein he has named all the three accused. Certain omissions and contradictions have also been brought out in the testimony of this witness as to the statement dated 12.5.2002, which have been proved through the testimony of the concerned Investigating Officer. In his cross-examination, a contradiction has been brought out that in the above statement the witness had not referred to any firing from the mob and had only referred to firing by the police. From the cross-examination of the witness it further emerges that he had named the accused as stated in paragraphs 14 and 15 of his examination-in-chief and had referred to their presence in the mob committing offences, but the other facts stated therein whereby certain weapons and utterances have been attributed to the accused have not been stated by him in his statement dated 12.5.2002. Further omissions have been brought out which reveal that the witness had not stated any fact regarding Noorabhai Mansuri's mother having told the mob that they were Gujaratis, etc.; the fact regarding the incident of Modin, etc.; were not stated by him in his statement dated 12.5.2002. In this regard it may be noted that insofar as reference to Noorabhai Mansuri's mother and the incident of Modin are concerned, the witness has not implicated any accused in connection with either of those incidents. Therefore, any omission to state such facts would not affect the prosecution case when the core of his testimony, viz. that he had seen the three accused in the mobs in the morning, stands unshaken. The witness is consistent insofar as the presence of the three accused in the mob on the road in the morning though he has made certain improvements in his statement before the SIT and in his testimony before the court.

152.73 Thus, while there are improvements and embellishments in the testimony of this witness, the core of his testimony remains unshaken and he is consistent regarding he and Pirmahammad having sustained injuries in the police firing, which proves his presence on the road in the morning; as well as he having seen the three accused in the mobs on the road in the morning. Insofar as A-34 Lakha is concerned, the acquaintance qua him is also established. Insofar as the other two accused, viz. Manoj Videowala (A-41) and Suresh Langda (A-22) are concerned, since the acquaintance is not duly established, the evidence of the witness qua those accused would have to be appreciated accordingly.

153. **PW-168-Ayeshabibi Abdulkadar Shaikh alias Malvari**, aged 60 years, has been examined at Exhibit-1168. This witness has deposed that she was residing at *Jigarhasan-ni-Chali, Opp. Excise Chowky, Naroda Patiya, Ahmedabad* since the last 25 years. In the year 2002 also, she was residing at *Jikarhasan-ni-Chali* with her husband, two married sons, their wives and six grand children.

153.1 In the year 2002, she used to prepare Islamic frames and sell them. At the relevant time, her husband working with a person who used to sell coconut water. Her elder son Abduljabbar used to and is still working in an elastic factory since 2002. Her younger son Abdulrazak used to do tailoring work in the year 2002. He, however, had died in an accident in the year 2003.

153.2 The witness has deposed that the incident took place on 28.2.2002, which was a Friday. On that day, there

was a call for bandh. She did not know who had given such a call.

153.3 On the day of the incident, her entire family was at home with her. On that day, at around 9:00 to 9:30 in the morning, people from outside came fleeing to their house and told them that a lot of disturbances were going on outside and they had come to hide there. She had given in her house shelter to those who had come and had let them sit there. Even thereafter, many people were coming to their chawl and they had let them sit in the chawl.

153.4 Upon hearing all this, she and her two sons went outside their chawl where Babu's Hotel is situated and stood there. At that time at a very short distance from Babu's Hotel, they had seen many mobs. At that time, the people in the mob were throwing stones as well as glass bottles filled with something at them.

153.5 At that time, in view of the riots, her son Jabbar had suggested that they should go home, whereupon she had told him "*We are standing here, but you people go home as you are young*". Jabbar had told her that "*We do not have anything to face these people*".

153.6 On the day of the incident, she had seen **Jaybhavani, Guddu Chhara (both deceased)** and **Suresh Langdo (accused No.22)** in the mob.

153.7 The witness has deposed that she would be in a position to identify all the above three persons if they were

present before her.

153.8 The witness has further deposed that on the day of the incident, since there was a lot of tension, they had stayed awake outside their house the entire night. On that night, a police vehicle had come, however, they could not find enough space to sit in it and hence, they remained awake near their house the entire night.

153.9 Thereafter, on the next day, at around 2 o'clock in the afternoon, a vehicle came wherein her entire family had gone to the Shah Alam camp, where they have stayed for six months.

153.10 Around eight days after the incident, the police had recorded her statement at the camp and she had stated whatever she had seen to the police. The witness has thereafter wrongly identified accused No.50 Badal Ambalal as Suresh (A-22). Thus, the witness has not been able to identify the only living accused named by her.

153.11 CROSS EXAMINATION: In the cross-examination of this witness, she has admitted that she has not stated the facts stated by her from the second line to the last line of paragraph 5 and the entire facts stated in paragraphs 6 and 7 of her examination-in-chief, in her police statement dated 12.5.2002. The witness has denied that she has not named Suresh Langda in her statement recorded by the police. The witness has been cross-examined with regard to the topography of the area. In her cross-examination, the witness has admitted that Babu's Hotel is situated behind Noorani

Masjid and has further admitted that there are two chawls between Noorani Masjid and Babu's Hotel. The witness has admitted that for the purpose of coming to the road, one has to take the road immediately adjoining Noorani Masjid and has admitted that the road through the chawls is a curved one. The witness has further admitted that from Babu's Hotel, one cannot see the national highway. The witness has admitted that from Babu's Hotel, she had returned home and that on the day of the incident, both her sons had come home in the evening between 4:00 to 5:00 p.m.. The witness has admitted that she knew that Jaybhavani used to live in the field and Suresh used to live in Chharanagar. The witness has further admitted that prior to coming to the court, she had not identified the accused either before the police or before the Executive Magistrate.

153.12 PW-279 Shri B. J. Sadavrati, the assignee officer, has admitted that he had recorded the statement of this witness on 12.5.2002. He has admitted that this witness has not given the name of Suresh in the statement recorded by him, but had stated that a lame person who resides in Chharanagar was there. He has admitted that this witness had stated before him that Jaybhavani and Guddu Chhara reside in Chharanagar. He has also admitted that this witness had not stated that Jaybhavani resides in a field and that he does not know where Guddu Chhara was residing.

153.13 SUBMISSIONS: Mr. Y.S. Lakhani, learned counsel for the appellants submitted that this witness has stated that she had seen the accused in front of Babu's Hotel. The attention of the court was invited to the topography of Babu's

Hotel to submit that there are two chawls between Babu's Hotel and the Noorani Masjid and hence, it is in no manner possible for a person standing in front of a Babu's Hotel to see what is going on in front of the Noorani Masjid or on the Highway. It was submitted that in any case this witness has named three accused, namely, Jaybhavani, Guddu Chhara and Suresh Langdo. Jaybhavani and Guddu Chhara are dead and the witness could not identify accused No.22 Suresh Langdo correctly. It was submitted that, therefore, the evidence of this witness would not in any manner support the prosecution case against accused No.22.

153.14 ANALYSIS: This witness who is a resident of Jikarhassan-ni-Chali, which is one of the chawls situated behind the Noorani Masjid, claims to have seen Jaybhavani, Guddu Chhara and accused No.22 Suresh Langdo in the mob pelting stones while she was standing near Babu's Hotel. This witness had not named accused No.22 in her statement dated 12.5.2002, but appears to have given some description of the accused. Considering the topography of the area, it would not have been possible for the witness to see the mob. Last but not least, the witness failed to identify the sole living accused named by her in the dock. The testimony of this witness, therefore, does not support the prosecution case in any manner.

154. **PW-169 Belim Jubedaben Mahammadidrish**, aged 43 years, has been examined at Exhibit-1169. This witness has deposed that in the year 2002, she used to reside in *Badarsing-ni-Chali, Behind Pandit-ni-Chali, Next to ST Workshop, Naroda, Ahmedabad*. The witness has stated that

she used to reside at *Badarsing-ni-Chali* since about fifteen years prior to the incident, in fact, she was residing in the Naroda Patiya area since birth, but after her marriage, she had gone to live at Sabarmati. However, thereafter, she had come to reside at *Badarsing-ni-Chali*. The witness has deposed that her husband died on 14.11.1993 and she has a daughter called Asma who is twenty years old.

154.1 The witness has deposed that she has studied up to the 12th standard and that her parents, brother and sister-in-law live in a house of their ownership in Pandit-ni-Chali. Her parents were residing in the house since about fifty years prior to the incident, and after her father died, she and her daughter went to reside in the house at *Badarsing-ni-Chali*, whereas her in-laws used to live at Sabarmati.

154.2 The incident took place on 28.2.2002 on the day when there was a call for Gujarat Bandh.

154.3 On that day in the morning at around 9 o'clock, she and her daughter Asma were at home. She was doing the household chores when she heard voices of people in the neighbouring chawls and her nephew came to call her. They, namely, a few of the women in the chawl, her daughter Asma, her sister-in-law, etc. came out of the house to the road to see what was happening. They had gone to the corner of their chawl, where at present the Naroda Police Chowky is situated on the road near the S.T. Workshop.

154.4 They saw that the people in the mob were shouting and they had deadly weapons like pipes in their hands. They

were directly attacking them and were throwing stones at them. These people were breaking the carts and cabins nearby. They were also vandalizing the houses and buildings nearby. Upon all this happening, all the women who were with her, went back towards their chawl.

154.5 In the morning at around 9 o'clock, when they were on the road, Salimbhai, a neighbour was with them. Salimbhai was injured by a stone in the incident and was bleeding profusely. The situation was such that the mob was not permitting them to stand in their chawls. In these circumstances, the Muslim women started looking for each other. They had gone near the Noorani Masjid to look for Mustaq, son of Sharifakaki of their mohalla. At that time, they had seen that the Noorani Masjid was in flames and that the area on side of the Noorani Masjid and everything else was being set on fire by the people in the mob by sprinkling kerosene.

154.6 They had seen that at the place where Shivabhai sells vegetables on the opposite side of the Noorani Masjid after one crosses the national highway, Mustaqbhai was injured by a bullet. Mustaqbhai fell down there. The Muslim people present there, took Mustaqbhai to the open ground of Gangotri Society for treatment.

154.7 On the day of the incident, on account of the attack by the mob, the situation was such that they could not remain standing and hence, with a view to save themselves, they started moving towards the rear side. Together with her, there were around eighty Muslim persons who started going towards

the rear side of their chawl and while they were moving towards the back, the mob had continued pelting stones and was attacking them with weapons. In the incident, she was injured on the leg with a pipe and her daughter Asma was injured with a stick on her left hand which was fractured.

154.8 At this time, many people from their mohalla were screaming and were coming from the opposite side and it could be seen that they were Muslims; however, it was difficult to recognize them.

154.9 They went in this manner to the terrace of the house of a Harijan in Gangotri Society which was locked. Her parents, brother, sister-in-law and their two daughters etc. were with her.

154.10 In the incident, her nephew Imran remained missing for five days. Thereafter, a team of Aaj Tak Channel had discovered around twelve boys hiding in the Uday Gas Agency, one of whom was her nephew, and in this manner, they had found him again.

154.11 In the incident, her brother was injured with a hockey stick and her sister-in-law had sustained a stone injury. The Gangotri Society is situated where the chawls end, and the S.R.P. Quarters are situated on the opposite side and between them, there is a huge open ground, where there were mobs which were shouting, "kill, cut" and that if she remembers their appearance, even today, she is frightened.

154.12 The place where her brother and sister-in-law were

injured was the road in front of the S.T. Workshop.

154.13 They were hiding on a terrace of Gangotri when between 7 to 8 o'clock in the evening, they saw from the terrace that the Patiya was in flames on all four sides and it was not possible to escape alive from any direction. From the terrace, they could hear screams of many people. Smoke was coming out from all the houses of the Muslim population and not a single house of their population must have been left unburnt. From the terrace, they saw a mob armed with deadly weapons and they had identified many people in the mob and they knew that they were from their area.

154.14 In the riotous mob, she had recognized four people who were standing with the mob armed with deadly weapons. In the mob, she had seen and recognized Bipin (A-44), Guddu, Suresh Langdo (A-22) and Bhavanising.

154.15 They remained on the terrace of the house in Gangotri Society till 1 o'clock at night. At 1 o'clock at night, a police vehicle came to fetch them. When the police vehicle came, they did not come down because they were very frightened. She had seen the police give two blows with a stick to her mother, and hence, they did not get down when the first vehicle came. Subsequently, at 1:30 at night, when another vehicle arrived, they had gone in it. The police took them to the Shah Alam relief camp.

154.16 At the Shah Alam relief camp, they did not receive treatment immediately and in their own way, instead of bandages, they tied a cloth and stayed there. Thereafter, they

received treatment at the relief camp, where they stayed for approximately six months.

154.17 The people in the mob had ransacked and burnt her house at *Badarsing-ni-Chali* and looted the household articles and the house was not fit to live.

154.18 The police had recorded her statement in respect of the incident at the Shah Alam camp.

154.19 The SIT, however, had recorded her statement at Gandhinagar. She had stated whatever she knew about the incident to the SIT.

154.20 The witness has stated that she does not know as to whether Guddu and Bhavani are alive, but that she can identify all four of them. The witness has thereafter returned without identifying any of the accused and has stated that in view of the long lapse of time, she believes that she will not be able to identify any of the accused and therefore, has not identified any accused.

154.21 The witness has voluntarily stated that at present, she is residing at Naroda Patiya with her 20 year old college going daughter. That she was very frightened. She has stated that as she is a woman, she does not go out and that she had no occasion to meet the accused and at present, she cannot recognize them.

154.22 CROSS EXAMINATION: This witness in her cross-examination has admitted that she has no monetary relations

with Bipin Panchal and has no relations whatsoever with him. The witness has denied that she had no occasion to meet Bipin Panchal till date. The witness has admitted that after the incident, she had no occasion to ever meet him. The witness has admitted that in her statements dated 12.5.2002 and 23.5.2008, she has not given the full name of Bipinbhai or his address. The witness has admitted that she knew that there was a Bipin Auto Centre at the time of the incident. The witness has voluntarily stated that at present, Manan Auto Centre is situated there. The witness has stated that she is not aware as to whether Bipin Auto Centre had been set ablaze. The witness has denied that she was involved in setting Bipin Auto on fire. The witness has denied that while she was at the camp, she had received information that Bipin Auto Centre has been burnt wherein the names of Muslims are also going to be given, and hence, she had falsely given Bipin Auto's name.

154.23 In her cross-examination, it has come out that no member of her family was injured in the incident. The witness has admitted that prior to police recording her statement, she had not made any attempt to lodge any complaint in this regard. The witness has admitted that Ilyas had not referred to any disturbances or mob on the road. She had asked Ilyas as to why she was being called and he had said that the crowds have gathered on the road and hence, they are calling you. The witness has admitted that after Ilyas came, in a little while, she and her daughter Asma locked their house and went to her brother's house. The witness has denied that at that time, she, her mother, father, brother and sister-in-law and their family members had fled from there towards Jawaharnagar khada. The witness has stated that the sequence of events is as

stated by her in her examination-in-chief. The witness has denied that in her police statement dated 12.5.2002, she has stated that she had gone to her brother's place and from there, her mother, father, her brother, sister-in-law and their family members together fled from Pandit-ni-Chali towards Jawannagar khada. At this time, very huge mobs had gathered and were shouting "kill, cut", therefore, they fled from there together with their family members and went to the terrace of the houses in Gangotri Society nearby and hid there. The witness has voluntarily stated that all these facts are partly correct and that firstly, she had gone on the road and all the facts and sequence of events are as stated by her in her examination-in-chief. The witness has admitted that on the entire day of the incident, they had not gone on the highway road. The witness is cross-examined with regard to the topography of the area. In her cross-examination, it has come out that she was working in an anganwadi which is managed by an organization named Dharti Vividhlakshi.

154.24 In her cross-examination, it has come out that she did not have any talk with Imran regarding since when he was hiding in Uday Gas Agency. She has stated that she had no conversation with her nephew Imran as to when he went to Uday Gas Agency; how he went there; under which circumstances; and what he ate and drank for five days; and whether he had contacted anybody. The witness has stated that she had a conversation with regard to how he came out after five days and she came to know that upon the Aaj Tak team coming there, they had brought them to the camp.

154.25 The witness has admitted that they were hiding on

the terrace of Gangotri to protect their lives and was sitting in such a manner that no person from outside could see him. The witness has admitted that while they were on the Gangotri terrace, they were waiting for it to become dark.

154.26 The witness has admitted that they could hear the sounds of the mob on the terrace till 10 to 11 o'clock at night. The witness has denied that on that day at night at 10 to 11 o'clock, they had felt that now there was safety. The witness has stated that in fact, till the police came to take them, they had not felt safe.

154.27 The witness has denied that on the day of the incident, since it was winter, it had become dark prior to 7:00 in the evening and has voluntarily stated that at 7 o'clock also, it was not so dark that they could not see anything. The witness has denied that after 7 o'clock, they were not in a position to recognize anyone there. The witness has admitted that in none of her statements, she has stated as to which accused, had which weapon. The witness has denied that as it had become dark, she could not recognize the accused and hence, she had not stated these facts.

154.28 The contents of paragraph 7 of her examination-in-chief from the fifth line to the last line are read over to the witness to the effect that she has not stated such facts in both her police statements. The contents of paragraph 8 of her examination-in-chief are read over to the witness to the effect that she has not stated such facts in her statement dated 12.5.2002.

154.29 The contents of paragraph 9 of her examination-in-chief are read over to the witness to the effect that she has not stated these facts in her police statement. The witness has voluntarily stated that however, she had seen all this, and hence, she was speaking about it before the court in her deposition. The contents of paragraph 10 of her examination-in-chief are read over to the witness to the effect that she has not stated these facts in her police statement dated 12.5.2002.

154.30 The attention of the witness is drawn to the facts stated in paragraph 10 of her examination-in-chief, wherein she has mentioned the place where Mustaqbhai was injured on the neck by a bullet. The witness has admitted that in her statement recorded by the SIT, she has not mentioned the spot where Mustaqbhai was injured by a bullet. The witness has admitted that she had not mentioned the spot where Mustaqbhai was injured by a bullet because she did not have any idea as to where Mustaqbhai was injured.

154.31 The contents of paragraph 11 of her examination-in-chief are read over to the witness to the effect that she has not stated these facts in her statement dated 12.5.2002 which the witness has partly accepted and partly denied. The contents of paragraph 12 of her examination-in-chief are read over to the witness to the effect that she has not stated these facts in her statement dated 12.5.2002. The contents of paragraph 13 of her examination-in-chief are read over to the witness to the effect that she has not stated these facts in her both statements.

154.32 The contents of paragraphs 14, 15 and 17 of her

examination-in-chief are read over to the witness to the effect that she has not stated these facts in both her statements. The contents of paragraph 16 of her examination-in-chief are read over to the witness to the effect that she has not stated these facts in her statement dated 12.5.2002. The contents of paragraph 16 of her examination-in-chief, from fourth line to the eighth line are read over to the witness to the effect that she has not stated these facts in her statement recorded by the SIT.

154.33 The witness has admitted that her brother and sister-in-law had sustained injuries when they were going through the lanes of Jawannagar and Hussainnagar. The witness has denied that these incidents did not take place on the main road leading to the lanes. The witness has voluntarily stated that the road opposite the S.T. Workshop which she has mentioned is the road going to the lanes.

154.34 The contents of paragraphs 18 and 19 of her examination-in-chief are read over to the witness. The witness has denied that in none of her statements, she has stated that they were hiding on the terrace of Gangotri Society and that a mob had come with deadly weapons, wherein she had seen Bipin, Guddu, Suresh Langda and Bhavanisingh and recognized them, have not been stated by her.

154.35 [The trial court has made a note below that in her statement dated 12.5.2002, the witness has stated that she was hiding on the terrace of Gangotri Society and at that time, there were mobs on the road and that she had seen the above four accused in the mob. In her statement dated 23.5.2008,

the witness had stated that she had gone towards Gangotri Society and had hidden on the terrace of Gopinath Society nearby. The witness has mentioned having seen the four accused in the mob and that they were instigating the mob and were shouting.]

154.36 The contents of paragraph 20 of her examination-in-chief, from the second line to the seventh line, are read over to the witness who has admitted that she has not stated these facts in both her statements. On a perusal of the contents of paragraphs 20 and 21 of her examination-in-chief, it is evident that the witness has only referred to what has transpired after the police vehicles came to take them at night which has no direct relation to the offence in question, and hence, not mentioning such facts in the statements recorded by the investigating agencies, cannot be said to be an omission amounting to a contradiction.

154.37 In her cross-examination, it has further been elicited that when the witness came out from her father's house and went towards Gangotri Society, at that time it must have been around 1 to 2 o'clock in the afternoon. They had gone through the Badarsing-ni-Chali road. The witness has admitted that while going from this road, Jawannagar khada comes in between and they had passed through it. The witness has denied that on the way, they had stayed at Jawannagar khada. The witness has stated that after they passed from Jawannagar khada, they had gone towards the S.R.P. Quarters compound wall. The witness has denied that from there, they had gone via Gangotri to the terrace of Gopinath and has voluntarily stated that they had gone to a terrace of Gangotri Society. The

witness has stated that they must have sat on the terrace of Gangotri Society from around 6:00 to 7:00 in the evening. The witness has admitted that when they went from Pandit-ni-Chali till they reached Gangotri Society, on the route, there was no attack on them; however, thereafter, the witness has stated that there was an attack.

154.38 The witness has admitted that the injury sustained by her was when she came out of Pandit-ni-Chali. The witness has denied that after she sustained injury at Pandit-ni-Chali, nothing had occurred. The witness has denied that her daughter Asma was also injured where she herself was injured. The witness has stated that her daughter Asma was injured while they were stealthily going to Hussainnagar and Jawannagar. Asma was injured near the corner of Hussainnagar. The witness has admitted that they were not injured in the Jawannagar khada. The witness has denied that when they passed through the Jawannagar khada, there was no Hindu mob. The witness has admitted that the mobs were in huge numbers.

154.39 The witness has admitted that the mob from Jawannagar had surrounded the khada on all four sides. The witness has denied that they went through the mob. The witness has admitted that the mob was armed with deadly weapons. The witness has denied that Jawannagar khada is situated in such a manner that if any person is standing at any corner of the khada, then the person can see the entire khada. The witness has stated that the khada which she has mentioned being on the left side, no one can see. The witness has stated that she is talking about the left side where the lane

ends.

154.40 In her cross-examination, it has come out that she had not seen Muslim mobs at Jawannagar. Till she reached Gangotri Society from Pandit-ni-Chali, she had not seen any Muslim mobs and has voluntarily stated that she had seen scattered Muslims.

154.41 The witness has admitted that she had no social, monetary or any relations with the four accused named by her till the year 2002.

154.42 In her cross-examination, it has come out that when she went to the SIT to record her statement, she had made an application to the SIT for giving her statement. There were people from the SIT there who were writing down the applications. The application made by her was an application for obtaining compensation. The witness has admitted that after writing down the facts regarding the incident, she had put her signature thereon.

154.43 PW-281 Shri D. S. Vaghela, the assignee officer has admitted that he has recorded the statement of this witness on 12.5.2002. He has admitted that before him, the witness had stated that Ilyas who was residing in Pandit-ni-Chali had come to her house and informed her that at Naroda Patiya and in the area surrounding it, the mobs of twenty thousand to twenty five thousand Hindus have gathered and they had swords, sticks and other dangerous weapons in their hands and they were pelting stones and severe riots were going on and hence, she should go home with him. That she had gone to her

brother's house and from there, together with her parents, her brother, sister-in-law and their family members, they had fled from Pandit-ni-Chali and gone towards Jawannagar pit. At this time, huge mobs had gathered above and were shouting, "kill, cut", and hence, they had fled together with their family members and gone to a terrace of a house in Gangotri Society which were nearby and hidden there.

154.44 The contents of paragraphs 10 and 11 of the examination-in-chief of this witness are read over to the assignee officer who has admitted that the witness has not stated such facts in the statement recorded by him. The contents of paragraph 11 of the examination-in-chief of this witness are read over to the assignee officer who has admitted that the witness has not stated all these facts in her statement before him. He has stated that the witness had stated before him that at this time, huge mobs had gathered on the road and were shouting "kill, cut" due to which, they had fled together with their family members and had hidden on the terrace of houses in Gangotri Society nearby. Except for these facts, the witness had not stated any other facts

154.45 The contents of paragraph 14 of the examination-in-chief of this witness are read over to the assignee officer who has denied that all the facts stated therein were not stated by the witness before him. He has stated that the witness has stated that they had hidden on the terrace of houses of Gangotri Society, but the rest of the facts were not stated by her.

154.46 The contents of paragraph 16 of the examination-in-

chief of the witness are read over to the assignee officer who has denied that she had not stated all such facts in her statement recorded by him. The assignee officer has stated that the witness had stated before him that in these riots, her brother Mohammad was injured on the leg with a hockey stick and that the other facts are not stated by her.

154.47 The assignee officer has admitted that the witness has verbatim not stated before him that they were hiding on the terrace of Gangotri Society and that there were mobs with dangerous weapons wherein she had seen Bipin, Guddu, Suresh Langda and Bhavanisingh and recognized them. The assignee officer has stated that the witness had stated before him that they were hiding on the terrace of Gangotri Society and prior thereto, while going to Gangotri Society, the witness had gone towards the Jawannagar pit. At this time, huge mobs had gathered on the road and were shouting "kill, cut" due to which, the witness together with their family members had fled and climbed on the terrace of a house in Gangotri Society nearby and hidden there. He has also stated that the witness had stated the facts regarding having seen the four named accused in the mob. The assignee officer has admitted that the witness has not stated having seen the four accused from the terrace of Gangotri.

154.48 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross examination, admitted that he has recorded the statement of this witness on 23.5.2008. He has admitted that this witness had stated before him that she had left her house and gone to her father's house at Pandit-ni-Chali and there too, the mob had attacked, hence, they,

together with her parents, brothers, sister-in-law had fled and gone towards Gangotri Society and had gone and hidden on the terrace of the quarters of the Bhangi people at Gopinath Society.

154.49 The contents of paragraph 14 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein the witness has stated that while they were going, the houses of Harijans in Gangotri Society were in a closed condition; they had gone on the terrace of those houses and hidden; together with her, her parents, brothers, sister's two daughters, etc. were there. The Investigating Officer has admitted that in the examination-in-chief of the witness, the witness has referred to Gangotri Society, whereas in her statement, she had mentioned Gopinath Society. The Investigating Officer has clarified that in the statement dated 12.5.2008, the witness has stated that they had gone to the terrace of Gangotri Society and that the statement recorded by him was in the nature of a further statement and that what was stated earlier is also included in the investigation papers.

154.50 The Investigating Officer has admitted that the witness had not stated before him that she had seen the four accused in the riotous mob from the terrace of Gangotri Society. He has clarified that the witness in her statement had stated that they were hiding on the terrace of Gangotri Society and at that time, she had seen the four accused in the mob on the road. The witness had stated before him that they had gone towards Gangotri Society and had hidden on the terrace of nearby Gopinath Society and that in both the statements, she had stated regarding having seen the four accused in the

riotous mob. The Investigating Officer has admitted that this witness had stated before him that when the police resorted to firing and lobbed tear gas shells, her distant paternal uncle Mustaqbhai Razakbhai was injured by a bullet on the neck.

154.51 SUBMISSIONS: The learned counsel for the appellants invited the attention of the court to the examination-in-chief of the witness to submit that the sequence of events has been changed from what was stated in her police statement. It was pointed out that majority of the facts stated by the witness in paragraphs 8 to 21 of her examination-in-chief have not been stated by her before the police and a few important facts have also not been stated before the SIT. It was submitted that the version given by this witness is not reliable and not believable and that she has stated different stories before the police, before the SIT and her deposition. It was pointed out that the first version given by this witness was at a belated stage, that is, seventy two days after the incident took place.

154.52 It was submitted that this witness has named four accused including Suresh (A-22), but could not identify any accused. It was submitted that she has referred to the accused only by their first names and their full names were not given, and hence, in absence of a test identification parade, it would not be possible to establish the identity of such accused. Moreover, the witness has failed to identify the accused before the court. It was argued that the version given by this witness is not believable and she has stated different stories before the police, SIT and in her deposition. The witness is, therefore, not reliable and not trustworthy as far as two named accused are

concerned.

154.53 Referring to the contents of paragraph 55 of her cross-examination, it was submitted that the witness has not seen Mustaq sustain a bullet injury and is lying before the court. It was submitted that no medical certificate regarding the injuries sustained by any of her family members has been produced. It was submitted that considering the evidence of the witness, she has not seen the incident of Mustaq being injured in the firing. There is no acquaintance with the accused, inasmuch as Bipin and Suresh are not residing in her area. There are vital and substantial contradictions in her deposition and in her statements and her statements before the police and the SIT. The witness has not identified the accused, and hence, her evidence is not reliable and does not inspire confidence.

154.54 Mr. P.G. Desai, learned Special Public Prosecutor, submitted that the presence of this witness at the scene of offence has been established. She has narrated the incident of the morning where Mustaq had sustained bullet injury. So far as the incident in question is concerned, there is no major contradiction and therefore, she should be believed qua the incident.

154.55 ANALYSIS: From the testimony of this witness it appears that she has given a different version of the incidents that took place on 28th February, 2002 than the version given by other witnesses. In respect of most of her examination-in-chief, omissions and contradictions as to her previous statements recorded by the police, have been brought out and

proved. The witness had named four accused persons in her examination-in-chief viz. Bipin (A-44), Guddu (deceased), Suresh Langdo (A-22) and Bhavanisingh (deceased) and had also named them in her statement dated 12.5.2002 as well as in her statement dated 23.5.2008 recorded by the SIT; however, she has failed to identify any of the accused before the court. Having regard to the quality of her evidence, the witness does not come across as a credible and trustworthy witness. No part of her testimony can, therefore, be relied upon to prove the charge against the accused.

155. **PW-170 Mahammadjalaluddin Ibrahimbhai Shaikh**, aged 31 years, has been examined at Exhibit-1174. The witness has deposed that in the year 2002, he was residing in *Lane No.1, Hussainnagar* with his pregnant wife and two nephews. His native place is Village Solapur, Post Shahpur, Karnataka State.

155.1 At the time of the incident, his wife was pregnant and a son was born in the camp, where they went after the incident, he named him Shoaib. In the year 2002, he used to do tailoring work at home.

155.2 The incident took place on 28.2.2002. On that day, there was a call for Gujarat bandh, which was in the context of the incident at the Godhra railway station on 27.2.2002.

155.3 On that day, in the morning at around 9:00 to 9:15, they were all at home and were having breakfast. There was commotion outside and the people of the chawl started going hither and thither. He left his breakfast and went out to see. He

went to the tap near the S.T. Workshop at the corner of their chawl where at present there is a police chowky and saw that a mob of ten to fifteen thousand people was coming from the direction of Natraj Hotel shouting “kill, cut”. The people in the mob had come with swords, dharias, pipes etc. The mob had reached near the S.T. Workshop and was pelting stones.

155.4 Out of the people whom he saw in the mob, he could recognise six persons. They were **Bhavanisingh, Guddu Chharo (both deceased), Mungado Chharo (A-39), Hariya Chhara (A-10), Suresh Langdo (A-22)** and **Bipin Panchal (A-44)**.

155.5 These six persons were leading the mob and were managing it. It was they who had brought the mob from Natraj Hotel to the S.T. Workshop.

155.6 The people in the mob started attacking the houses near the Noorani Masjid. The people in the mob attacked the hand carts, cabins and houses near the Noorani Masjid and set them on fire. Some of them came to save the Noorani Masjid at which point of time, the mob was on the side of the S.T. Workshop. He was watching all this from the water tap near the S.T. Workshop, where presently there is a police chowky. At this time, the Hindu mob was pelting stones. They were bursting tear gas shells and their eyes started burning and after a little while, firing started.

155.7 In this incident, Pirubhai, Mahammadbhai, etc. were injured by bullets.

155.8 A police jeep was standing near the S.T. Workshop. They thought of asking the help from the police as well as for calling an ambulance because they had lifted the people who were injured and brought them to where they were standing and an ambulance was necessary for providing them treatment. At this place, they were going to ask for help from the police when two – three Muslim women standing there, told them that they (the women) would go and ask for police help and thereafter, three women went to the police for help and they immediately returned by running.

155.9 The women told them that the Police Inspector had beaten them with sticks/baton and the same Police Inspector had held a gun near the woman's earlobe and told her to go away.

155.10 After a little while, the violence by the mob increased and they started bursting shells, firing and increased the intensity of stone pelting. The mob advanced from the S.T. Workshop towards their chawl. In this mob, he had recognized three people. From this mob, half the mob was going towards the chawls and the other half was going towards the Noorani Masjid. In the mob which was going towards Noorani Masjid, he had seen **Hariyo Chhara (A-10), Mungada Chhara (A-39) and Suresh Langda (A-22)**. At that time, he was standing near the tap, near the S.T. Workshop when somebody fired a bullet at him which hit a person standing behind him. Since the firing was going on at that time, all of them ran towards the chawls. A person behind him was injured with a bullet. Thereafter, he (the witness) had gone home.

155.11 After going home, he took his wife and his two nephews and left his house and went to the S.R.P. camp, next to the chawl. They were able to go inside the S.R.P. camp. They stayed at the camp at night when at around 3:30 to 4:00, a Government vehicle came to take them. He and other people from his chawl who were in the S.R.P. camp, all of them sat in the vehicle and went to Shah Alam camp, where they stayed for around six months.

155.12 While they were at the camp, the police had come to record his statement on 12.5.2002. After his statement was recorded by the police, his son was born.

155.13 The witness has said that he would try to identify six persons whom he had seen in the mob. He has stated that he had learnt that Bhavanisingh and Guddu Chhara are dead. The witness has thereafter identified accused No.39, 22, 44 and 10 correctly.

155.14 CROSS EXAMINATION: This witness in his cross-examination has stated that he had given his statement before the police in Hindi at the camp. At the time when his statement was recorded, the statements of many other people were also recorded. In his cross-examination, it has further come out that the statement which was recorded was not read over to him by any one. The witness has stated that he had not asked the police as to what they had written down while recording his statement even with a view to ascertain what they had written. The witness has admitted that on the date when his statement was recorded as well as even today, he does not know as regards the police has recorded in his statement. The witness

has further deposed that he came to know that his statement was to be recorded on that day because people had declared it on that day that everyone's statement has to be recorded and his name was also mentioned and hence, he came to know. The witness has further stated that they were not calling them on the mike. The witness has denied that his statement dated 12.5.2002 had not been recorded by the police and hence, he had not inquired as to what he has stated was written down by the police in his statement. The witness has thereafter been cross-examined with regard to topography of the area. In his cross-examination, he has stated that he can approximately say that when he returned home, it must have been around 11:30 to 12 o'clock. During the period when he was standing near the water tap, the mob had pelted stones at him. The witness does not remember as to how many stones had hit him. He has stated that he had not availed of treatment because he had gone to the camp where he was treated. The witness had admitted that he has not stated the fact regarding his being injured by the stones to anyone because he had been only slightly injured by the stones. The witness has stated that he had seen other persons standing or sustaining more serious stone injuries. The witness has admitted that except for the incident which he has narrated in his examination-in-chief, he had not seen any occurrence on the date of the incident. The witness was confronted with his statement dated 12.5.2002 to the effect that he had stated therein that at around 9 o'clock in the morning a mob comprised around ten to fifteen thousand Hindus were shouting "kill", "cut" and was screaming and was armed with sticks, swords, pipes, dharias and were assaulting the people residing in the front side of their chawls and had started damaging the houses of the Muslims of their chawls

and were setting them on fire and he and his wife having seen this from far, left their house open and he took his wife and children and went to the S.R.P. camp near their chawl and hide there. The witness has voluntarily stated that the sequence of events took place as has been stated by him in his examination-in-chief, and on the day of the incident, he did not have any child of his own. The witness has denied that in his statement before the police he has stated that while he was in the chawl, he had seen the named accused in the mob.

155.15 The witness has stated that when he went home, namely that when he returned from the corner of the chawl thereafter, he had immediately taken his family members and left his home. The witness has admitted that immediately after leaving from home, they had gone to S.R.P. Quarters. In his cross-examination, it has further come out that before it became dark, around fifty to sixty Muslims had come to take shelter at the S.R.P. Quarters. The witness has admitted that when he returned from the corner and took his family to the S.R.P. Quarters, nobody stopped him on the way or attacked him. The witness has voluntarily stated that at that time, burning rags were being thrown at them from the S.T. Corporation. The witness has stated that while he was going to the S.R.P. Quarters, he had not seen any mob coming either behind them or in front of them and he had not seen the people in the mob burning anything. He has stated that when he ran from the corner to his house, there must be around fifty to sixty other people with him. The witness has stated that when the person behind him sustained a bullet injury, he had not gone to help him and has voluntarily stated that he saved his life and ran away.

155.16 The witness has admitted that his sole statement dated 12.5.2002 was recorded at the relief camp in the presence of D.S. Vaghela, P.S.I, D.C.B. The witness has stated that it is only partly true that in his statement dated 12.5.2002 he has stated that on 28.2.2002 he had stated that there was a call for Gujarat bandh and they were at home having tea and snacks when in the morning at around 9 o'clock a mob of ten to fifteen thousand Hindus armed with sticks, swords, pipes, dharias etc. was shouting "kill" "cut" and screaming and was assaulting the people residing in the anterior side of their chawls and were damaging and burning houses of Muslims, and he and his wife, upon seeing it from far, left their house and went to the S.R.P. Quarters, which was near their chawl and hid there. Thereafter, on 1.3.2002 at 4 o'clock at night, the police arrived with a vehicle, wherein all of them had gone to the Shah Alam relief camp. In that incident, he and his wife were not injured.

155.17 The witness has further deposed that the Hindus in the mob were wielding swords, sticks, pipes, rods, etc. in the riots, from whom he knows some persons. In the mob he had seen (i) Bhavanisingh, is an A.M.T.S. driver, and (ii) Guddu Chhara, (iii) Mungda Chhara and (iv) Hariya, resides in Krushnanagar and (v) Suresh Langda. Except for them, he did not recognise any other person in the mob. After the incident, he and his wife had not gone to their above house and he did not know whether his house had been burnt or whether any damage had been caused to his house. The witness has voluntarily stated that he had given his statement in terms of what he had deposed before the court. Several facts from the

statement that was read over to him were true; however, all the facts had not been recorded as stated by him.

155.18 The attention of the witness is drawn to the third line of his examination-in-chief as well as to paragraphs 8 to 16 of his examination-in-chief, to the effect that he had not stated such facts the witness in his statement recorded by the police, which the witness has denied.

155.19 The witness has admitted that he had no financial, social or other relations with the accused whom he has named and identified before the court. The witness has admitted that there has been no occasion when he needed any of the accused or that the accused had any work with him in connection with which they were required to meet each other. The witness has admitted that there was no occasion for him to identify the accused before a Magistrate or any authority. The witness has denied that on the day of the incident, he had not gone out of his chawl and had not seen any accused and that he had straightway gone from the chawl to the S.R.P. Quarters and in the meanwhile, he had not seen any accused.

155.20 In his cross-examination, it has further come out that it must have been noon time when he went to the S.R.P. Quarters. It has further come out that from the relief camp he had firstly gone to reside at Naroda Patiya and from there he had gone to Ektanagar. The relief committee had given him this house to stay. He had admitted that the relief committee has not taken any consideration from him towards the house.

155.21 To prove the omissions and contradictions in the

testimony of the witness as to his previous statements, the defence has cross-examined the concerned Investigating Officer/assignee officer who had recorded such statement.

155.22 PW-281, Shri D. S. Vaghela, the assignee officer has admitted that he has recorded the statement of this witness on 12.5.2002. He has admitted that this witness has stated before him that at around 9 o'clock in the morning, a Hindu mob of around ten to fifteen thousand people armed with sticks, swords, pipes, dharias in their hands, had come shouting and screaming "*kill, cut*"; they were assaulting the people residing on the anterior side of their chawl and were damaging and burning the houses of Muslims in their chawl, which he and his wife saw from far; they left their houses open and he, his wife and children together went to the S.R.P. camp near their house and hid there.

155.23 The contents of paragraph 6 from the third line to the last line of the examination-in-chief of this witness as well as the contents of paragraphs 8 to 16 thereof, are read over to the assignee officer, who has admitted that this witness has not stated the facts as stated in paragraphs 6, 8 to 14, in her statement recorded by him. He, however, has denied that the witness has not stated the facts stated in paragraph 15 of her examination-in-chief before him because the witness has mentioned the morning mob and has also stated that she had seen all the accused. However, in the statement, she has not stated that the mob was going towards Noorani Masjid and that the mob was divided into two parts and that the other facts have also not stated by her in her statement before him. The assignee officer has denied that the facts stated in

paragraph 16 of her examination-in-chief have not been stated by the witness and has stated that all the facts have been stated by her, except that instead of two nephews, she has mentioned two children.

155.24 SUBMISSIONS: Mr. Y. S. Lakhani, learned counsel for the appellants invited the attention of the court to the identification of the accused by this witness to submit that accused No.10 Hariya had been identified in the third attempt and to submit that the court ought not to have granted such permission. It was submitted that the version given by the witness before the police and before the court are different. Both the versions do not match and particularly when the witness claims that he had gone to the S.T. Workshop and had seen six persons there only as a part of the mob without doing anything. It was submitted that in view of the proved omissions, whether the witness could have seen them at some other place, as brought out through the testimony of the Investigating Officer, is very doubtful. It was submitted that the witness says that he has not given any complaint, and therefore, when his statement has been recorded after such a long time, his claim should not be believed. It was submitted that reading the examination-in-chief and having regard to the proved omissions, no overt act whatsoever has been attributed to any of the accused nor has any weapon been attributed to them, and therefore, even if his statement is taken at its face value, all that the witness has stated is that the accused were found present in the morning mob between 9:00 to 9:30. It was pointed out that, if his police statement is taken into consideration, as proved by PW-281 in paragraph 31 of his deposition, it is very doubtful whether he has seen any of the

accused, as claimed by him. It was argued that considering the fact that in paragraph 43 of his deposition, the witness has admitted that he has no acquaintance whatsoever with any of the accused at any point of time prior to or after the incident, he could not have named any of them as he does not say as to how he knew the accused to be able to name them in his examination-in-chief. It was pointed out that, as stated by the witness in paragraph 44 of his deposition, no test identification parade has been held to identify the accused and, therefore, this witness should not be believed to be a truthful and reliable.

155.25 Mr. B. B. Naik, learned counsel for the appellants submitted that out of the six accused named by the witness Guddu is shown to be in the mob from Krushnanagar, Suresh Langdo is shown by one witness as coming from Mahajaniyavas and Bipin Panchal is shown in the mob from Krushnanagar by other witnesses. It was submitted that the version given by this witness, of having seen only one mob from Natraj side is contradictory to the version of other witnesses who refer to mobs from Krushnanagar and Mahajaniyavas. It was submitted that the fact regarding the mob having gone to the S.T. Workshop when they went to defend the Noorani Masjid is not stated by any other witness. It was contended that the people going towards the Noorani Masjid would have their backs towards the S.T. Workshop, and hence, it would not have been possible for the witness to identify them. It was submitted that most of the witnesses have stated that after 10 o'clock in the morning no one was permitted to enter the S.R.P. Quarters, which falsifies the story of this witness and gives credence to the version stated by him

before the police. It was submitted that the deposition of the witness is required to be closely scrutinised and on close scrutiny, it clearly transpires that the witness is not telling the truth and has not seen any incident. No other witness has stated that mob had retreated from Noorani when some Muslims gathered at Noorani Masjid. According to this witness, he left his home around 12.00 in the afternoon and thereafter gone to S.R.P. Quarters, which is not possible because as per say of other witnesses, after 10:00 or 10:30 a.m. no one was permitted to enter the S.R.P. Quarters.

155.26 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that only one statement dated 1205.2002 of this witness has been recorded. The witness has named all the accused together with weapons. No contradiction has been brought out by the defence insofar as the names of the accused are concerned and the incident which he has narrated in his examination-in-chief and in his statement dated 12.5.2002 are not so contradictory to each other as can be said to be material contradictions. The evidence of this witness is, therefore, reliable, dependable and credible.

155.27 ANALYSIS: From the testimony of this witness, it emerges that before the court he has deposed that at around 9:00 to 9:15, upon hearing commotion outside, he had gone out near the S.T. Workshop at corner of their chawl near the water tap, where he had seen a mob comprised of around ten to fifteen thousand Hindus shouting "kill" "cut", coming from the direction of Natraj Hotel. The people in the mob were armed with swords, dharias, pipes, etc. and the mob had come

to the S.T. Workshop and had pelted stones. In the mob, he had seen Bhavanisingh (deceased), Guddu Chhara (deceased), Mungdo Chhara (A-39), Hariyo Chhara (A-10), Suresh Langdo (A-22) and Bipin Panchal (A-44), all of whom were leading the mob and managing it. The mob attacked the houses near the Noorani Masjid and set the houses and stalls on fire. The witness has also deposed regarding the incident of lobbing of teargas shells and firing and Pirubhai and Mohammadbhai being injured in the firing. That the mob grew larger and the aggression increased and half the mob went towards the chawls and the other half went towards the masjid. He had seen Hariyo Chhara, Mungdo Chhara and Suresh Langdo in the mob going towards the Noorani Masjid and since firing was going on and people were wounded by bullets, they all went towards their houses, from where he took his wife and his two nephews and left his house open and went to the S.R.P. Quarters next to his chawl. However, a contradiction is brought out in his police statement to the effect that before the police, he had stated that at around 9 o'clock in the morning, a mob of around ten to fifteen thousand Hindus came shouting "kill" "cut", the mob was armed with weapons like sticks, swords, pipes, dharias and they were assaulting the people residing in the chawl on the anterior side and were damaging the houses of Muslims in the chawl and burning them, and upon seeing this from far, he and his wife had left their house open and together with their children gone to the S.R.P. camp next to their chawl and hidden there. The witness has further stated before the police that in the mob which was armed with weapons he could identify Bhavanisingh, Guddu Chhara, Mungdo Chhara, Hariyo and Suresh Langda. Thus, while there is a discrepancy in the narration of the incident by the witness,

namely, that before the police he had stated that he had seen the mob when it entered their chawl and had identified the above accused, before the court he had stated that he had come out on the road and seen the accused in the mob. Thus, while there is a discrepancy in the sequence of events and the place from where he saw the accused, insofar as his having seen the accused in the mob is concerned, the witness is consistent and has named the accused even in his statement recorded by the police. Therefore, to the extent of the involvement of the named accused in the offence in question, there is no contradiction. The witness has also identified all the named accused before the court. Though the witness has been cross-examined by the learned counsel for the accused, nothing substantial has been brought out to falsify the version given by the witness to the extent he has stated that he had seen the accused in the mob. Considering the fact that the witness was deposing before the court around eight years after the incident, there are bound to be some discrepancies in this testimony. Moreover, the minor discrepancy may only be a different manner of expressing the same thing. Therefore, the discrepancy regarding from where the witness had seen the accused cannot be given undue weightage so as to discard the testimony of the witness.

155.28 Thus, while the witness has improved upon his original version by stating that he had seen the accused on the road and has also attributed overt acts to them to the effect that they were leading and managing the mob, to the extent of their involvement in the offence in question, the witness is consistent, and hence, there is no reason to discard his testimony *in toto*. Thus, through the testimony of this witness,

the prosecution has duly established the presence of the named accused viz. Mungdo Chhara (A-39), Hariyo Chhara (A-10), Suresh Langdo (A-22) and Bipin Panchal (A-44) in the mob which was damaging the houses and stalls near the Noorani Masjid and setting them on fire.

156. **PW-171 Shaikh Mustaqahemad Abdulrazak**, aged 42 years, has been examined at Exhibit-1177. This witness has deposed that he was residing in *Kumbhaji-ni-Chali* since his birth. He used to park his cart in front of the Noorani Masjid and sell omelettes. His family was comprised of his wife Nazmabanu and three daughters, viz., Afreenbanu, Afsanabanu and Jubedabanu and all of them were residing together. He has studied in the Gujarati medium up to the 7th standard.

156.1 In the year 2002, his daughter Jubeda was not born and at that time, he, his wife and his two daughters were living together.

156.2 The incident took place on 28.2.2002. At that time, when he woke up in the morning at 10 o'clock, there was a huge mob on the road. His wife informed him that his egg cart was being damaged and hence, he had woken up. Upon hearing this, he had gone to his egg cart near the Noorani Masjid and seen that there was a huge mob. The mob had started damaging his cart. They were also causing damage to the shops nearby. They were also damaging the masjid. They were damaging the carts, cabins and nearby shops. The mob was shouting "*Jay Shri Ram*".

156.3 He saw Guddu Chharo and Suresh Langda (A-22) in the mob. Both of them were indulging in vandalism in the mob and they were also instigating the public. Suresh Langdo had something like a stick in his hand and Guddu had a weapon like a sword in his hand. Upon seeing this, with a view to save his life, he went towards the rear side of the masjid to Jigarhasan-ni-Chali. His wife and his children were separated from him and he stayed in Zikarhasan-ni-Chali till night. Thereafter, at night, a vehicle came and took them to Shah Alam camp, where he met his wife and children.

156.4 He stayed at the camp for six months. At the camp, the police recorded his statement. Thereafter, the SIT people also recorded his statement. Over and above this, the SIT people also recorded his statement at Naroda Patiya. He went back to stay at *Kumbhaji-ni-Chali* from the camp.

156.5 His egg cart from which he carried on his business as well as all his household goods had been damaged and broken in his house during the incident.

156.6 Guddu Chhara has died and he can identify Suresh Langda. The witness has correctly identified Suresh Langda in the court.

156.7 CROSS EXAMINATION: The witness has been cross-examined by the learned advocates for the accused. A contradiction has been brought as to his statement dated 12.6.2002 to the effect that he had not stated that his wife had woken him up as his egg cart was being damaged and that he had not stated in his statement dated 12.5.2002 that the mob

was shouting "Jay Shri Ram". A further contradiction has being brought out to the effect that the witness had not attributed any weapons to the named accused in his statement dated 12.5.2002. A further contradiction is brought out to the effect that he had not stated before the police that thereafter, he had gone to Zikarhasan-ni-Chali behind the masjid and that he and his wife were separated. The witness has also been cross-examined as regards the topography of the area. In the cross-examination of this witness, it has come out that he used to keep his cart at the place where he used to park it while carrying out his business. The witness has stated that when he went to the road, the mob had spread all over the road. The witness has admitted that when he came out from the S.T. Workshop, at that time, both the sides from Krushnanaqar to Natraj Hotel, there was a continuous mob. The witness has denied that the road was jam-packed and has stated that there were a lot of people; however, there was space to go on the road. The witness has stated that he does not know whether there were other spectators like him standing on the road and has voluntarily stated that he was only worried about his egg cart. The witness has admitted that when he went to the Noorani Masjid, he went through the mob. When he reached there, he saw that his cart was broken. In his cross-examination, the witness has admitted that he had seen both the accused near the lane behind the Noorani Masjid. He has admitted that there were so much noise that it was difficult to hear what anyone was saying. The witness has admitted that except for seeing two accused for two – four minutes, he has not seen them throughout the day. The witness has admitted that he has no enmity or friendship with Suresh Langda and has denied that he has named him at the instance of the

leaders of their community at the camp. The witness has admitted that he has identified Suresh Langda in the court for the first time and has denied that he had not seen the named accused at the time of the incident.

156.8 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer who recorded such statement.

156.9 PW-279 Shri B. J. Sadavrati, the assignee officer has admitted that he has recorded the statement dated 12.5.2002 of this witness. He has admitted that this witness had stated before him that on that day, from the morning the situation had become tense and by 9:30, the mobs of people started gathering and that at around 11:00 to 13:30 hours, the riotous Hindu mob attacked the chawl and since their chawl was on the highway side, in their defence, they had pelted stones, but the Hindu mob was very huge and had assumed a very violent form, hence, they had retreated and together with his children, with a view to save themselves, fled on the rear side and these riotous mobs had started looting their houses and setting them on fire and they together with their children entered a house in the middle of their chawl and hid there and late at night, the police came with vehicles and at that time, the police had called them and seated them in the police vehicles and brought them to the Shah Alam camp and since then, they had taken shelter at the relief camp.

156.10 The contents of last two lines of paragraph 4 of the examination-in-chief of this witness, wherein the witness had

stated that his wife had informed him about the damage caused to his egg cart and had woken him up, had not been stated by him in the statement recorded by him.

156.11 (As to how the witness woke up in the morning can hardly be said to be an omission amounting to a contradiction. Under the circumstances, such question ought not to have been put to the assignee officer.)

156.12 The contents of paragraph 6 of the examination-in-chief of the witness, wherein he has stated that the mob was shouting and they were chanting "Jay Shri Ram" has been stated, are put to the assignee officer who has admitted that the witness has not stated such facts in the statement recorded by him.

156.13 The assignee officer has admitted that this witness has not stated before him that Guddu Chhara and Suresh Langda had caused any damage or that they had instigated any member of the public. The assignee officer has also admitted that this witness had not stated before him that he had gone to Zikarhasan-ni-Chali on the rear side of the masjid and that at that time, his wife and children got separated from him and that the witness had stayed at Zikarhasan-ni-Chali at night.

156.14 The assignee officer has admitted that this witness has not stated before him as to which accused, at which place, and where they were, and at what time the witness had seen the accused. The assignee officer has voluntarily stated that the witness had stated that Suresh Langdo, resident of

Mahajanyavas, Prakash Chhara, Chharanagar, Mahajanyavas, Manoj Sindhi of "A" Ward as well as Parbho Pandit of Naroda Patiya, whom the witness knows, had been seen by him in the violent Hindu mob. The assignee officer has admitted that the witness had mentioned the names of the accused as being part of the violent Hindu mob; however, he has not mentioned any acts committed by them. The assignee officer has admitted that the witness has not stated as to at what time and at what place and from where, the witness had seen the accused. The assignee officer has further admitted that the witness had not stated before him as to which accused had which weapon with him.

156.15 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statement of this witness on 27.6.2008. He has admitted that this witness had not stated before him as to at what time he had seen which accused. He, however, has clarified that the witness had stated before him that on the day of the incident, he had woken up at 10 o'clock and gone outside and had seen the mob. That the witness has mentioned having seen Suresh Langda and Guddu with weapons.

156.16 SUBMISSIONS: Mr. Y. S. Lakhani, learned counsel for the appellants has submitted that no place, time overt act or weapon is attributed to the accused No.22 except that at about 10:00 a.m., while he has gone on the road, he has seen both the accused as part of the mob. Therefore, the attribution about both the accused instigating the accused, ransacking the property and having weapons like sticks and swords in the

hands of the accused No.2 and Guddu respectively, are stated for the first time before the SIT in 2008, which is indicative of the fact that the witnesses have not only tried to improve their versions at a subsequent stage, but deliberately added such facts which increases the seriousness of the complicity of the accused. Such an attempt itself is sufficient to draw a reasonable inference that there is even no guarantee of the allegations of the witnesses made even in his first statement which is recorded after a period of more than seventy days. Thus, the witness cannot be relied upon.

156.17 Mr. B. B. Naik, learned counsel for the appellants has referred to the contents of paragraph 5 of the examination-in-chief of the witness in juxtaposition with the contents of paragraph 20 of his deposition, to submit that the version stated by the witness in his examination-in-chief, is dislodged in his cross-examination that he had seen the accused in the lane behind the Noorani Masjid. It was submitted that no test identification parade has been carried out. The witness had no occasion to meet Suresh. There is no involvement of the accused in the mob and the identification of the accused is also doubtful.

156.18 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that the presence of this witness at the scene of offence has been established beyond reasonable doubt. It was submitted that there is no cross-examination to discredit the witness prior to the statement dated 12.5.2002. It was submitted that the omissions and contradictions brought out in the testimony of the witness are only with regard to the statement dated 12.5.2002 recorded by the police and there is

no omission as regards the statement dated 27.6.2008 recorded by the SIT. It was argued that the witness has named the accused in his first statement recorded by the police and that his examination-in-chief is in consonance with the statements recorded by the SIT, wherein he had stated that Suresh Langdo had something like a stick in his hand. It was submitted that the statements of this witness have been recorded in the years 2002 and 2008 and there are no major contradictions in the two statements, except for the reference to stick, which could be said to be a further explanation. It was submitted that the fact regarding the presence of the mob and Suresh Langdo in the mob have been stated in the statement recorded by the police in the year 2002. In conclusion, it was submitted that this witness is credible and there is no reason to discard his evidence qua the morning incident.

156.19 ANALYSIS: From the testimony of this witness, it can be seen that certain omissions that have brought out in the cross-examination of the witness, are material in nature, viz. that in his police statement the witness had not stated that he had seen the two named accused resorting to vandalism and instigating the public and had also not attributed any weapons to them. But, he did say that he had seen both the accused in the mob.

156.20 If the testimony of the witness is considered after discarding the portion in respect of which omissions amounting to contradictions have been brought on record and proved, it emerges that the witness has stated that at 10:00 in the morning there was a huge mob on the road and the people in the mob started damaging his cart and were also damaging

the shops and stalls in the vicinity. In the mob he had seen Guddu Chhara (deceased) and Suresh Langdo (A-22). Therefore, to the aforesaid extent the testimony of this witness is consistent with his previous statement recorded by the police. It may be noted that the statement of this witness was also recorded by the SIT in respect of which there is no material omission. However, in the opinion of this court, the SIT having recorded statements after a period of more than six years from the date of the incident, it would be hazardous to place reliance upon such statements as the witness would be amenable to tutoring, etc. and it is possible to concoct a case based upon what is heard from other persons in the camp. Therefore, the court has not taken into consideration the fact that though there may be omissions as to the statement recorded by the first investigating agency, there may not be any omissions as to the statement recorded by the SIT.

156.21 The testimony of this witness to the extent he is consistent with the first version given by him before the police, therefore, deserves to be accepted. From the testimony of this witness it is established that on the day of the incident, in the morning at around 10:00 a.m., he had seen deceased accused Guddu and accused No.22 Suresh Chhara in mob which was vandalizing and damaging shops, stalls and carts on the road.

157. **PW-172 Arifali Kasamali Saiyed**, aged 31 years, has been examined at Exhibit-1186. This witness has deposed that he is residing at *Imambibi-ni-Chali* since his birth. In the year 2002, he used to reside at the same place with his wife Rahishabanu and his daughter Muskanbanu. At that time also,

he used to do tailoring work at home.

157.1 The incident took place on 28.2.2002. On that day, there was a call for Gujarat Bandh. The bandh was declared on account of a train being burnt at Godhra.

157.2 On the day of the incident, he was at home. In the morning at around 9:00, he went out to buy threads for sewing. He was going towards Krushnanagar to buy threads when he saw the mob.

157.3 He had seen the mob outside his house. When he came out, he saw a mob on the side of Patiya vandalizing the shops and setting them on fire.

157.4 On seeing all this, he returned home. Thereafter, he took his wife and daughter and went to Jawannagar. He was at Jawannagar till 7 o'clock in the evening.

157.5 After 6:00 in the evening, he took his wife and daughter to a terrace of Jawannagar. He was there on the terrace till the police vehicle came at around 8:00 to 9:00 at night. In the vehicle, he, his wife and daughter had gone to the Shah Alam camp, where they stayed for around four months.

157.6 The witness has stated that the household articles, sewing machine, etc. in his house at Imambibi-ni-Chali had been damaged and burnt by the people in the mob.

157.7 The witness has further stated that on the day of the incident, he had seen Guddu Chhara and Naresh Chhara in

the mob coming from the direction of Krushnanagar. Guddu Chhara is dead, but he can identify Naresh Chhara. The witness has correctly identified Naresh Chhara (A-1).

157.8 CROSS EXAMINATION: In the cross-examination of this witness, a contradiction has been brought out as to his sole police statement dated 12.5.2002, to the effect that what is stated by him in paragraph 7 of his examination-in-chief wherein he has stated that at around 6 o'clock, he, his wife and daughter went on the terrace of Jawannagar till the police vehicle came at around 8 to 9 o'clock has not been stated by him in his statement recorded by the police. In the cross-examination of this witness, it has come out that he had come out of his house at about 9:00 to 9:15 in the morning. He has admitted that one mob was coming from the direction of Krushnanagar and another mob was coming from Patiya. He has admitted that there was an open space between the two mobs. The witness has stated that he had remained on the road for approximately ten minutes. The witness has admitted that the mob from the direction of Krushnanagar was comprised of about twenty to twenty-five thousand people and that about the same number of people were there in the mob on the side of Patiya. The witness has denied that all the persons in the mob were wearing white undershirts and khakhi shorts and admitted that they had tied saffron bands on their heads. The witness has admitted that while he was going from his house to Jawannagar, nobody had tried to stop him or assault him on the way. The witness has denied that while he was at Jawannagar, till then, namely till 6 o'clock, no incident had taken place at Jawannagar. The witness has admitted that till he gave his statement before the police, he had not named

Naresh Chhara and Guddu Chhara at any other place.

157.9 To prove the omissions and contradictions in the testimony of this witness as to his police statement recorded on 12.5.2002, the defence has cross-examined PW 279, Shri B. J. Sadavrati, the assignee officer, who has admitted that he has recorded the statement of this witness on 12.5.2002. The contents of the first four lines of paragraph 7 of the examination-in-chief of this witness are read over to the assignee officer, wherein the witness has stated that in the evening after 6 o'clock, he took his wife and his daughter and went to a terrace of Jawannagar. When he was on the terrace, the police vehicle came. The police vehicle must have come at around 8 to 9 o'clock. The assignee officer has admitted that this witness has not stated all the facts stated in paragraph 7 of his examination-in-chief in the statement recorded by him, but had stated that till 6 o'clock, he was in the chawl and at night at around 3 o'clock, upon the police coming, they had gone to the camp.

157.10 The assignee officer has further admitted that the witness in his statement had not stated that he had seen Guddu Chhara and Naresh Chhara in the mob coming from Krushnanagar. The assigning officer has clarified that in his statement, the witness has mentioned a mob from Krushnanagar as well as from Patiya and that he had seen both of them with his own eyes in the mob. The assignee officer has admitted that from his statement, it is not clear as to whether he had seen the accused in the mob coming from Krushnanagar or from Patiya.

157.11 SUBMISSIONS: The learned counsel for the appellants submitted that until the witness's statement was recorded on 12.5.2002, he has not disclosed the names of either of the accused at any place before anybody. When the witness claims that he had come out of his home and come on the road, he had seen large mobs of about twenty to twenty five thousand people each, on both sides, it is nearly impossible to identify two persons, that too, in the mob coming from Krushnanagar, as alleged. Therefore, after these many days, his claim of having seen the accused is very doubtful. It was submitted that even if the evidence of this witness is taken on its face value, without any attribution of any overt act, merely the presence of the accused is shown in the mob in the morning at 10 o'clock.

157.12 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness has named the accused in his statement dated 12.5.2002 recorded by the police. This witness is a natural witness, who has seen the mobs coming from two sides and in the mob coming from Krushnanagar side he has seen accused Guddu and Naresh in the mob. Guddu has expired and the witness has identified Naresh Chhara. It was submitted that in the entire cross-examination of this witness, no omission which amounts to a material contradiction has been elicited and therefore, this witness cannot be said to be not a credible witness or a believable witness and his testimony alone would be sufficient to implicate accused Naresh in the offence in question.

157.13 ANALYSIS: This witness has deposed that he saw

mobs on both the sides of the road when he came out of his house. The witness resides in Imambibi-ni- Chali, which is the first chawl towards the side of the highway. The witness has deposed that the mob was indulging in vandalism and arson. At around 11 o'clock in the morning he went to Jawannagar with his family and stayed there till 7:00 p.m. The only omission as to his police statement is that he had not stated that he had gone with his family to a terrace in Jawannagar at 6:00 in the evening and was there till the police vehicle came and took them to the relief camp. In the opinion of this court, this omission cannot be said to be an omission that is so material so as to amount to a contradiction, inasmuch as, the witness has stated that he had gone to Jawannagar and was there till 7:00 p.m. The witness has further stated that in the morning, he had seen Guddu Chhara (deceased) and Naresh Chhara (A-1) in the mob from the Krushnanagar side and has identified Naresh Chhara in the dock. The omission in this regard is to the effect that he had not stated as to in which mob, he had seen the accused. In the opinion of this court, notwithstanding the fact that the fact regarding the specific mob in which the witness had seen the accused has not been stated, even then it would not detract from the fact that the witness had seen the named accused in the mob on the road in the morning. The witness has named both the accused in his police statement and is consistent in his version. In his cross-examination nothing substantial has been elicited to dent the credibility of the witness. Under the circumstances, the testimony of this witness against accused No.1 Naresh Chhara deserves to be accepted.

158. **PW-173 Mahammadnasim Shaikhbuddhu Shaikh**, aged 60 years, has been examined at Exhibit-1190. This witness has deposed that he was residing at *Hukamsing-ni-Chali* since the year 1989. In the year 2002, he was serving in Reliance and he and his family were residing in his hut at *Hukamsing-ni-Chali*. At that time, his wife Aminabibi, his daughter Rabiyaabibi, his daughter Raziyaabibi, son Gulamhussain, all of them were residing together. His elder son Khurshid was residing separately with his family at Naroda Patiya at the relevant time.

158.1 His native place is District Faizabad, Uttar Pradesh. In the year 2002, while he was in service, his timings were from 7:00 in the morning to 3:00 in the afternoon.

158.2 The incident took place on 28.2.2002.

158.3 On the day of the incident, he was at home in the morning with his family members. On the day of the incident, he woke up in the morning and went to the Noorani Masjid, opposite his house early in the morning. After offering namaz at the Noorani Masjid, he must have stayed there for around half an hour, whereafter he had returned home and was reading the Quran. While reading the Quran, he fell asleep.

158.4 A little further from the Noorani Masjid, on the interior side there is an old masjid in Jikarhasan-ni-Chali. On that day, at around 8:00 to 8:15 in the morning, a person from Juni (Old) Masjid came to call him. He told that the Maulana had called him as the police had come to the masjid. He, therefore, went to Juni Masjid and met the Maulana. The police

went around the masjid and verified that no weapons were kept in the masjid, whereafter the police went away from there as they could not find anything in the masjid. He stayed at Juni Masjid for some time and then left.

158.5 He left Juni Masjid and went towards his house. There, on the road, Babu's Hotel is situated, where he went and read the newspaper. On reading the newspaper, he came to know about the Godhra incident. While he was reading the newspaper, he heard the voices of people saying, "*Run, run, people are throwing stones at Noorani Masjid*". He came out of the hotel and went on the road towards the Noorani Masjid. Upon going towards the Noorani Masjid, he saw that people were pelting stones at it. He had also seen a mob of people near the S.T. Workshop pelting stones on the chawls.

158.6 On seeing this, instead of crossing the road from the Noorani Masjid to go home, he changed his route and went into the lanes to his house. When he reached his house, his wife and children had locked the house and gone away. At that time, his younger daughter Raziya was standing outside his house and was crying. His wife and children had gone to the opposite side of their lane to the terrace of one house of Yusufbhai. He asked his daughter as to what had happened and she told him that people were throwing stones at the chawl. He advised her to go to her mother and hence, she had gone to Yusufbhai's house's terrace. Thereafter, he went out of his house to the entrance of the chawl to the road to see what was happening. At that time, the people were standing outside the S.T. Workshop and the police were also standing there. A little further from the gate of the S.T. Workshop where it meets

the main road, many people were pelting stones there. The police standing there was releasing tear gas shells. In a little while, the police also resorted to firing.

158.7 In this incident he saw that after a little while, Abidkhan, who was residing in his neighbourhood, Piru and others were injured by bullets. In a little while, as tear gas was released, his eyes were closed and a stone from the mob injured him on his head, that is, on the right side of his forehead. At this time, Muslim people from their maholla who were standing there caught him and put him in the rear side, because he was feeling dizzy and his eyes were burning. They told him to go home. His house was closed and hence, he started going straight. He reached Hussainagar, where water was coming from the tap. There, he washed his face and drank a little water and thereafter, went a little further.

158.8 While he was going, a youth by the name of Mustaq Kaladiya, was injured by a bullet and his mother and brother had put him in a cart and pushing the cart and bringing him. They told him that they should make Mustaq Kaladiya lie down somewhere, and hence, he went with them till Jawannagar. They made him lie down on the verandah of the house of one Abdulbhai Ghadiyali. Thereafter, he came out of the chawl and went to the main road of Jawannagar on foot. Thereafter, he stayed at Jawannagar, where people started coming from the road of Uday Gas Agency and started pelting stones. From the S.T. Workshop also, burning rags were being thrown. Hence, he went on the rear side towards Gangotri Society and sat there.

158.9 He went and sat in the lane between Jawannagar

and Gangotri Society, where he sat for a long time. He was very tired. After a little while, he searched for his children and his wife. He found his wife and children outside the compound wall of the S.R.P. and he sat there with them.

158.10 There people started saying to move from there as the mobs would come there also. At that time, he and his children were there at Jawannagar. They were told that from the terrace of a house there, one can get down to Gangotri Society. Accordingly, he and his children got down into Gangotri Society from the terrace of Jawannagar. At that time, his son Khurshid and his wife were not with him. He could not find them.

158.11 He sat there. At that time, his daughter Razia climbed on the terrace and started crying and she told him to come to Gangotri Society where they were. At that time, there was a rickshaw lying where he was sitting. At that time, the *Bangi* who used to say *Azaan* at Noorani Masjid and his grandson were sitting in a rickshaw and were sleeping. He thought that they must be very tired. He went to the rickshaw and woke both of them and told them to come with him. All three of them climbed the staircase which was there and climbed down into Gangotri Society.

158.12 At that time, many people from their mohalla were at Gangotri Society in the house of Tiwari, who is a conductor, and his wife and children were also there. This Tiwari used to reside in their neighbourhood earlier. He also went to Tiwari's house. He sat at Tiwari's house for a long time. Thereafter, they could hear the sounds of crying, gas cylinders bursting

and sounds of “help .. help” coming. At that time, it was around 7 o’clock.

158.13 At that time, Tiwari told them to go from there towards Naroda as arrangements had been made for them there. They were a lot of people there and slowly they came out of Tiwari’s house. Out of them, everyone started going towards where they thought it was proper. Some went towards the S.T. Workshop, some went towards the S.R.P. Quarters and some went towards Naroda also. After they came out, they went a little further and thought that Naroda is too far and hence, they turned towards the S.R.P. Quarters. They crossed Gangotri and Gopinath Society and went towards the S.R.P. Quarters.

158.14 As per his knowledge, those who had gone towards Naroda were killed. He had heard these things and learnt about it.

158.15 They went towards a wire fencing of the S.R.P. Quarters, where an SRP person was standing and he told them not to go inside. However, his wife and children were crying, hence he felt pity on them and let them go inside the quarters. In this manner, they went inside the S.R.P. Quarters.

158.16 When they went inside the S.R.P. Quarters, they saw that many people were sitting there and they also went and sat there. They stayed there for the whole night. At dawn, it was still dark, when the policemen came in a vehicle and took them to the Shah Alam camp. When they reached the Shah Alam camp, it was morning.

158.17 At the Shah Alam camp, he met the Maulana of their masjid, his elder son Khurshid and other people from their chawl. His elder son Khurshid asked about his wife Shabnam, and he told him that Shabnam was not with him. Later on, he learnt that Shabnam had died on the day of incident.

158.18 They had stayed at the camp for about four and a half months, where he was treated for the stone injury that he had sustained.

158.19 A gas cylinder had been burst in his house due to which, the walls and the roof of the house and all the household goods had been destroyed.

158.20 When he was at the camp, the police had recorded his statement. The SIT authorities had also recorded his statement at Naroda Patiya. He had informed the SIT about the facts that he knew about the incident and they had recorded his statement.

158.21 The witness has deposed that he knows Tiwari Conductor and has, accordingly, correctly identified him.

158.22 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that the witness has received compensation of Rs.5,00,000/- towards the death of his daughter-in-law Shabnam, injuries sustained by his son as well as the damage caused to his house and his son Khurshid has also received compensation of Rs.1,25,000/- and that he has also received Rs.27,800/- towards the damage caused to his

house. The witness has voluntarily stated that thereafter, he has not received any other compensation. The witness has admitted that the SIT had recorded his statement on 21.6.2008 at Naroda Patiya and that prior thereto, the police had recorded his statements on 12.5.2002 and that prior thereto, he had lodged a complaint from the camp on 6.3.2002. In his cross-examination, the witness is contradicted with his previous statement dated 12.5.2002 to the effect that he had stated before the police that he does not know any person in the mob and that the people in the mob were pelting stones in the chawls and hence, his children had locked the house and had gone towards Jawannagar and that he too had followed them and they had gathered together near Gangotri Society and had climbed down from a terrace of Gangotri Society and hidden themselves. The witness is confronted with the fact that he has not stated any facts in the context of Tiwari or any role played by him as deposed by him in his examination-in-chief as well as in his statement dated 12.5.2002, which the witness has denied. The witness is cross-examined with regard to the topography of the area. In the cross-examination of this witness, he has admitted that Piru, Abid, Mohammad Karim Shaikh and Mustaq Kaladiya were injured in police firing and that at the time when they were injured by bullets, the Muslims and Hindus were pelting stones against each other. He has further admitted that at that time, he was standing near the road and he had not identified anyone.

158.23 In the cross-examination of this witness, it has further come out that Tiwari whom he has identified, has his house in Gangotri Society and that when he went to Tiwari's house, around fifty to hundred Muslim persons had taken

shelter there and were sitting there. As his daughter came to call him, he had gone there. He has admitted that for a long time, he, together with other Muslims, had stayed there. He has further admitted that till then, nothing had happened to anyone in Tiwari's house and that at that time, Tiwari was outside the house. The witness has denied that he was falsely naming Tiwari at the instance of people of his community, but has admitted that upon the mob coming near their house and shouting, Tiwari had asked them to leave his house.

158.24 To prove the omissions and contradictions in the testimony of the witness as to his previous statements recorded by the investigating agencies, the concerned Investigating Officer and or/his assignee officer have been cross examined by the defence.

158.25 PW-293 Shri B.T. Karoliya, the assignee officer has in his cross-examination admitted that he has recorded the statement of this witness on 12.5.2002. The contents of paragraphs 13, 18 and 19 of the examination-in-chief are read over to the assignee officer, who has admitted that the witness has not stated the facts stated by him in paragraphs 18 and 19 of his examination-in-chief in the statement recorded by him. However, in so far as the contents of paragraphs 13 of his examination-in-chief are concerned, the assignee officer has stated that this witness had stated before him that he had gone up to Jawannagar. However, the rest of the facts have not been stated by him. The assignee officer has admitted that the witness had stated before him that a mob of around fifteen thousand people belonging to the Hindu community had come from the direction of Krushnanagar and Kubernagar. On

account of the people in the mob, the people of Gangotri Society told them to run away from there, due to which, they had gone towards the S.R.P. camp, where also there was a mob from the opposite side, hence, they had gone towards the S.R.P. Quarters and were sitting there in the open ground till late at night. At about 2 o'clock in the night, upon the police coming, they were taken outside in the police vehicle. It may be noted that this witness has not been confronted with the contents of his previous statement qua the contents of paragraphs 18 and 19 of his testimony, therefore, the question of proving such omission through the testimony of the assignee officer would not arise. Therefore, to that extent the testimony of the assignee officer is inadmissible in evidence. It is surprising as to why the prosecution has not raised any objection in this regard.

158.26 PW 327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statement of this witness on 21.6.2008. He has admitted that this witness had stated before him that he had made an application dated 6.3.2008 to the Police Commissioner, Ahmedabad and the facts stated therein are correct and that his application is included in Naroda Police Station I – C.R. No.127/02 and that today, he has been explained by the Investigating Officer that this offence is included in Naroda Police Station I – C.R. No.100/02. That the witness has stated that he does not know the name of any person in the mob. The entire cross-examination of the Investigating Officer qua this witness is inadmissible in evidence inasmuch as the first part regarding the contents of the application dated 6.3.2008 have not been put to the

Investigating Officer to contradict any part of the primary evidence of the witness. Insofar as the part regarding the witness not knowing the name of any person in the mob, the witness in his examination-in-chief has not stated that he has seen any person in the mob, therefore, there was no contradiction which was required to be proved, despite which the trial court has allowed such question to be asked and the prosecution has not objected to such question being asked.

158.27 SUBMISSIONS: Mr. Y. S. Lakhani, learned counsel for the appellants, submitted that this witness has named Tiwari in whose house they had taken shelter and has identified him. It was submitted that accused Tiwari takes the support of the testimony of this witness to show that he had, in fact, given shelter to many Muslims. It was submitted that no criminal complicity has been alleged by the witness and that the facts stated in paragraphs 18 and 19 of his deposition as well as before the SIT and the court, indicate that Tiwari had given shelter to many Muslims, who stayed there for a considerable time and finding the mob coming in the evening, he had asked all of them to go to another place. He has, therefore, tried to help the Muslim inhabitants of the locality.

158.28 Mr. B. B. Naik, learned counsel for the appellants, invited the attention of the court to the contents of paragraphs 19 and 56 of the testimony of this witness, to submit that on reading this, it can be culled out that the witness and others left Tiwari's house on their own upon hearing the sounds of the mobs approaching.

158.29 Mr. Prashant Desai, learned Special Public

Prosecutor, submitted that the witness has stated regarding the gathering of the mob and leaving the house with his family members and taking refuge in Tiwari's house, in a natural way, without any exaggeration and that in the deposition, the role attributed to Tiwari does not indicate any complicity. It was submitted that considering the admission of this witness, he is a truthful witness and his testimony cannot be brushed aside on the ground of minor contradictions.

158.30 ANALYSIS: From the testimony of this witness it emerges that his daughter-in-law Shabnam died in the incident. The witness had lodged a complaint dated 6.3.2002 while he was at the camp, and his statement was recorded by the police on 12.5.2002. The witness has admitted that Piru, Abid and Mahammadkarim Shaikh were injured in police firing. He has further admitted that when these persons were injured by bullets, cross stone pelting was going on between Hindus and Muslims. It may be noted that the only omission brought out in the testimony of the witness is regarding the facts stated in paragraph 13 of his examination-in-chief wherein he has mentioned about Mustaq Kaladia being taken by his mother in a cart after he sustained a bullet injury. The rest of his testimony goes unchallenged. Therefore, from the testimony of this witness it is established that the police had inspected Juni Masjid to ascertain that no weapons or such things have been kept in the masjid. The witness has also seen Abidkhan, Piru and others being injured by bullets. Tear gas shells were lobbed and the witness himself was injured during the stone pelting. From the testimony of this witness it is further found that he and several other Muslims had taken refuge in Tiwari's house and had left after the mobs started

coming there. The witness, however, has stated that Tiwari (A-25) had told them to go towards Naroda, where arrangements were made for them. The witness comes across as a truthful witness and there is no reason to disbelieve his testimony.

158.31 This witness does not attribute any overt act to accused No.25 Tiwari, and says that he had given them shelter in his house. The only incriminating part of his testimony is that he has stated that Tiwari had told them to go towards Naroda as arrangements had been made for them. From the evidence of several witnesses, it emerges that they were told by different persons to go towards Naroda as arrangements were made to take them to a place of safety, but when they reached near the open ground beyond Gopinath Society, a huge mob was present and when they tried to come back, they were confronted by other mobs and ultimately the massacre took place near the water tank. Thus, though no arrangements for their safety had actually been made, the victims were lead into a trap by misleading them.

159. **PW-174 Abdulalim Abdulmajid Chaudhari**, aged 52 years, has been examined at Exhibit-1198. This witness has deposed that he was residing at *Lane No.1, Jawannagar, Naroda Patiya*, prior to 2001 together with his family and in the year 2002, he used to ply a rickshaw.

159.1 In the year 2002, his wife Kamar Sultana, who used to do tailoring work and his children, viz., three sons – Mahammadshakeel, Mahammadfarid and Faruk and daughters Noorbanu, Khatunbibi and Shabnam, were all residing

together. In the year 2002, his elder son Mahammadshakeel was 20 years old and used to work at his father-in-law's rationing shop and also used to work in a press for printing books.

159.2 The incident took place on 28.2.2002, which was a Thursday and on that day, there was a call for Gujarat Bandh. On the previous day, in the Godhra incident, a train had been burnt and on the next day, that is, on the 28th, there was a call for Gujarat Bandh. Since there was a call for bandh, he had not gone for his work and was at home. His elder son Mahammadshakeel was at his maternal grandparents' home and the other five children and his wife were at home.

159.3 On that day, in the morning, his elder son Shakeel came home with his friends at around 9:00 to 9:15. Their house was on the interior side from the road and hence, one would not know what is happening, however, his son Shakeel and his friends came and told him *"Don't you know that outside near Natraj Hotel a mob has come and there is rioting and stones are being pelted there, all of you come out"*.

159.4 Upon hearing this, he and the other people from their chawl came out of their chawls and all of them went near Noorani Masjid to see. There was a lot of commotion there and stones were being pelted.

159.5 There, the people in the mob were shouting *"Kill the Miyas"* and Dalpatsing, Bhavanisingh, Guddu, Suresh and Manoj Videowala were leading the mob. He had also seen Babubhai Bajrangi in this mob. He was also in the front of the

mob. In this mob, Guddu had a sword, Suresh had a spear as well as a trishul (trident) and Manoj Videowala was stealthily firing from near the S.T. Workshop compound wall.

159.6 All these people were at the head of the mob and were calling the people of the mob inside and were telling them to cut and burn the Miyas. From that place, he went straight to Hussainnagar to his in-laws' house. He took his mother-in-law and father-in-law and was returning home when it was around 4:30 to 5:00 in the evening, at that time, Bhavanisingh was near Gayatri and Gangotri Society and he told them that he wanted to cook khichdi for them and that they should all go inside the society, but he did not go there. He had not gone there for the reason that somebody had told him that there were more problems inside, and hence, he should not go inside. Therefore, he did not go where Bhavanisingh told them to go.

159.7 From there, he had gone home and thereafter, he took his family and between 5:30 to 6:00 in the evening, he had gone to hide in the house of a barber from the S.R.P., whose house was near his house and was open as he had gone away leaving it open and he (the witness) had hidden there. The people from his chawl were also hiding there. The last time when his elder son Shakeel had come home was at around 5:30 in the evening and he had drunk some water and gone away and was not with them at the barber's place. While they were at the barber's place, at around 7:30 to 7:45 in the evening, he felt that he should go and see what the situation outside was like. When he came out, there were several other people outside and some were talking in Sindhi and some were

talking in Chhara language. On account of his rickshaw driving business, he knew both the languages. He stood where they could not see him and heard them saying in their language that, *"Now, the time is over; let us go to the Mukhi and take money. From eight to eight, twelve hours time is over"*. Amongst the persons talking like this, were Suresh, Dalpat, Bhavanisingh, Manoj Videowala. Others were also there whom he does not know. However, he had heard these people talking.

159.8 All these people went on the terrace and were playing songs of the movie *"Kabhi Khushi Kabhi Gam"* on the terrace. The Sindhis were playing the songs of *Jhulelal*. All of them were expressing their happiness that all the Miyas are finished.

159.9 He returned to the barber's house and they stayed there till 11 o'clock at night. At 11 o'clock at night, the police came and took them in a police vehicle to Shah Alam camp. There, he searched for his elder son. He went and looked for him in all the chawls, however, he could find his son and lastly, at 2:00 p.m., a police vehicle came and he too went in that vehicle to the camp.

159.10 His younger son had sustained an injury on account of stone throwing during the incident. He too had sustained a stone injury on his leg in the afternoon at around 3:30 to 4:00 when they had gone at home. When he was injured in this manner, his elder son Shakeel took him to somebody else's house and made him lie down on a cot and told him not to go out. He and his son Farid were treated at Shah Alam camp,

where they stayed for six months.

159.11 His elder son Shakeel lastly met him on the date of the incident when he drank water and went and thereafter, is missing and despite his having made attempts, he could not find him till date.

159.12 During the incident, when he left his house, he had locked it; however, somebody had looted his house and had burnt everything inside.

159.13 In connection with the incident, the SIT had recorded his statement.

159.14 The witness has stated that he has learnt that from the people whom he had seen in the mob, Bhavanisingh, Guddu Chhara and Dalpat are dead and has stated that he can recognize Suresh and Manoj even today also. Since the incident had taken place long time ago, he will not be able to recognize Babu Bajrangi, but he would try to do so.

159.15 The witness has thereafter identified Suresh (A-22) and Manoj Videowala (A-41) correctly.

159.16 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that prior to 16.6.2008 he had not lodged any complaint at the Shah Alam Relief Camp. The witness has stated that he has not given any statement before the police at the camp on 12.5.2002 and that the police have not orally examined him and recorded any statement in his

presence in the year 2002. The witness has stated that many years ago, he was residing at Pandit-ni-Chali in the joint family. However, since the last fifteen years, he was residing separately at Jawannagar. He had separated about four to five years prior to the incident. The witness has admitted that in his sole statement dated 16.6.2008, he had stated before the SIT that at that time his son Shakeel had come and pulled him and taken him to Jawannagar and made him sit on a cot and had brought water from someone's house for him to drink and thereafter, he does not know where he went from there. Upon being asked again, he has stated that his wife and his mother had told him that his son Shakeel had come to his house at around 5 o'clock and after drinking water, he had gone away at 5 o'clock in the evening.

159.17 The witness has admitted that in his statement before the SIT, he had stated that he was looking for his son Mohammad Shakeel in the chawls but could not find him. The witness has admitted that on the day of the incident, his son Shakeel was with his (the witness's) in-laws since morning and he used to stay there.

159.18 The contents of the first two lines and the last three lines of paragraph 6 of the examination-in-chief are read over to the witness and he has admitted that he has not stated these facts before the police. The witness has stated that he does not know that in his statement before the SIT, he has stated that in the morning at around 9:00 to 9:30, a Hindu mob had come opposite the Noorani Masjid next to the S.T. Workshop and had started pelting stones wherein Muslims had pelted stones to protect themselves and there was a stampede

amongst the Muslims in the chawl and they had come to know that the riots had started on the road, due to which, he had come to the corner of the chawls on the road and cross stone pelting was going on between Hindus and Muslims. The witness has admitted that such incidents had happened. In the opinion of this court, this part of the statement recorded by the SIT has not been brought on record to contradict any part of the evidence of the witness and, therefore, is inadmissible in evidence.

159.19 The witness has admitted that in his statement recorded by the SIT, he had stated that there were people belonging to the Sindhi and Chhara communities in the mob and that he had gone to Hussainnagar where his in-laws were staying. Thereafter, he had taken his in-laws who reside in Hussainnagar and had gone home.

159.20 In the cross-examination of the witness, it has come out that if he enters his lane, his house is approximately the eighth house in that lane. The witness has admitted that when he brought his in-laws and came to the barber's place, there was a mob in the Jawannagar pit, which must be comprised of around five thousand to six thousand people. He has admitted that the people in the mob were wearing khakhi shorts and undershirts and had tied saffron bands on their heads and black cloths on their face. The witness has admitted that these people had weapons with them and they had participated in the attack. In the cross-examination of the witness, it has come out that the mobs had also come from the other side and they too had attacked. He has admitted that the mob which came from the other side must also have been comprised of

around five to six thousand people and that they too had tied saffron bands on their foreheads and had tied black cloths over their face and were armed and wearing khakhi shorts and undershirts.

159.21 The witness has admitted that he had seen both the mobs when he was in the barber's house. He has admitted that the barber's house is in the last lane of Jawannagar. The witness has admitted that when he was in the barber's house, he had seen the road from the Uday Gas Agency. The witness has admitted that there is no compound wall between Jawannagar and the Jawannagar pit.

159.22 The witness is cross-examined with regard to the topography of the area. The witness has admitted that on that day, he had seen Bhavanisingh outside his house. The witness has stated that he does not know whether at that time, there were one hundred to one hundred and fifty people in Bhavanisingh's house. The witness has voluntarily stated that he had seen him in front of the mob.

159.23 In the cross-examination of the witness, it has come out that prior to his statement being recorded, he was orally examined by the Crime Branch at Gaekawad Haveli in connection with his missing son. The witness has admitted that till date, there is no trace of his son and his dead body has not been found. The witness has admitted that the people in the mob were loudly shouting "kill" "cut". He has voluntarily stated that he has given the names of those people whom he had seen from a close distance. The witness has admitted that from Jawannagar, he had not gone to Gangotri Society and that

from Jawannagar, he had seen the terraces of Gangotri Society. The witness has stated that he had heard sounds from these terraces. He has further admitted that all the people on the terraces of the Gangotri Society were Hindus. The witness has admitted that on the day of the incident, he had not gone from Jawannagar to Gopinath Society. The witness has admitted that on the day of the incident, in the area in which they were residing at Naroda Patiya, water and electricity supply were shut down.

159.24 In his cross-examination, it has come out that he had no monetary or social relations with the accused Manojbhai and Sureshbhai and that he neither had enmity or friendship with them.

159.25 The contents of paragraphs 7 and 8 of the examination-in-chief of the witness are read over to him to the effect that he has not stated such facts in the statement recorded by the SIT. The witness has denied the suggestion that he has not seen any accused on the day of the incident. The first three lines of paragraph 9 of his examination-in-chief are read over to the witness to the effect that he has not stated these facts in the statement recorded by the SIT. The contents of paragraph 9 of the examination-in-chief of the witness from the fourth line to the last line are read over to the witness to the effect that he has not stated these facts in the statement recorded by him.

159.26 The contents of the first four lines of paragraph 11 of the examination-in-chief of the witness at page 6 are read over to the witness to the effect that he has not mentioned the

names of Dalpat, Bhavanisingh and Manoj Videowala in the statement recorded by the SIT. The seventh line of paragraph 15 of the examination-in-chief of the witness is read over to him to the effect that he has not stated such facts in the statement recorded by the SIT. The witness has denied that at the instance of the leaders of the Muslim community, after six years, he was wrongly implicating the accused in the offence.

159.27 The omissions and contradictions in the testimony of this witness as to his statement recorded by the SIT have been proved by the defence through the cross-examination of PW 327 Shri V. V. Chaudhary, the Investigating Officer (SIT), who, in his cross examination, has admitted that he has recorded the statement of this witness on 16.6.2008. He has admitted that this witness had stated before him that in the morning, at about 9:00 to 9:30, mobs of Hindus had gathered next to the S.T. Workshop, opposite the Noorani Masjid and had started pelting stones, wherein the Muslims in defence had resorted to cross stone pelting and the Muslims were running helter skelter in the chawls and were telling them that riots have started on the road, hence, he had come on the road at the corner of the chawl and saw that the Hindu and Muslim mobs were pelting stones against each other. He has further admitted that the witness had stated before him that he has not received any threat from the accused or anyone and at present, he does not need police protection and that as and when he needs police protection, he would make an application and ask for it.

159.28 The contents of paragraphs 7, 8 and 9 of the examination-in-chief of the witness are read over to the

Investigating Officer, who has admitted that except to the extent of the facts stated in paragraph 7, wherein the witness had stated that he had come on the road at the corner of the chawl, the rest of the facts have not been stated before him. The Investigating Officer has denied that all the contents of paragraph 8 of his examination-in-chief have not been stated by the witness before him. He has stated that the witness in the statement recorded by him has stated that in the evening at about 5 o'clock, from the road which comes to their chawl from next to the S.T. Workshop, from the direction of Uday Gas Agency, from behind Gangotri Society, huge mobs of Hindus with swords had come and had surrounded the Muslims who were hiding there, from all four sides. In this mob, Bhavanisingh, Dalpat Chhara, Mukesh Guddu Chhara, Suresh Langda, Babu Bajrangi, Manoj Videowala, were in the forefront of the mob and they were instigating the mob and saying "kill and cut the Miyas, burn them". However, the rest of the facts have not been stated by him.

159.29 The contents of first three lines of paragraph 9 of the examination-in-chief of the witness are read over to the Investigating Officer who has admitted that the witness has stated these facts in connection with the incident that occurred at 5 o'clock in the evening and not in the context of the morning incident. The last four lines of paragraph 9 of the examination-in-chief of the witness are put to the Investigating Officer who has admitted that the incident of Bhavanisingh has been described by the witness from 9:00 to 9:30 in the morning to 5 o'clock in his deposition; the time stated is 4:30. The Investigating Officer has stated that in his statement, the witness has sequentially narrated the incidents that took place

after 9 o'clock, one after the other, and the entire statement refers to the incidents that took place from 9:00 to 9:30 till 5 o'clock. The Investigating Officer has admitted that this witness has not clearly stated that when he saw Bhavanisingh, his mother-in-law and father-in-law were with him.

159.30 Certain extracts of paragraph 11 of the examination-in-chief of this witness are read over to the Investigating Officer, who has admitted that the witness in the statement recorded by him has not stated that at the time when he heard the conversation, viz., *"Now our time is over, let us go to the Mukhi and take our money and the time of twelve hours from eight to eight is over"*, Dalpat, Bhavani and Manoj Videowala were also present. He, however, has clarified that the witness has stated with regard to such conversation which took place between Suresh Langda and other Chharas. Additionally, the witness has also stated that Sindhis in their language were saying certain things as reproduced in that paragraph. Moreover, the witness has stated that since he was residing in this area since many years, he knew the Chhara and Sindhi languages.

159.31 In the opinion of this court, when a contradiction is sought to be proved through the testimony of the Investigating Officer, he can at best explain that part of the statement of which a contradiction is sought to be proved, however, any additional facts stated by the witness in his statement recorded by the Investigating Officer, cannot be brought on record unless necessary to explain the contradiction. In the present case, to the extent the Investigating Officer has clarified that the witness had stated regarding such

conversation having taken place between Suresh Langda and other Chharas, he is justified. However, the additional part stated regarding what was spoken by the Sindhis in their language and the fact regarding the witness having stated before him that as he was a resident of that area, he knew the Sindhi and Chhara languages, ought not to have been stated by him.

159.32 SUBMISSIONS: The learned counsel for the appellants submitted that the witness has identified only accused No.22 Suresh Chhara and accused No.41 Manoj Videowala but has failed to identify Babu Bajrangi accused No.18. It was submitted that no statement of this witness was recorded by the police, and that for the first time, his statement was recorded by the SIT on 16.6.2008. Therefore, whatever he has stated has come on record only six and a half years after the incident and even in this statement, there are vital omissions. The learned counsel drew the attention of the court to various omissions in the deposition of the witness as to his statement recorded by the Investigating Officer (SIT), to submit that this witness has remained silent for six and a half years and even though the statement was given at such a belated stage, the version given before the SIT and the version given before the court are completely contradictory as regards the time, place, weapon and role attributed to the accused. It was submitted that this witness is residing in this area since many years, yet he has implicated only two of the local accused. It was submitted that this witness is not a reliable witness and as regards the place from which he saw the incident, there is a contradiction in the statement recorded by the SIT and what he has deposed before the court. It was

submitted that in view of the contradictions brought out in paragraph 38 of his deposition, the witness was not in a position to identify any one.

159.33 ANALYSIS: The evidence on record shows that no statement of this witness had been recorded at the relevant time when the incident had taken place nor had he lodged any complaint, despite the fact that his elder son Shakeel was missing since the day of the incident. This witness had taken shelter at the Shah Alam Relief Camp, where statements of witnesses were being recorded by the police. No explanation has come forth as to why this witness had not got his statement recorded at the time when statements of other witnesses were recorded at the camp. For the first time after a period of more than six years of the incident, the statement of his witness has been recorded by the Investigating Officer (SIT) on 16.6.2008, wherein he has named six accused viz. Dalpatsingh, Bhavanisingh, Guddu, (all three deceased) Suresh (A-22), Manoj Videowala (A-44) and Babubhai Bajrangi (A-18), and has attributed weapons to them. He, however, has failed to indentify Babubhai Bajrangi in the dock. The witness has also alleged that Manoj Videowala had a revolver and he was firing by using the S.T. Workshop compound wall as a buffer.

159.34 Apart from the fact that the first version given by this witness has come on record at a highly belated stage, there are several omissions and contradictions even qua such statement. Considering the quality of the testimony of this witness, he does not appear to be a very credible witness. The court is, therefore, of the view that it would be very hazardous to place reliance upon the testimony of this witness to prove

the charge against the accused named by him.

160. **PW-175 Saiyed Yakubali Kasamali**, aged 40 years, has been examined at Exhibit-1205. This witness has deposed that he is residing at *Imambibi-ni-Chali* since his birth and at present also, he is residing there.

160.1 He has studied up till S.S.C. and from the year 1999, he is working as a dailywager driver with the A.M.T.S.

160.2 He is residing at home with his wife and children. His wife's name was Sairabanu and he had a daughter named Sainbanu, sons Shahrukhali and Mohsinali.

160.3 At the time of communal riots, he, his wife and children were residing in a separate house which was next to the house where his parents, brothers and sisters were residing. In the third house, his brother, his wife and three children were residing together, but separately.

160.4 The incident took place on 28.2.2002. At this time, there was a call for bandh. He was at home and at that time, his wife and children were also with him at home.

160.5 On the day of the incident, at around 9:30 in the morning, the mobs had started coming on the road from Krushnanagar and S.T. Workshop. These mobs were comprised of approximately ten thousand to fifteen thousand people. The people in the mob had pelted stones at their chawls. At that time, he and his family kept going in and out of the house

because they were frightened on account of the stone pelting.

160.6 On account of the incident, for their safety, he had sent his wife, his mother and his brother Arifali's wife and Arifali's three daughters as well as his children and his sister, to the S.R.P. Quarters at around 10 o'clock in the morning. At that time, he, his brother Arifali and his father stayed outside their house. While they were standing there, the frenzy of the mob increased. They went out to see where his father was injured with a tear gas shell. He had seen that the people in the mob had swords, pipes, dharias and sticks in their hands.

160.7 Upon all this happening, he, his father and his brother went to Tiwari's house at Gangotri. Tiwari and his father were both serving in the A.M.T.S., and hence, his father knew him. They went to Tiwari's place at around 4 o'clock in the evening and thereafter, they stayed there. Upon more and more mobs coming into Gangotri Society, several people went and lay down on the terrace of Gangotri. Tiwari told them that now it was not within his control and that they should make their own arrangement.

160.8 Upon Tiwari saying so, all three of them left Tiwari's house. They were going from the road on the rear side, where no one else was there, and hence, they were able to go to the S.R.P. Quarters where the relatives of his younger brother Arifali's in-laws were residing and thus, they had gone to their house. At the S.R.P. Quarters, he met his wife, children and mother as well as his brother's children. All of them were safe and no one was injured.

160.9 His father, as stated earlier, was injured on the leg with tear gas, while his younger brother Arifali was stuck up where he had gone for his service, but he was not injured. All three of them had reached the S.R.P. Quarters at around 5 o'clock in the evening.

160.10 At 1:30 in the afternoon, he had seen **Bipin Auto Centrewala - Bipin Panchal (A-44), Guddu Chhara, Hariya Chhara (A-10), Manoj Videowala (A-41)** and **Suresh Chhara (A-22)** in the mob. In this mob, Bipin Panchal had a sword in his hand, Bhavanisingh and Manoj Videowala were leading the mob, Suresh and Hariya Chhara had pipes in their hands. The people in the mob were pelting stones and burning houses. They had brought cans of kerosene and some inflammable substances and were burning everything after sprinkling it. They stayed at the S.R.P. Quarters till about 10:30 at night, whereafter a Government vehicle came, wherein he and his family went to the camp on the same day.

160.11 They stayed at the camp for around five to six months. His father was being treated at the Shah Alam camp. While he was at the Shah Alam camp, the police had recorded his statement. While he was at the camp, he had made an application to the Police Commissioner. The application made to the Police Commissioner has been presented with a list Exhibit-1206. The witness has stated that he had made an application in connection with the incident in the year 2002. The witness is shown a printed application where the blank spaces are filled in with signatures and the last part is shown to him. The witness has admitted his signature on the document. The witness has admitted the contents of the

application except the names of the persons involved in the offence as reflected at Serial No.7 and 8 and their surnames.

160.12 The witness has stated that after residing at the camp, they had gone straight to their native place. They were given police protection. They had stayed at their native place for around six months and thereafter, they had returned to Naroda Patiya and he had joined his services at the A.M.T.S.

160.13 In the incident, his house was ransacked and was set on fire. The SIT had recorded his statement in connection with the incident.

160.14 The witness has stated that he knows all the people whom he had stated that he had seen in the mob on that day. As per his information, Guddu Chharo and Bhavanisingh have passed away and he can identify the rest of the accused. The witness has thereafter identified Haresh Chharo (A-10), Manoj (A-41), Bipin (A-44) and Suresh (A-22) correctly before the court.

160.15 CROSS EXAMINATION: In the cross-examination of this witness, he has admitted that the handwriting in the application Exhibit-1207 is not his and that he has only signed it. The witness has voluntarily stated that everything has been written by the police. The witness has admitted that he had not read the contents of the application Exhibit-1207 before signing it nor had the police read it over to him. The witness has stated that he has signed the application Exhibit-1207 at the Relief Camp. He has admitted that he has not got the printed part of the application printed and that the police had

come to get his signature.

160.16 The witness has admitted that prior to putting his signature he had not asked the police as to why they were taking his signature and has voluntarily stated that the facts written down in the application had been stated by him. The witness is cross-examined with regard to the manner in which such application was made. The witness is further cross-examined with regard to the topography of the area.

160.17 In the cross-examination of the witness, it has come out that at about 9:00 to 9:30 in the morning, he was outside his house. Upon hearing the commotion, out of curiosity he had come out of his house. The witness has admitted that when he first came out, he had not seen the mob of ten to fifteen thousand people and that the mob must have been comprised of around five to seven thousand people and after that the mob kept on increasing. The witness has stated that after coming out of his house, he had seen the mob from a distance of 100 to 150 feet. The witness has stated that when he came out of his house, the mob had spread out in front of his house. When he came out the mob was not in front of his house but was on the right and left side, namely, on the side of Krushnanagar and the S.T. Workshop. The witness has stated that after he first came out, he had gone back after half an hour and used to keep going in and out.

160.18 The witness has admitted that during the half an hour that he stood there, no one had come to assault him but has stated that during this period, the mob was pelting stones at their chawls. The witness has stated that he had come out

of his house and was standing on the road. The witness has denied that his house is situated on the Highway and has voluntarily stated that there is a shop in front of his house. Upon entering their chawl, behind the shop, his house is first in the line. The witness has stated that on the Highway firstly there are shops, thereafter there are shops of Imambibi-ni-Chali and his house is behind them.

160.19 The witness has denied the suggestion that on that day in the morning, he had gone to the S.R.P. Quarters with his family. He has denied that while he was on the road, the people from their chawl had pelted stones and acid bulbs. The witness has denied that he and around five hundred to six hundred people were pelting stones in defence. The witness has denied that he had gone with his family to S.R.P. camp right from the morning. The witness has denied that he had gone with his family to the S.R.P. Quarters and they were not permitting them to go in. They had stood outside from 10 o'clock in the morning to 5 o'clock in the evening and thereafter, stealthily he and his family had entered inside the S.R.P. Quarters in the evening. The witness has denied that in his statement dated 12.5.2002, he had stated that on 28.2.2002 there was a call for Gujarat Bandh, due to which, he had not gone for his job with A.M.T.S. and was present at home. At this time, in the morning at around 9 o'clock, a mob of around ten to fifteen thousand people came to their chawl from the direction of Krushnanagar and started pelting stones as well as acid bulbs and resorted to private firing towards them, due to which, in their defence, they had started pelting stones at the mob and that there are around five hundred to six hundred houses of Muslims and Hindus in their chawl and

all the families in their chawl were together defending the chawls and the people in the mob had entered their chawl, due to which the Muslims of their chawl had fled towards S.R.P. camp to escape from the mob. However, the S.R.P. camp people did not permit them to enter and from 10 to 5 o'clock they had remained near the S.R.P. camp and thereafter had quietly entered the S.R.P. camp.

160.20 The witness has denied the suggestion that he had gone with his family to S.R.P. camp in the morning and from there they had gone to some other relative's place and then to the camp. The witness is confronted with his statement dated 12.5.2002 to the effect that he had stated therein that after they left their house and fled, till 4 o'clock, they stayed in the house of a Muslim Officer at the S.R.P camp and had not waited to even lock their house and had left their house and fled, whereafter the people from the Hindu mob had damaged and looted their house and set it on fire and at night at around 4 o'clock, the police came with Government vehicles to the S.R.P. camp and took them in the vehicles and brought them to the Shah Alam relief camp. The witness has voluntarily stated that the sequence of events were as stated by him in his examination-in-chief. The witness has stated that he came to know the facts regarding his house being destroyed and damaged subsequently. The witness has admitted that when he left the house on the day of the incident, no damage had been caused to it.

160.21 The witness has admitted that the police had recorded his statement, but has voluntarily stated that they had not read it over to him. The witness has admitted that he

has not asked the police to read over the statement to him and has voluntarily stated that at that time, the situation was such that all of them were very frightened and they felt that if they ask for the statement to be read out, the police might be displeased.

160.22 The witness has denied that only Muslim people had come to the camp and has stated that a Hindu lady who was residing nearby had also come to the camp. The witness has denied that he has not stated as to at what time, he had seen the accused named in the examination-in-chief in his statement recorded by the police. He has stated that he had seen them at around 1:30 in the afternoon. The witness has admitted that in his application dated 12.5.2002, he has not stated before the police as to at which place and at what time, he had seen the accused. The witness has denied the suggestion that he had not gone to the place of the incident, as stated by him and that the people belonging to the Muslim community had prepared him and that he was tutored to intentionally implicate some accused and, accordingly, he is falsely deposing before the court and that his statement recorded by the SIT has been stated as tutored to him six years after the incident. The witness has denied the suggestion that he was not present at the scene of incident and, therefore, in his statement dated 21.5.2008, he was not able to state the exact role of the accused in the incident. The witness has denied the suggestion that the accused named by him were not present at the spot on the day of the incident. He has denied the suggestion that he was falsely implicating the accused.

160.23 The witness has stated that he is not aware how many people in the mob had tied saffron bands. He has stated that he has not seen Ashok Chhara, Dalpat Chhara and Munna alias Vijay Chhara in the mob on that day. The witness has admitted that in his statement recorded by the SIT, he had stated that he has not seen Dalpat Chhara, Munno alias Vijay Chhara in the mob and he does not know them; however, he had heard the names of these two persons from the people in the relief camp, and hence, had given their names. He has not seen them in the mob. The witness has admitted that in the very statement, he had also stated that he does not know Ashok Chhara and that he was not there in the mob. The witness has voluntarily stated that he has stated so only in respect of those whom he had not seen.

160.24 The witness has admitted that before the SIT, he has not stated that ten to fifteen thousand people in the mob started pelting stones on their chawl and the people of their chawl also pelted stones in defence. They got tired of defending themselves against the mob which was pelting stones and at around 1:00 to 1:30, the residents of the chawl left their houses open and went towards the S.R.P. Quarters to protect their lives. The witness has voluntarily stated that in this part, he was not talking about himself, and that he had gone as stated by him in his examination-in-chief.

160.25 The witness has stated that he had no occasion to visit Bipin Auto Centre. He has admitted that Bipin Auto Centre is on the left side when one comes from Krushnanagar to Noorani. He has admitted that he has no monetary or social dealings with Bipin Auto Centrewala. The witness has stated

that he is not aware as to how Bipin Auto Centre came to be burnt on the day of the incident. He has stated that he is not aware as to whether Bipin Auto Centre was burnt in the incident. He has denied that because Bipin Auto Centre was burnt by the people of the Muslim community, their community had decided to give his name as an accused in this incident. That Bipinbhai was not present on the day of the incident.

160.26 To prove the contradictions and omissions in the testimony of this witness as to his statement dated 12.5.2002, the defence has cross examined PW-282 Shri K. S. Desai, the assignee officer, who has admitted that he has recorded the statement of this witness on 12.5.2002. The assignee officer has admitted that when he went to record his statement, no complaint was given to him, nor was he instructed to record any statement in connection with such complaint. (The witness has given a printed complaint, Exhibit-1207, which is on record). The assignee officer has admitted that this witness had stated before him that on 28.2.2002, there was a call for Gujarat Bandh due to which, he had not gone for his job at the A.M.T.S. and was present at home. At that time, in the morning at about 9 o'clock, a mob of around ten to fifteen thousand people came from the direction of Krushnanagar and started pelting stones at their chawl and also started throwing acid bulbs and resorted to private firing against them, due to which, to protect their lives, they (the witness and others) had started pelting stones at the mob and that in their chawl, there are in all five hundred to six hundred houses of Muslims and Hindus and all the families were together defending themselves and the people in the mob had entered inside their chawls and the Muslims of their chawls, to save themselves, had fled towards

the S.R.P. camp, however, the S.R.P. camp people did not let them enter and from 10:00 to 5:00, they had remained near the S.R.P. camp. Thereafter, they stealthily entered the S.R.P. camp. That after fleeing from their houses, till 4 o'clock at night, they had stayed in the house of some Muslim officer at the S.R.P. camp and that they had not even stayed back to lock their houses and had fled from their homes, whereafter the Hindu mob had damaged, looted and burnt their houses and at 4 o'clock in the morning, the police came with a Government vehicle to the S.R.P. camp and brought them to the Shah Alam camp in the vehicle and from that day till date, they were residing at the relief camp. This part of the testimony of the assignee officer is not admissible in evidence, because when the witness's attention was drawn to this part of the police statement, it was not with a view to contradict any part of his evidence, and hence, is not in consonance with the provisions of section 162 of the Code read with section 145 of the Evidence Act. When the witness was not sought to be contradicted, the question of proving any such contradiction would not arise.

160.27 The assignee officer has admitted that the witness has not stated before him as regards at what time he had seen them. He has also admitted that the witness had not stated before him as to which accused had which weapon, but has stated that the witness had stated before him that he had seen the mob at about 9 o'clock; that the witness had seen only one mob and he had seen the accused therein. The assignee officer has admitted that the witness had not stated before him that a mob had also come from the S.T. Workshop.

160.28 SUBMISSIONS: The learned counsel for the appellants referred to the deposition of the witness to submit that, according to this witness, he saw the mob at about 9 o'clock in the morning from a distance of about 100 to 150 feet, and this is the only mob which he had seen. It was submitted that the witness has not stated as to at which point of time, he had seen the other mob in the noon. It was submitted that he has not stated in his examination-in-chief as to where he was at 1:30 and which is the mob and at which place he had an opportunity to see it. It was submitted that, therefore, the version of the witness that he had seen the accused at 1:30 with weapons, is a complete improvement, bringing out a totally different set of facts than that stated by him before the police. It was submitted that in the examination-in-chief, the witness has referred to weapons in the hands of the three accused, namely, sword in the hands of accused No.44, pipe in the hands of accused No.2 and a pipe in the hands of Hariyo, (Accused No.1), which has not been stated by him in his statement recorded by the police. It was submitted that the witness has also given a contradictory version about the time when he had seen the accused and the gap is so substantial viz., from 9:00 a.m. to 1:30 p.m. in the noon, that having regard to the sequence as stated in the examination-in-chief, it cannot be reconciled. Therefore, it is highly doubtful whether his say in his examination-in-chief about having seen the accused at 1:30 in the noon can be accepted, particularly when he does not say at which place and from where he had seen all of them. It was submitted that no other witness has stated that Bipin was in the chawl at 1:30 and that it is highly doubtful whether the witness has seen any of the accused.

160.29 ANALYSIS: This witness is the brother of PW 172 Arifali Kasamali Saiyed. The witness has deposed that a mob of around ten to fifteen thousand people came from Krushnanagar and the S.T. Workshop and was pelting stones on their chawls, due to which, they were afraid, and, therefore, he and his family members kept going in and out of the house. The witness is a resident of Imambibi-ni-Chali, which is the first chawl touching the highway. As per the version given by this witness, on the day of the incident, at around ten in the morning, he had sent his wife, his mother, his brother Arifali's wife and his three daughters as well as his children to the S.R.P. Quarters, while he, his brother Arifali and his father stayed outside their home. The mob became violent and all three of them went to Tiwari's house at Gangotri at around 4:00 p.m. When the mobs started coming to Gangotri, Tiwari told them that the situation was not within his control and they should make their own arrangements, whereupon all three of them went to the S.R.P. Quarters to the house of his brother Arifali's in-laws, who were residing there.

160.30 The witness claims to have seen Bipin Panchal (A-44), Guddu Chhara (deceased), Hariyo Chhara (A-10), Manoj Videowala (A-41) and Suresh Chhara (A-22) in the mob in the afternoon at 1:30 and has identified all the accused in the dock.

160.31 From the cross-examination of the witness, it has been elicited that the witness in his statement dated 12.5.2002 [recorded by PW 283] has named the accused, but has not stated as to where he had seen them. It may be noted that no

omissions or contradictions as to his police statement have been brought out in the cross-examination of the witness. Certain parts of his police statement are put to the witness, without seeking to contradict any part of his testimony, which is not in consonance with the provisions of section 162 of the Code read with section 145 of the Evidence Act; therefore, such part of his testimony is not admissible in evidence. Nonetheless, it cannot but be noticed that this witness is the brother of PW 172 Arifali Kasamali, and the versions given by both the witnesses are totally different. While Arifali does not even mention the name of this witness, this witness claims that Arifali and his father were with him. While Arifali says that he, together with his family went to Jawannagar and stayed there till 7:00 p.m., this witness says that their family members were sent to the S.R.P. Quarters to the house of Arifali's in laws. In the cross-examination of the witness no omissions or contradictions as to his police statement are brought out. However, it appears that in his police statement, he had given a different version. Therefore, this witness appears to have improved upon the version given by him before the police. Besides, neither in the police statement, nor in his deposition before the court, has the witness stated as to where he had seen the accused. The witness has deposed that he had seen the above named accused in the mob at 1:30 in the afternoon, without stating anything more, which is highly vague. This witness, therefore, does not appear to be a credible and truthful witness, and, therefore, it would be hazardous to place reliance upon such vague evidence to establish the charge against the accused. No part of the testimony of this witness can be relied upon against the named accused.

161. **PW-176 Zulekhabanu Sardarahemad Chaudhary**, aged 49 years, has been examined at Exhibit-1212. This witness has deposed that her native is *Village Timbapur, Taluka Sorapura, District Gulbarg, Karnataka State*. She is residing at *Kumbhaji-ni-Chali* since the last twenty five to thirty years. In the year 2002 also, she was residing at *Kumbhaji-ni-Chali*.

161.1 In the year 2002 as well as at present also, she is engaged in the business of selling vegetables and her husband in casual labour work.

161.2 In the year 2002, her family was comprised of her husband, four daughters and two sons as well as her uncle Rahimbhai. All of them were residing together. Her in-laws were residing at Gulbarg at the relevant time.

161.3 At the time of the incident, her younger brother-in-law Faiyazahemad had come to her house to attend her sister's marriage. About twenty four persons had come from Gulbarg for her sister's marriage.

161.4 On 27.2.2002, there was a dinner on the occasion of the marriage of her sister at Chamunda, Saraspur and all of them had gone there. Prior thereto, they had learnt that a train had been burnt at Godhra. After having a meal at her sister's house at Saraspur, they had set out at about 6:30 to 7:00 for returning home. When they reached Ashok Mill, one rickshaw had been burnt there. Thereafter, they came home and learnt

that an egg-cart near Krushnanagar had also been set on fire and that the situation was bad. Upon learning this, they had remained awake till about 2:00 to 2:30 at night.

161.5 On 28.2.2002, there was a call for Gujarat bandh.

161.6 On 28.2.2002, at around 7:30 to 8:00 in the morning, she had gone to Kalupur to purchase vegetables and her family was at home. She returned home at around 9 o'clock in the morning with her vegetable cart and as per her routine, she put her vegetable cart next to the S.T. Workshop and started her business. She had sold vegetables worth around Rs.80 when her brother-in-law Faiyaz made a phone call from Chamunda and told her that the situation there was not good and asked her as to what the situation at Patiya was like. She informed him that there did not appear to be anything wrong there. She talked on the telephone and returned back to her vegetable cart immediately. When she reached her cart, sounds of screaming started coming. She went there and saw that there were mobs of Hindus. Certain people in the mob had tied saffron bands on their heads and were wearing shorts and undershirts. The Sindhis in the mob were wearing kurta and pajamas.

161.7 The mob was shouting "*Kill, cut the Miyas, bring them out and burn them*". Since the sounds came from the side of the road, she came towards that side to look and after looking, she returned back to her cart. She left her cart as it was, and went home, took her children, locked the house and told her husband to stay in the house and took her children and went towards Jawannagar Gangotri.

161.8 From Jawannagar, they went to Gangotri, and from there, they went to the S.R.P. Quarters. When they went to the S.R.P. Quarters, policemen were standing there. They (the witness) told the policemen to let them go into the S.R.P. Quarters; however, they were refusing to do so, whereupon she requested them that it was alright if they don't take her, but at least they could take her children inside. However, the S.R.P. people told her that it was their last day.

161.9 Thereafter, from the S.R.P. Quarters, she went to the open ground near Gangotri Society where many Muslims were sitting and sat there for some time.

161.10 There is a shorts and undershirts factory at Gangotri. She does not remember as to exactly at what time they went to the factory as she was very tense. She and her children went to the factory. They must have stayed at the factory for about one to one and a half hours; after which, they came out of the factory and went towards Gopinathnagar. There is an open ground near Gopinathnagar and they ran towards that open ground. There was a huge mob in the open ground also, which was comprised of Hindus. At that time, her son Maheboob told her, *"Mummy, here, it does not appear that we will be saved, let us go back."*

161.11 From there, they came back to Gangotri Society, where there is a water tank. There, the Muslims were sitting and hiding behind the tank when the mob poured kerosene, diesel and put quilts on the Muslims and burnt them, which she herself saw. From there, they went to Gangotri Society. They

went to a terrace of a house in Gangotri Society. Out of the Muslims who were burnt near the tank, those who were able to escape were coming towards the house in the Gangotri Society. At this place near Gangotri Society, there was a mob of Hindus, who were saying, "*Now, you cannot escape*", which she had heard and thereafter, they climbed on the terrace.

161.12 In the mob which she had seen at Gangotri Society, she had seen **Manu Harijan (A-28) and Tiwari Conductor (A-25)**. They had acquaintance with Tiwari Conductor and hence, she requested him to let her and her children sit in his house at Gangotri Society. Tiwari Conductor kicked her sister-in-law and hence, her sister-in-law's son Sabbir, who was in her arms, fell down and injured his head. They stayed at the terrace of Gangotri Society till 11:30 at night, whereafter the police vehicles came. The police had come to pick them up. While they were going from Gangotri Society to the vehicle, on the road, they saw many dead bodies of women and men. Thereafter, they came and sat in the vehicle which took them to the Shah Alam camp.

161.13 The witness has further deposed that in the mob which she saw from 9:00 to 9:45 in the morning on the road, she had seen **Mayaben Kodnani (A-37)** also and she had recognized her.

161.14 The witness has further deposed that apart from her vegetable business, she was also running a business of confectionery and biscuits nearby. In the incident, her cart, shop and house everything was burnt and her house was reduced to the rubble.

161.15 She had stayed at the camp for six months and during that period, the police had recorded her statement. Thereafter, the Islamic Committee had constructed a house for them, and hence, she had gone to stay in that house. Her husband is educated and he had read facts about the SIT in the newspaper, and hence, they came to know about it. She had given a statement before the SIT.

161.16 The witness has stated that she knows Tiwari Conductor, Manu Harijan and Mayaben and can identify them. The witness has correctly identified accused No.28, 37 and 25.

161.17 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that she cannot write or read in Gujarati. Her husband has studied upto the tenth standard in Urdu medium and he can read Gujarati. He, however, cannot speak or write in Gujarati. The witness has admitted that she does not know as to what the police had written down during the course of investigation but has stated that she knows that the police have not properly investigated their case. The witness is shown the application Mark-644/6 and she has identified her thumb impression at the end of the document. The witness has denied that she was informed by Nazir Master or Mohammad Maharooof that the investigation was not carried out properly. She has stated that from the information given in the newspaper, she had felt that the investigation was not proper. The witness has stated that nobody had asked her to go to Gandhinagar but since everyone was sending their applications, she felt that she should also make an application. The witness does not remember as to who sent the application,

but has stated that many people had sent applications. The witness has thereafter, been cross-examined with regard to the mode and the manner in which the application was made and sent. The application Mark-644/6 is read over to the witness, who has admitted the contents thereof and the same is exhibited as Exhibit-1213.

161.18 The witness has admitted that she has not given the names of any accused in the application Exhibit-1213. She has voluntarily stated that she had not thought it fit to name the accused in the application for the reason that earlier her statement was recorded at the camp wherein she had named the accused.

161.19 The witness has stated that Kumbhaji-ni-Chali where she resides is situated on the opposite side of the S.T. Workshop compound wall after leaving two chawls from the road. She has admitted that she used to park her cart outside the S.T. Workshop wall. She has admitted that the way for going into their chawl was parallel to the S.T. Workshop compound wall. She has admitted that the road going from near their chawl goes straight to Hussainnagar, Jawannagar, Gangotri and Gopinathnagar Society. The witness has admitted that behind Gangotri Gopinath, there is an open ground and Teesra Kuva.

161.20 The witness has admitted that in her statement dated 12.5.2002, she had stated that since more mobs had come from the direction of Krushnanagar, Patiya and Saijpur Bogha they could not oppose them and, therefore, they were feeling more frightened and went away to their homes. The

witness has partly admitted and partly denied the contents of her above statement to the effect that she has stated therein that in the evening at around 4:30 to 5:00 a mob of Hindus entered their chawls and started damaging and setting their houses on fire. Hence, they had hidden on the terrace of Gopinath Society and could hear sounds of police firing, etc. and upon the policemen coming at around 11:30 at night they had taken the people of their community out of their chawls and seated them in police vehicles and brought them to the Shah Alam relief camp at 2 o'clock at night. The witness has stated that she has not given any timing in respect of the entire incident as she actually did not know anything on that day. The witness, however, has stated that she knows the time of the morning incident, but other than that, she does not know the time of the other incidents.

161.21 In the cross-examination, she has admitted that in the incident no person in her family had died. The witness has denied that she has not recognised anyone in the riotous mob on the day of the incident. She has denied that in her statement dated 12.5.2002, she had stated that she could not recognise any person in the riotous mob.

161.22 The witness has denied that in her statement dated 12.5.2002, she has not named the accused that she has identified in the court nor has she attributed any role to them. She has voluntarily stated that she had stated before the police but if they did not write down the names, what could she do. The witness has admitted that she has identified the accused in the court for the first time and has voluntarily stated that she knew them from the beginning.

161.23 The witness has stated that she had no occasion to visit Manu Kesha Harijan's house. She has stated that Manu used to come to her house and her shop. He used to sweep and used to take food and money from her. She has denied that as their diet included meat, mutton and fish, Manu had refused to take the garbage, and therefore, there was a dispute with him and out of vengeance, she has wrongly given his name.

161.24 She has stated that their friendship with Tiwari Conductor was to the extent that he had a provision store and they used to buy goods from there. The witness has voluntarily stated that it is in view of such relations that she had gone to his house so that he would hide them.

161.25 In her cross-examination, it has come out that when they reached Tiwaribhai's house, it was around evening. At that time, it had not become dark. She has stated that she does not know whether before them, like her, other Muslims had gone to Tiwaribhai's house to take shelter and he had given them shelter. She has denied that in her presence, Tiwaribhai had told the other Muslims that it is now not within his means and that they should find their own shelter. She has denied that they had reached Tiwaribhai's place at such a time when he was not in a position to give them shelter. The witness has voluntarily stated that if it had been so, he should have told them about it, but by kicking a woman with a child, he had also caused injury to the child. The witness has denied that while coming out, in the pulling and pushing that took place between the Muslims who had taken refuge in

Tiwaribhai's house, Sabir fell from her sister-in-laws arms. She has denied that since Tiwaribhai had given everyone shelter and had not given her shelter, out of vengeance, she was falsely giving his name.

161.26 The witness has partly admitted and partly denied that she had stated before the SIT that upon remembering, she is saying that in the morning at around 9:30 to 9:45, Mayaben Kodnani was also in the mob. She has clarified she has not used the words upon remembering but has stated the rest of the facts.

161.27 The witness has denied that the accused whom she has named in her examination-in-chief have not been seen by her throughout the day and, therefore, in her statement dated 12.5.2002 and the other statements in the year 2002 as well as the application Exhibit-1213 she had not given their names. She has denied that in the year 2008, the Muslim organisations reminded her for the first time and told her to give certain names and hence, for the first time, she had given the names of the accused mentioned by her in her examination-in-chief. She has denied that she has not seen any of the accused, and hence, nowhere has she stated as to when and where she had seen the accused and what they were doing at that time.

161.28 To prove the omissions and contradictions as to her previous statements recorded by the investigating agencies, the defence has cross-examined the concerned Investigating Officer/ assignee officer who had recorded such statement.

161.29 PW-280 Bhanushanker Chhaganlal Joshi, the

assignee officer has been cross examined by the defence, but in no part of his testimony is any omission or contradiction in the statement of the witness sought to be proved. Therefore, any reference to the contents of the previous statement of this witness recorded by the assignee officer is inadmissible in evidence. The assignee officer has admitted to there being certain corrections in the date of the statement of this witness and has admitted that whenever any change is made in a statement, he is required to put his short signature and has admitted that he has not put his short signature while making the changes.

161.30 PW 292 R. C. Pathak, the assignee officer has, in his cross-examination, admitted that he has recorded the statement of this witness on 12.5.2002. The assignee officer has admitted that this witness in the statement recorded by him, has stated that at that time, at around 9:45, a mob of Hindus belonging to the Chhara, Sindhi and other communities had gathered and started pelting stones at the houses of people belonging to their Muslim community, due to which, the people of their community in their defence, had pelted stones against them. At that time, at around 4:30 to 5:00 in the evening, a mob belonging to the Hindu community had entered their chawls and had started damaging and burning their houses, due to which, they had gone and hidden on a terrace of Gangotri Society and they could hear sounds of police firing outside. At 11:30 at night, the police came and took out the people of their community from the chawls, took them in police vehicles to the Shah Alam relief camp at 2 o'clock. That she does not know anyone who was involved in the riots. The assignee officer has admitted that this witness

has not given the name of any accused before him, but has stated that the accused belonged to the Chhara, Sindhi and other communities. Since the contents of the police statement of the witness are sought to be brought on record without seeking to contradict any part of her evidence, the same is not admissible in evidence. Therefore, except to the extent the assignee officer has admitted that the witness has not named any of the accused in such statement, the rest of the evidence of the assignee officer is inadmissible in evidence.

161.31 SUBMISSIONS: The learned counsel for the appellants invited the attention of the court to the fact that in her police statement, the witness has not named any accused but has stated that they were Chharas, Sindhis and people belonging to other communities. The attention of the court was invited to the contents of paragraph 56 of the cross-examination of the witness to point out that in her statement dated 12.5.2002, the witness has specifically stated that she could not recognise any person involved in the rioting and that such contradiction has been proved through the testimony of PW-292. It was submitted that this witness in her police statement has not given the names of any of the three accused named by her in her examination-in-chief, and on the contrary, she has categorically stated that she does not know any of the miscreants who have committed the offence. It was submitted that she has named the accused for the first time before the SIT, which clearly indicates that all the three names that she has given, have been given at the instance of someone else which, ultimately, has come on record in the court and that the same may not be accepted. Referring to the application Exhibit 1213 made by the witness, it was submitted

that the application contains certain allegations, and that though the witness states that the application has been dictated by her, she has disowned both the allegations contained in the application. Therefore, there is reason to believe that such allegations are also at the instance of someone else.

161.32 ANALYSIS: The witness has deposed that she has seen Manu Harijan (A-28) and Tiwari Conductor (A-25) in the mob near Gangotri Society. She has also stated that Mayaben Kodnani (A-37) was present in the mob that she had seen in the morning at 9:30 to 9:45. In her cross-examination the witness is confronted with her previous statement dated 12.5.2002 recorded by the police, to the effect that in such statement she had stated that she did not know any of the persons indulging in rioting. This omission has been proved through the testimony of PW 292 Shri R. C. Pathak, the assignee officer, who has admitted that the witness has not given the name of any accused before him. Therefore, the names of the accused have come up for the first time after a period of six years, in her statement recorded by the SIT. Insofar as accused Manu Harijan and Tiwari are concerned, their names have been disclosed by other witnesses in their statements recorded by the police and the police have taken down their names, therefore, there was no reason as to why the assignee officer would not write down their names in the statement given by this witness. As regards Mayaben Kodnani, she being an MLA of the ruling party and being perceived as an influential person, it could be said that the police may have been reluctant to record her name as an accused. However, if the testimony of this witness is seen, except for a passing

reference at the end of her examination-in-chief, wherein she has stated that she had also seen Mayaben in the mob in the morning, nothing has been stated as regards the place and time when she had seen her, and no role has been attributed to her.

161.33 However, as regards the version given by the witness regarding she having gone on the road; and thereafter having gone to Gangotri via Jawannagar; and from there having gone to the S.R.P. Quarters where the police did not permit them to enter; having gone from the S.R.P. Quarters to the ground near Gangotri; having gone to the hosiery factory in Gangotri where they remained for one to one and half hours; having gone from the factory towards Gopinath Society and having fled towards the open ground near Gopinathnagar; a huge mob having come from the field; the witness and others having gone back to Gangotri Society; the Muslims having hidden behind the water tank; and petrol, diesel and quilts having been thrown on the Muslims and they having been set ablaze, it goes unchallenged despite the fact that the deposition of the witness runs into 78 paragraphs. Therefore, the version given by the witness, except to the extent she has named the accused, can be accepted.

161.34 Thus, though the testimony of the witness cannot be used to prove the charge against the named accused, it would come to the aid of the prosecution to establish the sequence of events regarding how the incidents took place on that day.

162. **PW-177 Ishratjahan Parvezhussain Saiyed**, aged 29 years, has been examined at Exhibit 1218. This witness has deposed that in the year 2002, she was residing at *Lane No.4, Hussainnagar* in a rented house with her two sons – Hassan Abbas and Aman Abbas, her husband, her sister Nasreenjahan, her brother Sabbirhussain and her second sister Nooreafsa.

162.1 Her in-laws were residing at Gomtipur. At the relevant time, her husband was in service and doing embroidery work.

162.2 The incident took place on 28.2.2002. On that day, there was a call for Gujarat bandh and she was at home with her family. On that day, in the morning at around 9:00 to 9:30, there was a commotion in their chawls. The people from their chawl were running on the road because somebody had said that the mobs have come. Upon seeing and hearing all this, she too went on the road. On the road, she saw that the mobs of people were coming from Natraj and Krushnanagar, who had swords, pipes and hammers etc. in their hands. Out of them, some of the people had tied orange bands. From the side of Patiya, a mob of Sindhis was coming and from the direction of Mithumal Ni Building, Natraj, a mob of Chharas was coming.

162.3 The people in the mob started vandalizing the Noorani Masjid and attacked it and also set the shops and houses nearby on fire. The mob near the masjid was pelting stones due to which, the Imam of the masjid was injured on the head and his face was full of blood. He had put his hand on his head. All of which she herself had seen.

162.4 Upon seeing all this, she was frightened and she went home to inform her husband about it. Upon going home and informing her husband, he also ran to the road to watch it. Thereafter, she followed him.

162.5 The people in the mob thereafter attacked their chawl. At around 10 o'clock in the morning, firing started and tear gas was released and there was intense stone throwing. In front of her, five to six persons were injured by bullets. Mahammad, Pirubhai, Salim, Khalid, Gosvali Khala's son-in-law were amongst the persons who were injured with bullets, etc. Later on, she learnt that a man named Abid was also injured by a bullet and had died thereafter.

162.6 In the stone throwing that had taken place there at that time, her husband had also sustained injuries on his leg and head. They were there and she was frightened. She and her husband returned home. After coming home, her husband said that they should take their children and go and hide somewhere and hence, they left their house and she along with her husband and children went to the Pinjara's house, opposite their house where her brother and sister had also come. At that time, it must have been around 12 o'clock in the afternoon.

162.7 They sat in the room on the upper floor at the Pinjara's house. There were many other Muslims at this place. There was a balcony in the front and on the upper floor of Pinjara's house; there were two rooms, a kitchen and a balcony.

162.8 At around 2:00 to 2:30 in the afternoon, the mob had committed vandalism, arson and looting, and had entered their chawl. They had seen from above that the mob had entered their chawl. **Sahejad Chhara (A-26), Ganpat Chhara (A-4)** and **two Chhara women** were in front of the mob. The Chhara women were looting. Sahejad Chhara had ignited a match stick in the first house of their chawl which was Zayeda Apa's house. After Sahejad set the house on fire, the mob started roaming around their chawl. The people in the mob came back and started knocking on the door of the room in which they were hiding and Sahejad Chhara loudly said that all the men inside should come out. Inside, they were all very frightened and she had lost her voice. Other Muslim women had replied to Sahejad Chhara that there are only women and children inside. Whereupon Sahejad told, "*You give your children*". At this time, the women inside started pleading as to what harm they had caused to them and as to what would they do by taking their children, whereupon Sahejad told them that they would take their children on the road and burn them alive. All the women inside the room, due to the fear, became silent and everyone started crying.

162.9 The people in the mob stood there sometime and while going, they stated, "*Today, you will not escape and if by chance you escape, then you should go to Pakistan.*"

162.10 Thereafter, they stayed in the room till night. At night, a police vehicle came in which they were taken to Shah Alam camp. When the policemen came to call them, she had come out of the room. On the road, she had seen two dead

bodies which were lying in a burnt condition. Out of the two, one dead body was of a handicapped boy. Thereafter, they were taken to the Shah Alam camp.

162.11 She and her family stayed at the Shah Alam camp for around six to seven months. Her husband had taken treatment at the Shah Alam camp for the stone injury.

162.12 A gas cylinder was burst in her house due to which her house was damaged and her house was looted.

162.13 When she was at the camp, the police had recorded her statement. Thereafter, her statement was also recorded by the SIT at Gandhinagar. Before the SIT, she had stated all the facts which she had seen or heard.

162.14 The witness has stated that she can identify Sahejad Chhara and Ganpat Chhara whom she had seen and even now, she can identify both of them. She has stated that she can also identify the two Chhara women who were with them. The witness has thereafter identified Ganpat Chhara and Sahejad Chhara. She has stated that she does not know the names of the Chhara women, but she has identified one of the women as Ramila. The witness has, accordingly, identified **Ganpat (A-4), Sahejad (A-26)** and **Gitaben, daughter of Ratilal alias Jaybhavani Rathod (A-56)** and **Ramilaben (A-61)**. However, Gitaben has not been identified by her name.

162.15 CROSS EXAMINATION: The witness has initially been cross-examined with regard to the topography of the area. In her cross-examination, it has come out that on the day

of the incident she had gone near the S.T. Workshop from Hussainnagar Lane No.4 to the last corner of their chawl. She has stated that Padmaben's vegetable shop and Gafur's house are situated there. She had gone there **alone, but** many Muslims were moving around there and several Muslims were standing there. She has stated that she was standing on the left side near Gafurbhai's house. Gafurbhai's house is in Chetandas-ni Chali and Chetandas-ni Chali at the relevant time was on the road and at present also was on the road. After she reached Gafurbhai's house, she returned in ten to fifteen minutes. The witness has admitted that first time she went near Gafurbhai's house and stood there, her husband was not with her but was sleeping at home. She has admitted that after she woke up her husband had come on the road and she had followed him and at that time also, she was standing near Gafurbhai's house. She has stated that when she again went there, the number of Muslims standing there had increased. When they came for the second time, she must have stood there for one to two hours. She has denied that at that time, the Muslims who had gathered there were pelting stones at the mob and throwing burning rags and petrol bulbs to drive away the mob. The witness has stated that she has not seen the Muslims who had gathered there having swords, sticks, pipes etc. in their hands. She has voluntarily stated they were being attacked.

162.16 The witness has admitted that she has not seen all these people whom she has stated were injured by bullets, actually being injured by the bullets but she has noticed that because of that they had fallen down. She has stated that it is only those persons who had come to the S.T. Workshop who

were injured by the bullets, the rest of the people were standing against the S.T. Workshop wall and hence, they could not be injured by the bullets. The witness has voluntarily stated that one person who was injured by the bullets was put in a cart, and upon others being injured, they were taken inside the chawl.

162.17 The witness has stated that she has seen the incident where people were injured by bullets. Thereafter, she and her husband had gone back because the mob had started coming towards their chawl. The witness has voluntarily stated that at that time, sounds of firing and teargas shells bursting were coming and there was intense stone pelting. There were stones over the entire road of their chawl. The people in the mob were pelting stones on them. Her husband was injured at two places by stones. She was not injured by any stone.

162.18 In her cross-examination, it has further come out that the mob had come till the gate of the S.T. Workshop as well as till Chetandas-ni-Chali when they were standing there. She as admitted that Gafurbhai's house is also in Chetandas-ni-Chali. The witness has admitted that no person in the mob tried to catch her and kill her. The witness has voluntarily stated that she was standing at a little distance and thereafter, out of fear, they had left. She has admitted that the mob did not chase her, but has voluntarily stated that the mob was advancing forward. She has admitted that till she reached home, no one in the mob had followed her. She has admitted that she was at a distance from where she could see the mob. The witness has admitted that she has not seen any other Muslim being injured in the incident and had also not seen

anyone falling down because of the mob, being picked up and taken away.

162.19 She has stated that Ramzani Pinjara's house is situated opposite her house and the distance between Ramzani Pinjara's house and her house would be around 3 feet. The witness has stated that she cannot give the number of her house in Lane No.4, but it was the fourth house after entering the lane.

162.20 In her cross-examination, it has come out that when they entered Ramzani Pinjara's house, it must have been around 12 o'clock in the afternoon. She has admitted that once they went inside Ramzani Pinjara's house in the afternoon they came out only at night. She has admitted that the room in which they had stayed had an iron door. She has voluntarily stated that near the staircase leading to the upper floor, there was an iron door and it was that door on which there was knocking. She has stated that there was a terrace above the room in which they were and there were several people on the terrace also.

162.21 In her cross-examination, it has come out that upon entering Ramzanibhai's house, there is a big hall with two doors wherein there is a toilet and thereafter adjoining the hall there are two rooms, thereafter there is a staircase for going to the upper floor. From the two rooms on the upper floor, there is also a kitchen; there is a terrace above it, where there is also a toilet. The staircase for going on the upper floor is on the outside where there is a big iron door. She has admitted that there were other houses in the lane of the Pinjara's house. She

has stated that after climbing on the first floor, there is a staircase for going to the terrace.

162.22 The witness has denied that on that day, the mob of around two to five thousand people had entered their chawl. She has voluntarily stated that so many people cannot enter their chawl as the lanes of their chawl are very narrow. The witness has stated that the mob came near the Pinjara's house at around 2:30 in the afternoon. The witness has admitted that except for the two persons she has named, no person from the mob had tried to come and kill them, for the reason that the door was closed. She has stated that the people in the mob did not try to throw inflammable substances and torch it for the reason that if they throw inflammable substances, the same would fall back upon them.

162.23 She has stated that they had gone to Ramzanibhai's house to protect their lives and that they were afraid that if someone saw them, they would kill them and hence, they were hiding. They were sitting in the gallery which was covered by a plastic sheet which was permanently put up by the Ramzanibhai to prevent the rain from coming in. The witness has denied that the people in the mob were shouting loudly and the sounds were so loud that they could not hear anyone speak. She has denied that the two accused whom she had named had not come near Ramzanibhai's house. She has denied that the two accused were not in the mob which came near Ramzanibhai's house and that there were no women in the mob. She has admitted that her younger sister's name is Kausarbanu and that at that time, her sister Kausarbanu was also with her in Ramzanibhai's house. She has admitted that

prior to this incident of communal riots, in the year 1991 her sister Kausarbanu had sustained burn injuries.

162.24 The witness has admitted that there was a quarrel between the nephew of accused Ganpat and her brother regarding kite flying prior to the communal riots. She has admitted that her sister had poured kerosene over herself and burnt herself. She has admitted that she was going to file a case but she was persuaded not to file the case and it was Ganpatbhai who has persuaded her. The witness has stated that she (Kausarbanu) herself did not want to file the case. She has denied that it is for this reason that she was falsely implicating Ganpatbhai. The witness has voluntarily stated that if she wanted to implicate him, why would she give other names?

162.25 In the cross-examination, it has further come out that she had studied till the third standard only. The witness has denied that in her statement dated 12.5.2002, she has not named or not described any of the accused. The witness has voluntarily stated that whatever she has stated in her examination-in-chief was stated by her before the police. The witness has admitted that prior thereto, no test identification parade of the accused had been carried out. The witness has denied that her statement dated 23.5.2008 before the SIT was given under the guidance of someone else and that in that statement she had given the names of accused as told to her by others.

162.26 The witness has stated that her statement dated 23.5.2008 was read over to her by the SIT. The witness has

partly admitted and partly denied that in her statement dated 23.5.2008 she had stated that she does not know the names of the two women, who were with them and cannot recognise them if she sees them. The witness has voluntarily stated that she had stated that if she sees them she can recognise them.

162.27 The witness has stated that from where she was standing she had seen Noorani Masjid being attacked. She has denied that she had seen burning rags being thrown there. She has admitted that she had seen the door and the walls being broken. The witness has voluntarily stated that she had seen stones being pelted and nearby shops being burnt. She had also seen hotels and carts being burnt and that the mobs were very huge. She has admitted that they were shouting “kills and cut the Miyas” and certain people in the mobs had tied saffron bands. She has admitted that on all the roads, Hindu mobs were coming shouting “kill, cut”. She has admitted that she had seen the mobs coming from Kubernagar, Naroda, Kalupur, Himmatnagar road and Naroda gam. She has stated that what she wants to say is that she had seen the mobs coming as stated by her in her examination-in-chief. The witness has admitted that there was a mob of one thousand to one thousand five hundred people and that afterwards the mob slowly started increasing.

162.28 The witness has denied that when she was at the Pinjara’s house till the evening, no Hindu mob had come and till she was there in the evening, no damage or riots had taken place. She has denied that she had seen everything burning from the Pinjara’s terrace and that she had remained hiding on the terrace and till 11:30 she was on the terrace whereafter

the police came and took them.

162.29 The witness has partly admitted and partly denied that in her statement dated 12.5.2002 recorded by the police she had stated that on 27.2.2002 the people belonging to the Muslim community had burnt alive Kar Sevaks in a railway coach at Godhra, due to which, the Vishwa Hindu Parishad had given a call for Gujarat Bandh on 28.2.2002, due to which, she and her family members were at home. At that time, in the morning at around 9:00 to 9:30 outside their chawl on the Naroda road, there was a lot of commotion and she came out to the corner of the chawl to watch. At that time, huge mobs of Hindus with weapons like sticks, swords, pipes were there on the road towards Naroda Patiya and Saijpur Tower and were shouting "cut and kill the Miyas", due to which, she immediately went home and woke up her husband who was sleeping, and told him about the above situation, whereupon her husband immediately came out to the entrance of the chawl and she had remained home with her children. After a little while, when her husband coming home, he was bleeding from the head and upon her inquiring about it, he told her that he was injured by a stone and that it appeared that the riots would increase and therefore, she should take the children and go to the Pinjara's building and hide and that he would shut the house and come, whereupon she took her children and together with her brother and sister, went to the terrace of Ramzani Pinjara's house and hid there and her husband had also come to the terrace of the Pinjara's house and in the evening, a mob belonging to the Hindu community entered their chawls and set houses on fire, which she saw from the terrace of the house and she and her family members, out of

fear, remained hiding on the terrace. At 11:30 at night, the police announced on the mike that those who are Muslims and ... and had brought them to the relief camp..... The witness has voluntarily stated that the events had taken place as stated by her in her examination-in-chief.

162.30 In her cross-examination, it has come out that she knows Jadi Khala whose house was in the third lane of Hussainnagar. She has stated that she does not know any Hussainabanu. She has admitted that just like there is a way for going into her lane, there is a way for going into the lane inside Hussainnagar.

162.31 The witness has denied that she has not seen any incident and that the people of her community had tutored her and sent her for deposing before the court. She has denied that she had received compensation in connection with the loss suffered by her. The witness has voluntarily stated that she has received only one cheque and has not received the second cheque till date. The witness has denied that she has not received any threat from any accused and has voluntarily stated that she has made an application in that regard. In the year 2002, she had given an application to the SIT and one application to the Naroda Police Station.

162.32 The witness has denied that from the place where she was standing in the morning, she had seen the police firing at the standing mob. The witness has voluntarily stated that the police was firing at the Muslims. On that day, she has not seen the police near the Noorani Masjid. She has stated that the mobs were spread near the Noorani Masjid, S.T. Workshop

and Krushnanagar, due to which, she does not know where the police were. She has admitted that she does not know from where the firing was done. The witness has denied that in her statement dated 12.5.2002, she has stated that the persons who were rioting belong to the Chhara community and Sindhi community and that she does not know their names. The witness has stated that she has given the names and description as stated by her in her examination-in-chief.

162.33 The Investigating Officer as well as the assignee officer of the then Investigating Officer, have been cross examined by the defence to prove the omissions and contradictions in the testimony of the witness as to the statements recorded by them.

162.34 PW-292 R. C. Pathak, the assignee officer has, in his cross-examination, admitted that he has recorded the statement of this witness on 12.5.2002. The assignee officer has admitted that this witness in the statement recorded by him had stated that on 27.2.2002, the people belonging to the Muslim community had burnt the kar sevaks in a railway coach at Godhra due to which, on 28.2.2002, the Vishwa Hindu Parishad had given a call for Gujarat Bandh due to which, she and her family members were present at home. At that time, at around 9:00 to 9:30 in the morning, there was a commotion on the Naroda road outside their chawls and hence, she went out to the corner of the chawl to see. At that time, there were huge mobs belonging to the Hindu community on the road at Naroda Patiya and towards Saijpur tower and they had weapons like swords, pipes, sticks etc. in their hands and they were shouting "kill, hack the Miyas" due to which, she

immediately went home and she woke up her husband who was sleeping and told him about the above situation, whereupon her husband came out and went to the corner to look and she along with her children remained at home and after sometime, when her husband returning home, his head was bleeding and upon her inquiring about it, he told her that he was injured on the head with a stone and that it appears that the disturbances are going to increase. Hence, she should take the children and go and hide in the Pinjara's building and that he would lock the house and come there. Upon his saying so, she took her children and together with her brother and sister, went to the terrace of Ramzani Pinjara's house and hid there and her husband had also come to the terrace of Ramzani Pinjara's house and in the evening, the mob belonging to Hindu community entered their chawl and had resorted to arson which she had seen from the terrace of the house and she and her family members out of fear, remained hiding on the terrace. At around 11:30 at night, the policemen declared on mikes that the Muslim people and brought them to the relief camp.... Insofar as the aforesaid part of the testimony of the assignee officer is concerned, the same is inadmissible in evidence as the witness was not confronted with her police statement to bring out any omission or contradiction in her testimony as contemplated in section 162 of the Code read with section 145 of the Evidence Act. In the cross-examination of the assignee officer it has also been brought out that the witness in her above statement had stated that the people who were involved in the riots belonged to the Chhara and Sindhi communities whose names she does not know. The assignee officer has admitted that this witness has not stated any facts in connection with the names of the

accused and has also not given any physical description of the accused.

162.35 PW 327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross examination, admitted that he has recorded the statement of this witness on 23.5.2008. He has admitted that this witness had stated before him that she does not know the names of the two women who were with them and that she cannot even identify them if she sees them.

162.36 SUBMISSIONS: The learned counsel for the appellants invited the attention of the court to the deposition of the witness to submit that a contradiction has been brought out to the effect that the witness has not named or described any of the accused in her statement dated 12.5.2002, which contradiction has duly been proved through the testimony of PW-292. It was submitted that accused Ramila and Geeta have not been named either in the examination-in-chief or before the SIT and that neither their names nor their roles, as alleged have been stated by the witness in either of the statements as far as the female accused are concerned. It was submitted that reference to the female accused is made for the first time before the court without naming them and, therefore, their identification in the court is of no consequence, more particularly when no test identification parade has been carried out. It was submitted that insofar as accused No.26 and accused No.4 are concerned, their names were not given in the police statement and for the first time, their names appear in the statement recorded by the SIT. It was submitted that insofar as accused No.4 Ganpat is concerned, no role is attributed, whereas insofar as accused No.26 Sahejad is

concerned, the role attributed to him is not believable on the face of it, for the reason that after knocking on the door and having found that there were people inside, nothing has happened. It was submitted that if the accused had come there with a wrong intention, they would have not spared the people who were inside the house. Referring to the cross-examination of the witness, it was submitted that this witness could not have seen the accused or what they were doing. It was urged that the evidence of this witness does not inspire confidence and that she is not a credible witness and hence, her testimony cannot be taken into consideration for the purpose of proving the charge against the accused.

162.37 ANALYSIS: From the testimony of this witness, it emerges that she is a resident of Hussainnagar. On the day of the incident there was commotion in their chawl at 9:00 to 9:30. Upon hearing people saying that the mobs have come, she went on the road, and saw mobs armed with weapons coming from Krushnanagar and Natraj. The mob vandalised and attacked the Noorani Masjid and there was stone pelting near the masjid. At ten o'clock, the mob attacked their chawl. At that time there was firing and tear gas shells were lobbed and there was intense stone pelting. Amongst those who were injured by bullets were Mahammad, Pirubhai, Salim, Khalid, Goswali Khala's son-in-law. In the stone pelting her husband was wounded on his head and leg. Thereafter, she and her husband left the place, took their children and went to the Pinjara's house opposite their house, where her brothers and sisters also came. It was 12:00 in the afternoon. At about 2:30 in the afternoon, the mob had entered their chawl. From the upper level of the Pinjara's house she had seen Sahejad

Chhara (A-26), Ganpat Chhara (A-4) and two Chhara women committing loot. Sahejad set Jayeda Apa's house on fire.

162.38 When the police came to take them, on the way she had seen two corpses, one of which was a handicapped boy Modin's corpse. She has identified Sahejad and Ganpat and has also identified Ramila by name and has identified Geeta as the other Chhara woman. Insofar as naming and identifying the above accused is concerned, the witness was confronted with her statement dated 12.5.2002, wherein she had stated that the persons indulging in rioting belonged to the Chhara and Sindhi communities, whose names she did not know. This omission in her previous statement recorded by the police has been proved through the testimony of the PW-292 Shri R.C. Pathak.

162.39 From the cross-examination of PW-327, the Investigating Officer (SIT), it has been proved that the witness had stated before him that she does not know the names of the two women who were with the two named accused and that she cannot even identify them if she sees them. Therefore, insofar as the naming and identification of the above referred four accused persons is concerned, the same is in the nature of improvement. Sahejad Chhara (A-26) and Ganpat Chhara (A-4) were not named by the witness in her statement dated 12.5.2002 and have been named by her for the first time after a period of more than six years before the SIT. Insofar as Ramila (A-61) and Geeta (A-56) are concerned, even before the Investigating Officer (SIT), the witness had not named them and had in fact stated that she would not be in a position to identify them even if she saw them.

162.40 Insofar as the contention raised by the learned counsel for the appellants that if the accused had had come there with a wrong intention, they would have not spared the persons who were inside the house, is concerned, it may be noted that Ramjani Pinjara's house, where the witness had taken refuge is a brick house with a concrete slab. The outer door is made of iron. Therefore, it would be very difficult for the accused to set the house on fire. As aptly stated by the witness in her cross-examination, the reason why the people in the mob did not throw inflammable substance inside Ramjani Pinjara's house and set it ablaze, is because if they did so, such substance would have fallen upon them.

162.41 In the above backdrop, it would be very hazardous to consider the testimony of this witness to establish the charge against the above named accused. However, insofar as the remaining part of the testimony of the witness, except to the extent she has named the accused and ascribed roles to them is concerned, such part of her testimony has not been challenged in her cross-examination and can be considered for the purpose of ascertaining the sequence of events and the time of the incidents that took place on that day. Insofar as the unchallenged part of her testimony is concerned, the witness is credible and trustworthy and there is no reason to discard her entire testimony.

163. **PW-179 Naseembanu Abdulraheman Shaikh**, aged 40 years, has been examined at Exhibit-1240. This witness has deposed that she is residing at Citizennagar since the last eight years with her son Haiderali and that she is doing

embroidery work.

163.1 Her husband Abdulraheman has passed away and she has remarried. She has a daughter Rubina whom she had given to her sister by way of adoption and she resides with her sister at Godhra since her childhood.

163.2 In the year 2002, she was residing at *Lane No.8, Hussainnagar, Naroda Patiya*. At the relevant time, her second husband and Haiderali, her son from her first marriage, three of them were residing together.

163.3 The incident took place on 28.2.2002. At that time, there was a call for Gujarat bandh. In the morning of the incident, she was at home. At that time, the elders and the children in their chawl were shouting that huge mobs are standing outside, and hence, she went out to see. She went out to the entrance of the chawl near the S.T. Workshop and at that time, she had seen mobs of Hindus coming from Krushnanagar and Natraj. Thereafter, she went home and told her husband about it and both of them went outside.

163.4 The mobs had come inside the Noorani Masjid. The people in the mob were damaging the carts and stalls. They were entering inside the masjid and bursting gas cylinders. Thereafter, she went home to see her son Haider. She could not find her son at home, and hence, she came back to highway. In the meanwhile, the mob started coming from the highway to the interior side of the chawls.

163.5 They were standing there when the police released

tear gas and resorted to firing. In the firing, Khalid was injured by a bullet on his waist and Majidbhai also sustained a bullet injury on his leg. The people from their chawl took both of them towards the chawl.

163.6 She was looking for her son; however, as she could not find him, she and her husband had gone near the small gate of the S.R.P. Quarters to go inside. However, they were not permitted to go inside and were told "*Today, there are no orders for you to come inside.*"

163.7 Since they were not allowed to enter the S.R.P. Quarters, she returned home, where, upon looking towards the open ground, she had seen a mob coming that from the road of Uday Gas Agency. She did not know the mob. The people in the mob had tied saffron bands on their heads. This mob was shouting, "*Kill, cut, burn*". Upon the mob coming near them, they started running. While running, she was also searching for her son, however, he could not be found and they went on a terrace of Jawannagar. There were people from their chawl on the terrace. Upon looking from the terrace, the mobs were coming from the open ground. In the mob which was coming from the open ground, she saw that **Bipin Panchal** (A-44) was also there. The people in the mob had dharias and swords in their hands. Bipin Panchal was instigating the mob and was showing the people in the mob the places where the persons of Muslim were.

163.8 At this time, they were on the first terrace of Jawannagar. When they went to the terrace of Jawannagar, at that time, it must have been around 4 to 5 o'clock. Upon

seeing the mob, they were hiding below on the terrace, however, the people in the mob were moving around. On that day, a woman called Madinaben who is also from their area was also on the terrace and she had said *“This Bipin Panchal stays and eats and drinks with us, look at how he is behaving with us today. He is calling the people in the mob and showing them the places where the Muslims are hiding and instigating the mobs”*. She herself was watching Bipin Panchal doing this.

163.9 At this time, she had seen that from the interior side of the S.T. Workshop, burning tyres, rags, etc. were being thrown on their chawls. They sat on the terrace till around 5 o'clock though at that time they had not seen the time, but approximately it must have been around that time.

163.10 They felt that there was no chance of surviving on the terraces and hence, they got down from the terrace and went here and there to save themselves. The mob was shouting, “kill, cut”. They went from one lane to the other to save themselves. However, upon the mob coming closer and closer, they went on a terrace of Gangotri Society where there were other Muslims also.

163.11 While she was on the terrace of Gangotri, she felt very thirsty. The mob was coming nearer and nearer. To get water, she got down from the terrace and was going, when other Muslims on the terrace told her not to go and that if the mobs see her, they would come there; hence, she went and sat on the terrace.

163.12 While she was on the terrace, she could hear the

voice of a woman and she was saying that "*I am Zarina, please come and look at me, someone please get me water, I am in great difficulty.*" Upon hearing this, she got down half way on the staircase from the terrace and she saw that one hand of this Zarina was cut and on seeing this, she was terrified and she went back to the terrace. They sat on the terrace till late and she was very thirsty, and hence, she went down to search for water. There were cans lying there and under the impression that there must be water in the cans, she took some fluid from the can and it appeared to be kerosene. Thereafter, she went back to the terrace.

163.13 They were sitting on the terrace till late at night, whereafter, they heard voices of Muslims of their chawl and the police saying that they had come to take them to a safe place. They had heard the voices of their Muslim elders.

163.14 When they got down from the terrace, on all four sides, there was brightness of the flames. In the brightness of the flames, she saw that there were dead bodies on the road and everything was burning. Looking at all this they reached to the highway where the police vehicle was, and others were sitting in it and hence, they also sat in the vehicle.

163.15 While their police vehicle was going, there was a mob near Natraj and those people were making a lot of noise from far and shouting "kill" "cut" and were advancing forward. They stopped their vehicle and said "*So many Muslims should not escape, how have they escaped?*" However, the vehicle was driven away with immense speed and they were safe. They were taken to the Shah Alam relief camp.

163.16 In the incident, her husband and her son Haider, all three of them got separated. She could not find her son Haider for fifteen days and was very worried about him. She searched all the camps and after fifteen days, she found her son from the Dariyakhan Ghummat Camp. Her husband had also come to the Shah Alam camp after two to three days, where she met him.

163.17 When she met her husband, he was injured on the leg and there were stone injuries on his ribs and waist. Her husband got treatment at the camp as well as in a private hospital.

163.18 When the police recorded her statement at the camp, she had stated the facts regarding the incident. Thereafter, the police had taken her to draw a panchnama of her house. A panchnama of her house was drawn. After staying at the camp for six months, they went to stay at Citizennagar.

163.19 Thereafter, everyone was going to the SIT at Gandhinagar for recording their statements, and hence, she had also gone there and got her statement recorded.

163.20 In the incident, her house was vandalized and set on fire.

163.21 She can identify Bipinbhai Panchal whom she had seen in the mob on the date of the incident. The witness, however, has identified accused No.17 Nandlal as Bipinbhai Panchal. Thus, the witness could not identify the sole accused

named by her correctly.

163.22 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that in the year 2002, she was engaged in casual labour work. The witness is cross-examined with regard to the topography of the area. The witness is cross-examined as to her statement dated 12.5.2002 recorded by the police to the effect that she has stated therein that out of fear, she and her husband left their house and fled towards the gate of S.R.P. camp and the S.R.P. people standing at the gate, did not permit them to go inside. Therefore, they had gone on the terrace of one of the Hindu Societies situated nearby at around 7 o'clock and had hidden there. Thereafter, at around 12:15, a police vehicle came and a person named Abdulla from their chawl shouted that whoever is there on the terrace should come down as the police have come to help them, and they and around one hundred other Muslims were taken in the police vehicle. The witness has admitted that in this statement she has stated that when around two thousand to three thousand people belonging to the Hindu and Chhara communities set their chawl on fire and damaged it and burnt Muslim people alive, at that time, in the mob of two thousand to three thousand people, a person named Bipinkumar came running and was saying "*Loot the houses of the Muslims and burn them alive!*". The witness has partly admitted and partly denied that she has stated that this Bipinkumar works in an office which is constructed next to Uday Gas Agency outside their chawl and she knows him very well. The witness has voluntarily stated that she had stated that Bipinkumar used to visit the complex next to Uday Gas Agency, and hence, she knew him very well. The witness has stated that she does not

know the name of the complex which Bipinkumar used to visit and does not know whether the complex has two floors or three floors.

163.23 The witness has admitted that her statement was recorded at the SIT office at Gandhinagar in the year 2008. She came to know that her statement was to be recorded by the SIT upon receipt of a summons. The witness has stated that she does not know whether her neighbours at the Citizennagar were also served with summonses. She has stated that she had gone to Gandhinagar for recording her statement alone. The witness has stated that at the time of the incident, she was residing in Lane No.8 of Hussainnagar and her house was the second house in the lane.

163.24 The contents of paragraph 10 of her examination-in-chief are read over to the witness wherein she has stated that she had seen Bipinbhai in the mob coming from the direction of the open ground and that he was instigating the people in the mob and was showing the people in the mob the places where the Muslims were residing. The witness has denied that she has not stated so in her statement recorded by the police in the year 2002. The witness has voluntarily stated that she had stated before the police but she does not know whether the police have written it down or not.

163.25 The contents of paragraph 11 of her examination-in-chief are read over to the witness to the effect that she has not stated these facts in the statement recorded by the police in the year 2002, which she has denied. The witness has admitted that she has not paid even a rupee towards the

house at Citizennagar. She has denied that at the instance of leaders of their community as well as the leaders at the camp, at the relevant time, she had named Bipin Panchal. She has denied that she had given the name of Bipin Panchal at the instance of Madinaben. She has denied that she has not seen Bipin Panchal on the day of the incident and that she is falsely deposing before the court. It appears that the panchnama of the house of the witness was drawn on 26.6.2002. The witness is sought to be cross-examined with regard to the contents of the statement dated 26.6.2002. The witness is also cross-examined with regard to the topography of the area.

163.26 The witness has admitted that out of the people whom she had seen in the mob during the entire day, she knew only Bipinbhai and the other people were unknown to her and she had no occasion to meet them prior to the incident and till today, she has had no any occasion to see them. In her cross-examination, it has further come out that in the year 2002, she was residing in the Naroda Patiya area since the last seven to eight years. The witness has denied that she has not seen any incident and that she is falsely deposing before the court.

163.27 To prove the omissions and contradictions as to her previous statements, the defence has cross-examined the concerned Investigating Officer/assignee officer who recorded such statement.

163.28 PW-293 Shri B.T. Karoliya, the assignee officer has, in his cross-examination, admitted that he has recorded the statements of this witness on 12.5.2002 and 26.6.2002. The

assignee officer has admitted that this witness had stated before him that on 27.2.2002 when the incident took place at the Godhra Railway Station, she had gone for her job and had returned home in the evening. At that time, suddenly there was commotion and a mob of Hindus came from the direction of Chharanagar to the corner of their chawl and started pelting stones at their chawl, due to which, she immediately came near the gate of their chawl. Thereafter, out of fear, she and her husband left their house and ran near the gate of the S.R.P. camp. At that time, the S.R.P. people standing near the S.R.P. gate did not let them enter inside, and hence, they went to the terrace of a bungalow of the Hindu Society situated nearby and climbed there at around 7 o'clock and remained hiding there. The assignee officer has further stated that the contents of the above three paragraphs have not been stated by the witness in her statement dated 12.5.2002.

163.29 The assignee officer has admitted that this witness has not given the name of Bipin Panchal in both her statements but has given the name Bipin kumar.

163.30 The assignee officer has admitted that in her statement dated 26.6.2002, the witness had stated that the above articles were looted by the Hindu mob and that no person in her family had suffered any loss of life and that she could not recognise the people in the mob and does not know their addresses.

163.31 SUBMISSIONS: The learned counsel for the appellants submitted that this witness has named only one accused, namely, Bipin Panchal, but has failed to identify him

before the court. It was further contended that the witness, in her police statement, had given the name of one Bipinkumar and not Bipin Panchal. It was submitted that this witness in her statement before the police had described Bipin as serving in an office in the building near Uday Gas Agency, whereas Bipin Panchal had a garage near Dhanurdhari Mata's temple. The name Bipinkumar does not establish the identity of Bipinkumar as Bipin Panchal of Bipin Auto. It was submitted that when she refers to a complex near Uday Gas Agency, it is completely vague and unidentified and there is nothing on record to show that Bipin Panchal had any occasion to visit any such complex for any work. It was submitted that, therefore, if she had referred to the name of Bipinkumar in her first available police statement dated 12.5.2002, the same does not establish beyond reasonable doubt, the identity of accused No.44 Bipinbhai Panchal.

163.32 Reference was made to the contents of paragraph 12 of her examination-in-chief, to submit that the witness has stated that she has seen burning tyres being thrown out of the S.T. Workshop which is practically impossible and, therefore, the witness has exaggerated the incident. Referring to the contents of paragraph 15 of her examination-in-chief where the witness has referred to Zarina having come near the terrace and asked for water, it was submitted that Zarina has not stated any such fact in her deposition. Referring to the contents of paragraph 18 of her examination-in-chief, it was submitted that in the evidence of many witnesses it has come out that they were taken in a police van to a safer place and they had found things and dead bodies lying at various places. Therefore, though till late at night the fire was not

extinguished, there is no evidence that the fire brigade was called nor was there any attempt to douse the fire. It was submitted that this witness has failed to identify the sole accused and that even otherwise, the identity of the accused is doubtful. Therefore, the evidence of this witness does not in any manner aid the case of the prosecution.

163.33 ANALYSIS: From the testimony of this witness it emerges that she, together with her husband, had come on the road and had seen that the mobs had entered the Noorani Masjid. The mobs were damaging the carts and stalls. The mobs came towards the chawls and while they were standing there, the police lobbed tear gas shells and resorted to firing wherein Khalid and Majidbhai were injured. Both of them were taken inside the chawls. They tried to enter the S.R.P. Quarters but were not allowed to go inside, whereupon she returned home and saw mobs coming to the open ground from the side of Uday Gas Agency. Upon the mobs coming near, they fled and took shelter on a terrace in Jawannagar. From the terrace she saw the mob coming in the open ground and that the people in the mob were armed with weapons. She had also seen tyres, burning rags, etc., being thrown from the S.T. Workshop. They had stayed on the terrace till around 5 o'clock. Seeing that on the terrace they had no chance of escaping, they came down and went into the lanes to protect themselves and upon the mob reaching near them; they had climbed on a terrace in Gangotri Society. Late at night the police came and took them to the camp. When they came down from the terrace, there was brightness everywhere on account of the fire, and in the brightness of the fire, they had seen corpses lying on the road, and everything was burning.

163.34 In the cross-examination of the witness, omissions and contradictions have been brought out only in respect of the contents paragraph 11, and the contents of paragraph 10 to the extent she has referred to the presence of Bipinbhai Panchal. The rest of her testimony has gone unchallenged. Several portions of her police statement and her statement recorded by the SIT have been brought on the record in the cross-examination of the witness, which is not admissible in evidence, inasmuch as, majority of the portion of the statements have been put to the witness without seeking to contradict any part of her testimony. The only admissible part is contained in paragraph 34 of her deposition, wherein it has been brought out that the witness has referred to a huge mob setting their chawls on fire wherein a man named Bipinkumar was coming running and was saying loot the houses of Muslims and burn them alive. Thus, in her cross examination, it has been brought out that the witness had named one Bipinkumar and not Bipinbhai Panchal in her statement before the police and no test identification parade had been carried out to ascertain the identity of the accused. Besides, the witness has failed to identify Bipin Panchal (A-44) in the dock. Therefore, her testimony would not help the prosecution to prove the charge against accused No.44.

163.35 Some parts of the testimony of the witness, like where she has referred to the voice of a woman named Zarina asking for water, apparently are in the nature of an exaggeration and could be the result of tutoring. However, that by itself is no reason to discard her testimony and to the extent her testimony is credible, it can be used to ascertain the

manner in which the incidents took place.

164. **PW-180 Aslambhai Samsherbhai Shaikh**, aged 42 years, has been examined at Exhibit-1251. This witness has deposed that after the incident, he is residing at Ektanagar, Vatva. His native place is Miradatar, District Mahesana. At the time of the incident, he was residing at *Hussainnagar, Lane No.3 or 4*, in a rented house belonging to Abdulbhai Mansuri.

164.1 At that time, he was residing with his wife Madina and his son Salman and Shahrukh and was working as a spray painter.

164.2 The incident took place on 28.2.2002. On that day, there was a call for Gujarat Bandh. On that day, in the morning at around 9:00 to 9:15, he had come out of his house on the road. He saw that there were mobs on both sides. One mob was from the direction of Krushnanagar and the other was towards Natraj. All the people in the mob had weapons like knives, swords, sticks, dharias, etc. The mob was shouting “kill, kill” and was advancing forward. The mob started coming forward and pelting stones at the people from their mohalla. He recognized one of the persons in the mob who was pelting stones.

164.3 He stood on the road for a little while; however, since the mob was advancing forward, he went towards the interior side of his house. When he went home, his wife and his children were at home, but a chain had been latched on the door outside his house. Thereafter, he went to the house of a Chachi nearby. At that time, on the road behind Chachi’s

house, he met his friend Kurban, who told him that his son Shahrukh was at his house and he was crying there. The witness has stated that he came out of Chachi's house and went on the road on the rear side when he had met Kurban.

164.4 Thereafter, he went to Kurban's house and took his son Shahrukh and came out of the lane of Kurban's house. Thereafter, he entered the next lane, where four or five persons were standing. These four or five persons told him to go to the terrace and also told him that other persons were also hiding there. Hence, he took Shahrukh and went to the terrace. On the terrace, he found his wife and son Salman. They stayed on the terrace till 1:30 at night, whereafter upon the vehicles having arrived, they had gone to the Shah Alam camp with persons dressed in police uniforms.

164.5 After two days, he came to know that his house had been looted. The police had recorded his statement with regard to the incident at the camp. The witness has deposed that the person whom he had recognized in the mob was Suresh, who is also known as Suresh Langdo and that he can recognize him even today. The witness has identified accused-22 Suresh correctly.

164.6 CROSS EXAMINATION: The witness has been cross-examined as regards whether a card was given to him at the relief camp and the details thereof. The witness has deposed that he has stayed at the camp for around six months and that a card was issued to him at the camp. Various other questions have been put to him with regard to the issuance of the card and whether the managers used to to make

announcements on the mike, etc. The witness has admitted that amongst the managers, there were advocates also and that if anyone in the camp wanted to lodge a complaint, the advocates were doing the needful in that regard. The witness has stated that at the camp, he had given a complaint with regard to his son having sustained an injury with glass. The witness has admitted that in the complaint, he has not stated that he had identified anyone whom he had seen in the mob on the day of the incident. The witness has admitted that when the Hindu mob was pelting stones at them, the residents of their chawls had resorted to cross pelting against them. The witness has admitted that there were many people in their chawl and on the road that it was not possible to recognise them. The witness has admitted that Suresh Langdo had quarrels with the people of their chawl on two to three occasions and has voluntarily stated that he did not know him prior thereto, and because of this incident he has come to know about him.

164.7 SUBMISSIONS: The learned counsel for the appellants, referred to the contents of paragraph 17 of the deposition of this witness wherein he has admitted that there were so many people in the chawl and on the roads that it was not possible to recognise anyone, to submit that in view of the admission, the identification of Suresh would become doubtful. It was submitted that even if the presence of accused No.22 Suresh, as stated by the witness is taken at face value, he is stated to have been present there in the morning mob without any specific overt act being attributed to him. It was submitted that considering what is stated by the witness in paragraph 12 of his deposition, it is apparent that when his statement was

recorded, three persons from amongst the administrators of the camp were present and that the presence and help of the lawyers is also admitted. It was submitted that the fact that this witness does not say anything about the Noorani Masjid and the shops nearby being attacked, creates a doubt about his presence.

164.8 ANALYSIS: From the testimony of this witness, it emerges that he has seen accused No.22 Suresh Chhara in the mob which was pelting stones on the road. In the cross-examination of the witness, the acquaintance with the accused has been brought out, whereby he has stated that earlier he did not know the accused; however, on account of the disputes that he had in the chawl, he had come to know him. In his cross-examination, an omission has been brought out to the effect that in his statement dated 28.2.2002, he had not stated that all the people in the mob had arms like knives, swords, sticks, dharias, etc. and the mob was shouting "kill, kill" and was advancing forward. The omission which is brought out in the cross-examination of the witness is only to the aforesaid limited extent, namely, that he had not stated that the mob was armed and was shouting "kill, kill". However, insofar as the witness having seen accused No.22 Suresh in the mob which was pelting stones on the road is concerned, no omission or contradiction has been brought out in his cross-examination. Therefore, insofar as the version given by the witness in his deposition to the effect that there were mobs coming from both the sides, namely, from Krushnanagar and Natraj, which were advancing forward and were pelting stones at the people of their mohalla, wherein in the mob which was pelting stones, he had seen Suresh Chhara is concerned, the

witness is consistent, both in the version given before the police at the relevant time as well as in his deposition before the court. Though the witness has been cross-examined to a certain extent, nothing has been brought out to impeach the credibility of the witness. Hence, testimony of this witness to the extent that he has named accused No.22 Suresh and has deposed that he was pelting stones together with others in the mob on the road, deserves to be accepted.

165. **PW-181 Apsarabegam Kabirali Shaikh**, aged 47 years, has been examined at Exhibit-1252. This witness has deposed that after the riots, she was residing at *Faizalpark*. At the time of the riots, she was living in *Lane No.3, Hussainnagar*. The house in which she was residing was of her ownership which she has now given on rent.

165.1 She does tailoring work at home while her husband plies a rickshaw on hire. At the time of the incident, she was staying with her family comprised of her husband, two sons and four daughters. Her eldest daughter is Noorjahanbanu, then Shahjahanbanu, thereafter son Mahammadali, then daughter Farzana and the youngest son Shahrukh.

165.2 She does not remember the month. However, the incident took place on 28th day in the year 2002 and on that day, there was a call for Gujarat Bandh and she and her family were at home.

165.3 On the day of the incident, she had gone to the factory where she was serving at 9:00 to 9:15 in the morning. The factory in which she was serving belonged to Dilipbhai

Sindhi, and was situated next to Santosh Dairy at Naroda Patiya.

165.4 Upon going to the factory and commencing work, since there were disturbances on the road, her employer Dilipbhai went on the road to see what was happening while she, Kalubhai and Ganesh Marathi were at the factory. Her employer locked the door of the factory with all three of them inside and then went.

165.5 Thereafter, her employer came in and took Kalubhai and Ganesh Marathi who were working with her, outside and left her inside the factory. They had locked the door of the factory and gone.

165.6 Thereafter, at around 1:30 in the afternoon, their employer Dilipbhai came back and said that there were severe riots outside and things were being set on fire. She could also hear the sounds in the factory. Their employer came at around 4 o'clock in the evening and till then, she was at the factory.

165.7 At 4 o'clock in the evening, her employer took her and Kalubhai Shaikh, who was working with her, on his scooter and dropped them near the S.T. Workshop. When they got down on the road, there were police vehicles. Both she and Kalubhai were going towards their lane. At that time, she saw two dead bodies lying there. She saw that her own house was burning and their rickshaw was also burning. Since there was a lot of public, they stood near the compound wall of the S.T. Workshop. She saw the people in the mob looting and burning houses.

165.8 **Suresh Chhara** (A-22) was also in the mob and he had something like a stick in his hand. He was shouting “loot the houses of the Miyas” and was calling the people of his community. She was standing behind him and Suresh had not seen her.

165.9 Out of the two dead bodies which were burning, she could see the face of one of them, which was of Mullaji’s son who used to live next door. This boy was handicapped. She had seen the dead body of the handicapped boy burning and at that time, she was with Kalubhai. She and Kalubhai thereafter went from there towards the S.R.P. Quarters. At the S.R.P. Quarters, she told the policemen that she wanted to meet Hussainbhai inside and they said that since there were riots on that day she could not meet anyone. They threatened to beat her with the stick and drove her outside. Thereafter, she and Kalubhai went towards the Ice Factory where there were many people. There were riots, voices were coming and people were running hither thither. They met a person with a big moustache wearing a red striped jersey. She does not know his name. She asked this person as to whether her children are inside and he told that he had shut her children inside a shutter.

165.10 The people in the mob were running and sounds were coming. She could hear sounds of them burning people outside. However, she had not seen anything. In the mob, she had seen Guddu Chhara, Bhavanisingh and Suresh, who were looting.

165.11 In the melee, she and Kalubhai got separated. Thereafter, she went towards her factory. When she reached her factory, there was slight daylight and it was not yet dark. At the factory, the upper part was open from which she entered the factory and made a phone call to her employer and told him that she was looking for her children, but could not find them and hence, she had come back to the factory and asked him where she could go, whereupon, her employer told her to stay there. Therefore, she had stayed in the factory at night.

165.12 On the next day, at around 10 o'clock in the morning, her employer came to the factory. He gave her Rs.400/- and told her to go from there. She came out from the factory, took a rickshaw and went to Shahibaug because her paternal aunt Dolatbibi was living there.

165.13 She went to her paternal aunt's house and after she had freshened herself, they went to the camp next to her house, where they were writing down the details of children who were lost. Therefore, she also had stated that she could not find her family members.

165.14 At the camp, she met the daughter of one Ehsan Jafri. Her parents were also lost. Thereafter, upon a police vehicle coming, she and Ehsan Jafri's daughter went to different camps in search of their family members, however, they could not find their family members.

165.15 On the next day, she found her husband and three children at the Shah Alam camp. Her three children whom she

found were Farzana, Saira and Mahammadali. Her husband had sustained injury on account of bursting of tear gas and he could not get up. Her son Mahammadali had sustained a fracture on his hand and both of them were given treatment at the Shah Alam camp.

165.16 Her husband had informed her that as he was injured with tear gas, he could not get up and the children had got separated. She came to know that at Shah Alam camp, they were making announcements on the mike and she learnt that there were children at the Civil Hospital also and she inquired as to whether it was possible to go to the Civil Hospital and she was informed that since it was almost night time, she could not go there. However, she could go there in the morning.

165.17 On the next day in the morning, she, her husband and her brother Jainul Abedin went to the Civil Hospital, where she found that her daughter Shahjahan and her son Shahrukh, but her elder daughter Noorjahan could not be found. Her daughter Shahjahan was burnt all over the body and her son Shahrukh had sustained burns on his legs.

165.18 Her daughter Shahjahan informed her that her elder daughter Noorjahan had died in the incident. When her son Shahrukh was being burnt, she had caught hold of his shirt and tried to douse the flames, the mob also set her on fire. She informed her that the people in the mob had thrown kerosene on people and burnt them. Shahrukh also told her that at that time, her (witness's) sister-in-law, viz., her maternal aunt and her sister-in-law's two children were also there and all three of

them had died in the incident. Her sister-in-law's name was Saleha and her children's names were Muskan and Subhan.

165.19 Her children Shahjahan and Shahrukh had stayed at the Civil Hospital for two months for treatment. There was no trace of her daughter Noorjahan; however, she had been buried. The witness has stated that she says this because she was taken to identify Noorjahan's dead body; however, all the dead bodies were burnt to such an extent that it was not possible to recognize them. However, the dead bodies had been buried. She had received a burial receipt in respect of her daughter.

165.20 In the incident, she had sustained loss of around rupees two to two and a half lakh on account of the damage caused to her house. Her statement was recorded by the police. She stayed at the relief camp for two months. While they were at the relief camp, the police had come and recorded her statement. However, at present, she does not remember as to what she had stated before the police.

165.21 Thereafter, based of the information received by her, she had made an application to the SIT through someone and the SIT had called her. She had stated all the facts about the incident to the SIT.

165.22 She had learnt that Guddu Chhara and Bhavanisingh are dead and has stated that she would try to identify Suresh. The witness has thereafter correctly identified Suresh (A-22).

165.23 The witness is shown the application made by her to the SIT and she had identified her signature thereon and admitted the contents thereof. The application is exhibited at Exhibit-1253.

165.24 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that she was working with Dilipbhai five years prior to the incident. She has admitted that Dilipbhai's factory was situated on the road from Naroda Patiya to Kubernagar. The witness has admitted that on that day in the morning when she set out to go for her job at 9:00 to 9:15, at that time, no crowd of any kind had gathered on the road. The witness is not aware as to whether the traffic was normal on that day. The witness has voluntarily stated that one or two vehicles were passing by. She has admitted that on the day of the incident, after going to the factory, she had not come out till 4 o'clock in the evening. She has admitted that prior to her employer coming and informing her that there were riots outside; no one else had told her about it.

165.25 The witness has stated that by the time her employer Dilipbhai came to drop her and Kalubhai on his scooter, by then, the crowds had gathered near Naroda Patiya and S.T. Workshop corner. The witness has denied that when she, Dilipbhai and Kalubhai were coming on the scooter, the people in the mob had not stopped them. The witness has said that the true facts are that from Kubernagar from where they were coming, at that time there were no mobs there; however, there was a mob near the masjid. The witness has stated that her house is situated in the sixth line after the S.T. Workshop and is the third house in that line. The witness has admitted

that from S.T. Workshop till their chawl, she and Kalubhai did not come across any Hindu mob. The witness has voluntarily stated that it was because the people in the mob had already gone into the lanes inside.

165.26 The witness has admitted that she and Kalubhai had reached till the S.T. Workshop compound wall, opposite their house and had immediately returned from there. The witness has stated that at that time, she had seen her house burning. The witness has stated that she does not know that when she and Kalubhai went there in this manner, whether any other residents of Hussainnagar were there. She has stated that she immediately returned from the front of her house.

165.27 The witness has admitted that she and Kalubhai had gone to the S.R.P. Quarters through the highway. The witness has denied that the mob had not stopped them from going on the highway and has voluntarily stated that they had stealthily gone there. She has stated that when they were not permitted to go inside the S.R.P. Quarters, they had immediately left. They had returned from the S.R.P. Quarters from the same route.

165.28 The witness has stated that she does not know as to at what time she had again reached Dilipbhai Sheth's factory, but there was still light at that time.

165.29 The witness has stated that at the relevant time, she had given the names of her missing family members. Her paternal aunt had taken her to give the names of her children and address at the camp. On that day, she had only given the

names of the missing persons from her family at the camp. The witness has admitted that at the camp, she had met Shri Ehsan Zafri's daughter. The policemen present there had told her to go with the lady to search for her family members. Her paternal uncle's son Mehboob had introduced her to Ehsan Zafri's daughter on that day.

165.30 The witness has admitted that on that day, she had gone with Ehsan Zafri's daughter in a police vehicle to search for her family members. At that time, she had not given the details of the incident to the policemen in the vehicle and had also not stated the details of the incident to Ehsan Zafri's daughter. The witness has admitted that she had gone with the police to Bapunagar, Juhapura, Saraspur, Vohra Na Roja Camp. The witness is not aware as to whether she had gone with Ehsan Zafri's daughter in the police vehicle for two – three hours.

165.31 The witness has stated that her younger brother Jainulabedin was also at the camp. When she went to the Civil Hospital with her husband and her brother, after she had met her daughter Shahjahan, she had met the doctor. She has admitted that she had not stated the facts regarding the incident to the doctor. She has admitted that for two months, she had not stated the facts regarding the incident to the doctor.

165.32 The witness has stated that she does not remember as to whether prior to 12.5.2002, she had stated the facts regarding the incident to the police or anyone else and has voluntarily stated that she was all the while crying and since

her daughter's physical difficulties were not being cured and were increasing, eventually she had to state these things.

165.33 The witness has denied that at the instance of the leaders of their community, she has deposed the facts as stated by her before the court.

165.34 The witness has admitted that she has stayed with her daughter Shahjahan and son Shahrukh at the Civil Hospital for two months and during this period, both her children were conscious.

165.35 The witness has admitted that when she reached their chawl, the people had left their chawl and had gone away. The witness has denied that at that time, she had seen a mob of two to three thousand people in their chawl. The witness was confronted with her statement dated 12.5.2002, wherein she is alleged to have stated that two to three thousand people belonging to the Chhara community had come in the form of a mob. In the opinion of this court, this part of the evidence of this witness is not admissible in evidence, inasmuch as, the witness is first put a question in cross-examination and is then sought to be contradicted in respect of the answer elicited by her previous statement.

165.36 Certain extracts of her statement dated 29.5.2008 recorded by the SIT are put to the witness in paragraph 56 of her deposition, wherein she has stated certain facts stated by her husband to her. However, this part of her statement has not been put to her to contradict any part of her evidence and therefore, is not admissible in evidence. The witness is

thereafter cross-examined with regard to the application, Exhibit-1253 made by her to the SIT.

165.37 The witness has admitted that she has no social or monetary relations with accused No.22 Suresh. She has admitted that she has identified Suresh for the first time before the court who has stated that since he used to visit their area, she knew him prior thereto. The witness has denied that as the organizers of the camp had given her in writing, she had falsely given Suresh's name in her statement and that she has deposed as taught by them. The witness has denied that on that day at the time when she was coming to the court, Suresh was shown to her and therefore, she could identify him.

165.38 To prove the contradictions and omissions as to her previous statements, the defence has cross-examined the concerned Investigating Officer/assignee officer who recorded her statement.

165.39 PW-293 Shri B.T. Karoliya, the assignee officer, in his cross-examination, has admitted that he has recorded the statement of this witness on 12.5.2002, wherein the witness had stated that about two to three thousand people belonging to the Chhara community had come to their chawl in the form of a mob.

165.40 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross examination, admitted that he has recorded the statement of this witness on 29.5.2008. He has admitted that this witness had stated before him that she had gone to meet the leaders of the community and had asked

them to arrange for a vehicle or make some other arrangement for going to the Civil Hospital.). That the witness had stated before him that her police protection was continued and that at present, she has not received any threat. She is illiterate, but can understand Gujarati. Therefore, the Investigating Officer had examined her in Hindi and had explained to her in Gujarati and written down her statement.

165.41 SUBMISSIONS: The learned counsel for the appellants have pointed out that this witness is the sister of Jainulabedin. It was submitted that this witness has stated that at about 9:00 to 9:15, when she had gone to her work place, no crowd had gathered on the road. She even says that while she was returning back with Dilipbhai and Kalubhai, she did not see any mob towards Krushnanagar. She has stated that even from the S.T. Workshop when she had gone to her chawl, to house No.3, Hussainnagar, she did not meet any mob and even as per her say, she was moving inside the chawl. She came out on the highway and went to the S.R.P. Quarters, but she had no occasion to meet anyone or see anything. It was submitted that the evidence of the witness creates a real doubt about her presence there and the story that she is telling.

165.42 Referring to the contents of paragraphs 10 and 11 of her examination-in-chief, it was submitted that in such a situation, she could not have seen anything as it was not safe to be there. It was submitted that if the evidence of the witness is seen together, the contents of paragraphs 10 and 11 are not believable that she could stand there at the S.T. Workshop wall and watch. Referring to the contents of

paragraph 12 of her examination-in-chief, wherein she has stated that she was standing behind Suresh Chhara, it was submitted that it was not possible for this witness to stand behind Suresh. Referring to paragraph 53 of her cross-examination, it was pointed out that the witness has stated that the people in the mob were in front of her, despite which, she could not identify anyone. It was submitted that she could not have reached the S.R.P. Quarters as there was a mob there. It was submitted that the submission of the witness that she went from Uday Gas Agency to S.R.P. and came back to the Ice Factory, is not probable. It was submitted that this witness is, therefore, not a credible witness and no part of her evidence can be used to establish the charge against the accused.

165.43 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness has deposed that she had seen accused No.22 Suresh Chhara in the mob at 4:00 p.m. At 4:00 p.m. looting was going on and at that time people were being burnt and there were incidents of arson. It was submitted that the evidence of this witness is relevant for the purpose of proving that in the evening also there were riots and in the mob she had spotted Suresh with a stick and she has identified him in the court. It was contended that so far as Suresh is concerned, she is a credible witness and nothing adverse has been elicited in her cross examination about her statement before the police, and therefore, she is a believable witness.

165.44 ANALYSIS: This witness was not present at the scene of offence throughout the day. She had gone to her

workplace and was dropped near the S.T. Workshop by her employer together with her colleague Kallubhai. As per the testimony of the witness they went towards their chawl and saw her house and rickshaw burning. As there was a lot of public, they remained near the S.T. Workshop. She saw the mobs rioting and looting and in the mob she saw accused No.22 Suresh Chhara with something like a stick in his hand. She claims to have seen two dead bodies, one of which was of their neighbour Mullaji's handicapped son. In the mob which she had seen, Guddu Chhara, Bhavanisingh and Suresh committing loot. In her cross-examination, it has come out that they had not met any mobs, for the reason that the mobs had advanced towards the inner lanes.

165.45 In the cross-examination of this witness, no omission or contradiction has been brought out as to her statement dated 12.5.2002. Therefore, the witness is consistent insofar as the version given by her regarding having seen Suresh in the mob which was committing loot around 4:00 p.m. in the afternoon.

165.46 This witness's daughter Shahjahan and her son Shahrukh have sustained serious burn injuries in the incident and her daughter Noorjahan was killed in the incident near the water tank. Her sister-in-law Saleha and her daughter Muskan and son Subhan have also died in the incident. This witness has not seen those incidents and her testimony is relevant only to the extent she has testified against accused No.22 Suresh Chhara. The witness comes across as a credible witness and her testimony can be relied upon for proving the charge against accused No.22 Suresh Chhara to the extent stated by

her.

166. **PW-182 Bhikhabhai Habibbhai Mansuri**, aged 29 years, has been examined at Exhibit-1259. This witness has deposed that he is residing at *Ektanagar* since the last five years. In the year 2002, he used to reside at *Lane No.2, Hussainnagar, Naroda Patiya*. His native place is Village Sahada, District Nandurbar, Maharashtra.

166.1 In the year 2002, he was residing with his wife Ruksanabanu, daughter Tabbasum, sons Junaid and Shoaib, and his sister Rani as well as his parents. When he was residing at *Naroda Patiya*, he was working in the garage belonging to Sardar Manjitsingh, situated at Noblenagar.

166.2 The incident took place on 28.2.2002. On that day, there was a call for Gujarat bandh. He had not gone to his workplace and was at home. On that day at around 9:00 to 9:30 in the morning, Bajrang Dal, Shiv Sena and the Hindu mobs with trishuls, swords etc., came on the road from the direction of Krushnanagar and Patiya.

166.3 At that time, his sister Rani had gone to the Noorani Masjid and he had gone to fetch her. When he went on the road, he saw the mob.

166.4 In the mob, he had seen **Guddu Chhara (deceased)**, **Haresh Chhara (A-10)** and **Naresh Chhara (A-1)**. The people in the mob were pelting stones on the Noorani Masjid as well as at their people. They were shouting slogans like "*Jay Shri Ram*", "*Kill, cut the Muslims*". He took his

sister Rani from the madressa of the masjid and went home. He had felt that in a little while, the situation would calm down, and hence, he went home and waited there for some time. However, the situation did not become peaceful, and hence, he locked his house as well as his parents' house. He took his entire family with him to Lane No.4, Hussainnagar and hid in a two storeyed house there.

166.5 In the same house in which he was residing, his parents used to reside in the anterior part.

166.6 From the terrace, he had seen **Bhavanisingh** in the mob. The people in the mob were vandalizing and looting and were burning the houses belonging to Muslims. Thereafter, at around 1:30 at night, a police vehicle came, whereupon, they came down from the terrace and were taken to the Shah Alam camp in the police vehicle. They stayed at the Shah Alam camp for around five months.

166.7 While he was at the Shah Alam camp, the police had recorded his statement. His own house was looted in the accident. The SIT people had recorded his statement at Naroda Patiya.

166.8 The witness has stated that **Bhavanisingh** and **Guddu Chhara** have passed away and he can identify **Naresh Chhara** and **Haresh Chhara**. The witness has thereafter correctly identified accused No.10. Accused No.1 had filed an exemption application, which was granted and hence, he is deemed to be identified.

166.9 CROSS EXAMINATION: In the cross-examination of this witness, he has stated that he was residing at Hussainnagar about fifteen years prior to the incident. The witness has admitted that till date, he does not know as to where the offices of Shiv Sena and Bajrang Dal are situated and has admitted that prior to the Naroda incident, he had not seen any workers of Bajrang Dal and Shiv Sena. The witness has stated that in his deposition, he has stated that on that day, there were workers of Bajrang Dal and Shiv Sena for the reason that they had trishuls and swords in their hands.

166.10 In his cross-examination, it has come out that his sister Rani used to go to the madressa for learning since the last one month. The witness has admitted that in his statement dated 13.5.2002 recorded by the police, he has not stated the name of the owner of the two storeyed house on the terrace of which he had stayed. The witness has admitted that in the card which was given to them at the camp, details regarding their name, surname, etc. were written down. The witness has admitted that he had made an application through the camp people on 7.3.2002 which was addressed to the Police Commissioner. The witness has denied that such application was written in the presence of leaders of the camp and has stated that he has signed the application in Hindi. The witness has identified his signature on the document shown to him and has admitted that in the said application, he has not named any of the accused named by him in his examination-in-chief. The witness has voluntarily stated that when the application was made, only seven to eight days had passed since the incident and at that time, the situation was very tense, so he had not given such names and had thereafter given those

names.

166.11 The witness has admitted that the printed facts on the application were already written prior thereto. The application is read over to the witness and he had stated that it is his application. The witness has identified his signature below the Loss and Damage Analysis Form which is annexed to the application. The application is produced with a purshis Exhibit-1260. The application is exhibited as Exhibit-1261. The witness has stated that he does not remember as to who had filled in the details in the application Exhibit-1261. He has admitted that before the SIT, in his statement dated 18.6.2008, he had not stated that he had not named the accused in his application Exhibit-1261 because the situation was tense and for the reason that the SIT people had not asked him about it.

166.12 The witness has stated that he does not know that in May, 2002, the leaders of the Muslims of Hussainnagar had convened a meeting in which it was decided that the witnesses would state the names which are given to each of them in their statements before the SIT. The witness has denied that he has not seen the accused named by him in his examination-in-chief and that he is deposing as per the tutoring by the leaders of his community. Many questions have been put to the witness as regards the time when his sister used to go to the madressa, etc.

166.13 The witness has admitted that while he was standing at the road, there was stone pelting. He has stated that he has not pelted any stones, but has admitted that some

of the Muslims standing near him had pelted stones. He has stated that at this time, the stones which were being pelted by the mob on the opposite side, had not injured him. The witness has voluntarily stated that stone pelting was started first by the Hindu mob.

166.14 The witness has admitted that before he reached there, there was no stone pelting. About ten to fifteen minutes after he reached the spot, stone pelting had started. Thereafter, he had not gone home and had stayed there till 12 o'clock. Thereafter, he has stated that he, together with his family, had stayed inside his house till 12:30. The witness has admitted that as long as he was in the house in Lane No.4 of Hussainnagar, no person in the mob had come and caused him any injury. The witness is sought to be contradicted as to his statement dated 13.5.2002, namely, that he has not named accused Hareesh Chhara in his statement before the police. The witness has voluntarily stated that he had given such name, but the police had not written it down. In his cross-examination, it has come out that he had hidden on the terrace of the two storeyed house at Hussainnagar and that there were many other people with him on the terrace. They were all sitting quietly on the terrace and no one on the terrace was talking. The witness has voluntarily stated that they were all under tension and that they had gone on the terrace out of fear, to save their lives. The witness has admitted that if any person in the mob had seen him, they would have killed him.

166.15 PW-293 Shri B.T. Karoliya, the assignee officer who had recorded the statement of this witness has been cross-

examined by the defence to prove the contradictions and omissions as to such statement. The assignee officer, in his cross-examination, has admitted that he has recorded the statement of this witness on 13.5.2002. The assignee officer has admitted that this witness has not given the name of accused Haresh Chhara (Accused No.10) in the statement recorded by him. He, however, has stated that people belonging to the Chhara community were in the mob, which was damaging and setting things on fire.

166.16 SUBMISSIONS: The learned counsel for the appellants submitted that seven or eight days after the incident, the witness had given a written application in which he had not named any accused and that the witness has admitted that he has subsequently given the names of the accused. It was pointed out that even in his statement dated 13.5.2002, the witness has not named accused No.10 Haresh Chhara. It was submitted that it was only for the first time on 18.6.2008, when his statement came to be recorded by the SIT, that the witness had named accused No.10 Haresh. It was submitted that thus, this witness has added names stage-wise, namely, initially in his application he has not named anyone; thereafter in his statement dated 13.5.2002, he has referred to Guddu Chhara and Naresh Chhara and thereafter, before the SIT, he has added the name of Haresh Chhara.

166.17 Referring to the contents of paragraph 25 of the deposition of the witness together with the contents of paragraph 8 thereof, it was pointed out that in his examination-in-chief, he has stated that he had taken his sister Rani from the madressa in the masjid and had gone home,

whereas in his cross-examination, it has come out that he had found his sister Rani crying at the corner of the S.T. Workshop where at present there is a police chowky. It was submitted that therefore, it is doubtful as to whether or not, the witness had at all gone on the road and that it appears that the witness has just created a story of his sister being at the madressa and that he had no occasion to see any accused on the road. It was pointed out that the witness, in his examination-in-chief, has stated that from the terrace, he had seen Bhavanisingh in the mob which was damaging and looting and burning the houses of the Muslims, to submit that the witness has stated in his cross-examination that he was hiding, and therefore, he could not have seen anything. It was submitted that the version given by the witness, therefore, does not inspire any confidence. It was submitted that the witness has not recognized any person in the mob and subsequently after going to the camp, he has given these three names, therefore, such a witness cannot be relied upon as his evidence cannot be said to be unimpeachable.

166.18 ANALYSIS: From the testimony of this witness, it emerges that two statements of the witness have been recorded, one on 13.5.2002, by the then investigating agency, and the other on 18.6.2008, by the Investigating Officer, SIT. Prior to the first statement, the witness had given an application dated 7.3.2002, wherein he had not named any accused. However, in the statement recorded by the police, he has named all the other accused except accused No.10 Haresh. Insofar as accused No.10 Haresh is concerned, his name has been stated for the first time before the SIT on 18.6.2008. It is the case of the witness that though he had

named Haresh before the police, the police had not recorded it. In the opinion of this court, having regard to the fact that the police have, in fact, recorded the names of the other accused, there is no reason for the police not record the name of accused No.10 Haresh while recording his statement. Therefore, the submission that though, before the police, the witness had named the accused, they had not taken it down, does not merit acceptance.

166.19 However, to the extent he has named accused No.1 Naresh Chhara and the other deceased accused, the witness is consistent qua his earlier statement recorded by the police, the statement recorded by the SIT and his deposition. However, at the first instance when he had lodged a complaint together with the Loss and Damage Analysis Form, the witness has not named any accused. According to the witness, since the situation was very tense at that time, he had not named any accused in his application. Considering the fact that the witness has been consistent in his first statement recorded by the police as well as in the statement recorded by the SIT and in his deposition, the witness appears to be credible. Nonetheless, considering the fact that he had not named the accused in his complaint, the court would look for corroboration to the testimony of this witness for the purpose of convicting the accused named by him.

166.20 In the cross-examination of the witness, a discrepancy has been brought out and proved, to the effect that while he had stated that he had brought his sister from the madressa in the Masjid and returned home, in his cross-examination, it has come out that he had found his sister

crying at the corner of the S.T. Workshop. In the opinion of this court, this discrepancy in the testimony of the witness cannot be said to be so material a contradiction, so as to totally discredit the testimony of the witness.

166.21 The testimony of this witness would help the prosecution in proving the charge against **accused No.1 Naresh Chhhara**, subject to his testimony being corroborated by some other witness.

167. **PW-183 Basirbhai Usmanbhai Shaikh**, aged 32 years, has been examined at Exhibit-1263. This witness has deposed that he is residing at *Ektanagar* since the last seven years. In the year 2002, he used to reside at *Lane No.6, Hussainnagar, Naroda Patiya*, together with his family comprised of his wife, his two daughters, his two brothers, etc.

167.1 His native place is *Gulbarga, Karnataka State*. In the year 2002, he used to work in a factory.

167.2 The incident took place on 28.2.2002. On that day, he was on night duty. After his work hours, at 7 o'clock, he had returned home and went to sleep. At around 9 o'clock in the morning, he learnt that mobs have come to their chawls, and hence, he went out and saw that there was a mob. He had come out on the highway and seen that there were mobs at the Noorani Masjid, Krushnanagar, and on all four sides. This mob was pelting stones. The people in the mob were pelting stones at their people. In view of the stone pelting, he returned back to his chawl and took his wife and children and went to Gangotri Society.

167.3 In this mob, he had seen **Sahejad Chharo (A-26), Guddu Chharo, Bhavani (both deceased)** and **Hira Marwadi (A-42) and Guddu Chhara (deceased)** were holding swords in their hands.

167.4 At that time, he had guests from Karnataka at home as his sister Banubibi's son was to get married. The guests were also with him on that day. They went towards Gangotri Society, at which point of time, his family members and the guests had got separated. However, his wife and children were with him.

167.5 They went to the terrace of a house in Gangotri Society, where he, his wife and children had stayed till 11:30 at night. Thereafter, a police vehicle came and took them to the Shah Alam camp.

167.6 On the day of the incident, the people in the mob had vandalized his house and had caused damage. The guests who had come to his house and had got separated from them, had later met him at the Shah Alam camp. He stayed at the Shah Alam camp for around eight to nine months.

167.7 The police had come to the Shah Alam camp to inquire about the incident. The witness has deposed that at present, Bhavani and Guddu Chharo are dead and he can identify Sahejad and Hira Marwadi. The witness has, accordingly, identified both Hira Marwadi (A-42) and Sahejad (A-26) correctly.

167.8 CROSS EXAMINATION: In the cross-examination of this witness, he has admitted that on 27.2.2002 when he went for his job, the situation was normal and on 28.2.2002, when he returned from his job at 7 o'clock in the morning also, the situation was normal. The witness has admitted that he ordinarily goes through the road on the side of the S.T. Workshop.

167.9 The witness has admitted that on the previous evening when he went for his job, he had seen policemen on the road near the S.T. Workshop. The witness is cross-examined with regard to the topography of the area. In his cross-examination, it has come out that the time of 9 o'clock stated by him is an approximate time and that he had not seen the watch and it might be around 9:00 to 9:15.

167.10 The witness has admitted that while he was coming out towards the entrance of the chawl, the people from the chawl were coming running from the opposite side and that these people had told him not to go outside as there was danger to life. He has admitted that despite this, he was not afraid and had gone. He has admitted that when he reached near the corner of the S.T. Workshop, stone pelting was going on. He has admitted that he saw this while standing at the corner of the chawl.

167.11 The witness has admitted that like him, other Muslim people were also standing at the corner of the chawl and that the people from all the chawls were standing there. The witness has voluntarily stated that all of them had come to see what was happening. The witness has admitted that they

had pelted stones in opposition and that in the stone pelting, he was not injured by any stone. The witness has admitted that his surname is Shaikh and not Saiyed. Such suggestion appears to have been put to him in view of the fact that in his sole statement dated 13.5.2002, his surname is shown to be Saiyed.

167.12 In the cross-examination of this witness, it has further come out that he had stood at the corner of the S.T. Workshop where stone pelting was going on for about fifteen minutes and during that time, he had not seen any person being injured by bullets. The witness has admitted that there were a lot of people on the road and that there may be around twenty to twenty five thousand people. He has admitted that the mob was shouting a lot due to which, there was a lot of commotion and that in such commotion, one could not hear what anyone is saying.

167.13 In his cross-examination, it has come out that he had taken his wife and children who were standing outside and immediately gone away. At that time, it was around 11 o'clock in the morning. From near his chawl, they had gone straight to Gangotri Society through the S.T. Workshop road. The witness has admitted that after going to Gangotri, he had hidden on the terrace of someone's house. He has admitted that other Muslims were also hiding on the terrace and that the people sitting on the terrace were sitting in such a manner that nobody could see them, and that till the police vehicles came at night, they were sitting and hiding in this manner.

167.14 The witness has admitted that till the police came

and took them, they could hear the sounds of the mob and that on account of the sounds of the mob, out of fear, they remained sitting and hiding.

167.15 The witness has admitted that from the time he left his house till he reached Gangotri Society, he had not seen any incident and that till the police came to take them from the terrace of Gangotri Society, he had not seen any incident. He, however, has stated that he had seen the mob.

167.16 In the cross-examination of this witness, it has come out that Hira Marwadi has a house in Hussainnagar and that his father had constructed a house adjoining Hira Marwadi's house. The witness has admitted that first Hira Marwadi's house was constructed and that there was a common wall between Hira Marwadi's house and the house which his father had constructed. The witness has stated that he does not know that Hira Marwadi had asked his father that since he had constructed his house first in point of time, he should pay him half the costs. The witness has voluntarily stated that he does not know about any talk between Hira and his father, but knows that his father has paid half the cost of the wall. A suggestion is sought to be put to the witness that on account of the cost of the wall and rain water pipe, he was wrongly implicating Hira Marwadi. In his cross-examination, it has come out that he had gone to the second lane of Gangotri Society, where there is a temple. In his cross-examination, it has further come out that Sahejad's house was in the same line as his house and that there was a temple in Sahejad's house. He has admitted that Sahejad used to perform *puja aarti* at his house in the morning, evening and afternoon and lot of people

used to come to his house for *puja aarti*. The witness has admitted that the people used to loudly recite *puja aarti* and has denied that the Muslims did not like this and hence, he, his father and other Muslims had threatened Sahejad to stop the *aarti*, due to which, though he had not seen Sahejad, he was falsely implicating him.

167.17 The witness has admitted that in his statement dated 13.5.2002, he has not stated that Guddu and Hira Marwadi had swords in their hands. He has admitted that the accused persons whom he had named were standing in the mob. The witness has admitted that at night, he had seen Hira and Sahejad near their house. The witness has voluntarily stated that they were dancing. He asked them as to why they were doing so and they told him that now, they did not have any defence. The witness has admitted that when he saw Hira and Sahejad, they were sitting near their house at night.

167.18 SUBMISSIONS: The learned counsel for the appellants submitted that this witness has named four accused, namely, Sahejad (A-26), Guddu, Bhavanisingh and Hira Marwadi (A-42). It was submitted that the witness has stated that Guddu and Hira Marwadi had swords in their hands. It was submitted that both Sahejad and Hira Marwadi are local residents residing in Hussainnagar. Hira Marwadi is the next door neighbour of this witness and Suresh/Sahejad was also residing in the same area and the witness had an axe to grind against both of them as suggested in the cross-examination. It was submitted that the role attributed to the accused is that Hira Marwadi had a sword. Referring to the cross-examination of the witness, it was pointed out that the witness has

admitted that he had not stated before the police that Guddu and Hira Marwadi had swords in their hands. It was further stated that the witness has admitted that he had seen the named accused standing in the mob. It was pointed out that in paragraph 35 of his cross-examination, it has come out that at night, Hira and Sahejad were at home and were dancing and had told him that now, they had no way to escape which shows that the witness had an axe to grind against them. It was submitted that in any case, there is no attribution except for their presence in the mob. It was further submitted that according to the witness, he had hardly stayed on the road and that after seeing the mobs, he had immediately gone back. It was submitted that the witness does not refer to any attack on the Noorani Masjid and burning of shops which the other witnesses say, which creates a doubt about his presence. It was submitted that no overt act is attributed so far as Sahejad is concerned and he does not attribute a weapon and does not say in which mob they were. It was submitted that it is doubtful as to whether this witness has seen these accused in the morning and whether he at all was present there. It was pointed out that the witness has stated that he saw the incident from the entrance of the lane from which it would not be possible to identify the accused. It was submitted that the witness has admitted that the mob was comprised of around twenty thousand to twenty five thousand people, and hence, it would be difficult to identify the accused in the huge mob. It was urged that the evidence of this witness is highly doubtful and cannot be termed to be unimpeachable evidence which inspires confidence.

167.19 Mr. Prashant Desai, learned Special Public

Prosecutor, submitted that this witness has named two accused in his first and only statement. He has narrated the whole incident. The witness is staying in the locality and there is no reason not to believe him.

167.20 ANALYSIS: As per the testimony of this witness, at around 9:00 in the morning, he came to know from the people of the chawl that a mob had come, whereupon, he came out on the highway and saw the mob. The mob was at the Noorani Masjid, Krushnanagar and on all four sides. The mob was pelting stones at the people of their community and in the mob he had seen Sahejad Chhara, Guddu Chhara, Bhavani and Hira Marwadi. Guddu and Hira had swords in their hands. Thereafter, at around 11:00 a.m. they had gone to the terrace of a house at Gangotri Society and had stayed there till the police came at 11:30 at night and took them to the Shah Alam Camp.

167.21 In the cross-examination of the witness, suggestions have been made to show that the witness had an axe to grind against the accused named and identified by him. Insofar as accused Hira Marwadi is concerned, the suggestion is that there was a common wall between their houses and the accused had asked his father to pay half the cost of the wall and that there was a dispute with regarding placing of a rain water pipe. In response to such suggestions, the witness has stated that he does not know about any talk between Hira and his father, but he knows that his father had paid half the cost. He has stated that he is not aware that his father had not agreed to put the pipe on the wall and has denied that in view of the above, there was any dispute between Hira Marwadi and

his father. In the opinion of this court, considering the nature of the dispute if any, it cannot be said to be of such a nature as to provoke the witness to falsely implicate the accused in such a serious matter.

167.22 Insofar as accused No.26 Sahejad Chhara is concerned, the suggestion made is that his house was in the same line as that of the witness and that he had a temple in his house and used to perform puja aarti three times a day and many people used to come to his house and perform puja aarti loudly. The witness has denied that the witness's father and other Muslims had threatened him to end the aarti, and therefore, he was falsely implicating the accused. In the opinion of this court, the reason sought to be put forth through the suggestion put to the witness to contend that there is false implication, does not appear to be such a strong reason so as to induce the witness to falsely implicate the accused in such a serious offence. However, through such cross-examination, the acquaintance with the accused has been established.

167.23 The witness has admitted that in his police statement he had not stated that Hira and Guddu had swords in their hands. However, there is no contradiction in the testimony of the witness insofar as their presence in the mob pelting stones at the Muslims is concerned. Therefore, the slight improvement in the testimony of the witness, to the extent he has stated that Hira Marwadi and Guddu has swords in their hands is not so material an omission, so as to impeach the credibility of the witness, more so, considering the fact that the witness is consistent as regards the names and the role of the accused, both, in his police statement as well as in his

deposition before the court. This witness is, therefore, consistent in his version and comes across as a credible witness.

167.24 Through the testimony of this witness, the prosecution has established the presence of **accused No.42 Hira Marwadi** and **accused No.26 Sahejad Chhara** in the mob pelting stones on the highway in the morning.

168. **PW-184 Mahammadhanif Yusufbhai Shaikh**, aged 40 years, has been examined at Exhibit-1271. This witness has deposed that he is a native of *Gulbarga, Karnataka State*. Since the last forty years, that is, since his birth, he is residing at *Pandit-ni-Chali*. In the year 2002, he used to do tailoring work of ready-made clothes at Gheekanta.

168.1 In the year 2002, his brother, his wife, his mother, his elder daughter and son were all residing together with him.

168.2 The incident took place on 28.2.2002, which was after the incident of 27th at Godhra. On that day, there was a call for bandh given by the Vishwa Hindu Parishad.

168.3 On that day, he was at home at 9:00 to 9:30 in the morning. At that time, there was a hubbub on the road. The mobs had come from Krushnanagar as well as Natraj Hotel side and both the mobs had merged.

168.4 The mob was attacking the Noorani Masjid. On that day, there was a police point in front of the S.T. Workshop. The people in the mob were attacking the Muslims.

168.5 The people in the mob had pipes, swords and other weapons in their hands. In the mob, he had seen **Kishan Korani (A-20) and Manoj Sindhi (A-41)** firing at the Muslim people.

168.6 He had also seen **Naresh Chhara (A-1), Haresh Chhara (A-10), Sahejad Chhara (A-26), Murli Sindhi (A-2), Ashok Sindhi Panvalo (A-45), Suresh Chhara (A-22), Bipin Autowala (A-44), Bhavani's son (A-49)**, whose name is not known to him. He knows all of them. All of them were instigating the mob and were attacking the Muslims.

168.7 At that time, the police lobbed tear gas shells. Kishan Korani and Manoj Sindhi snatched a gun and fired, whereas others whose names he has already mentioned had pipes, swords, dharias, etc. with them.

168.8 In this firing by Kishan and Manoj, a youth by the name of Abid died. All of them hid in the lane and the number of people in the mob started increasing. He went towards the interior side of Jawannagar near the S.R.P. Quarters compound wall. When he reached there, it was around 12 o'clock in the evening.

168.9 Since he did not find his family there, he was very frightened and hid there on the same spot for around two to three hours. He had hidden on a terrace of Gangotri Society. Initially, he was standing near the S.R.P. Quarters compound wall. Thereafter, he had gone to a terrace in Gangotri Society where he had hidden. He hid there till 6 to 7 o'clock and

thereafter, escaping the notice of everyone else, with great difficulty, he went inside the S.R.P. Quarters because at that time, nobody was permitted to go in. Thereafter, he had stayed at the S.R.P. Quarters till 5 o'clock in the morning of the next day.

168.10 On the next day at 5 o'clock, the police vehicle came and he went to the Shah Alam camp, where he stayed for around three to four months. While he was at the Shah Alam camp, the police had recorded his statement with regard to the incident. Thereafter, the SIT had also recorded his statement.

168.11 His house at Pandit-ni-Chali was looted and the entire house was burnt.

168.12 The witness has stated that he can identify all the persons whom he has named and has, accordingly, identified Murli Sindhi (A-2), Haresh (A-10), Sahejad (A-26), Naresh (A-1), Manoj (A-41), Suresh (A-22), Bhavani's son (A-40), Kishan (A-20) and Bipin (A-44). The witness, however, failed to identify Ashok Sindhi alias Panwala, though he was present before the court.

168.13 CROSS EXAMINATION: This witness, in his cross-examination, has admitted that his first statement was recorded on 12.5.2002 and his second statement was recorded on 14.9.2008. The witness has admitted that his statement dated 12.5.2002 was recorded while he was at the camp and his statement dated 14.9.2008 was recorded by the SIT at Naroda Patiya. At Patiya, the witness was called to a school in

Jawannagar. The witness has admitted that he had not made any application or written any letter to the SIT to record his statement. He has admitted that when he went to the SIT for recording his statement, other people were also present like him. The witness has denied that the leaders of the Muslim community were present at the school together with the SIT people.

168.14 In his cross-examination, the witness has stated that his house in Pandit-ni-Chali as well as the lane did not have any number. The witness is cross-examined with regard to the owner of the house in which he was residing. The witness has denied that in his statements dated 12.5.2002 and 14.9.2008, he has not stated that on the day of the incident, at 9:00 to 9:30 in the morning, he was at home. The witness has admitted that in both his statements, he has not given the number of his house and the number of the lane, because in Pandit-ni-Chali, there are no house numbers and lane numbers. The witness has admitted that he had not made any application to any Government Department in connection with his house having been burnt. He has stated that he had gone for drawing the panchnama together with the police. It has further come out that the panchnama of his house was drawn about one and a half months after his statement was recorded. He has admitted that in the context of his house being burnt, he had received Rs.15,000/- as compensation from the Government. The witness has admitted that till date, he is provided police protection. The witness has admitted that when the SIT recorded his statement, on that day his statement dated 12.5.2002 was read over to him. The witness is cross-examined with regard to the topography of the area.

168.15 In his cross-examination, it has come out that on that day, he had seen two mobs, one from Krushnanagar and another from Natraj and both had merged. He has stated that he cannot specifically say as to whether he had seen both the mobs at 10:00 to 10:30 in the morning. The witness has admitted that on that day, he had come out on the road through the S.T. Workshop road. The witness has admitted that when he came out, he had stayed there for half an hour to one hour. He has admitted that when he first saw both the mobs, they were separate and has voluntarily stated that thereafter, both had come together. He has admitted that as soon as he went on the road, he had seen both the mobs. The witness has also admitted that the people in the mob had tied saffron bands on their foreheads. The witness is not aware as to what kind of clothes the people in the mob were wearing. He has stated that he has not seen that the people were wearing shorts and undershirts and had tied black cloths around their faces. The witness has voluntarily stated that he had seen the mob for one to two hours and that he had hidden in the lane and seen them. That he was watching from the line of the S. T. Workshop. The witness is extensively cross-examined with regard to the number of people in the mob, direction from which the mob had come, the kind of clothes the people were wearing, regarding pelting of stones by the mobs and by the Muslims in defence, etc.

168.16 The witness has admitted that he had stayed there for about one and a half to two hours and had thereafter, gone to Jawannagar. He has stated that he had seen the accused named by him before the court on the open ground that near

the S.T. Workshop. They were all standing opposite the S.T. Workshop. He has admitted that they were standing opposite the S.T. Workshop gate. The witness has admitted that he had not seen the accused near the Noorani Masjid. He has admitted that in the entire day, he had seen the accused only once and except for that, he had not seen them.

168.17 The witness is confronted with his statement dated 12.5.2002, to the effect that he has stated therein that upon being asked with regard to the communal riots on 28.2.2002, he has stated that in the morning at around 9:30, a mob of around ten thousand people from the side of S.R.P. as well as a mob of ten thousand from the direction of Natraj Hotel were coming on the road towards the Noorani Masjid, wherein in the mob from the direction of S.R.P., Bipin Autowala and Guddu Chhara, who resides near Jawannagar as well as his brothers Naresh Chhara and Haresh Chhara were present. They were taking the leadership from the S.R.P. side, and from the Natraj side, Bhole Nath Pan-gallawala Ashok Sindhi, Bhavanisingh Chharo, Manoj Sindhi, who is a builder and Sahejad Chharo, were taking the lead. The witness has voluntarily stated that in the statement recorded at the camp, some part is correct and some part is incorrect. Thereafter, everything was stated before the SIT.

168.18 The witness has stated that because he is not educated, when for the first time his statement dated 12.5.2002 was read over to him at the SIT, he came to know that certain facts which he had stated, have not been taken down. He has stated that he came to know from the SIT that certain facts have not been written down by the police. He has

voluntarily stated that the police were writing down many things on their own.

168.19 The witness has admitted that the fact regarding Kishan Korani and Manoj Sindhi having snatched a gun from the hands of the police and fired, had been stated by him in his statement dated 12.5.2002, but the police had not written it down and that Murli and Kishan were present there on the day of the incident, but though he had stated so, the police had not written it down. The witness has denied that he has not stated the name of Murli Sindhi in his statement dated 12.5.2002.

168.20 The contents of the last three lines of paragraph 7 of his examination-in-chief, the contents of the second and third lines of paragraph 9 of his examination-in-chief and the contents of the first two lines of paragraph 10 of his examination-in-chief are read over to the witness, wherein there is a reference to Kishan Korani and Manoj having fired, to the effect that he has not stated these facts in his statement dated 12.5.2002, which the witness has denied. The witness has denied that before the SIT, he has stated that on the day of the incident, the Muslims had resorted to cross stone pelting. The witness has denied that in his statement before the SIT, he has stated that Abid had died in police firing. The witness has voluntarily stated that he had stated that Abid had died due to firing by Kishan Korani and Manoj Sindh as stated in paragraph 46 of his deposition.

168.21 The witness is confronted with his statement recorded by the SIT, however, this part of the statement is not put to him to contradict any part of his evidence and is,

therefore, not admissible in evidence.

168.22 The witness has admitted that in his statement recorded by the SIT, he has stated that at that time, the police had resorted to firing and the police had released tear gas only at the people belonging to their community and had fired at them wherein four to five Muslims had been injured.

168.23 The witness has denied that in his statement, he had stated that a person named Abid was injured by a bullet and had died. The witness has voluntarily stated that he has not stated that a person named Abid died in police firing, but he had stated that he died in firing by Kishan and Manoj. The witness has denied that he has not given the names of Suresh Chhara and Bhavanisingh's son in his statement dated 12.5.2002.

168.24 The witness has admitted that on the day of the incident, at around 12 o'clock, he had reached near the S.R.P. Quarters compound wall. He has admitted that he had stayed there for one to one and a half hours. He has admitted that from there, he had straightaway gone to the terrace of Gangotri Society and hidden there. He has admitted that the terrace of Gangotri Society where he went, is adjoining the S.R.P. compound wall. He has also admitted that he had stayed on the terrace for around two to three hours on that day. He has denied that till the police came, he was on the terrace. The witness has voluntarily stated that thereafter, he had gone inside the S.R.P. Quarters at around 6 o'clock in the evening. The witness has stated that his brother and his brother-in-law had come with him from Gangotri to the S.R.P. Quarters. He

has denied that when they had gone to the S.R.P. Quarters, nobody had tried to stop them and has voluntarily stated that they were not permitted to go inside; however, they had stealthily gone inside.

168.25 The witness has denied that on that day, he had not gone from his house to the road and has not seen any incident and has not seen any accused on the road. The witness has denied that as soon as the mob came near, he had straightaway gone to the S.R.P. Quarters. He has denied that in his statement before the police, he had stated that upon these people coming near, he had fled at around 11 o'clock and had gone near the compound wall of the S.R.P. camp and was standing there. The witness has denied that after fleeing from there, they had climbed on a terrace of Gangotri Society and had stayed there till 12 o'clock at night when the police vehicle came and took them to the relief camp. He has denied that in either of his statements, he has not stated that he had gone to the S.R.P. camp.

168.26 The witness has admitted that he has not stated the fact regarding his having seen the accused as well as regarding the firing prior to 12.5.2002. The witness has denied that in both his statements, he has wrongly given the names of the accused at the instance of the organizers of the camp and the leaders of their community.

168.27 In his cross-examination, it has further come out that he has studied up to the 3rd standard. He has stated before the police that he does not know Gujarati and has voluntarily stated that he had given his statement in Hindi. He

does not remember the name of the policeman or the officer who had recorded his statement.

168.28 In his cross-examination, it has further come out that he had stayed near the S.R.P. Quarters for one and half to two hours. During this period, no Hindu mob had tried to assault him. He has stated that from where he was standing, he had not seen any Hindu mob. He has admitted that thereafter, he had peacefully gone ahead. He has admitted that when he went ahead, no one had stopped him or assaulted him.

168.29 The witness has stated that he does not know as to how many sounds of firing he heard on that day. He does not specifically know as to who and how many people were injured in the firing, but he knows that about four to five people were injured. He has stated that in the police firing and tear gas, four to five people were injured. He has denied that there was a police point at the S.T. Workshop and has stated that there was a police point near the Noorani Masjid, opposite S.T. Workshop.

168.30 The witness has admitted that there was so much commotion on the road that nobody could hear what anyone was speaking and that he could not hear the sounds of slogans.

168.31 In his cross-examination, the witness has stated that he knows Manoj Builder and has voluntarily stated that he knows Manoj Videowala. He has stated that he does not know which buildings have been constructed by Manoj Builder. He

has stated that in his statement dated 12.5.2002; he has stated Manoj Sindhi who is a builder. He has admitted that he has not made any clarification regarding Manoj Builder before the SIT.

168.32 The witness has admitted that his statement recorded by the SIT was read over to him. He has admitted that before the SIT, he had stated that in his earlier statement, the police had not written down the names of Kishan Korani and Murli Sindhi and had written down only the name of Suresh Langda Chhara, other than that, he had not made any other complaint. He has admitted that he has not stated before the SIT that Manoj Builder and Manoj Videowala are one and the same person.

168.33 The witness has denied that with a view to falsely implicate the accused Manoj, Kishan, Suresh, Murli and Bhavani's son, at the instance of the people of his community, he had gone before the SIT to get his statement recorded. The witness has denied that he was one of the persons involved in burning Bipin Auto and with a view to see that Bipinbhai does not take any action against him and compromises with him, he had given his name in his statement.

168.34 To prove the contradictions and omissions in his previous statement, the defence has cross-examined PW-278 Shri R. B. Joshi, the assignee officer, who has admitted that he has recorded the statement of this witness on 12.5.2002. The assignee officer has admitted that this witness in his statement dated 12.5.2002 has not stated before him that on the day of the incident, he was at home at 9:00 to 9:30 in the morning.

The assignee officer has admitted that this witness had stated before him that upon his asking him about the communal riots that took place on 28.2.2002, he is stating that in the morning at 9:30, from the direction of S.R.P. a mob of about ten thousand people and from the direction of Natraj Hotel a mob of around ten thousand people, was coming on the road towards the Noorani Masjid, wherein, in the mob from the side of S.R.P. Bipin Autowala, Guddu Chhara who resides near Jawannagar as well as his brothers Naresh Chhara and Haresh Chhara were present and they were leading the mob from the side of S.R.P. and the mob which was coming from the direction of Natraj was being led by Bholenath Pan-gallawala Ashok Sindhi, Bhawanisingh Chhara, Manoj Sindhi, who is a builder and Sahejad Chhara. The assignee officer has admitted that this witness has not stated before him that Kishan Korani and Manoj Sindhi had snatched guns from the hands of the police and fired. That it has not happened that the witness has stated such facts but he has not written them down and that Murli and Kishan were present on the day of the incident, which the witness has stated to him, despite which, he had not written that down and that the witness had given the name of Murli Sindhi in the statement recorded by him.

168.35 The assignee officer has admitted that parts of paragraphs 7, 9 and 10 of the examination-in-chief which are read over to him, have been stated by the witness in the statement recorded by him, namely that in the mob he had seen Kishan Korani and Manoj Sindhi firing. They were firing on the Muslim mob. Kishan Korani and Manoj Sindhi had snatched the gun from the police. In the firing which was carried out by Kishan and Manoj in this manner, a boy named Abid had died.

The assignee officer has admitted that this witness had not named Suresh Chhara and Bhavani's son in the statement recorded by him. The assignee officer has further admitted that this witness has stated before him that these people were coming towards the masjid when he was standing near the paan galla in the lane next to his house and was watching. The assignee officer has further admitted that the witness has stated before him that upon this people coming near, they had fled from there and at around 11 o'clock they had gone near the compound wall of the S.R.P. camp and were standing there. He has further admitted that this witness has stated that they fled from there and climbed on the terrace of Gangotri Society and at around 12 o'clock upon the police coming, they took them in a police vehicle to the Shah Alam relief camp. The assignee officer has admitted that this witness has not stated the fact regarding Manoj Sindhi being a builder in the statement recorded by him. The assignee officer has further admitted that this witness, in his statement dated 12.5.2002, had stated that the reason for this incident was that on 27.2.2002, kar sevaks who were coming from Ayodhya in the Sabarmati Express Train were burnt alive at the Godhra Railway Station.

168.36 On a perusal of the cross-examination of the assignee officer, it is seen that hardly any part of the examination-in-chief is put to the assignee officer and that what was stated by the witness in his statement recorded by him, has through the process of cross-examination been brought on record, which is contrary to the provisions of section 162 of the Code which mandates that the statement recorded under section 161 of the Code, cannot be used for

any purpose except to contradict a witness. Therefore, unless any part of the police statement is used to contradict a witness, the question of proving the same through the testimony of the Investigating Officer would not arise.

168.37 SUBMISSIONS: The learned counsel for the appellants submitted that this witness has given the names of five accused, viz., Kishan, Manoj, Murli, Suresh and Bhavani's son for the first time before the SIT and even out of them, he has referred to two of them as Manoj Builder and Bhavani's son, which creates a doubt about their identity with their full names being Manoj Videowala and Mukesh alias Vakil Ratilal Rathod. It was submitted that no test identification parade of these two accused has been carried out as to whether they are the same persons to whom the witness has referred.

168.38 It was submitted that as far as Kishan and Manoj are concerned, though they are named for the first time before the SIT, the witness has made an allegation that they had snatched a police rifle and fired from it which hit Abid and he had died. It was submitted that this allegation cannot be believed for three reasons. Firstly, because such allegation was not made before the police and was made only before the SIT; secondly, the allegation is vague, inasmuch as, it is not clear as to out of the two accused, who snatched the gun and fired; and thirdly, the fact regarding snatching of the rifle from the police has not been proved beyond reasonable doubt, nor is it supported by any cogent and convincing evidence of other witnesses, inasmuch as, almost all witnesses speak about Abid having received injury in police firing. Therefore, for the first time before the SIT, this witness has created this story to

implicate the accused by making allegations which are not supported by any credible evidence.

168.39 Insofar as the other accused are concerned, it was submitted that they are alleged to have been seen in the mob in the morning on the road, without any specific weapons being held and without any specific overt act being attributed to them. It was submitted that therefore, the allegations are too general in nature to be believed and relied upon. It was submitted that there are vital and important inconsistencies in the evidence of this witness and other witnesses which renders the evidence of this witness highly doubtful. There are improvements from stage to stage which are vital and important and an inference can be raised from this that he has improved his version from talks with other people, which he has included in his evidence before the court. It was submitted that therefore, this witness is not a credible or convincing witness and no reliance can be placed upon any part of his evidence.

168.40 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness has not named five of the accused before the police. However, qua the other named accused, the witness is consistent and believable.

168.41 ANALYSIS: This witness has deposed that on the day of the incident, in the morning, he had seen Kishan Korani (A-20) and Manoj Sindhi (A-41) in the mob on the highway, firing at the Muslims. He has further deposed that he had seen Naresh Chhara (A-1), Haresh Chhara (A-10), Sahejad Chhara (A-26), Murli Sindhi (A-2), Ashok Sindhi Panwala (A-45), Suresh

Chhara (A-22), Bipin Autowala (A-44) and Bhavani's son (A-40) instigating the mob and attacking the Muslims. From the omissions and contradictions brought out in the cross-examination of the witness as to his statement dated 12.5.2002 recorded by PW-278, it emerges that the witness had not mentioned the fact regarding Kishan Korani and Manoj Sindhi having snatched guns from the police and fired from them, nor has he mentioned having seen Kishan Korani and Manoj Sindhi firing on the Muslim mob. Insofar as Kishan Korani (A-20) is concerned, the witness had not named him in his statement dated 12.5.2002. As regards, Manoj Sindhi, in his statement dated 12.5.2002, the witness had referred to him as Manoj Sindhi who is a builder.

168.42 In his statement dated 12.5.2002, the witness had also not mentioned the names of Suresh Chhara and Bhavani's son. Thus, out of the accused named by him before the court, the witness had not named Kishan Korani, Suresh Chhara, Murli Sindhi and Bhavani's son in his statement dated 12.5.2002. Moreover, he had referred to Manoj Sindhi as Manoj Sindhi who was a builder. Out of the accused named by him before the court, the witness has failed to identify Ashok Sindhi Panwala (A-45) in the court, though he was present on that day. Thus, when his statement came to be recorded by the SIT as well as in his deposition before the court, the witness has improved upon his earlier statement dated 12.5.2002 by naming Kishan Korani, Murli Sindhi, Suresh Chhara and Bhavani's son whom he had not named before the police.

168.43 From his cross-examination, it has come out that he

had seen the accused in the open ground in front of the S.T. Workshop and thereafter throughout the day, he had not seen them.

168.44 Having regard to the fact that the witness, in his statement dated 12.5.2002, had not named Kishan Korani, Murli Sindhi, Suresh Chhara and Bhavani's son and has named them for the first time after a period of more than six years before the SIT, it would be hazardous to rely upon the testimony of this witness to prove the charge against the said accused. Insofar as Manoj Sindhi (A-41) is concerned, the witness, in his statement dated 12.5.2002, had referred to him as Manoj Sindhi who is a builder and had not alleged that he had fired at the Muslims. In his deposition before the court, the witness has attributed the overt act of firing at the Muslim mob to Manoj Sindhi. Thus, apart from the fact that he had described the said accused as Manoj Sindhi who is a builder, the witness had attributed a totally new role to the said accused in his deposition, which is contrary to what has been stated by him in his statement dated 12.5.2002 as has been duly proved by the defence through the cross-examination of the witness and the concerned assignee officer. Therefore, the testimony of this witness cannot be relied upon for the purpose of proving the charge against Manoj Sindhi (A-41). Since the witness has failed to identify Ashok Sindhi Panwala (A-45) before the court, the testimony of the witness cannot be relied upon to prove the charge against the said accused. However, insofar as **Naresh Chhara (A-1)**, **Haresh Chhara (A-10)**, **Sahejad Chhara (A-26)** and **Bipin Autowala (A-44)** are concerned, the witness has been consistent regarding their

presence and the role attributed to them right from the beginning.

168.45 While there are certain improvements and minor inconsistencies in the testimony of this witness, by and large, the witness is consistent insofar as the above referred four accused and the role attributed to them. Under the circumstances, there is no reason to disbelieve the witness to the extent he implicates those accused.

168.46 Thus, through the testimony of this witness, the prosecution has proved the presence of Naresh Chhara (A-1), Haresh Chhara (A-10), Sahejad Chhara (A-26) and Bipin Autowala (A-44) in the mob in front of the S.T. Workshop on the day of the incident instigating the mob and attacking the Muslims.

169. **PW-185 Mahammadayub Sofilal Shaikh**, aged 32 years, has been examined at Exhibit-1275. This witness has deposed that his native place is *Gulbarga, Karnataka State*. He was residing in Ahmedabad since the last thirty two years. In the year 2002, he was residing in *Lane No.2, Hussainnagar, Naroda Patiya*.

169.1 In the year 2002, his brother, his brother-in-law and his sister-in-law and their son, were all residing with him.

169.2 At the relevant time, he was doing the casual electric labour work.

169.3 The incident took place on 28th day in the year 2002 and on the previous day, that is, on the 27th day, a train was burnt at Godhra and the incident took place on the next day. He does not remember the month.

169.4 On the 27th, he was doing wiring work in a house, when in the evening at about 6 o'clock, he came to know that a train had been burnt at Godhra. He had also learnt that on the next day, that is, on the 28th, there was a call for Gujarat bandh. Thereafter, on the 27th, he returned home from his work.

169.5 He and his brother were sitting in the mohalla till 12 o'clock at night and thereafter, he woke up at 7 o'clock in the morning on the day of the incident.

169.6 On the day of the incident, a pan cabin was to be inaugurated in their area. He had gone there with little children studying in the madressa. He had taken the children from the madressa to read the Quran Sharif. The pan cabin is situated in Lane No.6, Hussainnagar and the inauguration was at 9:30 in the morning.

169.7 After the inauguration, they were distributing sweets. At that time, a woman came running near them and told them that, *"All of you are concerned with the inauguration, whereas the mobs have come outside"*. Upon hearing this, he gave sweets to the children and thereafter, went on the road.

169.8 Upon coming outside on the road, he saw that there

were mobs near the S.T. Workshop and the S.R.P. Quarters. The people in the mob were pelting stones at the Muslims. The mob was also firing. They had stones and were also releasing tear gas.

169.9 The witness has further deposed that at the time of the incident, at present where the Naroda Police Chowky is situated there was a tree and two policemen were sitting near the tree. These policemen told the Muslims that they would reason with the people in the mob and nothing would happen.

170. A police jeep was standing in front of the mob. From the vehicle, the police started firing and also released tear gas. Their eyes became red due to the tear gas and there was a stampede. They sprinkled water in their eyes. At that time, it must have been around 9:45 in the morning.

170.1 The people in the mob had charged at the Muslim mohallas. They had swords, guns, etc. and also had packets of snacks in their hands. All the people in the mob were wearing saffron clothes. They were also wearing shorts and undershirts and were ransacking and looting. They were assaulting people and were looting the shops.

170.2 He had recognized four persons in the mob, viz., **Jaybhavani, Tiwari, Suresh Langdo** and **Guddu Chhara**. In this mob, Suresh Langda had a sword in his hand, Jaybhavani had a sword in his hand, Tiwari was telling them that arrangement has been made for the safety of Muslims and that they should come on that side. Tiwari was instigating the mob. Tiwari had firstly given support to the Muslims and thereafter,

he had called the mobs. There was a stampede in the incident. The witness himself was on the road.

170.3 Upon all this happening, he had sat for a little while at a temple in Pandit-ni-Chali, where he stayed till about 2:00 to 2:30. At 2:30, he had come out and had fled towards Hussainnagar. At Hussainnagar, there is a house with a high terrace. He had gone on the terrace and had sat there for some time. He was searching for his brother and had gone up to the terrace; however, he could not find his brother so he sat there. After about half an hour, he had felt thirsty. There was a water-tank on the terrace and hence, he drank water from it.

170.4 From the terrace he had seen in the S.T. Workshop compound people whom he did not know as to whether they were employees or from the mob, all of them were making rags and throwing them on the houses of Muslims, due to which their houses were catching fire. Thereafter, he had come down from the terrace.

170.5 Thereafter at about 3 o'clock in the afternoon, he went near his house in Lane No.2.

170.6 He had seen the mob assaulting and looting the Muslims in the lane. Upon seeing all this, he had run towards Gangotri Society. There was a mob near Gangotri Society also, where he had seen two persons, viz., Tiwari and Bhavani. At that time, it was around 4 to 5 o'clock. While he was running towards Gangotri, he did not feel safe, and hence, he returned to Lane No.4, Hussainnagar. When he was returning, **Suresh Langda**, who had a sword in his hand, had chased him. Since

Suresh Langda could not run as fast as he could, he could not catch him and he had escaped. While trying to run in this manner, he was injured with a rod lying on the road.

170.7 There were many Muslims on the fourth floor of Mansuri's house in Lane No.4 of Hussainnagar and he too went and hid there. At that time, it was around 6:45 in the evening. He stayed there with the other Muslims till 12 o'clock at night. At 12 o'clock, the police vehicles came and they took them to the Shah Alam camp.

170.8 Prior to his being injured with the rod, he had been injured with a stone on his head in the incident. He had suffered a terrible headache for approximately six months thereafter. He had taken treatment for the injuries sustained by him with the iron rod at the Shah Alam camp, where he stayed for approximately six months. Three to four days after they had gone to the camp, the police had come and told them that they wanted to carry out a survey of his house. He had gone with the police to his house and a survey was conducted and a panchnama of his house was drawn. In the incident, his house was badly damaged. At the relevant time, he had a water pump, fans as well as ornaments collected by him for his marriage, all of which were looted. The police had recorded his statement at the camp. From the camp, he had gone to reside at Ektanagar.

170.9 In the year 2008, the SIT had called him to Gandhinagar and had also recorded his statement.

170.10 He has learnt that Jaybhavani and Guddu Chhara

are dead and has stated that he can identify Tiwari and Suresh Langdo. The witness has thereafter correctly identified Tiwari (A-25) and Suresh Langdo (A-22).

170.11 CROSS EXAMINATION: This witness in his cross-examination has admitted that he was born at Naroda Patiya and has been residing at Hussainnagar since his birth. He has seen all the Muslim chawls in Hussainnagar as well as at Naroda Patiya. The witness has admitted that in all these chawls, majority of the people were Muslims from Karnataka and there were very few Muslims from Gujarat. All the Muslims from Karnataka used to get together on festivals and occasions. All the Muslims from Karnataka were their acquaintances and relatives.

170.12 In his cross-examination, it has come out that he had made an application regarding the loss suffered by him at the camp. The witness has admitted that one of his statements was recorded on 13.5.2002 while he was at the camp and another statement was recorded by the S.I.T. on 7.6.2008. The witness has been cross-examined regarding the manner in which he had made the application for loss and damage. In paragraph 43 of his deposition, the witness is read over certain parts of his statement recorded by the SIT; however, since this part has not been used for the purpose of contradicting any part of his evidence, it is not admissible in evidence.

170.13 In his cross-examination, it has come out that he had gone for the inauguration of the pan cabin of a person named Asif. He has admitted that Asif had come to his house on the day before the incident. The witness has stated that

after going to the madressa in the morning he had gone for the inauguration. This madressa is situated inside the Noorani Masjid. He had reached the madressa at 7:45 in the morning. About seven children from the madressa had come with him. He has admitted that he had set out from the Noorani Masjid with the seven children at around 8:00 to 8:30. He has admitted that he had crossed the road from the Noorani Masjid and had come to the chawls of Hussainnagar with the children. He had reached the panwala's shop at about 8:45 in the morning. Thereafter, he had carried out the inauguration ceremony and the children had read *kalmas* from the Quran. The children had read the Quran for about ten minutes, after which, sweets were distributed to everyone and the people who had gathered there started going home and at that time, that woman had come.

170.14 The witness has admitted that Hussainnagar Lane No.6 where the inauguration was held, is on the side of the national highway. The witness has admitted that at this time, till that woman had come and had told them, they were not aware what was going on, on the road. The witness has denied that after the inauguration, he had gone home. He has stated that he had straightaway gone on the road. He has admitted that at that time, there were no mobs near the Noorani Masjid and has voluntarily stated that there were mobs near the S.T. Workshop and were pelting stones from there. The witness has denied that at that time, the Muslims had gathered together and had come out and has voluntarily stated that there were about twelve to fifteen Muslims. The witness is confronted with his statement dated 13.5.2002 wherein he had stated that on 27.2.2002, the kar sevaks were burnt alive at Godhra due to

which, and in the morning, the Hindu mobs had come from Naroda Patiya to Krushnanagar on the road and under the impression that the people of the mob would attack the Muslim chawls, the residents of their chawl also gathered together and thereafter, at around 9:15, upon that mob having commenced pelting stones, all of them had also pelted stones in defence and in this manner, there was cross stone pelting in which he was injured on the head with a stone and had gone home; at that time, all the members of the family were present and after that, he had told his family members to go on the rear side towards Jawannagar-ni-Chali and thereafter when he came out again, the mobs had entered the houses in Chetandas-ni-Chali, Hukamsing-ni-Chali etc. and had started damaging them and were taking out the goods and burning them, after which, he had gone towards Hussainnagar-ni-Chali, where the Uday Gas shop is situated and had hidden on the terrace of a house; at that time, he was alone; after some time, when he looked towards the chawls from the terrace, he had seen that the mobs were comprised of people belonging to the Sindhi and Chhara communities and they were looting goods and articles; upon the police coming at night, under police protection, they were brought to the Shah Alam relief camp. The witness has stated that these facts have not occurred as stated in this paragraph. The police have written them down on their own. The witness has admitted that he had stated that all his family members have been found to be safe and sound in the camp and that he had met his brother.

170.15 In his cross-examination, the witness stated that Suresh Chhara lives in Chharanagar. The distance between Hussainnagar and Chharanagar is short. He has no social

relations with Suresh and he has no information about his family. He is not aware as to in which lane Suresh's house is situated. He has admitted that Suresh's wife is a Muslim. He is not aware as to whether Suresh's wife is a Muslim from Karnataka. The witness has denied that he used to work for some Khwajahussain. He has admitted that Khwajahussain has a daughter named Shahenaz who is a Muslim from Karnataka. The witness has stated that he knows that Shahenaz has married someone from Chharanagar. He has admitted that Shahenaz has married a Hindu Chhara. He has denied that since Suresh's wife is a Muslim and Shahenaz had married a Hindu boy, out of animosity, he had falsely given Suresh's name. The witness has admitted that he knows that Suresh is a lame and that he cannot run.

170.16 The witness has denied that after being injured by a stone, he had gone away and thereafter, he had not gone inside any Muslim chawls and that he had not gone on the terrace of Gangotri Society and that he had not gone near the SRP compound wall and he had not seen any accused in the incident and had not recognized them.

170.17 The witness has denied that at the instance of Raiskhan, Nazir Master, Mahammadmaharuf and other people of their community, he had gone to the SIT at Gandhinagar and at their instance, he had got his statement recorded at the SIT and that his actual statement was as stated by him at the camp. The witness has denied that at the instance of the leaders of his community, he was falsely deposing before the court. He has admitted that he does not know as to who had looted the goods from his house.

170.18 The witness has admitted that on the next day in the morning, till the occasion of inauguration of the cabin, the situation was absolutely normal. He had gone to the madressa alone, to fetch the children and had returned with them. He has admitted that after he brought the children from the madressa, the inauguration was done. He has admitted that when he went to fetch the children and returned with them, till then, the situation was normal.

170.19 The witness has stated that he has no idea as to how many Muslims were residing in their chawl. When he came on the road, stone pelting was going on. Thereafter, there was firing. He had stayed on the road for about half an hour after which, firing took place. He has admitted that he felt that if they stood outside, there was a possibility of losing one's life. He has admitted that despite this fact, till the police firing started, he was standing there. The witness has voluntarily stated that he was standing at a distance.

170.20 The witness has admitted that on the day of the incident, it had become dark at 6 o'clock in the evening, by then, he had reached the terrace of Gangotri Society. He has admitted that till he reached the terrace of Gangotri Society, he had not seen any incident and had not seen anyone hacking or killing anyone.

170.21 The contents of paragraphs 8, 9, 10 and 11 as well as the first line of paragraph 12 of his examination-in-chief are read over to the witness, to the effect that he has not stated such facts in his statement dated 13.5.2002. The contents of

the first four lines of paragraph 13; the first line of paragraph 14 and the third to the last line of paragraph 14 of the examination-in-chief of the witness are read over to the witness, to the effect that he has not stated such facts in his statement dated 13.5.2002, which he has denied.

170.22 The contents of paragraph 15; the first five lines of paragraph 16; the contents of paragraphs 17 and 18 and the contents of the first four lines of paragraph 20 of the examination-in-chief of the witness are read over to the witness, to the effect that he has not stated such facts in his statement dated 13.5.2002. The contents of first four lines of paragraph 21 of the examination-in-chief of the witness are read over to the witness, to the effect that he has not stated such facts in his statement dated 13.5.2002. The witness has denied the same.

170.23 The contents of the first three lines of paragraph 10; the contents of paragraph 11; and the contents of the first three lines of paragraph 12 of the examination-in-chief of the witness are read over to the witness, to the effect that he has not stated such facts before the SIT, the witness has stated that he had stated these facts, but the SIT may not have written them.

170.24 The contents of the first three lines of paragraph 13; the contents of the fourth line to the eighth line of paragraph 14; the contents of the first four lines of paragraph 19 and the contents of the first three lines of paragraph 20 of the examination-in-chief of the witness are read over to the witness, to the effect that he has not stated such facts in his

statement recorded by the SIT. A suggestion is made to the witness that there is no building with four floors in Hussainnagar, in response to which, the witness has stated that whether the building had three floors or four floors, he says that it was a high building.

170.25 In his cross-examination, it has come out that he has not come to know that Tiwari had given shelter to any Muslims in his house. The witness has denied that he has not seen any incident as stated by him in his examination-in-chief and that he has not seen the accused and that he is falsely deposing before the court.

170.26 To prove the omissions and contradictions as to his previous statement, the defence has cross-examined the concerned Investigating Officer who recorded such statement.

170.27 PW-307 S. S. Chudasama, the Investigating Officer has admitted that the statement of this witness was recorded by Shri A. A. Chauhan (now deceased) on 13.5.2002. He has admitted that this witness in his statement has stated that on 27.2.2002, the kar sevaks were burnt alive at Godhra due to which and mobs had gathered on the road from Naroda Patiya to Krushnanagar in the morning and people of these mobs had attacked their Muslims chawls and to protect them, the residents of their chawl had also gathered together and at around 9:15, upon stones being pelted by that mob, they too had retaliated by pelting stones and in this manner, cross stone pelting started, in which he was injured on the head with a stone and had gone home; at that time, all the members of his family were present at home after which, he had told his

family members to go to Jawannagar-ni-Chawl on the rear side and when he returned outside, the people in the mob had entered the houses of Chetandas-ni-Chali, Hukumasing-ni-Chali, etc. and had started damaging, taking out goods and burning them, whereafter, he had gone to a terrace of a house in Hussainnagar-ni-Chali which was towards Uday Gas Agency and had hidden there and at that time, he was alone and after a little while, upon looking towards the chawls from the terrace, the mobs which were comprised of Sindhis and Chharas, were committing loot and upon the police arriving at night, they were brought to Shah Alam under police protection. The Investigating Officer has admitted that this witness had not stated before him regarding any damage caused to his house. He has admitted that this witness in his statement has not named Bhavani.

170.27 The contents of paragraphs 8, 9, 10 and 11 and the first line of paragraph 12 of the examination-in-chief of the witness are read over to the Investigating Officer, who has denied that all these facts have not been stated by the witness in his statement. He has clarified that the witness had stated that the Hindu mobs had gathered on the road from Naroda Patiya to Krushnanagar and since they were attacking their chawls, to defend themselves, the residents of their chawls had gathered together, have been stated by the witness. However, the other facts have not been stated by him.

170.28 The fourth line of paragraph 13 of the examination-in-chief of the witness is read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him. He has admitted

that the witness had not named accused Jaybhavani. Certain extracts of paragraph 14 of the examination-in-chief of the witness, are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him. The contents of paragraph 15 as well as the contents of the first five lines of paragraph 16 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him. He has stated that the witness had stated that he had gone on the terrace of a house in Hussainnagar and had hidden there. However, the rest of the facts have not been stated by him.

170.29 The contents of paragraphs 17 and 18 and the first four lines of paragraph 20 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him. The contents of the first four lines of paragraph 21 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him. The witness had stated that on the day of the incident, he was injured on the head in the riots in connection with which he had taken treatment at the camp. However, the rest of the facts have not been stated by him.

170.30 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross examination, admitted that he has recorded the statement of this witness on 7.6.2008. Certain extracts of paragraphs 10, 12, 19 and 20 of the

examination-in-chief of this witness are read over to the Investigating Officer, who has admitted that the witness has not stated such facts in the statement recorded by him. Insofar as the contents of paragraph 12 are concerned, wherein the witness has stated that a police jeep was standing in the area in front of the mob; from the vehicle, the police commenced firing and also lobbed teargas shells; the Investigating Officer has clarified that the witness has only used the words "in front of", however, the rest of the words have not been stated by him in the statement recorded by him. The Investigating Officer has admitted that this witness had stated before him that therefore, there was cross stone pelting.

170.31 The contents of paragraph 11 and certain extracts of paragraph 14 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that the facts stated in paragraph 11 have not been stated in the statement recorded by him. He, however, has denied that all the facts stated in the extracts of paragraph 14 have not been stated by the witness. The witness had stated that Tiwari, who was a conductor in the A.M.T.S., was gesturing to the people in the mob and was showing where the people of their community were hiding.

170.32 SUBMISSIONS: Mr. Y.S. Lakhani, learned counsel for the appellants invited attention of the court to various contradictions in the testimony of the witness qua the statements recorded by the police and the SIT. It was submitted that there are omissions of facts in the police statement of this witness and of a few facts even before the SIT. It was submitted that insofar as accused Tiwari, Suresh

and Guddu are concerned they are stated to be there in the mob in the morning and there is further overt act attributed to Suresh about chasing this witness in the evening. However, against Tiwari no overt act worth the name has been mentioned and it is brought on record for the first time before the court in paragraph 14 of his testimony. It was submitted that presence of Tiwari, who resides in that area, is not unnatural. Moreover, the witness has not attributed any specific role to him.

170.33 It was submitted that according to this witness he had run away from Gangotri at about 4:00 to 5:00 in the evening and had then gone to Lane No.4, Hussainnagar on the terrace of Mansuri's house on the 4th floor at about 7.45, which version is not trustworthy as there is no such house with four floors in Lane No.4. It was contended that it was not possible, having regard to the facts of the case that at 6:45 p.m., the witness could have come back from Gangotri to Hussainnagar. It was submitted that as per the version given by the witness in paragraph 73 of his cross examination, until he had gone to the terrace of Gangotri Society, he had not seen any incident of assault.

170.34 Referring to the contents of paragraph 14 of his examination-in-chief, it was submitted that the contents thereof show that the witness is imagining many things. It was submitted that Tiwari has not been seen in the morning mob, except by this witness. It was contended that it is highly improbable that the witness could have moved around Hussainnagar at 2:30. It was submitted that this witness has no respect for the truth, and, therefore, his evidence cannot be

considered to be unimpeachable evidence, which can be relied upon in such a serious case.

170.35 Mr. B.B. Naik, learned counsel for the appellants submitted that there are major omissions of facts in the police statement of this witness and omission of a few important facts even in the statement before the SIT. It was submitted that insofar as accused Tiwari, Suresh and Guddu are concerned, they are stated to be there in the mob in the morning and there is no overt act attributed to Suresh about chasing this witness in the evening. Against accused Tiwari, no overt act worth the name had been mentioned and for the first time before the court in paragraph 14 of his examination-in-chief, overt acts have been attributed to the witness. It was submitted that according to this witness, he had fled to Gangotri Society at about 4:00 to 5:00 p.m. and then to the terrace on the fourth floor of Mansuri's house in lane No.4, Hussainnagar at about 7:45 p.m. It was submitted that the testimony of this witness is not trustworthy as there is no such four storeyed building in lane No.4 of Hussainnagar. It was submitted that having regard to the facts of this case, it is not possible that at 6:45 p.m., the witness could have come back from Gangotri to Hussainnagar. It was pointed out that according to this witness, only he had gone on the terrace of Gangotri, and he had not seen any incident of assault.

170.36 Reference was made to paragraph 14 of the examination-in-chief of the witness, to submit that the witness has imagined many things inasmuch as except for this witness, accused Tiwari has not been seen in the morning mob by any witness. It was submitted that considering the situation that

prevailed on that day, it is highly improbable that he could move around in Hussainnagar at 2:30 in the afternoon. Attention was invited to the contents of 73 of his cross-examination, wherein the witness has admitted that on the day of the incident it had become dark by 6 o'clock in the evening and on that day at around 6 o'clock, he had reached the terrace of Gangotri Society, and has further admitted that till he had gone to the terrace of Gangotri, he had not seen any incident or anyone being assaulted and hacked down, to submit that this witness has not seen anything during the whole day. It was argued that this witness has no respect for the truth and therefore, his evidence cannot be considered to be unimpeachable evidence that can be relied upon in such a serious offence.

170.37 Mr. P. G. Desai, learned Special Public Prosecutor, submitted that all the omissions suggested to this witness are not in the form of contradictions and therefore, the same would not attract the provisions of section 145 of the Evidence Act. It was submitted that before the SIT, this witness has stated about the mob coming from Natraj and the police bursting teargas shells, which is referred to in paragraph 69 of his cross-examination, therefore, there is no material omission in respect thereof. It was submitted that the involvement of the named accused in the afternoon incident has been proved beyond doubt and that minor discrepancies in the statement or evidence would not affect the entire testimony of this witness.

170.38 ANALYSIS: A perusal of the testimony of this witness shows that a major part of what has been stated by him in his examination-in-chief has not been stated by him in

his police statement dated 13.5.2002. Nonetheless, from the testimony of the witness, it comes out that on the day of the incident, he had come out on the road and had seen stones being pelted on the Muslims by the mob. Mobs of Hindus had gathered on the road from Naroda Patiya to Krushnanagar and were attacking the chawls. The people in the mob were damaging properties and looting them and were assaulting people. In the mob, he had seen Tiwari, Suresh Langdo and Guddu Chhara. While in the examination-in-chief, the witness has also named Jaybhavani, in his statement dated 13.5.2002, he had not named him. From his testimony, it further emerges that the witness had seen the mob near Gangotri Society where he had recognised two persons in the mob, namely, Tiwari and Bhavani. At that time, it was around 4 to 5 o'clock, while he was running towards Gangotri, as he did not find it safe, he returned to Lane No.4 Hussainnagar. While returning, Suresh Langda had chased him with a sword in his hand. However, since Suresh Langda could not run as fast as him, he could escape. The witness has identified accused No.25 Tiwari and accused No.22 Suresh Chhara before the court. While several omissions have been brought out in the testimony of this witness, the core of his testimony regarding his having seen the named accused in the mob on the day of the incident, is consistent.

170.39 Insofar as accused Tiwari, Suresh and Guddu are concerned, they are stated to be in the mob in the morning. Accused Suresh is attributed the overt act of chasing him in the evening. Therefore, to the extent the witness has deposed that he had seen Tiwari and Suresh in the morning mob, the witness is consistent. The witness is also consistent as regards

accused No.22 Suresh having chased him in the afternoon. Insofar as the witness has referred to the presence of accused No.25 Tiwari in the evening is concerned, no overt act has been attributed to him and all that has been stated by the witness is that he had seen Tiwari and Bhavani in the mob near Gangotri Society at about 4 to 5 o'clock in the evening. It has come on record that both Bhavani and Tiwari are residents of that area. Therefore, the presence of Tiwari near Gangotri Society cannot be said to be unnatural.

170.40 From the overall evidence of this witness, it can be said that the prosecution has established the presence of accused No.22 Suresh Langdo and accused No.25 Tiwari in the mob on the road in the morning. Considering the improvements made by the witness in his testimony, he does not come across as very credible witness, and hence, the court would look for corroboration while considering the testimony of this witness against the named accused.

171. PW-186 Taherabanu Mahammadkasam Abdulla Shaikh, aged 50 years, has been examined at Exhibit-1277. This witness has deposed that she was residing at *Pandit-ni-Chali* since 1969. At the time of the incident, she was residing with her family in this very house at *Pandit-ni-Chali*. The witness has deposed that there was an Ice Factory opposite her house at a short distance. She has stated that she was never residing at *Kashiram Mama-ni-Chali*.

171.1 The witness has deposed that her native place is *Shahpur, Karnataka*. She however has never been to Karnataka.

171.2 The incident took place on 28.2.2002. At that time, she was doing labour work in a factory and her husband was driving a rickshaw. At the relevant time, she was residing in her house at Pandit-ni-Chali with her husband and six children. Two of her sons were also working with her in the factory.

171.3 It was *jhumme raat* on the day of the incident. On that day, after having breakfast, she and both her sons had gone to their work place. After all the three of them had left for going to their work place, they came to know that there was a call for bandh. Therefore, they had returned. At that time, they had seen mobs were coming from the side of Krushnanagar as well as from the side of Natraj.

171.4 Bipinbhai (A-44) was the leader of one of the mobs and Sahejad was the leader of the other mob. Upon seeing all this, he was very frightened. On the day of the incident, the mob had set their rickshaw and a lot of other things on fire. There was arson near the masjid and they were very frightened, and hence, they went towards their house, however, on account of the riots, they could not go home and she was standing near the S.R.P. Quarters till 7 o'clock in the evening.

171.5 Thereafter, they went and sat on the terrace of a house in Gangotri Society. They stayed on the terrace till 12 o'clock at night, whereafter a vehicle came and took them to the Shah Alam camp.

171.6 She stayed at the Shah Alam camp for five to six

months. While she was at the relief camp, the police had come and recorded her statement.

171.7 The witness has deposed that she knows Bipinbhai, but she does not know Sahejad and that as she was tense, she had wrongly named Sahejad. She has deposed that she knows Bipinbhai because he was standing in front of her in the mob at the time of the incident. The witness has thereafter identified Bipinbhai (A-44) correctly.

171.8 CROSS EXAMINATION: In her cross-examination, the witness has stated that she does not know whether Bipinbhai was standing in the front yard of his garage at the time of the incident. She has stated that in the tension, she has not seen as to where he was standing, but she had seen him standing. The witness has admitted that she does not know as to whether Bipinbhai was at *Kashiram Mama-ni-Chali, Dhanurdhari Matana Mandir* or on the road, at the time of the incident. In her cross-examination, the witness has admitted that in her statement dated 12.5.2002, she has stated that her son and daughters had left their house and crossed the road and walking parallel to the S.R.P. Quarters compound wall, gone to Jawannagar. The witness has admitted that till 7 o'clock in the evening, they were standing at the wall of the S.R.P. Quarters and had left the wall after 7 o'clock and had gone to the terrace of Gangotri Society. The witness has further admitted that over and above her and her family, other Muslims were also there with them at the SRP compound wall and that she was standing at the SRP compound wall as it was safe there. The witness has admitted that during that time, she had not seen any incident taking place at Jawannagar or

Hussainnagar. In her cross-examination, she has stated that she does not know as to how she had named Sahejad in her statement before the police.

171.9 SUBMISSIONS: The learned counsel for the appellants invited the attention of the court to paragraph 10 of her examination-in-chief of the witness, to point out that she has stated that she knew Bipinbhai because at the time of the incident he was standing in the mob in front of her. Referring to the contents of paragraph 14 of her cross-examination, it was submitted that the witness has admitted that when she comes out of her house, she can see Bipin's garage, that she is not aware as to whether she had seen Bipin standing in the courtyard of his garage on the day of the incident, because due to anxiety, she had not seen where he was standing, but that she had seen him standing. It was submitted that therefore, it is quite possible that the witness may have seen Bipin in his garage. It was pointed out that in paragraph 7 of her examination-in-chief she had stated that she had seen Bipin and Sahejad leading two different mobs. It was submitted that in paragraph 10 of her deposition the witness has stated that she had given Sahejad's name out of nervousness, and hence, it is quite possible that she may have also named Bipin accordingly. It was submitted that acquaintance of the witness with the accused has not been established. It was urged that considering her entire testimony, her evidence qua Bipin may not be taken as reliable, even if it is only regarding he being part of the mob. It was submitted that this witness in paragraph 18 of her cross-examination has stated that she was standing near the S.R.P. Quarters compound wall till 7.00 in the evening, after which she had gone to Gangotri Society,

which clearly shows that there was no stone pelting or bursting of teargas shells at the S.R.P. Quarters Compound wall and that no S.R.P. personnel had beaten up any one. It was submitted that if paragraph 18 of her cross-examination cannot be reconciled with the other evidence, her testimony may not be accepted even qua Bipin.

171.10 ANALYSIS: This witness's house is situated in Pandit-ni-Chali, somewhat opposite to the ice factory. In her cross-examination it has been elicited that Bipinbhai's garage is adjoining the ice factory and that when she comes out of her house she can see Dhanurdhari Mata's temple and Bipinbhai's garage. In her cross-examination it has further been elicited that in her anxiety, she had not seen exactly where he was standing, but that she had seen him standing. This witness, in her examination-in-chief, has named two accused viz., Sahejad Chhara (A-26) and Bipin Panchal (A-44) as leading different mobs when she was returning from her work place. Thereafter, she has stated that she had given Sahejad's name out of nervousness. The witness has identified A-44 Bipin Panchal in the dock. However, from her cross examination it is apparent that Bipin Panchal's garage is situated near her house on the opposite side and when she comes out of her house she can see his garage. The witness has not been able to say where she had seen this accused; therefore, it is quite possible that she may have seen him in his garage. Considering the quality of evidence of this witness, no reliance can be placed upon her testimony for proving the charge against accused No.44 Bipin Panchal. The testimony of this witness, therefore, does not help the prosecution in proving the charge against either of the accused named by her.

172. **PW-187 Altafhussain Abdulraheman Saiyed**, aged 38 years, has been examined at Exhibit-1279. This witness has deposed that his native place is *Gulbarga, Karnataka* and that he is residing in the Naroda Patiya area since his birth.

172.1 In the year 2002, he was residing at *Lane No.2, Jawannagar* with his family which was comprised of his mother, father, wife and his son and daughter. In the year 2002 also, he was engaged in tailoring work of ready-made dresses and his wife was also doing the same work.

172.2 The incident took place on 28.2.2002. On that day in the morning, he was at home. There was a call for bandh on that day. On that day, in the morning at around 9:00 to 9:30, he came out of his house on the road. The road was very crowded. On both the sides of the road, viz., towards Natraj Hotel and Krushnanagar, there were mobs. Both the mobs got together and went near the Noorani Masjid. The people in the mob started damaging the shops and vehicles near the Noorani Masjid and setting them on fire. Both the mobs gathered near the Noorani Masjid.

172.3 The mobs thereafter went forward towards Hussainnagar. They went on burning the houses of Hussainnagar and advancing forward. He, and the Muslims residing nearby, went towards the rear side of their mohalla due to all this happening.

172.4 In the afternoon, at around 3:00 to 4:00, the mob

reached their house. At this time, they had gone towards the rear side of their house and the people in the mob were setting the house in their lane on fire.

172.5 **Bhavanisingh (deceased)** and **Tiwari (A-25)** were in this mob and he knew them. In the incident, his entire house was burnt.

172.6 He and his family members thereafter went on a terrace of Gangotri Society. Prior to going to Gangotri Society, around 3 o'clock, he had sustained stone injuries on the left side of his face, near his nose and below his eye. He also sustained a stone injury on his left hand. Both the injuries were nominal.

172.7 They had stayed on the terrace of Gangotri Society for one to two hours. Thereafter, upon the police coming near the society at night, they took them to the Shah Alam camp. He had availed of treatment at the Shah Alam camp, where they stayed for three months. While he was in the camp, the police had orally examined him in connection with the incident and had recorded his statement. The witness has stated that he does not know whether Bhavanisingh is dead or alive and that he can recognize both of them. The witness has thereafter identified Tiwari (A-25) correctly.

172.8 **CROSS EXAMINATION:** This witness has been cross-examined as regards the topography of the area. In his cross-examination he has stated that on the day of the incident he came out of his own and reached the road at the corner of the S.T. Workshop. He has stated that he cannot say exactly how

long he has stood there. The witness has admitted that in his statement dated 13.5.2002, he has stated that since he and the people of his chawl were surrounded, they had gone to the open ground on the rear side. The witness has stated that on that day they reached the Shah Alam Relief Camp at 1:30 at night. They had gone in a big police vehicle wherein there were other Muslims too. The witness does not remember as to whether the vehicle has gone straight to the camp or whether it had halted in between.

172.9 The witness has stated that they were on the open ground behind their lane in Jawannagar and were not on the open ground which was at the absolute end. The witness has admitted that they had not returned to their house from the ground on that day. The witness has denied that when he was standing at the corner of the S.T. Workshop, the people in the mob had burnt all the shops on the opposite side. The witness has stated that he has seen the mobs burning the shops.

172.10 The witness has stated that he does not know that any one was injured with the bullet while he was standing there. The contents of paragraph 4 of his examination-in-chief from the 2nd line to the 6th line are read over to the witness to the effect that he has not stated these facts in the statement recorded by the police, which the witness has denied. The contents of paragraph 8 of his examination-in-chief, wherein the witness has stated that he, together with his family, went on the terrace of Gangotri Society, are read over to the witness to the effect that he has not stated these facts in his sole police statement, which the witness has denied. The first three lines of paragraph 9 of the examination-in-chief of the witness

are read over to him, to the effect that he has not stated these facts in the statement recorded by the police, which he has denied.

172.11 The witness has deposed that he has not stated before the police that he and his family had gone towards the S.R.P. Gate. The witness has denied that he has not seen the accused whom he has named in his deposition and whom he has identified before the court on the day of the incident and that he has not seen any incident as narrated by him in his examination-in-chief and that at the instance of the members of his community he is falsely deposing before the court.

172.12 In his cross-examination the witness has stated that he had come to the open ground in the afternoon though he cannot say the exact time. The witness has stated that he had remained there for one and a half to two hours. The witness has denied that while he was on the open ground he has not seen any incident and has voluntarily stated that he has seen the houses in Jawannagar-ni-Chali being set on fire.

172.13 The witness has admitted that he had no social or monetary relations with Tiwari. He has admitted that he has identified Tiwari for the first time before the court. He has denied having seen Tiwari when he went to Gangotri Society. He has denied that he has not seen Tiwari in the entire day, and hence, in his police statement, he has not stated as to where and when he has seen Tiwari. The witness has admitted in his statement that he has not stated as to at what time he has seen Tiwari on the day of the incident. The witness has admitted that during the time when they were hiding on the

terrace of Gangotri Society and till the police came to take them he has not seen anything.

172.14 PW-279 Shri B. J. Sadavrati, the assignee officer has been cross-examined by the defence to prove the omissions and contradictions as to his statement dated 13.5.2002 recorded by him. The assignee officer has admitted that he has recorded the statement of this witness on 13.5.2002. The contents of paragraph 4 of the examination-in-chief of this witness, from the second line to the sixth line are read over to the assignee officer, wherein the witness has stated that on that day in the morning, he was at home; there was a call for bandh on that day; on that day, in the morning at around 9:00 to 9:30, he came out of his house and went on the road; the road was very crowded; on both the sides of the road, that is, on the side of Natraj Hotel as well as Krushnanagar, there were mobs. The assignee officer has admitted that such facts have not been stated by the witness in the statement recorded by him, but the witness had stated that at 10:30 in the morning, the mobs had come from both the sides. The assignee officer has stated that the witness has not stated before him that he and his family members had gone on a terrace of Gangotri Society.

172.15 SUBMISSIONS: The learned counsel for the appellants submitted that in paragraphs 4 to 6 of his examination-in-chief, the witness has given a continuous account of the mob in the morning proceeding further and reaching his house by about 3.00 to 4.00 p.m. and that thereafter they went to the rear side, but he has not

mentioned at what time and when he has seen accused Tiwari. It was pointed out that this witness has no acquaintance with Tiwari and has not stated at what time and place Tiwari was seen as part of the mob. It was submitted that no role has been attributed to Tiwari and that the statement in his deposition is omnibus and a weak one and cannot be accepted. It was submitted that therefore, it would be very hazardous to accept such testimony of the witness and since he names only two persons, who are residents of that very area, he might be aware of their names though there is no acquaintance, and, therefore, he might have given his name. It was submitted that the witness has reached the corner of the S.T. Workshop, but has stated that he has not seen any firing or bullet injuries and that after he reached the ground behind Gangotri Society, he has not seen anything on the road from Uday Gas Agency. It was submitted that even if his claim of being in Gangotri Society is accepted, even then he does not see anything till he was taken by the police at night. It was submitted that if the entire deposition of the witness is taken at its face value, he is not a reliable witness, which would also make his testimony qua accused Tiwari unreliable. The learned counsel submitted that this witness does not refer to any corpse lying on the way while going to the national highway.

172.16 ANALYSIS: From the testimony of this witness, it emerges that no substantive omissions or contradictions have been brought out in his cross-examination. It further emerges that in the morning, on the day of the incident, he had come out on the road and had seen mobs coming from both the directions near the Noorani Masjid. The people in the mob were damaging the Noorani Masjid and were setting the shops and

vehicles nearby on fire. Both the mobs had gathered near the Noorani Masjid. Thereafter, the mob had advanced towards Hussainnagar and was burning the houses and proceeding forward. At around 3 to 4 o'clock, the mob reached near his house at Jawannagar Lane No.2. During this period, they had gone towards the rear side of their house and the mob had started setting houses in their lane on fire. The witness has deposed that he had seen Bhavanisingh (deceased) and Tiwari (A-25) in the mob. Thereafter, the witness has stated that he had taken shelter on the terrace of a house in Gangotri Society. The witness in paragraph 7 of his examination-in-chief, has stated that he saw Tiwari in the mob, but has not stated as to at what time and where he had seen him. In the cross-examination of the witness (paragraph 42), it has come out that he had no social or monetary relations with Tiwari. The witness has admitted that he has identified Tiwari for the first time before the court. The witness has denied that he had seen Tiwari when he went to Gangotri Society. However, he has not specifically stated as to where he had seen him. The witness has admitted that in his statement recorded by the police, he has not stated as to at what time, he had seen Tiwari on the day of the incident.

172.7 Considering the fact that proper acquaintance has not been established insofar as accused No.25 Tiwari is concerned, and the witness has not stated any specific place and time where he had seen him, the court would look for corroboration while considering the testimony of this witness against the said accused.

173. **PW-188 Mahammadbhai Bachubhai Belim,**

aged 51 years, has been examined at Exhibit-1282. This witness has deposed that since the last seven years, he is residing at the S.T. Staff Officers Quarters and that presently, he is discharging duties as a Traffic Controller in the S.T.

173.1 In the year 2002, he was residing at *Pandit-ni-Chali, Naroda Patiya*. He was residing in *Pandit-ni-Chali, Naroda Patiya* since forty two years prior to 2002. In the year 2002, he was serving as a Conductor in the S.T. In the year 2002, his service hours were from 8 o'clock in the morning till 8 o'clock in the evening and his weekly off was on Thursday.

173.2 In the year 2002, he was residing in a joint family with his mother, father, his wife and his four children.

173.3 The incident took place on 28.2.2002. On that day, it was Thursday, his weekly off, and hence, he was at home. On that day in the morning, he had his breakfast and was at home. In the meanwhile, his wife who had gone to the road to fetch water came running from outside and told him that mobs are coming from Krushnanagar and are getting the shops shut down and are also pelting stones. She had told him about this fact at around 10 o'clock.

173.4 Upon coming to know about this fact from his wife, he came near the municipal tap at the corner of the chawl. He saw that a mob was coming from the direction of Krushnanagar and it was armed with swords, trishuls and cans filled with chemicals. The leadership of the mob was taken over by **Bipin Autowala** (A-44).

173.4 In the morning at about the same time, he had also seen another mob coming from the direction of Natraj Hotel. **Manoj Videowala (A-41), Suresh Langda (A-22)** and one Sindhi had taken over the leadership of that mob. The Sindhi leader had pock marks on his face and his complexion was dark and he was around five and a half to six feet tall. The people in the mob were armed with swords, trishuls, cans filled with chemicals.

173.5 The mob coming from the direction of Krushnanagar had parked a kerosene filled tanker near the Noorani Masjid and had brought a crane and parked it near the Noorani Masjid. The mob which was coming towards the Noorani Masjid damaged and attacked it. The mob had also beaten up the Maulana of the Noorani Masjid. Upon seeing this, Yusuf Lightwala requested the S.R.P. people sitting at the S.R.P. point nearby, to reason with the mob. The S.R.P. people, instead of stopping the mob, beat Yusuf with a baton. Since the masjid was burning, the youth started gathering near Pandit-ni-Chali.

173.6 At this time, there was firing from the side of the S.R.P. mob wherein an individual named Abid sustained a bullet injury. Thereafter, another person named Mustaq was also injured by a bullet. The persons in the mob thereafter slowly started entering the chawls next to Noorani Masjid and Pandit-ni-Chali. At this time, it was approximately 11 o'clock.

173.7 The mobs which had come to the chawls started ransacking and resorted to arson in the chawls next to Noorani Masjid, Pandit-ni-Chali, Hukamsing-ni-Chali, Chetandas-ni-Chali and Badarsing-ni-Chali. Upon seeing all this, he was afraid that

his family would be killed and at around 12 o'clock in the afternoon, he took his wife and family to the rear side towards Hussainnagar. There, they beseeched the S.R.P. personnel to let them go inside the S.R.P. Quarters behind Hussainnagar, however, they did not let them to enter the S.R.P. Quarters. In the morning, several people had gone inside the S.R.P. Quarters, however, thereafter, they were not letting anyone go inside.

173.8 After leaving his family at Hussainnagar, at around 1 o'clock in the afternoon, he returned home to collect his valuable ornaments and cash. At that time, the mobs were there and one of the persons in the mob inflicted a blow with a pipe on his right leg and they were shouting "*Kill the Miyas! Cut them*", whereupon he immediately returned to Hussainnagar without taking the ornaments and cash.

173.9 Thereafter, the mobs slowly started growing in the area near the S.T compound wall in Hussainnagar. The people in the mob were hacking down and killing people and setting them ablaze. In this situation, on account of fear, in the evening at around 5:00, he went from Hussainnagar to the terrace of a house in Gangotri Society and hid there. There were many other Muslims there. At this time, his family had got separated from him.

173.10 From the terrace of the house at Gangotri, he saw that **Jaybhavani Chhara** (deceased) and **Tiwari Conductor** (A-25) were gesturing to the people in the mob and showing them the place where they were hiding. The people in the mob had hacked people with swords and had thrown burning rags

on them and burnt them alive. He stayed on the terrace till 12 o'clock at night.

173.11 Thereafter, a police vehicle came to fetch them and took them to the relief camp. While they were taking them at night, he had seen many burning dead bodies near the S.T. wall, which were not identifiable.

173.12 While he and his wife were going from their chawl towards Hussainnagar, his wife had sustained a stone injury on her back.

173.13 In the incident, his entire house was burnt and his household goods were looted by the Chharas.

173.14 He and his wife had availed of treatment at the camp, where he stayed for approximately three months. While he was at the camp, the police had recorded his statement in connection with the incident; however, the police were not recording their statements as stated by them. Thereafter, upon the receipt of a summons from the SIT, he had gone to Gandhinagar. There also, his statement was recorded. The witness has stated that he does not know whether Bhavani is alive at present. He has stated that he can identify Bhavani, Bipinbhai, Manoj Videowala, Suresh Langdo and the person with pock marks as well as Tiwari Conductor.

173.15 Thereafter, the witness has identified Bipinbhai Autowala (A-44), Tiwari (A-25), Suresh Langdo (A-22) and Manoj Sindhi Videowala (A-41) correctly. The witness has, accordingly, correctly identified the above referred accused.

173.16 The witness has stated that amongst the accused who are sitting there he cannot see Bhavani and the person with pock marks on the face.

173.17 CROSS EXAMINATION: In his cross-examination, the witness has admitted that since many years prior to the incident he was residing in the Naroda Patiya area, and hence he is acquainted with Pandit-ni-Chali and the chawls nearby. The witness is cross-examined with regard to the topography of the area and the people residing in the locality. In his cross examination, it has come out that his statement may have been recorded two and a half months after the incident. Before the police recorded his statement, he had made an application to the Police Commissioner, Ahmedabad. The witness has stated that he has received information that his complaint has been included in I-C.R. No.210 of 2002. The witness has admitted that the SIT has recorded his statement on 26.5.2008. Certain parts of the statement of the witness, as recorded by the SIT, are put to the witness; however, since the witness is not confronted with his statement to contradict any part of his evidence, this part of his deposition is not admissible in evidence.

173.18 The application Mark 441/17 has been given Exhibit No.1283. Naroda Police Station I-C.R. No. 210 of 2002 is filed by Shri Ibrahimbhai Dawoodbhai Mansuri on 19.3.2002 and has been given Exhibit No.316.

173.19 The application (Exhibit No.1283) is given to the witness, who after reading it has stated that it has been made

by one Ibrahimbhai Dawoodbhai Mansuri and that the name of this witness is not shown as an eye witness. He has admitted that in this application the incidents seen by him are not mentioned.

173.20 [When the application (Mark No.441/17) has not been made by this witness, it is difficult to comprehend as to why the same has been exhibited in the deposition of this witness. Before a document is exhibited, the contents are required to be proved by the maker thereof. In the present case, the witness is not the author of the application (Exhibit 1283). Under the circumstances, the said document could not have been exhibited while recording the deposition of this witness.]

173.21 The FIR (Exhibit 316) is given to the witness, who after reading it has stated that there is no reference to his complaint in this FIR and that his name has not been shown as a witness in the said FIR.

173.22 A purshis has been presented together with the Loss Damage Analysis Form which is exhibited at Exhibit 1284. The witness is shown his statement dated 12.5.2002 and he has read the same. The witness has denied that in his statement dated 12.5.2002, he has not named any accused and since he could not identify any of the accused he has not mentioned such fact therein and has not mentioned any act or attributed any role to the accused in the statement. The witness has voluntarily stated that in the actual fact the police has not recorded the statement as stated by him. The witness has admitted that in his statement he has not given the names

of the people who had caused damage to his property and injured his wife, for the reason that he did not know such persons. The witness has voluntarily stated that they left their house open and went away; hence he does not know who had caused damage to it. The witness thereafter is cross-examined with regard to compensation he has received. In the cross-examination of this witness it has come out that he was not called for and test identification parade. The witness does not remember that he was called for any Test Identification Parade before any executive magistrate and that he could not identify the accused. The witness is sought to be confronted with his statement dated 12.5.2002 recorded by the police, however, the witness is not sought to be contradicted as to any part of his testimony, but certain facts stated by him in his police statement are sought to be brought on record, which is not permissible in law. Therefore, that part of the deposition of the witness is, not admissible in evidence. The witness, however, has admitted that in his statement he has stated that they had hidden themselves in Hussainnagar and that they tried to go inside the S.R.P. Quarters, but they were not permitted to go inside. The witness has stated that he was injured by a pipe when he was going from Hussainnagar to his house to get his ornaments and cash; at that time he was injured near the S.T. Workshop wall. It may be noted that the witness has already accepted such facts, the contents of his statement dated 12.5.2002 stating similar facts are still put to him. The witness has denied that he was injured by pipe at about 3:00 to 4:00 in the afternoon and has stated that he was injured by pipe at about 2 o'clock. He has admitted that after he was injured by a pipe, and returned to Hussainnagar, he had not met any of the accused named by him in his examination-in-chief.

173.23 The witness has admitted that from there they straightaway went to the terrace of Gangotri and hid there. He has admitted that till 5:00 in the evening they were on the terrace of Gangotri Society. The witness has denied that from the time when he went from Hussainnagar to the terrace till the vehicle took them to the camp, he had not seen any of the accused. The witness has admitted that at this time he had seen only Bhavani and Tiwari and had not seen any other accused. The witness has admitted that Bhavani and Tiwari, both, reside at Gangotri. He has admitted that he has seen both the accused in Gangotri Society. The witness has voluntarily stated that they were gesturing to the mob. He has admitted that he has seen the mob from the terrace.

173.24 The witness has stated that other houses in Gangotri Society were open and the residents were also there. He has denied that all the people of the society were standing in the mob. The witness has stated that they were standing in their houses. They were not standing outside their houses. The witness has voluntarily stated that as far as he knows, the residents of Gangotri Society had fled. He has admitted that when they all went there, the people of Gangotri Society had thought that they were going to attack them, hence they had fled. But actually they (the Muslims) had gone there because they were afraid.

173.25 The witness has denied that Muslims were shouting for help from the terrace of Gangotri Society and has voluntarily stated that if they had shouted, they would have been burnt. He has admitted that some people were sitting on

the terrace and others were lying down and hiding.

173.26 The witness has stated that he has not seen that Muslims had taken refuge in Tiwari's house. When he went there at 5 o'clock, he had not seen Muslims coming out of Tiwari's house. He had also not seen any people going and coming from Bhavani's house. The witness has voluntarily stated that both of them were gesturing to the mob, but he has not seen any one coming in or going out of their houses.

173.27 The witness has admitted that for three months after the incident, no police, public spirited workers or advocates had come to inquire about the incident from them. The witness has denied that for three months nobody has taken their signatures at the camp. The witness has voluntarily stated that his signature was taken on printed papers. The police have taken signatures after three months. The witness has denied that the police has not questioned them about the incident and has voluntarily stated that however, they were not recording their statements as stated by them. He has admitted that the police were not reading over their statements to them. The witness has admitted that he did not know as to what the police had written down in the statement.

173.28 The witness has stated that in his statement recorded by the SIT, he had stated that at that time he had seen that one Bhavani Chhara, who is a driver in the A.M.T.S. as well as Tiwari who had gathered Muslim people and had given them shelter. The witness has denied that in either of his two statements, he has not stated that Tiwari was gesturing towards the mob and showing the place where Muslims were

hiding.

173.29 The witness has denied that at the relevant time there were no electric light poles near the S.T. Workshop wall. The witness has stated that at that time, there were electric poles of the service line. The witness has admitted that at the relevant time there were no bulbs on the poles. The witness has voluntarily stated that inside the S.T. compound wall there were lights. The witness has admitted that inside the S.T. Workshop, there were high security towers where the watchmen could sit. He has admitted that there were very big lights on the security tower. The witness has denied that the lamps on towers were such that light would fall on the road and has voluntarily stated that there was lot of illumination in the S.T. Workshop due to these lights. However, there was very little light on the roadside.

173.30 The witness has denied that the mob which came from the direction of Naroda had entered the Muslim chawls. The witness has stated that the mobs from both the sides had entered. The witness has denied that the mob from the side of Naroda attacked Noorani Masjid and damaged it and set the chawls on fire.

173.31 The witness has admitted that the mob from Natraj may have taken around half an hour to three Quarters of an hour to burn Noorani Masjid and thereafter the mob had turned towards their chawls. The witness has admitted that all the while he was watching the attack on Noorani Masjid. He has admitted that in the meanwhile the Krushnanagar mob had pulled a kerosene tanker and crane. The witness has stated

that he does not know whether the tanker was pushed and brought. He has stated that the tanker was parked next to "Milan Scrap", near the S.R.P. Quarters and that the crane was also lying there. The witness has stated that they had driven the tanker and crane and brought them therein. The witness has admitted that there were countless people in the mob. The witness has denied that the entire road was blocked and it was not possible for anyone to move around. The witness has stated that till he was standing there he has seen traffic passing by, which was in the form of one or two vehicles. The witness has denied that the one or two vehicles were not halting on the road. The witness has voluntarily stated that a white Fronti had stopped there.

173.32 The witness has admitted that an S.R.P. Point had been placed next to the Noorani Masjid. He has admitted that it all started with stone pelting at the Noorani Masjid and thereafter by burning it and subsequently shops were burnt. The witness has voluntarily stated that firstly there was firing, thereafter mobs had entered their chawls and had started setting everything on fire. The witness has stated that the attack on the Noorani Masjid took place first. He has admitted that after the Noorani Masjid was attacked there was firing. The witness has denied that upon the Noorani Masjid being attacked the police had resorted to firing and has stated that the police were not preventing the mob, but were bringing the mob towards the chawls and firing towards them (at the Muslims).

173.33 The witness has admitted that when the Noorani Masjid was burning, Muslims had gathered. The witness has

stated that Muslim mobs had gathered near the chawls in front of the road. He has admitted that prior to the firing, teargas shells were lobbed. The witness has voluntarily stated that teargas shells were also lobbed at them. He has admitted that the S.R.P. people had also fired at them and that in this firing, Abid was injured by a bullet. The witness has stated that he does not know whether Abid has died. He is also not aware as to whether Mustaq Kaladia was injured by an S.R.P. bullet. The witness has stated that he does not know who had done the firing, but the firing took place from the opposite side. The witness has admitted that 'opposite side' means the S.R.P. Point, near Noorani Masjid as well as from the direction where there were mobs.

173.34 The witness has stated that he has never personally met Bipin. He has never gone to Bipin Auto Centre. The witness has stated that he has no social or financial relations with Bipin. The witness has stated that he does not remember as to when for the first time, he came to know that this person's name is Bipin. The witness has stated that he knew him by his face, but he has not asked his name. The witness has stated that he has not seen Bipin's house and he had no occasion to visit the *mohalla* where he was staying.

173.35 In his cross-examination it has come out that he knows Manoj since about ten years prior thereto. He had no occasion to socialize with Manoj. He has not seen Manoj doing construction work. He does not know where Manoj resides. The witness has stated that he does not know how he came to know Manoj's name for the first time, but says he knew it.

173.36 In his cross-examination, it has further come out that he knew Suresh prior to getting a job with the ST. Earlier he used to ply a rickshaw. He had no social relations with Suresh. He does not know where Suresh resides and had no speaking relations with Suresh.

173.37 The witness has denied that till the mob had attacked Noorani Masjid and caused damage, the Krushnanagar mob had not done anything. The witness has stated that the Krushnanagar mob had thrust a kerosene tanker into Noorani Masjid and also brought a crane nearby and parked it near the masjid. The witness has denied that both the mobs had gathered together and had gone to the chawls. He has stated that both the mobs had come together and attacked the masjid and thereafter both the mobs had entered the chawls. The witness is thereafter cross-examined with regard to the application made by him to the SIT. The witness is also cross-examined with regard to Abid and Mustaq who were standing there and were injured, etc.

173.38 In his cross-examination, it has come out that Abid and Mustaq were wounded by successive bullets. As soon as they were injured by bullets, they (the witness and others) had fled from the road. At this time it was approximately 11 o'clock. They had gone quite far towards the rear side, and hence, they could not hear other sounds of firing.

173.39 The witness has denied the suggestion that on that day he had gone to take refuge at Tiwari's house, but Tiwari had refused to give him refuge, and at that time, as Tiwari had given refuge to other people, but had refused to give him

shelter; he was falsely implicating him.

173.40 To bring out the omissions and contradictions in the testimony of the witness, the defence has cross-examined the concerned assignee officer/Investigating Officer.

173.41 PW-278 Shri R.B. Joshi, the assignee officer, in his cross-examination, has admitted that he has recorded the statement of this witness on 12.5.2002 and that he had recorded this statement as stated by the witness. The assignee officer has stated that this witness in the statement recorded by him has not stated either the names of the accused nor has he stated any fact that he knew the accused or regarding any accused having taken part in the incident or having committed any overt act. The assignee officer has admitted that this witness, in his statement recorded by him, has stated that on 28.2.2002 there was a call for Gujarat bandh and since he had a holiday on Thursday, he had not gone for his job and was present at home and had woken up in the morning and had tea and was sitting at home and his wife was filling water. One fails to understand as to why such contents of the statement of the witness are sought to be brought on record inasmuch as the same only relate to the facts prior to the incident and have no relevance insofar as the offence is concerned.

173.42 The assignee officer has also admitted that the witness had not stated that his wife had gone to road to fetch water but has stated that she was filling water. The assignee officer has further admitted that this witness in the statement recorded by him had stated that at that time, in the morning at around 9:00 to 9:30, his wife suddenly came home and started

saying that mobs of people are coming from the direction of Krushnanagar and upon her informing him, he came out of his house to the corner of the chawl and saw that the people in the mob were pelting stones and setting houses on fire and the people in the mob were all shouting and saying "kill" "cut" and hence, he together with his wife and children went and hid on the rear side in Hussainnagar. From the cross-examination of the assignee officer, it is evident that no part of what is stated by the witness in his examination-in-chief is sought to be contradicted and proved through the assignee officer. Through the process of cross-examination, only what is stated by the witness in his statement recorded by the assignee officer is sought to be brought on record in total violation of the provisions of section 162 of the Code.

173.43 The assignee officer has further admitted that this witness had not stated before him that Tiwari was gesturing to the mob and was showing them where the Muslims were hiding.

173.44 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross examination, admitted that he has recorded the statement of this witness on 26.5.2008. He has admitted that this witness had not stated before him that in his earlier statement, the police had not recorded what was stated by him. He has admitted that the witness has not given any explanation with regard to his earlier statement or complaint. He has admitted that this witness in the statement recorded by him, has not stated that Tiwari had gestured to the people in the mob and was showing them where the Muslims were hiding. The Investigating Officer has clarified

that the witness had stated that Bhavani Chharo, who is a driver of a bus in the A.M.T.S., he and Tiwari, who had gathered the Muslims and had given them shelter and out of them, Bhavanisingh from the terrace was gesturing to the people in the mob as to where the Muslims were hiding.

173.45 SUBMISSIONS: The learned counsel for the appellants submitted that this witness has not named any accused in his police statement. The allegations against accused Tiwari are made for the first time before the SIT. It was submitted that even before the SIT insofar as the role attributed to Tiwari in the examination-in-chief is concerned, it is missing. Referring to paragraph 15 of the examination-in-chief of the witness, it was stated that the allegations against Tiwari are coming for the first time before the court, whereas in case of Bipin, Manoj and Suresh, they are sought to be implicated for the first time in the statement recorded by the SIT. It was submitted that no overt act has been alleged against any of the accused and that they are seen only in the morning mob and not thereafter.

173.46 It was submitted that as far as Bipin, Manoj and Suresh are concerned they are alleged to be present and leading the mob in the morning at about 10:00 a.m. Their names have not been mentioned before the police and for the first time before the SIT, their names and the fact regarding them being leaders are mentioned. Even before the SIT, no further overt act or participation is alleged against them. There seems to be no acquaintance with all the three accused having regard to paragraphs 85, 86 and 87 of the deposition qua Bipin and paragraph 85 qua Manoj and paragraphs 89 and

90 qua Suresh. It was submitted that insofar as Tiwari and Bhavani are concerned, an allegation has also been levelled against Bhavani for the first time before the SIT and against Tiwari only before the court. It was submitted that though the witness did not attribute anything to Tiwari either before the police or the SIT, he has made allegations against Tiwari about pointing out the place where Muslims were hiding to the mob, while in fact he made such allegations against Bhavani in the statement recorded by the SIT. It was submitted that Tiwari being a local resident of that very area, his presence at the spot would be quite natural and even as per the evidence of this witness and other witnesses also, Tiwari had given shelter to Muslims which would not make him criminally liable for any offence. Since three of the accused are named without any acquaintance for the first time before the SIT, in absence of any test identification parade, believing his evidence would be hazardous and even otherwise on the facts that he has narrated before the court it appears that he is not a reliable and truthful witness.

173.47 It was submitted that while before the court he makes a grievance that his statement was not being correctly recorded by the police, it has been proved by the Investigating Officer (SIT) that he has not made any such grievance before the SIT on this issue. Referring to paragraph 15 of the examination-in-chief of the witness, it was submitted that the witness has stated that he was on the terrace of Gangotri till 12:00 at night and as per his say in paragraph 16 of his examination-in-chief, when the police took them to the relief camp, he saw burning dead bodies near the S.T. compound wall which were not identified. It was submitted that there are

major and vital inconsistencies between the deposition of this witness and depositions of other witnesses which creates serious doubts about his presence on the road in the morning. As regards the evening incident, it was submitted that he has not stated as to on the terrace of which house in Gangotri Society he was, the spot where the people were burnt, and at what time. It was therefore, submitted that this witness is not a credible or reliable witness and no part of his evidence can be relied upon for the purpose of establishing the charge against the accused.

173.48 Mr. Prashant Desai, learned Special Public Prosecutor submitted that this witness has spotted Tiwari from the terrace of Gangotri, but under section 149 of the Penal Code, specific overt act is not necessary and if he is a member of an unlawful assembly and has knowledge of the same being an unlawful assembly, then in that case, that accused is equally liable and the argument of the defence that no specific overt act is attributed will not hold good in view of various judgments of the Supreme Court.

173.49 It was submitted that insofar as Bipin, Suresh and Manoj are concerned, the witness has attributed specific role in the morning incident to all the three where he has recognized them in the mob as leaders of the mob and other people were following them. Thus, they are proved to be the main perpetrators of the crime and after the morning incident, the assault had increased and the enormity of the crime was also widened. It was submitted that their names do not appear before the police, but before the SIT, he has named them with specific role which should be taken into consideration and the

investigation as a whole should be considered and weighed in respect of further investigation.

173.50 It was submitted that the argument of absence of prior acquaintance with the accused and the fact that no test identification parade is held, deserves to be rejected. It was submitted that the test identification parade is not required in a case where the persons are from surrounding locality and are seen daily. It was submitted that the witness could recognize them by their faces and identify the accused in the open court and such identification is considered to be valid and legal. In that view of the matter, this witness is credible so far as both the incidents are concerned and should be believed.

173.51 ANALYSIS: This witness, in his examination-in-chief, has deposed regarding having seen Bipin Autowala (A-44) taking over the leadership of a mob which had come from the direction of Krushnanagar when he came out on the road at about 10 o'clock in the morning. The witness has further deposed about having seen a mob coming from Natraj Hotel, which was being led by Manoj Videowala (A-41) and Suresh Langdo (Chhara) (A-22) and another Sindhi person. The witness has deposed that there was firing from the S.R.P. mob and a person named Abid came to be wounded by a bullet. Subsequently, another person named Mustaq was also wounded by a bullet. Thereafter, the people in the mob started slowly entering into the chawls. This was at around 11 o'clock. The mobs started damaging the chawls and setting them on fire and also started entering the chawls near the Noorani Masjid and opposite it. Upon seeing all this, at around 12 o'clock, he took his family and went on the rear side of the

chawls towards Hussainnagar. They had beseeched the S.R.P. people to permit them to enter the S.R.P. Quarters; however, they were not allowed to do so. The witness has deposed that he left his family at Hussainnagar and went to get his valuables. Later on, the mobs started gathering at Hussainnagar near the S.T. compound wall and started assaulting people and burning them, due to which, at around 5 o'clock he went from Hussainnagar to the terrace of a house in Gangotri Society and hid there. From the terrace of Gangotri Society, he had seen Jaybhavani Chhara and Tiwari Conductor gesturing at people and showing them where they were hiding. In the cross-examination of the witness, no contradictions have been brought out as regards the sequence of events narrated by the witness; however, the witness has been contradicted as to his statement dated 12.5.2002, to the effect that he had not named any accused in such statement. This contradiction has been proved through the testimony of PW-278 Shri R.B. Joshi, the assignee officer, who, in his cross-examination has admitted that this witness, in his statement recorded by him, had neither stated the names of the accused or that he knew the accused nor had he stated anything regarding any accused having taken part in the incident or having committed any overt act. Thus, while the sequence of events, as narrated by the witness has been established, a material omission has been brought out and proved that he had not named any of the accused in his statement recorded by the police. It appears that subsequently, the witness has named accused Bipin (A-44), Manoj (41) and Suresh (A-22) before the SIT. However, insofar as accused Tiwari (A-25) is concerned, it is only for the first time before the court that the witness has made the allegation regarding Tiwari pointing out the place where the

Muslims were hiding. Therefore, insofar as accused Bipin, Manoj and Suresh are concerned, the witness has named them for the first time before the SIT in the year 2008 and insofar as accused Tiwari is concerned, an allegation has been made against him for the first time in the court. In the opinion of this court, since the accused named by this witness in his statement before the SIT, have been named by other witnesses in their police statements, there is no reason to believe that, at the relevant time, though the witness has named these accused, the police had not written them down, more so, when no such grievance was made before the SIT. Under the circumstances, it would be hazardous to rely upon the testimony of this witness for the purpose of establishing the charge against the accused, namely, Bipin (A-44), Manoj (41) and Suresh (A-22) and Tiwari (A-25). However, to the extent of the narration of the events that unfolded on that day, no contradiction has been brought on record, and hence, the same is required to be accepted.

174. **PW-189 Mahammadimran Imtiyazhussain Momin**, aged 29 years, has been examined at Exhibit-1289. This witness has deposed that right from childhood, he is residing at *Lane No.1, Hussainnagar*. Till he went to reside at Juhapura, he was residing at Hussainnagar. After his marriage, he was residing at *Lane No.7, Hussainnagar*.

174.1 In the year 2002, he was residing at *Lane No.7, Next to S.T. Workshop, Naroda Patiya*. At the relevant time, his wife and his younger brother and sister used to reside with him. He had a pan-galla and tea stall at *Chetandas-ni-Chali, Next to S.T. Workshop*. He used to open his shop from 7

o'clock in the morning till 8 o'clock at night and carry on his business.

174.2 He has failed in the 10th standard. The incident took place on 28.2.2002. On the day of the incident, he had opened his Noorani Pan Centre and Tea Stall at 7 o'clock and was sitting there and was carrying on his business. On that day, there was a call for Gujarat bandh. At around 8:00 to 8:30, his mother came to his cabin and told him to shut the shop as mobs had started gathering towards Natraj Hotel and the atmosphere was bad. Hence, he had closed his shop and had gone to his mother's house in *Lane No.1, Hussainnagar*.

174.3 On 27.2.2002, as his wife was about to give birth to a child, she was admitted in the Motibai Hospital, and hence, she was in the hospital.

174.4 A little while after he went to his mother's house at Lane No.1, Hussainnagar, there was shouting outside. Therefore, he, together with his friends, came out to the entrance of the lane to watch. He came out of his lane and went to the corner of the S.T. Workshop. At that time, it was about 9:00 to 9:30 in the morning.

174.5 Next to the S.T. Workshop, towards Natraj, there were mobs. They were shouting "kill, cut" and were burning carts, cabins and shops near their Noorani Masjid. Thereafter, they started pelting stones at them. Thereafter, the police fired at them when Priya Talkieswala, Pirubhai was hit by a bullet. They lifted Pirubhai and took him to the veranda of his mother's house. Moreover, at that time, Priya Talkieswala

Mahammadbhai, Mustaqbhai and another were also injured by bullets. In all, four persons, were injured. Out of them, Abid was injured on the waist with the bullet. They took Mahammadbhai also to their veranda.

174.6 In the mob near the Noorani Masjid, he had seen Suresh and Manoj Videowala, wherein Suresh had a sword and Manoj Videowala had a trishul and private weapon in his hand. All of them were pelting stones and were shouting "kill, cut". Thereafter, he returned to his mother's house.

174.7 He stayed at his mother's house till 11:30 to 12:00. He, together with his mother and others, went from his mother's house towards the rear side when he saw that they were throwing burning rags from the S.T. Workshop and were pelting stones. His sister Shamimbanu sustained burns on her hand from a burning rag. From there, they went to Lane No.4, Hussainnagar. In Lane No.4, Hussainnagar, they went to the terrace on the third floor of the Pinjara's house.

174.8 From the terrace on the third floor of the house, he saw that the people in the mob were looting household articles from their house and were burning them. They were assaulting and killing. In the mob, there were three brothers, viz., **Guddu Chharo (deceased), Hariyo Chharo (A-10) and Nariyo Chhara (A-1)**. They were assaulting and killing and all three of them were leading the mob and were gesturing to where their people were hiding to the mob. These people were looting from the houses and setting them on fire. All the three brothers, viz., Guddu, Hariyo and Nariyo had swords in their hands. At this time, it must have been approximately 2:30 to 3 o'clock in

the afternoon. They were ransacking their chawls and they (the witness) were watching all this.

174.9 After noon, from the very same terrace, they had looked towards Gangotri Society. There, the Chharas were drumming sticks on *thalis* (metal plates) and were sending the mobs that were coming from behind Gangotri to Hussainnagar. **Dalpat and Bhavani** (both deceased) were amongst the people who were doing this act. They had stayed on the terrace of Lane No.4, Hussainnagar till 12 to 1 o'clock at night.

174.10 The police were shouting from below that they had come to take them to the relief camp. Thereafter, the police took them in a police van. While they were going, they had seen burning dead bodies on the road. The police had taken them to the Shah Alam relief camp.

174.11 His father who used to work as a helper in the S.T. Workshop had gone for work on that day. They had met him at the camp ten days after the incident.

174.12 His sister Shamimbanu who had sustained burns was treated at the Shah Alam camp. They had stayed at the Shah Alam camp for six months. After sometime, the police had come to orally examine them at the Shah Alam camp and had recorded his statement.

174.13 In the incident, everything in his house was looted. However, his house was not set on fire. The SIT had also recorded his statement.

174.14 The witness has stated that he does not know whether Guddu, Bhavani and Dalpat are presently alive.

174.15 He has stated that he knows Suresh, Haresh, Naresh and Manoj and can identify them. The witness has, accordingly, identified Naresh (A-1), Haresh (A-10) and Suresh (A-22) correctly. The witness could not identify Manoj Videowala (A-41) though he was present in the court.

174.16 CROSS EXAMINATION: In the cross examination of this witness it has come out that he has studied up till the tenth standard in a Gujarati medium school. He was running Noorani Pan Centre and Noorani Tea Stall since 1998. Both the stalls were situated on the road at the time of the incident. His tea stall and pan centre were on the service road touching the national highway. His wife-Bilkisbano was expecting at that time and his maternal grandmother and maternal aunt had taken her to the hospital for delivery.

174.17 The witness has stated that he knew Pirubhai and Mohammedbhai who were injured, because they were residing in lane No.1 and he knew the other two persons because they used to come to have tea at his stall. The witness has stated that his house is the first house in lane No.1 of Hussainnagar and is situated in the corner.

174.18 In his cross-examination (paragraph 27) the witness is confronted with his police statement dated 13.5.2002 to the effect that he has stated therein that at that time in the morning at eight thirty the police came and told him to shut down his stall as the situation was volatile. It may be noted

that the witness is merely confronted with his police statement without pointing out as to which part of his testimony he is sought to be contradicted, which is clearly not in consonance with the provisions of section 162 of the Code read with section 145 of the Evidence Act.

174.19 The witness has stated that he had closed his tea stall and brought his cart and parked it at his mother's place. At that time it must have been around 08.00-08.30 in the morning. He has admitted that thereafter, his family members were sitting at his house in lane No.1. The witness has admitted that by the time he took the goods from his tea stall and came to his verandah, the people in the mob had not entered his chawl. In his cross-examination it has come out that the Police firing took place near S.T. Workshop gate. The witness has stated that he had lifted the persons who were injured in the firing. He had taken Pirubhai who was injured by bullet on his leg. They had lifted him by his limbs and had taken him. He does not know other persons, who helped him in lifting him. They had lifted him and placed him on the platform outside his mother's house. Two or three other persons also got injured by bullets and they had also taken them; after leaving Pirubhai they had gone and brought them. The witness does not know as to who are the other persons who helped them in bringing them inside. He has admitted that out of four people who were injured, three were brought to the platform outside his mother's house. The witness has admitted that till they brought the persons who were injured inside and put them on the platform, the people in the mob had not entered their chawls. He does not know how long the injured persons were kept on the platform. Nobody had waited to provide them

treatment. The witness has stated that till he left his house with his family, all the injured were not on the platform. He is not aware as to whether the guardians and successors of these three persons had come and taken them away.

174.20 The witness has stated that he, together with his family, was at his mother's house till 11:30 to 12:00 in the afternoon. He has admitted that in lane No.1 they were at Pinjara's house. They were on the terrace and were sitting down. In his cross-examination it has come out that apart from them there were around two hundred and fifty to three hundred people on Pinjara's terrace. They were on the terrace from the morning till around 12:00. He has admitted that his sister- Shamimbano, who had sustained burn injuries caused by burning rags, was not provided any treatment on the Pinjara's terrace. When he left Pinjara's terrace there were around two hundred and fifty to three hundred people. He has admitted that all of them were together in a big police vehicle.

174.21 The witness has stated that he had not gone to meet his wife-Bilkisbanu from the relief camp. He had not gone to the hospital even after one week and that after seven days his wife had come to the camp. The witness has denied the suggestion that leaders of Jawannagar Vikas Ekta Committee and Nazir Master had come to meet them at the camp. He has also denied that leaders of different chawls time and again used to hold meetings as to names of which accused should be given and used to consult the organizers of the camp and as to what kind of statements should be given. The witness has denied that he did not have any kind of dealings with the accused whom he had named and identified before the court

and has voluntarily stated that they used to come to his tea stall to have tea. The witness has denied that Nazir Master from Jawannagar Vikas Ekta Committee had come to him and told him to give names of these accused. The witness has admitted that till 13.5.2002 when his statement was recorded he had not informed any person about the offence committed by the accused. The witness has voluntarily stated that when the police came he had informed them. The witness has stated that on 28.2.2002 despite bandh call he had opened his tea stall, because he had no idea that such an incident would take place. The witness has stated that his tea stall and paan galla were near to each other. On the day of the incident when his mother came to ask him to close his shop, prior thereto, no one had come to get his shop shut. The witness is cross examined with regard to the topography of the area.

174.22 The witness has stated that when he and his mother came out of their house, many people from their chawl were at the corner. He has stated that they had not pelted stones because they were standing there for their defence. They had not made any preparations for their defence. On the opposite side since the masjid was being damaged and there were instances of arson, they were standing there for their protection. The witness has stated that after he came to the corner he had stood there for around two to two and a half hours and that the persons standing near him and with him were not injured by stones.

174.23 In his cross-examination it has further come out that he has not seen that the mob which was there had rushed and entered inside. He has denied that he has not seen any

one amongst them having fallen down and his leg having been fractured. He has stated that Pirubhai was injured by bullet on his leg. He has admitted that it has not happened that any one from amongst them fell down while running and was injured on leg. He has stated that he has not heard that on that day Muslim mob had fled and that one of the persons had fallen down and others had run over him due to which such person had sustained fracture on his leg.

174.24 The witness has stated that he has not seen any one firing or being injured by bullet, but he knew about such injury, namely, that somebody was injured with bullet, but he has not seen who had fired the bullet. He has further stated that on that day after he returned home he had not stayed there for two hours. They must have stayed at home for around half an hour to three-quarters of an hour. He has admitted that as long as he was at home no one had attacked their house and till he was standing at the corner, the Hindu mob had not entered their chawl. The witness has admitted that when they were going from their mother's house, on the way, they have not met any Hindu mob. They had not seen any Hindu rioting while they were on their way. He has further clarified that he has seen the incident that had taken place at the S.T. Workshop which he had narrated earlier. In cross examination of the witness it has come out that they had gone to the terrace of the Pinjara's house through staircase, but where the staircase starts there was a door which they had closed; when he had gone to the Pinjara's house, at that time the stair case door was open. The witness has admitted that from the Pinjara's terrace one can see Gangotri Society. The witness is cross examined with regard to topography of the

area, around the Pinjara's house and the area which could be seen while standing on the Pinjara's terrace. The witness has denied the suggestion that if there are mobs in the chawls, one cannot identify who is there in the mob. The witness has admitted that he does not know as to who has looted goods from his house on the day of incident.

174.25 The contents of paragraph 10 of his examination-in-chief are read over to the witness and he has admitted that he has stated the facts stated therein. The witness has admitted that he had not seen Guddu Chara, Hariyo Chara and Nariyo Chara assaulting any one and he had not stated so before the police. The witness has admitted that on that day after he climbed inside the Pinjara's house he got down only at night. He had left his house at around 11:30 to 12:00 and had gone straight to the Pinjara's house where he reached within five to seven minutes.

174.26 The witness has admitted that he himself has not seen the accused assaulting or cutting any one from the area. He has admitted that except for the accused he has not seen any one assaulting any one. He has admitted that for this reason, in his statement recorded by SIT and the police he has not clearly stated as to which accused has assaulted whom.

174.27 The witness has admitted that prior to going to the SIT for recording his statement, he had made an application. The witness has denied that till he made the application to the SIT he did not know any of the leaders, arsonists or assailants. He has denied that when he made application to the SIT he did not know the names of any accused and therefore, he has not

stated the names of any of the accused. The witness is thereafter examined with regard to the application made by him. The witness has admitted that prior to making the application to the SIT, the statement recorded by the police at the camp had not been read over to him. The application Mark 644/65 is shown to the witness who has admitted his signature at the end of the document. The contents of the application are read over to the witness, who has admitted the same. The application is numbered as Exhibit No.1291. The witness has stated that he does not know as to who has written the application and in whose handwriting it has been written. The witness is extensively cross-examined with regard to where, when and how application was made. The witness is further cross-examined with regard to the topography of the area, etc.

174.28 The witness has denied that he has not stated the facts regarding Suresh Langda, as stated by him in his examination-in-chief, in his statement recorded by the police. He has denied that he has not stated any facts regarding Dalpat in his police statement. He has also denied that he has not stated the fact regarding Bhavani and Dalpat drumming on plates and gesturing to the people in the mob and sending them to Hussainnagar in his statement recorded by the police. The witness has denied that in his statement dated 13.5.2002 he has not stated any fact about his having gone to the Pinjara's terrace and having seen the incident from there. The witness has denied that after his mother went home he had straightway gone to Gangotri Society. The witness is confronted with his statement dated 13.5.2002 to the effect that he has stated therein that upon the houses in chawls being ransacked and set on fire and people being burnt alive,

to protect his life he went to the terrace of a house in Gangotri Society and hid there. The witness has denied that all the facts stated by him regarding having gone to the Pinjara's terrace are got up and false.

174.29 The witness has denied that in his statement dated 13.5.2002, he has not stated that the accused named by him whom he had identified before the court, had any kind of weapons with them. The witness has admitted that his mother's name is Rashidabano. He has admitted that after his mother met him in the morning at 8:00 to 8:30 at his tea stall, he was together with her for the entire day. The witness has clarified that he and his mother had gone home on the road together, till then, they were together and thereafter she had stayed at home, he had gone on the road. He has admitted that after he and his mother went home from tea stall, his mother thereafter did not return to the road.

174.30 To prove the omissions and contradictions as to his previous statements recorded by the investigating agencies, the defence has cross-examined the concerned, Investigating Officer/assignee officer who had recorded such statement.

174.31 PW-278 Shri R. B. Joshi, the assignee officer, has in his cross-examination admitted that he had recorded the statement of this witness on 13.5.2002. The assignee officer has admitted that this witness had stated before him that then at the morning at around 8:30, the police had come and told him to shut down the stall as the atmosphere was volatile.

174.32 The assignee officer has also admitted that this

witness had stated that therefore he had parked his cart at Jawannagar near the house of his parents and had come out on the road to watch. The assignee officer has admitted that this witness had told him that he had parked his cart at Jawannagar and had not stated that he had parked it at Hussainnagar. It may be noted that this part of the previous statement of the witness is used to contradict what has been stated by the witness in paragraph 98 of his cross-examination and not to contradict any part of his primary statement, therefore, the same is not admissible in evidence.

174.33 The assignee officer has also admitted that this witness in the statement recorded by him has not stated any facts regarding Dalpat and Suresh Langdo. The assignee officer has admitted that this witness had not stated before him that Bhawani and Dalpat were ringing thaalis and were gesturing and sending the mobs towards Hussainnagar. He, however, has stated that the witness has specifically given the name of Bhavani Chhara in his statement. The assignee officer has also admitted that this witness had stated before him that no person in his family had sustained any kind of injury or loss of life in the riots. He has also admitted that the witness has not stated before him that he had a pan cabin near the Noorani Masjid but has stated that he had stated that he had a tea stall. In the opinion of this court, the fact as to whether the witness had a tea stall or a pan cabin can hardly be said to be a material omission or a material contradiction within the meaning of such expression as contemplated under section 162 of the Code. The assignee officer has also admitted that the witness has not stated before him that he had gone to the Pinjara's terrace and had seen the incident from there.

174.34 The assignee officer has admitted that this witness has stated before him that the atmosphere was volatile due to which, he had shut the tea cart and had packed all the goods in the cart and had gone inside near Jawaharnagar and had parked his tea cart and was making tea when.... It may be noted that this part of his previous statement has not been put to the witness to contradict any part of his primary statement before the court, but is put to the witness to contradict an answer elicited in his cross-examination, and is therefore, not admissible in evidence.

174.35 The assignee officer had also admitted that the witness has stated before him that the locks of the houses in the chawls were being broken and houses were damaged and were set on fire and people were being burnt alive and he had saved his life and had gone to a terrace at Gangotri Society and hidden there. The assignee officer has also admitted that this witness in his statement recorded by him has not referred to any weapon in the hands of the accused named Manoj, Suresh, Guddu, Nariyo, Hariyo, Dalpat and Bhavani in the statement recorded by him. The assignee officer, however, has stated that the witness had named Manoj, Guddu, Nariyo, Hariyo, Bhavani and Bipin. It may be noted that the omission sought to be proved through the testimony of the assignee officer is regarding the witness not having mentioned the accused named therein as having weapons in their hands. Therefore, to the extent the assignee officer has clarified the fact regarding the witness having named the accused to bring out the exact nature of the omission, however, while doing so the assignee officer could not have referred to the witness

having named Bipin in the statement recorded by him.

174.36 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross examination, admitted that he has recorded the statement of this witness on 10.6.2008. He has admitted that this witness had stated before him that his statement dated 13.5.2002 recorded by the police had been read over to him and that the same is correct and proper. This part of the testimony of the Investigating Officer is inadmissible in evidence inasmuch as the statement recorded under section 161 of the Code is sought to be used for a purpose other than contradicting the primary statement of the witness.

174.37 SUBMISSIONS: The learned counsel for the appellants invited the attention of the court to paragraph 113 of the cross-examination of the witness, wherein he has been confronted with his statement dated 13.5.2002 to the effect that he has not stated that he had gone to the Pinjara's terrace. It was submitted that omission is proved that he had not stated that he had seen the accused from the Pinjara's house and that before the Investigating Officer he had stated that he had gone to Gangotri without reference to the Pinjara's house. It was pointed out that this witness refers to three separate incidents involving different accused. In the first incident he has stated that he has seen Suresh and Manoj as part of the mob near the Noorani Masjid with weapons. It was pointed out that Suresh is not named before police and the witness has given his name for the first time before SIT. The witness has also attributed weapons in the hands of Suresh for the first time before SIT. It was submitted that insofar as

accused No.41 Manoj is concerned, he has not been identified by the witness before the court. The witness had named him before the police as well as before SIT, but without reference to any weapons as attributed in his examination-in-chief.

174.38 It was submitted that in the second incident which he has stated that he saw from the Pinjara's house in Lane No.4 between 2:30 to 3:00 in the afternoon, the witness has involved Guddu, Hariyo (accused No.10) and Nariyo (accused No.1). It was pointed out that the very fact that the witness has gone to the Pinjara's house is absent in the police statement of the witness and on the contrary in his police statement he has stated that he had gone to Gangotri and hidden there. It was submitted that when the very fact that the initial stage of going to the Pinjara's house was not there in the police statement, there is no question of the witness having seen these accused from the Pinjara's house. Therefore, as to from where he has seen these accused is not certain. It was submitted that for the first time before SIT, the witness has stated that all three of them were wielding swords. It was contended that when the witness refers to the accused as Nariyo and Hariyo, it is difficult to establish the identity of such accused in the absence of a test identification parade.

174.39 It was submitted that in third incident, the witness has named Dalpat and Bhavani, both of whom are dead and has stated that they were seen in the mob in the afternoon. It was submitted that Dalpat was named for the first time before the SIT. The attention of the court was invited to the admissions elicited in paragraph 87 of the cross-examination of the witness, wherein he has stated that he has not seen any

person from his area causing any injury to anyone. It was urged that there are inconsistencies which are vital and material between the evidence of this witness and the evidence of his mother PW-192 and other witnesses. Therefore, the testimony of this witness is neither credible nor reliable and cannot be relied upon to establish the charge against the accused.

174.40 ANALYSIS: From the testimony of this witness it can be seen that while cross-examining him, the witness is straight away confronted with his statement dated 13.5.2002 in respect of certain facts stated in his examination-in-chief without referring to the part of his examination-in-chief in respect of which he is sought to be contradicted, which is not strictly in consonance with the provisions of section 162 of the Code read with section 145 of the Evidence Act. Be that as it may, certain omissions/contradictions in his testimony as to the facts stated by him in his statement dated 13.5.2002 have been brought on record and have been proved through the testimony of the assignee officer who had recorded his statement.

174.41 This witness has deposed that he had seen accused No.22 Suresh and accused No.41 Manoj Videowala in the mob near the Noorani Masjid in the morning with weapons in their hands. However, the witness has been contradicted in this regard and an omission has been brought on record and proved that he had not named accused No.22 Suresh, in his statement dated 13.5.2002. Thus, the witness has named him for the first time in his statement recorded by the SIT in the year 2008. Insofar as accused No.41 Manoj Videowala is

concerned, while the witness is consistent in his version regarding his presence in the mob near the Noorani Masjid in the morning in all his statements as well as in his deposition before the court, he has failed to identify him in the dock.

174.42 The witness has also deposed that from the terrace of the Pinjara's house with three floors, in a mob which was looting household goods and committing loot and arson, he had seen Guddu Chhara, and his two brothers Nariyo and Hariyo and that they were assaulting and hacking. These three persons had taken over the leadership of the mob and were gesturing to the mob to show them where their people were hiding. The witness has also deposed that all the three brothers had swords in their hands. In this regard, in paragraph 80 of his cross-examination, the witness has admitted that he has not seen any of the three accused assault anyone. While the witness claims to have seen them from the terrace of the Pinjara's house, a contradiction has been brought out and proved that in his statement recorded by the police he had stated that the locks of the houses in the chawls were being broken and they were being damaged and the houses were being set on fire and people were being burnt alive and to save his life he had gone on the terrace of a house at Gangotri Society and had hidden there. Thus, there is a contradiction as to from where he had seen the three accused. Nonetheless the fact remains that the witness has consistently named these accused in his first statement recorded by the assignee officer and has also named them in his testimony before the court. Therefore, the fact regarding the witness having seen the three accused in a mob that was looting houses and damaging them is consistent, except for the fact as to where he had seen

them. Therefore, while considering the testimony of this witness qua these three accused, the court would have to look for corroboration from the testimonies of other witnesses. Insofar as the absence of a test identification parade to establish the identity of the two accused persons is concerned, while it is true that they have been referred to as Hariyo and Nariyo, at the same time they have been described as Guddu Chhara's brothers. In the opinion of this court, there are hardly any chances of there being three other brothers by the same name in the area. Therefore, it cannot be said that because the witness has referred to the accused as Hariyo and Nariyo their identity is not established.

174.43 As regards the third incident wherein the witness has named Dalpat and Bhavani in the mob in the afternoon, it has been pointed out that Dalpat's name has come up for the first time before the SIT. Since both these accused have died since a long time, the complicity or otherwise of these accused is no longer in issue.

174.44 As regards the discrepancies in the testimony of this witness and the testimony of his mother PW 192, such minor discrepancies which have no direct connection with the core of his testimony would not affect the credibility of the witness. One must remember that the witnesses have been examined about eight years after the incident. Therefore, it is too much to expect the witness in his cross-examination to be able to remember with certainty as to who else was present at a particular site. Hence, when the witness in his cross-examination states that he had not seen any woman who was a local resident on the road in the morning, it does not mean

that there was no woman on the road, but only that the witness has not noticed the presence of women on the road or at least he does not remember it.

174.45 While it is true that the witness has improved upon his previous statement in his subsequent statement and before the court, and there are embellishment and exaggerations in his testimony, to the extent the witness is consistent in his version, the same deserves to be accepted and his entire testimony cannot be discarded. Through the testimony of this witness the prosecution has proved the presence of A-1 Naresh and A-10 Haresh in the mob which was looting household goods and committing loot and arson, and that they were assaulting and hacking. However, the court would look for some corroboration to his testimony qua these accused.

175. **PW-190 Salauddin Abdulkarim Shaikh**, aged 32 years, has been examined at Exhibit-1295. This witness has deposed that he is residing at *Juhapura* since the last six years. Earlier, he used to reside at *Jawannagar, Naroda Patiya* since his birth.

175.1 In the year 2002, he was residing at Jawannagar with his mother, father and his family.

175.2 In February, 2002, upon getting married, he went to live separately from his parents and went to Jawannagar. The house in which he went to stay in Jawannagar was of his ownership. At the relevant time, he used to bring cloths from outside and do tailoring work. In 2002, at the time when he was residing at Jawannagar, his father Abdulkarim and his

mother Sajidabegam and his brother and sister, used to reside in *Pandit-ni-Chali* which is next to the S.T. Workshop compound wall.

175.3 On 27.2.2002, the Godhra incident took place. This incident took place on 28.2.2002. On that day, he woke up at 8 o'clock in the morning and had breakfast. He went outside near the gate of the S.T. Workshop on the road. On that day, people were running around in their area and hence, he had come out to see. When he came out, he saw mobs coming from the direction of Natraj Hotel and the people in the mob were pelting stones.

175.4 The Muslims tried to reason with the people in the mob not to act like this, however, they did not agree. Thereafter, the people of the same mob started pelting stones at the Noorani Masjid. The people in the mob started looting the shops and cabins outside the Noorani Masjid and started setting such shops and cabins on fire and burning them.

175.5 Thereafter, the mobs started increasing. At that time, a mob was also coming from the direction of Krushnanagar. This mob was also pelting stones. At this time, a police vehicle came near the gate of the S.T. Workshop. The police vehicle released tear gas shells on the Muslims and also resorted to firing wherein four persons were injured by bullets. On account of the firing, they went inside.

175.6 The mob of Hindus set a tanker standing near the Noorani Masjid as well as a rickshaw standing there on fire. Upon seeing all this happen, he went towards Jawannagar. He

went home.

175.7 Thereafter, after a little while, he came out of his house where the lane from his house ends near the S.T. Workshop compound wall. At that time, it was around 12 o'clock in the afternoon. At that time, the mob which had come to the S.T. Workshop had started pelting stones at Jawannagar also. They were pelting stones from inside the S.T. Workshop. They had pleaded with the S.T. people inside the S.T. Workshop, however, they did not concur. He, therefore, returned home.

175.8 Thereafter, he took his wife and locked his house and went towards the S.R.P. Quarters. He was trying to go inside the S.R.P. Quarters, however, the people at the S.R.P. point there, did not let them enter. Many Muslims had gathered outside the S.R.P. Quarters. Thereafter, they all sat there for around one hour.

175.9 At around 1:30 in the afternoon, a mob came from the open ground near Jawannagar. This mob pelted stones at them. The policemen were there. They started firing. Thereafter, they took the women and went to a terrace of Gangotri. Thereafter, he took his parents and his wife from beneath the wire fencing of the S.R.P. Quarters wall, and entered the S.R.P. Quarters. After leaving his family nearing the fencing inside the S.R.P. Quarters, he came out. At the time when he came out after leaving his family members inside the S.R.P. Quarters, it was around 3 o'clock in the evening. Thereafter, the Hindu mob started growing. This mob came from Gangotri Society, from the open ground as well as

from the road outside and all the persons in the mob were advancing forward. At this time, he and many people standing outside the S.R.P. Quarters went to a terrace of Gangotri Society. He stayed on the terrace till around 1 o'clock. Thereafter, the mob was advancing. The people in the mob were looting their houses and setting them on fire. Thereafter, at about 5 o'clock, he went inside the S.R.P. Quarters. He stayed at the S.R.P. Quarters throughout the night. In the morning at around 4 o'clock, they were dropped at the Shah Alam relief camp in the S.R.P. vehicles. He found his wife, his mother and his younger sisters at the S.R.P. Quarters.

175.10 In this incident, he himself was injured. In the morning at 12:00, at the time when he was standing near the S.T. Workshop compound wall, he was injured on his forehead by a stone during the course of stone pelting. No other member of his family had sustained any injury.

175.11 The witness has deposed that in the mob, he has seen Manoj Videowala and Guddu Chhara. He has seen Guddu Chhara in the open ground at 3 o'clock. At the time when he was injured, he had seen Manoj Videowala in the mob. Manoj and Guddu had swords in their hands and were pelting stones.

175.12 He has stayed at the camp for around six months. At the camp, he came to know that his house was looted. After about two months, the police took him home when he saw that his safe in his house as well as other things were looted. The police had examined him orally in connection with the incident and recorded his statement. The witness has stated that he has learnt that Guddu Chhara has died during the incident and

that he will perhaps not be in a position to identify Manoj Videowala as he had seen him on the date of the incident and thereafter, he has not seen him. Thereafter, the witness could not identify Manoj Videowala. He has stated that he has availed of treatment in connection with the stone injury at the Shah Alam camp.

175.13 CROSS-EXAMINATION: This witness has been cross-examined with regard to the topography of the area. In his cross-examination, he has admitted that he is conversant with the entire Naroda Patiya area. The witness has admitted that the mob which came from the side of Gangotri came through the open ground and this mob had entered the entire chawl. The witness has voluntarily stated that the mob did not come from only one side; however, there were mobs on all three sides. The witness has denied that it was only the mob which came from the direction of Gangotri Society, that had damaged their chawls, etc. The witness has admitted that on one side of Jawannagar, Gangotri Society is situated and on the other side, there is a big open ground.

175.14 The witness has admitted that between the open ground and Jawannagar, there is a compound wall. He has admitted that the wall is approximately ten feet high. He has admitted that if one is standing inside Jawannagar, he cannot see the open ground and has voluntarily stated that a gap had been made in the wall and a way had been made and from there, one could go to the pit. The witness has admitted that if one wants to come from the highway to Jawannagar, then there was only one road, that is, from the road parallel to the S.T. Workshop and the other way was as stated by him,

through the gap for the purpose of going to the highway. The witness has admitted that the people of Jawannagar use this gap for the purpose of going to the pit in the morning to relieve themselves. The witness has admitted that the mob which came from the open ground came through this gap.

175.15 In his cross-examination, it has further come out that he had come on the road at around 9:00 to 9:30 in the morning and had remained there for about two hours. The witness has denied that the Muslims who went to persuade the Hindu mob went near them to do so. The witness has stated that they were trying to persuade them from far. The witness has voluntarily stated that they were all people whom they know. The witness has admitted that no one had gone near the people in the mob to persuade them. He has admitted that he had seen the mob near Natraj and at that time, they were (the witness) standing near the S.T. Workshop gate and from near the S.T. Workshop gate, they were trying to persuade them. The witness has admitted that from the S.T. Workshop gate, he had gone straight to Jawannagar. He does not remember exactly at what time he had reached his house at Jawannagar. He has stated that when he reached the S.R.P. Quarters, there must have been approximately a hundred Muslims outside the S.R.P. Quarters. The witness has stated that an S.R.P. point was placed there and they were not letting anyone enter or come out, but in fact one could go to Gangotri Society even through the S.R.P. Quarters.

175.16 The witness has been cross-examined with regard to the conditions at the camp and the manner in which the statements of the witnesses were recorded by the police. The

witness has admitted that his statement was recorded in the presence of the organizers and others. He has admitted that prior to his statement being recorded by the police, he had a talk with the organizers. He, however, has denied that he had given his police statement as advised by the organizers and has voluntarily stated that what would the organizers know? The witness has denied that on the day of the incident, he had not seen the accused and that at the instance of the organizers, he was falsely deposing before the court.

175.17 In the cross-examination of the witness, it has been elicited that he had studied till the 5th standard. He puts his signature in Gujarati. On the day of the incident, prior to his going out for the first time, he was at home. He has stated that he had gone alone and that he had seen the stone pelting near the Noorani Masjid at around 10:00 to 10:30 in the morning. The witness has stated that he had seen a tanker near the Noorani Masjid at around 10 o'clock and that he had seen a rickshaw and a tanker together at the Noorani Masjid and both were near to each other.

175.18 The witness has denied that he has not seen Manoj Videowala and Guddu in the incident and that it was only because at the camp the Muslims there had told him that he was falsely giving their names. The witness has admitted that in this incident, the Muslims had become very frightened. The witness denied that on that day in their defence, the Muslims had kept sticks, swords and weapons. The witness has denied that there was no loot at his house and that at the instance of the Islamic Committee; he was falsely stating the facts regarding his house being looted.

175.19 The witness is shown the signature at Serial No.9 of the application Exhibit-670 and he has identified it to be his signature. The witness has stated that he had put this signature in a madressa at Jawannagar where Nazir Master was a teacher. The witness has admitted that he was told to come to the madressa as he was needed there. He does not know as to who asked him to put his signature and has voluntarily stated that he was informed that since Gandhinagar is far, his statement is to be recorded at Naroda, and hence, he was required to put his signature, whereafter he had signed it.

175.20 In the cross-examination of this witness, it has further come out that while he was there, he had seen an armed police point near the Noorani Masjid. He has admitted that he had also seen an armed police point near the S.R.P. Quarters. He has further stated that both the police were firing at them and were releasing tear gas. The witness has stated that when he talks about the road outside his chawl, he means the road which is situated immediately after they come out of their chawl.

175.21 The witness has deposed that he had not seen weapons in the hands of all the people in the mob, but many people had weapons in their hands. The witness has admitted that the number of people in the mob was so huge that it was not possible to specifically say as to which person in the mob was wielding which weapon. The witness has admitted that he had seen the people who had weapons in their hands pelting stones. He has admitted that those persons who had weapons in their hands were bending down and picking up stones and

throwing them. He has admitted that there were heaps of bricks and stones on the road. He has admitted that for this reason, they could find stones from the grounds for pelting them.

175.22 The witness has admitted that they too were picking up the stones from the road for pelting them. He has admitted that just like there were heaps of stones on the opposite side, there were heaps of stones where they were standing and that such heaps of stones were on the road. The witness has denied that at that time, they had also used the broken tube-lights and such other things. The witness has voluntarily stated that there was a scrap shop on the road and that after they went inside, the mob from the opposite side had used them. The witness has denied that they had used the articles from the scrap shop for attacking the opposite side and had caused injuries to the people in the opposite mob.

175.23 The contents of paragraph 5 of his examination-in-chief, from the second line to the end of the paragraph as well as the contents of paragraphs 6 to 13 of the examination-in-chief of the witness, are read over to him, to the effect that he had not stated such facts in the statement recorded by the police, which the witness has denied.

175.24 The witness is read over certain extracts from paragraph 15 of his examination-in-chief, wherein he has stated that he had seen Guddu Chhara in the mob in the open ground at 3 o'clock and at the time when he was injured, he had seen Manoj, to the effect that such facts have not been stated by him in his statement recorded by the police, which

the witness has denied.

175.25 The witness has admitted that he had not stated the facts stated by him in the first line of paragraph 4 of his examination-in-chief, that in February 2002, upon getting married, he had gone to reside separately from his parents at Jawannagar; the facts stated in paragraph 5 of his examination-in-chief wherein he has stated that he woke up in the morning at 8 o'clock and after having breakfast, he went outside on the road near S.T. Workshop gate; the facts stated in the first three lines of paragraph 6 of his examination-in-chief as well as the facts stated in the fourth line to the sixth line of his examination-in-chief, wherein he has stated that the shops outside the Noorani Masjid were looted. The witness has voluntarily stated that he had stated the facts regarding the cabins being looted.

175.26 The witness has admitted that the facts stated by him in paragraph 7 of his examination-in-chief to the effect that a police vehicle had come near the S.T. Workshop gate and four persons were injured by bullets have not been stated by him in his police statement. The witness has further admitted that the contents of paragraphs 8, 9 and 10 of his examination-in-chief which are read over to him, have not been stated by him in his police statement. The contents of paragraph 11 of his examination-in-chief from the second line to the last line are read over to the witness, who has admitted that he has not stated these facts in his statement recorded by the police.

175.27 The witness has further admitted that the contents

of paragraph 12 of his examination-in-chief; the contents of paragraph 13 of his examination-in-chief from the fifth line to the eighth line, which are read over him, have not been stated by him in his statement recorded by the police.

175.28 The witness has partly admitted and partly denied that in his police statement, he had stated that out of fear, he had gone home and upon the riotous mob setting the houses on fire in Pandit-ni-Chali, he was afraid that these people might come towards their house, he locked his house and together with his wife, he went to the S.R.P. Quarters and stayed there. At the S.R.P. Quarters, upon the riots subsiding at night, early in the morning police vehicles had come and they were taken in those police vehicles to the Shah Alam camp at 6:30 in the morning. The witness has voluntarily stated that he has not stated the fact regarding he having gone to the S.R.P. Quarters and having stayed there. The rest of the facts recorded in the statement are correct. Certain other parts of his statement are also put to the witness; however, since the same have not been put to him to contradict any part of his primary statement, the same are not admissible in evidence.

175.29 The witness has admitted that he has no social or monetary relations with Manojbhai and he has no relations with him of visiting each other's house. The witness has denied that he has not seen any incident and has not seen any of the accused and that he is falsely deposing before the court.

175.30 To prove the omissions and contradictions in the previous statement of the witness, the defence has cross examined PW-292 R.C. Pathak, the assignee officer, who, in his

cross-examination, has admitted that he has recorded the statement of this witness on 13.5.2002. The assignee officer has admitted that this witness has not stated the facts regarding the S.T. Workshop gate as stated by him in paragraph 5 of his deposition, but has stated that on the road outside. The contents of paragraphs 6, 7 and 10 and certain parts of paragraphs 8, 9, 11, 12 and 13 of the examination-in-chief of the witness, are read over to the assignee officer, who has admitted that these facts have not been stated by the witness in the statement recorded by him. It may be noted that insofar as the witness is concerned, he has not been sought to be contradicted as to the entire contents of paragraphs 6 and 7 of his examination-in-chief. Therefore, without seeking to contradict the witness, the question of proving the same in the cross-examination of the assignee officer would not arise. Therefore, to that extent the evidence of the assignee officer is not admissible. Moreover, the witness has admitted the omissions in paragraphs 4, 5, 6, 7, 8, 9, 10, 11 and 12 of his testimony, and therefore, there was no necessity of examining the assignee officer to prove what has already been admitted by the witness. It, however, appears that all these aspects have been thrown to the winds and the testimonies of the witnesses are recorded perfunctorily without adherence to legal principles as well as to facts. It appears that the testimonies of the witnesses have been recorded at leisure as the prosecution did not object to such unnecessary cross-examination.

175.31 The assignee officer has admitted that this witness has not mentioned before him as to at what time and at what place, he had seen Guddu Chhara and Manoj. He, however, has

clarified that the witness has given the names and addresses of both the accused in the statement recorded by him. The assignee officer has admitted that the witness had stated before him that out of fear, he went home and a riotous mob was burning the houses in Pandit-ni-Chali and out of fear that these people may also come towards his house, he locked his house and with his wife, went to the S.R.P. Quarters and stayed there. At the S.R.P. Quarters, upon the riots having subsided, early in the morning, upon the police vehicles arriving, they were taken in the police vehicles to the Shah Alam camp at 6:30 in the morning.

175.32 SUBMISSIONS: The learned counsel for the appellants invited the attention of the court to the contents of paragraph 59 of the cross-examination of the PW-292 Shri Rajeshkumar Chinubhai Pathak, who has recorded the statement of this witness on 13.05.2002 and pointed out that before the Investigating Officer, the witness has not stated the time and place when he had seen the accused, but had given the addresses. It was submitted that this witness has stated three to four facts which no other witnesses have stated, like, persuading the mob, that the S.R.P. police was firing at 1:30, etc.

175.33 It was submitted that the witness has very vaguely stated that he had seen Guddu and Manoj without stating the time and place where he had seen them. Moreover, insofar as the accused Manoj is concerned, the witness has failed to identify him. Reference was made to the contents of paragraph 80 of the cross-examination of the witness, to point out that he had no acquaintance with Manoj. It was submitted that right

from the morning to evening, at what point of time and at which place he had seen accused No.41 Manoj Videowala, is not coming on record. Moreover, when he had no acquaintance with the said accused and he could not even identify him before the court, naming the accused in the police statement also creates a doubt as to whether he had named him by himself or at the instance of someone.

175.34 The attention of the court was drawn to the contents of paragraph 38 of the cross-examination of the witness, wherein the witness has admitted that his statement was recorded by the police in the presence of the organizers.

175.35 ANALYSIS: This witness has deposed that he had seen **Manoj Videowala (A-41) and Guddu (deceased)** in the mob. He has stated that he had seen Guddu in the open ground at around 3 o'clock, whereas he had seen Manoj in the mob at the time when he was injured. According to the witness, he had been injured on his forehead by a stone in the stone pelting that took place while he was standing near the S.T. Workshop compound wall at around 12 o'clock in the morning (sic.). However, an omission has been brought out in the cross-examination of the witness that he had not mentioned the time and place where he has seen these accused. The witness has stated that he cannot identify Manoj because he had seen him in the riots and thereafter he had never seen him. Thereafter, he has attempted to identify him but failed in his attempt.

175.36 Since the witness has failed to identify the sole living accused named by him, his testimony would not come to

the aid of the prosecution to prove the charge against him.

175.37 However, one fact which has come on record in the testimony of this witness is regarding the source of stones which were pelted by the mob. In his cross-examination, the witness has admitted that he had seen people who had weapons in their hands, pelting stones. He has admitted that those persons who had weapons in their hands were bending down and picking up stones and throwing them. He has admitted that there were heaps of bricks and stones on the road and for this reason; they could find stones from the grounds for pelting them.

175.38 The witness has admitted that they too were picking up the stones from the road for pelting them. He has admitted that just like there were heaps of stones on the opposite side, there were heaps of stones where they were standing and that such heaps of stones were on the road. The witness has denied that at that time, they had also used the broken tube-lights and such other things and has voluntarily stated that there was a scrap shop on the road and that after they went inside, the mob from the opposite side had used them.

176. **PW-191 Mahammadmaharuf Abdulraufkhan Pathan**, aged 49 years, has been examined at Exhibit-1302. This witness has deposed that his native place is *District Farukbad, U. P.* He used to reside at *Mahamadi Tenements*. Prior thereto, he was residing at *Faizalpark, Vatva, Ahmedabad*. In the year 2002, he was residing at *Lane No.2, Jawannagar, Naroda Patiya*.

176.1 When he used to reside in *Jawannagar*, his wife Bilkishbanu, his sons Ahemadraja, Hamidraja and Kamarraja and his daughters Kherunisha and Ayashabanu, all were residing together. At the relevant time, he used to work as spray painter at Santej Estate, Changodar.

176.2 The incident took place on 28.2.2002. On that day, he was sleeping at home at 8 o'clock in the morning. On that day, his son Ahemadraja came and told him that a huge mob had gathered outside and hence, he got up and went outside. He had gone outside on the road where he saw that huge mobs of Hindus Parishad were standing outside near Natraj Hotel, Kubernagar road.

176.3 The people in the mob were armed with swords, pipes, tridents, spears, hockeys, cans of petrol and kerosene as well as the gas cylinders. In a while, the mob started looting and ransacking their religious place the Noorani Masjid as well as nearby shops and houses and setting them on fire. They put kerosene carts and gas cylinders in the Noorani Masjid and set it on fire.

176.4 A police point had been placed opposite the Noorani Masjid in line with Pandit-ni-Chali near the S.T. Workshop compound wall on the night prior to the incident. They all gathered together and told the people at the police point that the mob is coming and that they should stop it. The policemen then told them that they would stop them and if necessary, they would call for them, in which case, they should come there. Thereafter, the policemen got together with the mob

which was coming towards the Noorani Masjid.

176.5 The people in the mob thereafter started pelting stones on them, that is, on the Muslims. At that time, the Muslims came out in their defence whereupon the police resorted to firing against them. In the firing, from amongst them, Piru Allabax was injured with a bullet on his left leg, whereupon the police shouted to them and told them to take their person. Thereafter, he and others from the chawl got together and lifted Pirubhai and took him to a veranda in the chawl.

176.6 At this time, upon hearing shouts from the road, he and others went on the road. Upon going there, they saw that Hamidali's son was injured by a bullet on his private parts. Hence, four or five of them lifted Hamidali's son and took him inside the chawl and put him on a platform.

176.7 On seeing all this, he was frightened and hence, he went home. Upon going home, he was narrating the incident that took place on the road to his family members, at that time, from the direction of Krushnanagar, a mob came from the rear side of Jawannagar through the brick kiln towards their chawl and pushed compound wall with a truck and broke it and thereafter, they set the truck on fire.

176.8 Thereafter, the people in the mob placed gas cylinders in their houses and looted them and burnt the houses in their chawl. Thereafter, as the mob advanced forward, the people started going backwards.

176.9 From there, he, his family members and other persons from their mohalla went to the S.R.P. Quarters. They requested the S.R.P. people to let them go inside the S.R.P. Quarters. However, they did not permit them to enter and told them that, "*We have orders from above, that you should not be allowed to go inside. Today, you have to die!*" The S.R.P. people asked them to sit on the outer side and all of them sat near the S.R.P. Quarters for some time.

176.10 At around 1:30 in the afternoon, they went and stood in the open ground of Jawannagar.

176.11 At that time, at around 2:30 in the afternoon, **Bhavanisingh** came to them. Bhavanisingh told them that they and their children were hungry and thirsty since morning. So, if they have any big cauldron, they should give it to him so that they would cook *kadhi khichdi* for them. The witness has deposed that they told Bhavanisingh that in such a situation, from where could they bring a cauldron? They did not have any such cauldron. Thereafter, Bhavanisingh told them to come with their children on the rear side of Gangotri Society, where they would arrange snacks for them. The witness deposed that they were ready to go there, however, there was a doubt in his mind and hence, they did not go and kept on standing there.

176.12 In the evening at around 4:00 to 4:30, they went to the S.R.P. compound wall which was broken, near the last lane of Jawannagar and told the S.R.P. people that even if they do not let all of them enter inside, there was no objection; however, they should take their innocent children and their mothers and daughters inside. However, the S.R.P. people

refused to take them inside. They folded their hands and beseeched them; however, they refused to do so.

176.13 At this time, a boy named Asif also fervently requested that all of them be permitted to go inside the S.R.P. Quarters, however, they did not accede and the S.R.P. people had jabbed Asif with the butt of the gun and had severely beaten him.

176.14 Thereafter, they came to the last lane of Jawannagar and went to the terrace of a house of one Gauri Bhabhi. All of them went to the terrace, and from there, they went to the terrace of Gangotri Society and climbed down.

176.15 There, Bhavanisingh met them and he opened a huge shuttered hall and told them to sit inside and not to worry about anything. He told them not to make noise and thereafter, Bhavanisingh went away.

176.16 Thereafter, at around 5:00 to 5:30 in the evening, people from the Gangotri Society called four or five persons from the S.R.P. and got them to beat them with sticks and pushed them and told them to go towards Gopinath Society. Hence, they went there.

176.17 At that time, the Gopinath Society people also did not let them enter and they told them that they should go to Naroda from the rear side of the S.T. Workshop, hence, they went there.

176.18 They went to the open ground where they saw that

a mob of ten thousand to fifteen thousand people was standing there. The people in the mob had swords, pipes, hockeys, dharias, trishuls, spears, petrol and kerosene cans and gas cylinders in their hands. Upon seeing this, they were all frightened and were started coming back towards Jawannagar. They reached the passage of a water tank between Gopinath and Gangotri Society, where there were shops on the road and there was a wooden cabin in the passage. At this time, from behind, Guddu Chhara came with a huge mob from Gangotri and on seeing the mob, out of fear they started fleeing from there.

176.19 At this time, while they were fleeing, Bhavanisingh came towards them with a big mob from the direction of Jawannagar. They were terrified because they were encircled by both the mobs. When they were surrounded by both the mobs, those amongst them who were young and who could run, jumped over the wall and ran away, whereas the elders and those who could not jump over the wall and run, such people, as well as the women and small children, were caught between the shops and the water tank. At this time, the people in the mob started throwing substances like kerosene, oil or petrol on the people who were caught there. They threw burning rags on these people and set them on fire. At this time, the mob on the opposite side was assaulting them with weapons and was showing them the newspapers reports of the Godhra incident and was telling that they would erase all signs of their existence. This incident happened in the evening. At that time, it was around 6:30 in the evening and it was very slightly dark.

176.20 At this time, he and his family members were also there. In the incident, he and his son Kamarraja were also burnt. They had hidden in between dead bodies nearby a small platform near the water tank.

176.21 They hid in that place and saw that Guddu Chhara shouted at a girl and told her to come out saying that they would save her and that they would find her mother and father and handover her custody to them. The girl asked them as to whether they would actually save her and Guddu had assured her that they would save her, whereafter this girl came out. Upon the girl coming out, they removed her to thorny bush and took her inside and took her outside Gangotri Society. Together with Guddu Chhara, there were four – five other persons. All these people had tied saffron bands on their faces so that their faces could not be recognized. However, he knew Guddu Chhara by his voice and hence, he had identified him by his voice.

176.22 Thereafter, about fifteen to twenty minutes after they had taken the girl inside, they came out and threw her into fire, where everyone were burning, in a naked condition. The girl fell on him and he could not understand as to what had fallen over him and was frightened. However, upon seeing her in naked condition, he saw that it was that girl whom he had seen.

176.23 He asked the girl her name and she had said that her name was Noorjahan Kabirali. He told her to come where he was and that he would save her, whereupon she told him that her chastity was looted and there was no reason for her to

live any more. He had tried to reason with her that this is an incident that has happened and they have not done anything intentionally and hence, she could come near him and she would be saved. But the girl told him that, "*No uncle, now that my chastity is lost, there is nothing left for me to live!*" Saying this, the girl freed herself and jumped into the fire.

176.24 Thereafter, at that time, he heard a loud scream and in the brightness of the flames of the fire, he saw on the road towards the wall of the S.T. Workshop that Bhavani and four – five other persons were removing the clothes of a girl and were molesting her and had thereafter raped her. Thereafter, Bhavanisingh inserted a gupti like weapon between her legs in her private parts and cut her till her abdomen and at this time, the girl's mother came to save the girl, whereupon Bhavanisingh forcibly pushed the girl's mother and threw her in the fire where the other people were burning and also burnt that girl. Thereafter, all of them ran towards Gangotri Gopinath Society.

176.25 At this time, he got up and went and took out the mother of the girl from burning fire. Upon asking the girl's mother her name, she told that her name was Farzana Ayub Kalekhan Pathan. As she was burnt on the lower part of her body, he had removed her clothes. She had told him that in front of her eyes, her daughter Farhana had been burnt. He told the girl's mother that he had seen all that had happened to her daughter.

176.26 At this time, he had taken out a boy named Naimuddin from the fire from between the corpses. He had

taken out in all twelve persons from between the burning dead bodies.

176.27 At this time, there was a focus light of Gangotri Gopinath Society from which there was light and he told everyone that it appears that the mob is coming back and therefore, all of them should lie down and pretend that they are dead. He too made his son Kamarraza lie down under the wooden cabin and went and lay down at a little distance. Thereafter, after a while, a police vehicle came near the place where they were. What appeared to be a focus light was in fact the light of the vehicle, which he understood later on.

176.28 Thereafter, upon his son being under the wooden cabin, a policeman told an officer that he was alive and took his son out. They asked his son where his parents were, whereupon his son pointed out to him. The policemen checked his pulse and told the officer that he was alive. Thereafter, they took him out and woke him up and asked his name and he had told his full name to them. The policemen asked him as to how many people were alive, where upon he said that those who were lying there are alive. The policemen told him to save as many people as he could and said that they had come to take them to the Civil Hospital.

176.29 They made four to five policemen stand near them and when the policemen had gone to bring a vehicle from the Civil Hospital; they saved fourteen other persons who were alive. The policemen returned and informed that they had not found a vehicle from the Civil Hospital and that they should try to save as many people as they could and that they would

make some arrangement for vehicles.

176.30 After a little while, the policemen came with a Tata 407 vehicle. Upon them shouting and informing them, in all twenty eight persons sat in that vehicle. The rest of them remained lying down, and hence, he and four policemen checked the pulses of the people who were lying there and it appeared that all of them were dead. At that time, there were dead bodies of around fifty eight persons who had died.

176.31 Thereafter, twenty eight of them went to the Civil Hospital in this vehicle. On the way, out of twenty-eight persons, two women die. Thereafter, all the twenty-six persons reached the Civil Hospital. He requested the policemen to make arrangements for bed-sheets or clothes for their mothers and daughters who were in naked condition. Thereafter, the policemen told the staff at the Civil Hospital and made arrangement for bed-sheets.

176.32 At the Civil Hospital, he, his son Kamar, Ayashabanu, Hamidraza and others were admitted in one ward.

176.33 At the place fifty-eight persons were burnt, his wife Bilkishbanu and daughter Kherunisha also died. During the course of treatment at Civil Hospital, by 10.3.2002, out of those persons who had gone to the Civil Hospital in the Tata 407 vehicle, about nine persons had died and his son Hamidraja also died on 11.3.2002, during the course of treatment.

176.34 His brother Gulammahammad, who resides at Zikarhasan-ni-Chali, had gone and identified the dead bodies of his wife Bilkishbanu and daughter Kherunisha amongst the people who had died, and they were buried at the Shahibaug, Dariyakhan Ghummat Kabrastan.

176.35 He, his son Kamar Raza and daughter Ayashabanu had stayed at the Civil Hospital for treatment for about two months.

176.36 From the hospital, they went to the Shahibaug relief camp, where they stayed for around six months.

176.37 In the incident, his house at Jawannagar, Lane No.2, was looted and damaged.

176.38 While he was at the Civil Hospital, the police had orally examined him on two occasions. However, they did not record his statements as stated by him. Thereafter, the police had come once to where he was at the camp when also he was orally examined.

176.39 Thereafter, he had gone to the SIT on two occasions, where his statement in connection with the incident was recorded.

176.40 The witness has stated that as per his information Bhavani and Guddu Chhara named by him are dead. However, he knew both of them.

176.41 (The statements of this witness have been recorded

on 3.3.2002, 11.3.2002, 23.5.2002 as well as on 30.5.2008 and 14.7.2008.)

176.42 This witness has also been examined as a panch witness and in connection therewith he has deposed that on 5.3.2002, in the afternoon at around 12 o'clock, the police had called him to the postmortem room at the Civil Hospital as a panch for drawing a panchnama. The police had called him as the dead body of a boy was to be identified. There were two other people with him. There, the procedure of the panchnama was carried out. There, he had identified the fully burnt dead body to be that of Asif. He had signed on the writing there.

176.43 The witness is shown a document Mark 134/72 and he has stated that he has signed there as a second panch. The panchnama is read over to him and he has stated that the contents thereof are correct and that the panchnama has been drawn in his presence. The panchnama has been exhibited at Exhibit-1303.

176.44 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that he has studied up to 5th standard in a Gujarati school which was a Government school. The witness is shown a document Exhibit-842 and he has identified his signature at the end of the document. The witness is shown the end of the police statement dated 11.3.2002 and he has identified his signature thereon. The witness has admitted that his statement was recorded by the SIT at Gandhinagar on 30.5.2008. The witness has admitted that he had received Rs.15 lakh from the Government as compensation for the death of his wife and children. The

witness has admitted that till his statement was recorded by the SIT, he was given police protection and that such police protection continues till date. The witness is shown an application Mark 644/23 and the signature at the end of the document which he has identified to be his signature. The witness has admitted that this is his application made before the SIT and the same is given Exhibit-1306. The witness has stated that he has not written the application and that he had got some boy from the mohalla to write it for him. The witness is thereafter cross-examined with regard to the manner in which the application was made. The witness is also cross-examined with regard to whether he had received any threats from anyone.

176.45 The contents of the application are read over to the witness, who has admitted that the contents thereof are true. The witness has admitted that prior to making the application Exhibit-1306, he had not lodged any complaint with the police regarding any threat received by him. The witness has stated that he does not remember whether at the time when he made the application Exhibit-1306, the police officers were creating any obstacles or interfering with the investigation of their case. The witness has voluntarily stated that he heard such things about certain people, and hence, he had written such facts in his application. The witness has stated that he does not remember that the role of two officers was suspicious.

176.46 The witness has denied that he used to do social work. He has stated that, however, he used to perform tasks regarding postmortem reports for someone and getting the No Objection Certificates. The witness has voluntarily stated that

he had helped some of his acquaintances; however, he was not doing such work for everyone.

176.47 Thereafter, the witness is confronted with certain facts stated by him before the SIT, however, the same have not been put to the witness to contradict any part of his primary statement and the witness is sought to be confronted with the facts which are elicited from his cross-examination, such part of his deposition not being admissible in evidence, it is not necessary to refer to the same.

176.48 In his cross-examination, it has come out that he was residing at Jawannagar since eight years prior to the year 2002. In his cross-examination, it has further come out that he did not know any people in Jawannagar and Gangotri, except Bhavani and Guddu. He has admitted that on 28.2.2002 when he reached the hospital at night, his first statement was recorded on 3.3.2002. The witness has admitted that till 3.3.2002, he was aware that his son and daughter are under treatment in the ward of the hospital and that they were with him when he came to the hospital on 28.2.2002. The witness has admitted that all the facts stated by him before the SIT were known to him on 3.3.2002 and has voluntarily stated that though he had stated these facts to the police, the police were not writing it down. The witness has stated that he knew that the police were not writing down the facts stated by him for the reason that when he was stating the facts, they had told him that they are not required to write down all this, and they only have to write regarding the treatment.

176.49 The witness is confronted with his statement dated

3.3.2002, wherein he has stated that on 28.2.2002 in the evening of *jhumme raat* at 7 o'clock, several mobs of Hindus entered their chawls shouting "kill, cut" due to which out of fear, they were fleeing from there. At this time, this bloodthirsty mob, which had petrol, kerosene cans in their hands, were sprinkling petrol and kerosene and throwing burning rags and were burning them. He does not know who the people in the Hindu mob were. At this time, there were shouting and screaming in the entire chawls and at that time, upon the sound of police sirens coming and the policemen coming, the riotous mob had fled. He saw that his wife and his daughter Kherunisha and son Ahemadraja and his father Raufvalikhan as well as his brothers Gulammahammad and Mashruf, and his elder brother's daughter Mariyam and his second daughter Shabbo, and his younger brother's son, all of them had got separated, wherein his daughter Kherunisha and wife Bilkishbanu had sustained burns. Due to which, his wife had died and he does not know anything about his other brothers and sisters. He does not know the names and addresses of this riotous Hindu mob, which the witness has denied. The witness has admitted that in his statement, he has stated that from his family, it appears that, he, his elder son Hamidraza and Ayeshabanu and Kamarraza, are under treatment at the hospital and they do not know anything else.

176.50 The witness has denied that in his statement dated 3.3.2002, he had not named Guddu or Bhavani. The witness has denied that he has not stated as to where the incident of his wife and children had taken place and that he had not stated the incidents involving Guddu and Bhavani in the statement recorded by the police.

176.51 The witness is cross-examined with regard to his stay at the Civil Hospital. He has stated that he cannot say as to exactly how many patients from Jawannagar were admitted at the Civil Hospital. He has stated that when the police was recording his statement, no lady had come to ask the questions to him. He has admitted that on that day, some Executive Magistrate lady had come to record his statement and has voluntarily stated that she was not writing as stated by them. The witness is shown Exhibit-842 which is a dying declaration of the witness and he has admitted that his name, father's name, age, address etc. are as stated by him. The witness has admitted having stated certain answers to the questions as recorded therein and has denied certain answers recorded therein.

176.52 The witness is sought to be contradicted by his statement dated 11.3.2002, wherein he has stated that on 28.2.2002, the mobs of people had indulged in riots in the Naroda Patiya area and had sprinkled kerosene, petrol, etc. in the Jawannagar hutments and had set the houses on fire due to which, there was a stampede amongst the people. During this, he also started fleeing with his family. In the meanwhile, they reached near the water tank between Gangotri and Gopinath Society and he and his wife were there in the passage, at this time at around 7 o'clock in the evening, the mobs of people poured some substance like kerosene, oil, petrol on the body of his wife Bilkishbanu, aged 34 years, daughter Kherunisha, aged 16 years, son Hamidraza, aged 10 years and set them on fire, wherein his wife Bilkishbanu and daughter Kherunisha were burnt. The police brought them to

the Civil Hospital, where Hamidraza was under treatment and during the treatment, his son Hamidraza, aged 10 years, had died on 11.3.2002 at 12:50 hours, and his dead body was handed over to him for the funeral rites and that he does not know the names of the people in the mob.

176.53 In the cross-examination of the witness, it has come out that for the first time he had seen Guddu when the incident of the girl near the tank took place when he had heard Guddu's voice. He has admitted that he had recognized Guddu by his voice and at that time, he had tied a mask over his face. The witness has admitted that at that time, there were people in the mob with him, who had also tied masks. He is not aware as to whether they were also wearing shorts and undershirts.

176.54 The witness has stated that he knows where Guddu resides and has admitted that he used to reside in Jawannagar. He has stated that Guddu had never come to his house and he had never gone to his house and he never had any relations of talking with him. He has admitted that this incident of Guddu had taken place at around 6:30 in the evening.

176.55 The witness has stated that he had seen Bhavani for the first time on that day when he came to take the vessels from him. At that time, it was around 2:00 to 2:30 in the afternoon. The witness has admitted that at that time, he was in Jawannagar and they were in the open ground. He has stated that Bhavani's house is at the corner of the last lane of Jawannagar and that he has no relations of visiting Bhavani's house. He had no social relations with him and nobody had introduced him to him. The witness has admitted that Bhavani

had asked for vessels for the purpose of cooking meals for them and for no other purpose. The witness has admitted that they had refused to give vessels for cooking. He has admitted that Bhavani had thereafter told them that if they come to Gangotri, they can have tea and snacks. The witness has admitted that having faith in what Bhavani had told them, they had gone to Gangotri.

176.56 The witness has admitted that except for Bhavani, he had not recognized anyone else in the mob. The witness has denied that for the first time, he had mentioned the names of Bhavani and Guddu in his statement dated 25.3.2002 and not prior thereto.

176.57 In his cross-examination, it has come out that the shuttered building where they were kept was in the middle of Gangotri Society. He has admitted that there were approximately a hundred other Muslims with them in the shuttered building. He has admitted that they were all sitting in the shuttered building to protect their lives. The witness has denied that they had kept the shutter closed so that the attackers do not see them. The witness has voluntarily stated that the shutter was open. The witness has admitted that till they were in the open shutter, no mob had seen them and they had not seen any mob.

176.58 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

176.59 PW-296 Shri J. V. Surela, the assignee officer in his cross-examination has admitted that he has recorded the statement of this witness on 3.3.2002 at the Civil Hospital, but does not remember in which ward he had taken the statement. The assignee officer has denied that he had told the witness that he was not required to write such things and that at present, he has to write only about the treatment. The assignee officer has admitted that before him, the witness had given the statement regarding the incident having taken place at 7 o'clock in the evening and prior thereto, he had not given any statement with regard to any prior incident. The assignee officer has admitted that the witness has stated before him that on 28.2.2002, in the evening of Jhumme raat at 7 o'clock, a mob of several Hindus entered their chawl shouting "kill" "cut" and out of fear, they had started running helter skelter. At this time, the violent mob which had cans of petrol and kerosene in their hands, from which they sprinkled kerosene and petrol and threw burning rags, due to which they all were burnt. He does not know who these Hindu communal mobs were. At this time, there was commotion and screaming in the whole chawl and at that time, upon the sound of police siren being heard and the police arriving there, the people in the riotous mob had fled. He saw that his wife and his daughter Kherunnisha and son Ahmedraza and his father Raufvalikhan and his brother Gulammohammed and Mashroof and elder brother's daughter Mariyam and second daughter Shabbo and younger brother's son all of them had got separated, out of whom, his daughter Kherunnisha and wife Bilkisbanu were burnt. His wife had died and he does not know anything about his other brothers and sisters. He does not know the names and addresses of the Hindus in the riotous mob. That at

present, in his family, he and his elder son Hamidraza and Ayeshabanu and Kamarrazak are under treatment at the hospital and he does not know about the others. The assignee officer has admitted that the witness in his statement has given only formal facts and has not stated anything else. The assignee officer has admitted that this witness has not named Guddu and Bhavanisingh in his statement recorded by him. The assignee officer has admitted that the witness had not stated the spot at which the incident of his wife and children took place; however, the witness has stated that the mobs entered their chawls and at that time, the people in the frenzied mob had sprinkled petrol and kerosene and thrown burning rags and all of them were burning. The assignee officer has admitted that this witness has not stated before him that he was injured with stones as well as sticks.

176.60 Certain parts of paragraph 4 of the examination-in-chief of the witness as well as the contents of paragraphs 5 to 25 and 27 to 30 are read over to the assignee officer, who has admitted that the facts stated in paragraphs 4, 5 to 17, 18, 22 to 25 and 27, 28 and 29 have not been stated by the witness in the statement recorded by him. He, however, has denied that the witness has not stated the facts stated by him in paragraphs 19, 20, 21 and 30 of his examination-in-chief. Insofar as the contents of paragraph 19 of the examination-in-chief are concerned, the assignee officer has stated that the witness had stated before him that the people in the mob had kerosene and petrol cans in their hands and that out of fear, there was stampede in their chawl and that they were afraid and were returning towards Jawannagar has been stated by the witness. The assignee officer has stated the facts stated in

paragraphs 20, 21 and 30 have been stated by the witness in the statement recorded by him.

176.61 PW-291 M. B. Raj, the assignee officer has, in his cross-examination, admitted that he had recorded the statement of this witness on 23.5.2002. The assignee officer has admitted that this witness had not mentioned that he had been injured with a stone or with a stick in the statement recorded by him.

176.62 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statements of this witness on 30.5.2008 and 14.7.2008. He has admitted that this witness in his statement dated 30.5.2008 had stated that his earlier statements dated 3.3.2002, 11.3.2002 and 23.5.2002 recorded by the police were read over to him and the facts stated therein are correct and proper. The Investigating Officer has admitted that in his statement dated 14.7.2008, the witness had admitted that at present, he is unemployed and is only doing social work. That he does social work as well as does the task of obtaining the P.M. Notes, N.O.Cs., Treatment Certificates, compensation from the Collector's office for the relatives of those who have died in the Naroda Patiya incidents. The Investigating Officer has admitted that this witness has not stated before him that the Executive Magistrate has not recorded his statement as stated by him.

176.63 SUBMISSIONS: The learned counsel for the appellants invited the attention of the court to the contents of paragraph 9 of the examination-in-chief of the witness, to

submit that the witness has stated while narrating the incident on the road to his family that the mob from Krushnanagar broke the wall with a truck. It was submitted that from his house, it is not possible for him to see the mob in the Jawannagar pit doing anything. Reference was made to paragraph 143 of the cross-examination of the witness, to point out that he has stated that he had not seen the Krushnanagar mob from the Jawannagar pit. Referring to the contents of paragraph 10 of the examination-in-chief of the witness, it was pointed out that most of the witnesses have stated that nothing happened in Jawannagar before 5 o'clock. Referring to the contents of paragraph 17 of the examination-in-chief of the witness, wherein the witness has stated that in the afternoon at around 5:00 to 5:30, the residents of Gangotri Society called four S.R.P. persons and beat them with sticks and pushed them and told them to go away towards Gopinath Society, and hence, they had gone. It was submitted that different witnesses are giving different versions regarding how they came out of the shuttered hall. It was pointed out that the incident regarding a girl Noorjahan narrated by this witness in paragraph 23 of his examination-in-chief, is not narrated by any other witness. The attention of the court was invited to the deposition of PW-106 Farzana Ayubkhan Pathan, to submit that Farzana does not refer to this witness at all and that both of them have named different persons. It was pointed out that this witness has admitted that he could recognize Guddu by his voice, to submit that, in all the commotion, it was not possible for him to have heard his voice. It was submitted that this witness does not implicate any accused except Guddu and Bhavani and though he claims that he had seen the incident at the passage, the facts about Farzana stated by him are

contrary to what PW-106 Farzana Ayubkhan Pathan herself has stated. It was submitted that even the facts of Farzana's daughter, Farhana are contrary to what is stated by Farzana herself. It was submitted that the witness also does not refer to any other person at the passage like Abdulmajid Mahammadusman Shaikh (PW-156), Shabana Bundubhai Qureshi (PW-209), Rahemanbhai Shakurbhai Saiyed (PW-114) and Jannatbibi Kallubhai Shaikh (PW-142). It was submitted that in the statements dated 3.3.2002 and 11.3.2002 which are recorded first in point of time by the police, the witness has stated that he did not know any person in the riotous mob. [It, however, appears that while there are certain omissions in the statements dated 3.3.2002 and 11.3.2002, there are no omissions qua the third statement of the witness recorded on 23.5.2002.]

176.64 The learned counsel has further submitted that the names of the accused and various facts stated by the witness and various facts from paragraphs 9 to 30, including the time and place of the incident, are either omitted in the first and second statements or stated in differently in the statements recorded on 3.3.2002 and 11.3.2002, and for the first time in his statement dated 23.5.2002, he has come up with various facts narrating the incident and has named two accused after he reached the camp, which indicates that the facts as well as the names stated, is the result of either tutoring or at the instance of others. In other words, it is engineered. It was submitted that even in his examination-in-chief, he has stated in paragraph 22 that all the persons of the mob whom he had seen at the place of the incident near the water tank had covered their faces in a manner which they could not be

identified. It was submitted that if this is taken at face value, then the other witnesses who have stated before the SIT for the first time that they could see and recognize the accused, creates a serious doubt regarding the implication of such accused and their criminal complicity.

176.65 It was submitted that in paragraph 50 of his deposition, the witness has specifically stated that prior to his admission in the Civil Hospital and even after he was admitted in the hospital, he had not informed about the incident or the accused to the doctor, nurse or police personnel, which also indicates that narrating the facts with the names of the accused on 23.5.2002 for the first time, are not facts which he had witnessed.

176.66 ANALYSIS: This witness is an injured witness, who has sustained minor burn injuries on his back and legs. He, his sons, Kamar (injury certificate Exhibit-338) and Hamid Raza (died later on) and daughter Ayeshabanu (injury certificate Exhibit-340) have sustained burn injuries in the incident at the passage of the water tank and were admitted in the Civil Hospital on the night of 28th of February. His wife Bilkisbanu and his daughter Kherunisha have died in the incident. His statement was recorded twice at the Civil Hospital on 3.3.2002 and 11.3.2002 and once at the camp on 23.5.2002 and twice by the SIT on 3.5.2008 and 14.7.2008. The witness has implicated only Bhavani and Guddu, both of whom are dead.

176.67 This witness has been cross-examined at length and is sought to be contradicted by his previous statements. In paragraph 135 of his cross-examination, the witness is

confronted with the statements dated 3.3.2002 and 11.3.2002 and his dying declaration Exhibit-842 to the effect that he has not stated all the facts stated in paragraphs 4 to 31 of his examination-in-chief, except the date of the incident and the fact regarding the death of his family members, in those statements. It may be noted that insofar as the statement dated 23.5.2002 recorded at the camp is concerned, no omission or contradiction has been brought out as to such statement.

176.68 Insofar as the statement dated 3.3.2002 is concerned, the contents thereof have been brought on record in the cross-examination of the witness, a perusal whereof shows that on the face of it, the statement has not been recorded in terms of what was stated by the witness. In the statement, it is recorded that the frenzied mob had sprinkled kerosene and petrol on them and had thrown burning rags and set them ablaze and, at that time, there was screaming and shouting and at that time, upon the sounds of police sirens coming and the police arriving, the riotous mob had fled, which evidently is a figment of imagination of the Police Officer, who recorded such statement, which appears to have been inserted in the statement to show that the police had come to the rescue of the victims, which is far from the truth. However, the officer has taken care to note down the names of the family members who are injured or have died in the incident to give a semblance of truth to the statement. Since the statement does not appear to have been properly recorded by the concerned assignee officer, no reliance can be placed upon such statement for the purpose of contradicting the witness.

176.69 The witness has also been confronted with the contents of his statement dated 11.3.2002. In paragraph 104 of his cross-examination, which the witness has admitted to the extent it is reproduced in paragraph 104, however, the witness has denied a part of the statement, as reflected in paragraph 105 of his cross-examination. The witness has also denied the suggestion put to him in paragraph 103 that he has not given the names of any accused in his statement dated 11.3.2002 and has denied that he has not stated the facts stated by him in his examination-in-chief regarding the evening incident at Gangotri Society in his police statement. However, the concerned Investigating Officer/assignee officer has not been cross-examined to prove the omissions/contradictions in the statement of this witness. Moreover, upon perusal of the entire record, it is not found as to who has recorded the statement of this witness on 11.3.2002. Therefore, any omission or contradiction qua the statement dated 11.3.2002 has not been proved by the defence.

176.70 Since the witness has not been cross-examined qua the contents of his statement dated 23.5.2002, the averments made in the examination-in-chief of this witness go unchallenged insofar such statement is concerned. Insofar as the statement dated 11.3.2002, except to the extent the witness has admitted the contents thereof, the rest of the portions which the witness has denied, have not been proved through the testimony of the concerned Investigating Officers and, therefore, contradictions have been unproved. In these circumstances, the contents of the examination-in-chief of the witness go more or less unchallenged.

176.71 Since the witness has named only two accused, both of whom have died, his testimony would not be useful for the purpose of establishing the charge against any of the accused.

176.72 In his examination-in-chief, the witness has deposed that he had seen mobs on the road; pelting stones and committing arson and damaging the Noorani Masjid as well as the shops and other establishments nearby. The witness has deposed that they had requested the police to restrain the mob and that the police had assured them that they would stop them, if necessary but had subsequently gone and joined the mob. The witness has also deposed that the mob thereafter started pelting stones at the Muslims and, at that time, the Muslims came out to defend themselves, whereupon the police had fired at them and in the firing Piru Allahbaksh was injured by a bullet on his left leg and the police shouted at them and told them to take him. Thereafter, he and other people from the chawl lifted Pirubhai and took him to a platform in the chawl. He had heard shouts from the road, whereupon he went to see what happened and found that Hamidali's son was injured on his private parts. The witness has deposed that upon seeing all this, he was afraid and went home and narrated the incident to his family. At that time, a mob from the direction of Krushnanagar came from the rear side of Jawannagar through the brick kiln towards their chawl and rammed a truck into the compound wall and broke it and thereafter, set the truck ablaze. Thereafter, the mobs started looting and setting the houses in the chawls ablaze and as the mob advanced forward, they started moving backwards. From

there, they went to the S.R.P. Quarters but were not permitted to go inside and they were made to sit outside. They sat near the S.R.P. Quarters and at around 1:30 in the afternoon, they went and stood in an open ground in Jawannagar. At around 2:30 in the afternoon, Bhavanisingh came there and asked them to provide some vessels so that he would make kadhi khichadi for them. At 4:00 to 4:30, they went to the spot where the S.R.P. compound wall was broken near the last lane of Jawannagar and requested them to at least let the women and children go inside. However, the S.R.P. people refused to let them enter. Thereafter, they went to the terrace of Gauri Apa's house in the last lane of Jawannagar and climbed down into the Gangotri Society. Bhavanisingh met them there and opened a huge shuttered hall for them and asked them to sit inside and not to worry. At around 5:00 to 5:30, the people of Gangotri Society called four S.R.P. persons who pushed them and beat them with batons and told them to go towards Gangotri Society, and hence, they went there. The Gopinath Society people also did not let them enter and told them to go to Naroda through the rear side of the S.T. Workshop, and hence, they went there. When they went to the open ground, there was a huge mob standing there armed with weapons and kerosene and petrol cans and gas cylinders. Upon seeing them, they were afraid and started returning back to Jawannagar and they reached near the passage of the water tank, when Guddu came with a huge mob from Gangotri Gopinath Society and Bhavanisingh came with a mob from Jawannagar. They were caught in between the mobs and those amongst them who were younger jumped over the wall and fled, and the elders and those who could not jump over the wall like women and children were caught between the shops and the water tank

and the people in the mob from the top of their shops and the tank, threw substances like kerosene, oil and petrol on the people who were caught in the passage and threw burning rags on them and set them ablaze. The mob was also assaulting them. It was around 6:30 in the evening and it was slightly dark.

176.73 The witness has also deposed that he and his son Kamar Raza had sustained burn injuries and they hid between the corpses under a very small platform near the water tank. The witness has thereafter, narrated the incident where Guddu Chhara cajoled a girl to come out assuring to save her and thereafter, took her on the side and later on, after fifteen to twenty minutes they brought the girl back and threw her into the burning flames in a naked condition. The girl fell near him and he asked her name and she stated that her name was Noorjahan Kabirali, etc. The witness has stated that thereafter, he heard a scream and found that Bhavani and four to five persons had stripped the clothes of a girl and were molesting her and had raped her, etc. The girl's mother tried to save her but Bhavanisingh pushed her and threw her in the burning fire and the girl was also set ablaze there. That upon asking the mother her name, she said that her name was Farzana Ayub Kalekhan. The witness has stated that he has taken Naimuddin out from the burning fire from under the corpses and that, in all, he had taken out twelve people alive from amidst the corpses. The witness has stated that thereafter the police came and told them that they were going to bring a vehicle from Civil and that he should try to save as many people as he could. That four to five persons were standing there and the other police went to fetch a vehicle from Civil and, in the

meanwhile, they had rescued fourteen more people. Thereafter, the police came with a Tata-407 vehicle and twenty-eight persons had boarded the vehicle. Out of the twenty-eight persons, two women died on the way and in this manner, twenty-six of them reached the Civil Hospital. When they reached the Civil Hospital, he requested the policemen to ask the hospital people to provide some clothes for the women who were naked, whereupon the policemen requested the staff, who arranged for bed-sheets for them.

176.74 Insofar as the description of the main incident is concerned, the court is of the view that the same appears to be credible. However, the narration of the facts regarding Noorjahan Kabirali, Farzana, Naimuddin and taking out people alive from the fire and extricating them from the corpses appears to be in the nature of improvement and exaggeration, inasmuch as, none of the concerned witnesses have deposed any such thing. Besides, it is not possible to believe that one person would have seen all these incidents, which had taken place at the passage.

176.75 Considering the overall testimony of this witness, he appears to be a tutored witness, who has attempted to corroborate many witnesses of the incidents that took place at the passage of the water tank. However, insofar as the witness has deposed regarding the manner in which he and his family members had sustained injuries, etc., the witness is credible and his testimony to that extent should be accepted. In any case, since the witness does not implicate any living accused, his testimony does not in any manner come to the aid of the prosecution to establish the charge against the accused.

177. **PW-192 Rasidabanu Imtiazhussain Momin**, aged 45 years, has been examined at Exhibit-1314. This witness has deposed that she has not studied much, but has studied in school for around two to three years and does not know how to read or write in any language, but can write her name in Gujarati and accordingly, she puts her signature in Gujarati also.

177.1 Since the last twenty two years, she is residing at *Lane No.2, Hussainnagar* in house No.1 and 2. Thus, they have two houses, out of which she has a shop in one house and the other is her residential house.

177.2 In the year 2002, she was residing at Hussainnagar in Naroda Patiya. The chawl in front of her chawl was called *Kumbhaji-ni-Chali*. Her house has two doors, one which opens towards *Kumbhaji-ni-Chali* and the other opens towards *Hussainnagar*. Her house also has a third door which opens towards the S.T. Workshop road.

177.3 In the year 2002, she was residing there with her husband and children. She had four sons and two daughters. Her husband works in the S.T. Workshop and after working hours, in the evening, he plies a rickshaw of their ownership. She herself used to run a provision store by the name of Noorani Kirana Stores in Hussainnagar Lane No.1. Her elder son Imran is married and resides separately in Lane No.7. At the relevant time, he was married. However, on the day of the incident, all her six children were with her at her house in Lane No.1, Hussainnagar.

177.4 The incident took place on 28.2.2002. On that day, in the morning at 6 o'clock, she had opened her provision store. Her elder son had opened his tea stall and paan-cabin on the road and was doing his business there. As per her routine, on the day of the incident, she entrusted the provision store to her younger son Kadir and went to relieve Imran at his tea stall and pan-cabin so that he could have his breakfast. At this time, it was around 7:30 to 8:00 in the morning.

177.5 Immediately after she went to her son Imran's tea stall and paan-cabin, the police came there and told her that there was a call for bandh on account of the Godhra incident and there are disturbances, and hence, they should shut their shop. At that time, her son was also standing there. Thereafter, Imran closed his tea stall and paan-cabin and put all the goods in a cart and took the cart and went to her house in Lane No.1, Hussainnagar. While her son was loading the goods, she went to the corner of the S.T. Workshop, where presently there is a police chowky and stood there. She saw that from the direction of Natraj, there was a crowd near the S.T. Workshop and there was a mob in the direction of Krushnanagar. The mobs were coming from both the directions, namely from Natraj Hotel as well as Krushnanagar. At this time, it was around 9:00 to 9:30 in the morning.

177.6 The people in the mob who had come from the direction of Krushnanagar were pelting stones at the masjid as well as at them and were also throwing bottles. The mob which had come from the direction of Natraj was also pelting stones and bottles at them. **Mayaben Kodnani** was in this mob.

Manoj was also in this mob. As per her knowledge, his name is **Manoj Videowala**. **Bipin Autowala** was present in the mob which came from the direction of Natraj. Moreover, **Santosh Dudhwala** was also present there. Santosh Dudhwala has a shop next to Kamla Welding on the way to Kubernagar. In the mob coming from the direction of Natraj, she has also seen **Guddu Chhara, Naresh Chhara, Suresh Langdo** and Suresh Langda's younger brother. Mayaben was in this mob and was instigating the public by saying "*come forward*" and "*kill*". At this time, the police had also come there. The police had resorted to firing and lobbed tear gas shells at the Muslims standing at their corner due to which, four or five Muslim boys were injured by bullets.

177.7 From the persons standing there, Abid, Khalid, Piru, Mahammad and Mustaq Kaladiya were injured by bullets. Piru and other Muslim boys who were injured by bullets were lifted by youths like her son Imran and taken to the platform of her shop and made him to lie down there. At this time, it was around 12:00 to 12:30 in the afternoon.

177.8 Upon the mob slowly coming inside their chawl, she came from the road to her house and went to the terrace to fetch her children. From the upper part of her house, the road can be seen, and from there, she saw that the mob was killing and hacking down people. Therefore, she took her children and came down. Thereafter, the people started fleeing and she took her children and went to Ramzani Pinjara's terrace.

177.9 Her husband had gone for his job on that day.

While she was going to Ramzanibhai's house, in the stampede, somebody had inflicted a blow with a hockey stick on her leg, due to which, her leg was injured. At this time, they were throwing burning rags from the S.T. Workshop. On account of such burning rags being thrown, she sustained burn injuries on her right hand and right leg and her daughter Shamimbanu also sustained burn injuries on her hands and legs.

177.10 From Ramzanibhai's terrace, she saw that the people in the mob had set on fire the first house in that lane. The people in the mob were making all kinds of utterances and were shouting "kill, cut". She had seen all this from behind the permanent curtains in Ramzanibhai's house. Thereafter, she took her children and went to the terrace of Ramzanibhai's house. From the terrace, she looked towards the public toilets at Jawannagar and she saw that the mob was burning everything. The people in the mob were assaulting them and burning them. The people in the mob were hacking down and killing the Muslims. She does not know what the time then was.

177.11 They stayed at Ramzani's terrace till about 12:00 to 12:30 at night. Thereafter, a police vehicle came. Upon the police asking them as to where they wanted to go, they said that they wanted to go to Shah Alam. Thereafter, they were taken to Shah Alam in a vehicle. They stayed at the Shah Alam camp for around six months. At the relevant time, she and her daughter took treatment for the injuries they had sustained.

177.12 While she was at the camp, the police had recorded her statement twice. Thereafter, the SIT had also recorded her statement at Gandhinagar. Her statement had been recorded

by the SIT on two occasions.

177.13 The witness has stated that she can recognize the persons whom she has named. The witness has thereafter identified Manoj Videowala (A-41), Santosh Dudhwalo (A-58), Naresh (A-1), Mayaben (A-37) and Bipin (A-44) correctly. Suresh Langda (A-22) had given an exemption application, and hence, he is deemed to be identified.

177.14 CROSS EXAMINATION: This witness has initially been cross-examined with regard to her Kirana Stores and the purchase of the goods made by her and her son for their business. The witness is also cross-examined with regard to certain incidents that took place on 27.2.2002.

177.15 In her cross-examination, the witness has admitted that on the day of the incident, when she went to Imran's shop to relieve him, the situation was okay. The witness has stated that therefore, they had opened their shop. She has admitted that when she relieves Imran, she looks after the work of the stall. She has admitted that she knows how to make paan-masala as per the requirements of the customers. The witness has denied that the police had not come to the shop and that she had gone to the shop and told Imran that the situation was bad and he should close his business. She has stated that in Hussainnagar Lane No.1, her house is in the front and the shop is in the next house adjoining it and that there are rooms on the upper floor for her residence. The witness is extensively cross-examined with regard to the topography of the area.

177.16 The witness has admitted that her son Imran's

wife's name is Bilkisbanu. She has stated that she does not know that the due date for Bilkisbanu's delivery was 26.2.2002. The witness has voluntarily stated that in their community, the first delivery is at the mother's place and therefore, Bilkisbanu had gone to her mother's place for the delivery. She has stated that in the year 2002, Bilkisbanu's mother was residing in Hussainnagar, Lane No.2. Bilkisbanu's mother's name is Saidabanu and has admitted that Bilkisbanu's mother-in-law is her own younger sister. The witness is cross-examined with regard to how many houses are there in Hussainnagar, etc. as well as about the people residing in the neighbourhood.

177.17 The witness has denied that Imran had taken his goods and gone to Lane No.7. She has denied that Imran had closed his shop and gone to Lane No.7 and has voluntarily stated that as far as she remembers, he had closed his shop and came to her house. The witness has stated that she does not know as to whether prior to the time when she went to the shop, her son Imran was standing at the corner of the S.T. Workshop. She is not aware as to whether Imran was standing with his friends at the corner of the S.T. Workshop when she went there. She has stated that on that day, she had gone there alone. She has admitted that at that time she had gone near the S.T. Workshop, where at present there is a police chowky, other people who had come to watch were also standing there. She has stated that she must have stood there for around half an hour to forty-five minutes. While she was standing there, she had not seen Imran. However, she does not know if he had returned after he went and kept his goods.

177.18 The witness has denied that she does not know where Abid, Khalid, Piru, Mahammad and Mustaq were standing. She has stated that they were standing near each other separately and that they were standing at the end of the S.T. Workshop, opposite the Noorani Masjid. She has stated that she was standing at a distance from where if they throw a stone, it would not reach her, but at a distance from which she could recognize them. She has stated that she does not know at what time Abid, Khalid, Piru etc. were injured by bullets. The witness has admitted that at the place where she was standing on that day, at present there is a police chowky and from there, she had gone to her house in Hussainnagar Lane No.1. The witness has denied that when Imran and the other youths had brought those who were injured by bullets to the platform outside her shop, on that day she was on the upper part of her house. The witness has voluntarily stated that at that time, she had come down. The witness has stated that she is not aware as to whether those who were injured by the bullets were kept on the platform for half an hour and has voluntarily stated that thereafter, she had taken her children and fled. She has admitted that she left with her entire family, that is, all her six children, including Imran. The witness has stated that after leaving her house, first of all, she went to the Pinjara's house at Hussainnagar Lane No.4. This house has two floors and the terrace is on the third floor. She has stated that before she went there, the people from Hussainnagar and Jawannagar were hiding there. There was an iron door for climbing on the staircase. She has admitted that when they climbed up, no lock had been put on the door. She has stated that when she went up in the Pinjara's house, there must have been around two hundred to three hundred people. The witness has

admitted that on the terrace, all of them were hiding out of fear. She has denied that at that time, they were all sitting, but has stated that after a little while, they used to get up and watch. The witness has stated that it was possible to get up there and look. She has admitted that neither of the two mobs had come to attack the Pinjara's terrace. She has admitted that they were on the Pinjara's terrace till the police came to take them. The witness has denied that at the time when they went to the Pinjara's house, all her six children were safe and sound with her. The witness has voluntarily stated that she herself was in a burnt condition and her daughter Shamimbanu had also sustained burn injuries. The witness has admitted that she and her daughter Shamimbanu sustained burns on the S.T. Workshop compound wall road.

177.18 The witness has stated that she cannot say as to how far the mob was from her when the hockey stick was flung at her. The witness has admitted that when the hockey stick was flung at her, the people in the mob had not caught her and had not stopped her. The witness has voluntarily stated that the mob was at a distance from her.

177.19 The witness has admitted that it has not happened that when she was on Ramzanibhai's terrace, at that time in between, Imran had gone down to Jawannagar and had returned from Jawannagar. She has stated that she cannot say as to how many people were there in the mob in the lane at that time. The witness has admitted that when she went to the relief camp, Imran was with her.

177.20 In her cross-examination, it has come out that the

doctors at the camp were only providing treatment and were not putting any questions to them; therefore, she had not informed the doctors as to how and where they had got burnt.

177.21 In her cross-examination, it has come out that her husband Imtiaz had come to the relief camp after nine to ten days. The witness has stated that after her husband came to the camp, she had not told him that burning rags were thrown from the S.T. Workshop on her and Shamim. The witness has voluntarily stated that upon seeing the situation on the day of the incident, her husband's mind was very disturbed, hence thereafter, for one to two months, he was required to be treated, and today also, he is on medication. His mental balance is impeded even today. She has admitted that even today, her husband is not able to sleep and is required to take medicines. She has stated that her husband had become unstable and that she was required to send him to her mother-in-law at Dholka for two months.

177.22 The witness has denied that the accused whom she had named before the court, have not been named by her prior to naming them before the SIT and has voluntarily stated that she had given their names everywhere.

177.23 The witness is shown an application Mark 644/66 and she has identified her signature thereon. Upon the contents being read over to her, she has admitted the same. The application is given Exhibit-1315. The witness has stated that because she had gone to Gandhinagar, she came to know that the Crime Branch people have not recorded her statement as stated by her because at Gandhinagar, her statement was

read over to her. The witness is cross-examined with regard to the application as to who wrote it down and when, etc.

177.24 In her cross-examination, she has stated that her statements dated 12.5.2002 and 11.6.2002 may have been recorded at the camp. She has stated that as far as she remembers, two of her statements were recorded at the camp and two statements were recorded by the SIT. She has admitted that the SIT had recorded her statement firstly at Gandhinagar, and thereafter, at Naroda Patiya. She has admitted that the SIT had recorded her statement as stated by her and she has no complaint against them. The witness has admitted that her second statement dated 24.9.2008 had been recorded by the SIT at Naroda Patiya. The said statement was read over to her and that she has no complaint against the statement which was recorded as stated by her. Certain contents of the statement recorded by the SIT are put to the witness; however, since the statements are not put to the witness to contradict any part of her evidence, the same are not admissible in evidence.

177.25 The witness has denied that in her statement dated 12.5.2002 recorded at the camp as well as in the statement dated 24.9.2008 recorded by the SIT, she has not named any accused. She has denied that she has not named any accused in her statement dated 12.5.2002 and has voluntarily stated that she had given such names, but the police had not written them down. The witness is confronted with her statement dated 12.5.2002 to the effect that she has stated therein that the people in the mob had ransacked and committed arson; there were many people in the mob, out of whom she could

not recognize anyone; when the disturbances took place, at that time she has not seen any person assaulting or setting the houses on fire, which the witness has denied.

177.26 The witness is confronted with her statement dated 12.5.2002 to the effect that she has stated therein that on 28.2.2002, in the morning at around 8 o'clock, she had opened her shop by the name of Noorani Kirana Store; her husband Imtiaz at that time had taken his rickshaw and gone for his business; at 9 o'clock, the situation as not good and upon the mobs having gathered on the road, she closed her shop and went inside the chawl; she and Imran were both at home; at that time at around 9:30 to 10:00, the people came shouting and entered their chawl, and started damaging and setting them to fire, and therefore, she took her children and fled from the chawl and came to the road and went and hid on the terrace of a house nearby. The witness has stated that the door of her house and shop fall in Lane No.1 of Hussainnagar which is on the road of S.T. Workshop. The witness is cross-examined with regard to the topography of the area.

177.27 The witness is confronted with her statement dated 11.6.2002 to the effect that she had stated therein that she does not know the names or addresses of any of the persons in the mob.

177.28 The contents of paragraph 6, paragraph 8, paragraph 9 from first line to the thirteenth line, paragraph 11, the first four lines of paragraph 12, the first three lines of paragraph 13, the third line to the ninth line of paragraph 13 of the examination-in-chief of the witness, are read over to her to

the effect that she had not stated such facts in either of the statements recorded at the camp. The witness is read over the eighth and the ninth line of paragraph 13 of her examination-in-chief, wherein she has stated that when she looked towards the public toilet, the mob was burning everything, to the effect that she has not stated such facts in the statement recorded by the SIT, which the witness has denied.

177.29 Upon being asked as to from where she had seen the mob on that day, the witness has stated that she had seen them from her own terrace as well as from Ramzanibhai's terrace. However, she has firstly seen the mob when she went out. She first saw the mob at around 9:30 in the morning when she had seen two mobs from Krushnanagar and Natraj. The second time she had seen the mob from the terrace of her house and thereafter, she had seen the mob from Ramzanibhai's terrace, but does not know the time.

177.30 The witness is cross-examined with regard to her acquaintance with Santosh Dudhwala and has admitted that on the day of the incident, she did not know his name. The witness has stated that her paternal home was at Saijpur Tower and prior to her marriage, she was residing there. The witness has denied that there was a milkman's shop in their Saijpur Bogha area. She has denied that when she was residing with her parents, till then she used to go to fetch milk from accused Santosh Dudhwala's shop. She has denied that she used to purchase milk for her son's tea stall from Santosh Dudhwala's shop. The witness has stated that she has not seen Santosh Dudhwala's milk shop and she has never purchased milk from his shop and has voluntarily stated that she used to

buy Amul Gold milk pouches. She has stated that she never had any occasion to personally talk with Santosh Dudhwala. She has admitted that no test identification parade of Santosh Dudhwala was carried out by the police through her. The witness has denied that she used to go to Santosh Dudhwala's shop and certain payments were outstanding. She has stated that even as on date, she does not know his full name. It may be noted that while the witness is all the while denying her acquaintance with this accused, the defence is persistently making suggestions to suggest that in fact there was an acquaintance.

177.31 The witness has stated that she does not know that Mayaben is a doctor and as to whether her hospital is situated at Saijpur Bogha road. In her cross-examination, it has come out that on the day of the incident, for the first time when she saw Mayaben, she was standing in front of her, but diagonally. She has admitted that she was in the line of the Noorani Masjid. She has admitted that all the accused whom she has identified before the court were in the Hindu mob on the side of the Noorani Masjid.

177.32 The witness has stated that Bipin Auto cannot be seen from her house. She has stated that she has never seen Bipin Auto and she never had any occasion to talk with Bipin Autowala and to meet each other. She has stated that she had limited relations of talking with Manoj Videowala. She has stated that people from their chawl used to bring video cassettes from Manoj Videowala for watching movies and at that time, she had seen Manoj Videowala's shop which is on the road where one enters Kubernagar.

177.33 The witness has stated that she does not know where Suresh Langda is residing and she had no occasion to talk with him. At times, he used to come to the tea stall and they had no social relations with each other.

177.34 The witness has admitted that no test identification parade of Manu has been carried out by the police through her. She has admitted that no test identification parade of any of the accused named by her has been carried out through her by the police.

177.35 The witness has stated that she cannot give the colour of the clothes which the accused were wearing on that day. She has denied that on that day, all the accused were standing together in the mob. She has admitted that they were standing separately. She has admitted that there were people between them and has voluntarily stated that she does not know the other people. The witness has stated that she cannot say as to whether there were fifty or sixty other persons. The witness has denied that there were people standing in front of and behind the accused and has voluntarily stated that they were in front and the people in the mob were behind them.

177.36 The witness has admitted that she has received Rs.1,25,000/- from the Government as compensation for the injury sustained by her daughter. The witness has stated that she has a certificate of her injury. She does not know what it means when zero is written in her certificate. She has admitted that she has not received any aid from the Government in connection with her injury. She has admitted that she has

received Rs.3,025/- from the Government towards compensation for the loss sustained by her. She has admitted that she had sustained a loss of Rs.9 lakh.

177.37 The witness has denied that none of the accused whom she has identified was present at the scene of incident and that she has not seen them in the mob. She has stated that she does not know where Imran was when the police resorted to firing. She has stated that she knew the five people who were injured by bullets. The witness has stated that Ramjanibhai Pinjara's house is situated behind her house in Lane No.4. She had gone from the gate near the provision store when the burning rags were thrown from the S.T. Workshop, at that time they were running towards Ramzanibhai's house. The witness has denied the suggestion that the accused persons whom she had identified were at the relief camp, and hence, she could recognize them.

177.38 To prove the omissions and contradictions as to her previous statements, the defence has cross-examined the concerned Investigating Officer/assignee officer who had recorded such statement.

177.39 PW-280 B.C. Joshi, the assignee officer has admitted that he has recorded the statement of this witness. He has denied that he had recorded the statement of this witness at the camp, but has stated that he had recorded her statement in the Naroda Patiya area. The assignee officer has admitted that this witness had not made any grievance regarding her earlier statement dated 12.5.2002 when he recorded her statement. The assignee officer has admitted that the witness

had stated before him that the riots had commenced in the morning and upon incidents of the mob of fifteen thousand to twenty thousand people damaging their houses, looting articles and burning them in Hussainnagar, Jawannagar and Chetandas-ni-Chali, etc. taking place, they and their family members out of fear, left their houses and went towards the society and sat there and thereafter, late at night, the police vehicles came and took them to the Shah Alam relief camp and till date, they were residing at the Shah Alam camp. She does not know the names or addresses of any of the persons who were in the riotous mob.

177.40 Part of the contents of paragraph 6 of the examination-in-chief of this witness, wherein she has stated that as per her routine, on the day of the incident also, she had made her younger son Kadir sit at the kirana store and had gone to relieve Imran at the tea stall and paan-galla so that he could go and have snacks, have been read over to the assignee officer, who has admitted that the witness had not stated such facts before him.

177.41 The contents of paragraph 8 and the first thirteen lines of paragraph 9 of the examination-in-chief of the witness are read over to the assignee officer, who has admitted that such facts were not stated by the witness in the statement recorded by him. The contents of paragraph 11 and the first four lines of paragraph 12 of the examination-in-chief of the witness are read over to the assignee officer, who has denied that all such facts were not stated by the witness in her statement recorded by him. The assignee officer has stated that the witness had stated before him that the incidents of the

mob of fifteen thousand to twenty thousand people damaging the houses, looting them and setting them on fire in Hussainnagar, Jawannagar, Chetandas-ni-Chali and other places, started taking place. However, the rest of the facts have not been stated by her in her statement.

177.42 The contents of paragraph 8 as well as the contents of first thirteen lines of paragraph 9 of this witness are read over to the assignee officer, wherein she has stated that from the terrace of Ramzani's house, she had seen that the first house in the lane where Ramzani lives had been set on fire by the people in the mob. The assignee officer has admitted that the witness has not stated such facts before him, but has stated that incidents of arson had taken place. The contents of paragraph 13 of the examination-in-chief of this witness, from the third line to the ninth line thereof, are read over to the assignee officer who has admitted that the witness has not stated these facts verbatim, but has stated that the incidents of arson were taking place. The assignee officer has admitted that this witness has not stated before him that she had seen the people in the mob from a distance of fifty metres. The assignee officer has also admitted that the witness has not stated that her passport was burnt in the incident. (It may be noted that the fact regarding her passport being burnt, can hardly be so material that it can be said to be an omission amounting to a contradiction.). The assignee officer has also admitted that the witness had not stated before him that she had closed her kirana store and come on the road, but she had stated that she has a kirana store.

177.43 The contents of paragraph 157 of the deposition of

the witness are put to the assignee officer. In the opinion of this court, the contents of paragraph 157 of the deposition of the witness are facts brought out in the cross-examination, and hence, the question of any omission or contradiction would not arise. The assignee officer has also admitted that this witness has not stated before him regarding her having seen the mob from the terrace of her house.

177.44 PW-307 S. S. Chudasama, the Investigating Officer, has admitted that the statement of this witness was recorded by Shri A. A. Chauhan (now deceased) on 12.5.2002. He has admitted that this witness has not named any accused in such statement. He has admitted that this witness had stated that people in the mob had broken, damaged and set on fire. There were many people in the mob, out of whom she does not know anyone by name. When the riots occurred, at that time, she had not seen anyone killing anyone or setting any house on fire. The Investigating Officer has admitted that this witness, in her statement, had stated that on 28.2.2002, in the morning at around 8 o'clock, they had opened their shop by the name of Noorani Kirana Stores. At that time, her husband Imtiaz had gone for his business in his own rickshaw. At around 9 o'clock, since the situation was not good, upon the mobs gathering on the road, she closed her shop and went to the chawl. She and Imran were both at home. At that time, at about 9:30, people came shouting into their chawls and started destroying and setting ablaze, therefore, she took her children and fled from the chawl to the road and climbed on the terrace of a house nearby and hid there. It is clarified that this witness had not stated that her husband had gone for his job on that day, but she had stated that her husband had taken his rickshaw and

gone for his business.

177.45 The contents of paragraph 6, from the first line to the eighth line, paragraph 8, and the contents of the first line to the thirteenth line of paragraph 9 of the examination-in-chief of the witness, are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him.

177.46 The contents of paragraphs 11 and 12 of the examination-in-chief of the witness are read over to the Investigating Officer, who has denied that all such facts have not been stated by the witness in her statement recorded by him. He has stated that the witness had stated that she was assaulted with a hockey stick and had sustained injuries and that the witness has also stated the facts stated in paragraphs 264 and 265 in her statement. The other facts have not been stated by the witness. It may be noted that the witness has been contradicted only qua certain parts of paragraphs 11 and 12 of her examination-in-chief and not the entire paragraphs, and hence, the contradiction could have been proved only to that extent.

177.47 The contents of paragraph 13 from the first line to the ninth line of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him. The Investigating Officer has admitted that the witness had not stated that after she had closed her kirana store, she had gone on the road. But the witness had stated that at about 9 o'clock, since the

atmosphere was not good and the mobs were gathering, and hence, she closed her shop and went inside the chawl and took her children and fled from the chawl, have been stated by the witness. The Investigating Officer has denied that therefore, what he wants to say is the fact that she had come on the road, has been stated by her in her statement.

177.48 The contents of the last six lines of paragraph 7 of the examination-in-chief of the witness are read over to the Investigating Officer, who has denied that all these facts have not been stated by the witness in the statement recorded by him. He has stated that the witness had stated that she had come on the road and that the S.T. Workshop is also on the road. The other facts have not been stated by her. The Investigating Officer has admitted that this witness has not stated that her house had a terrace. The witness has not been contradicted as to the contents paragraph 7 of her examination-in-chief, and therefore, there was no question of seeking to prove such contradiction through the testimony of the Investigating Officer. Consequently, this part of the deposition of the Investigating Officer is inadmissible in evidence.

177.49 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross examination, admitted that he has recorded the statements of this witness on 10.6.2008 and 24.9.2008. He has admitted that in her statement dated 10.6.2008, this witness had stated that her statement dated 12.5.2008 recorded in the presence of the P.I., Crime Branch has been read over to her and the same is as dictated by her and is correct and proper; except for these two names, the

other facts stated in the earlier statement are correct.

177.50 Certain extracts of paragraph 6 of her examination-in-chief are read over to the Investigating Officer, wherein the witness has stated that as per routine, on the day of the incident also, she had made her younger son Kadir sit at her kirana store and had gone to Imran's tea stall and paan-galla to relieve him so that he could go for snacks, have not been stated by her in the statement recorded on 10.6.2008. In the opinion of this court, not mentioning the facts regarding what the witness had done prior to the incident, cannot be said to be a material omission so as to amount to a contradiction, and hence, ought not to have been permitted to be put to the witness and to be proved through the cross-examination of the Investigating Officer.

177.51 Two extracts of paragraph 13 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein the witness has stated that she had seen from Ramzanibhai's terrace that the first house in the lane where Ramzanibhai was staying, was set on fire by the mob. The people in this mob were indiscriminately speaking and were shouting. They were shouting "kill, cut". She had seen all this from behind the permanent curtains in Ramzanibhai's house. Thereafter, she had taken her children and gone to Ramzanibhai's terrace. From the terrace, she had seen towards the public toilet of Jawannagar, when she saw that the people in the mob were burning everything. The Investigating Officer has admitted that this witness had not stated such facts in the statement recorded by him. The Investigating Officer has admitted that this witness in her statement dated

10.06.2008 had stated that *".... and thereafter people had come from the Shah Alam and told them that they would take them to the Shah Alam Camp, all of them who were hiding...."*. *"..... I have not received any police protection from the Government and I have also not asked for police protection...."* *"...and thereafter, my son Imran had opened a tea stall and paan galla next to our shop and we were carrying on our trade and business...."*

177.52 The Investigating Officer has admitted that this witness in her statement dated 24.9.2008, had stated (in the context of Mayaben and Santosh Dudhwala) that he had seen these two in the riotous mob of from a distance of fifty metres and such fact had been stated by her before the police in her earlier statement, but the police had not written it down; they used to go to buy milk from the shop of Santosh Dudhwala and in the year 2002, since she was running a tea stall, time and again she used to go to his shop to purchase milk; she had learnt that Santosh Dushwala's name was Santoshkumar Kodumal Sindhi.

177.53 Certain extracts of paragraph 157 of the testimony of the witness are put to the Investigating Officer who has admitted that such facts have not been stated by the witness before him. It may be noted that paragraph 157 forms part of the cross-examination of the witness and the facts stated therein are such facts as have been elicited by the defence during the course of cross-examination. Therefore, the same would not amount to an omission, and hence, the question of proving such omission through the testimony of the Investigating Officer would not arise.

177.54 The Investigating Officer, however, has clarified that this witness in the statement recorded by him had stated that her son Imran had shut down his paan-galla and tea stall and that the people belonging to the community of the witness had fled towards the entrance of the chawl, where presently there is a police chowky; the people in the mob were pelting stones at them. The Investigating Officer has stated that the meaning thereof is that the witness was also standing where at present there is a police chowky, though she had not stated so in clear terms.

177.55 The Investigating Officer has admitted that this witness has not made any allegation that though her statement was recorded prior to 10.6.2008, the police had not recorded the same as stated by her. The Investigating Officer has denied that even in her statement dated 24.9.2008, this witness had not made any allegation against the statement recorded earlier. He has stated that in her statement dated 24.9.2008, the witness has clearly stated that despite her having named Santosh Dudhwala and Mayaben Kodnani, their names were not written down and she does not know the reason why.

177.56 The Investigating Officer has admitted that this witness in her statement dated 10.6.2008 had stated that the people in the mob were pelting stones at them and the people of their community in defence were also pelting stones. The Investigating Officer has denied that this witness has not stated before him that she had shut her kirana stores and had thereafter gone on the road. He has stated that she has clearly

stated in her statement that she had shut her kirana store and had gone on the road. Her entire statement has been given in a manner that the meaning can be clearly understood wherein she has stated that there was something like unrest near Natraj Hotel, on the road on the side of Krushnanagar mobs had gathered *“at this time approximately people of our community had gathered at the corner of the chawl where at present there is a police chowky....”*

177.57 SUBMISSIONS: The learned counsel for the appellant submitted that this witness, in her statement recorded by the police, has not named any of the accused named and identified by her. Referring to the deposition of the Investigating Officer PW-307 Shri S.S. Chudasama, it was pointed out that a specific omission is proved that she has not named any accused. It was submitted that for the first time, these names have come up with allegations before the SIT in the year 2008.

177.58 It was submitted that in both her police statements, neither do the names of the accused who have been named in the examination-in-chief find place, nor is their complicity in the incident stated, and on the contrary, through the Investigating Officer, a contradiction has been proved that in both the statements she had stated that she did not know the people in the mob. Referring to the cross-examination of the witness, it was pointed out that the acquaintance of the witness with the accused is not established; moreover, in the absence of a test identification parade and more particularly, when the names of the accused have been given for the first time after more than six years, the reliability of her version

would be in the dock of doubt. It was submitted that whether the witness has, in fact, gone to the terrace of the Pinjara's house and has, in fact, seen the incident therefrom, is very doubtful in view of the fact that a contrary version about her having gone to the society with her family and having stayed there until the police came, is proved through the testimony of the Investigating Officer. It was submitted that even if the story stated before the SIT is taken at face value, even then nothing beyond the presence of the accused in the morning mob is established.

177.59 It was submitted that it is proved through the Investigating Officer of the SIT that no grievance had been made against the police that the statements of the witness had not been recorded in terms of the version given by her.

177.60 It was pointed out that, in all, three witnesses have implicated accused No.58 – Santosh Dudhwala, viz., PW-104 Mahammad Salimhussain Shaikh, PW-135 Hussainabanu Agarkhan Pathan and this witness. It was submitted that insofar as PW-104 Mahammad Salimhussain shaikh is concerned, he has not named him anywhere, either in his police statement or in the court, but he has only identified him in the court. It was submitted that insofar as PW-135 Hussainbanu Agarkhan Pathan is concerned, she has wrongly identified this accused instead of Ashok Sindhi. It was submitted that insofar as this witness is concerned, she has not named him in either of her police statements and has named him for the first time before the SIT and that on the basis of such slender evidence, accused No.58 Santosh Dudhwala has been convicted for the offence in question.

177.61 Certain discrepancies in the depositions of this witness and her son Imran (PW-189) were pointed out by the learned counsel. It was submitted that Imran has said that after both of them went home, he alone came on the road, while his mother stayed at home and that she did not come near the S.T. Workshop corner. It was pointed out that Imran has stated that there were no women at the corner of the S.T. Workshop, whereas this witness says that she had gone to the corner of the S.T. Workshop. It was submitted that in view of the inconsistencies between the testimony of this witness and the testimony of her son, Imran, the testimony of this witness is rendered doubtful. It was submitted that the witness was on the road till around 9:30, when the mobs came. It was submitted that in such a huge mob, it would be highly improbable that she could identify such persons. It was submitted that therefore, this witness is not a credible witness and that no part of her evidence can be relied upon for the purpose of proving the charge against the accused in such a serious offence.

177.62 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that the witness had spotted the accused named by her in the mob in the morning. She has not seen them together but separately. She has also stated that there was firing where Abid, Mushtaq, Piru and Kaladiya were injured and were made to lie down on her *ota*. It was submitted that this facts have not been controverted by the defence.

177.63 It was submitted that the witness has received injury with a hockey stick on her leg, which has also been

stated by her in the earlier statement as well as the later statement. In her cross-examination also, nothing adverse to what she has stated in her examination-in-chief could be elicited. It was submitted that an omission is sought to be brought out to the effect that, she has not stated the names in Exhibit-1315; however, the explanation was already sought for during the course of further investigation conducted by the SIT about not having named the accused in her statement dated 11.6.2002.

177.64 It was submitted that during the cross-examination of the witness, the defence has attempted to contradict the witness on the basis of the statement given before the police and the SIT. However, the witness has already stated that she gave the names to the police but the police had not written them down. It was submitted that that the said omission is only with regard to the statement dated 12.5.2002 but in her statement before the SIT, all the names are mentioned. Thus, it cannot be said to be a material omission on the part of the witness. It was submitted that it is also further admitted by the witness that the facts mentioned in paragraph 6 of the examination-in-chief do not find place in the statement before the police and the SIT but such facts are trivial and not significant and have no bearing on the prosecution case.

177.65 As regards the omission brought out in paragraph 98 of her deposition with respect to paragraphs 11 and 12 of her examination-in-chief, it was submitted that they are also not significant and do not in any way have any bearing upon the prosecution case. It was submitted that similar is the case in respect of paragraphs 99 and 100 of the cross-examination

of the witness in respect of paragraph 13 of her examination-in-chief.

177.66 As regards the explanation regarding the fact that of witness having spotted accused No.58 and accused No.37 in a mob from the distance of 50 metres having been stated before the police, however, the same was not recorded by the police, it was argued that the witness has not stated in her statement dated 24.9.2008 any kind of clarification in this regard, but it is clarified that the contradiction is only in respect of the distance, which is not a material contradiction.

177.67 It was submitted that the witness in paragraph 41 of her cross-examination has stated that she went alone near the S.T. Workshop and sat there for about thirty to forty-five minutes. She did not see Imran. She did not know at what time Abid, Piru, Khalid received injury. Therefore, she has not concocted any story and she has truthfully stated before the court what she has seen. It was submitted that the witness has also filed an application Exhibit-1315 wherein it is mentioned that the F.I.R. and panchnama drawn by the Crime Branch are not according to her version and she has requested to lodge a new complaint. Therefore, she is of the opinion that the investigation was not carried out properly by the Crime Branch and the local police, and hence, the question of not naming the accused and describing the facts in detail, cannot be considered to be an omission. It was submitted that in paragraph 78 of her cross-examination, there is a reference to statements dated 24.8.2008 and 10.6.2008 before the SIT and she has given her explanation about not naming the accused in her police statement. It was submitted that in view of the

explanation, there cannot be said to be any omission which was brought on the record by the defence and in view of the explanation given, such omission is not a material omission, which may amount to a contradiction.

177.68 It was submitted that in paragraphs 79 and 80 of her cross-examination she has stated that she has no personal animosity for the accused persons and she has given the names of the persons whom she saw. In Exhibit-1315 there is a specific statement that there was improper investigation by the police and the Crime Branch and, therefore, further statement should be recorded, which shows the truthfulness of the witness. It was submitted that the witness has stated about acquaintance with the accused in paragraphs 109, 110, 112 and 123. As regards Manoj, Suresh, Bipin and Santosh, it was submitted that she has categorically stated that she knew them. It was submitted that since accused No.37 was an M.L.A., she could be easily recognised. Therefore, looking to the entire evidence as a whole, she is a truthful, consistent, believable and credible witness.

177.69 ANALYSIS: This witness is a resident of Lane No.1 Hussainnagar. Her house is the first house in the lane and has three doors, one which opens towards Kumbhaji-ni-Chali, the other which opens into Hussainnagar and the third one opens towards the S.T. Workshop. This witness is the mother of PW-189 Imran.

177.70 This witness in her deposition has referred a mob from the side of Natraj and has stated that Mayaben Kodnani was in the mob. She has also stated that Manoj Videowala (A-

41), Bipin Autowala (A-44), Santosh Dudhwala (A-58), Guddu Chhara (deceased), Naresh Chhara (A-1), Suresh Langda (A-22) and Suresh Langda's younger brother (not an accused) were present in the mob. She has alleged that Mayaben was instigating the mob and that the police came and fired at the Muslims on the corner. In the firing, Abid, Khalid, Pirubhai and Mustaq, etc. were injured. Her son Imran and others lifted them and brought them to the platform of the shops. That was at about 12:00 to 12:30 in the afternoon. The mob started advancing towards their chawl and she went home, took her children and went to the terrace of Ramzani Pinjara's house. Burning rags were being thrown from the S.T. Workshop and she and her daughter Shamimbanu had sustained burn injuries. The witness has identified all the named accused. Accused Suresh Langda had filed an exemption application, and, therefore, there was deemed identification.

177.71 The witness has been sought to be contradicted as regards the discrepancy between her deposition and that of Imran regarding whether the police had come to get the shops closed or whether she had asked Imran to close his shop as the situation was not good. In the opinion of this court, this discrepancy as regards exactly what had transpired when she asked Imran to shut down the shops can hardly be said to be a material omission amounting to a contradiction.

177.72 In her cross-examination, the witness has stated that she was not aware as to whether Imran was standing at the corner of the S.T. Workshop before she went to the shop. She has stated that she stood near the S.T. Workshop where, at present, there is a police chowky for about half an hour to

about a quarter to an hour and does not know whether Imran had come on the road after leaving his goods. The learned counsel for the appellants has sought to emphasize on this discrepancy by submitting that both Imran and this witness claim to be on the road but they have not seen each other. In the opinion of this court, when there were a large number of people on the side of the road near the S.T. Workshop and the main focus of attention of the people standing there would be on the mob, it is quite possible that this witness or Imran may have not noticed each other's presence at that place. Therefore, the mere fact that Imran and this witness have not seen each other at the S.T. Workshop corner would not dent the credibility of either of the witnesses. The witness has been contradicted with her statement dated 12.5.2002 to the effect that she has not named any accused in her statement and has voluntarily stated that she has stated such names but the police have not written it down. The attention of the witness is drawn to the part of her statement dated 12.5.2002 wherein she has stated that the people in the mob had damaged and destroyed and set ablaze; there were many people in the mob, out of whom, she could not recognize anyone. The witness has also been confronted with regard to various facts deposed by her in her examination-in-chief and such omissions have been proved through the testimony of the concerned Investigating Officer.

177.73 Considering the overall testimony of the witness, it emerges that the witness had given the names of the accused referred to in paragraph 9 of her examination-in-chief for the first time before the SIT, that is, after a period of more than six years from the date of the incident. At the relevant time, when

her statement came to be recorded on 12.5.2002 or even on 11.6.2002, the witness had stated that she did not know the names or addresses of any of the people in the mob. It may be noted that out of the persons named by this witness, except for accused No.37 Mayaben Kodnani, the names of the other accused have also been mentioned by other witnesses and the same have been recorded by the concerned Investigating Officer/assignee officer. Therefore, there was no reason for the Investigating Officer not to record the names of the accused, as stated by the witness in her testimony.

177.74 Shorn of all the omissions and contradictions brought out in her cross-examination, it emerges that on the day of the incident in the morning, she had gone to her son Imran's tea-stall and paan-cabin and, at that time, the police had come there and told her that they should shut down the shops in view of the call for bandh on account of the incident that took place at Godhra as there was some unrest. Thereafter, her son had taken his cart and gone inside the lanes and at that point of time, she went and stood at the corner of the S.T. Workshop where, at present, there is a police chowky. There was a mob on the main road which was indulging in stone pelting. At that time, the police had come and had started firing at the Muslims, who were standing at the corner and had lobbed teargas shells. In the firing, four to five Muslim youths were wounded by bullets. From the people standing there, Abid, Khalid, Piru, Mohammad, Mustaq, Kaladiya were hit by bullets. The youths who were injured by bullets were lifted by her son Imran and other youths and taken to a platform outside her shop at around 12:00 to 12:30 in the afternoon. While she was going from the road towards

the rear side, from the S.T. Workshop burning rags were thrown, due to which, she had sustained burn injuries on her right hand and right leg and her daughter Shamimbanu had also sustained burn injuries on her hands and legs. The people in the mob were indulging in assault and arson. They had stayed at Ramzani's terrace till 12 o'clock at night, whereafter the police came and took them to the Shah Alam camp. The fact regarding her daughter having sustained injuries is supported by facts elicited in the cross-examination of the witness wherein she has admitted that her daughter had received compensation of Rs.1,25,000/- from the Government for the injuries sustained by her.

177.75 In paragraphs 109 to 112, the witness has been cross-examined as regards acquaintance with accused No.58 Santoshkumar Kodumal. It appears that while the witness has denied acquaintance with the said accused, the defence has been making strenuous efforts to establish such acquaintance. The witness has been cross-examined with regard to her acquaintance with Mayaben, as brought out in paragraph 113 of her cross-examination, wherein she has stated that she had seen her photographs during the time of elections and in the banners and hoardings put up. In paragraph 121, the witness is cross-examined with regard to acquaintance with Bipin Autowala, wherein she has stated that she has not seen Bipin Autowala. She has never talked with Bipin Autowala and they had never any occasion to meet each other. As regards acquaintance with Manoj Videowala, the witness has stated that she had limited relations of talking with him. What she means is that at times, the people from the chawl used to bring videos from Manoj Videowala's shop and, at that time,

she had seen his shop. As regards her acquaintance with Suresh Langdo, the witness has stated that she does not know where he stays; has no relations of talking with him, however, sometimes he would come to her tea-stall to have tea.

177.76 Thus, from the testimony of this witness, it emerges that she has named the accused for the first time after a period of six years and despite the fact that two of her statements have been recorded at the relevant time, that too, after a period of more than two months from the date of the incident, the witness had not named any accused. Under the circumstances, it would be hazardous to rely upon the testimony of this witness to prove the charge against the accused. However, the testimony of the witness deserves to be accepted to the extent she is consistent. From the testimony of this witness, it is proved that burning rags were being thrown from the side of the S.T. Workshop, which has also been stated by the other witness.

178. **PW-193 Ibrahimbhai Hasanbhai Shaikh**, aged 52 years, has been examined at Exhibit-1325. This witness has deposed that in the year 2002, he was residing at *Pandit-ni-Chali, Naroda Patiya*, which is situated next to the S.T. Workshop. He was residing at *Pandit-ni-Chali* since thirty five years prior to the incident. The house was a rented one and at the relevant time, he used to ply a rickshaw on hire.

178.1 At the relevant time, he was residing with his family which was comprised of his wife Maheboobbibi, his sons Ismail and Faruk and daughters Farzana and Nargis and son Sharif.

178.2 The incident took place on 27.2.2002. On 27th evening, he was at home. In the evening, he had gone out and was running his rickshaw on hire, when he came to know that a train had been burnt at Godhra and that on the next day, there was a call for bandh. Upon coming to know of this, he stayed at home because he felt that there would be a lot of unrest. Somebody told him that cabins had been burnt at Krushnanagar, and hence, he should not go any further. For this reason, they sat throughout the night, that is, till 2 to 3 o'clock.

178.3 On 28th February, he was at home in the morning. He was asleep, when his family members woke him up and told him that the public had come to pelt stones. Upon his coming to know of this, he woke up and went outside to the Naroda Highway road. He had come out of his house and was standing and he saw that outside the S.R.P. headquarters gate, the public was pelting stones at them. At this time, he remained standing there. The mobs were on all four sides. He had seen that there was public outside the Noorani Masjid, opposite the S.T. Workshop. They saw that from the front of the S.R.P., the people in the mob were pelting stones at the Muslims. They were thinking as to what they should do and what they should not do and were very worried. At this time, the police lobbed shells at them. One shell fell on his leg. Thereafter, they sat there for a while.

178.4 At this time, it was around 11:00 to 11:30 and he saw that public had started coming from the direction of Krushnanagar. At that time, he had seen **Bipin Autowala** go from his garage towards Krushnanagar side. Thereafter, the

mob from the side of Krushnanagar increased. Subsequently, a police jeep also came. The mob which came from the direction of Krushnanagar was firing at them and bursting shells. Thereafter, from the police jeep also, they were firing and lobbing shells. The witness has deposed that Bipin Autowala must have told them, and therefore, the public had come from Krushnanagar and the police jeep came behind them.

178.5 Thereafter, the public which came from the side of Krushnanagar, took gas cylinders from Uday Gas Agency and threw them on the internal roads of the Muslim chawls.

178.6 At this time, the people of the chawl as well as he himself started fleeing towards the chawls on the rear side towards Hussainnagar. At this time, it was around 1:30 in the afternoon. From Hussainnagar, he once again came towards his house.

178.7 He had come to fetch the remaining members of his family. At that time, he saw that his rickshaw had been burnt. At this time, the public climbed on an adjoining hall. At present, there is a hospital where the hall was. At this time, the people standing on the hall were pelting stones at them and in the stone pelting, his son Ismail who was with him, was injured on his head by a stone. Thereafter, they had gone to Hussainnagar.

178.8 The people who were residing in Hussainnagar had also fled from there. Thereafter, they went near Jawannagar. They stood outside near Jawannagar, because they were not permitted to go inside the S.R.P. Quarters.

178.9 **Bhavanisingh** driver came where they were standing at Jawannagar and told them to come and hide. However, they did not trust him and out of fear, they had not gone there. Thereafter, they stood at Jawannagar. At that time, **Guddu** came from behind and told them not to be worried and that they were there. He said this and went away and out of fear, they kept on standing there.

178.10 At this time, the people residing in the S.R.P. Quarters were gesturing to the public towards their mob. Thereafter, they stood there at the corner of Jawannagar. After about half an hour to an hour, they saw people coming there. At this time, they saw the public coming from Jawannagar. They saw people wearing saffron coloured bands, whereafter they came on the opposite side in Jawannagar. They saw that the people from the S.T. Workshop were climbing on the walls and gesturing to the public and were throwing stones at them from the S.T. Workshop.

178.11 Thereafter, they sat there for a little while and then went from one terrace to another terrace. Thereafter, they went to another terrace, where they sat till the evening. They sat on that terrace till around 1:30 at night.

178.12 After 1:30 at night, the police came to their terrace and took them in their vehicles to the Shah Alam camp. They had stayed at the camp for about one year.

178.13 While he was at the camp, the police had recorded his statement regarding the incident. The SIT had also

recorded his statement at Gandhinagar.

178.14 All the household goods in his house were looted and burnt. His house was also burnt down.

178.15 The witness has stated that he knows Bipin Autowala, Bhavani and Guddu, all three of them. He has learnt that Bhavani and Guddu have passed away and that he can identify Bipinbhai if he is present in the court. The witness has thereafter stated that Bipinbhai is not present in the court though Bipinbhai (A-45) was present there. Thus, the witness has not been able to identify the sole living accused named by him.

178.16 CROSS EXAMINATION: In the cross-examination of this witness, he has denied that the first mob that he saw had come in the afternoon and has voluntarily stated that the first mob that he had seen was approximately at 10 o'clock in the morning. He has admitted that the first mob which he saw came from the direction of Krushnanagar and was comprised of four thousand to five thousand people. He saw the mob at the Noorani Masjid after about half an hour and that the mob at the Noorani Masjid was also comprised of approximately five thousand people. The witness has admitted that from where he was standing, he could not see Krushnanagar and has further admitted that the facts stated by him that Bipinbhai must have told the mob, was his personal opinion.

178.17 SUBMISSIONS: The learned counsel for the appellants submitted that this witness though has implicated Bipin Autowala (A-44), he has failed to identify him. Moreover,

as is apparent from paragraph 5 of his examination-in-chief, he has implicated Bipinbhai Autowala on an assumption that the public must have come from Krushnanagar at his instance.

178.18 ANALYSIS: This witness in his examination-in-chief has named accused No.44 Bipin Panchal. As per the version given by this witness at around 11:00 to 11:30 he had seen Bipin Autowala go from his garage towards Krushnanagar. Thereafter, the mob from the side of Krushnanagar grew larger. Subsequently, a police jeep also came. The mob which came from the direction of Krushnanagar was firing at them and bursting shells. Thereafter, from the police jeep also, they were firing and lobbing shells. The witness has deposed that Bipin Autowala must have told them, and therefore, the public had come from Krushnanagar and the police jeep came behind them. Thus, merely because he had seen Bipin Autowala go towards Krushnanagar, the witness has presumed that he must have told the public to come there. On the basis of such presumption, the complicity of the accused cannot be established. Moreover, the witness has stated that the facts stated by him that Bipinbhai must have told the mob, was his personal opinion and has failed to identify him in the dock. The testimony of this witness, therefore, does not in any manner support the prosecution for proving the charge against the said accused.

179. **PW-197 Kherunisha Riyazbhai Shaikh**, aged 45 years, has been examined at Exhibit-1354. This witness has deposed that after the riots, she has come to stay at *Citizennagar, Dani Limda*. At the time when the incident took place, she used to reside in *Jawannagar, Naroda Patiya*. At

that time, she was residing with her husband and four children. Her eldest son was Sirazuddin, younger than him was Nizamuddin, and then her daughters Reshmabanu and Yasmibanu. At that time, her husband used to work at Thakkarnagar in an elastic factory and she used to work in Surajbhai's factory in the bungalow area. Both her sons also used to work in Mukeshbhai's factory, opposite the excise chowky.

179.1 The incident took place on 28th date in the year 2002 and the month was the very month which was running at the time of her deposition. At the time of the incident, she was at home. Her elder son Sirazuddin had gone for his job. They had come to know on the previous night that there was a call for bandh on the next day on account of the Godhra incident.

179.2 On the day of the incident, she set off to go to work in the morning when she was told that since there was a call for bandh, they were not working, and hence, she set out to call her sons.

179.3 At 9:00 to 9:30 in the morning, she had gone to Sirazuddin's factory to call him when his employer told her that nothing would happen and also told her that when his work is over, he (the employer) would come and leave him. While coming back, when she reached near the Noorani Masjid, the mobs were standing there. The people in the mob had tied saffron bands on their heads and were pelting stones at the Noorani Masjid. Thereafter, she came home. Upon coming home, other people were locking their houses and were going and her children were standing there. At that time, the mobs

had started coming in, and hence, they had gone towards the S.R.P. compound wall and upon it becoming dark, they went to a terrace of Gangotri Society.

179.4 In the mob, she had seen **Ganpat Chhara (A-4), Guddu Chhara, Sahejad Chhara (A-26)** and **Jaybhavani Chhara**.

179.5 Late at night, a police vehicle came and took them to the Shah Alam relief camp. She had stayed at the relief camp for six months. Her family members were also at the camp. While she was at the relief camp, the police recorded her statement. Thereafter, the police came there from Gandhinagar with papers and she had gone to Gandhinagar to record her statement.

179.6 Out of the four names she had given, Guddu Chhara and Jaybhavani have passed away. The witness has stated that she can identify Ganpat Chhara and Sahejad Chhara. The witness, however, could not identify either of the two living accused named by her.

179.7 CROSS EXAMINATION: The witness has been cross-examined as regards the topography of the area. In her cross-examination, it has come out that she has gone to Mukeshbhai's factory through the S.T. Workshop road in the morning at around 9:00 to 9:30 to call her son. She had stayed at Mukeshbhai's factory for about half an hour. The witness has admitted that when she went to Mukeshbhai's factory and returned home, during that time, she had not seen any disturbances, riots or any disputes on the road. At that time,

no one had beaten her or harassed her. The witness has voluntarily stated that she had seen people standing on the road. She had seen people on the road while she was going, but she had not seen any riots. The witness has stated that while returning, she had seen stones being pelted at the masjid. The witness has stated that she had seen stones being pelted at the masjid, but did not see any stone throwing in retaliation.

179.8 The witness has been cross-examined with regard to her acquaintance with the four named accused and she had stated that she did not have any relations with any of the accused and that she had no occasion to ever talk to any of them. In her cross-examination, she has stated that she had seen the mob from Krushnanagar for the first time between 12:00 to 12:15 on the national highway. In her cross-examination, it has further come out that she cannot say as to how many people were there in the mob from Krushnanagar. The witness has stated that she has not seen the people in the mob having tied saffron bands round their waists and has voluntarily stated that some of them had tied saffron bands on their heads. The witness has stated that some of them had tied black cloths around their faces. In her cross-examination, it has further come out that out of the people who had tied saffron bands on their heads and black cloths, except for the four people whom she had identified, she could not identify anyone. The witness has admitted that these four named accused had not tied black cloths on their faces or saffron bands. The witness has stated that she has not seen any weapons in the hands of the four accused. The witness has stated that she has not seen these four persons looting, cutting or setting anything

on fire. The witness has admitted that no person in her family has been injured in the incident, but has stated that her house was damaged and she has sustained loss in connection therewith.

179.9 SUBMISSIONS: The learned counsel for the appellants submitted that as is evident from the contents of paragraph 14 of her deposition, this witness does not have any acquaintance with any of the named accused. Moreover, she has not attributed any weapons to the accused. It was pointed out that this witness has admitted that she has not seen any accused setting anything on fire, committing loot or causing any injury. It was submitted that it transpires from her evidence that she had not seen any incident and any accused persons.

179.10 ANALYSIS: From the testimony of this witness, all that emerges is that the mob was present on the road when she returned to the factory and there was no rioting, but she had seen people pelting stones at the masjid. At 12:00 to 12:30, the mob from Krushnanagar was pelting stones at their houses. When the mobs started coming, they went towards the S.R.P. compound wall, but were not permitted to go inside. Upon it becoming dark, they had gone to a terrace of Gangotri Society. The witness has named four accused, out of whom, two, viz., Guddu and Jaybhavani Chhara Chhara are dead. Insofar as the other two accused viz. Ganpat Chhara (A-4) and Sahejad Chhara (A-26) are concerned, she could not identify them in the dock. The witness having failed to identify the accused in the dock, her testimony would not assist the prosecution in establishing the case against the named

accused.

180. **PW-198 Harun Mahammadbhai Shaikh**, aged 35 years, has been examined at Exhibit-1363. This witness has deposed that he was residing in *Lane No.1, Hukamsing-ni-Chali* since childhood. At present, he is residing with his second wife Noorjahan and sons Mustufa and Maheboob.

180.1 In the year 2002, his mother Mumtazbanu, his then wife Gosiyabanu and his son Akram and his father Mahammadbhai, all four were residing together. His mother Mumtazbanu, his then wife Gosiyabanu and his son Akram, died in the riots that took place in the year 2002.

180.2 The incident took place on 28.2.2002. On that day, there was a call for Gujarat bandh on account of Kar Sevaks being burnt in a train at Godhra on 27.2.2002.

180.3 On the date of the incident, that is, 28.2.2002, he was at home in the morning. As per his routine, he had woken up at 8:00 to 8:30 in the morning. He was following his routine when sounds started coming from the chawl. Voices were heard from the chawls saying "*mobs have come, mobs have come*", whereupon he came out and went to the place where at present there is a police chowky. The police chowky at present is at the corner of the S.T. Workshop. When he came out, around fifteen to twenty persons of their chawl standing were there and the cabins and stalls nearby were open. Thereafter, a police jeep came and got the stalls and cabins shut down. Thereafter, there were mobs near the gate of the S.T. Workshop as well as near the gate of the S.R.P. Quarters

where earlier Bipin Auto Centre was situated.

180.4 The mobs on both the sides had tied saffron bands on their foreheads. He knew some of the people in the mob. Certain people in the mob had swords, pipes, trishuls etc. in their hands.

180.5 In this mob, he saw **Mayaben (A-37), Babu Bajrangi (A-18), Sachin Modi (A-52), Ashok Paan-gallavalo (A-45), Manoj Videovala (A-41), Suresh Langdo (A-22), Haresh (A-10), Guddu (deceased) and Bipin Autowala (A-44)**. He had seen all of them at around 9:30 in the morning on the date of the incident. They were leading the mob in front of the mob opposite the S.T. Workshop as well as the mob near the S.R.P. gate. Of course, both the mobs had thereafter become one.

180.6 The people in the mob had set the carts, cabins and houses etc. nearby on fire and they had attacked the Noorani Masjid. From the Muslims, some people went to reason with the nine persons named above, however, they did not listen to them and shouted "kill, cut" and started pelting stones at the people belonging to their community. In this manner, they had gone near the Noorani Masjid to reason with the nine persons, however, they would not listen to them and pelted stones due to which, they were frightened and came back where the police chowky is presently situated.

180.7 Upon coming back to the police chowky spot, tear gas shells came to be lobbed and firing was resorted to from the police jeep which was standing near the S.T. Workshop

gate. In this police firing, four persons were injured by bullets. In the firing, Abidbhai, Piru, Mahammad and Khalid were injured by bullets. Abid died on the spot. Other three persons other than Abid had sustained bullet injuries. All of them were taken inside by the Muslims standing there. There, the Muslims were running towards the chawls and the persons in the mob were after them.

180.8 The people in the mob entered their chawls and ransacked their houses and set them on fire. All the Muslims went to the Gopinath Gangotri Society on the rear side of their chawls and hid there.

180.9 Till 4 o'clock in the evening, they sat at Gopinath and Gangotri Society. While they were sitting there, **Tiwari (A-25), Sahejad (A-26), Jaybhavani** and **Guddu** came to where they fifteen to twenty Muslims were sitting and told them that they should go from the road on the rear side to the S.R.P. Quarters. At this time, men, women and children were there together.

180.10 Since Tiwari, Sahejad, Jaybhavani and Guddu were residing in their area, they heeded to what they had said and started going with them. While they were going, the people in the mob were sitting and hiding near the Gopinath gate and upon their coming out, all the people in the mob encircled them. Sachin and Suresh Langdo were in the mob which was hiding. At the time of the incident, they were returning from Gopinath Society to save themselves and had gone into a passage near the Gopinath Society water tank. While in the passage, they thought that the mob would go away from the

front, however, the mob started killing and cutting them in the passage itself. The people in the mob assaulted them and set people from amongst them on fire.

180.11 In the assault which took place in this manner, there were three persons from his family, namely, his mother Mumtazbanu, his wife Gosiyabanu and his son Akram, all three of whom died in the incident. Over and above them, other people from their community also became victims of the assault, amongst whom were his maternal aunt Rabiya, his niece Farhana and the persons residing nearby, Reshma etc..

180.12 When the incident took place, it must have been around 4:30 to 5:00 in the evening. However, he does not know the exact time, but it was evening time.

180.13 In the mob which was carrying on the assault, he had recognized five people out of whom Tiwari (A-25) and Jaybhavani had swords in their hands. The witness has thereafter recalled that Jaybhavani had a stick in his hand. Guddu had a sword in his hand, Suresh Langdo (A-22) had a dharia in his hand, and Sachin alias Modi had a pipe in his hand.

180.14 While the assault was taking place, he had intervened to save his son Akram, whereupon he was injured by a dharia (scythe) on his right hand and sustained a burn injury below his eye. He escaped from all this and went and hid in Gangotri Society. He sat there for some time when he noticed that other people from their Muslim community were also sitting there. It was the time for *Maghrib*, viz., it was

evening time.

180.15 From this place, women and men of their community had seen that the mob had dispersed and hence, the people from their community thought of slowly going towards the S.R.P. Quarters from the road, and hence, all of them slowly started going in that direction.

180.16 While they were going in this manner, they saw Babu Bajrangi standing with a mob in the open ground near Teesra Kuva. Out of fear, they stood there and at that time, the people in the mob started assaulting them. At this place itself, in front of him, the people in the mob killed four persons belonging to his community. In all this, out of fright, he went back to Gopi Society and hid there.

180.17 Late at night, police vehicles came, in which they were taken to Shah Alam camp. He took treatment for the injuries sustained by him at the Shah Alam camp, where he stayed for six months.

180.18 When he was at the camp, the police had not orally examined him in connection with the incident. After six months at the camp, he went back to *Lane No.1, Hukumsing-ni-Chali* to his residence. About six months after returning to Patiya, he came to know that there was hearing of the case at Naroda Police Station and hence, he went there. He did not find anything proper at the Naroda Police Station and there was no hearing taking place there and hence, he returned home. Thereafter, he learnt about the SIT. He came to know that the SIT had been constituted where they can have their

statements recorded. He too, sent his application to the SIT. He had sent the application through post. He had made the application to the SIT in connection with the death of his family members.

180.19 The application Mark 644/10 is shown to the witness, which is a handwritten application and he has identified his signature thereon. The contents of the application were read over to the witness and he has admitted the contents thereof. The application has been exhibited as Exhibit-1364.

180.20 The witness has deposed that after making the application, Exhibit-1364, the SIT had recorded his statement. In all, two statements of his were recorded. The witness has then remembered that in all three statements were recorded.

180.21 The witness has stated that he can identify all the people whom he has stated that he had seen in the morning as well as in the evening incidents. The witness has further stated that he has learnt that out of the persons named by him, Guddu Chhara and Jaybhavani are dead and has stated that he can identify rest of the accused. The witness has thereafter correctly identified Mayaben (A-37), Babu Bajrangi (A-19), Tiwari (A-25), Ashok Paanwala (A-45), Suresh Langdo (A-22), Sachin Modi (A-52), Sahejad (A-26), Bipin (A-44) and Manoj Videowala (A-41). The witness has not been able to identify Haresh Chhara (A-10) though he was present before the court.

180.22 CROSS EXAMINATION: This witness has been examined with regard to the names of his family members and

where they reside as well as the topography of the area. In his cross examination he has admitted that from the day of the incident till 2008, he had not stated the facts regarding the incident to anyone. He has admitted that he had not given the names the accused whom he has identified before the court to any one till 2008. The witness has admitted that at the time of the incident he, his father and his brothers were all residing together. The witness has admitted that from the time he had started his business of plying rickshaw, till 2008 he had no fear. He has admitted that he has seen the Naroda Police Station in Naroda and he had an occasion to go there. He has admitted that from 2002 to 2008 he has not lodged any complaint with Naroda Police Station. The witness has admitted that prior to making the application-Exhibit 1364 to the SIT he had not gone to any police station to disclose the incident. The witness has voluntarily stated that as stated by him in his examination-in-chief, he had once gone to the Naroda Police Station, but was not satisfied with the hearing and had returned. The witness has stated that at present he does not remember whether any statement of his was recorded prior to his making the application to the SIT. As far as he remembers, the SIT has recorded his statement thereafter. The witness has stated that while making the application Exhibit 1364, he did not know that he would be required to go for recording of his statement again. The witness has admitted that in his application Exhibit 1364 he has stated that in view of the order of the Supreme Court, he had remained present for the purpose of recording his statement again. He has admitted that prior to making the application, his statement was not recorded anywhere. He does not remember as to who had written the application

Exhibit 1364. The witness has admitted that in his application Exhibit 1364, he has stated that while going on the road he was stopped and threatened. The witness has denied that the facts stated in his application are incorrect.

180.23 In his cross-examination it has come out that he does not know the officers at the Naroda Police Station. He has heard the names of Shri K.K. Mysorewala as well as Chudasama, but has never seen them. The witness has stated that he has not heard that both of them have investigated their case or have recorded any statement. The witness has stated that he had heard that Mysorewala and Chudasama were investigating their case, but he had never seen them in connection with the investigation. The witness has stated that till he made his application Exhibit 1364 he had not made inquiry as to with whom investigation case was and what was the stage of investigation.

180.224 In his cross-examination it has come out that when he came out of his house in the morning at 8 o'clock, at that time the police were getting the stalls and carts shut down. The witness has admitted that he does not know as to which weapon was in the hands of which accused and has voluntarily stated that they had weapons in their hands, but he does not remember which accused had which weapon in his hand. The witness has stated that he had seen the accused identified by him in the court. Near the Noorani Masjid he had seen them while standing at the corner of the S.T. Workshop. He has admitted that at that time they were in the mob near the Noorani Masjid. He has denied that at that time there were at least five thousand to ten thousand people in the mob. He has

stated that after he came out of his house and went near the S.T. Workshop, he must have stayed there for about half an hour to an hour. He has denied that at that time there were at least two thousand to five thousand people at the Noorani Masjid Chowk. He has stated that the mob must have been comprised of around fifty people. He has admitted that the accused named by him were there in that mob of fifty people.

180.25 The witness has stated that he has not seen any firing from the Noorani Masjid towards the S.T. Workshop or towards their chawl. He has stated that after staying at the S.T. Workshop corner, he had taken three Muslims who were injured in firing and gone inside. He had not gone home, but had gone to Gangotri Society. He does not know to whose house he had gone and that after leaving the injured persons at Jawannagar he had gone to Gangotrinagar. The witness has stated that he cannot say as to till what time in the evening he had stayed at Gangotrinagar, but has stated that it was evening time. The witness has admitted that at about 5 o'clock, till the four persons (Tiwari, Sahejad, Jai Bhavani and Guddu) came to call him, he was at Gangotri Society. The witness has denied that in his statement dated 28.5.2008 he has not named these four accused.

180.26 In the cross-examination of the witness it has come out that he must have reached Teesra Kuva ground prior to 6 o'clock in the evening. He has admitted that he must have reached near the water tank at around 4:00 to 4:30. He has stated that he knows Jadikhala and that he had not seen the Jadikhala incident at 4:30 in the evening near water tank. He has denied that he has seen only his mother's incident. He has

stated that he has seen Jadikhala's incident near the open ground, near Teesra Kuva. He has denied that the Jadikhala incident took place at Jawannagar. He has admitted that Jadikhala was assaulted near Teesra Kuva. He has denied that she was set ablaze and has clarified that she was killed and hacked on the open ground and set ablaze and thereafter she was thrown in the well. He has admitted that he has seen this incident himself. The witness has denied that Jadikhala's murder did not take place at the Teesra Kuva ground and that she was not burnt and he has not seen anything. The witness has asserted that he has seen Jadikhala being killed and hacked as well as burnt and he had seen her being thrown in the well in a burning condition. He has admitted that on that ground he had seen three others also being killed and hacked. The witness has admitted that other three persons were also burnt there.

180.27 The witness has stated that he does not know that the incident in the passage near the Gopinathnagar water tank, wherein three members of his family died, took place at around 4:00 to 4:30 in the evening, but it was the evening. The witness had denied that he was not injured when he tried to save his son Akram. The witness has admitted that he has received Rs.5,00,000/- by way of compensation for the death of each member of his family and that in all, he had received Rs.15,00,000/-. The witness has denied that at the instance of the members of his community and with the intention of obtaining compensation, though his family members have not died in the incident, with a view to take money in their name, after six years, he had given a false statement stating false facts and presenting a false case before SIT and was falsely

deposing before the court. The witness has admitted that his statement was also recorded on 12.9.2008. The witness has denied that it had so happened he had not seen Ashok Pan Gallawala, Mayaben and Manoj Videowala in the morning incident and had seen them only in the evening. The witness has stated that he had seen Mayaben, Manoj Videowala and Ashok Pan Gallawala, near the S.T. Workshop. He had denied that he was standing near the Uday Gas Agency lane and he had seen these three people. He has denied that in the evening time he has seen these three persons and other accused from near Uday Gas Agency. The witness has stated that he has not seen any incident from the Uday Gas Agency road in the evening and he had not seen any of the accused from there. The witness is confronted with his statement dated 16.1.2009 wherein he has stated that in the evening at around 5:30 to 6:00 he was standing at the corner of the Uday Gas Agency lane, at that time, opposite Bipin Auto Shop, on the highway he had seen (i) Mayaben Kodnani and (ii) Bipin Autowala, who were gesturing to the people in the mob and were instigating them to go towards their chawl. From where he was standing, on the opposite side, at a distance of about 50 feet, he had seen them in the mob. The witness has admitted that in his statement dated 12.9.2008 he had stated that he had seen (i) Mayaben Kodnani, (ii) Ashok Pan Gallawala, and (iii) Manoj Videowala, all three of them, opposite the S.T. Workshop in the evening mob. At that time he was standing where at present the Naroda Patiya Police Chowky is situated. They were standing at a distance of 50 feet from him. The witness has stated that he does not remember at present whether in his statement dated 28.5.2008 he has stated that he has seen Mayaben Kodnani,

Manoj and Ashok Paan Gallawala in the evening mob.

180.28 [It appears that in this statement there is no such fact regarding evening mob].

180.29 In the cross examination of the witness it has further come out that two and a half months after going to the camp he was taken for drawing a panchnama of his house. The police had accompanied him. He has stated that at this time, on the way, while going as well coming, he had not stated any fact regarding the incident and the accused persons whom he had identified to the police. The witness has admitted that Farzana is his sister and that when he met Farzana for the first time after riots she was in the hospital. The witness has admitted that his sister Farzana told him about his wife Gosiya, Akram and his mother.

180.30 The attention of the witness is drawn to the third line to the fifth line and the last three lines of paragraph 5 of his examination-in-chief to the effect that he has not stated such facts in his statement recorded by the SIT. The contents of the last four lines of paragraph 7 of the examination-in-chief are brought to the notice of the witness to the effect that he has not stated such facts in the statement recorded by the SIT. The attention of the witness is drawn to the words, 'these persons' in the first line of paragraph 8 of his examination in chief to the effect that he has not mentioned these words in the statement recorded by the SIT. Similarly, the witness is confronted with the words 'these nine persons' in the 4th line of that paragraph to the effect that he has not stated so in the statement recorded by SIT. The attention of this witness is

drawn to the first line of paragraph 9 of the examination-in-chief to the effect that he has not stated before the SIT that there was a police jeep at the S.T. Workshop gate. The attention of the witness is also drawn to the sixth line to the ninth line of paragraph 9 of his examination-in-chief to the effect that he has not stated before the SIT that he had taken three persons who were injured by bullets towards Muslim chawls. The witness is also confronted with paragraph 11 of his cross-examination to the effect that in the statement recorded by the SIT, he had not stated that they had stayed at Gopinath and Gangotri Society till 4 o'clock. The contents of first line of paragraph 12 of his examination-in-chief to the effect that they had started going with Tiwari, Sahejad, Jaybhavani and Guddu, is not stated by him in the statement recorded by SIT. The witness is further confronted with the third line to the fifth line of paragraph 12 of his examination-in-chief to the effect that before the SIT he had not stated that the people in the mob were sitting and hiding near the Gopinath Nagar gate and they had surrounded them. The witness has admitted that during the course of investigation, no test identification parade of the nine accused identified by him had been carried out.

180.31 To prove the omissions and contradictions as to the previous statements of the witness, the defence has cross-examined PW-327, Shri V. V. Chaudhari, the Investigating Officer (SIT), who, in his cross examination, has admitted that he has recorded the statements of this witness on 28.5.2008, 12.9.2008 and 16.1.2009. He has admitted that this witness in his statement dated 28.5.2008 had stated that in the meanwhile, they were hiding in Gopinath – Gangotri Society. The Investigating Officer has admitted that in his statement

dated 28.5.2008 this witness has not mentioned Teesra Kuva and nor has he mentioned that he had gone to Teesra Kuva. The Investigating Officer has admitted that the witness in his statement dated 28.5.2008 has not stated that when he had gone to rescue Akram, he had sustained injury. The Investigating Officer has clarified that the witness has stated before him that both, the witness and Akram, were in the passage in middle of Gopinath and Gangotri Society and in the incident that took place, Akram was burnt and the witness had sustained injuries.

180.32 The Investigating Officer has admitted that in his statement dated 16.01.2009, the witness had stated that in the evening at around 5:30 to 6:00, he was standing at the entrance of the nearby Uday Gas Agency lane, at that time on the highway, opposite Bipin Autowala shop, he had seen (1) Mayaben Kodnani and (2) Bipin Autowala in the mob and they were gesturing to the people in the mob to go towards their chawl and were instigating them. From where he was standing, he had seen the mob from a distance of about fifty feet from the opposite side.

180.33 The Investigating Officer has admitted that in his statement dated 28.5.2008; this witness has not stated any fact regarding having seen Mayaben, Bipinbhai, Manojbhai and Ashok Paangallawala in the mob in the evening. The Investigating Officer has further clarified that this witness had stated all the facts regarding the presence of these four persons in the morning mob and in the statement dated 16.1.2009, he has stated that in the evening at around 5:30 to 6:00, he was standing at the entrance of the lane of Uday Gas

Agency, when he had seen Mayaben and Bipinbhai in the mob and they were gesturing to the mob and instigating them to go towards their chawl.

180.34 The Investigating Officer has admitted that the witness in his statement dated 28.5.2008 has not stated that “the spot where at present there is a police chowky and at present the police chowky is situated at the corner of the S.T. Workshop”. However, he has clarified that in his statement dated 12.5.2008, the witness has stated that at that time, he was standing where presently Naroda Police Chowky is situated. The Investigating Officer has admitted that in his statement dated 28.5.2008, the witness had not stated that the mob was at both the places, namely, at the corner of the S.T. Workshop as well as near the S.R.P. Quarters’ gate. He, however, has clarified that the witness had stated that there was a mob of people from the direction of Krushnanagar as well as opposite the S.T. Workshop and near Natraj Hotel, there was a mob of people. Moreover, in his statement dated 16.1.2009, the witness had stated that he had also seen a mob opposite the S.T. Workshop.

180.35 The contents of paragraph 7 of the examination-in-chief of the witness are read over to the Investigating Officer who has denied that the witness has not stated what is stated in the last four lines of the paragraph. He has clarified that the witness had stated before him that he had come out near the highway road when he saw that a mob had gathered near Krushnanagar; mobs of people had also gathered towards Natraj Hotel and opposite the S.T. Workshop and they had weapons in their hands and had tied saffron bands on their

heads and that the witness had seen all the accused named in paragraph 7 in the mob and that since he was residing in the same area, he knew them very well. The Investigating Officer has stated that the witness has clearly stated that he had seen these accused in both the mobs. He, however, has admitted that the witness has not stated that the accused were in front of the mob. He has stated that additionally, in his statement dated 16.1.2009, the witness has stated that at 9:30, he had also seen the accused in the mob opposite the S.T. Workshop.

180.36 The Investigating Officer has admitted that this witness had not stated before him that the mobs had gathered at the S.R.P. Quarters and the S.T. Workshop. He, however, has clarified that the meaning of what is stated by the witness in his statement dated 28.5.2008 is more or less the same.

180.37 The Investigating Officer has denied that the words “these nine people” and “these people” are not stated in the statement dated 28.5.2008. According to the Investigating Officer, the witness had given the names of nine persons and hence, reference to the nine persons stand included in the statement though he has not stated so in specific words. Moreover, he has clearly referred to the presence of these nine persons in the mob. The Investigating Officer has stated that the witness had not stated that some of the Muslims had gone to reason with these nine persons; however, in his statement he has stated that the people from their community had gone to reason with the people in the mob. The Investigating Officer has stated that the witness in his statement has stated that people of the community had gone to reason with the people in the mob and these nine persons were in the mob, and hence

it is clear that these nine persons had also gone to reason with the mob. The Investigating Officer has admitted that in the statement recorded by him, it is not clear as to with which people from the mob and at which place they had talked.

180.38 The Investigating Officer has admitted that the sentence regarding the police jeep being parked in front of the S.T. Workshop is not there in the statement of the witness. He, however, has stated that the witness had stated that the police vehicle was getting the shops shut down, which indicates that the police vehicle was there. That the police was standing where at present there is a police chowky and at that time, the police had fired upon them and had started releasing tear gas shells. The Investigating Officer has admitted that in none of his statements, the witness has stated that three persons who were injured by bullets were taken towards the chawls.

180.39 The Investigating Officer has denied that this witness had stated before him that till 4 o'clock, they had stayed at Gopinath – Gangotri Society. He has stated that the witness had not stated the words “4 o'clock”, but had stated that till 5:30, they had hidden in Gopinath – Gangotri Society.

180.40 The Investigating Officer has denied that this witness had not stated before him that Tiwari, Sahejad, Jaybhavani and Guddu started going together. The Investigating Officer has stated that the witness had stated before him that Tiwari, Sahejad, Jaybhavani had come to where they were hiding and had told them to go from there to the road from the S.R.P. Quarters on the rear side and hence, they had gone towards the S.R.P. Quarters. He has admitted that

the word “together” has not been used in the statement.

180.41 A sentence from paragraph 12 of the examination-in-chief of the witness is read over to the Investigating Officer, wherein he has stated that the people in the mob were hiding near the gate of Gopinathnagar Society and they had surrounded them. The Investigating Officer has admitted that this sentence is not there in the statement, but the witness has stated that in the open ground, Babu Bajrangi was standing with the people in the mob and that the mob had surrounded them.

180.42 In the opinion of this court, when the contradiction is only with regard to where the people in the mob who were sitting and hiding near the gate of Gopinathnagar had surrounded the victims, the Investigating Officer could not have brought on record the statement of the witness stating that Babu Bajrangi was standing with the mob in the open ground and they had surrounded them. The Investigating Officer is only required to prove or deny the contradiction which is put to him and at best, to explain such contradiction, if possible. However, no additional facts can be brought on record by him, as has been done in the present case.

180.43 The Investigating Officer has admitted that in his statement dated 12.9.2008, the witness had not stated that he was not orally examined at the camp. He, however, has stated that the witness in his statement dated 12.9.2008 had stated that when he returned from Karnataka after four months, at that time no one had come to record the statement and the witness had also not gone to give his statement and that the

police had not made any inquiries.

180.44 Certain extracts of the paragraph 20 of the examination-in-chief of this witness are read over to the Investigating Officer, wherein he has stated that around six months after returning to Naroda Patiya, he came to know that their case was being heard at Naroda Police Station and hence, he had gone there. He felt that something was not all right at the Naroda Police Station and no hearing was going on, hence, he returned home. The Investigating Officer has admitted that such facts have not been stated by the witness in any of the statements recorded by him.

180.45 SUBMISSIONS: The learned counsel for the appellants submitted that no statement of this witness has been recorded at the relevant time and his statement came to be recorded for the first time on 28.5.2008 by the SIT. Subsequently, two other statements came to be recorded by the SIT on 12.9.2008 and 16.1.2009. It was submitted that this witness has named nine accused in paragraph 7 of his examination-in-chief and three accused in paragraph 11. He has identified all the accused, except accused No.10 Haresh Chhara. It was submitted that the witness has tried to give an explanation as to why he has given the statement late, but no such explanation was stated by him in his statement before the SIT. It was submitted that the explanation put forth for giving the statement late is neither acceptable nor digestible. It was submitted that the explanation which is sought to be given before the court, is also found to be missing in his primary statement before the SIT. It was submitted that after the main incident which he claims he had seen wherein his

mother, wife and son have died, the version of the witness that thereafter he went to Teesra Kuva where he found a mob, is also not acceptable at face value. It was submitted that the witness has gone to a terrace at Gangotri and had stayed there until the police came, which indicates that he had created this story just to implicate Babu Bajrangi (A-18). It was submitted that there is a variance in the version given by this witness in his examination-in-chief vis-à-vis his statement before the SIT as regards the time and place from where he had seen accused No.37, accused No.41 and accused No.44 and the variance is such, both as regards the time as well as the place, which is not reconcilable.

180.46 Reference was made to his application Exhibit-1364 to submit that the witness has admitted the contents thereof, which include those two allegations about threat from the accused and allegations against two police officers.

180.47 It was submitted that looking to his SIT statement and his evidence, it transpires that he was not present and no such incident had happened as stated by him. It was submitted that this witness has not seen any incident and he was not there at all and subsequently after he came to know from other persons, he has created this story which he has stated before the court. Various discrepancies in the statement of this witness qua other witnesses have been pointed out. It was submitted that there is no evidence on record to show that the witness was injured and had taken treatment.

180.48 Referring to the contents of paragraphs 94 to 96 of the testimony of this witness, it was pointed out that the

witness has stated that in his statement recorded by the SIT, the witness had stated that in the evening at around 5:00 to 5:30, he was standing at the corner of Uday Gas Agency when he had seen Mayaben Kodnani and Bipin Autowala in the mob. It was submitted that the testimony of this witness as contained in paragraph 13 read with paragraphs 73 and 96 are clearly inconsistent with each other. It was submitted that in the light of the inconsistencies in the statement of this witness, he is not a reliable witness and no reliance can be placed upon any part of his testimony, more so, considering the fact that his version has come on record for the first time only in the year 2008 before the SIT.

180.49 The learned Special Public Prosecutor submitted that this witness has lost three of his family members in the incident. It was submitted that as regards the morning incident the witness has stated that he had seen some of the accused. In the afternoon incident he has stated regarding the incident which took place at around 4.30 to 5.00 in the evening when his family members were killed and another simultaneous incident about Jadikhala and three more persons. It was submitted that therefore, of the three incidents, the first and second incidents cannot be disbelieved in view of the fact that so far as the first incident is concerned, there was other evidence to show that some of the accused named by him were spotted in the morning and that so far as the afternoon incident is concerned he has lost three of his family members and there is no other contradictory evidence on record as regards killing of these three persons. It was submitted that so far as two incidents are concerned the witness is believable and credible and that such part of his evidence should be

accepted.

180.50 ANALYSIS: This witness is the brother of PW-85 Yunusbhai Mohammedbhai Shaikh. Three members of his family have died in the incident, namely, his mother Mumtazbanu, his then wife Gosiyabanu and his son Akram. In his examination-in-chief the witness has stated that when he had come out of his chawl in the morning at around 8:00 to 8:30 and was standing at the corner of the S.T. Workshop, he saw mobs coming from both the sides wherein he had seen Mayaben Kodnani (A-37), Babu Bajrangi (A-18), Sachin Modi (A-52), Ashok Paan Gallawala (A-45), Manoj Videowala (A-41), Suresh Langdo (A-22), Haresh Rathod (A-10), Guddu (deceased) and Bipin Autowala (A-44). The witness has stated that he has seen all of them at around 9:30 in the morning on the day of the incident. They were in the mob opposite the S.T. Workshop gate. The witness has alleged that the people in the mob were setting the cabins, stalls and houses on fire and had attacked the Noorani Masjid. In the cross-examination of this witness it has come out that prior to 2008, he has not narrated any fact relating to the incident to anyone. Prior to 2008, he had not given the names of the accused named and identified by him before the court, before any authority. Therefore, the version given before the court has come for the first time in the year 2008. The witness has further deposed regarding firing by the police wherein Abidbhai, Piru, Mohammed and Khalid were injured. The witness has stated that the people in the mob entered their chawls, started looting them, and setting them ablaze and all the Muslims went to Gopinath-Gangotri Society on the rear side of their chawl and hid there. In the evening at around 4 o'clock, Tiwari, Sahejad, Jai Bhavani

and Guddu came to where they were sitting and told them to go to the S.R.P. Quarters. Since these four persons were residents of that area they started going with them. When they reached the gate of Gopinathnagar, mobs of people were hiding there and they came out and surrounded them. In this mob he had seen Sachin and Suresh Langdo. To save themselves, they had returned from Gopinathnagar Society. The mob assaulted them and set them ablaze and in the incident his mother Mumtazbanu, his wife Gosiyabanu and his son Akram died. According to this witness the incident must have taken place at around 4:30 to 5:00. The witness has stated that in the mob which indulged in violence, he had seen Tiwari and Jaybhavani as well as Guddu, Suresh Langdo and Sachin Modi. In the assault he had tried to save his son Akram and in the process he was injured on his right hand with a dharia and sustained a burn injury below his right eye. Thereafter, he had gone to Gangotri Society and hidden himself. Thereafter, in the evening, at the time of *Maghrib*, they got down and were slowly going towards the S.R.P. Quarters and near Teesra Kuva, in the open ground he had seen Babu Bajrangi standing with a mob. The mob started assaulting and killed four people in front of his eyes.

180.51 In his cross-examination, it has come out that he was at Gangotri Society till 5 o'clock, when the four persons, namely, Tiwari, Sahejad, Guddu and Bhavani came to call him. The witness has stated that he had seen the incident relating to Jadikhala on the open ground near Teesra Kuva. According to the witness he had seen Jadikhala being assaulted, hacked, set ablaze and thereafter thrown in a burning condition into the well.

180.52 In paragraph 95 of his cross-examination the witness is confronted with his statement dated 16.1.2009 to the effect that he has stated therein that at around 5:30 to 6:00 in the evening, while he was standing at the corner of the Uday Gas Agency lane, he had seen Mayaben Kodnani and Bipin Autowala in a mob on the highway opposite Bipin Auto. The witness has admitted that in his statement dated 12.9.2008 he had stated that he had seen Mayaben Kodnani, Ashok Paan-na Gallawala and Manoj Videowala in the mob opposite the S.T. Workshop in the evening time.

180.53 Considering the overall testimony of this witness, it appears that due to lapse of six years, the witness could not correctly recall the incidents and part of his testimony could also be the result of tutoring. Despite the fact that three members of his family have died in the incident, the witness has not given statement before the police at the relevant time. It appears that after a short stay at the camp, the witness has gone back to his native place.

180.54 From the testimony of this witness there are various self contradictions, namely, in his examination-in-chief the witness has stated that the incident in which his mother, wife and son were killed, took place at about 4.30 to 5.00 and thereafter another incident took place in the open ground near Teesra Kuva, before the S.I.T. in his statement dated 16.1.2009 he has stated that he was standing at the corner of the lane of Uday Gas Agency in the evening at 5:30 to 6:00, at which point of time he had seen Mayaben Kodnani and Bipin Autowala in the mob on the highway. Moreover, in his cross-examination,

the witness has stated that he had seen Jadikhala being hacked to death and set ablaze and thrown into the well, which is contradictory to the version given by most of the witnesses, who have stated that Jadikhala was killed in the incident that took place near the passage of the water tank.

180.55 The witness has named several accused in his deposition, namely, Mayaben Kodnani (A-37), Babu Bajrangi (A-18), Sachin Modi (A-52), Ashok Panna Gallawala (A-45), Manoj Videowala (A-41), Suresh Langdo (A-22), Haresh Rathod (A-10), Guddu (deceased) and Bipin Autowala (A-44). However, considering the nature of contradictions in the testimony of this witness as well as the fact that his version has come on record for the first time only in the year 2008, when his statement came to be recorded by the S.I.T. as well as considering the contradictions in his testimony before the court and his statement recorded by the S.I.T., the witness does not come across as a credible and truthful witness. Under the circumstances, it would be hazardous to rely upon the testimony of this witness to prove the charge against the accused in such a serious offence.

181. **PW-199 Noormahammad Nazirmahammad Mev (Pathan)**, aged 65 years, has been examined at Exhibit-1375. This witness has deposed that he was serving as a driver with the A.M.T.S. and presently, he has retired. He is residing at *Chetandas-ni-Chali* since the last 30 to 35 years. His native place is *Village Filakana, District Aligarh, Uttar Pradesh*.

181.1 The incident took place on 28.2.2002. During that period, he was residing with his wife, his two sons and two

daughters. He has studied up till the 8th standard.

181.2 On 28.2.2002, the day of the incident, the Hindu Parishad people had given a call for Gujarat bandh. The call was on account of the Godhra incident. On that day, he had not gone for his job. The timings of his service were from 2 o'clock in the afternoon till 10 o'clock at night.

181.3 On the date of the incident, in the morning at around 9:00 to 9:30, the mobs started gathering outside his house in front of the Noorani Masjid. There was shouting going on that day on the road and he came out to the corner of the S.T. Workshop. On that day, mobs of Hindus were coming from the direction of Natraj Hotel and Krushnanagar.

181.4 The people in the mob had weapons like pipes, dharias, etc. in their hands. The mob which came from the direction of Natraj Hotel went towards the Noorani Masjid. This mob started setting the stalls, cabins and shops on fire. The mob coming from the direction of Krushnanagar started setting stalls, carts etc. behind their houses on fire. The people in the mob were shouting "*cut, kill and burn the Muslims*".

181.5 He was standing near the electric pole near the S.T. Workshop compound wall. The policemen told him and the other Muslims standing there to go inside.

181.6 In the mob which came from the direction of Krushnanagar, certain people had saffron bands round their foreheads and their waists. Out of them, four persons were leading the mob and were instigating the people in the mob.

These four persons were **Suresh Langdo (A-22), Guddu, Bhavani** and **Tiwari (A-25)**. They were showing the people in the mob the houses and shops belonging to Muslims and the places where the Muslims were hiding. Thereafter, the mob entered the houses of the Muslims whereafter he went home.

181.7 Before he went home, the police had resorted to firing. At that time, he was standing there. In this firing, one boy was injured whose name was Khalid. He was injured on the waist by a bullet. Other boys lifted Khalid and took him inside. After this incident, he went home.

181.8 After going home, he took his wife and children and went towards the S.R.P. Quarters. There, they were prevented by the S.R.P. people from entering the quarters. His son, as well as the son of Kureshi Saheb who used to reside in the S.R.P. Quarters, were studying in the same school, and hence, upon his son mentioning the name of Kureshi Saheb, they were permitted to enter the S.R.P. Quarters.

181.9 At around 12 o'clock at night, on account of Kureshi Saheb, the S.R.P. people dropped them at the Shah Alam camp. They stayed at the Shah Alam camp for about eight months.

181.10 The police came to the camp after about four or five months of the incident to record his statement. Thereafter, the SIT people also recorded his statement at Gandhinagar.

181.11 As per his information, Guddu Chhara and Bhavani are dead and he can identify Suresh Langdo and Tiwari. The

witness has thereafter correctly, identified Tiwari (A-25) and Suresh Langdo (A-22).

181.12 The witness has stated that the Hindu mob had set his house on fire and had looted all his household articles.

181.13 CROSS-EXAMINATION: This witness in his cross-examination has admitted that the electric pole where he was standing is on the side of the road which goes from S.T. Workshop towards their chawl. He has stated that before he went home, he had stood near the electric pole for around thirty to forty-five minutes. In his cross-examination, the witness is confronted with his statement dated 12.5.2002 to the effect that he had stated therein that at that time Muslims from their chawl as well as other chawls situated behind their chawl, like Kumbhaji-ni-Chali, Hukamsing-ni-Chali, Pandit-ni-Chali, Hussainnagar, Jawannagar, etc. and residents of those chawls had also come out to the corner of their chawl on the road. It may be noted that the witness is confronted with his police statement, not with a view to contradict any part of his primary statement, but to bring on record certain facts stated by him in his police statement. In view of the prohibition contained in section 162 of the Code, it was not permissible to bring this part of the statement of the witness on record. The witness has admitted that the mob of fifteen thousand to twenty thousand people was causing commotion. The witness has voluntarily stated that they were saying, 'kill, cut and burn Muslims'. The witness has denied that upon fifteen to thousand people gathering there, such a situation was created whereby one could not hear what anyone was speaking. The witness has admitted that in the entire incident no member of his

family had been injured.

181.14 The witness has stated that he had made an application to the SIT. He has admitted that thereafter he had received summons from the SIT. He has stated that the idea of making an application to the SIT occurred upon reading the newspaper. He has stated that he had got someone to write the application made by him to the SIT. The witness is cross-examined at length as regards who wrote the application and how.

181.15 The witness in his cross-examination has stated that the police had not read over his statement recorded at the camp to him. Till he made the application to the SIT, he did not know as to what was written and what was not written in his statement recorded at the camp. He has admitted that he did not know as to whether or not names of the accused given by him had been written down in the application. The witness has voluntarily stated that despite his request to the police, they had not read over his statement to him and had told him to go saying that they have written down everything, which he found doubtful. Therefore, he made the application to the SIT. The witness has stated that at Gandhinagar, the SIT officers had read over his camp statement to him. The witness has denied that while recording the statement dated 2.6.2008 by the SIT, he has stated that his submission dated 12.5.2002 is correct and proper. In his cross-examination, the witness has admitted that Muslims nearby had resorted to pelting stones in their defence. He has stated that the stone pelting continued for around thirty minutes. He has denied that after the stone pelting continued for thirty minutes, he had seen the police

releasing teargas. He has stated that in the entire day he has not seen the police releasing teargas shells and that he was not at that place for the entire day. The witness has stated that the police were there at the S.T. Workshop corner and has voluntarily stated that the police were driving the Muslims inside. He has admitted that the police were armed. He has stated that armed police were standing where at present there is a police chowky. He has admitted that it was the policemen who were standing there, who had resorted to firing. The witness has admitted that the four persons whom he has named did not have weapons in their hands. He has admitted that except for the persons whom he has identified, other people in the mob were strangers. The witness has denied that all the persons whom he has identified and whose names he has given were not present there on the date of the incident and that at the instance of Muslim leaders and advocates, he had wrongly given their names at the camp and that today also, at the instance of the people of his community, he was falsely deposing before the court.

181.16 Since Shri A.A. Chauhan the police officer who had recorded the statement of this witness, to prove the omissions and contradictions in the previous statement of this witness, the defence has cross-examined PW-307, S. S. Chudasama, the Investigating Officer, who has admitted that the statement of this witness was recorded by Shri A. A. Chauhan (now deceased) on 12.5.2002. He has admitted that this witness had stated that in the morning at around 9:00 to 9:15, there was cross stone pelting; that the Muslims who were residing in their chawl as well as in the other chawls behind their chawl, namely, Kumbhaji-ni-Chali, Hukamsing-ni-Chali,

Pandit-ni-Chali, Hussainnagar and Jawannagar, etc. had all come on the road at the entrance of their chawl.

181.17 SUBMISSIONS: The learned counsel for the appellants submitted that though this witness has named the accused in his police statement and their presence is shown between 9:00 to 9:30, in the morning hours in the mob which came from Krushnanagar, no specific further overt act has been attributed to them. It was pointed out that the witness, in paragraph 37 of his cross-examination, has admitted that the accused did not have any weapons in their hands. It was submitted that from the names referred to in the examination-in-chief, the identity of the accused is not fully established, and, therefore, a test identification parade would have given more strength to the version of the witness, if the accused could be identified. It was submitted that none of the family members of this witness, including he himself, had sustained any injury, and hence, he could have disclosed about the facts of the case and the presence of the accused well within reasonable time, instead, the witness has disclosed these facts seventy two days after the incident. It was submitted that as regards the application made by the witness before the SIT, according to him he had got it written by an unknown person on the road which creates serious doubts about his sincerity to go to the SIT. It was pointed out that the witness has stated that he has seen Suresh, Guddu, Bhavani and Tiwari in the mob from Krushnanagar, which is contrary to what other witnesses have stated. It was submitted that PW-192 and others have stated that accused No.22 and accused No.26 were in the mob from Natraj. It was submitted that looking to the deposition of the witness, and more particularly, the

contents of paragraphs 33, 35 and 36 thereof, it is highly doubtful that he was at the place which he has stated in his evidence and that he could not have seen the mob on the road.

181.18 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness is a witness of the morning incident. It was submitted that the witness has admitted that the mob had come which was comprised of fifteen to twenty thousand Hindu persons which was shouting "kill, hack the Muslims". It was submitted that this was the object behind the mob gathering there.

181.19 It was submitted that this witness is a natural witness and his presence at the spot is established. During the cross-examination, his presence has not been doubted. It was submitted that this witness has stated about the presence of two mobs which were setting the shops and cabins ablaze and that there was stone pelting near the Noorani Masjid and chanting of slogans. It was submitted that this witness has specifically stated about pelting of stones from both the sides. It was submitted that the witness has named Suresh (A-22) and Tiwari (A-25) and has identified both of them. Referring to the contents of paragraph 31 of his cross-examination, it was pointed out that an admission has been elicited that the Muslims around him were pelting stones in defence, to submit that such admission establishes the presence of the witness at the spot. Referring to the contents of paragraph 37 of his cross-examination, it was submitted that the suggestion put forth by the defence is that the four accused were present but they did not have weapons, which proves the presence of all

four accused, two of whom have passed away and two of whom have been identified. It was submitted that the credibility of this witness is unimpeachable and therefore, he is a credible witness.

181.20 ANALYSIS: This witness has deposed that he had seen a huge mob on the road in the morning and in the mob from the side of Krushnanagar he had identified four persons namely Suresh Langdo (A-22), Guddu, Bhavani and Tiwari (A-25) leading and instigating the mob. The witness has named the accused in his initial statement recorded by the police on 12.5.2002 as well as in the statement recorded by the SIT on 2.6.2008. This part of the testimony of the witness has not been contradicted in his cross-examination. Thus the witness is consistent in his version as regards the presence of these accused in the mob in the morning. The witness has also identified both the living accused viz. Suresh Langdo and Tiwari. From the testimony of the witness it further emerges that the police had resorted to firing, wherein Khalid was injured. In his cross-examination, it further emerges that the armed policemen, standing at the spot where at present there is a police chowky, had resorted to firing and that the police were driving the Muslims into the chawls.

181.21 Thus, from the testimony of this witness, the prosecution has established the presence of accused No.22 Suresh Langdo and accused No.25 Tiwari leading and instigating the mob on the road in the morning.

182. **PW-200 Shaukat Nabibhai Mansuri**, aged 37 years, has been examined at Exhibit-1381. This witness has

deposed that he is residing in Ahmedabad city since his birth, viz., since the last thirty five to forty years.

182.1 He is residing at *Lane No.1, Hussainnagar*, since the last thirty years. In the year 2002, his family, comprised of his father Nabibhai, his mother Hasnubibi, his wife Taslimbanu, his sister-in-law Nazmabanu, his children, viz., two sons and two daughters as well as his sister-in-law Nazmabanu's three children were all residing together.

182.2 At the relevant time, he had a Maruti car garage in front of the S.T. Workshop. His garage was situated on the road.

182.3 The incident took place on 28.2.2002. On that day, the Vishwa Hindu Parishad had given a call for bandh.

182.4 On the day of the incident, at around 8:00 to 8:30 in the morning, he was present at his garage where one of his customers, by the name of Gopalbhai, had come to take delivery of his car. Gopalbhai took his car in the morning and went away.

182.5 After Gopalbhai took his car and went from his garage, stone pelting started at the Noorani Masjid. The mobs belonging to Vishwa Hindu Parishad and Bajrang Dal were pelting stones. The people in the mob were shouting "kill, cut". The people in the mob attacked the Noorani Masjid and set it on fire. Bipin Panchal (A-44) and Babu Vanzara (A-33) were amongst the people in the mob. Bipin Panchal had a revolver at that time and Babu Vanzara had a sword. At this time, he

had seen the mobs coming from the direction of Krushnanagar. The Krushnanagar mob had come to the cross roads in front of the masjid. This mob was pelting stones at the masjid and was breaking the cars parked there and setting them on fire.

182.6 At this time, the police had lobbed tear gas shells and there was a stampede. The police also resorted to firing. The police had lobbed tear gas shells at the Muslims mobs. At this time, the Muslim boys standing near the masjid started running away. At this time, he and some other Muslim boys took a Tata 407 vehicle lying near the Noorani Masjid and fled. They had pushed the vehicle and started it. He jumped and sat in the vehicle and hid inside. They took the vehicle near Naroda ITI. At this time, the boys sitting in the vehicle jumped and ran away. However, he was sitting and hiding in the vehicle. The police apprehended him from this vehicle. Since he had taken the vehicle, the police had apprehended him.

182.7 The police apprehended him and took him to the Naroda Police Station, whereafter they sent him to the Shah Alam camp.

182.8 He stayed at the Shah Alam camp for around three and half months. On the date of the incident, a mob had beaten him up in the Naroda ITI area. On account of such beating, his left hand was fractured. The doctors at the camp had given him treatment.

182.9 The police had orally examined him at the camp and he was called to the Gheekanta court. While he was at the camp, the Crime Branch had called him and his statement was

recorded there. He was called to the Gheekanta court in the year 2007.

182.10 He was called to the Gheekanta court for the purpose of conducting a test identification parade. He had gone between 3:30 to 4:00 in the evening. A peon of the court had asked him his name, etc. and he was taken before the magistrate. The magistrate made him to sit in a room. Thereafter, from the room, he was called to the court. He had gone to the court where there were about six persons. The magistrate asked him whether he can identify the persons whom he had named. Upon being told to identify the persons whose names he had given, he had shown Babu Vanjara (A-33) who was standing there. He was standing at the second or third place. Thereafter, he was sent back home.

182.11 The witness has stated that he does not remember as to whether the SIT had recorded his statement.

182.12 The witness has stated that he can identify the accused persons whom he has named before the court. The witness has thereafter correctly identified Bipinbhai Panchal (A-44). He, however, has not identified accused No.33, Babubhai Vanzara, though he was present in the dock.

182.13 CROSS EXAMINATION: This witness has been cross-examined with regard to his parents and as regards the place where he was residing. The witness has been cross-examined as regards with whom he was residing at the time of the incident. The witness has denied that on the date of the incident, his mother was present at his house and has

voluntarily stated that his mother had gone to his younger sister Parveenbanu's house on that day. The witness has stated that he only knows that the police has arrested him and does not know as to whether the person who apprehended him was P.S.I. Shri S. K. Katara. He has stated that he only knows that he was in the vehicle to protect his life and for that reason, he has been apprehended. He has stated that the police had caught him on the day of the incident, but does not know what time it was. The witness is cross-examined with regard to the first information report lodged against him for driving a vehicle recklessly and carelessly.

182.14 In his cross-examination, he has stated that he knows one Bipinbhai Patel, but has thereafter said that he knows Bipin Panchal. He has stated that he does not know any Bipinbhai Patel who is engaged in selling and purchasing cars. He has stated that he knows Gopalbhai who used to come to his garage for getting his car repaired. The witness is cross-examined with regard to his garage and the situation thereof and also as to whether he had gone to the masjid for namaz on the day of the incident. The witness is cross-examined with regard to the topography of the masjid as well as the area. In his cross-examination, it has come out that he had seen Bipin Panchal when he came to have tea at the tea stall and that he did not have much acquaintance with him. He has stated that the incident of having gone to have tea at the tea stall took place at around ten to twelve years ago. He has stated that on the date of the incident, he did not have any talk with Bipinbhai. He has stated that he has no relations for going to Bipin's Auto Centre, nor has he any relations for visiting his house. That he has never visited his house. He has stated that

he knows Bipinbhai only as Bipin Panchal and not in any other manner. The witness has admitted that his statement was recorded on 13.5.2002. The witness is sought to be contradicted as to his statement dated 13.5.2002 to the effect that he had stated therein that in the meanwhile, Bipinbhai Patel, who carries on business of purchasing and selling cars opposite Patiya Natraj had fired with a small pistol at the Muslims. The witness has denied that Bipinbhai Patel resides in Naroda area and he knows him very well and has voluntarily stated that he does not know any Bipinbhai Patel.

182.15 The witness has admitted that his statement was recorded at Gaekwad Haveli and has voluntarily stated that the statement so recorded was for clarification as in his earlier statement, he had given the name of Babu Vanzara, instead of which, they had written down Babu Bajrangi. The witness has admitted that the name of Babu Bajrangi was wrongly written in the earlier statement and has voluntarily stated that he had not stated so, but those people had written it down.

182.16 The witness has admitted that those people had read over the statement which was written down at the Haveli and has admitted that he had not stated that he has not given the name of Bipinbhai Patel and that they should write down Bipin Panchal. The witness has voluntarily stated that they had only asked him if he knew Bipin and not as to whether it was Bipinbhai Patel or Bipin Panchal. The witness is cross-examined with regard to the time when he came to his garage, how long he was there and from which side the mobs had come. The witness has admitted that he had not seen the police firing from Noorani Masjid and has voluntarily stated that he had

seen them firing from Patiya.

182.17 The witness has stated that when his statements were recorded on 13.5.2002 and 7.6.2002, he was not in police custody and was free. The witness has stated that he does not know the exact time, but approximately, it must have been around 10:30 in the morning when he sat in the Tata 407 vehicle. He has stated that he was on the rear side of the vehicle and nobody was there with him on the rear side. He has admitted that certain people were sitting in the driver's cabin also. He does not know as to whether five to seven people were sitting in the driver's portion. Various questions have been put to him as to how the vehicle was started and how he got inside. The witness has admitted that the vehicle was parked on the opposite side of Noorani Masjid and was facing Himmatnagar side. He has admitted that when the vehicle was started, there were mobs on the road. He has denied that the vehicle was not in a position to come out of the mob. He has stated that he does not know as to on which road, Tata 407 vehicle had gone from Noorani Masjid and has admitted that the vehicle stopped at the railway crossing. The witness has admitted that the gate of the Kubernagar ITI railway crossing was closed and therefore, the vehicle had halted. The witness has stated that he does not know that while going till the ITI, the vehicle had dashed against a scooter. He has admitted that he was hiding under a board in the car so that no one could see him going. He has stated that he has not seen that the driver of the scooter was killed and the pillion rider was injured and that two other people in the mob were also injured. The witness has admitted that at ITI, the people had caught hold of him and that since he was

hiding on the rear side, he could not get down, whereas those sitting on the driving seat, had fled. He has admitted that he was badly beaten with sticks by the people there and caused to bleed profusely and had also sustained fractures. He has admitted that thereafter, the police came and lifted him. He has stated that he does not know what the police did with the Tata 407 vehicle and that they had taken him.

182.18 The witness has admitted that when he was taken to the police station by the policemen, there were policemen there. He was taken to the police station and stayed there till night. Upon it becoming dark, they had sent him. The witness is cross-examined with regard to the topography of the chawls. In his cross-examination, it has come out that in his statement recorded by the police, he has not stated any fact regard his having seen the accused in the mob near the S.T. Workshop, but has denied that he has mentioned the names of the accused named by him in his examination-in-chief in the mob near Noorani Masjid. The witness has denied that he has not mentioned having seen the accused during the entire day of the incident, nor has he given their names or their role in the incident. Various omissions in the police statement of the witness recorded on 13.5.2002 are sought to be brought on record. He has admitted that till date, no test identification parade of Bipinbhai Patel or Bipin Panchal has been carried out. The witness has been cross-examined at length by the learned counsel for the accused; however, for the reasons stated hereinafter, it is not necessary to refer to the same in detail.

182.19 To prove the omissions and contradictions as to the

previous statement of this witness, the defence has cross-examined the concerned Investigating Officer/assignee officer who recorded such statement.

182.20 PW-279, Shri B. J. Sadavrati, the assignee officer has admitted that he has recorded the statement of this witness on 13.5.2002. He has admitted that the witness has not named Bipin Panchal in the statement recorded by him and had not attributed any act to him. The assignee officer also admitted that this witness had stated before him that in the meanwhile, Bipinbhai Patel, who carries on the business of buying and selling any kind of vehicles in front of Patiya Natraj, had fired at Muslims with a small pistol. The assignee officer has further admitted that he had called this witness for recording his statement together with other witnesses. The assignee officer has admitted that the witness had stated before him that the facts stated by him have been correctly written down. The assignee officer has also admitted that it is only after reading over the statement that such line was written down and has voluntarily stated that such line is always there in a statement. The assignee officer has also admitted that the witness had stated before him that his father had performed *nikah* with some other woman at Juhapura and since the last one year, he was residing separately and was not residing with them. (In the opinion of this court, the fact as to where the witness's father was residing, though may have been stated by the witness in his police statement, the same should not have been brought out on record in the cross-examination of the witness, inasmuch as if something is stated in the deposition and not stated in the police statement, it may amount to an omission, however, stating something in the

police statement and not stating it in the deposition, would not amount to an omission.)

182.21 The assignee officer has admitted that this witness had stated before him that on 28.2.2002, there was a call for Gujarat as well as Ahmedabad bandh, due to which, he has not opened his garage and was at home. He has further admitted that the witness had stated before him that thereafter, the mob of people had entered the chawl and at that time, the people of the chawl had gone towards Zakirhussain-ni-Chali, behind the Noorani Masjid. At that time, he had left his house open and had gone away. His mother, his wife and children had also gone with him and they all sat down where the Muslims had gathered. The assignee officer has also admitted that this witness had stated before him that their chawl as well as other chawls also had been damaged, looted and burnt by the riotous mob. Late at night at around 2 o'clock, upon getting the help from police, they had come in a car to the Shah Alam Roza.

182.22 The contents of paragraphs 5 and 6 of the examination-in-chief of the witness are read over to the assignee officer who has admitted that such facts were not stated by the witness in the statement recorded by him. The assignee officer has admitted that Bipin Panchal's name is not there in the statement and that it is also not stated at that time he had a revolver with him. The assignee officer has stated that the witness had clearly stated that Bipinbhai Patel who carries on a business of buying and selling any kind of vehicles opposite Naroda Patiya had fired with a small pistol at the Muslims. The assignee officer has stated that according to

him, it appears that there is a mistake on the part of the writer in writing Patel or Panchal. The assignee officer has admitted that he is stating regarding this possibility of the writer having committed a mistake upon realizing this, because of the question being asked today. He has further stated that he had not read the statement prior thereto and that at present, he does not remember who his writer was.

182.23 The assignee officer has admitted that when the statement is recorded, it would be recorded as stated by the witness. He has stated that he cannot say that when the statement was read over, whether it was in his as well as witness's presence, because at that time, there were many other witnesses.

182.24 The assignee officer has denied that the statement of this witness was not read over to him in his presence.

182.25 The assignee officer has admitted that the witness had not stated before him that Vanzara had a sword with him. He has stated that in his statement, the witness had stated that Babu Bajrangi who has a garage next to the cemetery had a sword in his hand. The assignee officer has denied that despite the fact that the witness in his statement dated 13.5.2002, had not given the name of Babu Bajrangi, he had written down the name himself.

182.26 PW-307 Shri S. S. Chudasama, the Investigating Officer has admitted that he has recorded the further statement of this witness on 7.6.2002. The contents of paragraphs 5 and 6 of the examination-in-chief of the witness

are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him. He, however, has clarified that this witness had stated that Babu Vanzara (A-33) had a sword. The Investigating Officer has admitted that this witness had not mentioned the name of Bipin Panchal and his having any weapon nor had he attributed any role to him in the statement recorded by him. He, however, has clarified that the statement was recorded only for the purpose of clarifying regarding the names of Babu Vanzara and Babu Bajrangi. The Investigating Officer has admitted that this witness had stated before him that in a loud voice he had asked that he (Babu Vanzara) was his friend, then why has he come with a sword? Whereupon he had told him that he had a Hindu mob with him, what should he do? That the accused had told him he should go away or the mob would also kill him.

182.27 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT), has, in his cross examination, admitted that he has recorded the statement of this witness on 12.7.2008. He has admitted that this witness had stated before him that he fled and left his garage open and come near Noorani Masjid where the Tata 407 vehicle, the RTO number of which he does not know, and four to five Muslim boys pushed it and started it and to save their lives, they were fleeing from Naroda Patiya towards Naroda, at that time, they dashed against a scooter opposite Natraj Hotel and both the persons sitting on the scooter fell down and while fleeing, a pedestrian going on the road came under their vehicle and died. This incident must have taken place after around 10:30 to 11:00 in the morning. There were two Maruti vans, one was his and one belonged to

a customer. The station diary Exhibit-1427 is shown to the Investigating Officer, wherein the complaint of this witness is stated to have been recorded. The Investigating Officer has admitted that there is an entry of non-cognizable complaint.

182.28 SUBMISSIONS: The learned counsel for the appellants invited the attention of the court to the omissions and contradictions in the testimony of this witness, to submit that this witness has not named Bipin Panchal or attributed any role to him in his police statement dated 13.5.2002, which has been duly proved through testimony of PW-279. Referring to the contents of paragraph 74 of his cross-examination it was submitted that before the police, the witness had referred to Bipinbhai Patel and in his statement before the SIT he has given the name of Bipin Panchal. The attention of the court was further invited to paragraph 86 of his cross-examination to point out that in the police statement there was no reference to a weapon like sword. Moreover, the name of Babu Vanzara was also not stated. It was submitted that reference to sword and the name of Babu Vanzara comes for the first time in his second statement recorded on 7.6.2002. It was submitted that when in his first statement dated 13.5.2002, the witness has referred to Bipin Patel, to establish the identity of the accused, it was necessary to hold test identification parade.

182.29 It was submitted that the two accused named by the witness in his deposition have not been named in his first available police statement dated 13.5.2002. Bipin's name was mentioned as Bipin Patel with car broker business, opposite Natraj. It was submitted that even if his business or vocation is taken, it is in no way referable to Bipin Panchal's Auto Centre

which is situated near Dhanurdhari temple towards Krushnanagar.

182.30 It was urged that at the time when his second statement came to be recorded, his first statement was read over to him, but even at that time he did not clarify that the name of Bipin Patel was wrongly mentioned and that it should be Bipin Panchal. In this view of the matter, when the witness has named Bipin Panchal for the first time before the SIT, to establish his identity, a test identification parade ought to have been held in absence of which, it is doubtful as to whether the Bipin Panchal whom he has identified in the court is the same person whom he is referring to.

182.31 It was submitted that insofar as accused No.33 - Babu Vanzara is concerned, the witness has neither named him nor attributed any weapon to him in his first statement dated 13.5.2002, though on 7.6.2002, he has clarified about the name, viz., that it was Babu Vanzara and not Babu Bajrangi and he has accordingly named him before the SIT. It was pointed out that in the test identification parade, he had identified Babu Vanzara; however, he has failed to identify him before the court. Therefore, the identity of accused No.33 is not established beyond reasonable doubt.

182.32 Mr. P. G. Desai, learned Special Public Prosecutor, submitted that there are contradictions in the testimony of this witness about the incident and death of persons so far as Tata 407 is concerned, but the fact that he and some other persons ran away in the Tata 407 and that he was not a driver, is coming in the statement and that he has also filed an N.C.

Complaint for being beaten up by the mob.

182.33 It was further submitted that insofar as naming the accused Bipin Panchal as Bipin Patel is concerned, the fact is that he saw one Bipin, whom he has recognized in open court. Thus, he identified accused No.44 Bipin Panchal. According to the learned Special Public Prosecutor, an error might have been committed by the police in recording the name of the accused. It was contended that accused No.44 is identified by his business, so there is no confusion whether it was Bipin Patel or Bipin Panchal. It was submitted that the fact that the witness was not driving vehicle is not controverted by any statement or any evidence by the defence and the witness has stated that after he was brought to the Naroda Police Station, he was shifted to the relief camp. Thus, all facts have been stated by the witness, therefore, it cannot be stated that this witness is not truthful witness and insofar as the incident of Tata 407 is concerned, his evidence is credible. As regards Bipin Panchal, it was submitted that in view of the fact that he was duly identified in the dock, the confusion about 'Bipin Panchal' and 'Bipin Patel' no longer exists. It was submitted that insofar as accused Babu Vanzara is concerned though it may be a weak piece of evidence, it is the fact that the accused was identified in the test identification parade, which therefore requires to be given due weightage.

182.34 ANALYSIS: This witness was involved in the incident relating to the Tata 407 vehicle as admittedly he was apprehended together with the vehicle. Since the witness had fled in the Tata 407 from the road near the Noorani Masjid, his presence at the scene of offence prior thereto, cannot be

doubted. The witness has deposed regarding mobs belonging to the Vishwa Hindu Parishad and the Bajrang Dal pelting stones and shouting "kill, cut" and that the people in the mob attacked the Noorani Masjid and set it on fire. The witness has named Bipin Panchal (A-44) and Babu Vanzara (A-33) as being amongst the people in the mob. He has also attributed specific weapons to them viz., Bipin Panchal had a revolver at that time and Babu Vanzara had a sword. In the cross-examination of the witness, a contradiction has been brought out that in his statement dated 13.5.2002, he had stated that Bipinbhai Patel who sells and purchases cars opposite Natraj had a small pistol and he had fired at the Muslims. Such contradiction has been duly proved through the testimony of PW-279 Shri B.J. Sadavrati. It is an admitted position that there is no accused by the name of Bipinbhai Patel. Subsequently, on 7.6.2002, his statement came to be recorded once again for the purpose of clarification as to whether the other accused named by him was Babu Bajrangi or Babu Vanzara. At that point of time, his previous statement dated 13.5.2002 was read over to him, but he did not point out that there was a mistake in recording the name of the accused, namely that it was Bipin Panchal and not Bipin Patel. The Investigating Officer, who sought clarification regarding the name of the other accused, did not deem it fit to seek a clarification as to whether the accused named by him was Bipin Patel or Bipin Panchal. It is only much later, when his statement came to be recorded by the SIT in the year 2008, that the witness has corrected his statement to the effect that he had named Bipin Panchal. Thus, the name of accused No.44 Bipin Panchal was not given till his statement came to be recorded by the SIT. Moreover, even the description of the accused as given by him, does not match with the description

of accused No.44, inasmuch as this accused does not sell and purchase cars opposite Natraj. Not only that, despite there being such a discrepancy in the statement of the witness, no test identification parade had been conducted by the investigating agency, to ascertain the identity of the accused. Under the circumstances, it would be hazardous to place reliance upon the testimony of this witness to prove the charge against this accused.

182.35 Insofar as accused No.33 Babu Vanzara is concerned, it appears that though the witness had named this accused, the police had written down the name of Babu Bajrangi. However, this aspect was promptly clarified in the statement dated 7.6.2002 of the witness. Therefore, insofar as naming this accused is concerned, the witness has named him at the earliest. At the relevant time a test identification parade also came to be conducted in which the accused was identified by the witness. Unfortunately, the witness has failed to identify the accused in the dock. In the absence of the accused being identified by the witness, his evidence would be of no avail to the prosecution.

182.36 Through the testimony of this witness, the prosecution has proved that an incident regarding a Tata 407 vehicle having been taken from the road in the morning hours and driven through the mob had in fact taken place. However, the evidence of this witness does not help the prosecution in establishing the charge against either accused No.44 Bipin Panchal or accused No.33 Babu Vanzara.

183. **PW-201 Sattarbhai Mahammadhussain Shaikh,**

aged 50 years, has been examined at Exhibit-1388. This witness has deposed that in the year 2002, he was residing at *Lane No.7, Hussainnagar, Naroda Patiya*. He was residing at this place a long time before 2002. His native place is *Village Shahpur, District Gulbarga, Karnataka*. In the year 2002 also, he was serving in a thread factory.

183.1 At the relevant time, that is, in the year 2002, he had a two storeyed house at Hussainnagar, where his younger brother used to reside on the lower floor, whereas he used to reside with his family on the first floor. His family was comprised of his wife and three children.

183.2 The incident took place on 28.2.2002. On that day, in the morning at 9 o'clock, he was at home and was preparing for breakfast. At that time, the people coming from outside were saying that many mobs have gathered from Natraj Hotel till the front of the S.T. Workshop and that stone pelting is going on. Upon hearing this, he came out of his house and went to the corner near the S.T. Workshop. Upon going there, he saw that many people were pelting stones. The people in the mob were standing near the S.T. Workshop as well as on the opposite side. The people in the mob were pelting stones at Muslims and were advancing forward.

183.3 The people in the mob were advancing forward in this manner, when the police started firing from the gate of the S.T. Workshop. They were firing at the Muslims. In the firing, a boy named Hasan was injured by a bullet and he died in the firing. The people lifted Hasan and put him in a handcart. At that time, he (the witness) moved from there and went

towards his home. Upon coming home, he told his wife that there were riots outside and there were no possibilities of being saved and that they should go towards the S.R.P. Quarters. He told his wife that they would go to the house of Tiniyo Marathi who resides in the S.R.P. Quarters. While he was saying this to his wife, his younger brother Salim came from outside. Salim told to him to go to the S.R.P. Quarters with the family and he would come there afterwards. Thereafter, he, his children, his wife, his brother's wife and his brother's children, all went to Jawannagar outside the S.R.P. Quarters compound wall. Salim had not come with them. They made an attempt to enter the S.R.P. Quarters, however, they told them that they had no orders to permit them to come inside and refused to let them enter and told them that if any merciful officer comes there and agrees, then they would take them inside. The witness has deposed that they had reached this place at around 10 o'clock in the morning. They were sitting there till around 4 'o clock in the afternoon.

183.4 At 4 o'clock, at the time when they were sitting outside the S.R.P. Quarters compound wall, a mob came from the direction of Uday Gas Agency. The people in this mob had swords, dharias, etc. in their hands. The mob came and started pelting stones and assaulting. Upon stones being pelted, the Muslims dispersed. At this time, his wife and his children got separated from him and Salim's children and wife remained with him.

183.5 When the stone pelting took place, his niece Saliyabibi was sitting there. She was injured with a stone on her head and started bleeding. In the mob which had come in

this manner, he had recognized Tiniyo Marathi and Guddu Chhara. Both of them had swords in their hands and they were showing the mobs the houses of the Muslims and were assaulting them. At this time, he and Salim's wife and children fled from there and went to a butcher's terrace from which if one climbs down, one can go to the S.R.P. Quarters through Gangotri Society. He had gone through that way. He had gone through this way under the belief that from there he could go to the S.R.P. Quarters. From this way one could go to the S.R.P. Quarters where there was a police point. The police at the point did not permit him to go inside. They told him that there was no permission to let them go inside.

183.6 He requested the policemen that they may not let him go inside, but at least they may let his younger brother's wife and children. However, they did not accede to his request and started beating him with the butt of the rifle, and told him to run away, or they would beat him, and hence, he fled from there.

183.7 When he had fled in this manner, he had lifted Salim's children. He wanted to return to the place from where he had come. He came till the place where he had got down from the terrace of Gangotri Society, when an S.R.P. personnel in plain clothes was standing near the terrace. He pointed a pistol at his chest and asked him where he was going. He (the witness) told him that he had come down from the terrace and that he wanted to go on the terrace, whereupon the S.R.P. personnel told him to go and fight to the open ground and if he survives, he would shoot that bullet in his body. At this time, Salim's wife told him that they should go and sit on the terrace

from which they had come. At this time, he managed to escape and went to the terrace, when he had seen one Manubhai pushing Muslim women with a hockey stick to the fields. He was driving away the Muslim women with a hockey stick to the lane near the temple near Gangotri Society. He, thereafter, went and sat on the butcher's terrace and took Salim's wife and children with him.

183.8 He reached the terrace at 6 o'clock and sat there till 11 o'clock at night. On the terrace, he heard sounds of "kill, hack" and saw people being assaulted and set on fire.

183.9 At 11 o'clock at night, the police came and took them to the Shah Alam camp. On the next day, at around 10 o'clock in the morning, he met his wife and children at the Shah Alam camp.

183.10 In the incident, his house was looted. All his household articles and cash kept in his vault were ransacked and vandalized. Salim also came to the Shah Alam relief camp subsequently.

183.11 All of them stayed in the relief camp for about six months. The police came to inquire about the incident at the camp. Thereafter, the SIT had also orally examined him. The SIT had recorded his statement twice.

183.12 He had seen that the stone with which his niece Saliyabibi was injured was pelted by Tiniyo Marathi. He does not know whether thereafter his niece had gone with her relatives or not. However later on, he came to know that she

had died in the incident. Her three children with his niece at that time and he had later on come to know that the three children too had died in the incident. He had seen his niece being injured with a stone. However, as regards his niece and her three children having died in the incident is concerned, he had heard about it.

183.13 The witness has stated that he has learnt that Guddu Chhara is dead and that he can identify Tiniyo Marathi and Manu. The witness has thereafter identified Tiniyo Marathi (A-30) and Manu (A-28) correctly.

183.14 CROSS-EXAMINATION: This witness in his cross examination has admitted that PW-104 Mohammed Salimhussain Shaikh is his younger brother. He has admitted that both of his statements recorded by the SIT were recorded in a school at Naroda Patiya. This school is situated in Jawannagar. He has admitted that this school is known as a '*madressa*' and is administered by Nazir Master. He has admitted that he knows Nazir Master since the beginning. He has denied that after coming out from the camp, he had talked with Nazir Master about the riots that took place on the day of the incident. The witness has stated that he had not talked with Nazir Master regarding the incident and has voluntarily stated that there was no necessity for him to inform Nazir Master about these facts.

183.15 The witness has admitted that while he was at the camp he was moving around as he pleased. He has admitted that while he was at the camp, he had seen the entire camp. The witness has been cross-examined with regard to the

conditions at the camp, how statements were recorded, and regarding the VIPs who came to visit the camp.

183.16 The witness has admitted that the police were sitting there with blank papers and had written something and had taken his signature thereon. He does not know what was written down. He has admitted that many people were standing in queue for getting their statements recorded. He has admitted that the police were doing the recording.

183.17 At this stage, the learned advocate for the defence referred to the FIR registered vide Naroda Police Station C.R. No.I-176 of 2002 to point out that the complaint of this witness was included in this FIR (Exhibit 304).

183.18 The complaint application and Loss Damage Analysis Form of the witness were produced along with a purshis-Exhibit 1389. Together with the purshis, a four-page handwritten document was produced. The witness was shown the signature at the bottom of the complaint application and Loss Damage Analysis Form and he had identified the signatures to be of his. The four-page document was exhibited as Exhibit 1390. The witness has stated that he is not aware as to whether he has made the application-Exhibit 1390, but the signatures are his. The witness had stated that the people in the mob had *guptis* in their hands. The witness has deposed that he has stated that the people had swords in their hands as well as *trishuls* and private guns. The witness has denied that in paragraph 2 of the application he had not named any accused nor had he attributed any role to them. The witness has admitted that it was the police who had obtained his

signature on Exhibit 1390 and no one else had obtained his signature. He has admitted that he had no complaint against the investigation carried out by the SIT.

183.19 The witness was confronted with his statement dated 13.5.2002, to the effect that he had not stated any fact regarding accused-Manubhai therein. The witness has voluntarily stated that he had informed the police. The witness has denied that in his statement dated 13.5.2002, he had not stated any fact regarding Guddu and Tiniya and they having any weapons in their hands. He has denied that in his statement he had not stated that the stone with which his niece Saliyabanu was injured was thrown by Tiniya and that he has seen it. The witness has denied that in both of his SIT statements, he has not stated that the stone with which his niece Saliyabanu was injured was thrown by Tiniya.

183.20 In his cross examination, it has come out that he does not know where Guddu stays, but he knows where Tiniya used to stay. He has stated that he knew Guddu since around four years prior to the incident. He had neither social relations nor any kind of dealings with him. He had no occasion to meet Guddu prior to the incident, but has voluntarily stated that he has seen him coming and going from that side. Various parts of police statement of this witness were put to him in his cross-examination. However, since the witness is not sought to be contradicted with any part of his primary statement, such part of his deposition is not admissible in evidence, and hence, it is not necessary to refer to the same.

183.21 The witness has denied that when he went to the

butcher's terrace and was hiding there, there was intense stone pelting. The witness has voluntarily stated that while they were going on the terrace, there was stone pelting below, but there was no stone pelting on the terrace. He has admitted that the police had released teargas shells below and that he has stated that such facts in his statement dated 13.5.2002. The witness has denied that he has not stated the facts regarding the police releasing teargas and regarding the stone pelting in his statement recorded by the police. The witness has denied that he has not stated any fact regarding Guddu Chhara and Tiniya Marathi assaulting Muslims and burning them, in his complaint as well as statement dated 13.5.2002.

183.22 The witness was confronted with his statement dated 13.5.2002 wherein he has stated that thereafter they hid on the terrace and from there, out of fear, they went on the side of Gopinath Society and there also mobs of Hindus were standing, who were assaulting their people and were beating them with pipes and hockey sticks. Hence he took his family members and went towards Jawannagar; when upon seeing a huge mob on the road he was frightened and once again went and climbed on the terrace of a provision store and hid there and sat there for the entire day.

183.23 The witness was thereafter cross-examined with regard to the topography of the area as well as damage sustained by him in riots.

183.24 The witness has admitted that the Islamic Relief Committee has given him a house at Ektanagar. He has denied that he has not received any threats. He has stated that he has

lodged a complaint with the police regarding these threats. He has admitted that he had received police protection some time after coming back from the camp. The witness has denied that he has not sustained any loss and that at the instance of people of his *Jamaat* he was falsely deposing before the court and that he had not seen any incident and has not seen the accused persons whom he has identified before the court.

183.25 The witness has stated that Tiniya has a shop and a house in Jawannagar. He has admitted that he was residing in Tiniya's house on rent for about four years prior to the incident. The witness has stated that he does not know as to whether Tiniya's sister's name is Gita, but he has admitted that he has sister. The witness has stated that he does not know whether any case of teasing of Tiniya's sister has been registered against his brother Salim. The witness has denied that in connection with teasing Tiniya's sister, he and Tiniya had a dispute, and hence he has to vacate Tiniya's house and for that reason he had not given the rent due to Tiniya, and for this reason, time and again, there were disputes between him and Tiniya, due to which, though he has not seen Tiniya on that day he was falsely deposing to implicate him.

183.26 The witness has denied that he had a dispute with Manubhai, because he used to address him as 'Manu Bhangi' and he used to tell him not to address him as Manu Bhangi. The witness has voluntarily stated that there was no occasion or necessity for him to address him in that manner. The witness has denied that since he used to call him Manu Bhangi he did not perform tasks as per his instructions. The witness has voluntarily stated that he had no occasion to instruct him

to do any work and that everybody knows him by this name. He has denied that on that day he has not seen Manubhai, despite which for this reason he has falsely named him by stating that he has seen him on that day. The witness has stated that he does not know that Manu's house is at the end of Gangotri Society and has stated that he has not seen his house. The witness has denied that the place where Manu was driving away Muslim women with a hockey stick is the last house of Gangotri Society.

183.27 The witness has denied that Salim has gone with his own family and has voluntarily stated that his family was with him till the end. The witness has stated that he does not know whether after meeting him, Salim had again gone on the road, because thereafter he had not met Salim on the day of the incident.

183.28 The contents of paragraph 6 of his examination-in-chief from the third line to the fifth line are read over to the witness, to the effect that he has not stated these facts in his statement recorded by the police as well as by the SIT. The witness has denied that Salim and he were together on the day of the incident.

183.29 The contents of the sixth line of paragraph 8 of his examination-in-chief were read over to the witness, wherein it is stated that they were showing the houses of Muslims to the mob. The witness has denied that the mob, to which they were showing the houses, was comprised of five thousand to seven thousand people. The witness has admitted that except for the people whom he has named in the mob, all the other people

were strangers. The witness has denied that he has not seen the incident and that he was falsely deposing before the court.

183.30 Since Shri A.A. Chauhan the officer who recorded the witness's statement dated 13.5.2002, to prove the omissions and contradictions in such statement, the defence has cross-examined PW-307, S. S. Chudasama, the Investigating Officer, who has admitted that the statement of this witness was recorded by Shri A. A. Chauhan (now deceased) on 13.5.2002. He has admitted that this witness had stated that out of fear, he had come home and taken his wife and children and gone near S.R.P. Quarters and hidden there. When they had gone near the quarters and hidden there, at 5:30 in the evening, once again there stones were pelted at them. The Investigating Officer has admitted that this witness has not stated anything regarding his talk with Salim. He has admitted that the witness in his statement that he has not used the word "them" while saying that they had gone on the terrace and that the witness had stated that they had hidden on the terrace of a shop and there also, there was a stone pelting and the police had released tear gas.

183.31 The Investigating Officer has admitted that this witness had not stated that he had seen Guddu Chhara and Tiniyo Marathi killing and hacking the Muslims and burning them. He has clarified that the witness had mentioned that there was a mob which was severely beating the Muslims and in the mob, Guddu Chhara and Tiniyo Marathi were present. He has admitted that this witness had stated that thereafter, they went and hid on a terrace and from there, out of fear, they had gone towards Gopinath Society, but there also, a Hindu mob

was standing which was assaulting their people and were beating them with pipes and hockey sticks and hence, he took his family members and was going towards Jawannagar, when upon seeing a big mob on the way, he was frightened and once again climbed on the terrace of the provision shop and hid there and sat there for the entire day.

183.32 The contents of paragraph 6 of the examination-in-chief of the witness from the third line to the fifth line, wherein the witness had stated that Salim told him to take the family to the S.R.P. Quarters and that he would come afterwards, are read over to the Investigating Officer, who has admitted that this facts have not been stated verbatim in his statement, but he has stated that he had taken Salim's family and gone.

183.33 PW-327 Shri V. V. Chaudhary, the Investigating Officer (SIT) has, in his cross examination, admitted that he has recorded the statements of this witness on 23.6.2008 and 18.10.2008. He has admitted that this witness had stated before him that he is being shown an application addressed to the Police Commissioner, Shahibaug, Ahmedabad and the complaint application dated 6.3.2002 together with the Loss Damage Analysis Form are read over to him and he has admitted that he has made the complaint application which bears his signature and on the basis of this complaint application, Naroda Police Station I-C.R. No.176/02 has been registered which fact is correct. It may be noted that this part of the witness's statement recorded by the witness is not sought to be used to contradict any part of his primary statement, but a question is put to him in his cross-examination and an answer is elicited and such answer is

sought to be contradicted by his statement recorded under section 161 of the Code, which is not permissible in law as held by the Supreme Court in the case of Tahsildar Singh (supra). This part of the deposition of the Investigating Officer is therefore, not admissible in evidence.

183.34 The Investigating Officer has further admitted that the witness had stated before him that after a little while, upon his brother Salim coming, the police had released tear gas shells and he sustained a minor injury by a shell on his neck; and he had told him that he was going with the children to the S.R.P. Quarters, he too should come with him with his family and after saying so, he had gone with his family and he had told his wife to take the children and go and sit at Tiniya Marathi's house, who resides at the S.R.P. Quarters and after saying so, he had sent his wife and children and thereafter, he took his brother's family and went to the S.R.P. Quarters.

183.35 The contents of paragraph 38 of the deposition of the witness are read over to the Investigating Officer wherein the witness had stated that Tiniya had thrown a stone at his niece Saliyabanu which had injured her and which the witness had seen. The Investigating Officer has admitted that the fact regarding Tiniya having injured Saliyabanu with a stone has not been stated by the witness in the statement recorded by him.

183.36 That part of paragraph 60 of the examination-in-chief of the witness, wherein he had stated that Salim had told him to take the family and go to the S.R.P. Quarters and that he would come thereafter, are read over to the Investigating

Officer, who has admitted that the witness has not stated any such thing having been told to him by Salim.

183.37 SUBMISSIONS: The learned counsel for the appellants invited attention of the court to the contents of paragraph 7 of the examination-in-chief of the witness to point out that the witness has stated that at that time immediately after 4 o'clock, Tiniyo Marathi and Guddu were seen in the mob, which came from Uday Gas Agency and they were pointing out the houses of Muslims to the mob. It was submitted that firstly, the mob having come from Uday Gas Agency, is a fact which is stated by different witnesses at different points of time. Therefore, as to whether the mob had come at 4:00 p.m. is a correct fact or not, itself is a question. Secondly, even if the witness refers to Tiniya as being part of the mob, he has tried to improve his story about hacking and killing before the SIT and before the court, but such an allegation was not there in his police statement, except that, as per the Investigating Officer he was seen in the mob assaulting people. It was submitted that no overt act has been attributed to Tiniya by this witness. Thirdly, when according to this witness he had seen him, he had run away to the butcher's terrace along with Salim's wife and children, whereas, as proved by the Investigating Officer he had gone on the terrace of a grocery shop and sat there for the whole day. This also creates a doubt about him being an eye witness to any such incident as well as regarding his having seen any accused.

183.38 It was submitted that insofar as accused Manu is concerned, the witness has deposed that he was driving Muslim women towards the field with a hockey stick in his

hand. It was submitted that in this regard no witness including the witnesses who have said that they were hiding at Gangotri have deposed such facts making such allegations. It was submitted that this witness says that after he went to the butcher's terrace, he had gone on the road going towards the S.R.P. Quarters, where he was not permitted to enter and was beaten by the S.R.P. and then again came back to the same terrace after he was threatened with a pistol by an S.R.P. personnel and at this point of time he saw Manu driving away those women towards the field with a hockey stick. It was submitted that these facts would run contrary to and in contradiction to what is stated in his first available statement dated 13.5.2002 as referred to in paragraph 49 and proved by PW 307 (page 281). Therefore, his version qua both the accused is not consistent. Even otherwise, the alleged role attributed to both of them being inconsistent with the testimony of other witnesses, may not be relied upon.

183.39 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that it has been established that this witness had seen the offence and that his presence does not appear to have been doubted. Even in his cross-examination, it was pointed out that the witness has attributed overt acts to accused No.28, accused No.30 and Guddu. In his cross-examination an attempt has been made to prove the omissions and contradictions in respect of the conversation that took place between the two brothers, which is insignificant and cannot be said to be a major contradiction. It was submitted that there is no further major contradiction sought to be brought out in respect of the statement dated 13.5.2002, except to the extent of the weapons in the hands of the

accused and as regards Manubhai, that his name was not properly mentioned, and therefore, he is wrongly involved. It was submitted that therefore, as regards the whole incident, the involvement of accused No.30 and 28 has been proved beyond reasonable doubt by this witness, who is credible and believable.

183.40 ANALYSIS: From the testimony of this witness it emerges that he had gone to the corner of the S.T. Workshop in the morning and has seen a lot of people pelting stones at Muslims and advancing forward. When the mob was advancing, the police have started firing from near the S.T. Workshop gate. He went home and took his wife and children and his brother Salim's wife and children and went to the S.R.P. Quarters and tried to enter inside but they were not permitted to do so. They had reached there at around 10:00 in the morning and sat there till around 4 o'clock in the evening. At 4 o'clock a mob came from the side of Uday Gas Agency, the members whereof were armed with weapons. They started pelting stones and assaulting and the Muslims were driven apart. At this time, his wife and son also got separated from him. His brother's wife and children were with him.

183.41 In this mob, he had seen Tiniyo Marathi and Guddu Chhara, both had swords in their hands, and were showing the mobs the houses of Muslims and assaulting. He went to a butcher's terrace and climbed down into Gangotri and went to a road which went towards the S.R.P. Quarters. There were police at the entry point and did not let him enter. While he was going on the terrace he saw Manu driving women away with a hockey stick. He returned and went to the butcher's

terrace taking Salim's wife and children along with him.

183.42 His statement was recorded at the camp on 13.5.2002. A printed complaint stated to have been given by his is exhibited as Exhibit 1390. Despite the fact that the witness has only admitted his signature thereon and has not admitted the contents thereof, the entire document has been exhibited.

183.43 In his cross-examination, the only omissions brought out are that in his previous statement dated 13.5.2002, he had not stated that his brother Salim told him to go with the family and that he would come afterwards and he had not stated that Guddu and Tiniya were assaulting and hacking, but had stated that they were severely beating.

183.44 The witness is confronted with his statement dated 13.5.2002 to the effect that he had not stated any facts regarding Manubhai as stated by him in his examination-in-chief, which the witness has denied. It may be noted that in the cross-examination of the Investigating Officer, such omission or contradiction has not been put to him, and therefore, is not proved.

183.45 The witness is also confronted with his police statement dated 13.5.2002, to the effect that he had not stated facts regarding Guddu and Tiniya or attributed any weapons to them. In the cross-examination of the Investigating Officer it has been proved that while the witness had not stated that they were assaulting and that they were in a mob which was killing and hacking and burning, he had said that

they were in the mob which was belabouring the Muslims. Thus, insofar as the presence of both the accused in the mob which was assaulting the Muslims is concerned, the witness is consistent.

183.46 Insofar as acquaintance with the named accused is concerned, the defence has clearly brought out the acquaintance in paragraphs 39, 55 and 56 of his deposition.

183.47 Therefore, the testimony of this witness by and large goes unchallenged, except to the extent noted hereinabove. Insofar as the role attributed to accused Manu is concerned, it is difficult to believe that one person with a hockey stick could drive away so many Muslim women towards the fields. Therefore, the role attributed to his accused does not inspire confidence. However, through the testimony of this witness, the prosecution has duly proved the presence of Guddu Chhara (deceased) and Tiniya in the mob which was assaulting the Muslims.

184. **PW-202 Samsuddin Shahbuddin Rathod**, aged 58 years, has been examined at Exhibit-1394. This witness has deposed that his native is *Village Nonera, District Bharatpur, Rajasthan*. The witness has deposed that since the last fifteen years, he is residing at *Hussainnagar* and that he was residing in the *Naroda Patiya* area since the last forty eight years.

184.1 The witness has stated that in the year 2002, he was residing at the same place where he is presently residing, with his wife Hamidabanu and his children, viz., two daughters and a son. After the incident, his elder daughter Rehanabanu

has got married and she is residing at her matrimonial home in this area. His son is married and is residing with him.

184.2 In the year 2002, he was engaged in the business of selling cutlery items and bangles. His place of business was *Krushnanagar, Naroda and Bapunagar*.

184.3 The incident took place on 28.2.2002. At that time, at about 9 o'clock in the morning, he had gone to the tea stall near the Noorani Masjid to have tea. On that day, there was a police point near the Noorani Masjid. He saw a mob coming from the direction of Natraj Hotel towards the Noorani Masjid. The people in the mob were armed with weapons and they were pelting stones and were advancing forward towards the Noorani Masjid. This mob set the shops, houses in their area on fire, which he had seen. At that time, the police were there on the side of the Noorani Masjid.

184.4 In the mob, he saw **Kishan Korani (A-20), Manojbhai (A-41), Bipin Auto (A-44), Guddu Chhara (deceased), Naresh Chhara (A-1), Suresh Chhara (A-22)** and **Mungda Chhara (A-39)**. Thereafter, a mob came from the direction of Krushnanagar.

184.5 Another mob came after about half an hour, the leadership whereof was taken over by Bipin Autowala. Both these mobs got together and started ransacking their entire area. His house was also looted. At this time, at about 9:00 to 9:15 in the morning, the police had resorted to firing at the Muslim mob, wherein Abid Hussain was injured by a bullet. Therefore, he had gone towards his home. When he reached

home, he handed over the custody of his two daughters to Miraben who was residing next to his house. Between his house and Miraben's house, there are two houses and there is a compound wall after her house.

184.6 He told Miraben that if the riots escalate, he and his wife would come back to take back their son. On that day, in the afternoon at around 1:30, he was near his house. At that time, Miraben's son and husband were also with him. At that time, a mob came from the direction of Krushnanagar to the Jawannagar khada. The khada is situated at a distance of around 30 to 35 feet from his house and in between, there is a compound wall. Bipin Autowala has taken the leadership of this mob and at this time, as the mob coming nearer to them, Miraben's husband told him that since he had a heavy physique, he should go away. Hence, he took his wife and his son and went towards Gangotri Society. At Gangotri Society, he had gone to the house of his friend's brother-in-law who was serving in the S.T. Workshop. He stayed there till around 6:30 in the evening.

184.7 Where they were, the S.R.P. police came and said, "*Take out the Muslims*", and hence, they were all driven out of their houses and the houses were locked and the Hindus were called to the S.R.P. Headquarters. Therefore, they had gone on the terrace of the very same house. There also, the police and the S.R.P. were driving them away. They were driving them behind the S.T. Workshop and were telling them to go to the Naroda Police Station, and hence, they came out of Gangotri Society.

184.8 They went out towards the society after Gangotri Society, which is the last society. They heard the screams of women coming from there. Upon hearing the screams, they fled and went back to Hussainnagar. At that time, it was about 7 o'clock in the evening. There was a mob of around two hundred to two hundred and fifty people armed with weapons in the Jawannagar pit. There were around five hundred other Muslims with him. Upon the mob seeing them and coming towards them, half of the people from amongst them ran to Hussainnagar and the other half went towards Gangotri Society. He found both his daughters at Gangotri Society in the evening at about 4 o'clock. In this manner, when the Muslims got divided into two sections, viz., Hussainnagar and Gangotri, his elder daughter and elder son got separated from them and they went towards Gangotri Society, whereas he, his wife and his younger daughter went towards Hussainnagar.

184.9 They stayed at Hussainnagar till 11 o'clock at night at Samsuddin Gadlawala's house. At around 11 o'clock at night, the policemen including the officers had come and they shouted that if Muslims were hiding there, they should come out. Upon hearing this, he came down from the terrace.

184.10 He informed the policemen the facts about the incident and specially told them that several Muslims were trapped in the society behind Gangotri. They informed the police that if they bring out the Muslims who are trapped in this manner, then he would present the other people and then, the other Muslims would trust them. In this manner, the police had given him four gunmen and told him that he should take the gunmen and bring the Muslims from where they were

trapped or hiding.

184.11 Accordingly, while he was going at the corner of the society, he met **Bhavani** and **Tiwari Bhaiyaji**. He asked them as to where the Muslims who were left there were hiding, and they told him that they did not know. Thereafter, he took the gunmen and went into every lane of Gangotri, and Bhavani and Tiwari Bhaiyaji followed them. Upon hearing his voice, his daughter replied from a terrace of Gangotri Society and told him that she was hiding on the terrace. Upon his asking her, she informed him that many Muslims were hiding on all the terraces. Therefore, upon asking everyone to come down from the terraces, there were approximately seven hundred to eight hundred Muslims. They did not trust the police. However, he tried to convince them. At this time, Bhavani and Tiwari Conductor said something in the ear of one of the gunmen who was with him, but he does not know what he said. However, after such a talk, all the four gunmen immediately started going from there and said that whoever wants to come, should immediately follow them. The Muslims who were on the terrace, upon hearing all these things came down and joined them. They all went on foot to the main road opposite the Noorani Masjid. There were big police vehicles there. There were six big vehicles and one big truck as well as a tanker from their area. Out of them, several persons were accommodated in the vehicles and the police officers told the remaining people that they would take them subsequently.

184.12 In this manner, in the first round, he with his family went in a police vehicle to the Shah Alam camp, where they stayed for five and a half to six months.

184.13 In the incident, all the household goods from his house were looted and nothing was left in his house.

184.14 When he was at the camp, a panchnama of his house was drawn and the police also orally examined him in connection with the incident. He was orally examined after seventy-two days.

184.15 The witness has stated that he can identify all the accused whom he has named and out of the named persons, Guddu and Bhavani have passed away. The witness has thereafter identified Mungdo (A-39), Manoj (A-41), Suresh (A-22), Bipin (A-44), Naresh (A-1), and Tiwari (A-25). However, the witness has identified accused No.38 Ashok Sindhi as Kishan Korani and has therefore, failed to identify Kishan Korani (A-20) correctly.

184.16 CROSS EXAMINATION: This witness in his cross-examination has stated that he has studied up to the fourth standard. In the cross-examination of the witness, he has stated that at that time, there were mobs on the Highway. He has admitted that, at that time, there was stone pelting but he was not injured in the stone pelting. Upon the commencement of stone pelting, in two to five minutes, he had left the tea stall. He has stated that he left the tea stall after the firing. The firing took place from the S.T. Workshop road. He has admitted that after the firing, he had fled towards his chawl. The witness has voluntarily stated that when the mob came from Krushnanagar, at that time, also, he was standing outside Chetandas-ni-Chali. He does not know the time; however, it

was morning time. After this mob came within fifteen minutes another mob had come from Krushnanagar. Upon both the mobs coming together, the road was blocked.

184.17 The witness has denied that while he was standing at the corner of Chetandas-ni-Chali, till then, the people from the Natraj Hotel mob had not come. He has stated that the people in the mob had come to the corner of the S.T. Workshop and had attacked the Noorani Masjid. The corner of Chetandas-ni-Chali and the S.T. Workshop corner are opposite each other. The witness has denied that he had stood at the corner of Chetandas-ni-Chali for fifteen minutes and has voluntarily stated that he had stood there for half an hour. He has admitted that after the mobs came, he had stood there for half an hour.

184.18 The witness has denied that he and Pirubhai had gone home together. He has stated that after returning to Hussainnagar, he has stayed at home till around 1:30 in the afternoon. He has denied that while he was at home in the last lane of Hussainnagar till 1:30 p.m., no person from both the mobs had come to their chawl. The witness has admitted that he was there till 1:30 in the afternoon and till then, no persons from both the mobs had come to his chawl.

184.19 In the cross-examination of this witness, it has come out that there were two houses of Hindus in his chawl, viz., Miraben and Kuttanbhai, who were residing there with their families. The witness has admitted that they did not fear Miraben, and hence, he had entrusted the care of his daughters to her. The witness has voluntarily stated that there

was no question of having any fear from Hindus who were residing with them. The witness has admitted that when he entrusted his daughters to Miraben, the mob had not come to their lane. The witness has voluntarily stated that the mob had come in the pit nearby. Between the pit and their lane, there was an approximately six feet high wall.

184.20 The witness has stated that he had also entrusted his son to Miraben. After leaving his children with Miraben, he had gone to Gangotri Society through the Hussainnagar road. He has admitted that while he and his wife were going towards Gangotri Society, at that time, many other people were with them and the people from the direction of Jawannagar pit were also coming and all of them, had gone to Gangotri Society. The witness has stated that in the morning, some people had also gone to the S.R.P. Quarters. The witness has denied that the people who were coming from the direction of Jawannagar pit were all Muslims and has voluntarily stated that amongst the women, men and children, some were also Hindus.

184.21 The witness has admitted that his friend Ratilalbhai's brother-in-law's house was in Gangotri Society and since he knew him, he had gone to his house. The witness has stated that he had stayed in Gangotri Society from 6:30 to 7 o'clock and his children and other people had stayed on the terrace of Gangotri Society till 11:30 to 12:00 at night. After he had entrusted his children to Miraben, they had locked their house and gone away and he had found his children with other Muslims in the open ground. The witness has admitted that from around 1:30 in the afternoon till around 6:30 in the evening, he had stayed at Gangotri Society. The witness has

stated that from the two mobs which had merged, no one had come to Gangotri Society but they were in the mob which had come to the Jawannagar pit. The witness has denied that the people in the mob who were burning shops and houses in the morning had not come to their chawls, and has voluntarily stated that they had come up to Lane No.3 of Hussainnagar. The witness has stated that he does not know whether on that day, Ratilalbai's brother-in-law was present at home; however, his wife was present and she was serving water to everyone and in this manner they had stayed there for one and a half hour. On that day, they were in the room for one and a half hour and except for that time, they were on the terrace and were going up and down. The witness has voluntarily stated that their condition had become like a mad dog, the police were beating them and out of fear, they were being tossed here and there. The witness has admitted that the mob had not come inside Gangotri Society but had come to Gopinath Society which touches Gangotri Society and was assaulting there. The police were beating them and driving them away. Out of them, several people went out of the society who died in the incident whereas some of them fled from the police and had remained inside the society.

184.22 The witness has stated that Samsuddin Gadlawala probably resides in Lane No.4 or 5 of Hussainnagar. He has stated that other than him, many other people had also taken shelter in that house. He has admitted that there must be around two hundred people who had taken shelter.

184.23 The witness has admitted that Pirubhai Painter, Babubhai Qureshi, Rafiqbhai who had a tea stall, Samshadbhai

Bhangarwala and the Maulana of the Noorani Masjid had met him at the camp. The witness has stated that he has not stated the facts regarding what had happened to him to the organizers of the camp. The witness has voluntarily stated that he had informed the police. The witness has stated that from 28.2.2002, that is, the day of the incident till 12.5.2002, he had discussions with regard to the incident with different people. The witness has voluntarily stated that while they were residing at the camp, these types of discussions were going on.

184.24 The witness is cross-examined with regard to the conditions in the camp, etc. and the VIPs who visited the camp. The witness has admitted that he has not stated before the police that he had left his children with Miraben. The witness has admitted that at the time of recording his police statement, he had not shown them the places where they had hidden, for the reason that the statement was recorded at the camp, whereas they had hidden in the Naroda Patiya area.

184.25 The contents of paragraph 5 of the examination-in-chief of the witness, wherein he has stated that the people in the mob had weapons in their hands, are read over to the witness, who has denied that he has not stated such facts in the statement recorded by the police. The witness is further confronted with the contents of paragraph 7 of his examination-in-chief from the fifth line to the sixth line to the effect that he has not stated these facts in the statement recorded by the police. The word, "therefore" in the last line of paragraph 7 of his examination-in-chief is brought to the notice of the witness who has denied that he has not stated that because the firing took place, he had gone, in his police

statement. The witness has denied that he has not stated anything regarding his talk with Miraben and her husband or any fact in the context of Miraben, as stated by him in his examination-in-chief in his statement recorded by the police.

184.26 The contents of paragraph 9 of his examination-in-chief wherein the witness has stated that there also the police and S.R.P. were driving them away, to the effect that he has not stated such facts in the statement recorded by the police. The witness is confronted with the contents of paragraph 12 of the examination-in-chief of the witness wherein he has stated that they were at Samsuddin Gadlawala's house, to the effect that he has not stated such facts in the statement recorded by the police, which the witness has denied. The contents of paragraphs 13 and 15 of his examination-in-chief are read over to the witness to the effect that he has not stated all these facts in the statement recorded by the police.

184.27 In his cross-examination, the witness has stated that the last lane of Hussainnagar is not adjoining Gangotri Society. He has admitted that the last lane is adjacent to the Jawannagar pit. The witness has admitted that between the last lane of Hussainnagar and the pit, there is a wall, which is approximately six feet high. He has admitted that touching this wall, there is a pit of the timber mart and if one goes further in that direction, the timber mart is situated. The witness has admitted that the timber mart road is adjoining the pit. The said road is the road which goes from Uday Agency and touches the National Highway. He has admitted that the Jawannagar pit is situated next to it and that his house is situated near the Jawannagar pit. He has admitted that

between these two pits, there is a road. He has denied that there is no road going directly from the pit to Gangotri Society.

184.28 The witness has admitted that if he is in his house in the last lane of Hussainnagar, he cannot see the Noorani Masjid as well as the S.T. Workshop gate. The witness has admitted that his sole statement came to be recorded on 13.5.2002 and except for that, he has not made any statement before the police. The witness has stated that he is not aware as to whether when his statement was recorded by the police, other people were present. He had gone for recording his statement in a room. His statements were being recorded in a small office situated near the Darwaza, behind Shah Alam Roza, where the police was calling everyone and recording their statements. While recording their statements, the police were sitting on chairs and they were sitting on the floor. The witness has admitted that they were asking about the incident and were writing as stated by them. He has denied that thereafter the police had read over their statements to them. He has admitted that his thumb impression or signature was taken. They had taken his signature on a paper. Something was written on the paper and they had taken his signature below such writing.

184.29 The witness has admitted that he had stated all the facts including the names of the accused, as stated by him in his examination-in-chief before the police.

184.30 The witness has admitted that he had not stated that he was standing at the corner of Chetandas-ni-Chali in his statement. The witness has voluntarily stated that this fact

was asked to him for the first time in his cross-examination and, therefore, he had stated so, and prior thereto, the police had not asked him, and, therefore, he had not informed them.

184.31 The witness has admitted that this mob was attacking their chawl. He has admitted that at that time, the mob was only coming to attack the Muslim chawl. The witness has voluntarily stated that he had seen the people who were leading the mob and from there they had gone to the Noorani Masjid. When he saw the people in the mob, he was standing near the tea stall near a tree.

184.32 The witness has stated that out of the accused named by him, some had attacked the Noorani Masjid and some of them were rioting near the S.T. Workshop. He had recognized Mungdo (A-39) and Suresh (A-22) in the mob which was attacking the Noorani Masjid. Out of the rest of the accused whom he had identified, Bipin and Guddu were on the Krushnanagar side and the rest of them were near the S.T. Workshop. The witness has admitted that when he saw Mungdo and Suresh, he was not near the tea stall tree but was at the corner of Chetandas-ni-Chali. The witness has admitted that everything he saw during the period while he was standing at the tea stall at the corner of Chetandas-ni Chali had been stated by him in his statement dated 13.05.2002 recorded by the police.

184.33 The witness has admitted that the Krushnanagar mob came to the pit through the Uday Gas Agency road near his house. The witness has admitted that on that day from 1:30 in the afternoon till 6 o'clock in the evening he had stayed

at Gangotri Society and had not come out. He has admitted that between 1:30 to 6:30, he had not seen the incidents that took place in the Jawannagar pit and other places himself. The witness has denied that at around 6:30 higher police officers as well as policemen had met him. He has admitted that the police personnel met him after 11 o'clock at night.

184.34 In his cross-examination, it has come out that after 11 o'clock Ratilal who was in the A.M.T.S. and is now dead, had met him. The witness has stated that Ratilal in whose brother-in-law's house he had gone, was serving in the S.T. Workshop. He has admitted that Ratilal Bhavani and Tiwari both of them reside at Gangotri Society. He has admitted that Tiwari resides in Gangotri Society while Ratilal Bhavani resides at the end of Jawannagar. The witness has admitted that the end of Jawannagar and the end of Gangotri meet at the same place.

184.35 The witness has admitted that at 11 o'clock at night, they had gathered near Ratilal Bhavani's house. This place is in the first lane of Gangotri Society. Bhavani and Tiwari were standing at the corner of the lane. He has admitted that the corner of their house is at the same place. The witness has admitted that since they were standing there, he had called them and asked them.

184.36 In his cross-examination, the witness has stated that he does not remember the colour of the clothes worn by the accused on that day. They were wearing pants and shirts. The witness has stated that he has not noticed as to whether they had tied black bands on their faces or had tied saffron bands. The witness has stated that he has not recorded the

physical features to identify the accused and has voluntarily stated that he knows that Suresh is lame. The witness has admitted that he has not identified the other accused by their physical features. The witness has stated that all these accused are from their area and he knows them very well. The witness has admitted that the police have not conducted any test identification of the accused through him. The witness has denied that he has not received compensation for the loss sustained by him and has admitted that he has received Rs.50,000/- for the house and Rs.1,25,000/- towards the injuries sustained by his son.

184.37 The witness has admitted that he had seen Hindus and Muslims pelting stones against each other but has thereafter stated that the stone pelting was only from the side of the Hindus. The witness has admitted that he had seen cross stone pelting towards the Noorani Masjid. He has voluntarily stated that first the Hindus had pelted stones and thereafter upon their being an attack on the Noorani Masjid, there was cross stone pelting. The witness has denied that he had given a false statement at the camp so that he would get false publicity in the TV and press and that he has given a wrong statement falsely implicating the accused and is falsely deposing before the court.

184.38 To prove the omissions and contradictions in the testimony of this witness as to his previous statements recorded by the police, the defence has cross examined PW-279 Shri B. J. Sadavrati the assignee officer, who in his cross-examination has admitted that he has recorded the statement of this witness on 13.5.2002. He has admitted that this witness

has not stated before him that the people in the mob had weapons in their hands. He, however, has stated that the witness has stated that the people in the mob were pelting stones and were burning things.

184.39 The contents of the last two lines of paragraph 7 at page 3 of the deposition of this witness are read over to the assignee officer, wherein the witness has stated that at this time, at around 9:00 to 9:15 in the morning, the police had fired at their Muslims mob, wherein Abidhussain was injured by a bullet. The assignee officer has admitted that the witness has not stated such facts before him. The assignee officer has admitted that the witness has not stated before him that he had gone home because of the firing. The witness has not mentioned any talk with Miraben and her husband before him. He has also admitted that the witness had not stated before him that there, the police as well as the S.R.P. personnel were driving them away. The assignee officer has admitted that the witness has not stated before him that they were in the house of Samsuddin Gadlawala. He, however, has clarified that the witness has stated that they had come to their area.

184.40 The contents of paragraphs 13 and 15 of the examination-in-chief of the witness are read over to the assignee officer, who has denied that all the contents of paragraph 13 have not been stated by the witness in the statement recorded by him. He has stated that the witness had stated the fact that the senior police officers had come. The witness had also stated that he had made a representation and talked with the officers regarding taking the persons who were trapped there to safe places. The assignee officer has admitted

that the witness has not stated any of the facts stated by him in paragraph 15 of his examination-in-chief in the statement recorded by him.

184.41 The assignee officer has stated that he had not gone with the witness for drawing the panchnama of his house. He has stated that he had recorded the statement of this witness outside Shah Alam Dargah in a police vehicle. He has denied that he had recorded the statement of this witness in an office behind Shah Alam Roza and that he had taken the thumb impression or signature of the witness in the statement. Various portions of the statement of the witness are put to the assignee officer; however, since the same have not been put to bring out any contradiction in the primary evidence of the witness, the same could not have been proved through the testimony of the assignee officer and is, therefore, inadmissible in evidence. The assignee officer has denied that this witness had not named any accused before him and that he had recorded the names of such accused on his own and fabricated a false statement. He has denied that he had obtained a signed statement of this witness. Pursuant to a query by the court, the assignee officer has stated that he has recorded only one statement of this witness on 13.5.2002.

184.42 SUBMISSIONS: The learned counsel for the appellants submitted that the witness though he has name Kishan Korani has not been able to identify him and in his place he was wrongly identified accused No.38 Ashok Sindhi. It was submitted that insofar as accused No.25 Tiwari is concerned, his name is not there in the morning mob and in paragraph 14 of his examination-in-chief, reference has been

made to Bhavani and Tiwari but without any criminal complicity. Besides, what he has stated about him in paragraph 15 is a proved omission and, therefore, the entire part of paragraph 15 has been stated by the witness for the first time before the court. It was submitted that even if those averments made in paragraph 15 are taken at face value, then also the same do not indicate any criminal complicity on the part of accused No.25. It was submitted that Tiwari is a local resident of that area and therefore, even if he is seen there without any role, his presence is natural.

184.43 It was submitted that as regards accused No.44 Bipin Panchal, in paragraphs 6 and 7 of the examination-in-chief, he is shown in the mob which came from Natraj and after half an hour he is also shown in the second mob which came from Krushnanagar and thereafter, he refers to the merger of three mobs. So the presence of accused No.44 cannot be there in both the mobs together. Since Bipin has an auto centre in that area, even if his presence is found nearby, it cannot be attributable to any criminal intention.

184.44 It was submitted that no overt act is attributed to Bipin specifically and as far as the other accused are concerned, namely, accused No.41, accused No.2, accused No.22 and accused No.39, against them also, no allegations or overt act is attributed except that they are seen in the mob. It was submitted that though not stated before the police, the witness has made a material improvement before the court, attributing weapons in the hands of all the persons in the mob generally. At 1:30 in the noon, while he was near his house, he refers to a mob which came from Krushnanagar and the

Jawannagar pit, but thereafter no allegations are made as to what the mob did. Even this version would be found to be inconsistent with the version given by the other witnesses, as regards time and the direction from which the mob came to Jawannagar. It was submitted that this witness has referred to another mob of two hundred to two hundred and fifty people with weapons coming to the Jawannagar pit at about 7:00 p.m., but again, he does not say as to what the mob did. Thus, at different points of time, the witness refers to five different mobs, but when he does not attribute any role being played by any person in the mob, including the accused, it is very doubtful as to whether he, in fact, has witnessed the incident or seen any accused, as alleged. It was submitted that in paragraph 73 of his deposition, the witness has admitted that the people were coming on the *ota* (platform outside the house) of the shops out of curiosity, which indicates the possibility of the presence of those persons who are the local residents or the persons who have local business to be there in the vicinity. It was submitted that this witness was at Gangotri at Dalpat's home at 6:30. The witness has come out at 6:30 and, therefore, if the incident had taken place at 6:30 or before that, the witness would have seen the incident. Therefore, the incident at the passage has not taken place before 6:30 in the evening. Referring to paragraph 10 of his examination-in-chief, it was submitted that the witness has heard screams at 7 o'clock in the evening; therefore, the incident at the passage of the water tank took place between 6:30 to 7:00. It was submitted that this witness is the only witness who refers to the house where they took shelter as being Samsuddin Gadlawala's house.

184.45 It was submitted that this witness, though states that he went to take tea on the day of the incident in the morning and saw the mob and the named accused, it is highly doubtful that he was present on either side of the road because he first says he went to the tea stall adjoining the Noorani Masjid and thereafter, he says that he went to the tea stall at Chetandas-ni-Chali, which is on the opposite side. It was submitted that he has also stated that he had crossed the road before taking tea, which fact is borne out from paragraph 99 of his deposition. It was submitted that there are vital and important contradictions in the deposition of this witness and between his deposition and his statement before the police. There are vital and important inconsistencies in his evidence and the evidence of the other witnesses, particularly regarding the time of the evening incident near Gangotri. It was submitted that this witness has also not shown any weapons with any named accused and he has not alleged any overt act against any accused in his examination-in-chief. Only in his cross-examination, he has alleged that Suresh, that is, accused No.22 and Mungdo accused No.39, were pelting stones at the Noorani Masjid.

184.46 The learned counsel further pointed out the witness has wrongly identified accused No.38 Ashok Sindhi as accused No.20 Kishan Korani, and that this fact has been treated as a circumstance against accused No.38 by the trial court.

184.47 ANALYSIS: From the testimony of this witness it appears that there are hardly any omissions and contradictions as to the previous statement recorded by the police. From the testimony of this witness it emerges that at around 9:00 in the

morning he came to a tea stall near the Noorani Masjid. He saw a mob coming from the side of Natraj Hotel. The people in the mob were armed and were pelting stones. The mob was advancing towards the Noorani Masjid. The mob was setting shops and houses in their locality on fire. In the mob he saw Kishan Korani (A-20), Manojbhai (A-41), Bipin Auto (A-44), Guddu Chhara (deceased), Naresh Chhara (A-1), Suresh Chhara (A-22) and Mungda Chhara (A-39). Thereafter a mob came from the direction of Krushnanagar. The second mob came after half an hour and Bipin Autowala took over the leadership of the mob. This mob indulged in looting in the entire area. Thereafter he returned home. After he returned to Hussainnagar he had stayed home till around 1:30 in the afternoon. At 1:30 he was near his house when a mob came from the direction of Krushnanagar to the Jawannagar Khada. Bipin Autowala had taken over the leadership of the mob. Thereafter he went to Gangotri Society where he stayed with a friend who was serving with him in the S.T. till around 6:30 in the evening. While they were there, the S.R.P. police came and said take out the Muslims, and hence, they were taken out and the houses were locked and the Hindus were called to the S.R.P. Head Quarters. Therefore they went back to the terrace of same house. They were being driven away from there and were being told to go to Naroda Police Station, and hence, they had come out of Gangotri Society. They were going towards the society beyond Gangotri which was the last society, when they heard women screaming. Upon hearing the screams they fled and returned to Hussainnagar. At this time a huge mob came from the side of Jawannagar Khada and some Muslims went towards Hussainnagar and other went towards Gangotri. They stayed at Hussainnagar till 11:00 p.m. whereafter the

police came. The witness is also consistent with regard to the fact regarding Bhavani and Tiwari having met him while he was going to call the Muslims who were hiding in Gangotri. Though the witness has been cross-examined at length, nothing substantial has been elicited to dent the core of his testimony.

184.48 This witness has named the accused named by him in his examination-in-chief, in the previous statement recorded by the police. However, he has not identified accused No.20 Kishan Korani before the court; therefore, his testimony cannot be taken into consideration to prove the charge against him. Insofar as accused No.25 Tiwari is concerned, apart from the fact that an omission has been proved regarding the facts stated in paragraph 15 of his examination-in-chief, in any case, the witness has merely referred to his presence when the witness went to call the Muslims from Gangotri after the arrival of the police. Therefore, nothing connecting this accused with the offence in question has been stated by the witness. Consequently, the testimony of this witness does not support the prosecution in proving the charge against accused No.25 Tiwari. Insofar as the contention with regard to the allegations against accused No.44 Bipin Panchal is concerned, on behalf of the appellants it has been submitted that the witness has shown him in different mobs which is not possible. In this regard, on a close reading of the testimony of this witness, it can be seen that the witness has nowhere stated that Bipin Aowala had come in different mobs at different times. The witness has stated that he had seen Bipin in the mob which had come from the side of Natraj; another mob came after about half an hour from the side of Krushnanagar and Bipin

took over the leadership of that mob. Therefore there is nothing contradictory in the evidence of the witness. Thereafter the witness has referred to having seen the Krushnanagar mob in the Jawannagar Khada which was led by Bipin. Therefore, it is not as if he has referred to a third mob getting merged. As regards reference to the mob in the Jawannagar Khada, the witness has merely referred to the presence of the mob, and has stated that there was a wall between the mob and their chawl. Evidently therefore, the witness has seen the mob before the Jawannagar wall was broken. Insofar as not having seen what the mob which came from the side of Jawannagar in the evening at 7:00 p.m. did, is concerned, it is the specific case of the witness that they had gone away towards Hussainnagar, therefore, there was no question of the witness having seen what this mob did.

184.49 This witness has deposed that he had seen Kishan Korani (A-20), Manojbhai (A-41), Bipin Auto (A-44), Guddu Chhara (deceased), Naresh Chhara (A-1), Suresh Chhara (A-22) and Mungda Chhara (A-39) in the morning mob which was setting shops and houses in their locality on fire. He has also deposed that he had seen Bipin Autowala leading the mob at 1:30 in the afternoon. Considering the overall testimony of the witness, the court is of the view that he comes across as a credible and trustworthy witness, and despite lengthy cross-examination, the defence has failed to impeach his credibility. Therefore, except for A-20 Kishan Korani and A-25 Tiwari, the testimony of this witness can be used to prove the charge against the rest of the accused named by him.

185. **PW-203 Sharifabibi Iqbalbhai Shaikh**, aged 42

years, has been examined at Exhibit-1404. This witness has deposed that she is residing at *Lane No.1, Jawannagar* since the last fifteen years with her husband and children. Her husband is engaged in driving a rickshaw.

185.1 The incident took place on 28.2.2002 when there was a call for bandh. Till the date of the incident, she was residing with her family comprised of her husband, her four sons and a daughter. However, her elder son Sharif died in the incident.

185.2 Amongst other sons are Aspak, Nasir and Ilyas and her daughter who is the youngest is named Sunera.

185.3 On the day of the incident, at around 9 o'clock in the morning, she was at home. They were having breakfast. At that time, all her family members, including her four sons and a daughter and her husband were at home. When they were at home, at 9 o'clock in the morning, the people in their chawls were running around and were saying that the mob has come, the mob has come. Hence, they had come to know that something had happened and all of them came out. After coming out, all of them went to Master's (PW-208) terrace which was opposite their house and climbed on the terrace. From the terrace, they saw the Noorani Masjid was being set on fire. They saw that rickshaws, cabins etc. were being burnt. All this was being done by the people in the mob. At this time, it must have been around 9:30 in the morning.

185.4 Upon seeing all this, they got down from the terrace. Upon coming down, they saw that the mob was

coming towards Hussainnagar shouting “kill, cut”. The people in the mob were armed with swords, hockey sticks, etc. and they had cans of petrol and kerosene in their hands. Some of the people in the mob were wearing undershirts and had tied saffron bands round their foreheads.

185.5 Since at this time, the mob was coming near them, they had fled towards the S.R.P. Quarters. Upon reaching the S.R.P. Quarters, they requested the S.R.P. people to save them as otherwise they would be killed. The S.R.P. people told them that today, they were to die and that they should go home and die there. The people from their chawl who were with them, folded their hands and requested the S.R.P. people that at least, their children and women may be taken inside the S.R.P. Quarters, however, they did not do so and beat them with sticks and drove them away. Her husband had also requested the S.R.P. people; however, they had beaten him with stick.

185.6 At this time, the mob was coming behind them. To escape from the mob, they had run to Gangotri and Gopinath Society. While running, her husband got separated from her, whereas her children were with her and she ran with her children.

185.7 While running, they reached Bhavani’s house, where her elder son Sharif got separated from her.

185.8 She saw a terrace on Gangotri Society and she took the rest of her children and climbed there. Upon going to the terrace, she pressed her children’s mouths as they were crying. On the terrace, she took her children in a corner.

185.9 While they were hiding on the terrace, they could hear sounds of “kill, cut”. At that time, from the latticed parapet of the terrace, she saw that her son Sharif was being assaulted with swords, hockey, sticks and he was beaten and felled down. Thereafter, kerosene and petrol was poured on Sharif and he was set ablaze.

185.10 In the mob which had assaulted and burnt her son Sharif, she had seen **Bhavani, Guddu Chhara, Suresh Langdo (A-22), Dalpat, Sahejad Chhara (A-26), Tiniyo Marathi (A-55), Raju Marathi (not an accused), Kishan Marathi (A-48)** and others. The witness has stated that she will give other names if she remembers the same. Thereafter, the witness states that she remembers that **Bhavani’s son (accused No.40)** was also present in the mob.

185.11 These people killed her son in front of her eyes and set him ablaze. These people were throwing small children in the blazing fire which she had seen. She had also seen these people raping young girls.

185.12 She saw that the people in this very mob had stripped Naeem’s wife naked and were raping her. It was around 5:00 to 6:00 in the evening. She was at the terrace with the rest of her children till 12 o’clock at night.

185.13 At 12 o’clock at night, a vehicle came, however, they were afraid. They wondered whether they had again come to kill them. Thereafter, the policemen asked them to get down. The police people told them that they were the

policemen and that they had come to take them to Shah Alam. She went in the vehicle with her children to Shah Alam relief camp. There were many other people with them in the vehicle, which was full of people.

185.14 The witness has further deposed that after the riots she met her husband in the camp. He and her children were also injured. They stayed at the relief camp for around five months. The police had recorded her statement at the relief camp.

185.15 From the camp, they went straight to the house which was allotted to them at Vatva.

185.16 A survey of their house was carried out while they were at the camp and at that time her husband had attended. She had sustained loss of rupees two lakh including cash, ornaments etc., in her house. They had stayed at the Vatva house for fifteen days. However, her children could not get any employment and her children desired to reside at Patiya and hence, they returned to their rented house at Patiya. They started residing in the very same house in which they were residing on rent prior to the incident.

185.17 After one month, at Naroda Patiya, she came to know that it has come in the newspaper that a high ranking officer has come to Gandhinagar and hence, she made an application. She received a summons from Gandhinagar after a few days and she gave her statement at Gandhinagar. The witness has stated that her statement was recorded at Gandhinagar and about a month prior thereto she had given

her application, after which, she had received a summons and thereafter, her statement was recorded.

185.18 The witness has stated that at present, Bhavani, Guddu and Dalpat are dead and that she can identify the other three accused, who had killed her son Sharif. The witness has identified Sahejad Chhara (A-26) and Tiniyo Marathi (A-55) correctly.

185.19 The witness has stated that she could not see Bhavani's son, Suresh Langda and Kishan Marathi amongst the accused who were sitting there. It appears that all the above three accused, namely, accused No.22, 48 and 40 were present before the court. However, the witness has failed to identify them. The witness has stated that Raju Marathi is not sitting in the court. (Raju Marathi is not an accused).

185.20 CROSS EXAMINATION: In her cross-examination, this witness has admitted that the SIT had read over her statement to her. The witness is sought to be contradicted as to her statement recorded by the SIT to the effect that in her statement before the SIT, she had stated that regarding Naroda Patiya incident she had given her statement before the Police Inspector, DCB, Ahmedabad at the Shah Alam camp, which has been read over to her and is in terms of what she has stated and is proper and correct. In the opinion of this court, the above referred part of the cross-examination is not admissible in evidence, inasmuch as a question had been put to the witness in the cross-examination and an answer has been elicited and the witness was sought to be contradicted in connection with such answer and not in connection with what

the witness has stated in her examination-in-chief, which is not permissible in law, as held by the Supreme Court in the case of **Tahsildar Singh** (supra).

185.21 The witness has admitted that she had sustained damages in the incident and her son had died, in connection with which, she had received money by way of compensation. The witness has admitted that she had received, in all, rupees five lakh as compensation for the death of her son. Out of this amount, she had received rupees ninety thousand while they were at the Shah Alam camp and the remaining amount was received thereafter. The witness has admitted that her husband had managed the entire amount which was received and that the amount had been received in his name.

185.22 The witness is thereafter cross-examined with regard to the topography of the area. In her cross-examination, she has stated that she does not know as to whether there is any house with two floors at Hussainnagar. She has stated that there is a terrace house in front of her house and has admitted that the house which she refers to as Master's house is Nazir Master's. She has admitted that at the time of the incident Nazir Master's house only had a terrace and it did not have two floors.

185.23 The witness has admitted that her statement was recorded at the camp, but does not know whether it was on 13.5.2002. The witness has denied that on the date of the incident, she was at home till 10 o'clock in the morning. She has denied that her husband and her children were at home till 10 o'clock. The witness has stated that on that day, there were

riots and at 10 o'clock there was pandemonium. The witness has stated that it has not happened that at 10 o'clock she had heard sounds on the road and had seen the mob on the road at 10 o'clock and that she had learnt that riots have started at 10 o'clock in the morning. The witness is sought to be contradicted as to her statement dated 13.5.2002 recorded at the camp, to the effect that she had stated that at around 10 o'clock there were shouts and they had learnt that a lot of people had gathered on the highway and disturbances were going on.

185.24 The witness has admitted that on that day on all four sides there were huge mobs with open swords, shouting "cut" "kill" and hence, out of fear she had left their house together with her children and husband and fled to protect their lives. The witness has voluntarily stated that they had gone to S.R.P. Quarters. She has denied that in her statement dated 13.5.2002 she had not stated that they had gone to S.R.P. Quarters. The witness has denied that while they were hiding, her son Sharif was caught by the mob. She has clarified that after Sharif was separated from her, she had gone on the terrace after which the mob had caught him. The witness has admitted that the mob had hit her son Sharif with pipes and felled him, after which, they had poured kerosene over him and burnt him. The witness has stated that she wants to say that moreover they had also assaulted him with swords, hockey and had felled him and thereafter poured kerosene and petrol and burnt him in front of her eyes. The witness has denied that in her statement recorded by the police, she has not stated that Sharif was assaulted with sticks, hockey and swords.

185.25 Upon being asked as to in which society out of the two societies namely, Gopinath and Gangotri, she had gone, the witness has stated that she cannot say as to which is Gopinath and Gangotri and that the place where they had gone is known as Gopinath Gangotri. She has further stated that Harijans, Marathis and others reside in these societies. The witness has admitted that she had never gone to Gopinath, Gangotri Societies or to the S.R.P. Quarters prior to the day of the incident. The witness has denied that she does not know the people residing at these three places and has stated that since they used to pass by near her house, she knew them.

185.26 In her cross-examination, it has further come out that she had gone to a terrace of Gangotri Society on that day. She has stated that she does not know as to the terrace of whose house they had gone. She had stated that the house was shut and hence, she had gone on its terrace. The witness has stated that she does not know whether there is any way for going to Gangotri Society from near the S.T. compound wall and that she does not know whether she had gone to Gangotri from this road. She has stated that she only knows that she had gone near Bhavani's house and by hiding in the lanes, they had reached there. The witness has admitted that other Muslims were also hiding on the terrace where she had gone. She has admitted that no person was standing on the terrace and all of them were crouching and had shut the mouths of their children and were sitting on the terrace. The witness has admitted that she had seen the incident of Sharif from this terrace. She has stated that she had seen it from the lattice of the parapet of the terrace. The witness has denied that in her

statement dated 13.5.2002, she had not stated that she had seen Sharif's incident from the lattice of the parapet of the terrace.

185.27 The witness is sought to be contradicted as to her statement dated 13.5.2002 to the effect that she had stated therein that at that time they were all on the terrace of a house nearby and from there they had seen her son being killed. The witness has voluntarily stated that she had not mentioned only terrace but had stated that she had seen it from the lattice of the terrace.

185.28 The witness is sought to be contradicted as to her statement dated 13.5.2002 to the effect that they were hiding here and there, in the meanwhile the people in the mob caught her son Sharif and assaulted him with pipes and felled him . Further they had poured petrol over him and set him ablaze and that at this time they were on the terrace of a house nearby and from there she had seen her son being killed with her own eyes. It may be noted that in the examination-in-chief of this witness, she had stated that while they were running, her son Sharif got separated from her and while they were hiding on the terrace, they could hear sounds of kill, cut and at that time she had looked from the lattice of the parapet of the terrace and had seen her son Sharif being assaulted with sword, hockey, sticks and he fell there and thereafter, kerosene and petrol were poured over him and thereafter, he was burnt. In the opinion of this court, the contradiction sought to be brought out qua the police statement dated 13.5.2002 cannot be said to be material contradiction and is merely a narration of the very same incident in slightly different words.

185.29 In her further cross-examination, the witness has stated that she does not know as at what time her son Sharif got separated from her near Bhavani's house. She has admitted that Sharif's incident must have taken place between 5:00 to 6:00 in the evening. The witness has stated that Sharif's incident took place below the terrace on which they were hiding. This place was a place which was slightly further from Bhavani's house. The terrace was in Gangotri Society. The witness has denied that Sharif's incident took place below the staircase of a house in which they were hiding. She has stated that they were assaulting him at a slight distance from the house. She had stated that she had seen the incident taking place at a spot where they could see clearly if they slightly bent forward from the parapet of the terrace.

185.30 The witness has stated that she cannot say as to exactly whether there were five hundred to one thousand people in the mob. She has admitted that when the incident took place people had gathered there. She has admitted that some people in the mob were wearing khakhi pants and undershirts and some people had also tied saffron bands on their foreheads. The witness has stated that on that day, in the mob, she had not seen people who had tied black bands. The witness has stated that as far as she is aware, from the persons whom she has named as having been seen by her in the mob, Tiniya had a sword in his hand, Raju had a hockey in his hand and Guddu had petrol and kerosene cans in his hands. She has stated that all the persons whom she has named were carrying one or the other weapon. At that time, three or four blows were inflicted with a sword on Sharif. She

had seen that they were all assaulting Sharif. She has admitted that she had also seen Sharif being inflicted with three or four blows with a pipe. The witness has denied that Sharif was also inflicted four or five blows with a gupti. The witness has stated that she does not know whether Sharif's hands or legs were cut on account of being inflicted blows with the sword. The witness has voluntarily stated that she had seen him being killed and burnt and thereafter she could not see anything.

185.31 The witness has admitted that a blow was inflicted on Sharif's head with a pipe and that a sword had been inserted in his abdomen. She has stated that she does not know whether at that time Sharif was bleeding because immediately after killing him, he was burnt. The witness has admitted that Sharif was burnt at the same place where he was killed. The witness has admitted that she had not shown as to where Sharif was killed and burnt to the police who recorded her statement or to the SIT. The witness has stated that it has not happened that she and her husband had together gone near the water tank next to Gopinath. She had denied that the place where her son was felled and killed was at Gopinathnagar and not Gangotri. The witness has voluntarily stated that the place where Sharif was killed is known as Gopinath Gangotri. She has denied that on that day, she had not gone with Sharif and that the incident of Sharif which she has stated had taken place at Gangotri had not taken place at all and that the incident had taken place near Gopinath and that from the terrace where she was, Gopinath or any other place could not be seen and that from the terrace where she was, the place where Sharif's incident took place could not be seen.

185.32 The witness has stated that she did not use to visit Bhawani, Guddu and Dalpat's houses and that she had no occasion to socialise with them and that she had never had any occasion to talk to or meet the persons whom she has identified in the court. She has admitted that on the day of the incident, she had not identified the accused from as close a distance as she had identified them in the court.

185.33 The witness is cross-examined with regard to the application made by her and she has stated that the boy who had written down the application was a resident of their chawl. She has admitted that she does not know him. The witness has admitted that on the date when her application was written she did not know the number of her complaint. She has stated that the mobile phone number written in the application was her mobile number at the relevant time. The witness is shown the application Mark 644/2 and she has identified her thumb impression at the bottom of the application. The contents of the application are read over to her and the application is exhibited at Exhibit-1405.

185.34 In her cross-examination, she has stated that she does not know whether her husband had seen Sharif's incident taking place. She has denied that she has not seen any incident of her son Sharif and that she was not with Sharif on the day of the incident. The witness has denied that she was falsely deposing at the instance of the people of her community. The witness has denied the suggestion that on the day of the incident from 9:00 in the morning till the evening she was at the house of Hussainabanu, who resides at the

S.R.P. Quarters.

185.35 The witness has stated that at the time when her statement was being recorded, her husband had not told her that she was stating anything incorrectly. She has stated that prior to her statement being recorded, there was no talk between her and her husband with regard to Sharif's incident. The witness has denied that during the time when they stayed at the camp she had no occasion to talk with her husband with regard to Sharif's incident. She has voluntarily stated that she had seen her son die, so it was natural that her husband would ask her about it.

185.36 The witness has stated that she does not know as to whether the terrace on which she was sitting on that day was in the first line of the first society after their chawl. She has stated that she cannot say as to how many lines behind their lane, the terrace was. She has stated that all that she knows is that the terrace was at a short distance from Bhavani's house. The terrace was situated after leaving about three houses from Bhavani's house. She has admitted that the house was in the line of Bhavani's house. She has stated that Bhavani's house is on the road whereas this house is at a corner in the interior side. The witness has denied that she has not seen the incident and that she has not seen the accused and that she was falsely deposing before the court.

185.37 The defence has cross-examined the Investigating Officer/assignee officer who had recorded the statement of this witness to prove the omissions and contradictions in the testimony of the witness.

185.38 PW-295 Shri B.C. Gadhavi, the assignee officer, in his cross-examination, has admitted that he has recorded the statement of this witness on 13.5.2002. The assignee officer has admitted that the witness had stated before him that her landlord's name was Bhurabhai. The assignee officer has admitted that the witness had stated before him that at around 10 o'clock there was a commotion and she had come to know that on the road outside, many people had gathered and riots were going on. The assignee officer has admitted that this witness had also stated that at this time, they were all on the terrace of a nearby house and from there they had seen her son dying. The assignee officer has further admitted that the witness had stated before him that they had continued to hide here and there. In the meanwhile, the people in the mob had come and caught hold of her son Sharif and assaulted him with a pipe and felled him down, after which they had poured petrol over him and burnt him. At this time all of them were on the terrace of a nearby house and they had seen her son being killed with their own eyes. The assignee officer has admitted that this witness had not stated before him that they had gone to the S.R.P. Quarters, but has stated that the witness had stated the facts stated in paragraph 48 of her deposition. The assignee officer has admitted that this witness had not stated before him that Sharif was assaulted with sticks, hockey and swords. He, however, has stated that the witness had stated before him that he was assaulted with a pipe and after pouring petrol on him, he was set on fire. The assignee officer has further admitted that this witness had not stated before him that she had seen the incident from the lattice of the parapet. He, however, has clarified that the witness had stated before

him that she had seen the incident from the terrace. The assignee officer has further admitted that the witness had not stated before him that her husband had got separated from her.

185.39 The contents of paragraphs 9 and 15 and the last line of paragraph 12 and first two lines of paragraph 13 of the examination-in-chief of the witness are read over to the assignee officer, wherein the witness had stated that at that time a mob was coming behind them; to escape from the mob they started running towards Gangotri and Gopinathnagar. While running like this, her husband got separated from her, whereas her children were with her. She had fled with her children. While fleeing in this manner, they had reached near Bhavani's house when her eldest son Sharif got separated from her. Her husband had met her at the camp after the riots. He was also injured. Her children were also injured. She had seen the mob throwing small children in the blazing fire. These very same people, whom she had seen, were raping young girls. She had seen that the people in this mob had disrobed Naeem's wife and were raping her. The assignee officer has admitted that this witness has not stated any of the above facts in the statement recorded by him

185.40 PW-327, Shri V. V. Chaudhari, the Investigating Officer (SIT) has, in his cross examination, admitted that he has recorded the statement of this witness on 27.5.2008. He has stated that the witness has stated before him that in connection with the incident that took place at Naroda Patiya, the Police Inspector, DCB, Ahmedabad city had recorded her statement on 13.5.2002 at Shah Alam camp, which was read

over to her and which was correct and proper. That she knows Gujarati very well.

185.41 The attention of the witness is drawn to the facts stated by the witness in her examination-in-chief to the effect that she had seen Sharif's incident from the lattice of the terrace. The Investigating Officer has admitted that the witness has not used the word "lattice", but has stated that she had seen the incident from the terrace.

185.42 SUBMISSIONS : The learned counsel for the appellants referred to the contents of paragraph 6 of the deposition of the witness to submit that from the terrace of a house having only one floor, the witness could not have seen rickshaws, gallas, etc. being set on fire. It was submitted that, moreover, the witness has not stated as to from which house and where she had seen the incident taking place, which shows that at a later date, after coming to know about it, she has narrated such facts. Referring to the contents of paragraph 12 of her examination-in-chief, wherein she has deposed that these people had killed her son in front of her eyes and set him ablaze, that she had seen the people in the mob were throwing small children in the blazing fire; she had seen that these people were raping young girls; it was submitted that these are general, vague statements of the witness, which indicates that she has not seen the incident at all. [It may be noted that PW-162 Rafik Kalubhai Shaikh in paragraph 13 of his deposition has stated that they had heard voices of the people who got separated from them saying "protect the modesty of women". At this place women and children were being beaten, hacked and burnt alive.] It was submitted that very cleverly none of

the witnesses have stated as to on the terrace of which house of Gangotri they were, because it is not possible to see the passage where the incident took place from the terrace of Gangotri. It was submitted that witness Samsuddin does not refer to the incident of the passage, though he came out of Gangotri. So in either case, if the incident has taken place either at Gangotri or at the passage, it is not before 7:00 p.m. and she could not have seen it. It was pointed out that in paragraph 49 of her cross-examination, she has stated that they could see the incident if one slightly bends forward from the terrace, to submit that the fact that she has to bend forward to see the incident would show that the incident took place below that house. It was submitted that reading paragraphs 44 to 49 of the cross-examination of this witness together with paragraph 79, it transpires that it is highly improbable that this witness could have seen any incident including any incident of her son. According to the learned counsel, as per the version given by this witness, the incident of her son happened in Gangotri and the witnesses examined who were on the terraces of Gangotri have not stated a word about such incident in Gangotri Society. It was submitted that the evidence of this witness is inconsistent with the evidence of PW-209 Shabana Bundubhai, who categorically stated that Sharif died in the incident at the passage and this witness could not have seen anything at the passage looking to the place where she was hiding and she has admitted that she could not see what is happening at Gopinath. It is, therefore, highly improbable that the witness has seen any incident on that day as well as the named accused involved in such incident.

185.43 It was submitted that this witness has referred to her son Sharif being killed, but till 13.5.2002, she has not stated these facts to anyone which is highly unnatural. It was submitted that this witness is a resident of Lane No.1 of Jawannagar, and hence, they could not have seen anything from their terrace.

185.44 Referring to the contents of paragraphs 12 and 13 of her deposition, it was submitted that before the SIT, the witness has improved the facts to lend assurance to the fact that she is an eyewitness, which in fact, she is not. It was pointed out that in paragraph 10 of her examination-in-chief, the witness has stated that she took her children and hid in a corner, which renders what she has stated in paragraph 11 about having seen the incident from the lattice of the parapet highly improbable.

185.45 Reference was made to the contents of paragraph 62 of her deposition to point out that in the cross-examination of the witness, it has come out that she never used to visit Bhavani, Guddu or Dalpat's residences and she had no social relations with them and that prior to identifying them in the court, she had no occasion to talk to them or meet them. It was submitted that if the witness has not met them or talked to them, there was no question of identifying them in the mob. It was pointed out that the witness has not identified Kishan Marathi, Bhavani's son and Suresh Langdo and insofar as Tiniya Marathi is concerned, in the absence of any test identification parade having been carried out, his identity cannot be said to be established that he is the same person. It was submitted that as regards accused No.26 Sahejad, no

acquaintance has been established nor has she ever met him and she has named him only as Sahejad and, therefore, in the absence of a test identification parade, his identity is not established.

185.46 It was submitted that the witness is, therefore, not a credible witness and her testimony cannot be used to prove the charge against any of the accused persons named by her.

185.47 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that the fact that Sharif was killed and that the witness had seen it is established, whether she saw it from the parapet or the terrace is not relevant. It was submitted that the witness has given all details about the incident of her son Sharif, the manner in which he was killed and specific roles have been attributed to the accused persons and that as far as this is concerned, nothing adverse has been elicited during the course of the cross-examination of the witness, so far as the incident is concerned. It was submitted that certain omissions and contradictions were attempted to be brought, which are not so significant as regards the incident in question and do not have any bearing upon the prosecution case. It was submitted that certain omissions with regard to the time and situation of the terrace would not nullify the version of the eyewitness as this witness has categorically stated about the role played by each accused and hence, the offences punishable under sections 141, 143, 148, 149 and 302 of the Indian Penal Code are established beyond reasonable doubt. It was submitted that it is also required to be noted that her presence at the site of the incident was not doubted at any point of time. It was submitted that this witness

is a mother, who is deposing about the death of her son, and on the face of it, it cannot be treated to be a false statement as there is no need for her to tell lies so far as the death of her son is concerned. It was submitted that if other witnesses have not stated about the incident, it would not nullify the evidence of the witness, who is an eyewitness and would not dent the credibility of the witness.

185.48 ANALYSIS: This witness has deposed regarding mobs having come on the road in the morning at around 9 o'clock. The witness has stated that at around 9:30, she had gone on her neighbour's terrace, which was on the opposite side, and from there, she had seen that the Noorani Masjid was being set on fire and had seen rickshaws, cabins, etc. burning. The witness has further deposed that a mob was coming towards Hussainnagar and the people in the mob were armed with weapons and were carrying cans of petrol and kerosene. Upon the mob coming near, they had fled towards the S.R.P. Quarters and had requested the S.R.P. people to let them go inside. However, they did not let them go inside and drove them away. The witness has deposed that thereafter, they had fled from there and she saw a terrace at Gangotri Society and climbed on it and while she was on the terrace, she had seen her son Sharif being assaulted and felled down. Kerosene and petrol was poured over him and he was set ablaze. The witness has referred to the presence of several accused in the mob that had assaulted and set Sharif ablaze. The time stated by the witness about the occurrence of incident is about 5 to 6 o'clock. While the witness has named several accused in her examination-in-chief, she could only identify two of the accused, namely, Sahejad Chhara (A-26) and Tiniya Marathi (A-

55) before the court. The witness has been cross-examined to bring out the omissions and contradictions in her police statement, however, such omissions and contradictions are very minor in nature and do not affect the core of her testimony. One of the omissions is to the effect that the witness had stated that she had seen the mob from the terrace in her police statement, whereas in her examination-in-chief, she has stated that she had seen the incident from the lattice of the parapet of the terrace.

185.49 In the cross-examination of the witness, it has been elicited that the house in Gangotri, on the terrace of which she had taken shelter, was in line with Bhavani's house at a little distance from his house and was the third house in the corner inside. Insofar as naming the accused in her first available statement recorded by the police is concerned, there are no contradictions. However, as noted hereinabove, out of all the accused named by her, she has identified only Sahejad Chhara (A-26) and Tiniya Marathi (A-55). The witness is consistent in her version that she had seen the incident from the terrace whereas in her deposition she is more specific and says that she saw the incident from the lattice of the parapet wall of the terrace, which is merely an elaboration of the facts stated in the police statement and cannot be termed to be an improvement.

185.50 The omissions brought out as to her police statement with regard to the witness having seen small children being thrown into the fire by the people in the mob and raping young girls and stripping Naeem's wife and raping her, are material omissions amounting to contradictions.

Therefore, to that extent, the testimony of the witness cannot be believed. However, though the witness has made certain improvements in her original statement, she is consistent insofar as the core of her testimony as regards the incident relating to her son Sharif is concerned, and hence, the credibility of the witness is not impeachable. The witness otherwise appears to be a credible and truthful witness and to the extent she has named and identified the accused alleged to be involved in the incident relating to the murder of her son Sharif, namely Sahejad Chhara (A-26) and Tiniya Marathi (A-55), the same can be relied upon for the purpose of proving the charge against those accused.

186. **PW-204 Abdulrazak Abdulraheman Saiyed**, aged 42 years, has been examined at Exhibit-1410. This witness has deposed that he was residing at *Hukamsing-ni Chali, Naroda Patiya* since more than thirty to thirty five years prior to the incident.

186.1 The incident took place on 28.2.2002. During the period of the incident, he was residing at *Hukamsing-ni-Chali* with his wife and three children. At the relevant time, he had an electric shop which he was running from a wooden cabin where he was carrying on his trade and as and when he got such work, he also used to work as an electrician.

186.2 On 28.2.2002, there was a call for Gujarat Bandh. On that day, he was at home till 9 o'clock in the morning. On that day in the morning at around 9:00 to 9:30, when he was at home, the Muslims of their chawl were coming running and were saying that mobs have come out side, and hence, he

came out of his house. He went near the neem tree on the road next to the compound wall of the S.T. Workshop and saw that the mobs were coming from the direction of Natraj Hotel. The people in the mob came near the gate of the S.T. Workshop from the direction of Natraj Hotel and they were pelting stones. They were also pelting stones on the people standing in their lanes.

186.3 There was a police point at the neem tree near the gate of the S.T. Workshop. The police had gone to the S.T. Workshop gate on the opposite side from where the police started firing. Thereafter, **Manojbhai (A-41)** also took a revolver and fired. **Kishan Korani (A-22)** fired with a pistol. In this firing, Abidbhai and Maheboob Kureshi's son-in-law were injured by bullets. The witness has stated that he does not know as to whose bullets injured them.

186.4 The persons who were injured by the bullets were taken towards their house in the lane. Thereafter, the mob near the S.T. Workshop which was pelting stones, started coming towards their chawls on the S.T. Workshop road. The people in the mob were burning the houses in the chawls on the road. At this time, he alone went towards Hussainnagar to save himself. Later on at night, he came to know that his wife and children had also fled to save themselves.

186.5 He had gone to the terrace of the Pinjara's house at Hussainnagar and stayed there till around 12 o'clock at night. Thereafter, a police vehicle came and took them to the Shah Alam camp. They stayed at the Shah Alam camp for around four months.

186.6 While they were at the camp, after around two and a half months after the incident, the police took him to his house for drawing a panchnama. His wooden electric cabin was outside his house. The police had also orally examined him while he was at the camp. They had asked him about the damage sustained by him.

186.7 The SIT people had also called him and his statement was recorded there.

186.8 The witness has stated that he can identify Manoj Sindhi and Kishan Korani whom he had seen in the mob. The witness has thereafter correctly identified Kishan Korani (A-22), but has identified Murli Sindhi (A-2) as Manoj. Thus, the witness has failed to identify Manoj Sindhi (A-41).

186.9 CROSS-EXAMINATION: In his cross-examination this witness has admitted that no test identification parade of the accused was carried out either through the police or the Magistrate. The witness has voluntarily stated that he knew the accused since prior to the incident; that he knew Manojbhai about ten years prior to the incident; and that he knew Kishanbhai since two years prior to the incident.

186.10 The witness has stated that he does not know what business Kishanbhai carries on. He does not know how many people bear the name 'Kishanbhai' in that area. He has stated that as far as he knows, Kishanbhai resides opposite Kubernagar. He has never visited Kishanbhai's house, nor did Kishanbhai visit his house. He had no occasion to visit

Kishanbhai for any business purpose. There are no social or monetary relations between them.

186.11 In his cross-examination, it has come out that SIT had recorded his statement in a school at Naroda Patia. He was called for recording his statement before SIT. The witness has admitted that leaders of his community had come to call him, and hence, he had gone for recording his statement. He has stated that people who had come to call him were not residing in the chawl. The witness is cross-examined with regard to certain residents of the area as well as conditions at the camp and the manner in which the complaint was recorded.

186.12 In his cross-examination, it has come out that he had signed certain papers which he has not read. The witness has stated that he has hardly studied up to the second standard and does not know either Hindi or Gujarati properly and that if he finds any person trustworthy and such person asks him to sign, he would put his signature. At this stage, the learned counsel for the defence has requested that the printed form complaint which is mentioned in the statement dated 22.6.2002 which has been included in the FIR being Naroda Police Station C.R. No.127 of 2002 be produced before the court. The prosecution has produced the printed form complaint together with the Loss Damage Analysis Form with a Purshis- Exhibit 1411. The printed form complaint and the Loss Damage Analysis Form are shown to the witness, who has identified his signature at the bottom of each of the documents. The contents of the complaint are read over to the witness, who has stated that the facts stated therein are not

stated by him. The witness has stated that he never says that he is engaged in business, but says that he is involved in electric business, whereas in the complaint form only 'business' is written, moreover he has not given any names as recorded in the complaint. The witness says that it appears that some persons had simply taken his signature. The printed complaint application and the Loss Damage Analysis Form are given Exhibit No.1412.

186.13 [It may be noted that despite the fact that the witness has not admitted the contents of the above referred documents, the trial court has exhibited the same.]

186.14 The witness has admitted that in printed complaint application Exhibit-1412, he does not know as to apart from the printed contents who has written the handwritten part. He has admitted that handwritten names of the six accused have not been given by him. The witness has admitted that at the time of giving the complaint application he had not given the name of Kishan Korani and has clarified that what he wants to say is that he has not given any of the names in the printed form application, and hence, he does not know who has written it and why was it written, but he has not given such names. The witness is thereafter cross-examined with regard to where and how his statement was recorded.

186.15 In his cross-examination, it has come out that the printed form complaint Exhibit 1412 was initially not read over to him by SIT. He has admitted that the SIT had read over the printed application Exhibit 1412, but that was after his statement was recorded. The witness has denied that the

police had recorded his statement on two occasions at the camp. The witness has admitted that the SIT has read over his statement after recording it. The witness has admitted that he had informed the SIT people that he had not dictated the application Exhibit 1412. The witness is cross-examined with regard to the topography of the area. Certain parts of his police statement are put to the witness, which are not admissible in evidence, because the witness has not been confronted with such statement to contradict any part of his evidence.

186.16 The attention of the witness is drawn to the contents of paragraph 4 of his examination-in-chief from the second line to the last line, to the effect that he had not stated such facts in his statements recorded by the police as well as the SIT, which the witness has denied.

186.17 The witness has stated that in the interior side of his chawl there is a temple, but one cannot go anywhere from the interior part of the chawl. The witness has stated that rear side of the chawl means the houses situated behind, which are houses in another chawl. The witness has stated that he does not know as to where his wife and children were hiding on that day in the morning. Upon asking his wife she had informed him that they were sitting in the lower level of the Pinjara's three storeyed house. He has stated that the Pinjara's house is situated in Hussainnagar.

186.18 The witness has admitted that on the day of survey, the police had orally examined him with regard to the incident. The witness has voluntarily stated that on that day he had

given the names of two accused persons whom he had identified before the court. The witness has stated that the police had not read over his statement which was recorded on the day when the survey of his house and shop was conducted. The witness is once again confronted with the extracts of his statement recorded by the police on 11.6.2002, without seeking to contradict any part of his evidence.

186.19 The contents of paragraph 5 of his examination-in-chief are read over to the witness to the effect that he has not stated such facts in any of his statements including the statement recorded by the SIT. The witness has admitted that he had not stated these facts in any of his statements except the statement recorded by the SIT. The contents of paragraph 6 of his examination-in-chief are read over to the witness to the effect that he has not stated such facts in his statement recorded by the police as well as by the SIT, which the witness has admitted. The witness is cross-examined with regard to the position of the police point on the day of the incident as well as the general topography of the area.

186.20 In his cross-examination the witness has stated that the police had carried out the firing from near the S.T. Workshop gate. The witness has stated that he does not know as to how many policemen were firing at a time. He has stated that when Abid was injured by a bullet he was at the corner of the S.T. Workshop at that time. There were many people with Abid. He has stated that whoever was injured by a bullet would be taken inside and that he knows the names of two persons who were injured by bullet, but does not know how many were injured by bullets in the police firing.

186.21 The witness has denied that on the day of the incident he had not seen any incident after coming out of his house, and hence, in none of his statements he stated that he had come out of his house and gone on the road and seen the incident. He has denied that at the instance of Nazir Master and Safibhai, he had given the printed complaint and his statement and that he is deposing before the court as tutored by them.

186.22 To prove the omissions and contradictions as to the previous statement of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

186.23 PW-280 B.C. Joshi, the assignee officer has admitted that he has recorded the statement of this witness. He has admitted that the witness has not stated before him that when he came out of his house, he saw the mob.

186.24 The contents of paragraph 4 of the examination-in-chief of this witness, from the second line to the last line thereof, are read over to the assignee officer, who has admitted that the witness had not stated such facts in the statement recorded by him.

186.25 The assignee officer has admitted that this witness had stated before him that on 28.2.2002, the Bajrang Dal and the Vishwa Hindu Parishad had, in the context of the Godhra incident, given a call for Gujarat Bandh due to which, communal riots had erupted. Therefore, out of fear, he had

gone to the terrace of a house at Jawannagar and hidden there. The riots had continued from morning till the afternoon. It may be noted that in the cross-examination of the witness he is confronted with certain parts of his police statement without seeking to contradict any part of his evidence, which is not admissible in evidence, and such part of his police statement is thereafter sought to be proved through the testimony of the assignee officer, which again is not admissible in evidence, as the same has not been put to him to contradict any part of the evidence of this witness, but in this manner of cross-examination, the contents of his police statement are sought to be brought on record.

186.26 PW-307 S. S. Chudasama, the Investigating Officer has admitted that the statement of this witness was recorded by Shri A. A. Chauhan (now deceased) on 13.05.2002. He has admitted that this witness in such statement had stated that *".....the people in this mob had attacked their chawls and pelted stones.... committed arson..... at 3:00 to 4:00 o'clock, when I came out I saw that the mob of people had gone away. Our houses in the chawls had been burnt. My house had also been burnt..... thereafter, I went to the rear side of the chawl...."*.

".....the people in this mob had..... burst gas cylindersout of fear, I had gone to the interior side of the chawl. And my wife had taken my son and gone towards the rear side of the chawl..... my house had also been burnt which I had seen....". The Investigating Officer has admitted that this witness in his statement has not stated that when he came out of his house, he had seen the mob.

186.26 The contents of paragraph 4 from the second line to the last line of the examination-in-chief of the witness, are read over to the Investigating Officer, who has admitted that all these facts have not been stated by the witness in his statement. The contents of paragraph 6 from the second line to the last line of the examination-in-chief of the witness, are read over to the Investigating Officer, who has admitted that all these facts have not been stated by the witness in his statement. He has stated that the witness had stated is that the people in the mob had attacked their chawl, pelted stones, burst gas cylinders and committed arson. The other facts are not stated by him.

186.27 SUBMISSIONS: The learned counsel for the appellants has submitted that this witness in paragraph 5 of his examination-in-chief has not referred to any mob from Krishnanagar, nor does he speak about any attack on the Noorani Masjid, and destruction and burning of the Noorani Masjid as well as near the Noorani Masjid. It was submitted that PW-104 Mohammed Salim Hussain Shaikh had stated that Manoj had a revolver, whereas this witness says that Manoj had taken a revolver and fired. It was submitted that PW-104 has not referred to any fire arm in the hands of Kishan Korani, whereas this witness speaks of Kishan Korani firing with a pistol. It was submitted that the witness has failed to identify Manoj correctly and has identified Murli Sindhi as Manoj. A reference was made to the printed complaint Exhibit 1412 to submit that the witness has not named the persons identified by him in the court, in the printed complaint. It was submitted that this witness is residing in the area since twenty five years,

but has not identified or implicated any local accused. It was submitted that this witness was inside the house of Umrudin in Lane No.4, Hussainnagar and has not stated that any of the accused had come and knocked the door and talked to them during the whole day as has been stated by some other witnesses. It was submitted that this witness has also not talked about having witnessed the incident from the house. It was submitted that therefore, there are vital and important inconsistencies in the evidence of this witness and other witnesses, who had taken shelter in the house of Umrudin. It was urged that this witness has failed to identify Manoj before the court and he has not given the names of the accused in his complaint and in his two police statements and for the first time he has given the names of the two accused before the SIT and the court. It was submitted that in light of these infirmities the evidence of this witness does not inspire confidence and cannot be relied upon. It was pointed out that in paragraph 13 of his cross-examination, the witness has stated that he had no acquaintance or relation of any kind with accused No.20 Kishan Korani. He has not named Kishan Korani in his police statement which indicates that he has named him for the first time before the SIT at the instance of somebody. It was submitted that even before the SIT the witness has stated that the accused had a small revolver in his hand, whereas before court he had improved the story and has stated that Kishan Korani had fired from the revolver. It was submitted that in his printed complaint, the name of Kishanbhai is absent which further supports the submission that Kishan's name is given for the first time before the SIT at somebody's instance. It was submitted that moreover no recovery of any such so called fire arm has been made from or at the instance of accused No.20.

It was submitted that the allegation that Manoj snatched away a police revolver and fired from it, is also not supported by any other independent evidence and further the evidence of the witnesses does indicate that the people have been injured only in police firing and not in private firing.

186.28 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that whatever be the omissions which were brought out in respect of the statements dated 13.5.2002 and 11.6.2002, no omission could be brought out by the defence in respect of the statement made before the SIT. It was submitted that, therefore, this witness is a credible witness and most of the contradictions are of a trivial nature in respect of the 2002 statements, but in respect of the 2008 statement, no contradiction has been pointed out and, therefore, if the evidence as a whole is appreciated, there is no contradiction vis-a-vis his deposition in the court.

186.29 ANALYSIS: From the testimony of this witness it emerges that he had given a printed complaint form soon after the incident. However, the witness has not admitted the contents of the printed complaint form and has stated that even the names of the accused written therein have not been given by him. In these circumstances, when the witness has not admitted the contents of the complaint and the person who has written the complaint has not been examined, the contents of the complaint cannot be read in evidence.

186.30 The core of the testimony of this witness is contained in paragraphs 5 and 6 of his examination-in-chief wherein he has stated that Manojbhai (A-41) took a revolver

and fired and Kishan Korani (A-22) fired with a pistol. During the course of his cross-examination, the witness has admitted that the facts stated by him in paragraphs 5 and 6 of his examination-in-chief have not been stated in any of his police statements except before the SIT. Therefore, it is an admitted position that for the first time the witness has named the accused and attributed specific roles to them only in his statement recorded by the SIT after a period of more than six years from the date of the incident. From the testimony of the witness, it is not even the case of the witness that he had given such names and the police had not written them down. Under the circumstances, when the statement of the witness had been recorded at the relevant time in the year 2002 and the witness had not disclosed the names of the two accused and the role played by them, it would be too hazardous to rely upon his testimony for proving the charge against accused No.41 Manoj Sindhi and accused No.20 Kishan Korani, more so, when no explanation worth the name has come forth as to why the witness had not named these accused at the relevant time.

186.31 Considering the manner in which the deaths and injuries in the firing that took place on the road are sought to be attributed to private parties at the stage of recording of statements by the SIT, there appears to be a concerted effort to attribute the deaths and injuries to private parties to exonerate the police.

186.32 This witness is not a credible and truthful witness and no part of his evidence can be relied upon.

187. **PW-205 Zarinabanu Naeemuddin Shaikh**, aged

30 years, has been examined at Exhibit-1434. This witness has deposed that since the last two years, she is residing at *Kalyanwad*. In the year 2002, she was residing at *Lane No.3, Hussainnagar, Naroda Patiya*. She got married two years prior to 2002. Since the time of her marriage, she was residing at the above address. At the relevant time, her mother-in-law, her father-in-law, her husband, her daughter, her sister-in-law, sister-in-law's daughter, brother-in-law, brother-in-law's wife and their daughter, all were residing with them.

187.1 The incident took place on 28.2.2002. On that day, there was a call for Gujarat Bandh. On the day of the incident, she was at home in the morning. Her husband had gone for selling his bakery items at 6 o'clock in the morning. He returned at about 8:00 to 8:30 in the morning after making his rounds. On that day, after her husband returned home, she made tea and after having tea, her husband went out of the house and she was doing household chores.

187.2 Her husband returned home in just half an hour in a very anxious condition and informed her that there was a very huge mob outside. Upon his saying so, her mother-in-law said that they should all get together and read the Quran Sharif to save themselves. Whereupon, they all sat down to read the Quran Sharif. At that time, there was commotion outside and they heard shouts that huge mobs were coming inside their chawls. All of them were very frightened and the entire family shut their house, locked it and ran towards the khada (pit). They ran towards the khada and they took shelter in a house at the khada.

187.3 Thereafter, they could hear a lot of voices at the khada, and hence, they went out from there to a house with a concrete terrace and sat inside. There were many people sitting in that house and their family also went and sat there.

187.4 At this time, a lot of commotion like bursting of cylinders, etc., could be heard in that house. Since there was a lot of commotion and sounds of disturbances, they went from the terrace into a Hindu society. All their family members went there. At this place, there was a huge closed godown and many people were already sitting there. They also went and quietly sat there till the evening.

187.5 In the evening, somebody told them that a police vehicle had come outside to take them and that they are now safe, and hence, they may go. All those who were sitting inside, went towards the open ground. There was no police vehicle there and hence, all of them were very frightened. There was a very huge mob of Hindus which was armed with weapons like hockey sticks and swords. All of them were extremely frightened. The mob was running towards them. At this time, her husband told all of them that they should all go towards the S.R.P. and that since he does his business there, they would let them go inside. Upon his saying so, all of them went towards the S.R.P. Quarters.

187.6 They were not permitted to enter the S.R.P. Quarters, and hence, they were all very frightened and her mother-in-law said *"There is death here also and death there also, so, let us go to our houses and die there"* From the S.R.P. Quarters, they were coming towards the main entrance road.

There was a mob behind them which was burning everything. In the front also, there was a mob with weapons and behind them was a mob which was burning everything and both the mobs became one. Both the mobs surrounded them. Where they were surrounded, there was a passage of a water tank, where the members of the mob were sprinkling kerosene on them and burning them and assaulting them.

187.7 The people in the mob were pouring kerosene and burning all the people. They were pelting stones and were beating with sticks. Even the persons who were burnt were beaten with sticks.

187.8 At this time, several Muslim youths jumped over the wall and fled. She herself jumped over the wall and fled. Since her daughter was only one year old, she was worried about her, and hence, she handed over her daughter to one of the boys who were fleeing. She herself was very scared because she had seen people being burnt.

187.9 When she jumped over the wall, the persons who had jumped the wall earlier were not there. She did not know the area of the chawls, and hence, she came back to the place where the mob was burning everyone. At this time, four persons from the mob came and caught her. She was trying to flee, however, they had caught her. When she was separated from her family members, they were behind the wall which she had jumped over.

187.10 The four persons who had caught hold of her had hockey sticks, swords and pipe etc. in their hands. These four

people caught her and inflicted a blow with sword on her left hand. Thereafter, they also inflicted a blow with a sword on her right hand. They struck a sword near her arm on her shoulder due to which, her left hand was dangling. These people also struck her with the sword on her right hand on the side of her back. Thereafter, they also inflicted a blow with a sword on her head. They also hit her on her head with a hockey stick and pipe. Thereafter, they tore off her garments and threw her on the ground.

187.11 Upon her falling down, the person who had a sword in his hand, tried to break the string of her pajama with the sword. He cut the string with the sword. She tried to protect herself from the attack whereupon the second and third fingers of her right hand were injured where she has received three stitches. They had stripped her naked. At this time, the person with the sword took off his pant and physically forced himself upon her. He had lain on her. They had beaten her severely, and hence, she was not in a position to protect herself.

187.12 Thereafter, another person out of the four also did the same and had physical relations with her forcibly. Thereafter, she became unconscious and does not know what happened thereafter. Later on, she regained consciousness at the hospital. When she regained consciousness, she was at the Vadilal Hospital.

187.13 The witness has stated that she does not know as to for how many days she stayed at the V. S. Hospital. From the V. S. Hospital, she had gone to the Shah Alam camp. Her

husband was also at the Shah Alam camp. He also had sustained burn injuries on the backside of his body.

187.14 She does not remember whether the police had recorded her statement.

187.15 The witness has deposed that she can identify all the four persons by their faces, but she does not know their names. The witness has thereafter tried to identify the accused, but did not succeed. Therefore, the witness has not been able to identify any of the accused persons.

187.16 The witness has further deposed that in this incident, her mother-in-law Abedabibi, her sister-in-law Saidabanu, her sister-in-law's daughter Gulnazbanu, her sister-in-law's husband Mahammadyunus and her brother-in-law's two sons, viz., Wasim and Salim, all died in the incident. On the day of the incident, all of them were with her till she got separated from them.

187.17 CROSS EXAMINATION: In her cross-examination the witness has stated that she does not remember whether her statements are recorded by the police on 1.3.2002 and 7.3.2002.

187.18 The witness has denied that in her statement dated 1.3.2002, she has stated that on 28.2.2002 communal riots had erupted in Ahmedabad city due to which, in the evening at 7 o'clock mobs of people charged inside and set the houses in Jawannagar and hutments on fire, due to which pandemonium prevailed amongst the people; in the meanwhile the mob of

people got incited and set their houses on fire and upon her house catching fire, he had started running away; in the meanwhile some unknown persons from the mob inflicted a blow on his head with a sharp-edged weapon and he started bleeding from the head and all the people in Jawannagar hutments were running helter skelter and to protect himself he had gone away from there and upon finding his relatives, he had gone to Shah Alam; thereafter, as his head was aching and he was injured, he was given treatment and was admitted in Ward No.6 and at present he was under treatment and he does not know as to who had injured him with a sharp-edged weapon.

187.19 [It may be noted that though the witness is a woman, the statement recorded appears to relate to a male person. It may also be noted that this statement dated 01.03.2002 was recorded by Shri Katara (deceased) and is, therefore, sought to be proved through the evidence of PW-274 Shri Kerman Khurshid Mysorewala. Since the entire statement appears to have been given by a male person, it evidently cannot be the statement of this witness. The witness is, therefore, wholly justified in stating that her statement was not recorded on 1.3.2002.]

187.20 In her further cross-examination, the witness has stated that she does not remember that in her statement dated 7.3.2002 she has stated that she has a daughter, named, Faujia, who is one year old. She has stated that in her statement dated 7.3.2002, she has not stated that in the context of the incident that took place at Godhra there was a call for Gujarat Bandh, and hence, she, her husband and her

family members were present at home. At that time, at around 11:00 to 11:30 a huge mob of numerous people came to Saijpur Patiya and the people in the mob started shouting and pelting stones, due to which, the police had lobbed teargas shells and resorted to firing, despite which the mob had not dispersed and had pelted stones and damaged houses and set them on fire, due to which they were afraid and started fleeing. At this time the mob surrounded them from all four sides and upon assaulting her with weapons, she had sustained injuries on her head and on both of her shoulders and some people from the mob had sprinkled kerosene and ignited a fire and she had saved her life and hidden herself and upon the police vehicles coming at night they were taken to the Shah Alam Camp and there, her brother-in-law Mehboob Sultan Ibrahimhai brought her for treatment to the V.S. Hospital and she was admitted in Ward No.5. Her husband had also sustained burns and he was admitted in the Civil Hospital and she had come to know that her mother-in-law Abeda, aged 50 years, her sister-in-law Sayeeda, aged 27 years, her brother-in-law Mohammed Yunus, aged 28 years as well as her brother-in-law's sons Wasim, aged 8 years and Salim, aged 4 years had died and her sister-in-law Sayeeda's daughter, named, Nagma had also died and the mob had set her house on fire and damaged it and she did not know, who the people in the mob were and where they reside.

187.21 [Insofar as the statement dated 7.3.2002 is concerned, the same is recorded by PW-276 Shri P.U. Solanki at the V.S. Hospital, wherein he has recorded the statement as referred to hereinabove. It is a matter of deep concern and is required to be taken serious note that this officer has recorded

statements of PW-145 Shahnawazkhan Abbaskhan Pathan, PW-152 Parveenbanu Salambhai Qureshi, PW-154 Ahemadbadshah Mehboobhussain, PW-156 Abdul Majid Mohammed Usman Shaikh, PW-167 Mohammed Hussain Kayumbhai Shaikh and this witness PW-205 Zarinabanu Naeemuddin Shaikh. During the cross-examination of the officer, the police statement of each of the above witnesses, as recorded by him, has been brought on record. On a conjoint reading of the statements of all the above witnesses, it is found that the statements are identically worded, except the names, addresses and particulars of family members as well as names of family members, who are injured or who have died in the incident and injuries sustained by the witnesses. The main part of statements of each witness is absolutely identically worded. Evidently, therefore, this officer appears to have written down the statements as per his own whims and has not written down what is stated by the witnesses. Such statements, therefore, cannot be said to be statements of the concerned witnesses and no part of such statements can therefore, be used to contradict the witnesses.]

187.22 [It may also be noted that in the statement dated 1.3.2002, the address of the witness is shown to be Jawannagar, whereas in her statement dated 7.3.2002 she is shown to be residing at Hussainnagar, which further gives reason to believe that the statement dated 1.3.2002 is not the statement of this witness, who at the relevant time, was residing at Hussainnagar.

187.23 The contents of paragraph 3 of the examination-in-chief of the witness from the third line to the last line are read

over to the witness to the effect that she has not stated such facts in either of her police statements. The witness has stated that it is true that she has not stated such facts in her police statements because the police have never recorded her statements.

187.24 The witness is read over the contents of paragraphs 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15 and 18 of her examination-in-chief. The witness has admitted that these facts are not stated in her police statement for the reason that the police have not recorded any statement of hers. The contents of paragraph 13 of her examination-in-chief are read over to the witness to the effect that she has not stated such facts in both of her police statements. It appears that in her statement dated 7.3.2002, the witness has stated that she has sustained injuries by weapons on both of her hands and on her head.

187.25 In the cross-examination of this witness it has come out that when she was taken to the hospital she was unconscious. She does not know as to when she regained her consciousness after coming to the hospital. She does not remember whether she had any talk with the doctor at the hospital. The witness has stated that she does not remember that she had told the doctor that she was injured with sharp-edged weapons in communal riots and was injured and that she had not informed the doctor regarding the fact that she was sexually assaulted. The witness has admitted that she has not stated the fact regarding being sexually assaulted to the doctor and has voluntarily stated that after the incident took place, she was so terrified that even at the camp she had told her husband only after a few days and except for that she had

not stated this fact to anyone.

187.26 The witness has stated that she does not know as to how many people were with her when she jumped over the wall and fled. The witness has denied that when she jumped over the wall, no one was with her. She has admitted that the people who were with her jumped over the wall and fled. The witness has admitted that on that day when the incident took place near the water tank, she did not know the persons who were there at the time of the incident. The witness has clarified that she knew her family members, who were there. The witness has admitted that her husband and sister-in-law were also on the side where the mob was burning every one. The witness has stated that she does not know as to in which society the house on terrace of which they took shelter, is situated. The witness has stated that she does not know how many people were there in the house and has voluntarily stated that there were a large number of people, but she cannot give the exact number.

187.27 The witness has admitted that house with the terrace and godown were both different buildings. The godown was in a Hindu society. Her husband was told about this fact. The witness has stated that she cannot say how many rooms were there in the godown as well as how many doors and windows it had. The witness has stated that all that she can say is that she was so terrified that she had not observed such facts.

187.28 In her cross-examination, it has come out that the godown did not have a door, but had a shutter. The shutter

was half open and half close. The witness has stated that she cannot say that the shutter was in such a position that people from outside could not see them, whereas they could see the people who were outside. The witness has stated that she was sitting inside at the absolute rear end.

187.29 The witness has denied that only those facts stated by her in her police statement dated 1.3.2002 and 7.3.2002 are correct and all other facts are not true. The witness has denied that she was falsely deposing before the court at the instance of leaders of their community and that no incidents have taken place as deposed by her in her examination-in-chief.

187.30 To prove the omissions and contradictions in her previous statements recorded by the police, the defence has cross-examined the concerned Investigating Officer/the assignee officer of the concerned Investigating Officer.

187.31 In the cross-examination of PW-274 Shri K. K. Mysorewala, the contents of paragraphs 4 to 12 as well as 14 and 15 of the examination-in-chief of this witness are read over to him and he has admitted that such facts have not been stated by the witness in her statement dated 1.3.2002 recorded by Shri Katara.

187.32 Insofar as the statement dated 7.3.2002 is concerned, PW-276 has stated that he had recorded a statement of this witness on 7.3.2002 at the V.S. Hospital. However, as discussed hereinabove, the statements of six witnesses recorded by him are identically worded except for

the names of the witnesses, the names of their family members and details about the injuries sustained by them. The statement of this witness recorded by the assignee officer, which has been brought on record in the cross-examination of the assignee officer, reads thus:

“.....upon asking me in person, I am stating that I am residing at the above referred address with my family and am doing household work. I have a daughter Foziya, who is one year old who is presently with me.....” “..... on 28.02.2002, in the context of the incident that had taken place at Godhra, there was a call for Gujarat Bandh, I, my husband as well as members of my family were present at home. At that time, at around 11:00 to 11:30 in the morning, a huge mob of numerous people had come to Saijpur Patiya and the people in the mob started shouting and pelting stones, due to which, the police had released tear gas shells and had resorted to firing, despite which the mob had not dispersed and had started pelting stones and damaging the houses and setting them on fire due to which, we were frightened and started running away and at this time, the mob had surrounded us from all four sides and were assaulting us with weapons and I have sustained injury on my head as well as on both my shoulders and certain people in the mob were sprinkling kerosene on certain persons and burning them and I had saved my life and hid myself and at night, upon the police vehicle coming, we were taken to the Shah Alam camp, and there, my brother-in-law Maheboobsultan Ibrahimbhai had brought me for treatment at the V.S. Hospital and admitted me in Ward No.5 and my husband is also burnt and is admitted in the burns ward in

the Civil Hospital and I have come to know that my mother-in-law Abeda, age 50 years, sister-in-law Saida, age 27 years, as well as my brother-in-law Mahammadyunus, age 28 and my brother-in-law's sons Wasim, age 8 years and Salim, age 4 years, have died and my sister-in-law's daughter Nagma, age 7 years has also died and the people in the mob have set our house on fire and damaged it and that I do not know who the people in the mob were, I could not recognize them and I do not know where they are residing."

187.33 For easy reference, the statement recorded by the assignee officer in the case of PW 156 Abdulmajid Mahammadusman Shaikh, which has been brought on record in his cross examination is reproduced herein below:

"... on 28.02.2002, in connection with the incident that had taken place at Godhra city, there was a call for Gujarat Bandh and I was present at home and my family members were also at home. At that time, a very huge mob of numerous people had come from Saijpur Patiya and the people in the mob started shouting and pelting stones. To disperse this mob the police had released tear gas shells and resorted to firing, but the mob had not dispersed and had pelted stones and damaged the houses and had started setting them on fire and upon seeing the mob, we started fleeing, however, people having come from all four sides, we were surrounded and the people in the mob pelted stones and sprinkled petrol and started setting on fire, wherein my son Yasin, aged 8 years had sustained burn injuries in varying degrees on both his hands and legs, and I too was

injured on my head with a stone and the people from the chawl were also burnt and in the stampede by the people, my family members got separated somewhere and to protect my life, I hid in the chawl and upon the policemen coming at night, I and my son and other people were taken in a police vehicle to Shah Alam."

187.34 Evidently, therefore, this officer appears to have written down the statements as per his own whims and has not written down what is stated by the witnesses, which lends credence to the stand of the witnesses that the police had not recorded their statements as stated by them, but had written them down on their own, because it is not possible for each of the witnesses whose statements were recorded separately, to have given statements which were more or less identical to each other. Such statements therefore, cannot be said to be statements of the concerned witnesses and no part of such statement can therefore, be used to contradict the witness.

187.35 SUBMISSIONS: The learned counsel for the appellants invited the attention of the court to the omissions in the deposition of the witness to point out that the facts stated by the witness in paragraphs 4 to 12, 14 and 15 have not been stated by the witness in either of her police statements dated 1.3.2002 and 7.3.2002. The attention of the court was invited to the cross-examination of PW-274 and PW-276 to submit that the contradictions brought out in the cross-examination of the witness have been duly proved through the testimonies of the concerned investigating officers. It was submitted that while this witness has stated that she was raped by the accused, the medical record speaks otherwise. Reference was made to the

medical certificate of this witness at Exhibit 544, to submit that though injuries are noted, when the witness was treated for these injuries, there is no history or injury found with respect to the allegation of commission of rape, and in view of the omissions about such allegations in both of her police statements, particularly when no statement has been recorded by the SIT, such allegations find place in the deposition for the first time, which leads to two conclusions; firstly, that the witness has improved her version before the court for the first time on very vital and material facts and come out with an added story of alleged rape; and secondly, that such a story stated by PW-106 Farzana Ayubkhan Pathan about Zarinabanu having been stripped and raped appears to be a pre-concerted story, tutored by somebody, otherwise it would have not found place in the deposition of both the witnesses on the same facts. Reference was made to the testimony of PW-84 Dr. Ajay Krishnan to point out that part of the story containing serious allegations does not find support from the statements recorded by the Investigating Officers, by the history recorded by the doctor as well as the deposition of the doctor inasmuch as no corresponding injuries were found. It was submitted that this part of the story is a tutored one, stated before the court to give colour of seriousness and to state facts which have not taken place. It was submitted that it was not possible to commit such an offence. There were large number of people and they could not see anyone's hands, whether in such a crowd, such an incident is possible. Therefore, insofar as the charge of gang-rape is concerned, on the face of it, it is not possible to happen and is not stated either in the history before the doctor or before the Executive Magistrate while recording her dying declaration, and while stating the facts, no

names of the culprits are given in such history or before the Executive Magistrate. It was submitted that when in either of the police statements of PW-106 or this witness, such facts have not been stated and there is no statement of this witness recorded by the SIT, whether the allegations made for the first time before the court should be taken as true to bring home the charge against the named or unnamed persons.

187.36 ANALYSIS: From the testimony of this witness, it emerges that she had been married just two years prior to the incident and had a one year old daughter. Two statements of this witness are stated to have been recorded by the police, one on 1.3.2002 and the other on 7.3.2002. It is the case of the witness that she does not remember any statement of hers having been recorded by the police. As discussed hereinabove, insofar as the statement dated 1.3.2002 is concerned, the contents whereof have been brought on record in the cross-examination of this witness as well as in the cross-examination of Shri K.K. Mysorewala, the same relates to a male person. Therefore, such statement certainly cannot be attributed to the witness. The question of contradicting the testimony of the witness as to the statement dated 1.3.2002, therefore, would not arise. Insofar as the second statement dated 7.3.2002, is concerned, as noted hereinabove, the assignee officer has recorded identical statements of all the witnesses whose statements he has recorded at the V.S. Hospital, which means that the exact version given by the witnesses has not been recorded by him. In the case of this witness she does not remember that any statement of her's was recorded by the police.

187.37 It may be noted that this witness is an injured witness who has sustained serious injuries. The medical case papers reveal that she is twenty five years old and has given history of assault injury by sharp instruments in communal riots. In the entries made in the progress and treatment sheet on 28.2.2002, it has been inter alia recorded thus: "*R/W/O to HS Reg on (E) duty to examine this patient with head-injury with loss of consciousness*".

187.38 The injury certificate dated 2.4.2002 issued by the Sheth Vadilal Sarabhai General Hospital shows history of "*beaten in communal riots, injury over both shoulders and head*".

187.39 PW-84 Dr. Ajay Krishnanan has deposed that on 1.3.2002 he had occasion to treat the witness. He has stated that the witness was admitted in the hospital and was discharged on 18.3.2002. The Medical Officer has deposed that the witness had transverse contused lacerated wound upto bone deep on the left shoulder measuring 15 x 10 cms. On the right shoulder, there was a CLW skin deep superficial upto muscle depth on the posterior aspect of supraclavicular fossa measuring 8 x 3 x 2 cms. There was a 1 cm entry wound, 7 cms above left nipple. All four injuries had been referred to the concerned Departments of Cardio Thorasic Surgery, Neuro Surgery, Plastic Surgery and Radiology Department. The X-ray reports reveal that there was a fracture of lateral end of left clavical and fracture of upper end of left humerus. The Medical Officer has proved the injury certificate Exhibit-544. The Medical Officer has also proved the medical case papers Exhibit-546. In his cross-examination, he has admitted that the

kind of injuries sustained by Zarinabanu on both the shoulders, are possible if the blunt side of the sword is used with force. Considering the testimony of the Medical Officer together with the injury certificate issued by him, it is found that the injuries sustained by the witness match with the deposition given by her.

187.40 Thus, the witness has sustained serious head injuries and the medical case papers indicate loss of consciousness. In her cross-examination (paragraph 28), the witness has stated that when she was taken to the hospital she was unconscious and she is not aware as to when she regained consciousness. Having regard to the injuries sustained by the witness, it is difficult to believe that she would have been in a position to give her statement on next day of the incident, viz. 1st March, 2002.

187.41 The witness has not implicated any accused but has merely narrated the incidents that had taken place. Insofar as the allegation of gang rape is concerned, it has been contended that the medical case papers do not disclose the witness having been raped. The witness in her cross-examination has admitted that she has not disclosed this fact to the doctors and has stated that she was so terrified because of the incident that it was only a few days after going to the camp that she had told her husband about it and except for him she had not disclosed this fact to anyone. In this regard it may be pertinent to note that the witness was twenty years old at that time and had been married just two years prior to the incident. Considering the fact that in our society by and large greater stigma is attached to the victim rather than to the

rapist, it is not surprising that the witness, having regard to her age and marital status, has not disclosed such fact to the doctors who had treated her at the V.S. Hospital. Consequently, she has not been medically examined to verify the aspect of rape, and hence, the medical case papers do not disclose that she was raped. It appears that it was only a few days after returning to the camp that the witness was able to muster sufficient courage to disclose such fact to her husband. In these circumstances, non disclosure of the fact that she was raped to the doctors, is no reason to disbelieve the witness when she has come forward to say that she was in fact raped, more so, when she does not implicate anyone in the offence. The witness has stated that she could identify the culprits by their faces, but has not been able to identify them due to lapse of time. Therefore, the witness cannot be attributed any intention of wanting to falsely implicate any accused. The contention that it was not possible to rape anyone having regard to the fact that there were a large number of people there deserves to be stated only to be rejected, inasmuch as there is ample evidence on record to establish that victims were stripped and raped. A perusal of the inquest panchnamas of the deceased reveal that even in case of some of the female victims who have sustained injuries with weapons and have not sustained burn injuries, they are found to be naked, which supports the prosecution case that the women and girls were in fact stripped by the mob.

187.42 On a perusal of the testimony of the witness, she comes across as a credible and trustworthy witness and no part of her testimony is required to be discarded. Though the witness has not named or identified any accused, her version

of the manner in which the incident took place can be taken into account.

188. **PW-206 Jetunbibi Aslam Shaikh**, aged 30 years, has been examined at Exhibit-1440. This witness has deposed that she is residing at *Jawannagar* since the last fifteen years with her husband and her two children. In the year 2002, she used to work in a thread factory in the bungalow area next to Noorani Masjid. Her husband also used to work in the thread factory.

188.1 The incident took place on 28.2.2002. On that day, there was a call for Gujarat bandh.

188.2 On the day of the incident, her son had gone to the madressa at Hussainnagar at 8 o'clock in the morning. She had gone to pick him up. On that day in the morning, her husband was at home. When she went to take her son, at that time, stone throwing and setting the houses on fire had started on the road. All this was happening on the road opposite the Noorani Masjid. Hindu people were throwing and breaking and they were burning everything.

188.3 At this time, the police had released tear gas. Thereafter, she took her son and was frightened and hence, went home. She went home and told her husband that there was stone pelting outside. Thereafter, her husband told her that people have gathered at Lane No.4, Jawannagar, and that they should go and sit there. They and their two children went from their house leaving it as it was and went towards the S.R.P. Quarters.

188.4 They requested the S.R.P. people to let them go inside, however, they did not permit them to go in. They returned to Gangotri Society. Her husband felt that they might get some help at Gangotri and would be saved and hence, they had all gone to Gangotri Society. In this manner, it was 6 o'clock in the evening.

188.5 At around 6 o'clock in the evening, they were surrounded in Gangotri Society. There was pushing and pulling there. The Muslims were there around them. They wanted to move but they could not move. At this time, somebody struck her on her back on the left side and somebody also beat her on the head due to which she was injured on the head and her back, as a result whereof, she fell on the ground and became unconscious.

188.6 She was beaten with something like an iron pipe. When she was unconscious, somebody must have taken her to the hospital. Somebody had admitted her to the Civil Hospital. She regained consciousness at the Civil Hospital. It was then that she came to know that somebody had brought her to the Civil Hospital.

188.7 When they were surrounded, then on that day in the evening, she had got separated from her husband and children. She was treated at the Civil Hospital for four to five days.

188.8 From the hospital, she went to the Shah Alam camp, where she met her husband and children.

188.9 Her elder brother-in-law Samadbhai took her from the camp to Solapur. He took all of them to Solapur as her matrimonial home was at Solapur, Maharashtra. They stayed at Solapur for four to five months after which, she came back to her house at Jawannagar.

188.10 All the household goods from her house had gone in the incident. She had sustained loss of sixty to seventy thousand rupees. All her household goods were scattered her and there and some of the goods were missing. Except for her, no one in her family was injured.

188.11 She does not know any one who was there in the mob at the time of the incident. Four or five years after she returned home from Solapur, the police had recorded her statement. In all, two statements of hers were recorded.

188.12 CROSS EXAMINATION: In her cross-examination, the witness has denied that the facts stated by her regarding having gone to fetch her son from madressa at 8:00 in the morning and the incidents that took place at that time as stated by her in paragraphs 5 and 6 of the examination-in-chief have not been stated by her in her police statement. The witness has stated that she has stated these facts before police, but she does not know whether they had recorded the same or not as she does not know how to read and she is illiterate. The contents of paragraphs 7 and 8 of her examination-in-chief are read over to the witness to the effect that she has not stated such facts in her statement recorded by the police. The witness has denied that before the police

she has not stated that she was injured in Gangotri Society, but has stated that she was injured in Jawannagar.

188.13 The witness is confronted with her statement recorded by police on 3.11.2006 to the effect that before the police were releasing teargas and firing and has stated that what she wants to say is that the police was actually releasing teargas and firing at them. The witness has admitted that in her police statement she has stated that the mob was very huge and did not disperse and had started damaging, looting and setting the houses on fire and upon seeing the huge mob they took their children and started fleeing. The witness has further admitted that she has stated that however, the mob came from all the four sides and they were surrounded and from the people in the mob some one injured her on the head with stick or pipe or chain and she started bleeding and felt dizzy. The witness has stated that she had narrated all these facts in connection with the incident that took place in the evening at 6:00 at Gangotri Society. The witness has denied that she has stated that while she was going in front of her house she had fallen down. The witness has admitted that in her statement she has stated that she was injured on her back with something and her husband had taken her children and has gone away, due to which they got separated. She was taken to the Civil Hospital for treatment where she was given treatment for four days and upon being discharged from hospital she was taken to the Shah Alam Relief Camp in a police vehicle, where she found her husband and children, who were not injured. The witness has denied that in her statement dated 7.1.2007, the facts relating to her statement dated 3.11.2006 as stated by her, were read over to her, and has

stated that whatever she has stated in her examination-in-chief and cross examination as having been stated by her were stated by her before the police.

188.14 In her cross-examination, certain contradictions are sought to be brought out as to her police statements dated 3.11.2006 and 7.1.2007, which the witness has denied. The contradictions are thereafter proved through the testimonies of the concerned police officer. The witness has stated that she had stated those facts to the police, but she does not know whether they had written them down or not as she is an illiterate and does not know how to read. She has denied that in her police statement, she has not stated that she was injured at Gangotri Society, but she was injured at Jawannagar. In the cross-examination of this witness, almost her entire police statement has been brought on record.

188.15 To prove the omissions and contradictions as to the previous statement of this witness, the defence has cross-examined PW-313 Shri H.R. Muliya, the Investigating Officer who had recorded such statement. The Investigating Officer, in his cross-examination, has admitted that he has recorded the statement of this witness on 7.1.2007. The contents of paragraphs 5, 6 and 7 of the examination-in-chief of the witness are read over to the Investigating Officer, who has denied that the contents of paragraph 5 of the examination-in-chief have not been stated by the witness. The Investigating Officer has stated that the witness has stated all the facts stated by her in paragraph 5 of her examination-in-chief, except that she had gone to the madressa at Hussainnagar. He has denied that the witness has not stated the facts stated by

her in paragraph 5 of her examination in chief. He has admitted that the witness has not stated the facts stated in paragraph 7 of her examination-in-chief. The contents of para 8 of the examination-in-chief are read over to the Investigating Officer, who has admitted that the witness has not stated any fact regarding being surrounded at Gangotri Society and having been injured. The Investigating Officer has stated that he does not remember as to whether the prior statement of the witness was read over to her. He has admitted that the witness in her statement dated 7.1.2007 had stated that on 28.2.2002 as there was a call for Gujarat Bandh in the context of the incident that had taken place at Godhra, she and her husband had not gone for their jobs and she was present at home with her family. At that time at around 11:00 to 11.30, a huge mob of people had come and the people in the mob started shouting and pelting stones and throwing burning rags, due to which, the police lobbed teargas shells at the people in the mob and also resorted to firing. However, the mob being very huge did not disperse and started damaging houses and started burning them. Upon seeing the huge mob, their family members, children, her husband all started fleeing. However, they were surrounded on all four sides by the mob. Out of the people in the mob, some one injured her on the head with a stick or pipe and blood started oozing and she felt dizzy and had fallen down in front of her house in Jawannagar and she was also injured on her back. Her husband had taken her children and gone. Thereafter, they all got separated. Thereafter, upon the police coming, she was taken for treatment to the Civil Hospital where she was given treatment for four days. After she was discharged from the hospital, she had gone to the Shah Alam relief camp where she found her

husband and children. She had taken treatment at the camp also. Thereafter, her elder brother-in-law Samadbhai who resides at Solapur in Maharashtra had come to the camp and had taken her, her husband and children to Solapur. They had stayed there for about four to five months and upon the situation becoming peaceful, they had returned to Ahmedabad and upon going to her house in Jawannagar, she found that people had already looted all the household goods and ornaments etc. and she had suffered loss of around Rs.60,000/-. Her husband and children were not injured. She does not know as to who the people in the mob were and where they were staying. Since she was injured on the head and had felt dizzy and fallen down, she could not recognise anyone. The Investigating Officer has admitted that this witness has not named any accused in the statement recorded by him.

188.16 The contents of paragraphs 5, 6 and 7 of the examination-in-chief of this witness are read over to the Investigating Officer, who has denied that the witness has not stated the facts stated by her in paragraph 5 of her examination-in-chief. The Investigating Officer has stated that the witness has not stated that she had gone to madressa at Hussainnagar to pick up her son. However, the rest of the facts have been stated by the witness. The Investigating Officer has also denied that the witness has not stated all the facts stated by her in paragraph 6 of her examination-in-chief and has stated that the witness had stated before him that the police had lobbed teargas shells and resorted to firing but the mob being huge did not disperse and had started setting houses on fire and that her husband took their children and they all

started running away. However, the other facts have not been stated by her. The Investigating Officer has admitted that the contents of paragraph 7 of her examination-in-chief have not been stated by this witness in the statement recorded by him.

188.17 The Investigating Officer has admitted that this witness in the statement recorded by him has not stated that at around 6 o'clock in the evening they were surrounded in Gangotri Society and that the witness was injured on the head and back at Gangotri Society. However, the witness has stated that she was injured on the head with a stick or pipe or chain and blood was oozing out .. and that she had sustained injury on her back by something. That she had only not stated that the place where she was injured was Gangotri Society. The Investigating Officer has admitted that this witness had stated before him that, therefore, the police had lobbed teargas shells at the people in the mob and had resorted to firing; while going further from her house at Jawannagar she had fallen down.

188.18 SUBMISSIONS : The learned counsel for the appellants submitted that this witness has not named any accused including the local residents in the mob, particularly, the accused persons, who are named by other accused which indicates that the local accused were not involved in the incident of the evening.

188.19 ANALYSIS: On a perusal of the testimony of this witness, it appears that certain part of her examination-in-chief is sought to be contradicted as to her previous statement recorded by the police. However, none of the omissions which

are sought to be brought on record, can be said to be omissions in the nature of contradictions, and hence, the trial court ought not to have permitted the witness to be contradicted in this manner.

188.20 Another fact which needs to be taken note of is that almost the entire police statement of the witness is sought to be brought on record in her cross-examination without reference to any specific contradiction qua her police statement. This practice of permitting the extracts of police statement of a witness to be brought on record though the same are not in the nature of contradictions, is not legally permissible, but has been allowed by the trial court in case of many witnesses. In the opinion of this court, the trial court ought to have restrained the learned counsel for the defence from bringing on record such inadmissible evidence.

188.21 This witness is an injured witness. However, she has not been able to identify her assailants and has not named any accused. Her testimony, therefore, does not assist the prosecution in proving the charge against any of the accused.

189. **PW-207 Basirahemad Mahammadyusuf Shaikh**, aged 55 years, has been examined at Exhibit-1449. This witness has deposed that he was residing at *Kumbhaji-ni-Chali* since about thirty to forty years prior thereto. The witness has deposed that at the time of the communal riots in the year 2002 also, he was residing in this house. At the relevant time, he was residing with his family. At that time, he used to serve in a moulding factory which was situated at Memco in the Naroda area. His service hours were from 8

o'clock in the morning till 4:30 in the evening.

189.1 The incident took place on 28.2.2002. On that day, there was a call for Gujarat bandh, and hence, he had not gone for his job. On the day of the incident, in the morning at 9 o'clock, a mob of twenty thousand to twenty-five thousand came from somewhere and entered their chawl. The mob started assaulting and pelting stones. He did not know as to where his wife and children had gone in this incident. He alone, with a view to save his life, he had gone towards the gate of the S.R.P. Quarters but was not permitted to go inside. At 10:00 to 11:00 in the morning, he came towards Gangotri Society. After he came back to Gangotri Society, the people in the mob had beaten him on the back with sticks and he became unconscious and fell down there.

189.2 Thereafter, the police vehicle came at 11 o'clock at night and took them to the Civil Hospital. At the Civil Hospital, since he was not given proper treatment, in his anxiety, he had left the hospital and gone away. He went from the Civil Hospital to the Shah Alam camp, where he found his wife and children. After staying at the Shah Alam camp for eight to ten days, he had gone to Dariyakhan Ghummat camp. He stayed at Dariyakhan Ghummat camp for two to three months and thereafter, returned home at Naroda. At the time when he returned home, all his household goods and articles as well as his house had been burnt in the incident. His statement had been recorded twice in connection with the incident. The injury certificate of this witness has been brought on record at Exhibit-334. The witness has deposed that he is also known as Gogishekh or Gogi because he is a native of Karnataka and his

village's name is Gogi.

189.3 CROSS EXAMINATION: In the cross-examination of this witness, he has admitted that he does not know as to who inflicted blows on his back with sticks and as to who looted his house and as to who were the people in the mob and that he has not stated any such thing in his statements dated 27.3.2007 and 10.3.2002.

189.4 Various parts of his previous statements recorded by the police are sought to be brought on record through the cross-examination of this witness despite the fact that none of them are in the nature of contradictions and hence, are not admissible in evidence. The trial court, therefore, ought not to have permitted such parts of the police statement of the witness which are not in the nature of contradictions to be put to the witness.

189.5 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

189.6 PW-296 Shri J. V. Surela, the assignee officer in his cross-examination has admitted that he has recorded the statement of this witness on 10.3.2002. The assignee officer has admitted that the witness has not named any accused in the statement recorded by him. The contents of para 4 of the examination-in-chief of the witness, except for the first line, are read over to the assignee officer, who has admitted that such facts have not been stated by the witness in the

statement recorded by him. The assignee officer has admitted that the witness had not stated before him that he was injured at Gangotri Society and that the witness had stated that he was injured in the Jawannagar area.

189.7 PW-313 Shri H.R. Muliya, the Investigating Officer has in his cross-examination admitted that he has recorded the statement of this witness on 27.3.2007. He has admitted that this witness had stated before him that, therefore, he, his wife and his children left their house and started running towards the S.R.P. camp. He took his wife and children and hide near Gangotri Society. In case where in the communal riots, there was a death in any Muslim family, they came to be allotted a house at Faizalpark, Vatva as well as behind Bombay Hotel at Narol by the Muslim community and went to stay there. All the rest of the Muslim families had come back to Naroda Patiya.

189.8 The contents of paragraph 4 from the third line to the last line are read over to the Investigating Officer, wherein the witness has stated that in the morning on the day of the incident he was in his chawl. On that day in the morning at around 9 o'clock, a mob of around twenty to twenty five thousand people came from somewhere. This mob entered their chawl. The mob started assaulting, they were pelting stones. He did not know as where his wife and children had gone to in this incident. He alone to save his life, went towards the gate of the S.R.P. Quarters. He was not permitted to enter S.R.P. Quarters. The Investigating Officer has admitted that this witness has not stated such facts in the statement recorded by him.

189.9 SUBMISSIONS: The learned counsel for the appellants have submitted that though this witness is residing in the area since more than twenty five years, he has not implicated any accused including the local residents of Gangotri and Jawannagar.

189.10 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that though two statements of this witness have been recorded, one by the police on 10.3.2002 and the other on 22.3.2007, the witness has not named any accused, and hence, nothing much turns upon the testimony of this witness, except to the extent that he had witnessed the incident with regard to a mob having gathered at the scene of the offence.

189.11 ANALYSIS : The testimony of this witness is absolutely vague and except for the fact that he was injured in an incident near Gangotri Society, there is nothing in the testimony of this witness, which would help the prosecution to prove the charge against the accused, inasmuch as, the witness has not named any of the accused involved in the incident.

190. **PW-208 Nazirkhan Rahimkhan Pathan**, aged 58 years, has been examined at Exhibit-1453. This witness has deposed that on 5.3.2002, in the morning at about 11 to 12 o'clock, he was called by the police to the postmortem department of the Civil Hospital, at Ahmedabad. The police had called him for drawing a panchnama of the dead body of the deceased person. The police had also called another person as a panch together with him, but he does not know his

name.

190.1 A dead body of a woman was lying on a stretcher in the postmortem room. Her hair was black and her eyes were closed. One hand and one leg of the dead body were bandaged as they were burnt. The dead body was of Kudratbibi Khurshidahemad. This Kudratbibi was residing in the same area as he does, and hence, he knows her.

190.2 A detailed panchnama of the dead body had been drawn in his presence in accordance with law. Hence, after the panchnama was written, he had put on his signature. He had acted as panch No.1 in the panchnama and the other person had also signed as a panch in his presence.

190.3 The witness has deposed that he knows how to read Gujarati and that he has been handed over the inquest panchnama for reading it over, and that after reading it, he has stated that the contents thereof are correct. He has also identified his signature as well as the signature of the other panch. The witness has deposed that the second panch and the police have signed on the panchnama in his presence. The panchnama is exhibited as Exhibit-1454.

190.4 The witness has deposed that on 7.6.2002, in the morning at around 11:00 to 11:30, the police had called him for acting as a panch in another panchnama. This panchnama was of a house. The police had also called another person as a panch along with him. This house was in *Chetandas-ni-Chali*. The house belonged to one Kamrunisha Muradali Baksumiya Shaikh. For going to this house, there was a chawl and there

was a narrow road in the chawl. Upon entering the house, there was a small iron gate. Upon going inside, there was an open space on one side, and a bathroom and a latrine on the other side. Corncobs and other miscellaneous articles were lying scattered in the house.

190.5 The house had a tin sheet roof inside which, there was a black and white T.V., radio, cycle, brass vessels and household articles which were lying scattered in the room. A detailed panchnama was drawn in this regard and he and the other panch had signed on the same. The witness has admitted the contents of the panchnama and has identified his signature as well as the signature of the other panch and the policemen thereon and has stated that they had signed in his presence. The witness has further stated that Kamrunisha who was present at the time when the panchnama was drawn, had stated that a T.V. and other articles were looted from her house, whereas articles recorded in the panchnama were at site.

190.6 The witness has further deposed that he has studied up till M. Com. and that, prior to the year 2003, he used to give private tuitions; whereas since the year 2003, he is working as a teacher in IQRA Primary School. He is working as a Teacher-cum-Manager in this school. At present also, he is working as a teacher in IQRA Primary School.

190.7 Though this witness is only a panch witness and has been examined in connection with two panchnamas which were drawn in his presence, the learned advocates appearing for the accused have cross-examined him in detail in

connection with the incident as well as the applications that were made on behalf of various witnesses. Therefore, despite the fact that the examination-in-chief of this witness runs into eight small paragraphs, his cross-examination runs into seventy-two paragraphs.

190.8 CROSS EXAMINATION: In the cross-examination of this witness it has come out that he has done his M.Com. in Gujarati Medium. He has admitted that he can write and speak English. The witness has admitted that he used to help people at the camp and has voluntarily stated that as part of his duty as a human being he used to help them in whatever manner he could. The witness has denied that on 5.3.2002, he had gone to Civil Hospital because as per news received by him, his wife and daughter had died and he had come to the Civil Hospital to see the dead bodies. The witness has voluntarily stated that thereafter he found his wife and daughter alive at the Shah Alam Camp. It may be noted that the prosecution has examined this witness as a panch witness to prove the inquest panchnama Exhibit 1454 and panchnama Exhibit 1455, which is the panchnama of the house of Kamrunnisa. Despite the fact that this witness is examined only as a panch witness, the defence has extensively cross examined him on various aspects other than panchnamas drawn in his presence. The application made by this witness to the SIT, Mark 644/54 is shown to the witness and he has admitted his signature as well as the contents thereof and the same is exhibited as Exhibit 1456. The witness is also cross-examined with regard to the common application Exhibit 670, wherein he has put his signature at serial No.3. In his cross examination, the witness has admitted that at the camp he used to help the people to

obtain compensation from the Collector as well as to make applications for obtaining loans. The witness is also extensively cross examined with regard to the topography of the area. In his cross examination it has come out that on the day of incident he has not seen Abid or Mushtaq near the Noorani Masjid. The witness has voluntarily stated that he was injured by bullet on his neck and he had seen him near Rashida Momin's house. He has denied that the police had released teargas shells and thereafter resorted to firing to disperse the mobs which had gathered at the Noorani Masjid and the S.T. Workshop. The witness has stated that the police were releasing teargas shells and firing at the Muslim mob. The witness has admitted that he had seen Abid being injured by bullet under a neem tree. He has admitted that he had seen Abid who was injured by bullet under a neem tree and that he had died on the spot. The witness has admitted that he had seen Mustaq Kaladia in a condition where he was injured by a bullet in the neck. He has admitted that he has seen Abid on the next day in the morning. Except for that, he has not seen him for the whole day. The witness has admitted that on the next day in the morning when he was leaving his house, he had seen Abid and his wife in his house. He has admitted that on that day he had a talk with Abid's wife in the morning. She has informed him that Abid was injured by bullet and had died. The witness has admitted that at that time also he had seen Abid in an injured condition. The witness has admitted that when he had left his house, he had not seen Abid in a burnt condition. The witness is shown Exhibit 644, which is list of applications and the witness has identified seven applications which he had written.

190.9 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

190.10 PW-280 B.C. Joshi, the assignee officer has admitted that he has recorded the statement of Shri Nazirkhan Rahimkhan Pathan. The assignee officer has admitted that this witness had stated before him that the communal riots had erupted from the morning itself and majority of the incidents of damaging the houses and shops, looting them and burning by the mob of fifteen to twenty thousand people, were taking place at Naroda Patiya, Hussainnagar, Jawannagar and other areas and out of fear, they had run towards Gangotri Society. The riots continued till afternoon. (This part of the statement is identical to the statement of PW-192 Rashidabanu recorded by this Investigating Officer).

190.11 At the cost of repetition, it may be stated that this witness is only a witness of a panchnama and has not stated any such facts in his examination-in-chief. Therefore, the question of proving what this witness has stated in his statement before the police would not arise. The trial court ought not to have permitted such questions to be put to this witness. However, one thing that emerges on a perusal of this part of the evidence of the assignee officer is that identical statements have been recorded by him in case of different witnesses.

190.12 PW-307 S. S. Chudasama, the Investigating Officer has admitted that he has recorded the statement of this

witness on 6.5.2002. He has admitted that this witness had stated before him that the statement recorded by Shri P. N. Barot was read over to him and was correct and proper as stated by him. In the opinion of this court, this part of the statement of the witness is sought to be proved despite the fact that the same does not bring out any contradiction in the evidence of the witness. Under the circumstances, such question ought not to have been permitted to be put to the witness and this part of the evidence is, therefore, not admissible.

190.13 PW-178 Shri P. N. Barot, the Investigating Officer has admitted that he has recorded the statement of this witness on 19.4.2002. Certain extracts of the police statement of this witness have been put to the Investigating Officer. This witness has been examined as a panch witness and the extracts which have been put to the Investigating Officer have not been used to contradict any part of the primary statement of the witness, and hence, are not admissible in evidence.

190.14 SUBMISSIONS : The learned counsel for the appellants submitted that this witness was present near the Noorani Masjid in the morning, where he saw the mobs, wherein some local residents of Gangotri and Jawannagar are shown as members of the mob, but still he has not implicated any one as accused. Referring to paragraph 72 of his cross-examination, it was pointed out that the witness has admitted that applications made to the SIT of certain persons have been written by him, but the concerned witnesses have denied these facts in their depositions, which also raises a doubt about the truthfulness of those witnesses. It was pointed out

that as deposed by this witness, people were joining the mob which indicates that people had spontaneously gathered there and later on the size of the mob had increased, which indicates that the incident was not pre-planned.

190.15 The attention of the court was invited to the provisions of section 138 of the Evidence Act for the proposition that the cross-examination need not be confined to the facts which the witness has testified in his examination-in-chief.

190.16 ANALYSIS: This witness has been examined by the prosecution as a panch witness of the inquest panchnama of Kudratbibi Khurshidahmed. The witness was also a panch of the panchnama of the house of Kamruddin Muradali Shaikh and has proved both the panchnamas. Insofar as the veracity of the panchnamas is concerned, the defence has not raised any dispute. However, the witness has been examined with regard to the events that took place on the day of the incident as well as the applications made by him on behalf of various witnesses. In the cross-examination of this witness, it has been brought out that he has written down applications for several witnesses. Insofar as the incident is concerned, since the witness has not been examined as an eyewitness, the facts elicited in the cross-examination have no relevance. PW-280 the assignee officer has been cross-examined with regard to the facts deposed by the witness regarding the incident. However, since the witness has not been examined as an eyewitness, no such facts had been stated by him in his examination-in-chief and, therefore, no contradiction could have been proved through the testimony of the assignee

officer.

191. **PW-209 Shabana Bundubhai Kureshi**, aged 28 years, has been examined at Exhibit-1463. This witness has deposed that at present, her father, her three brothers, two sister-in-laws and brother's three children are all residing together. Her mother's name was Zarina. She died in the communal riots. Moreover, her younger sister Naseem also died in the communal riots.

191.1 The incident took place on 28.2.2002. On the day of the incident, there was a call for Gujarat Bandh. On 27.2.2002, she had seen news on the T.V. that in view of a train incident at Godhra, there was a call for bandh on 28.2.2002. In view of such news, the people of their area were frightened and many people stayed awake at night, including her and her mother. She went to sleep very late at night. On 28.2.2002, in the morning, her mother woke her up and told her that a mob had come to Noorani Masjid and was attacking. Upon hearing this, she woke up and went to the terrace of her house. From the terrace of her house, one can see on the road in front. On the road, which goes to Jawannagar where Uday Gas Agency is situated, assault was going on and there was a fire, which she had seen.

191.2 At this time, her mother called them down and hence, she, her sister Rukshana, her sister Naseem and her brother Raja came down, whereupon their mother told them to go to the S.R.P. Quarters. Thereafter, all four of the brother and sisters started going to the S.R.P. Quarters. For the purpose of entering the S.R.P. Quarters, there was a gap in the wall. When

they went there, S.R.P. personnel were present. They requested them to let them go inside, however, they did not permit them to go inside and told them that they would not let them go inside and that they were to die today. Today was the day of their death and that they wanted to see as to how they looked like when they are naked.

191.3 Upon hearing this, her sister Naseem told her that instead of dying at their hands, it would be better that they should go to their own area and die there. Thereafter, they went to Barkatkhalas house, which is situated in the last lane of Jawannagar. All the four brothers and sisters had gone there. However, later on, her mother and others had also come there.

191.4 At Barkatkhalas house there were other Muslims also. She sat down to read the Quran Sharif there. Some person came and told them that Lane No.1 of Jawannagar has been burnt. Gaurikhala's (who is known as as Garui Aapa) house is situated opposite Barkatkhalas house. They climbed on the terrace of her house. From the terrace of Gaurikhala's house, one can go to the terrace of Gangotri Society. In this manner, they had gone to the terrace of Gangotri Society. Thereafter, they climbed down from the terrace of Gangotri Society.

191.5 In Gangotri Society, there was a big hall like a shuttered shop. They went and sat in the hall. Other than them, there were around two hundred to two hundred and fifty Muslims. At that time, it must have been around 2:30 in the afternoon.

191.6 When she set off in the morning, she had not even brushed her teeth and she was very thirsty. She asked a woman standing near Gangotri Society for some water; however, she told her that they would not get water. At this time, her sister Naseem told her that these people will not give her water and asked her to come back. At this time, Jaybhavani came from the opposite side and patted her on her head and told her, "*Niece, I am arranging for food for you*". Thereafter, Naseem took her back to the hall. When she went into the hall, her mother was sleeping and she went and lay down next to her mother.

191.7 Thereafter, on that day in the evening, at around 5:00 to 5:30, Jaybhavani and Manu Bhangi (A-28) came from the opposite side. Both of them stood outside the hall and told them to empty the hall and go towards Teesra Kuva, where vehicles have been arranged for them. Thereafter, they came out of the hall to the road and started going towards Teesra Kuva. There were many other Muslims with them, but she and her mother were right in front.

191.8 She went towards Teesra Kuva and saw that there was a very huge mob there. The persons in the mob had pipes, swords, hockey sticks and sticks etc. in their hands. Thereafter, she told her mother that if they both went in front, the mob would first kill both of them and hence, they turned back.

191.9 While they were coming back, another mob of persons with pipes, swords, hockey sticks, etc. was standing near Gangotri Society and they started assaulting the Muslims

who were left behind them. They were running from Teesra Kuva to Gangotri, while the Gangotri – Gopinath people were coming towards them. At this time, the public started running helter skelter. There is a passage between Gangotri Gopinath Society, where there is a water tank. They all entered in the passage. At this time, all the members of their family got separated. However, when she went into the passage, she, her mother, her sister Naseem and her brother Raja, were together.

191.10 When they entered the passage, the persons in the mob surrounded them from all four sides. In this mob, she had seen Suresh Langda (A-22), Dalpat's son (Pintoo) (A-60), Jaybhavani's son (A-40), Naresh (A-1), Hareh (A-10), Manu (A-28), two sons of Marathi, Vilas (A-53), Jaybhavani, Dalpat and Guddu Chhara and several other people.

191.12 At this time, all the persons she named above were there in the mob on the road in the opposite side of the passage and the said mob had cut a boy named Siddique with a dagger and assaulted him, due to which he was injured on the neck and upon his taveez being cut, it broke and fell. Thereafter, Siddique was assaulted with pipes and he tried to protect himself by putting his hands across his head, all of which she had seen. Thereafter, some inflammable substance like kerosene was poured on Siddique and he was set on fire. Siddique died on the spot.

191.13 After Siddique's incident, she had seen that the people in the mob wherein the people whom she has named were there, they had pulled a girl from Hussainnagar and

taken her away. At this time, upon seeing all this, her sister Naseem, who was standing near her was terrified and fled. Whereupon, these people surrounded her sister and inflicted a pipe blow on her head. Thereafter, they poured kerosene on her and set her on fire and she too died.

191.14 Upon seeing all this, her mother started shouting and running, whereupon, Suresh Langda caught her mother. Suresh Langdo caught her mother and stabbed her on stomach with a gupti. Thereafter, all the persons whom she has named and other people in the mob, together, burnt her mother alive. Her mother also died on the spot.

191.15 At this time, the moment the Muslims who were in the passage came out, the people in the mob were catching them and assaulting and burning them. At this time, the people in the mob must have thought that possibly, the Muslims in the passage may escape and hence, they started assaulting them in the passage itself and started pouring kerosene and burning them all together.

191.16 Upon a fire being kindled, she jumped on a wall in the passage and sat on it, whereupon the persons in the mob pelted stones on her leg. Upon a stone striking her, she fell on the other side of the wall. Upon seeing all this, she was frightened. The people in the mob were hurling very dirty abuses and were burning people and hence, she was afraid. After sitting on the other side of the wall for one or two minutes she came out of the gate which was there and went to a terrace of Gangotri Society.

191.17 At the terrace where she went, there were other Muslims. There were Muslims on three terraces of Gangotri Society. They sat on the terrace till late at night. Thereafter, Samsubhai (PW-202) came to the terrace at night. Samsubhai told them that vehicles have arrived on the road, and hence, they should come with him. They came on the road on foot, and from there, they boarded the vehicles and went to Shah Alam camp.

191.18 She stayed at the Shah Alam camp for around six months. About two and half months after the incident, the police had recorded her statement. She had narrated all the facts before the police.

191.19 Thereafter, she had also made an application to the SIT. The SIT had recorded her statement twice.

191.20 The witness has thereafter deposed that she was called to identify two accused and she had gone there and identified an accused by the name of Vilas.

191.21 The witness has stated that she can identify the persons whom she has named in her deposition. Out of the accused named by her, Guddu Chhara, Dalpat and Jaybhavani have died and she can identify all the accused.

191.22 The witness has thereafter identified Naresh (A-1), Haresh (A-10), Suresh Langda (A-22), Manu (A-28), Jaybhavani's son Mukesh (A-40), Vilas (A-53) and Dalpat's son (A-60), correctly.

191.23 CROSS-EXAMINATION: In her cross-examination, this witness has stated that she is totally illiterate and she has not studied anything, except Quran-e-Sharif. She has not studied in Hindi medium. She has not studied at all. It is true that she can speak Hindi, but does not know how to read or write in Hindi. The witness is shown an application-Mark 644/9 made to the SIT. The witness has admitted her signature at the end of the application and has stated that she only knows how to sign which she has learnt. She does not know whether the signature can be said to be in Gujarati or in Hindi and that her sister in law has taught her to sign and that much she knew.

191.24 She has stated that her sister Ruksana is elder to her, whereas brother Raja is younger than her. The witness has admitted that after they climbed down from the terrace of the house and till they reached Gauri Apa's house, Rukshana was with her. She has admitted that her brother Raja was also with her. She has stated that her mother had come after the four brothers and sisters had reached Barkat Khala's house. She has stated that she knows Barkat Khala since her childhood and that when she left Barkat Khala and Gauri Apa's houses, till then, they both were not with her.

191.25 The witness has admitted that the police had not beaten them near S.R.P. Quarters on that day and has voluntarily stated that they were threatening them and were driving them away. The witness has denied that while she was standing near S.R.P. compound wall, no Muslim boy was injured. The witness has stated that a boy by the name of Sharif was injured on the chest with a stone. She has further stated that Sharif has died in the incident.

191.26 In her cross examination it has come out that she knows Shamsubhai since a long time and that she has grown up under him. She has admitted that on that day she had seen Shamsu only when he came to call them from the terrace; except that she has not seen him through out the day. She has stated that Vilas's Test Identification Parade was carried out when she was at the camp. However, she knew him from the beginning as he was residing in their lane. The witness has denied that in her statement dated 2002, recorded at the camp, she has not given the name of any of the accused named by her before the court. The witness admitted that she had informed the SIT people that she could show them the house in which the two Marathi boys, whom she knew, were residing. She has stated that Vilas used to reside in their area and therefore, she knew him. However, prior to the incident he had changed his house, but he used to reside in the area since her childhood, and hence, she knew him. The witness has stated that she cannot say as to how long they had stayed at Barkat Khala's house; as to whether it was for one or two hours. She has stated that they had not stayed at Gauri Khala's house and that they had immediately gone from her terrace into Gangotri Society. The witness has denied that the mob was on the open ground on Naroda side and has clarified that the mob was towards Teesra Kuva. The witness has admitted that when she asked for water at Gangotri Society, there were people residing there. She must have asked for water at Gangotri Society at 2:30 in the evening. She has admitted that at 2:30 residents of Gangotri had not assaulted them nor driven them away. She has admitted that in the hall where two hundred to two hundred fifty Muslims were hiding,

Bhavani had not brought any other mob. The witness has voluntarily stated that Bhavani and other people were the persons who got them out of the hall and they first wanted them to come out of the hall and thereafter assault them.

191.27 The witness is shown an application Mark 644/9 and she has identified her signature thereon. She has stated that she had made this application to the SIT. The application is given Exhibit No.1464. The witness has stated that she came to know that she is required to make such application because there were discussions going on in the chawl that some officer from Delhi is going to come and investigate in the case. The witness is thereafter cross examined with regard to who wrote down the application for her and the manner in which it was done. The witness has admitted that in her application Exhibit 1464 she has not named any accused and has voluntarily stated that those facts were required to be given by her personally. The witness has denied that in her statement recoded by the SIT she has not stated the exact place where her mother and sister were killed and who had killed them. In her cross examination it has come out that after the application Exhibit 1464 was made, the SIT has called her by issuing summons. Summons was received by her at her house and when she went for recording her statement, her elder sister was her.

191.28 The witness has admitted that at the time of the incident she was at home. The witness has admitted that her mother had woken her up in the morning. She has denied that all the facts stated by her with regard to the S.R.P. Quarters, shutter, lane and passage are false. She has denied that in the

year 2008 voluntary organizations persuaded her and tutored her, and accordingly, she has falsely given the names of the accused. The witness has denied that she had not seen any of the accused named by her in the examination-in-chief anywhere and that they were not in the mob on the day of the incident. The witness has denied that prior to deposing before the court, an NGO had got her to memorize her statement and taught her what to depose. The witness has voluntarily stated that she does not know who the NGO is.

191.29 The witness has denied that she, Rukshana and Shamsu, all of them had gone to Raeeskhan's office at Shahpur in the year 2008 and the Muslims residing at Patiya had gathered there. The witness has denied that at the instance of Raeeskhan, all the persons from Patiya had got their applications written by the same person.

191.30 The witness has been extensively cross-examined with regard to the topography of the area as well as their relation with the people in the neighbourhood. The witness has denied that she has not stated the facts stated by her in her examination-in-chief, when the police recorded her statement at the camp.

191.31 In her cross examination, it has further been elicited that after hearing the news about the incident, firstly she had gone home. She came to know the news from her mother, after which, firstly she went to the terrace of their house. She does not remember the exact time when she went on the terrace. She has stated that her house has only a ground floor and does not have first floor, but it has terrace, which is

concrete terrace. There were other people with her on the terrace at that time. The witness has stated that she knows that the people, who were there with her, were people of her chawl, but she does not remember their names. The witness has admitted that when she was watching from the terrace, a few people were entering from the side of Jawannagar. She has stated that when she had seen, at that time very few people were coming inside. The witness has admitted that she knows the people who reside in Jawannagar; she mostly knew them by their faces.

191.32 The witness has stated that she does not know as to how long they stayed at the hall after coming from Bharkat Khala's house. She has admitted that they stayed there till the evening. She has clarified that they stayed there till it was almost evening. The witness has stated that when she says almost evening, what she wants to say is that the time must have been around 5:00 in the evening. The witness has admitted that what they feared was what would happen to them and that the attackers would come there. The witness has voluntarily stated that they were rendered homeless and their houses were burnt, and hence, they were afraid. She has admitted that from inside the hall they could not see what was happening outside. The witness has stated that while she was in hall she came to know that her house was burnt, for the reason that they had received such news while they were at Barkat Khala's house. The witness has stated that from the hall they came out into something like a lane and from there they came on the road. Gangotri and Gopinath Societies were near the road. She had admitted that if one goes further on the road towards the left side, Noorani Masjid is situated and towards

right side, Teesra Kuva and the road going to Naroda are situated. The witness has stated that on the day of the incident, only her brother Raja was with her and her other brothers had got separated. The witness has stated that she does not know exactly when both of her brothers got separated. She has admitted that they were not with her. The witness has admitted that after coming on the road they had looked at the side of the road, at that time she had not seen mobs on either side of the road. At that time she had not seen any one damaging or setting things on fire. When they went from the road towards Teesra Kuva and were at the entrance of the open ground, they had seen the mob. She has admitted that while she was on the road, she could not see Teesra Kuva, but could only see open ground on which Teesra Kuva is situated.

191.33 The witness has admitted that upon seeing them, the mob started coming towards them, but they had started fleeing. They had run till the passage. She does not know exactly how many minutes she had run. The witness has admitted that the mob ran after them and reached upto the passage, upto them. She has stated that the mob was not comprised of ten thousand to fifteen thousand people. She has stated that she does not know how many people were there in the mob, but it was a mob. The witness has stated that for the purpose of protecting their lives, they had not entered inside the houses. The witness has stated that at present she does not remember as to what she did to protect their lives after reaching the passage. The witness has stated that she cannot say as to how many feet the height of the passage was. In her cross-examination it has come out that from the passage one

can either come out on the road or would have to jump over the compound wall. She has stated that while they were in the passage they were surrounded and that there were only Muslims inside the passage. The people in the mob had not assaulted her with any weapons, but had pelted stones at her. No person has slapped her or boxed her. She has admitted that she does not know as to who had thrown the stone with which she was injured. She has admitted that only one stone had struck her. She has stated that when she was lastly jumping over the compound wall, at that time she was injured by stone. The witness has stated that when she was jumping over the wall, nobody had caught her nor pulled her. She has voluntarily stated that, that is why the stone was thrown at her. The witness has stated that she does not know as to how many people had jumped over the compound wall before or after her. She has stated that she has not helped anyone other than her family members to jump over the wall and has voluntarily stated that she helped her brother Raja to jump over the wall.

191.34 The witness has stated that she does not know exactly how much time had passed by since the time she entered the passage and jumped over the compound wall. The witness has stated that between the time she entered the passage and jumped over the compound wall, she was sitting on the compound wall. It was slightly dark. The witness has voluntarily stated that when she entered the passage it was bright and everything was visible. She has denied that the duration between the time she entered the passage and jumped the compound wall was very small. The witness has voluntarily stated that she stood in the passage for quite a

long time and while she was standing there she was not injured by any stone. The witness has stated that till she came into the passage she had not seen any stone pelting. The witness has admitted that height of the compound wall over which she jumped, was more than her height. The witness has voluntarily stated that till date she herself cannot understand as to how she managed to jump over the wall. She has stated that, however, she was injured on her hand. The witness has admitted that if she was standing on one side of the compound wall, she would not be able to see the other side of the compound wall. She has admitted that there was glass on the compound wall.

191.35 In her cross-examination it has come out that after jumping over the compound wall when she was going to Gangotri, she was alone and at that time it had become dark. She has admitted that the house on the terrace of which she has gone in Gangotri Society, was a Hindu's house. The witness has denied that she was not injured because she was not at any such place. She has denied that she had not got any injury certificate about the stone injury sustained by her and has stated that she has such injury certificate.

191.36 The witness has denied that she has not seen the accused named by her in her examination-in-chief on the day of the incident, and at the place of the incident, because she was not present on that day and that she was deposing as tutored to her by organizations and others.

191.37 In her cross-examination she has stated that when her statement was recorded at the camp, no policeman had

read it over to her. The SIT has read over her statement dated 11.5.2002 to her.

191.38 The witness is confronted with the contents of paragraph 3 of her examination-in-chief from the second line to the fourth line. The contents of paragraphs 4, 5, 6, 7, 8, 10, 11, 12, 13, 14 (the third line to the last line), 15, 16 (first four lines) and 18, are read over to the witness to the effect that she has not stated such facts in her statement dated 11.5.2002, which she has denied. The witness has denied that the facts stated by her in paragraph 20 of her examination-in-chief that Shamsu has called from terrace, is not stated by her in police statement dated 11.5.2002. The witness has admitted that she was given a zero certificate in connection with the treatment given to her at Shah Alam Camp.

191.39 The witness has denied that on 28.2.2002 she was not in the Naroda Patiya area and had not seen the incident stated by her in her examination-in-chief, and therefore, she had not stated these facts in her statement dated 11.5.2002 and that she had given a statement to the effect that she could not recognize any one and in her statement dated 11.5.2002, she has stated that her brother and mother had seen the incident and had informed her about it. She has denied that she is falsely deposing before the court and has voluntarily stated that she has stated all these facts at the time when her statement came to be recorded on 11.5.2002. The witness has been cross-examined with regard to certain facts that had occurred on the day prior to the incident. Various extracts of her statement dated 11.5.2002 are put to the witness wherein she has, inter alia, stated that Hindu people from Gangotri

Society and Gopinath Society had told them to flee towards Narodagam so that they could escape, and hence, they had come out from there and that they ran and they reached near Gopinath Society, when mobs also came running towards them and they surrounded her mother Zarina, aged 50 years and younger sister Naseem, aged 17 years. Out of fear they returned back and went and sat on the terrace of Gangotri Society and the people in the mob, had sprinkled kerosene or petrol on her mother Zarinabanu and sister Naseem and set them ablaze. The witness is further confronted with the fact that in her statement she has stated that they had seen the incident from the terrace of Gangotri Society, but there were innumerable people in the area, due to which they could not recognize any one.

191.40 The witness has voluntarily stated that her mother and sister were firstly physically assaulted and injured and thereafter were set ablaze and that her brother Raja was with her and both of them had seen the incident together and she has stated such facts in statement recorded by the police. The witness has denied that her statement was recorded on the day when the panchnama was drawn. The panchnama is produced with purshis Exhibit 1478 and the panchnama is given Exhibit No.1479.

191.41 The witness has denied that her sister and mother were burnt under the tank in the passage and has stated that they were burnt in front of the tank in the passage. The witness has denied that there was a road opposite the passage and both of them were set ablaze on the opposite side, after crossing the road, and has stated that they were killed on the

road in front of the passage and burnt there.

191.42 The witness has stated that people in the mob had first assaulted Naseem and then set her ablaze. She has admitted that at the time when both of them were burnt she was in the passage near water tank. The witness has denied that at this time her mother and sister Naseem were totally burnt.

191.43 The witness has admitted that from Barkat Khala's house, she, her mother and her sister were together till they were burnt near the passage. Till they died, they were together. The witness has stated that she had not seen her mother and sister being taken to any other place from that place. The witness has admitted that she has not seen any person killing her mother and sister and burning them in Jawannagar, lane No.3. The witness has denied that she has not seen the killing of her mother and sister on the road near water tank and that she is falsely deposing before the court. The witness has admitted that no one has killed her mother and set her ablaze in Jawannagar, lane no.3. The witness has denied that her sister Naseem was not assaulted by anyone with a pipe or any other weapon. The witness has denied that she does not know as to who had killed Siddique and how.

191.44 The witness has stated that she cannot say exactly for how many minutes the incident of Siddique, Naseem and her mother went on. The witness has denied that she had seen the incident of only these three persons and had not seen any other incident. She has stated that they were first assaulting the people near the passage and thereafter came to

the passage to kill them. The witness has admitted that those who were in the passage were being burnt in the passage and those who were killed outside were burnt outside. The witness has stated that when kerosene was poured on them and a match stick was lit, she was not sitting on the wall; rather she was standing in the interior side of the passage. The witness has stated that she cannot say as to how many people she has seen being set ablaze. She has stated that she has seen other people being killed and burnt.

191.45 The witness has stated that she cannot even approximately say as to how many people were there in the passage. She has stated that they had also come inside the passage and killed people, but she cannot say how many people were killed in this manner. She cannot say for how many minutes she stood in the passage, but after the mob was burning women, she had jumped over the compound wall and gone away.

191.46 In her cross-examination, it has come out that the mob which pulled her mother and sister was not comprised of only twenty to twenty five people, but was a huge mob. They had pulled them away from the passage. The witness has admitted that the people in the mob had surrounded her mother and sister and started assaulting them. The witness has voluntarily stated that Suresh Langda had assaulted her mother with gupti. She has denied that there were mobs on all four sides and has voluntarily stated that on one side there was the S.T. Workshop wall and on the other two sides there was a road and they were in the middle. A mob had also come from the direction of Noorani Masjid as well as from the

direction of Teesra Kuva and they were caught in between the mobs which came from both the sides. The witness has stated that she cannot say that both these mobs had come together and pulled her mother and sister, for the reason that she did not know as to which person was in which mob.

191.47 The witness has admitted that no sooner than her mother and sister were assaulted, they fell on the ground. She has admitted that no sooner than they fell down, kerosene was poured on them and they were set ablaze. She has admitted that at that time lamps were not on. She has stated that it was not necessary, for the reason that it was day time. At this time it must have been around 6:00 to 6:30 in the evening.

191.48 The witness has admitted that Raja and Guddu are her brothers. On the day of the incident, both of them had sustained injuries. She has stated that Raja was with them right from the beginning, from morning on the day of incident.

191.49 In her cross-examination, it has come out that she does not know the names of any of Hindus residing in the chawls. She has stated that the two Marathi boys reside in the chawls. She knew them only by faces. She does not know their names. Upon being asked whether she knows any Hindu in that area, she has stated that she knows Guddu Chara, who passes by their lane everyday. She does not know other Hindus residing in Hussainnagar or Jawannagar. She does not know any Hindu in Gangotri and Gopinath Society, but she knows them by faces. In her cross-examination it has come out that she had no occasion to visit any Hindus and that they have no relations of talking and socializing with any Hindu,

except that when they did not have water supply at their place, they had to go to fetch water from Dalpat and Jai Bhavani's place. The witness has admitted that out of the accused whom she has identified before the court, she does not have any sort of relations with any of them. The witness has admitted that the test identification parade had been carried out through her in the year 2008, after six years. She has admitted that in the test identification parade she had identified only one person. She has voluntarily stated that other accused had put on weight after the incident, and hence, she could identify only one person. The witness has denied that the accused persons whom she had identified, namely, Vilas accused No.53 was falsely named by her, only for the reason that they wanted to buy his house at cheaper rates, but he was not willing to sell his house to them. She has admitted that she had seen all the accused near the water tank and voluntarily stated that she has seen the two Marathi boys from the terrace on the same day. She had seen them near the water tank. The witness is thereafter cross-examined with regard to her application Exhibit 1464 and as regards who identified her mother's dead body.

191.50 In her cross-examination, she has denied that in her statement recorded at the camp she has named Manu or attributed any role to him and that she has stated that Manu had come with Jai Bhavani and talked about preparing meals for them and that she had seen a girl being pulled by the people in the mob, have not been stated by her in the statement recorded at the camp.

191.51 To prove the omissions and contradictions as to her

previous statements, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

191.52 PW-278 Shri R.B. Joshi, the assignee officer in his cross-examination has admitted that he had recorded the statement of this witness on 11.5.2002. The witness has stated that he does not remember as to whether he has recorded statements of about sixty witnesses in connection with the investigation in this offence. He has admitted that in connection with this investigation, the SIT had recorded his statement. (See contents of paragraphs 159 and 160 of PW-278). The assignee officer has admitted that this witness had not named any accused in the statement recorded by him. The assignee officer has admitted that certain parts of paragraph 3 of the examination in chief of this witness are read over to him, namely that on 27.2.2002 she had seen the news in the T.V. that on account of the Godhra Train incident, have not been stated by the witness in the statement recorded by him. In the opinion of this court, the fact regarding the witness having seen something on the television can hardly be said to be a relevant fact so as to be considered to be an omission amounting to contradiction. Such questions, therefore, should not have been permitted to be put to the witness.

191.53 The contents of paragraph 3 of the examination-in-chief of this witness from the fifth line till the end are shown to the assignee officer, who has admitted that such facts have not been stated by the witness in her statement recorded by the police. Once again, the facts stated in paragraph 3 are merely facts that transpired prior to the incident and cannot be

said to be omissions in the nature of contradictions and hence, ought not to have been permitted to be put to the witness.

191.54 The contents of paragraph 4 of the examination-in-chief of this witness are read over to the assignee officer, who has admitted that the witness has not stated such facts in the statement recorded by him, but has stated that the witness has stated that they had gone to Gangotri Society from the side of the S.R.P. camp.

191.55 The contents of paragraph 5 of the examination-in-chief of this witness are read over to the assignee officer, who has admitted that the witness has not stated such facts in the statement recorded by him.

191.56 The contents of paragraph 6 of the examination-in-chief of this witness are read over to the assignee officer, who has admitted that the witness has not verbatim stated these facts in the statement recorded by him, but the witness had stated that they were in the hall at Gangotri Society when they came to know that two houses of the witnesses wherein tenants are living had been set on fire and burnt by the Hindu mob.

191.57 The contents of paragraph 7 of the examination-in-chief of the witness from the second line to the last line are put to the assignee officer, who has admitted that the witness has not stated such facts in the same words. However, she has stated that there were other Muslims from the chawl also.

191.58 The contents of paragraphs 8 and 9 of the

examination-in-chief of this witness are read over to the assignee officer who has admitted that all these facts have not been stated by the witness in the statement recorded by him, but has stated that the witness had stated that her mother was also in the hall. The assignee officer has admitted that the witness has not stated before him that Jaybhavani and Manu Bhangi had come and while standing outside the hall they had told them to vacate the hall saying that that vehicles had been arranged for them towards Teesra Kuva. He, however, has clarified that the witness has stated that Hindu people from Gangotri and Gopinath Societies had told them to run away towards Naroda Gam to save themselves due to which, they had gone there. The assignee officer has denied that when the witness has stated any fact regarding Hindus from Gangotri Society, he had tried to obtain more information. He has stated that he was required to carry out the task assigned to him by his higher officer who was the Investigating Officer and to submit the case papers to him and that he was not required to do any work of investigation, and hence, he used to take down what the witness had stated and used to see that the statements are handed over to the Investigating Officer.

191.59 The contents of paragraph 11 of the examination-in-chief of the witness are read over to the assignee officer, who has admitted that the witness has not stated such facts before him. He, however, has stated that the witness had stated that when they reached near Gangotri Society, the people in the mob came running near them.

191.60 Certain part of paragraph 12 of the examination-in-chief of the witness as extracted in paragraph 170 of the

deposition of the assignee officer, are put to the assignee officer, who has admitted that the witness has not stated such facts in the statement recorded by him.

191.61 The contents of paragraph 13 of the examination-in-chief of the witness are read over to the assignee officer, wherein the witness had stated that they entered the passage where the people in the mob surrounded them from all four sides. In the mob, she had seen Suresh Langdo, Dalpat's son, Jaybhawani's son, Naresh, Haresh, Manu, two sons of Marathi, Jaybhawani, Dalpat and Guddu Chhara, have not been stated by her in the statement recorded by him. He, however, has clarified that the witness has stated that when they reached near Gopinath Society, the people of the mob were there.

191.62 The contents of paragraph 14 of the examination-in-chief of this witness from the third line to the last line are read over to the assignee officer, who has admitted that she has not stated such facts in the statement recorded by him. The contents of first seven lines of paragraph 15 of the examination- in-chief of this witness are read over to the assignee officer who has admitted that the witness has not stated such facts in the statement recorded by him.

191.63 The contents of first four lines of paragraph 16 and the contents of paragraph 17 as well as certain parts of paragraphs 18 and 20 of the examination-in-chief, as extracted in the cross-examination of PW-278, are read over to him and he has admitted that the witness has not stated such facts in the statement recorded by him.

191.64 The assignee officer has admitted that the witness had stated before him that in Jawannagar chawl they have in all eight houses wherein in house No.383 articles relating to kitchen and household goods were being kept and they used to have meals there and in that house at night, her mother, her sister Ruksana her three brothers and her maternal aunt's son Raees used to sleep and she and her father used to sleep in House No.325/1, her sister Naseem used to sleep with her mother. One wonders as to how such facts stated in the police statement of the witness could be permitted to be brought on record, more so, when they are not at all relevant.

191.65 The assignee officer has admitted that witness had stated before him that all the members of the family were at home and were doing household work and her brothers were sleeping, at that time, at around 10 o'clock other Muslims residing in their chawl were shouting that Hindu mobs have entered their chawl and their houses and ransacking and burning them, and hence, they three sisters and three brothers as well as her mother and father and her maternal aunt's son Raees closed their house and left it and ran from the side of the S.R.P. camp and went to Gangotri Society where the residents of Gangotri Society did not let them and the other Muslim families enter Gangotri Society. He has further admitted that the witness has stated before him that they started telling that both their houses as well as where their tenants are staying have been set on fire by the Hindu mob, due to which, her mother was profusely crying. However, in their chawl, the people in the mob had created a lot of hubbub and the mobs were standing nearby also, due to which, it was not possible for them to go to their chawl. Therefore, till

around 4 o'clock in the evening they sat in the hall in Gangotri Society and at 4 o'clock, when, the witness has also stated before him that while running when they reached near Gopinath Society, the people from the mob came running near them and had surrounded her mother Zarina aged 50 and sister Naseem aged 17 and all of them were frightened and turned back and went and sat on a terrace of Gangotri Society and the people in the mob had sprinkled kerosene / petrol on her mother Zarina and sister Naseem and had set them ablaze. They had seen all this from the terrace of the Gangotri Society; however, there were countless people in the mob and hence, they could not recognize anyone. Her mother and her sister Naseem were burnt alive and killed and the people from the Hindu mob had burnt them, which her younger brother Raja had stated, which incident he had seen with his own eyes.

191.66 The assignee officer has admitted that this witness had not stated anything with regard to any physical violence and injury to her mother and sister. However, she had stated that the people in the mob had sprinkled kerosene over mother Zarina and sister Naseem and set them ablaze and they were burnt to death. The assignee officer has admitted that the witness has stated before him that she does not know who had burnt her mother and sister and there were many people in the mob. The assignee officer has admitted that he had kept the witness with him while carrying out the panchnama of the room in which her father was residing. He has also admitted that on the day when the panchnama was drawn, on the same day the statement of the witness was recorded. The assignee officer has further admitted that in the statement recorded by him, the witness has not stated

regarding her sister Naseem and mother Zarina being assaulted by any weapon or that Suresh Langdo had inflicted a blow with a gupti on her mother or that her sister Naseem was assaulted with a pipe on her head or that she had seen Siddique being hit by a dagger due to which his taveez had broken, in the statement recorded by him.

191.67 PW-327 Shri V.V. Chaudhary, the Investigating Officer (S.I.T.), has in his cross-examination, admitted that he has recorded the statements of this witness on 23.5.2008 and 14.9.2008. The Investigating Officer has denied that this witness has not stated before him that the same were written as stated by her and are correct and proper. The Investigating Officer has denied that the witness has not stated before him the exact place where her mother and sister were killed and who had killed them. The Investigating Officer has stated that he wants to clarify that this witness had stated before him that she was running with her sister, mother and brother, at that time, a huge mob was coming from the direction of Gangotri Society, and hence, they were frightened and in the pandemonium, the witness's brother and sister got separated. At that time, there was something like a house and they had run towards it and there was no space to get out from there. Hence, all of them, women and men, stood there and from the opposite side Guddu Chara, Suresh Chhara, Naresh Chhara, Hariyo Chhara, Dalpat, Jaybhawani, Jaybhawani's son and Dalpat's son, whose name she does not know but whom she can recognize if she sees them; that she had seen Suresh Langdo and his two brothers, whom she can recognize by face. Over and above them, there were two Marathi boys who are brothers and live in the last house in the first lane, whom she

can recognize if she sees them, who were bringing the mob towards them and while they were standing there, the mob of people attacked them and pulled a boy called Siddique and assaulted him and killed him and one young girl and her sister Naseem got separated while they were running and the people in the mob caught her; assaulted her with a pipe, sprinkled kerosene on her and set her ablaze. Suresh Langdo had stabbed her mother on the stomach with a gupti and had sprinkled something like kerosene over her and set her ablaze which the witness had seen with her own eyes. All this was stated by the witness in her statement dated 23.5.2008.

191.68 SUBMISSIONS: The learned counsel for the appellants submitted that this witness, in paragraph 10 of her examination-in-chief, has stated that Jaybhavani and Manu came and asked them to leave the hall. It was submitted that as regards who told them to leave the godown, different versions have been stated by different witnesses. Referring to the contents of paragraph 13 of her examination-in-chief and the paragraph 146 of her cross-examination, it was submitted that this witness did not know anyone by their names, and therefore, she could not have given the names of the accused without a test identification parade. It was submitted that while the witness claims to have been in the passage when the incidents took place, she does not refer to the presence of any of the other witnesses who were in the passage. It was submitted that when the witness has not referred to any other persons in the passage, her presence at the scene of offence is rendered doubtful. It was submitted that it is highly improbable that the witness could have remained in the passage for such a long time without anyone attacking her. It was submitted that

the witness has admitted in her cross-examination that she did not know any accused except Guddu by name at the time of the incident, which indicates that she had wrongly given the names of the accused before the court and in her statement before the SIT. This fact is further strengthened by the fact that in her police statement, she has not given the name of any accused and in her first statement before the SIT, she has not stated that though she had given the names of the accused to the police, they have not written them down. Such explanation has come at a later stage in her statement dated 14.9.2008. It was submitted that it is highly doubtful that the witness has seen the incident of the passage and the named accused being present there as the dead bodies of her mother, her sister and Siddique have not been identified from the bodies recovered at the passage. It was submitted that this witness has not referred to other persons of Jawannagar, like PW-114, PW-191 and PW-137, etc., who claim to have been present at the passage in their evidence before the court. It was submitted that there are vital and important contradictions between the evidence of this witness before the court and her first version before the police, which go to the root of the matter as she has not named any accused and she says that she saw the incident from the terrace of a house at Gangotri. It was submitted that this witness does not inspire confidence and her evidence cannot be considered to be reliable and unimpeachable evidence. It was further pointed out that this witness has not referred to the incident of Salim and Wasim being thrown from the tank.

191.69 Various contradictions in the testimony of the witness were pointed out to the effect that from the testimony

of PW-278, the assignee officer, who recorded the statement of this witness, it has come out that the witness had not given the names of the accused, but had stated that Hindu people had told them that if they flee to Naroda, they would be saved. In the context of paragraph 11 of her examination-in-chief, it was pointed out that before the Investigating Officer, the witness has stated that when they reached near Gopinath, the mob was coming towards them. It was submitted that the attribution to the accused driving them to Teesra Kuva was not there. It was submitted that in the police statement dated 11.5.2002, this witness has not given the names of any of the accused, which would further confirm the absence of the names. It was submitted that except for Guddu, Dalpat and Bhavani, according to the witness herself, she did not know any other Hindu, including the other accused named in the deposition and she had specifically said that she had no relations of any sort with any other accused. It was submitted that therefore, the witness had not named such accused in her first statement dated 11.5.2002 and furthermore in her statement, as proved by the Investigating officer, she has stated that she did not know any of the persons in the mob who killed her mother Zarina and sister Naseem. It was submitted that therefore, for the first time before the SIT, the names of the accused have come on record in the year 2008. It was submitted that this may be tested in view of the version of the witness as stated in paragraphs 70, 71 and 133 of her deposition to see the plausibility as to whether from the place where she is claiming she had seen the incident, it was possible or not; whether she was there for a considerable time; for jumping the wall with pieces of glass affixed in it, which was higher in height than the height of the witness; whether it

was possible for her to sit on it for some time and to jump it to save her life.

191.70 It was submitted that accused No.53 Vilas has been identified only by this witness and that too, in the test identification parade conducted in the year 2008. Referring to paragraph 13 of her examination-in-chief, it was submitted that the witness has only referred to two sons of a Marathi without giving any description. It was submitted that it is very hazardous to believe the only identification in the court without naming him in either of the statements and without naming him in the court. It was submitted that except for the limited evidence of this witness, there is no evidence whatsoever against accused No.53 – Vilas.

191.71 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness has specifically stated about killing of her family members in the passage. She is sought to be cross-examined, and a contradiction qua her application Exhibit-1614 is sought to be brought on record to the effect that she has not mentioned the names of any of the accused. It was submitted that the witness has explained that the application was only made for the purpose of recording her statement and that she has stated everything in detail before the SIT in person. It was submitted that the witness is sought to be contradicted qua the place where her mother and sister were killed, but she has confined to her statement before the SIT and her examination-in-chief. It was submitted that the defence has tried to contradict her with respect to her statement recorded by the SIT but those contradictions are of a trivial nature and cannot be considered to be major

contradictions going to the root of the matter.

191.72 It was submitted that insofar as the killing of Siddique is concerned, reference to his incident is also made by PW-37. It was submitted that as regards the contradiction and omission in the testimony of PW-37 about time, this witness also says about Siddique being killed in the evening. It was submitted that as regards the omissions and contradictions in the statement dated 11.5.2002, such contradictions have not been brought out in accordance with law. It was submitted that, therefore, any such omission which is not in accordance with law, cannot be considered to be a material omission, as it is not properly proved. It was submitted that there is no occasion on the part of the witness to tell untruth as she has lost her family members and, therefore, her testimony is credible and believable and as regards the accused whom she has identified, it is proved beyond doubt that they were part of the mob and that they had committed overt acts in the mob.

191.73 ANALYSIS: This witness claims to have seen the named accused assault and kill her mother Zarina and sister Naseem in the passage near the water tank. In the cross-examination of the witness, various omissions have been brought out as to her statement dated 11.5.2002 recorded by PW-278. The omissions and contradictions in the testimony of the witness qua such police statement have been duly proved through the testimony of PW-278. If the testimony of the witness is considered without considering the part in respect of which omissions and contradictions have been proved, it emerges that on 28.2.2002, there was a call for Gujarat Bandh.

From the terrace of their house, they could see the main road and on the road behind Jawannagar where Uday Gas Agency is situated, she had seen incidents of assault and arson. Thereafter, she, along with her brothers and sisters, had gone to Gangotri Society via S.R.P. Quarters. At Gangotri Society they had gone to a big hall with shutters. Her mother was also present with them in the shuttered hall. While they were in the hall, certain persons told them to go out of the hall, as arrangements had been made for them near Teesra Kuva. When they reached near Gopinath Society, there was a mob coming from the opposite side, and hence, they all started coming back. At this time, all the members of her family got separated but in the passage where they went, she, her mother, her sister Naseem and her brother Raja were together. The mob was there on the road in front of the passage. The mob surrounded her sister and poured kerosene on her and set her ablaze and she died there. Thereafter, the people in the mob burnt her mother alive, who also died on the spot. She thereafter, fled to Gangotri Society and took refuge on a terrace. When she went on the terrace there were other Muslims also and late at night, a vehicle came and they boarded the vehicle and went to the Shah Alam relief camp.

191.74 From the cross-examination of the witness, it has been elicited that they did not stay at Gauri Khala's terrace and straightaway went to Gangotri Society. It has further been elicited that she had stayed in the hall till around 5 o'clock in the evening. From the facts, elicited in her cross-examination, the version of the witness that initially they had gone towards Gauri Khala's house is borne out and a further fact that is brought on record is that she had stayed in the hall till 5

o'clock in the evening. In her cross-examination, it has also been elicited that they were at the spot from where one enters the open ground of Teesra Kuva from the road and on seeing them, the mob came towards them and they had fled towards the passage. From her cross-examination, it has further come out that from the passage one can go either on the road or jump over the compound wall and that they were surrounded in the passage. She has also stated that there were only Muslims in the passage. The mob had not assaulted her with weapons but had pelted stones at her and when she entered the passage, there was daylight and one could see everything. The witness has admitted that the wall was more than her height and has expressed surprise as to how she could jump over it. She has also admitted that pieces of glass were affixed on the wall. It has further been elicited that when she jumped over the wall and went to Gangotri, it had become dark. From the cross-examination of the witness, it has come out that she had jumped over the wall and had come out on the road through the gate and gone to Gangotri Society. A perusal of the video of the scene of offence reveals that at the relevant time, there was an open space next to the compound wall and the passage of the water tank which had a gate. Therefore, the version given by the witness that she had jumped over the wall and come out through the gate is supported by the video of the scene of offence. The concerned assignee officer PW-278, who has been examined to bring out the omissions and contradictions in her statement recorded by him has stated that the witness has clearly stated before him that the people in the mob had sprinkled kerosene and petrol on her mother Zarina and sister Naseem and had set them ablaze and they were burnt to death. In the opinion of this court, therefore,

when the witness refers to her brother Raja having witnessed the incident with his own eyes does not mean that she herself has not witnessed the incident.

191.75 The discrepancy in her statement recorded by the police and in her deposition before the court is to the extent that she has not referred to the incident having taken place at the passage but says that when they reached Gopinath, the mob ran and came near them and surrounded her mother and sister, which is more or less the same place, except that there is no specific reference to the incident having taken place near the passage.

191.76 In the opinion of this court, if the testimony of the witness regarding her having witnessed the incident from the passage is taken into consideration, there is no major contradictions in her police statement insofar as the fact regarding her having witnessed the incident is concerned. The major omission, which is in the nature of contradiction in the testimony of this witness, is that before the police she had not named any accused and had specifically, stated that since there were many people in the mob, she could not recognise anyone. Therefore, to the extent the witness has named the accused and attributed specific roles to them, she cannot be believed. Of course, before the SIT in the year 2008, the witness has named the accused and accused No.53 Vilas has been identified by her in a test identification parade, however, considering the events that have taken place in the intervening period, it would be hazardous to rely upon the statement of the witness, which has come on record after more than six years of the incident, for the purpose of establishing

the charge against the accused.

191.77 The contention that the police had not written down the names of the accused, as stated by the witness, does not inspire confidence, inasmuch as, in the case of other witnesses, the names of these very accused have been written down by the concerned police officers. However, the rest of the testimony of the witness regarding she and her family members having gone to the shuttered hall; having been able to escape from the open ground; the mob having surrounded them near Gopinath and having assaulted and set her mother and sister ablaze, is consistent with her police statement and there is no reason to discard her entire testimony. The testimony of this witness, however, would not support the prosecution case to establish the charge against the named accused.

191.78 On behalf of the appellants, it has been submitted that while the witness claims to have been in the passage when the incident took place, she does not refer to the presence of other witnesses who were in the passage, which renders her presence at the scene of offence doubtful. It has also been contended that the witness has not referred to the incidents of Wasim and Salim being thrown from the tank, which also shows that she was not present at the scene of offence.

191.79 In the opinion of this court, at the time when the incident took place, all the victims/witnesses were in a state of terror and one would hardly expect them to look around and see as to who were the other persons who are present with

them. At such a time, the main thing in the mind of each person would be as to how to escape from the situation. Therefore, not noticing who else was present and not noticing any other incident that had taken place in the passage can hardly be a relevant factor for considering as to whether or not, the witness was present at the scene of offence. Moreover, when there are a large number of persons, the witness would be more concerned with what was happening to his/her family members and, therefore, not noticing what has happened to the other persons, would hardly impeach the credibility of such witness.

191.80 Insofar as the witness claiming to have jumped over the wall is concerned, when a person is faced with a situation like the one in which the witness was, one is able to do things which one would not be able to do under normal circumstances. Therefore, jumping over the wall over which other witnesses and persons have also jumped over, cannot be said to be not believable having regard to the facts and circumstances of the case.

191.81 Except to the extent the witness has improved upon her original version by naming several accused persons whom she has also identified before the court, by and large, the testimony of this witness appears to be credible and hence, to the extent referred to hereinabove, it can be accepted.

192. **PW-212 Rukshana Bundubhai Kureshi**, aged 28 years, has been examined at Exhibit-1507. This witness has deposed that she is residing at *Lane No.1, Jawannagar* since her childhood. At present, she is married and is living with her

husband and child.

192.1 The incident took place on 28.2.2002. At the time of the incident, she, her mother and father, her sister, her brother as well as two younger sisters and three brothers, were all residing together.

192.2 In the context of the incident of burning of a train at Godhra on 27.2.2002, there was a call for bandh on 28.2.2002. Upon hearing this news, they were afraid, therefore, they had stayed awake till late at night. On that day, in the morning at around 8:00 to 8:30, her mother Zarinabanu told them that many mobs have gathered at Natraj Hotel and are pelting stones at the Noorani Masjid; hence, they had gone to the terrace. Upon going to the terrace of their house, she saw that many mobs had gathered towards Natraj Hotel and the Noorani Masjid and a mob was also coming from the direction of Krushnanagar. Her mother told them to come down and go to the S.R.P. Quarters.

192.3 Hence, she, her sisters Shabana and Nasim and her brother Raja, all four of them, went to the S.R.P. Quarters. There were many people of their community near S.R.P. Quarters. They wanted to go inside the S.R.P. Quarters, however, despite their having requested them to let them go inside, the S.R.P. people standing there did not permit them to go inside and told them that there are no orders to take them inside, today they have to die and that, they would see what they look like when they are naked. Therefore, they left the S.R.P. Quarters and went to Barkatkhala's house through Lane No.3, Jawannagar. She does not know what the time was.

192.4 At Barkatkhalas house where they went, there were other people of their community also. Her mother also came there and told them that they should go from there as there was looting, etc. and that the first lane has been ransacked and houses have been set on fire. Thereafter, they went from Gaurikhala's terrace to Gangotri Society. There is a big hall in Gangotri Society and all of them went and sat inside the hall. There were many other people of their community there. All of them namely, her mother, her sisters Shabana, Naseem and brother Raja were together and there were approximately two hundred and fifty other people of their community.

192.5 When they were all sitting in the big hall, Jaybhavani came there. He told them that they should sit there and that they were hungry for the entire day, hence he would make arrangements for food and drink for them. At that time, her mother told Jaybhavani to take her three daughters and son Raja to his house and let them sit there. However, Jaybhavani refused to do so. Jaybhavani thereafter told them that arrangements have been made for them to go out towards Naroda Teesra Kuva and hence, they should go out from there. Upon hearing this, they all came out. There were many people. When they came out, Jaybhavani gestured to the mob which was coming from the direction of the Noorani Masjid, to come there. This was a mob of Hindus.

192.6 Upon coming out of the hall, she got separated from her brother, sisters and mother and was left alone. The people from their community started going towards Teesra Kuva and their people who had gone ahead, all of them suddenly started

coming back fast and said that there was a big mob of Hindus there, with weapons in their hands. She was frightened and was saying “mummy, mummy” everywhere. She asked the people who were coming back as to what had happened and they told her that a big mob of Hindus with weapons in their hands had come.

192.7 She started running with the people of her community and while running, she suddenly saw that Suresh Langda had inflicted a blow with a gupti (dagger) in her mother’s stomach. In the mob which was assaulting her mother, **Naresh, Haresh, Suresh Langdo, Guddu Chhara** and others were there. **Jaybhavani’s daughter** was giving water to the people in the mob. In the mob, **Jaybhavani, Jaybhavani’s son, Dalpat, Dalpat’s son, Chintu** as well as one light eyed and curly haired person with an iron pipe in his hand were also there.

192.8 There were other people with the people in this mob. They were burning people belonging to their community and were assaulting them and Jaybhavani’s daughter was giving quilts soaked with kerosene to the persons in the mob.

192.9 At this time, it was bright and it was not dark and the time was around 5:30 to 6:00. All the while crying, she went and sat on a terrace of Gangotri Society. There were many other people of their community on the terrace of Gangotri. While she was on the terrace, a woman who was burning came with a child in her arms and the child was also burnt. The woman was crying for help and was saying that many people from their community have been killed by these

persons and burnt.

192.10 Thereafter, two boys came with a pitcher filled with water and asked them whether they wanted to drink water. Out of fear, they did not drink water. They felt that the persons who had come to give them water, might go down and inform as to who was hiding.

192.11 Thereafter, at night, somebody shouted from below that a police vehicle had come to take them. However, because of fear, they did not come out. Thereafter, Samsubhai came on the terrace and told them that a vehicle had come and it would take them safely, and hence, they had got down.

192.12 When they got down from the terrace and were going to the vehicle, they saw many dead and burnt people on the road and their houses were in flames. Thereafter, they were seated in the vehicle. When the vehicle was going near Saijpur Tower, at that time, near Natraj Hotel, a mob was standing and a mob was also standing at Saijpur Tower. The persons in the mob pelted stones on their vehicles, at which point of time, the police fired in the air and lobbed tear gas shells. Thereafter, they were taken to Shah Alam camp in the police vehicle.

192.13 They stayed at the Shah Alam camp for around six months. The police recorded her statement at the camp after two and a half months. After recording her statement at the camp, the police had taken them to their house. Their houses were lying in a burnt condition and the panchnamas of their houses were drawn.

192.14 She had made an application to the SIT and the SIT had recorded her statements on two occasions. In these communal riots, her sister Naseem and her mother Zarina both have died.

192.15 The witness has stated that she can identify the accused named by her. Jaybhavani, Guddu Chhara and Dalpat are presently not alive. The witness has thereafter identified the curly haired person (A-60) Pintu alias Dalpat's son, Suresh Langdo (A-22) in whose hand there was a gupti and who had inflicted blows with gupti and killed her mother, Chintu (A-31), Naresh (A-1), Hareesh (A-10), Jaybhavani's daughter (A-61) and Jaybhavani's son (A-40). The witness has, accordingly, identified all the accused correctly.

192.16 CROSS-EXAMINATION: In the cross-examination of the witness, it has come out that her sister Shabana is younger than her. The witness has got married in the year 2008. The witness has denied that in her family, she and Shabana are both educated. She has stated that they have not even studied in Urdu medium and that her sister Shabana knows the Quran-e-Sharif. The witness has stated that nobody teaches Hindi or Gujarati in her house. However, her sister Shabana was learning from her sister-in-law (brother's wife) and she has learnt how to sign.

192.17 In her cross-examination, it has come out that she does not know every person residing in the neighbourhood, but knows several people by their names and several people by their faces and some people she does not know at all. The

witness has admitted that while she was at Barkatkhala's house, till then the people in the mob had not attacked Barkatkhala's house. The witness has denied that she does not know where her mother had gone after they came out of Barkatkhala's house. She, however, has stated that her father was not at all with them. The witness is thereafter cross-examined with regard to the whereabouts of her father on the day of the incident. She is also cross-examined with regard to her statement as well as her sister's statement recorded by the police, etc.

192.18 The witness has stated that she came to know that the SIT has come and that the statements can be given, from the educated people of their area who had read the advertisement. She had dictated the application made to the SIT and that a boy had written down what she had stated. The witness has admitted that she had stated before the police whatever had happened with her. She has admitted that in the application before the SIT, she had only stated that she wants to give her statement in person.

192.19 The witness has admitted that behind their house, there is a pit where the boys play cricket. The witness has denied that Guddu used to come to play cricket in the pit behind their building. The witness has admitted that Suresh and Chintu used to come to play cricket in the pit behind their house. The witness has denied that Naresh, Haresh, Jaybhavani's sons and daughter used to come to play cricket in the pit. The witness has denied that since the accused No.1 Naresh used to play cricket, they used to quarrel everyday. The witness has denied that as the cricket balls used to fall in

their house, she had quarrels with them.

192.20 The witness has denied that she had not seen anything on the day of the incident and that she was not present and she is falsely deposing before the court at the instance of their organisations and that when the incident took place, none of the accused persons identified by her were present.

192.21 The attention of the witness is drawn to the last four lines of paragraph 5 of her examination-in-chief as well as the first line of paragraph 6 of her examination-in-chief, wherein she has stated that “and therefore, they had come out from S.R.P. Quarters and through the third lane of Jawannagar, gone to Barkatkhalas house. When they reached Barkatkhalas house, other people from their community were there,” to the effect that she has not stated these facts in her statements dated 3.6.2008 and 14.9.2008 recorded by the SIT.

192.22 The contents of paragraph 8 of her examination-in-chief from the second line to the seventh line are read over to the witness, wherein she has stated that the people from their community started going towards Teesra Kuva. There, the people who had gone ahead suddenly and hastily started coming back and informed that that there is a huge Hindu mob and they had weapons in their hands. Out of fear, she was shouting “mummy, mummy”, to the effect that this witness has not stated such facts in her statements recorded by the SIT.

192.23 In her cross-examination, the witness has admitted

that prior to the incident of 2002, all the people in their chawl used to live together amicably. The people of their community used to call them on occasions and they used to visit them. She has admitted that she has never gone to attend any Hindu celebration. Prior to the incident, they did not have any relations any Hindu whereby they would visit them. During the times of happiness and grief also, Hindus did not come to their house. She only knew those Hindus who used to come to fetch water from her house and did not know anyone else. The witness has stated that prior to the incident, except for Muslims, she did not have any relations with anyone. In her cross-examination, she has stated that Guddu Chhara used to reside in Lane No.2. She did not have any house in that line and used to go towards that side only to purchase vegetables. She has stated that she did not go to Guddu Chhara's house, but used to go to the shop which was situated there. The witness has stated that prior to the incident she did not know anything about Guddu Chhara. She has denied that she is falsely stating that she did not know anything about Guddu Chhara. The witness has stated that she does not know that Guddu Chhara was involved in liquor business. The witness has denied that since Guddu Chhara was engaged in the liquor business and though she was aware of it, she was saying that she did not know it for the reason that she and Guddu used to have quarrels in this regard.

192.24 The witness is cross-examined with regard to the topography of the area. The witness has admitted that if one looks from their terrace towards Noorani Masjid, they can see the road. The witness has stated that prior to the incident, they could see the road. The witness has admitted that Gauri Apa's

house is situated in the last lane of Jawannagar. She has stated that Barkatkhalas house is also in that lane. The witness has admitted that Gangotri Society is adjoining the lane in which Gauri Apa's house is situated. The witness has admitted that the majority of the houses other than Gauri Apa's house have tin sheet roofs. The witness has voluntarily stated that some of the terraces were concrete terraces. The witness has denied that at the time of the incident, one could not see Noorani Masjid from her terrace, nor could one see the Noorani Masjid road or the road going towards Krushnanagar.

192.25 The witness has stated that at the time of the incident, her maternal aunt's son Rais used to reside with them. He had come to visit them at that time and she stated that on the day of the incident when she started going towards S.R.P. Quarters, Rais was not with her. The witness has stated that when she went to Barkatkhalas house and thereafter to Gangotri, till then she had not met Rais. She has not asked her mother or anyone else about the whereabouts of Rais. The witness has stated that on that day, she was not worried about Rais for the reason that on that day, everyone was concerned with protecting his life. The witness is thereafter cross-examined with regard to how long she had stayed at the S.R.P. Quarters and the number of people who were sitting there, etc.

192.26 In her cross-examination, it has further come out that she had gone into the shuttered hall through the shutter, namely that, the shutter was open. She does not know how many shutters were open; she had not seen any doors and windows in the hall; she herself was very frightened; when she went into the hall, there were many people inside the hall;

after the public came inside the hall, the shutter was closed; the shutter was not locked from inside, it was just pulled down. The witness has stated that when she was in the hall at that time, she had not seen any Hindu mob in Gangotri Society.

192.27 In her cross-examination, it has come out that when she came out of the shuttered hall, there were a few people behind her and many people in front of her. The witness has admitted that her family members were with her in the shuttered room. She has stated that upon coming out from the shuttered hall, she got separated from them, but they all came out altogether. The witness has stated that when she came out of the shuttered hall, she was not holding anyone's hand and at that time, there was an atmosphere of fear.

192.28 The witness has admitted that after coming out from the shuttered hall, she had reached up to the road. When she came on the road, she did not see any mob. The witness has stated that on that day as well as even today, she does not know as to which society is situated on the road. The witness has admitted that on the road, she was running behind the people of her community. After coming out of the shuttered hall, she was running. The witness has stated that after coming out of the hall on the road, she does not know how far she ran. She has stated that there were people of her community behind her also.

192.29 The witness has stated that while she was running on the road, she had not seen any member of her family. The witness has admitted that as soon as she came to know that the mob had come, she started going back fast. The witness

has admitted that to protect her life, she was going back with speed. The witness has stated that while turning back, she was looking for a place to hide and has voluntarily stated that while she was coming back in this manner, she had seen the mob of people which was standing there and assaulting her mother. At that time, she was so close to the mob that they could see each other's faces.

192.30 The witness has admitted that when she saw her mother being assaulted, nobody tried to assault her, but she had fled to the lane. The witness has stated that nobody had followed in the lane to assault her. She does not know which lane she had entered. She has stated that in the lane which she entered, people from her community were running. The witness has admitted that while the people of her community were running helter skelter in the lane, no one from the mob had assaulted them.

192.31 The witness has stated that when her mother was assaulted at that time, the mob was also assaulting other people from their community. The witness has admitted that she does not know the names of those who were killed and those who were injured. The witness has stated that she had seen them assaulting people of their community from the lane. The witness has stated that upon seeing her mother being assaulted, she was frightened and went away. The witness has denied that she had fled back on the road of the shuttered hall. The witness has stated that while they were returning, she had not reached the lane from which they had come out. The witness has admitted that from the lane in which she entered, she had directly reached Gangotri Society. In her cross-

examination, it has come out that, to reach Gangotri Society, she was not required to jump over any wall and could straightaway reach the hall in Gangotri Society. She has stated that she does not know as to in which terrace of Gangotri Society she had reached at night. She cannot say as to on which side of the shuttered hall, this terrace was.

192.32 In her cross-examination, it has come out that at that time when she went back to Gangotri for the last time, the people from her community were running in front of her and upon seeing them, she too, had gone on the terrace. The witness has denied that in fact, she does not know as to what incident has taken place with her mother and sister.

192.33 The witness has admitted that she had willingly given her statement dated 11.5.2002. Certain parts of her statement dated 11.5.2002 are put to the witness, wherein she has stated that at that time, at around 10 o'clock, the people in their chawls started shouting "run, run, the Hindu mobs have come inside the chawls" due to which, all the members of their family together left their house and fled from there and went from near the S.R.P. camp to Gangotri Society and they were not permitted to enter Gangotri Society due to which, they were terrified. There is a big room in Gangotri Society which has shutters and they had entered that room and they were sitting there. At that time, the other people from their chawl also came running there and sat with them and those who came there had told them that both their houses were set on fire by the Hindu mobs due to which, her mother started crying and till 4 o'clock, they stayed in Gangotri Society. At around 4 o'clock, the Hindu people from Gangotri Society and

Gopinath Society had told them that they should quietly go away from there towards Naroda Gam and they would be safe. Therefore, her parents and her brother, sisters as well as her maternal aunt's son Rais, aged 23 years and other Muslims were fleeing towards Naroda Gam and while running, when they reached near Gopinath Society, a huge Hindu mob was present there, due to which, when they reached near the wall of Gopinath Society, the mob had come near them and the people in the mob had surrounded her mother Zarina, aged 50 years and sister Naseem, aged 17 years, due to which they all were frightened and turned back and went and sat on a terrace of Gangotri Society and the mob had sprinkled kerosene on her mother Zarina and sister Naseem and ignited a fire and set them ablaze, which they had seen from the terrace. However, there were many people in the mob and hence, they do not know anyone and her mother and sister died on the spot and they had not gone to see them and they had stayed on the terrace of Gangotri Society and at around 10 to 11 o'clock at night, the police came with vehicles and took them to Shah Alam camp. She and her father, her sister Shabana and her three brothers and maternal aunt's son Rais had gone to Shah Alam camp. She does not know as to when the police had carried out the rituals upon the death of her mother and sister and that her maternal aunt's son Rais was also injured in the stone pelting by the mob and at present, he has gone to Aligarh. It may be noted that this part of the police statement of the witness is simply brought on record without seeking to contradict any part of her evidence.

192.34 The witness has denied that the accused whom she has named in her examination-in-chief and has attributed

roles, have not been named by her in her statement dated 11.5.2002.

192.35 From her cross-examination, it has come out that her statement dated 14.9.2008 was recorded to clarify as to why the facts stated by her before the SIT were not stated earlier and she had informed the SIT that whatever she had stated before them had all been stated by her before the police. The witness has denied that her statement dated 11.5.2002 was read over to her when her statement dated 3.6.2008 came to be recorded. The witness has voluntarily stated that her statement dated 11.5.2002 was read over to her when her statement dated 14.9.2008 was recorded. It appears that in the statement dated 3.6.2008, there is no reference to the statement dated 11.5.2002 being read over to the witness.

192.36 In the cross-examination of this witness, it has come out that after 11.5.2002, there was a discussion in their area that the police has not recorded what was stated by them. The witness has stated that she does not remember exactly as to after how much time after they returned from the camp and went to reside in their area, that such discussions started in their area. The witness has stated that prior to her marriage, she was residing at her paternal home and during that period also, there were discussions amongst the people that the police had not recorded their statements as stated by them. The witness has admitted that she has not lodged any complaint regarding the police not recording her statement as stated by her.

192.37 The witness has stated that prior to her statement before the SIT, no social worker or leader had come to meet her. The witness has denied that prior to going for recording her statement by the SIT, the leaders and workers of their community had prepared her as regards what she should state in her statement and had tutored her. The witness has denied that whatever she was told and tutored by those who had come with her, was stated by her before the SIT. She has denied that she has stated all the correct facts in her statement dated 11.5.2002; however, subsequently upon the leaders of her community tutoring her, she had given a changed version before the SIT and that since the statement recorded in the year 2002 was correct, she had not made any application till 2008.

192.38 The witness has denied that none of the incidents and facts stated by her in her examination-in-chief have taken place in her presence. The witness has denied that she is falsely deposing before the court and due to personal vengeance, though the accused were not present, she is falsely implicating them.

192.39 The witness has deposed that on the day of the incident she had gone from her house towards S.R.P. Quarters through Jawannagar Lane No.1. The witness has admitted that when she entered Barkatkhala's house in her lane, till then there were no disturbances. At that time, when she was going to S.R.P. Quarters, she had not seen any rioting in Lane No.3. The witness has admitted that from Gauri Apa's Terrace, they had climbed down to Gangotri Society.

192.40 The witness has stated that after she left the hall at Gangotri Society, she had fled towards Teesra Kuva. The witness has admitted that as soon as they came out of the hall, Shabana got separated from them. The witness has admitted that she does not know as to by which road Shabana had gone after she came out of the hall. The witness has admitted that she had to turn around to see the attack on her mother. She has denied that there were mobs of Muslims behind her and her mother was in that mob. She has denied that the mobs which had attacked had come from all four sides. The witness has stated that the mobs had come from the direction of Noorani Masjid and Teesra Kuva. She has admitted that there were a large number of people in the mobs, but as out of fear they were running, she is not certain about it.

192.41 The witness has stated that she has seen her mother being attacked with a gupti. She has stated that she had not waited to see whether she had fallen down there. She had entered inside the lane. She has stated that she cannot say exactly where her mother was attacked, but it was on the Gopinath – Gangotri road. The witness has stated that she has not noted any physical features of the persons whom she had seen. The witness has admitted that during the course of investigation, no test identification parade of the accused persons whom she had identified was carried out.

192.42 The witness has denied that the accused persons whom she had identified had not assaulted her mother with a gupti and burnt her anywhere on the S.T. Workshop and Teesra Kuva road. She has denied that her mother was killed in Lane No.3, Jawannagar. The witness has denied that

Barkatkhala and Gauri Apa's lane is called Lane No.3 and Barkatkhala's house is situated in Lane No.3, which is next to the S.R.P. Group - 2 and her mother had died there. The witness has admitted that she had not seen her mother's incident at Lane No.3, Jawannagar and has voluntarily stated that because her mother did not die there.

192.43 The witness has admitted that at the camp, she had lodged a complaint in connection with her mother's death. The witness has admitted that in the complaint, she had stated everything. The witness has admitted that the police was in uniform. The witness has stated that she does not know as to whether the police were writing down everything stated by her and has voluntarily stated that they had not written down everything that she had stated. In her cross-examination, it has further come out that after the incident she had gone from the camp to her house to see the damage. The police had taken her there. The police had drawn a panchnama of the damage caused to her house. The police had put questions to her with regard to the damage. The witness has admitted that while drawing the loss and damage panchnama, she had not given the names of the accused persons whom she had named in the examination-in-chief, for the reason that they were asking her about the damage, and hence, there was no necessity to give the names of these persons.

192.44 The witness has denied that her younger brother Raja had seen the incident of her mother and that she and her other family members had not seen it.

192.45 The witness has admitted that she had made an

application to the SIT for recording her statement. The witness has identified her thumb impression in the application Mark 644/44 and the application is given Exhibit.1515. The witness is thereafter cross-examined with regard to where and how the application was made. The witness has denied that at the instance of the SIT and the people of her Jamaat, she had falsely given the names of the accused in her deposition.

192.46 The witness has admitted that Lalabhai is her brother-in-law. The witness has stated that she does not know that there is a dispute between Lalabhai and Suresh Langda and that there was a fight and Suresh Langda had beaten her brother-in-law, due to which, at the instance of Lalabhai, she was wrongly giving the name of Suresh Langda. The witness has denied that her mother used to tie a rakhi to Bhavani and Dalpat and that as stated by her in paragraph 7 of her examination-in-chief, since Jaybhavani had refused to let her and her mother sit in his house, keeping a grudge against him, she has falsely given the names of Jaybhavani's son and daughter.

192.47 The court has posed a question to the witness, wherein she has admitted that she does not understand the distinction between a complaint and a statement and considers everything written down by the police as a complaint. In her further cross-examination, the witness has stated that she has not put her thumb impression below anything written by the police at the camp.

192.48 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-

examined the concerned assignee officer/Investigating Officer who had recorded such statement.

192.49 PW 278 Shri R.B. Joshi, the assignee officer has admitted that he has recorded the statement of this witness on 11.5.2002 and that he had read over the contents of the statement of the witness. The assignee officer has admitted that this witness has stated before him that on 28.2.2002, there was a call for Gujarat Bandh and they were at home. At that time, they were having tea and snacks. At that time, it must have been around 10 o'clock in the morning when the people of their chawl started shouting "run, run" the Hindu mobs have come to the chawls"; hence, all the people in their house together left the house and fled from there and from the side of S.R.P. Quarters went to Gangotri Society but were not permitted to enter Gangotri Society. Hence, they all entered a huge shuttered room in Gangotri Society and were sitting there. At that time other people from the chawl also came running to the room where they were sitting and started telling them that both their houses have been set on fire by the Hindu mob and have been burnt, due to which, her mother started profusely crying and till 4 o'clock they had remained in Gangotri Society. At around 4 o'clock, the Hindu people of Gangotri Society and Gopinath Society had told them to slowly escape from there and go towards Naroda Gam then they would be safe, due to which, they as well as their mother and father and brothers and sisters as well as her maternal aunt's son, Raees aged 23 and other Muslims were running and going towards Naroda Gam and while running, when they reached near Gopinath Society, a huge Hindu mob was present there, due to which, when they reached near the compound wall of

Gopinath Society the people in the mob had come near them and the people in the mob surrounded her mother Zarina aged 50 and her sister Naseem, due to which, out of fear, they turned back and went and sat on the terrace of Gangotri Society and the people in the mob sprinkled kerosene/ petrol on her mother Zarina and sister Naseem and ignited a fire and burnt them, which they had seen from the terrace. However, since there were a large number of people in the mob they could not recognise any one and her mother and her sister Naseem died on the spot and they had not gone to see them and had remained on the terrace of Gangotri Society till around 10 to 11 o'clock at night, after which, the policemen came with vehicles and took them to Shah Alam camp. She, as well as her father, her sister Shabana and her three brothers and maternal aunt's son Raees had gone to the Shah Alam camp and as to when the police had carried out rituals pursuant to the death of her mother and sister, she does not know and that her maternal aunt's son was also injured in the stone pelting by the mob, who at present has gone to Aligarh. The assignee officer has admitted that the witness in the statement recorded by him has not named Pintu, Suresh, Chintu, Naresh, Hariyo, Bhawani's daughter and Bhawani's son by name and has also not attributed any role to them.

192.50 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has in his cross-examination admitted that he has recorded the statements of this witness on 3.6.2008 and 14.9.2008.

192.51 The contents of paragraphs 5 and 8 of the examination-in-chief of the witness, as reproduced in

paragraph 662 of the deposition of the Investigating Officer are read over to the Investigating Officer, who has admitted that these facts have not been stated by the witness in the statement recorded by him. The Investigating Officer has admitted that this witness in her statement dated 14.9.2008 had stated before him that upon being asked personally, she is giving further statement and that earlier she had given her statement dated 11.5.2002 which is as dictated by her and is correct and proper.

192.52 The contents of paragraph 104 of the deposition of the witness are read over to the Investigating Officer who has admitted that these facts have been stated by the witness in the statement recorded by him. It may be noted that paragraph 104 of the deposition are not any facts stated by the witness, but the contents of the statement dated 3.6.2008 of this witness, as recorded by the SIT are put to the witness, which she has denied.

192.53 It may be noted that a statement under section 161 of the Code can only be used to contradict a witness qua something stated by the witness in his/her examination-in-chief. Thus, what is stated by a witness in his/her statement before the police, cannot be brought on record, except for the purpose of contradicting a witness and it is only when the statement is put to contradict a witness, that such statement can be proved through the testimony of the Investigating Officer. In the present case, the witness has been confronted with her statement recorded by the SIT not for the purpose of contradicting her but merely to bring on record some facts, which is not permissible in law and this part of her testimony

is, therefore, not admissible in evidence.

192.54 SUBMISSIONS: The learned counsel for the appellants invited the attention of the court to the contents of paragraph 72 of the cross-examination of the witness, wherein she has denied that she has not given the names or attributed any role to the accused named by her in her examination-in-chief, in her statement dated 11.5.2002, to submit that a contradiction as regards the names of the accused and the role attributed by the witness has been brought on record.

192.55 Reference was made to paragraph 137 of the evidence of PW-278 to submit that the assignee officer has admitted that the witness has not named any accused in the statement recorded by him. It was submitted that the witness has given a narration of four different incidents involving different accused. In paragraph 7 of her examination-in-chief, she has implicated Jaybhavani and in paragraph 9 of her examination-in-chief, she has made specific allegations about the injuries caused to her mother against four accused, viz., Suresh, Naresh, Hareh, Guddu, Jaybhavani's daughter, Jaybhavani, Jaybhavani's son, Chintu and one light eyed boy. It was submitted that the allegations basically are against first four accused, then there are no specific allegations against the others as to when Jaybhavani's daughter was serving water. It was submitted that except Jaybhavani, Guddu and Dalpat, no names of other accused have been given by the witness to the police in her first available statement dated 11.5.2002. All the names have come for the first time before the SIT. It was submitted that the witness has given the narration of four different incidents involving different accused. In the first

incident, she refers to Jaybhavani. In paragraph 9, in the second part, a specific allegation is made with regard to assault made on her mother by way of a gupti blow by Suresh, Naresh, Haresh and Guddu. It was submitted that on a conjoint reading of these allegations, it is clear that her mother's assailants are Suresh, Naresh and Haresh. It was submitted that Jaybhavani's daughter was serving water. In paragraph 10, once again general allegations are made with specific reference to Jaybhavani's daughter that she was dispensing kerosene to the members of the mob. It was submitted that if all these four incidents are taken together, except Jaybhavani, Guddu and Dalpat, names of no other accused are given by the witness to the police in her statement dated 11.5.2002. It was submitted that the names of all other accused have been given by the witness for the first time before the SIT. It was submitted that six names have been given before the SIT for the first time, either by relationship or by their first name, but no attempt is made to establish their identity by holding a test identification parade to rule out the possibility of wrong or incorrect implication of an accused. It was submitted that Pintu's name is not there in the police statement and comes up for the first time before the SIT. It was submitted that before the court, she has identified a curly haired person as being accused No.60 Pintu alias Dalpat's son. Therefore, insofar as Dalpat's son Pintu is concerned, there is a clear misidentification. As far as the SIT statement is concerned, it is not alleged and even before the court that the police had not correctly recorded the statement to miss out the name which she wanted to give.

192.56 The learned counsel further invited the attention of

the court to certain discrepancies between the testimony of PW-209 Shabana who is the sister of this witness and the testimony of this witness, to submit that Shabana in her testimony has referred to the presence of Bhavani and Manu, whereas this witness refers only to the presence of Bhavani. Thus, there is an inconsistency between two statements. It was submitted that according to Shabana, there was no mob on the road on the side of Noorani Masjid. It was submitted that this witness in paragraph 61 of her cross-examination, has stated that she has not seen a mob on the road when she came out and has thereby contradicted herself. It was submitted that according to this witness, while she was fleeing, she looked back and saw her mother's incident. The learned counsel submitted that the witness would not look back, but would be looking over her safety. It was submitted that it is natural human conduct that when a person is running, he will not look back to see how many persons were there.

192.57 It was submitted that this witness in her examination-in-chief, has referred to a woman with a small child in her hand, both of whom were burnt, to submit that this refers to Raziabanu (PW-251), however, the words put in the mouth of Raziabanu have not been stated by the said witness. It was submitted that when the witness reached Gangotri, it was dark and therefore, she could not have seen anything. It was submitted that except Suresh, no weapons are shown in the hands of any accused and that it is highly doubtful as to whether she had seen any accused there burning them and hence, everything becomes highly doubtful.

192.58 It was submitted that Mahammadmaharroof

Abdulrauf Pathan (PW-191) has stated that Guddu has covered his face with a cloth, whereas some of the witnesses have stated that there were people wearing khakhi shorts and undershirts. It was submitted that no test identification parade has been carried out for the rest of the accused. There are vital and important contradictions in the deposition of this witness and between her deposition and the statement before the police. In her first police statement dated 11.5.2002, she had not given the names of the accused, but thereafter has given the names before the SIT and before the court. Therefore, from her deposition before the court, it clearly transpires that she has not seen the incident of her sister and her mother and has also not seen the named accused. There are also vital and important inconsistencies in her deposition before the court and her sister Shabana Bundubhai Kureshi (PW-209)'s deposition as well as PW-91 and others. It was submitted that this witness is, therefore, not a credible witness and no part of her statement can be relied upon to establish the charge against the accused.

192.59 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness is the sister of PW-209 Shabana and corroborates what Shabana has also deposed and has identified the accused. It was submitted that so far as the omission in respect of paragraphs 5 and 6 of her examination-in-chief in her statements dated 3.6.2008 and 19.9.2008 are concerned, the same are not material omissions for two reasons. Firstly, that her entire statement was not read over to her, and secondly, the fact that they went to Barkat Khala's house and her mother came, is corroborated by her sister Shabana. It was submitted that a suggestion is made in

paragraph 35 of her cross-examination that Suresh, Chintu, Naresh, Haresh, son of Jaybhavani and daughter of Jaybhavani had come to play in the khada and there was some scuffle and, therefore, she is wrongly implicating the accused. It was submitted that such a suggestion is of a trivial nature and cannot be said to be a reason for wrongly naming those persons before the court. It was submitted that insofar as the damage to the property is concerned, the same is not relevant as regards the incident in question and omission of the same is not relevant for the purpose of considering the complicity of the accused.

192.60 It was submitted that as regards other omissions with respect to her statement dated 11.5.2002, the same are not in respect of the incident in question. It was submitted that the witness has already stated before the SIT and before the court and, therefore, the veracity and genuineness of her version about identification is not impeachable and, therefore, involvement of the accused named and identified is proved beyond reasonable doubt.

192.61 ANALYSIS: This witness has been cross-examined at length. Her cross-examination runs into 113 paragraphs. In the entire cross-examination, the only omission and contradiction qua her police statement dated 11.5.2002 is with regard to her not having named any accused in such statement. Insofar as the remaining part of her testimony is concerned, a perusal of the cross-examination of the witness clearly shows that the witness has not been contradicted with any fact stated by her in her examination-in-chief as to her statement dated 11.5.2002 recorded by the police. Except for a general

statement that she has not stated the names and the roles attributed to the accused in her statement dated 15.2.2002, no part of the examination-in-chief of the witness is read over to her for the purpose of contradicting her. Therefore, all that is stated by the witness in her examination-in-chief goes unchallenged. In the cross-examination of the witness, all that has been done is that she is confronted with her police statement without seeking to contradict any part of her testimony and the Investigating Officer is also examined only for the purpose of bringing on record the contents of her police statement. It is settled legal position that the statement recorded under section 161 of the Code can only be used to contradict a witness and not for any other purpose. Therefore, simpliciter no reference could have been made to the witness. Therefore, the entire testimony of the witness goes unchallenged except to the extent that before the police she has not named any accused.

192.62 From the cross-examination of the witness and the testimony of PW-278 the assignee officer who had recorded her statement dated 11.5.2002, it has been established that the witness had not named any accused in the statement recorded by him. Therefore, for the first time, the names of the accused have been disclosed by this witness in her statement recorded by the SIT in the year 2008. The submission of the witness that though at the relevant time she had named the accused, the concerned police officer had not recorded such names, does not merit acceptance, for the reason that the accused named by this witness have also been named by the other witnesses, wherein the concerned Investigating Officer has recorded their names. Therefore, there would be no reason

for the Investigating Officer to not record the names of such accused in her statement. Therefore, it would be very hazardous to rely upon the testimony of this witness to the extent she has named the accused who have allegedly committed the offence when such names have come on record more than six years after the incident.

192.63 Besides, the witness claims to have seen the incident when she looked back while she was running to escape from the clutches of the mob. It is difficult to believe that while fleeing from the scene of offence, the witness could have turned back and seen the incident so clearly as to be able to clearly see how her mother and sister were assaulted and killed. Therefore, to the extent the witness says that she had seen Suresh Langda inflicting a blow with a dagger on her mother's stomach and the role attributed to the accused is concerned, the same appears to be in the nature of improvement and to that extent, the testimony of this witness does not appear to be believable. However, insofar as the manner in which the incident had taken place and the other factors stated by the witness are concerned, neither have the same been challenged in her cross-examination nor do such facts appear to be not credible. Therefore, as regards the version given by the witness regarding the sequence of events in which the incident had occurred, she comes across as a credible and trustworthy witness and there is no reason to discard her entire testimony. To the extent referred to hereinabove, the testimony of the witness deserves to be accepted. However, her testimony would not in any manner assist the prosecution in establishing the charge against the named accused.

193. **PW-213 Hasibkhan Achchhankhan Pathan**, aged 42 years, has been examined at Exhibit-1522. This witness has deposed that his native place is District Farukabad, Uttar Pradesh. He is residing at *Kashiram Mama-ni-Chali* since his birth. At present, he is running a meat shop. In the year 2002, he had a provision store by the name of Farheen Kirana Stores in Hussainnagar.

193.1 In the year 2002, he, his wife Yasminbanu, his three daughters and his son were residing together.

193.2 The incident took place on 28.2.2002. On 27.2.2002, from the news in the T.V., they came to know that the incident of burning a train at Godhra had taken place. On 27.2.2002, the Hindu mob set the Muslim cabins and stalls on fire in Krushnanagar area. Thereafter, on 28.2.2002, the Vishwa Hindu Parishad gave a call for bandh.

193.3 No communal riots had taken place in their area prior to the year 2002 and hence, his family did not have any cause to fear insofar as their area is concerned. Hence, they went to sleep on time at night.

193.4 On 28.2.2002, in the morning at around 7:30 to 8:00, he was at home. At this time, the police came to his house. Shri Mysorewala and Shri Gohel, both of whom were Police Inspectors as well as other police staff had come to his house along with other police staff. They had taken him together with them as they wanted to see as to where the masjid was situated in their area. He had gone with the police.

They moved aside the curtains in the houses and searched inside the houses as well as behind the tank. They had also inspected the masjid. When they came from Juni (Old) Masjid to Noorani Masjid, at that time, tea and snack carts near the Noorani Masjid were open, however, the same were shut down pursuant to instructions issued by Shri Mysorewala to his staff. Thereafter, at around 9:00 to 9:15, the police went towards the Natraj Hotel.

193.5 A few minutes thereafter, the mobs started coming from the direction of the Natraj Hotel towards the Noorani Masjid. Moreover, the mobs also started coming from the direction of Krushnanagar to the Noorani Masjid. The policemen were in front of the mob. More or less all of those policemen, who were with him in the morning, were in front of the mobs. The mobs were vandalizing the stalls and carts near the Noorani Masjid. The mobs which came from the direction of Krushnanagar were burning the chawls and the houses on the road. Due to this, some persons of the Muslim community gathered at the corner of the chawls.

193.6 He had seen the police as well as several accused in the mob. In the mob, he had seen **Bipin Panchal (A-44), Mukesh alias Guddu Chhara, Babubhai Vanzara (A-33), Suresh Langdo (A-22) and Navin Chhagan Chharo (A-51)**. The witness has deposed that the persons named by him were all leading the mob and had weapons in their hands. Amongst them, Bipin Panchal had a sword and a revolver in his hands, Guddu had a dharia in his hand, Babu Vanzara had a sword in his hand, Suresh Langdo had a pipe in his hand and Navin Chhara had a gas cylinder with him.

193.7 Bipin Panchal was screaming and shouting and was calling the people in the mob. They were standing on the road and were beckoning people in the mob towards the Noorani Masjid. The rest of the accused were also vandalizing whatever came in their hands and were breaking carts, cabins, etc. Navin Chhara was bringing gas cylinders, taking out the pin, wrapping a cloth and lighting the gas cylinder and was putting them in the Noorani Masjid and the houses of Muslims.

193.8 At this time, in order to draw the attention of the police, the Muslims started shouting, "*Save the masjid.*" Whereupon, the police started firing at the Muslim mob and lobbed tear gas shells. At this time, Abid, Piru, Khalid, etc. were injured by bullets. At this time, he went on the terrace of Atikkhan which comes after leaving five to six shops from the Noorani Masjid and was watching everything from there.

193.9 Thereafter, the Hindu mobs started going towards the area of *Chetandas-ni-Chali*, *Badarsing-ni-Chali*, *Taherabibi Chali*, *Hussainnagar* and *Jawannagar*. At these places, they were burning the houses and pelting stones and in all this, the police were with them. Thereafter, he went towards the chawl which is known as *Juni Masjid-ni-Chali* and which is also known as *Jikarhasan-ni-Chali*, to his in-law's house.

193.10 When he went there, he learnt from his wife that his three children, namely, his two daughters and son were missing. Upon inquiring, he found that on the day of the incident in the morning, his pan-cabin was to be inaugurated and hence, his three children had gone there. At first he had

searched for his children, but in the meanwhile, he remembered that his children may have gone to the pan-cabin which was to be inaugurated.

193.11 The people in the mob who had come from Natraj Hotel as well as Krushnanagar were armed with weapons and many persons had tied saffron bands on their heads, they were wearing white undershirts and khakhi shorts, they had trishuls, dharias, pipes, sticks, cans of kerosene and gas cylinders, etc. in their hands.

193.12 He met Mahammadhussainbhai at his in-law's house. He (the witness) had told him that he was worried about his children because they had gone to the pan-cabin which was to be inaugurated and what would have happened to them. Thereafter, he along with his friend Mahammadhussain had gone to look for his children towards his pan-cabin and on reaching there and he saw that the pan-cabin which was to be inaugurated was burnt and there were charred corpses lying on the road. Upon seeing all this, he was very frightened. Thereafter, he and Mahammadhussain went into the lanes of Jawannagar, where people from their community of all ages were sitting and hiding out of fear and anxiety.

193.13 He inquired from those people of the Muslim community who were standing there about his children and he came to know that their young family members were nowhere to be found and that they themselves were worrying about them. In every family, someone or the other was missing.

193.14 Thereafter, he went towards the S.R.P. compound wall, where the S.R.P. Jawans were standing. One side of the S.R.P. compound wall adjoins Jawannagar. He went there, where several Muslims were standing. The S.R.P. people were standing there with guns. At this time, voices of mobs shouting "kill, cut" started coming from Jawannagar. The mobs were shouting from the Jawannagar pit. At this time, the Muslims beseeched the S.R.P. people to let them go inside the S.R.P. Quarters. At that time, the S.R.P. personnel started beating the Muslims. Where the Muslims were standing, the S.R.P. compound wall was broken from where, there were exit road for going into the S.R.P. Quarters. At this time, a person with S.R.P. name plate had beaten him and on the name plate, it was written in Gujarati "K. P. Parikh".

193.15 At this time, the mob which had come to the Jawannagar pit came in the Jawannagar chawls as well as the Muslim areas. At this time, the S.R.P. jawans started beating the Muslims. In all this, there was a stampede amongst the Muslims wherein some climbed on the stairs, some on terraces and some went and hid in the lanes and passages. The Muslims who fell into the hands of the Hindu mobs were killed and burnt. On the day of the incident, many Muslims were killed.

193.16 When all this happened, it must have been around 4:00 to 5:00 in the afternoon. He also ran and climbed a staircase and hid on a terrace. At this time, in the pushing and pulling that went on in the terrace, a boy of their locality named Ayub, fell down and injured his leg and he could not walk. Upon his falling down, somebody had made him sit in a

rickshaw.

193.17 Bipin Panchal, Guddu and Bhavanisingh who is known as Ratilal alias Bhavani, came near his rickshaw and killed Ayub who was sitting in the rickshaw and set the rickshaw on fire. He could see all this from the terrace where he was and he had witnessed all this with his own eyes.

193.18 He could see all this from behind the plastic tank and cement pillars beneath the parapet of the wall. After this incident, he got down from the terrace into Gangotri Society. At this time, there was a fire on all four sides of Hussainnagar and at that time, the mobs were not there. They i.e. he and other Muslims returned to Hussainnagar.

193.19 When they reached Hussainnagar, the people standing on the terrace of the Pinjara's house, which was situated on the opposite side, gestured to them and called them up. Hence, they went to the terrace of the Pinjara's house, where there were around sixty people on the terrace, all of whom were Muslim men and women. From the terrace, they saw the people in the mob were burning all the houses in Jawannagar.

193.20 Thereafter, upon it becoming slightly dark, from the direction of Naroda Patiya, he could hear the sounds of tapes being played. The voices were of Sindhis and Chharas who were singing and dancing and they continued to sit on the terrace. Thereafter, late at night, the police came. The police called out and said that they had come to take the Muslims to the Shah Alam camp. Upon believing that they could trust

them, they came down and were taken to the Shah Alam camp. At this time, on the way at Saijpur, Amdupura, Naroda Patiya, Maninagar etc., stones were being pelted at the police vehicles which were taking them. In this manner, he went to the Shah Alam camp.

193.21 He had inquired about his daughter Rukhsar, son Rameezkhan and daughter Nazmeen, because, he had not found them on the day of the incident. While he was at the camp, seven days after the incident, somebody told him that all his three children were at somebody's house at the S.R.P. Quarters. Thereafter, the police brought his three children from the S.R.P. Quarters to Shah Alam camp. In this manner, he had met his three children seven days after the incident and till then, he had no news about them.

193.22 He had stayed at the camp for approximately four months. Thereafter, he had gone to Juhapura to stay at his sister's house, where also they stayed for three months.

193.23 In the incident, his scooter, house, two shops, all his household articles, ornaments and everything else was destroyed and in this manner, he had suffered loss.

193.24 From the Shah Alam camp, he had gone with the police for drawing a panchnama of his shop. The panchnama of the shop was drawn and he had narrated to the police the names of the accused as well as their acts and the police had told him that their job was only limited to drawing the panchnama and that they had only asked his name and address, etc. and did not write down the other details stated

by him.

193.25 From Juhapura, he returned to his home in *Kashiram-ni-Chali*.

193.26 He came to know upon reading in the newspapers, that a SIT team had come. He had learnt that they were going to investigate into the incident of communal riots, and hence, he had made an application to the SIT. He received summons from the SIT and hence, he had gone to Gandhinagar. His statement was recorded by the SIT at Gandhinagar. Thereafter, the SIT had come to Naroda Patiya where his second statement was recorded. He had narrated all the facts regarding the incident to the SIT.

193.27 The witness has deposed that he has learnt that Bhavani and Guddu are dead and that he can identify all the accused named by him. The witness has thereafter, identified Suresh Langdo (A-22), Navin Chharo (A-51), Bipin Panchal (A-44) and Babu Vanzara (A-33) correctly.

193.28 CROSS-EXAMINATION: This witness is cross-examined with regard to the topography of the area. In his cross-examination, it has come out that Atikkhan's house is situated in the line of Noorani Masjid, where there are shops on the front side and a house on the rear side. In his cross-examination, it has come out that there were five to six other people all of whom were men, when he went on the terrace of Atikkhan's house. The witness has denied that the house was under construction. He has stated that the house, as on today also, is in the same incomplete condition. The witness has

admitted that the terrace of the house is on pillars. On the ground floor of the house, there is a shop and residence, whereas the first floor is on pillars and on the terrace, a parapet and staircase have also been constructed. There is no wall on the terrace except for the parapet. The witness has stated that he was on Atikkhan's terrace for two to two and a half hours. While he was on the ground, he had not seen any Muslim woman cross the road from the S.T. Workshop and come and talk to the police who were standing there. The witness has voluntarily stated that he had seen a woman in police uniform whose name is Aminaben. The witness has admitted that when he went to his in-law's house in Jikarhussain-ni- Chali, he had met his wife. In his cross-examination, it has come out that his pan-galla which was to be inaugurated, was in the last lane of Hussainnagar. He has stated that on the day of the incident, he had gone to his cabin on the road adjoining the S.T. Workshop compound wall and that they were stealthily and worriedly going. The witness has admitted that he and Mahammadbhai were not prevented from going there by anyone and has voluntarily stated that by the time he went there, everything was burnt in the chawl and the mobs had gone ahead and many people were lying dead there. The witness has denied that all these corpses were lying on the S.T. Workshop compound wall road. The witness has stated that some of the dead bodies were on the road and some were in the lanes of Hussainnagar. He has stated that he had reached his cabin in the afternoon, but does not know the exact time.

193.29 In his cross-examination, it has come out that from Jawannagar-ni-Chali; he had reached near the S.R.P. compound

wall, both of which are adjoining each other. He had gone from the Jawannagar lane which directly goes near the S.R.P. Quarters, that is, from Jawannagar Lane No.1. He had met Muslims in the lane on that day. The witness has admitted that there were Muslims in Jawannagar. He has clarified that there were a few Muslims who were hiding and that a majority of the people had left their houses and gone away somewhere. He has stated that when he went from Jawannagar Lane No.1 towards the S.R.P. Quarters, he had seen houses, cots etc. burning. The witness has stated that he cannot even approximately state the time when he reached the compound wall of the S.R.P. Quarters, however, it was day time. At that time, there were around three hundred to four hundred people there. The witness has denied that he had stood near the S.R.P. Quarters wall for about an hour. The witness has denied that in the stampede when he went to climb the staircase, it had become dark. The witness has stated that he cannot say how long he was sitting on the terrace with the plastic tank. The witness has denied that on that day, he had only gone on the terrace with the plastic tank. He has stated that he had not gone on any other terrace of Gangotri Society, but he had gone on terrace in Hussainnagar on Pinjara's house. The witness has admitted that on that day, there were no mobs at the time when they had come to Hussainnagar.

193.30 In his cross-examination, it has further come out that he had occasion to go to the last lane of Hussainnagar for the inauguration of his pan-galla at around 11 o'clock. A Maulvi was going to come for the inauguration ceremony. His children, namely, his son Rameezkhan, his daughters Rukshar and Nazmeen had all gone to his pan-cabin for inauguration.

He does not remember that with whom his children had gone for the inauguration. The witness does not know whether on that day there was inauguration of any other shop or pan-galla or pan parlour in Hussainnagar. He has stated that there was no reason for him not to go to the pan-galla in the morning, but he was going to go there only when it was time. The witness has admitted that he had felt that the SIT had recorded more facts than stated by him. The witness is shown the application Mark 644/37 and he has identified his signature at the end of the application. The witness is given the application and the contents of the application are read over to the witness who is admitted that the facts stated therein are correct and it is exhibited at Exhibit-1529. The witness is cross-examined with regard to the application as to who had written it down for him, when and where etc. The panchnama of the Kirana shop of this witness is produced along with a purshis Exhibit-1530 and the panchnama is given Exhibit-1531. The witness has stated that he cannot say whether all the facts stated therein are correct as the long time has elapsed. The witness is cross-examined with regard to the contents of his application and he has clarified that only purpose for making the application was that the SIT should record the statement and there was no necessity for writing anything else. In the cross-examination of the witness, it has come out that he had told the police who were coming to the camp as well as the Crime Branch people and the Naroda Police Station people to record his complaint and has voluntarily stated that the police used to tell him to go away or else they would put him behind the bars. The witness has stated that at every place he had gone to state what he had stated in his examination-in-chief with regard to the communal riots. He has stated that he had

made all attempts to see that the police write down the facts regarding the incident. He has admitted that his statement was recorded at Naroda by the SIT on 14.9.2008. The witness has admitted that his statement was read over to him by the SIT and that the SIT had taken his signature. He has stated that they had written wrong facts in the statement and that they should remove them. He has stated that in the statement the SIT had recorded that he was involved in chain snatching, offences of loot and gambling case as well as murder case. He does not remember as to whether except for this, anything else is also incorrectly recorded in the statement. The witness has stated that he does not know that in this incident, a person named Ranjit was killed. He has stated that he does not know as to whether the police had arrested him in Ranjit's murder case, but has stated that the police had arrested him. The witness has stated that he knows Ismail Chhotubhai Kathiyar. The witness has admitted that he was his co-accused in that case. He has stated that he does not know case number and has admitted that a session's case was tried against him and has voluntarily stated that he was acquitted in the offence. The witness has admitted that in the case against him, he was charged with the offence of killing Ranjit. The witness has denied that the Sessions Court has directed further investigation in the case and has voluntarily stated that the Sessions Court has directed the police to find out the real culprits. A copy of the session's case is produced on record at Exhibit-1532. The witness has admitted that in the context of this case (Sessions Case No.241/02, 242/02), he had been arrested for seven months from Juhapura. In this case, he must have stayed in jail for around one month after which, he was enlarged on bail. The witness has admitted that Vejalpur police

had arrested him and has stated that when he was arrested by Vejalpur police, he had stated the facts regarding the incident to them. The witness has voluntarily stated that he had stated before the police that they were victims of the incident and that their community has suffered a lot of loss and that they were wrongly arresting him, however, they had not listened to him. The witness has admitted that from 2004 to 2008, till he made application Exhibit-1529, he had not informed any authority in writing about the facts of the incident and the names of the accused. He has voluntarily stated that he had orally made representations to many authorities. The witness has denied that since the appeal against the decision in Ranjit murder case is pending in the High Court since 2004, to pressurize the accused, he has wrongly given their names. The witness has stated that he has got no monetary transactions with the accused identified by him and has no social relations with them. The witness has admitted that when he was near Noorani Masjid, the mobs of both the sides were different. The witness has voluntarily stated that when he went to the terrace, the mobs had merged. The witness has admitted that even when the mobs were separated, he had identified accused whom he had identified before the court. He had seen Bipin Panchal, Babu Vanzara, Navin Chhara in the mob coming from Krushnanagar as well as Guddu Chhara and Suresh Langda in the mob coming from the direction of Natraj. The witness has stated that in the year 2002, he had a shop in Hussainnagar. He has denied that from the year 2002 to 2008, his shop was adjoining Babu Vanzara's shop. The witness has denied that even prior to 2008, he had forcibly tried to purchase Babu Vanzara's shop from him at a lesser price and since Babu Vanzara was not selling the property to him, after

2008, he had wrongly given his name.

193.31 In the cross-examination of this witness, it has come out that he had not seen any rickshaw standing in the Jawannagar lanes through which he had passed. The witness has stated that he does not remember as to whether in the lanes of Gangotri Society through which he passed, where any rickshaw was lying. The witness has denied that he had got down from Gangotri Society into Jawannagar. He has denied that there was no rickshaw in Jawannagar at that time. He has stated that he had seen the rickshaw in which a boy named Ayub was made to sit near the S.R.P. compound wall. This rickshaw was on the road which comes out from the last lane of Jawannagar near the S.R.P. compound wall.

193.32 The witness has admitted that at that time, no lights were on the electric poles when he went from Jawannagar to Gangotri society and has voluntarily stated that at that time, it was a day light and there was no need of it. The witness has denied that he has not gone near the S.R.P. compound wall or on any terrace on the day of the incident and that he is stating false facts that he has not seen Ayub and he is stating false facts. The witness has admitted that he has studied only up till 5th standard and does not know how to read or write English.

193.33 Certain omissions in his statements dated 2.6.2008 and 14.6.2008 recorded by the SIT are brought out in the cross-examination of the witness. The witness has denied that on the day of the incident, the police had come and obtained details of the area from him and had stated that the police had

only taken him with them. He has stated that he knows that the person who rolled the gas cylinders and brought them was Navin Chharo. He has denied that considering the circumstances of that day, it was not possible for any person to roll the gas cylinders and take it. The witness has denied that prior to this case, he had demanded three lakh rupees from Navinbhai, and upon Navinbhai not giving the money as demanded by him, he had falsely implicated him in this case.

193.34 The defence has cross-examined the Investigating Officer/assignee officer who had recorded the statement of this witness to bring out the omissions and contradictions therein.

193.35 PW-291 M. B. Raj, the assignee officer has, in his cross-examination, admitted that he had recorded the statement of this witness on 17.7.2002. He has admitted that before him, the witness had stated that on 28.2.2002, there being a call for Gujarat Bandh in the context of Godhra train murder incident, at 9:30 to 10:00 in the morning, a mob of ten to fifteen thousand Hindus armed with weapons charged towards Hussainnagar shouting "kill, cut" due to which, there was a pandemonium and hence, he had closed the shutter of his shop, locked it and fled to protect his life.

193.36 The contents of paragraphs 6, 7, 8, 9, 10, 11 and 13 to 23 of the examination-in-chief of the witness are read over to the assignee officer who has admitted that this witness has not stated the facts stated therein in the statement recorded by him. The contents of paragraph 12 of the examination-in-chief of the witness are read over to the assignee officer who has denied that all the facts stated by the witness have not

been stated by him in the statement recorded by him. The assignee officer has stated that the witness had not given the names of different chawls, but had given the name of Hussainnagar. Similarly, where the witness had stated that he had gone to his in-law's house, he had stated that he had gone home. Other than that, the remaining facts have not been stated by him.

193.37 The assignee officer has admitted that this witness had not named any accused in the statement recorded by him. The assignee officer has admitted that on the day when he had recorded the statement of this witness, on the same day, he had also drawn a panchnama of his property. He has admitted that it has not happened that he had told the witness that the task of the police is limited to the panchnama and that he had only asked him his name and surname.

193.38 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), has in his cross-examination admitted that he has recorded the statements of this witness on 2.6.2008 and 14.9.2008. The contents of paragraphs 53, 84, 116 and 125 of the deposition of the witness are read over to the Investigating Officer, who has admitted that the following facts were stated by the witness in the statements recorded by him, namely that "*.....the name K.P. Parikh was written, he had beaten mr, at this time it was around 5:30 to 6:00*", "*..... since my wife had not given the names of the accused in her statement, I had made an application to the SIT...*"; "*.... when I was present at 9:00 to 9:15 at that time....*"; "*..... and it had become slightly dark at that time a boy named Ayub tried to run away and had jumped from the top and had sustained fractures....*".

193.39 The Investigating Officer has admitted that this witness in the statement dated 2.6.2008 recorded by him had stated that while searching for his children he had gone towards the S.R.P. Quarters together with the people belonging to his community, there, in the field opposite Jawannagar, a huge mob of Hindus armed with weapons was standing, to protect themselves they had resorted to cross stone pelting.

193.40 The contents of paragraph 8 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein he has stated that thereafter after a few minutes, the people in the mob from the direction of Natraj started coming towards the Noorani Masjid. Moreover, from Krushnanagar also the mob started coming towards the Noorani Masjid. The police were in front of the mob, those police who were with him in the morning almost all of them were in front of the mob. The mobs started damaging carts and stalls near the Noorani Masjid. The mob which came from the side of Krushnanagar started burning the chawls and the houses. Because of this, a few people from their Muslim community gathered at the corner of the chawl. The Investigating Officer has admitted that the witness has verbatim not stated these facts in the statement recorded by him. However, in the statement recorded by him, the witness has stated that they had roamed around the area and had got the shops, stalls etc. shut down and had paid a visit, in the meanwhile at around 9:30 to 10 o'clock mobs of people started gathering near Natraj Hotel as well as Krushnanagar and were coming towards the Noorani Masjid.

193.41 The witness had also stated that the mobs of people

had gathered and were coming towards the Noorani Masjid and the police were also in front of them. The Investigating Officer has stated that except for this, the other facts are not stated in the statement.

193.42 The Investigating Officer has admitted that the facts stated in paragraph 10 of the examination-in-chief of the witness namely that Bipin Panchal was screaming and shouting and was calling the people of the mob, have not been stated by the witness in the statement recorded by him, however, the witness has stated that Bipin Panchal was leading the mob and has also stated the other facts.

193.43 The Investigating Officer has admitted that in the first four lines of paragraph 14 of his examination-in-chief, the witness has not mentioned the words, "certain people".

193.44 Certain extracts of paragraph 21 of the deposition of the witness are read over to the Investigating Officer wherein the witness has stated that he could see everything from the cement pillars below the parapet wall and the plastic tank on the terrace. After the incident, he got down from the terrace into the Gangotri Society. At this time, there was fire on all four sides in their Hussainnagar and at that time, the mobs were not there. They, that is, he and other Muslims returned to Hussainnagar. The Investigating Officer has admitted that these facts have not been stated by the witness in the statement recorded by him.

193.45 It may be noted that at the time of contradicting this witness only the first three lines of this paragraph, namely

that the witness could see everything from between the plastic tank and the cement pillars below the parapet wall. The rest of the portion has not been put to the witness. Under the circumstances, when the witness is not sought to be contradicted qua that part of his examination in chief, the question of proving any omission through the cross-examination of the Investigating Officer would not arise. To that extent, this part of the testimony of the Investigating Officer is inadmissible in evidence.

193.46 The contents of paragraph 28 of the examination-in-chief of the witness are read over to the Investigating Officer wherein the witness has stated that he had come with the police from the Shah Alam camp for preparing the panchnama of the shop. The panchnama of the shop was drawn there at that time, he had informed the police about the names of the accused and the acts committed by them, however, the police had told them that the job of the police was limited to the panchnama and that police had then asked his name, address etc. and they had not recorded the other facts stated by him. The Investigating Officer has admitted that the witness has not stated these facts in the statement recorded by him.

193.47 SUBMISSIONS: The learned counsel for the appellants-accused submitted that three statements of this witness have been recorded; one on 17.7.2002 by PW-291, and two statements have been recorded by the SIT on 2.6.2008 and 14.9.2008. It was submitted that this witness has made a grievance that the police had not recorded what was stated by him. It was submitted that the witness has, in paragraph 28 of the examination-in-chief, himself mentioned that when the

police came to draw the panchnama, he had stated before the police the names of the accused and their roles, but the police did not record such facts, except the details regarding his name, address, etc., saying that the police was only required to draw panchnama. It was submitted that PW-291 the assignee officer, who had recorded his statement dated 17.7.2002 was specifically put a question in this regard and in reply thereto the officer had said that statement of this witness was recorded on the same day when the panchnama of his property was drawn. It was pointed out that the officer has also admitted that it has not happened that the police had told him that the task of the police is only limited to drawing the panchnama and that he had recorded only his name and address, which means that the officer did record his statement as stated by him. It was further submitted that it is proved on record now through the testimony of PW-327 the Investigating Officer (SIT) that what the witness has stated in paragraph 28 of his examination-in-chief has not been stated by him before the SIT, which clearly means that the witness is making such a grievance for the first time before the court.

193.49 The learned counsel submitted that this witness in paragraphs 9 to 18 of his examination-in-chief, does not state the time of the various facts narrated by him, including leaving Kashiram Mama's chawl to come to his house at Zikarhasan-ni-Chali and to the galla which was inaugurated at Jawannagar; then going to the S.R.P. compound; going upon a terrace; from the terrace, going to Gangotri and then coming back to Hussainnagar and going to the Pinjara's house. It was submitted that from morning 9:00 to 9:15 to 4:00 to 5:00 and even subsequent thereto, he does not give the time as to

exactly at what time, what he did and where he was. It was submitted that in the fact situation it was not possible for him to come back from Gangotri to Hussainnagar after 5:00 p.m. and go to the Pinjara's house. It was submitted that after Ayub's incident in Jawannagar, if he says that he had gone to Hussainnagar and the Pinjara's house, he is not telling the truth before the court. It was submitted that the witness has not stated that from which terrace he had seen the incident. It was pointed out that the acquaintance with the accused has not been established and that no test identification parade has been carried out, to ascertain the identity of the accused. It was submitted that as to whether he could have named anybody either in the police statement or before the court, is itself doubtful. It was further submitted that while this witness says that the police had taken him with them, PW-274 Shri K.K. Mysorewala does not say that he went with this witness. It was submitted that the role attributed by this witness to Navin Chhara has not been stated by any witness. It was further submitted that he could not have identified any of the injured persons from Atikkhan's building. According to the learned counsel, from the evidence of this witness, it transpires that he has not seen any incident during the day and he has narrated the facts before the SIT and before the court, after coming to know about the incidents of the day from other persons. It was submitted that there are vital and important inconsistencies between the evidence of this witness and the evidence of other witnesses, like, PW-189, PW-138, PW-143, etc. as regards the happenings at Hussainnagar and at the S.R.P. Quarters. It was submitted that as per his police statement, after seeing the mob, he closed the kirana store in the last lane of Hussainnagar and went home. It was submitted that it is highly

improbable that a person, who being afraid of the mob had closed his shop and fled to his home, would again come out of his house and go to different places where the mobs were burning houses and killing people. It was submitted that the evidence of this witness is not reliable and does not inspire confidence. The attention of the court was invited to the testimony of PW-185 Mahammad Ayub Shofilal Shaikh, at page-19 paragraph 45, wherein reference is made to the inauguration of Asif's the paan cabin. It was submitted that Hasibkhan is also known as Asif. It was submitted that thus, the inauguration in Lane No.6 was of Asif's pan cabin, which creates a doubt about the version of the witness that his paan cabin was to be inaugurated on that day. It was, accordingly, submitted that this witness is not a credible and trustworthy witness, and no part of his evidence can be relied upon to prove the charge against any of the accused.

193.50 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that several questions have been put to the witness regarding the incident of Ranjit, to the effect that he was an accused in that incident and has, therefore, falsely implicated many accused. It was submitted that the incident of Ranjit had nothing to do with the morning incident at which point of time Ranjit incident had not taken place. Therefore, there is no reason to connect the two incidents. So far as the morning incident is concerned it was submitted that no material contradiction has been brought out in the statement of this witness recorded by the SIT. The witness had spotted accused No.44, 33, 22 and 51 with weapons in their hands in the morning.

193.51 It was submitted that insofar as the incident of Ayub is concerned, the witness has named accused No.44 Bipin Panchal, Guddu and Bhavani as assaulting Ayub. Therefore, the witness is consistent about the morning incident and also the incident of Ayub which he has stated in his examination-in-chief, and, therefore, there is no major contradiction which would dent the credibility of the witness as regards the contradiction brought out in paragraphs 96 and 97 of his cross-examination. In respect of the statement dated 17.7.2002, it was submitted that the witness has already stated that he was on the road near his shop, and, therefore, the suggestion made by the defence was denied. It was submitted that in the above view of the matter, this witness is credible and believable and so far as the accused who have been identified by him, namely, accused No.22, 51, 44 and 33 are concerned, it is proved beyond reasonable doubt that they were part of a mob with lethal weapons and accused No.44 was also a party to the killing of Ayub.

193.52 ANALYSIS: From the testimony of this witness, it emerges that at the relevant time his statement came to be recorded on 17.7.2002 by the assignee officer of the concerned Investigating Officer. Subsequently, his statement came to be recorded before the S.I.T. In his examination-in-chief, the witness has stated that he had seen Bipin Panchal (A-44), Mukesh Alias Guddu Chara (deceased), Babubhai Alias Babu Vanjara (A-33), Suresh Langda (A-22) and Navin Chhara (A-51) in the mob with the police on the road in the morning. The witness has also attributed specific weapons to them and has attributed specific roles to Bipin Panchal and Navin Chhara. The witness has deposed that thereafter there was

firing by the police and teargas shells were lobbed, wherein Abid, Piru, Khalid, etc. were injured. At that time the witness had gone to Atik Khan's terrace which is near the Noorani Masjid. According to the witness thereafter the mobs started entering the chawls and the witness had gone to his in-law's house at Jikarhasan-ni-Chali. Thereafter, he went to look for his children, who had gone at the place where his paan cabin was to be inaugurated on that day, and together with one Mohammed Hussain he had gone to look for his children at Jawannagar. Thereafter, he had gone towards the S.R.P. Compound wall, where many Muslims were standing. At that time a mob came from the direction of Jawannagar, but the S.R.P. people did not let them enter inside. The mob came from the direction of Jawannagar into Muslim areas and at the same time the S.R.P. people started assaulting Muslims and there was a stampede among Muslims, some of whom fled on the stairs, others on the terrace and some into the lanes. All this had happened around 4:00 to 5:00 in the evening and he had hidden on a terrace. At that time in the chaos, a youth named Ayub, fell from the terrace and injured his leg and could not walk. Somebody made him sit in a rickshaw. Bipin Panchal, Guddu, Bhavanisingh, who is known as Ratilal alias Bhavani, killed Ayub and set the rickshaw ablaze, all of which he had seen from the terrace. Thereafter, he climbed down from the terrace of Gangotri Society and went towards Hussainnagar and took shelter on the terrace of Pinjara's house.

193.53 In his cross-examination, the witness has admitted that from the year 2004 to 2008, till he made application Exhibit 1529, he had not stated the facts regarding the incident or names of the accused before any authority and has

voluntarily stated that he had made oral representations to many authorities. From the cross-examination of the witness as well as cross-examination of the assignee officer, who had recorded his statement on 17.7.2002, it is established that the witness had not named any accused in his statement dated 17.7.2002. This witness was implicated in the Ranjit murder case and was subsequently acquitted by the trial court. This witness had stayed at the Shah Alam Camp for around four months after the incident. From the oral evidence of this witness it emerges that at the relevant time when his statement was recorded on 17.7.2002 he had not named any accused nor had he narrated the incident of Ayub. Subsequently, at a belated stage when he made the application to the SIT for recording his statement as well as in his statement recorded by the SIT, he has named the accused and attributed specific roles to them. Insofar as acquaintance with the accused named by the witness is concerned, the same has been brought out by the defence in the cross-examination of the witness. Considering the fact that in his initial statement the witness has not named the accused and has named them at a much belated stage after a period of six years without any plausible explanation for the same, it would be hazardous for the court to rely upon his testimony for the purpose of proving the charge against the accused named by him.

194. **PW-214 Saberabanu Abdulaziz Shaikh**, aged 33 years, has been examined at Exhibit-1547. This witness has deposed that she was residing at *Bapunagar* since her childhood and at present, even after her marriage, she is residing there with her husband and her three children.

194.1 The incident took place at Naroda Patiya on 28.2.2002. Her elder brother-in-law Naeemuddin was residing at Hussainnagar in the year 2002. About fifteen days prior to the incident, they had come to stay at her brother-in-law's house at Hussainnagar as he had invited them to come to stay at their house. She, her husband and her children, all of them had gone to Hussainnagar to her brother-in-law's place.

194.2 In the year 2002, she had three children. Her elder son was Wasim, aged 8 years, her second son Salim, aged 6 years and her third son Sabir, aged 4 years. Her husband's name is Abdulaziz Shaikh and he was doing tailoring work at Gheekanta.

194.3 On the day of the incident, she was at Patiya at her brother-in-law's house. They woke up at around 7 o'clock in the morning on that day and had the breakfast and woke up the children and also gave them breakfast. On that day, in the morning at about 9 o'clock, sounds started coming from outside that a big mob of Hindus had come and they have attacked the Noorani Masjid. At that time, her aunt-in-law told them to read the Quran Sharif. Thereafter, the people in the mob entered the chawls with weapons like sticks, pipes, swords etc. The mobs also entered Hussainnagar. The mobs started advancing forward and they (the witness and others) started going towards the rear side. The people of her family as well as other people of the chawl were all together.

194.4 In the direction in which they were going, there was a closed house which had a chain and they went inside and sat there. They had opened the chain lock and entered. She does

not know as to whose house it was. When they were in the house, they heard that the mob was also coming in that direction, and hence, they set off from there and they reached a house with a terrace. From the terrace of that house, they got down in a house of a Hindu society. In this society, there was a huge godown with shutters and they went and sat in the godown. At this time, her family members were with her and they sat there for a considerably long time.

194.5 After a little while, a person came there and he told them that arrangements have been made to send them towards the open ground, and hence, they should come to the ground. Therefore, they came out of the godown and started going towards the open ground.

194.6 At this time, a mob was coming from the open ground. The mob was coming with petrol, kerosene, pipes, swords, etc. and hence, they ran towards the chawls. From the direction of the chawls, another mob was coming from outside. The people in this mob also had kerosene, petrol and weapons in their hands. At this time, there was a water tank in a passage and they all entered into the passage. There, the people of the mob pelted stones at them and assaulted them with sticks and other weapons. Many people were standing on the tank, and from the terrace of the tank, these people were throwing kerosene, petrol and quilts upon them and were setting them on fire. At this time, her brother-in-law Yunusbhai was with them and both her sons were in his hands. Her sons' names were Wasim and Salim. A woman came and snatched both the children from her brother-in-law's hands and climbed on the water tank and threw her children into the burning fire.

194.7 Her younger son Sabbir was with her. At this time, her husband had jumped over the wall which was there and with a view to see that the mob does not throw her son Sabbir also in the fire, she threw him on the other side of the compound wall. Both her children who were thrown in the fire died on the spot.

194.8 In the incident, she sustained burn injuries on both her hands, her back, her chest and her legs.

194.9 In the fire which the mob had ignited at the scene of incident, she too had sustained burns on different parts of her body in the same fire. On account of being burnt in this manner, she was lying at the scene of incident till late at night.

194.10 Late at night, the police came to the spot and took them to the Civil Hospital for treatment. She stayed at the Civil Hospital for treatment for two months. Upon her treatment being over, she had gone to the Shah Alam camp. In the meanwhile, her husband had met her at the Civil Hospital and thereafter, she had met her child at the Shah Alam camp.

194.11 The witness has further deposed that she does not know any of the persons in the mob, who had as stated earlier, committed the acts as narrated by her. At the time of the incident, she had come to her brother-in-law's house for the first time and hence, she was a stranger to the Naroda area and its people.

194.12 CROSS EXAMINATION: In her cross-

examination, the witness has stated that her husband's full name is Abdulaziz Abdulhamid Shaikh. The witness has been cross-examined as to her statement dated 3.3.2002 recorded by the police to the effect that she has not stated the facts stated by her in paragraphs 6, 7 and 8 of her deposition.

194.13 In the cross-examination of this witness, the contents of paragraphs 6, 7 and 8 of her examination-in-chief are read over to her, to the effect that she has not stated such facts in her statement dated 3.3.2002, which the witness has denied. The witness is also read over the contents of paragraph 9 of her examination-in-chief to the effect that she has not stated such facts in her sole statement recorded by the police. Certain extracts of the witness's statement are put to her wherein the witness has stated that on 28.2.2002 *jhumme raat* at 6 o'clock in the evening, about five thousand persons belonging to the Hindu community entered their chawls with petrol and kerosene cans, sticks and pipes in their hands whereupon there was a pandemonium in the chawls. She, her husband, children and the people of the chawl went running and came near Gangotri Society and in the meanwhile, the people in the mob started throwing kerosene at their houses and burning them. The witness has voluntarily stated she did not even know of a society by the name of Gangotri Society. The witness has admitted that in her statement she has stated that upon the mob coming from the other side, petrol and kerosene was thrown on the people of their chawl and they were set ablaze and in the meanwhile, her husband jumped over the wall nearby and upon setting them ablaze, both her sons Wasim and Salim were burnt there and she had sustained burn injuries on both her hands, legs, chest and back and in

the meanwhile, upon the police vehicles coming. ... The witness has denied that she had also stated that upon the police vehicles coming, the mob had fled.

194.14 The witness has stated that she is not aware that some Magistrate had come to record her dying declaration when she was under treatment at the Civil Hospital. She has stated that while she was at the Civil Hospital, many people had come to record her statement. She has admitted that some lady had also come to record her statement. The witness has denied that she has not seen the incident and that she is falsely deposing before the court.

194.15 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

194.16 PW-296 Shri J. V. Surela, the assignee officer in his cross-examination has admitted that he has recorded the statement of this witness on 3.3.2002. The contents of paragraphs 6 to 8 of the examination-in-chief of the witness are read over to the assignee officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him.

194.17 The assignee officer has admitted that the witness has not stated before him that she had come near the passage of the water tank and had entered it and that the people in the mob had assaulted her.

194.18 The assignee officer has admitted that in the statement recorded by him, the witness had not stated the words “from the terrace of the water tank”, out of the facts stated by her namely that from the terrace of the water tank, people had thrown kerosene, petrol and quilts. The assignee officer has admitted that in the statement recorded by him, this witness has not attributed any role to any woman in the incident. However, she has stated that in the incident she and her children were set on fire by the mob, wherein she had sustained burn injuries and both her children had died. The assignee officer has also admitted that the witness had stated before him that on 28.2.2002, *jhumme raat* in the evening at 6 o'clock, around five thousand people belonging to the Hindu community entered their chawls with tins of petrol and kerosene and sticks and pipes and there was a stampede in the chawl. In the meanwhile, she, her husband, her children and the people of the chawl went running and reached near Gangotri Society. In the meanwhile, the people in the mob poured petrol and kerosene on their houses and set their houses on fire. Upon the police coming, the people in the mob fled.

194.19 SUBMISSIONS: The learned counsel for the appellants submitted that this witness in her examination-in-chief has stated that one person had come to the godown and told them to go towards the field where arrangement was made for them, which is inconsistent with what is stated by other witnesses, who have given different version about the people who came and told them to go out of the godown.

194.20 It was submitted that the witness has not named or

identified anyone but considering the contents of paragraph 9 of her examination-in-chief together with paragraph 20 of her examination-in-chief, the fact regarding somebody having snatched her sons and thrown them in the fire is not there in her initial version and that the fact regarding her sons being thrown in the fire by a woman are missing in her deposition. (Both, the dying declaration as well as the statement have been recorded on 3.3.2002, despite which the dying declaration does not contain any details).

194.21 ANALYSIS: This witness is an injured eyewitness, who has sustained burn injuries all over her body. The fact that the witness has sustained injuries during the incident has been established by the injury certificate Exhibit-370, which has been produced on record. The sole statement of this witness was recorded on 3.3.2002 at the Civil Hospital. The contents of her statement have been sought to be brought on record in the cross-examination of the witness and are sought to be proved through the testimony of the concerned assignee officer. The witness has deposed that on the day of the incident, she was staying at her brother-in-law's house at Patiya and has deposed that the mob started entering the chawl, and hence, they had left Hussainnagar and had gone on the rear side together with family members. The witness has stated that they had first gone to a closed house and were sitting there. However, upon the mob coming near, they had climbed on a terrace house and from there they had climbed down into a Hindu Society. In the society, there was a shuttered godown, where she was sitting with her family members. After sometime, a person came and said that arrangements were

made towards the open ground and asked them to go there, and hence, they had gone out of the godown towards the open field. At that time, there was a mob in the open field, which was armed with weapons and was carrying petrol and kerosene, and hence, they had fled towards the chawl. From the side of the chawl also, a mob was coming, which was armed with weapons and had petrol and kerosene. At that time, they had all rushed into a passage of the water tank where the people in the mob had pelted stones and had assaulted them with sticks and weapons. There were many people standing on the water tank, and these people were throwing kerosene, petrol and quilts, on them and setting them ablaze. Her brother-in-law Yunusbhai was with them and he was carrying both her sons named Wasim and Salim. A woman snatched both her sons from her brother-in-law and climbed over the water tank and threw them into the fire. The witness has been sought to be contradicted to the effect that she has not stated such facts in her police statement. In her police statement dated 3.3.2002, which has been brought on record, it has been recorded that the witness has stated that while fleeing they reached Gangotri Society. According to the witness, she was a stranger to that area and was not even aware of the existence of a society by the name of Gangotri. Hence, there was no question of the witness stating that they had reached Gangotri Society. Therefore, it appears doubtful as to whether the assignee officer had recorded the statement truthfully and correctly, as stated by the witness. Another reason to suspect the veracity of the statement recorded by the assignee officer is that he has recorded that upon the police vehicles coming, the mobs had fled, which gives an indication that the statement had been written down by the

officer on his own, inasmuch as, no police vehicles had come to the site of the incident and it is nobody's case that the mobs had fled upon the police coming. Therefore, no reliance can be placed upon such statement, which does not appear to have been recorded in terms of the version given by the witness. Such statement, therefore, cannot be used for the purpose of bringing out omissions and contradictions in the testimony of the witness. Therefore, the narration of events, as given by the witness, is required to be accepted.

194.22 This witness, being a visitor in that area, was not acquainted with the people in the locality and, therefore, could not identify any of the accused, which she has specifically stated in paragraph 14 of her examination-in-chief. Therefore, the testimony of this witness does not come to the aid of the prosecution for establishing the charge against any of the accused.

195. **PW-215 Ashokbhai Hemrajbhai Pandit**, aged 30 years, has been examined at Exhibit-1554. This witness has deposed that on 11.3.2002, he was called by the police to Naroda Patiya, Opposite the Noorani Masjid for the purpose of shooting the video of the scene of offence. The videography of the scene of offence was done between 5:00 to 6:00 in the evening. The scene of offence was pointed out by the police officer and accordingly, he carried out the videography. The spot was opposite the Noorani Masjid, near the S.T. Workshop in Jawannagar and other chawls as well as the societies. The videography was done in the presence of two panchas and the cassette of the video recording was handed over to the police officer on the spot in the presence of the panchas. The witness

has further deposed that upon handing over the video cassette, the same was sealed in a white cloth bag in the presence of the panchas and after verifying the formalities, the signatures of the panchas were taken on the spot.

195.1 The police had recorded his statement in connection with the videography done by him. The video cassette was taken out of the white bag and was shown to the witness who had stated that it was the very same cassette in which he had recorded the videography of the scene of offence on 11.3.2002. The panchnama of the video cassette is exhibited as Exhibit-1228 and the panch slips on the video cassette are exhibited as Exhibits-1229 and 1230.

195.2 The cross-examination of the witness is formal in nature and nothing substantial has been elicited so as to dent the credibility of the witness.

195.3 ANALYSIS: Through the testimony of this witness, the prosecution has proved that contents of the video cassette of the scene of offence as well as the panchnama that was drawn while handing over the video cassette to the police.

196. **PW-216 Sanjay Babubhai Bharvad**, aged 35 years, has been examined at Exhibit-1555. This witness is a witness of the scene of offence panchnama. The witness has deposed that on 9.3.2002, at about 5:00 to 5:30 in the evening, the police had come to call him for the purpose of drawing a panchnama. The police took him to *Hussain-ni-Chali, Naroda Patiya*. *Hussain-ni-Chali* is situated opposite the Noorani Masjid. There was another person also and the police

came along with them. The panchnama was of the scene of offence of the place where the riots had taken place. A Police Officer Shri Solanki had shown the scene of offence.

196.1 The area opposite the S.T. Workshop is mainly a Muslim area, where there are eighteen to nineteen chawls. The interior sides of the chawls had caught fire and the houses had been broken and had been vandalized. After the eighteen to nineteen chawls are over, there is a water tank and below the water tank, there is a room above which, the water tank is situated. They had gone to all the areas of the chawls as well as to the water tank. Damage had also been caused near the water tank. There are approximately eleven shops after the water tank. Thereafter, there is a huge open ground and on the interior side, the S.R.P. Quarters are situated. Beyond the S.R.P. Quarters, the timber marts are situated. They had seen all this also. The S.R.P. Quarters compound wall appeared to have broken recently at that time. Everything was destroyed there and a panchnama of the entire area was drawn. Whatever they had seen at the site, was written down. His signature as well as the signature of the other panch was also taken. Whatever they saw, was written down.

196.2 The witness was shown the panchnama Mark 134/44, which is comprised of, in all, four pages containing handwritings on both the sides. The witness has stated that the end part of the panchnama as well as the margin bears his signature. The other signature is of the second panch who was with him.

196.3 The witness states that he can read, but he reads

very slowly, and hence, the panchnama was read over to him.

196.4 The witness has admitted the contents of the panchnama which has been read over to him, as correct and the panchnama is, accordingly, exhibited as Exhibit-1556.

196.5 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that prior to Exhibit-1556; no other panchnama was read over to him. The witness has admitted that the measurements of the roads shown in the panchnama are correct. The witness has voluntarily stated that he had held one end of the measurement tape himself.

196.6 ANALYSIS: Through the testimony of this witness the prosecution has proved the additional panchnama of the scene of offence Exhibit 1556, which is a more detailed panchnama of the scene of offence and gives a better picture of the houses and shops situated parallel to the S.T. Workshop compound wall as well as the location of the lanes of the chawls.

196.7 PANCHNAMA EXHIBIT 1556: Since this panchnama gives a clearer picture of the scene of offence, reference may be made to the same in detail. A per the panchnama, the road between the S.T. Workshop wall and the chawls is 15 feet wide. The wall of the S.T. Workshop compound is 8 feet high and there is a 7 feet high wire fencing above it. Upon entering Hussain-ni-chali, firstly there are two houses on the right side after which there is lane No.1 for the purpose of going to the houses inside the lane. Thereafter in the same line after leaving five houses there is lane No.2 and

at the entrance of the lane there is a telephone pole. Thereafter after leaving two houses is lane No.3 and at the entrance after leaving one house is lane No.4. Thereafter there are two houses, then comes lane No.5 and upon that lane being over there are three other houses after which comes Lane No.6 after that lane is over there are three houses and then comes lane No.7 and thereafter after leaving two houses there is lane No.8. Leaving two houses thereafter, comes lane No.9 after which there are four shops in the line and two houses after which there is lane No.10 and after lane No.10 there are three houses and thereafter there is space for going to lane No.11. Thereafter there is one house and lane No.12 starts. Thereafter, after leaving two houses and two shops, there is a public toilet behind which there is open space. Thereafter in the same line there is a big iron gate in the compound wall. A small gate and iron grill has been fitted and thereafter there is the lane No.13. Thereafter there are two residential houses and then comes lane No.14 and towards the north of the entrance of the lane, there is a shop called Mahakali Dugdhalaya and on the southern wall of the shop there is a tin board of Jawaharnagar Vikas Trust Board, on which names of the office bearers is written, below which there is a notice board. From where Hussainnagar-ni-chali starts till Mahakali Dugdhalaya all the houses in the line belong to people of the Muslim community. From the entrance of the chawls till the wall of Mahakali Dugdhalaya the distance of the road is 981 feet. The distance between the shutter of Mahakali Dugdhalaya and the S.T. Workshop compound wall is 20 feet. From here to the entrance of the lane there is a curve and no straight road can be seen. There are three houses in the line of Mahakali Dugdhalaya and thereafter comes the shop of Khwaja

Flour Factory. Thereafter comes lane No.15 and there is an electric pole bearing No.A.S.4./16 opposite lane No.15 on the opposite side touching the S.T. Workshop compound wall.

196.8 At the entrance of lane No.15 on the east there is house No.8201, which belongs to Ratilal Somabhai Rathod [known as Jaybhavani (deceased)]. Its main entrance door is towards the wall of the S.T. Workshop. The distance between the western wall of Mahakali Dugdhalaya and house No.8201 including lane No.15, is 81 feet. Touching house No.8201, is the house of Dalpatsinh Abhesinh Jadeja (another deceased accused). Thereafter there is lane No.16. Thereafter, after leaving two houses comes lane No.17. After leaving two houses is lane No.18 and thereafter there is the godown place. Its compound wall is 6 feet high. From house No.8201 till the end of the compound the distance is 330 feet. After the compound of the wall is over, there is a passage which is about 11 feet wide. Inside the passage after leaving 32 feet there is a huge water tank where there is a room below and above the pillars there is a huge tank. Between the room and the compound wall of the godown is a narrow lane which is 2 feet wide. At the end of the compound wall at the entrance of the 11 feet passage, there is a paan-galla by the name of Gayatri Pan Palace. Adjoining the galla, towards the east, there are eleven shuttered shops in a line with their doors facing the north. Between the rear wall of the first shop viz. Shop No.11 and the room of the water tank there is a two feet passage for coming out. Gayatri Pan Palace, which is situated near the southern wall of Shop No.11, is 4 feet wide and 7 feet high. The door of the cabin opens towards the S.T. Workshop compound wall, which at present is closed. From the western wall, Shop

No.11 of the shopping centre till the eastern wall of Shop No.1, the distance of the shopping centre is 119 feet. All the shutters of the shops open towards the compound wall of the workshop after which, comes lane No.19 which is 18 feet wide. From this lane the houses of Gopinath Society start. The measurement till the rear side of the last wall of the houses on the eastern side of the society is 197 feet. From that spot, the S.T. Workshop compound wall also takes a turn from the north to the south and it turns with the curve of the road towards the east. Near the turning there are four twin bungalows of the new under construction Gokul Society and the houses end here and thereafter till far there is open space which is towards the east of the road. After leaving the open space, Mohannagar Society, canal, Navyug School, etc., are situated. At the end of Gokul Society, towards the south from the open space when one turns from the east towards the west, there is a trail for walking. Small vehicles can pass through this small road. Towards the south of the road, after leaving the open space, there are lines of S.R.P. residential houses which are at a distance of 500 feet. On the northern side of the trail, there is an open space for entry and egress into the lanes of the residential houses. Towards the south thereof, the compound wall of the S.R.P. lines houses is situated. From the compound wall there is a way for going and coming into the chawls. For the purpose of ingress and egress from the chawls, there is an opening in the wall. Going from the opening towards the chawls there is a shop named Rashid Hair Art. The lane is of Jawaharnagar and at the western corner of the lane there is a shop by the name of Gayatri Kirana Store which is called the first lane of Jawaharnagar. On the left side of the lane there is a 7 feet high brick wall of which around 20 feet has been

recently/freshly broken. Upon going out of the broken wall on the western side there is a huge open space which is known as the khadawali (pit) place and towards the south of the pit at quite a distance, the houses of SRP line and compound wall are situated. Which is six feet in height and there is five feet wire fencing. Thus, in all, the compound wall is ten feet high. Towards the north of the pit Muslims residential houses are situated. Towards the east and the west of the pit area, there is a road which goes towards the Highway No.8 on the western side. Towards north of the pit area along the boundary of the road, the gates of Ambica Timbers, Panchvati Timber Mart and B.L. Enterprise are situated on the road towards the south. Thereafter, further in the line, Jayshree Krushna Timber Mart, Shakti Timber Mart, Satyanarayan Timber Mart and Uday Gas Agency are situated. Thereafter, in the line, Hanumanji's temple is situated and opposite the temple after leaving the road, the godown of Krushna Products is situated, whereas on the opposite side after leaving the road, Sai Electrical Works is situated. Thus, on both sides of the road, there are godowns. After leaving the godowns when one goes ahead, one can go towards the national highway road. After one comes out of this road, on the road there is a big tin board which has been fixed high up. The board is horizontal wherein the names of Satyanarayan Timber and Jyoti Industries are written. Upon standing on the main road and looking at the road going towards the east, the open space of the pit is not visible. On the north of the corner of the road, there is an AEC pole on which the words "A.S./42" are written in English. Towards the north of the road, on the ground floor, J.R. Electricals, Vishal Auto Parts, Ruby Engineering are situated. On the first floor, Look Me Beauty Parlour with its door facing the west is

situated. Towards the north of this building, a two storeyed Jaiveer Complex is situated. The compound wall of the complex is 10 feet high. In line with Jaiveer Complex, a shop named Milan Hair Cutting is situated. After the houses in this line, there is an open space. Thereafter, the Naroda Narol National Highway No.8 is situated. After leaving the highway, and leaving the open space, in the line of the buildings situated on the opposite side, Gurukrupa Kirana Store is situated. In that line, Pandit-ni Chali, Jakirhussain-ni Chali, Kashiram-ni chali and the Noorani Masjid are also situated, beside which on the road, on the milestone, Narol/0 is written. The distance between Gurukrupa Kirana Store and Milan Hair Cutting is 190 feet which is in the east west direction. The highway road is in the north south direction. Till far, parallel to the highway, open space can be seen. AEC pillar A.S./42 is situated near the tall board of Satyanarayan Timber Mart. From there till the corner of the road going towards Hussain-ni-Chali, the north south distance is 457 feet.

197. **PW-217 Salim Rahimbhai Shaikh**, aged 35 years, has been examined at Exhibit-1562. The witness has deposed that he is residing at *Chetandas-ni Chali* since his birth. He has studied up till the 7th standard. His native place is *Hubli, Karnataka*. In the year 2002, he was doing electric work.

197.1 In the year 2002, his family was comprised of his younger brother Sabir, his younger brother Rashid, his mother Rabiya Bibi and his wife and her son Mustufa, all were residing together.

197.2 In February, 2002, his wife and son Mustufa had

gone to Karnataka as his wife was about to deliver.

197.3 The incident took place on 28.2.2002. On the day of the incident, at 8 o'clock, his mother, who used to work in a thread factory at Naroda road, had gone there and they were all at home. There was a call for bandh on 28.2.2002. Due to disturbances which were going on outside, his mother returned from her service at 9 o'clock in the morning. After his mother came back, since stone pelting was going on at the masjid and there were disturbances outside, they locked their house and all of them went to Gangotri Society and sat there. They sat at Gangotri Society till 5:00 to 6:00 in the evening.

197.4 Thereafter, at around 5:00 to 6:00 in the evening, a mob of Hindus armed with weapon came from the direction of Teesra Kuva. They had pipes, swords etc. in their hands. At that time, the S.R.P. people released tear gas whereafter, there was a stampede there. At this time, in the chaos, his mother's hand got unclasped from his hand. Thereafter, he went on the terrace of a house in Gangotri Society and sat there. Other Muslims were also sitting there.

197.5 About one and a half to two hours after he went and sat on the terrace, his brother Rashid came on the terrace. Before he went to the terrace, **Tiwari Conductor (A-25), Bhavani** and others were standing there with sticks. Thereafter, he had gone on the terrace. Rashid had met him on the terrace. Rashid's head as well as both his hands were burnt. Thereafter, his brother Sabir also came there.

197.6 Thereafter, at around 11 to 12 o'clock at night, all

the three brothers went from the very same terrace to the Shah Alam camp in a police vehicle.

197.7 His brother Rashid had told him that his mother had been burnt by **Sachin** from the mob. He had also told him that this Sachin had assaulted his mother with a pipe in the open space near the water tank between Gangotri and Gopinath Society and had sprinkled kerosene on her and set her ablaze. The witness has stated that he himself has not seen the incident, but upon his brother Rashid telling him, he came to know about the incident. They stayed at the camp for more than five to six months.

197.8 He was taking his mother and going from his house towards Gangotri Society when somebody from the mob threw a brick at them, which struck him on the back and he was injured by it. However, he had not taken any treatment in connection therewith.

197.9 The witness does not remember as to whether the police had recorded any statement of his in connection with the incident at the camp. The SIT people had recorded his statements twice.

197.10 The witness has stated that as far as he knows, Bhavani is dead and he can identify Sachin Modi (A-52) and Tiwari Conductor (A-25) even today. The witness has thereafter identified accused No.25 Tiwari correctly and has stated that Sachin Modi is not present. Sachin Modi had given an exemption application on that day, and hence, there is a deemed identification.

197.11 CROSS-EXAMINATION: This witness in his cross-examination has admitted that he had personally gone for drawing the panchnama of the damage caused to his house. He has admitted that on the same day that the panchnama was drawn, that is, on 7.6.2002, the police had also recorded his statement. The witness is confronted with his statement dated 20.6.2008 recorded by the SIT to the effect that he has stated therein that he met his brother Rashid there, who informed him that a riotous Hindu mob had inflicted a pipe blow on their mother and had felled her and sprinkled kerosene, petrol and burnt her alive near Gopinath Society. The witness has voluntarily stated that he has also stated as to who had killed his mother. He has denied that he has not given the name of Sachin Modi before the SIT.

197.12 The witness has stated that he does not remember clearly but he might have stated before the SIT that he knows this Sachin, who is approximately 30 years old. He does not know what business he carries on at present, he may not even be able to identify him as six years have passed and he cannot identify him. The witness has denied that in his statement dated 7.6.2002, he has stated that as per the information given by his brother Rashid, the people of Gopinath Society, whose names he does not know but whom he knows by their faces, they as well as the youths residing next to their shop, whose names he does not know had come together and inflicted a blow with a pipe on his mother's forehead and sprinkled kerosene on her and set her ablaze and caused her death. He does not know any person in the riotous mob. The witness has voluntarily stated that he had given the names of

Tiwari, Sachin as well as Bhavanisingh. The witness has denied that in his statement dated 7.6.2002, he had not stated any facts regarding Tiwari, Bhavani or Sachin. The witness has admitted that the SIT or any other investigating agency had during the course of investigation not carried out any test identification parade of the three accused.

197.13 In his cross-examination, the witness has further stated that he had seen Tiwari and Bhavani at around 5 o'clock in the evening. He has admitted that he had seen them in Gangotri Society. He has admitted that when he saw both of them, they were on the ground in Gangotri Society. The witness has stated that he does not remember whether he had seen them while he was on the terrace. The witness has admitted that they were at a distance of 10 to 15 feet from him.

197.14 The witness has stated that he cannot say exactly on which terrace of Gangotri Society he had gone. He has admitted that Bhavani and Tiwari were also in the mob which was running helter skelter. The witness has stated that he does not know that in this stampede, Hindus and Muslims all were running to Gangotri Society. He has admitted that Tiwari and Bhavani had not assaulted him at that time. He has admitted that the S.R.P. people were releasing teargas at the mobs which were fleeing to Gangotri Society. He has admitted that Bhavani and Tiwari reside somewhere in Gangotri Society. He has denied that his brother has not told him anything about Sachin and that he is falsely deposing about Bhavani and Tiwari.

197.15 To prove the omissions and contradictions as to his previous statements, the defence has cross-examined the concerned assignee officer/Investigating Officer who recorded such statements.

197.16 PW-281 Shri D. S. Vaghela, the assignee officer has admitted that this witness, in his statement recorded on 7.6.2002, has stated that the police were releasing tear gas shells from both sides and were also firing. That as per the information given by his brother Rashid, his mother was given a pipe blow on her head and kerosene was sprinkled on her and she was done to death by people from Gopinath Society whose names he does not know, but they can be identified by their faces and the boy from the house next to their shop whose name he does not know, was also there. All of them have together inflicted pipe blows on her head, sprinkled kerosene and done her to death. That he could not recognize any person in the mob. The assignee officer has admitted that this witness has not named Tiwari, Bhavani or Sachin in the statement recorded by him, nor has he attributed any role to them.

197.17 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statements of this witness on 20.6.2008 and 25.9.2008. The contents of paragraph 17 of the examination-in-chief of the witness are read over to the Investigating Officer wherein the witness has stated that there he met his brother Rashid who told him that people in the riotous Hindu mob had felled their mother by inflicting a blow with a pipe on her head and had sprinkled kerosene/petrol on her and burnt her alive

near Gangotri Society.

197.18 The Investigating Officer has stated that he wants to clarify that in the statement recorded by him, over and above the above sentence, there are further sentences whereafter the witness has stated that as stated to him by his brother Rashid, the people who killed his mother were Sachin, who resides near Saijpur Tower and other persons. He has stated these facts as well as stated that he knew Sachin since the last thirty years. As can be seen from the cross-examination of the Investigating Officer, though only certain part of the statement of the witness is put to him, wherein there is no reference to any accused, the Investigating Officer in the cross-examination has referred to certain statements made by the witness in the statement recorded by him, which also discloses the names of the accused. The Investigating Officer is only required to prove or deny a contradiction. The contents of the statement of the witness cannot be brought on record, except to the extent necessary to explain such contradiction. Therefore, to the extent the Investigating Officer has referred to the witness having referred to Sachin, the same is inadmissible in evidence.

197.19 The Investigating Officer has admitted that this witness had stated before him that he knows Sachin since about 30 years but he does not know as to what business he does. At present, he might not even be able to identify him since a time of around six years has elapsed, and hence, he may not be able to identify him.

197.20 SUBMISSIONS: The learned counsel for the

appellants drew the attention of the court to paragraph 20 of the examination-in-chief of the witness to point out that a contradiction has been brought out in his statement dated 7.6.2002 recorded by PW-281, to the effect that he had not given the names of Tiwari, Sachin and Bhavani, which has been proved through the testimony of PW-281 who has told that this witness has not named any accused or attributed any role to them. It was submitted that even before the SIT, there is no specific attribution to Sachin. It was submitted that Bhavani and Tiwari are local residents, even as per the evidence of this witness, before the police, no allegations are made against Tiwari and Bhavani and for the first time before the SIT, he has attributed only this role that before he went up to the terrace, he saw Tiwari and Bhavani standing with sticks, however, no overt act or role is attributed to them.

197.21 The learned Special Public Prosecutor submitted that in the cross-examination of this witness an omission is sought to be brought out in respect of the statement recorded by the S.I.T. on 20.6.2008, viz. his brother Rashid had intimated him that a Hindu mob had assaulted their mother and she was killed and that who has killed their mother is not stated in his statement before the police. It was submitted that not naming Sachin before the S.I.T. or the police is not a material omission, because he has not seen Sachin killing his mother, but it was told to him by his brother. Therefore, the omission with respect to Sachin is not a material omission insofar as the incident is concerned. It was submitted that insofar as Tiwari is concerned he has identified him, and, therefore, the presence of Tiwari at the place of incident has been proved beyond reasonable doubt.

197.22 ANALYSIS: This witness has testified that on the day of the incident, on account of the disturbances that were going on, they had gone to a terrace of Gangotri Society and were sitting there till 5 to 6 o'clock in the evening. Thereafter, a huge mob came armed with weapons and while they were fleeing, his mother's hand got unclasped from his hand and thereafter he went and sat on the terrace of his house in Gangotri Society, where other Muslims were sitting. Before going on the terrace he had seen Tiwari Conductor and Bhavani standing below. The witness has further stated that his brother Rashid has told him that his mother had been burnt by Sachin in the mob in the open space near the water tank of Gopinath- Gangotri Society by sprinkling petrol and setting her ablaze. The witness has identified accused No.25 Tiwari in the dock, whereas accused Sachin had filed exemption application, and therefore, he is deemed to have been identified.

197.23 In the cross examination of the witness a contradiction has been brought out that he had not named any of the three accused, namely, Tiwari, Bhavani or Sachin in his statement dated 7.6.2002. The witness is sought to be contradicted as to his statement dated 20.6.2008 to the effect that he had not named Sachin Modi in such statement. It appears that in such statement the witness has not named Sachin in the manner in which he has named him in his examination in chief, but has stated that his brother had told him that amongst the persons who killed his mother were Sachin and other people. In his cross-examination the witness has admitted that Bhavani and Tiwari had not assaulted him and they were residents of Gangotri Society.

197.24 Considering the evidence of this witness in its totality, at the relevant time when his statement was recorded on 7.6.2002, he had not named any of the accused. Insofar as the incident regarding his mother being killed by the mob, at the relevant time as well as before the court, the witness has stated that his brother Rashid had informed him about such incident. Therefore, insofar as the involvement of accused Sachin is concerned, the same is based upon hearsay and has not been witnessed by the witness. Insofar as the involvement of accused No.25 Tiwari is concerned, the witness has not named him in his statement recorded on 7.6.2002 and has named him for the first time after a period of more than six years, in the year 2008. Moreover, as admitted by the witness in his cross-examination, Tiwari and Bhavani did not cause any harm to him and that they were residents of that area. Under the circumstances, no criminal complicity can be attributed to the accused from the testimony of this witness.

197.25 In light of the above, the testimony of this witness would not come to the aid of the prosecution in establishing the charge against either of the two named living accused.

198. **PW-218 Abdulrashid Rahimbhai Shaikh**, aged 28 years, has been examined at Exhibit-1564. The witness has deposed that in the year 2008, he was residing at *Chetandasni-Chali*. In the year 2002 also, he was residing at *Chetandasni-Chali* and he is residing there since his childhood.

198.1 In the year 2002, his family was comprised of his mother, his three brothers, his sister-in-law as well as his

nephew. His mother's name was Rabiya Bibi. In the year 2002, he used to do tailoring work of ready-made clothes. His mother used to work in a thread factory situated at Naroda Patiya road. At present, his elder brother Salim resides at *Chetandasi-Chali*.

198.2 The incident took place on 28.2.2002. On that day, in the morning between 9:00 to 9:30, he was present at home. His mother had gone for her job and from there, since the factory was closed, she came back at around 9:00 to 9:30 in the morning.

198.3 He woke up at home and heard sounds of Hindu mobs. He went out and saw that Hindu mobs were ransacking the Noorani Masjid and setting it on fire and a riotous Hindu mob was standing near the S.T. Workshop. They were standing there and watching and they told the police to protect the Noorani Masjid, but the police was not listening to them at that time and instead, fired at them and released tear gas shells. On account of firing by the police, when the Hindu mobs were rioting, a boy named Mustaq was injured by a bullet. Upon seeing all this, they locked their house and went towards the rear side towards Jawannagar and from there, they tried to go inside the S.R.P. Quarters, but the S.R.P. people did not let them go inside, and hence, throughout the day, they had to run around a lot.

198.4 At about 5:00 to 6:00 in the evening, they were running towards Teesra Kuva, when a Hindu mob also came from that direction. Hence, they came near a water tank between Gangotri and Gopinath Society and were trying to

hide there, when a mob of Hindus came from the direction of the S.T. Workshop, wherein **Sachin** was also there. Sachin had a bloodstained hockey stick in his hand. At that time, in a stampede, his family members got separated from him. He and his mother were together. Hindu mobs came from both the sides. At the water tank, he, his mother and other Muslims were surrounded by the people in the mob. At this time, from the top of the water tank and the terrace of the continuous shops, kerosene and inflammable substances were being poured and after pouring such inflammable substances, they were being set on fire. The Hindu mob was assaulting them with weapons like swords, pipes, etc.

198.5 At that time, Sachin hit his mother with the pipe in his hand which he had seen. The other people in the mob also assaulted his mother. Thereafter, they poured kerosene over his mother and set her ablaze. At this time, kerosene was also poured on his head and his head was burnt, whereupon his mother's hand got unclasped from his hand and he started scratching his head with both his hands and he was burnt on his both hands.

198.6 His mother died on the spot in the incident. Upon getting a chance, he went towards Gangotri Society and sat on a terrace there. At this place, he met his brothers Salim and Sabir and he told his brother Salim all the facts as to how his mother has died. He had stayed on the terrace till late at night till the police came. Thereafter, they went in a police vehicle to Shah Alam.

198.7 At the camp, he met his other brother Khalid also.

Khalid had sustained injury on his leg. He and Khalid took treatment at the Shah Alam camp. He stayed at the Shah Alam camp for three months. Thereafter, he and Sabir went away to their native place at Karnataka.

198.8 The witness has stated that he knows Sachin Modi and that, today also, he can identify Sachin. The witness has thereafter stated that Sachin is not seen in the court. It appears that accused No.52 Sachin Modi had filed an exemption application which was granted. Therefore, the said accused is deemed to have been identified by this witness.

198.9 CROSS EXAMINATION: In the cross-examination of this witness, he has been contradicted as to his statement recorded by the SIT to the effect that he had not stated that Sachin had a pipe in his hand and that he had inflicted blows on his mother with that pipe.

198.10 The witness has denied the suggestion that as he had not seen Sachin on the day of the incident, he had not stated any fact regarding Sachin to his brother Salim.

198.11 The witness has denied that he had only informed his brother Salim that the persons in the mob had killed their mother.

198.12 The witness is contradicted as to his statement dated 3.7.2008, to the effect that he had not told his brother Salim that Sachin had inflicted any blow on his mother Rabiya Bibi. (It appears that the witness had not attributed any role to Sachin in the act of assaulting and burning his mother,

but has stated that Sachin was there in the riotous mob with a hockey in his hand and that he knew him. However, in his statement dated 25.9.2008, the role as attributed to Sachin in his deposition, has been stated.).

198.13 The witness has admitted that all four brothers were there together in the camp and that his elder brother Salim's statement was also recorded at the camp. The witness has denied that because his brother's statement was recorded in the year 2002, he had not got his statement recorded at the camp. The witness has voluntarily stated that he himself had gone for getting his statement recorded, however, the police had not recorded his statement.

198.14 The witness has denied that before the SIT in his statement dated 25.9.2008, he had stated that since one member of the family had already given his statement before the Crime Branch police, he had not given any statement.

198.15 In the cross-examination of this witness, it has come out that on the day of the incident, when he came out on the road for about five minutes, there was *inter se* stone pelting. The witness has further deposed that he has not seen any Muslim being injured in *inter se* stone pelting. He has also stated that he has not seen any Hindu being injured on account of the stone pelting by the Muslims. The witness has stated that he has only stood there to watch the stone pelting. The witness has admitted that there were many other people who were not part of the riotous mob, but coming there to watch like him.

198.16 The witness has admitted that he has not made any application to the SIT for recording his statement and does not remember as to who gave him instructions to get his statement recorded by the STI and as to whether he had been served with any summons by the SIT.

198.17 The witness has admitted that prior to the SIT recording his statement, he had not lodged any complaint with regard to the incident in which his mother had died. The witness has denied that he has not seen the incident and that at the instance of the leaders of their community, he was falsely deposing.

198.18 To prove the omissions and contradictions in the previous statements of this witness, the defence has cross-examined PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) who had recorded such statements. The Investigating Officer has, in his cross-examination, admitted that he had recorded the statements of this witness on 3.7.2008 and 25.9.2009. The Investigating Officer has admitted that in the statement recorded by him, the witness has not stated that Sachin had a pipe in his hand and that he had assaulted his mother with that pipe. The Investigating Officer has stated that the witness had stated that together with the people in the mob he had seen Sachin Modi with a hockey covered with blood and he, together with the other people in the mob, was involved in killing Rabiya Bibi and setting her ablaze. Such facts have been stated by the witness in the statement dated 25.9.2008. The Investigating Officer has stated that the witness has not stated the fact regarding Sachin having a pipe but the other facts have been stated by

the witness in the statement recorded by him.

198.19 The Investigating Officer has admitted that in his statements dated 3.7.2008 and 25.9.2008, the witness has stated that from there he went and hid on a terrace of Gangotri Society where he met his brothers Salim and Sabir and he told them that the people in the mob had assaulted his mother Rabiya Bibi on the head with a pipe and felled her and had sprinkled kerosene petrol on her and burnt her alive near the water tank. In the context of this incident, his brother Salim had given a statement before the Crime Branch police and since one member of the family had given the statement, he had not given his statement.

198.20 SUBMISSIONS: The learned advocate for the appellants submitted that no police statement of this witness has been recorded though his brother told the police that it was this witness who had informed him about the incident. It was submitted that even in his first available statement before the SIT, this witness has not stated anything about Sachin, nor has he attributed any role to him. In his second statement dated 25.9.2008, the witness has simply stated that Sachin was seen with a bloodstained hockey and he participated with others in killing his mother by burning her.

198.21 The learned advocate further submitted that though this witness is the only eyewitness of his mother Rabiya Bibi's incident, police statement has not been recorded. Even in his first statement dated 3.7.2008 before the SIT, he does not implicate accused No.52 Sachin and that Sachin's presence in the mob with a hockey stick with reference to the 3rd July

statement comes out only in the note below paragraph 15 of the testimony of this witness, which is on its face contrary to the witness's evidence and there is nothing so stated by the Investigating Officer in paragraph 677, nor is there any re-examination of this witness in this regard. That means, the name of Sachin with bloodstained hockey and his general participation with others, comes on record for the first time in his second statement dated 25.9.2008. Moreover, in paragraph 7 of his examination-in-chief, the witness has changed the weapon attributed to the accused No.52 from hockey stick to pipe. It was submitted that in paragraph 16 of his deposition, the witness has voluntarily stated that he had gone to give his statement, but the police did not record it; however in paragraph 17 of his deposition, he has been confronted with his statement dated 25.9.2008, [which is proved through the Investigating Officer (PW-327) in paragraph 677] to the effect that he had explained therein that he had not given his statement as one of the members of his family had already given his statement before the Crime Branch. Reference was made to paragraph 22 of his deposition to submit that this witness has not made any complaint regarding his mother's death.

198.22 It was submitted that even if his brother's (PW 217) evidence is closely seen, he never said in his police statement that his brother ever told him about any participation of accused No.52 in the incident of killing of his mother. However, his brother for the first time states before the SIT in his first statement dated 20.6.2008 that he came to know about the participation of accused No.52 in the killing his mother from his brother (PW 218). His brother's (PW 217) evidence is of no

consequence, being hearsay and there is also material improvement about the weapon and manner of participation before the court as proved by the Investigating Officer PW 281 (paragraph 66) and Investigating Officer PW 327 (paragraphs 673 and 674), and therefore, the testimony of both the brothers is not believable qua accused No.52.

198.23 The learned Special Public Prosecutor submitted that in the incident that took place, his mother was killed by the mob and he had himself seen the incident and was also injured. It was submitted that the witness had seen the incident and narrated to his brother and there is no reason to disbelieve him.

198.24 ANALYSIS: The testimony of PW-217 Salim Rahimbhai Shaikh, who is the brother of this witness, is required to be considered together with the testimony of this witness. As per the version given by PW-217, it was his brother Rashid, who had narrated the incident wherein his mother was killed near the water tank. It may be noted that despite the fact that the statement of PW-217 was recorded on 7.6.2002, wherein he had stated that his brother had informed him about the incident wherein his mother was killed by the mob, the Investigating Officer at the relevant time has not thought it fit to record the testimony of this witness, who in fact had witnessed the killing of his mother. Consequently, no statement of this witness has been recorded at the relevant time and for the first time his statement has been recorded on 3.7.2008 by the S.I.T. and then on 25.9.2008.

198.25 From the omissions and contradictions brought out

in the testimony of this witness as to his statements recorded by the S.I.T., it is revealed that in his statement dated 3.7.2008 he had named Sachin as being present with a blood-stained hockey stick, but had not attributed any role to him in killing his mother. In his subsequent statement dated 25.9.2008 the witness has been examined as regards his acquaintance with Sachin and for the first time he has attributed a role to him to the effect that he was in the mob with a hockey stick and had participated in the killing and burning of his mother Rabiabibi. In his examination-in-chief, the witness has further improved upon his version and stated that Sachin had a pipe in his hand and had inflicted blows on his mother. Thus, step by step there are improvements in his statements and lastly in his deposition, he has attributed a clear role to accused Sachin.

198.26 Having regard to the fact that no statement of this witness has been recorded at the relevant time as well as keeping in view the fact that this witness has narrated the incident regarding the murder of his mother to his brother Salim PW-217, whose statement was recorded on 7.6.2002, but the said witness had not named Sachin as an accused at the relevant time, it would be hazardous to rely upon the testimony of this witness against the said accused for implicating him in such a serious offence.

199. **PW-219 Noorbanu Zakirhussain Saiyed**, aged 37 years, has been examined at Exhibit-1568. The witness has deposed that after the incident, since the last eight to nine years, she is residing at *Citizennagar*. On 27.2.2002, the incident of burning a train at Godhra took place. On the next day, the Naroda incident took place.

199.1 At the time of the incident, she used to reside at *Lane No.4, Hussainnagar, Naroda Patiya*. At that time, she used to reside with her four sons and her husband. Her husband Zakirhussain used to drive a private Eicher vehicle.

199.2 On 27.2.2002 in the evening, she had sent her elder son Javedhussain to Bapunagar to her mother's place. At Bapunagar, stone pelting was going on outside the Samjuba Hospital. In view of the stone pelting, thereafter he did not go to her mother's place, but returned to their house in a rickshaw. After coming back, he told her that at Bapunagar, the people are burning buses and rickshaws and pelting stones and in this manner, she came to know about the incident of 27.2.2002.

199.3 On 27.2.2002, after her son returned home, they had heard commotion on the road near their house. All the commotion was in connection with the burning of a train at Godhra. Thereafter, on the same day at night, at around 9:00 to 9:30, people were chanting "Jay Shri Ram" near Natraj Hotel. They were shouting and were burning the tyres. She took all these events lightly and they had their meals and stayed at home. After a little while, they came to know that on the next day, that is, on 28.2.2002, there was a call for bandh.

199.4 On the next day, as there was a call for bandh, they had thought that they would wake up at leisure as they did not have to go for work. She woke up at leisure. In the morning, she went to the S.T. Workshop to buy vegetables and at that time, there was a huge mob there. The people in the mob were

shouting “Jay Shri Ram” and “kill, cut”. The people in the mob had tied saffron bands around their heads and were wearing white undershirts and khakhi shorts and many people were in vehicles and while others were standing outside the vehicles. They had trishuls, swords and cans of petrol, etc. in their hands.

199.5 The people of this mob attacked their Noorani Masjid. They poured petrol and set the masjid on fire. On seeing all this, she was frightened and returned home. This was prior to noon and she does not know the exact time.

199.6 After coming home, she told the people residing near her house, about the mob she had seen near the Noorani Masjid and the slogans they were shouting, etc.

199.7 The people in the mob thereafter started entering into their chawls. Her son Javedhussain told them to stay at home and said that he would come back in a little while. Thereafter, Javedhussain went out to see. The people in the mob, who had entered into their lanes, had burnt a house belonging to a person of the Muslim community. This house was situated next to the flour mill and it was the first house. This house was situated opposite the compound wall of the S.T. Workshop on the other side of the road and was the first house. Four or five women of their community *inter se* decided that they would go and make a representation to the police because the people were burning the houses belonging to their community in the presence of the police. Upon four or five women going and making a representation to the police, the police told them “Go away; go inside! Today, it is the day for

you Muslims to die! Today is your last day”.

199.8 Upon hearing this from the police and as the police did not do anything, they returned back to their homes. Thereafter, the police started shooting at the Muslims. Out of fear, many people of their lanes had left their houses and had gone on the rear side. Whereas the people in the mob were entering the houses and were destroying the goods in their houses and were bursting gas cylinders and pelting stones.

199.9 When the police was firing, at that time, her maternal aunt's son Khalid was injured on the waist by a bullet and he had fallen down on the spot. People from their community lifted Khalid and put him in the house of somebody belonging to their community. During this period, the mob started swelling. She does not know as to at what time Khalid was injured by the bullet. The mob was burning their houses and their household articles, etc. and they were running far away.

199.10 All of them went and hid in the house of the Pinjara, where many Muslims were hiding. At this time, the mob started burning anything that came in their hands and they had also burnt the people alive. When she was at the Pinjara's house, as her son Javedhussain was not there, she was feeling very anxious and hence, she went out of the Pinjara's house. Outside, she met Bhavani. She told Bhavani, *“Look at what is happening, please do something.”* Upon hearing her, Bhavani told her that he had called the police and that everything would become peaceful. She, therefore, told Bhavani that the police themselves were shooting, then what were the police

going to do! Whereupon Bhavani told her not to worry and that he was making *kadhi khichdi* to feed them. At this time, Bhavani's younger daughter was with him. She started saying that, "*In your community, don't you cook kadhi – khichadi when somebody is dead*". Therefore, she asked her as to why she was saying such things. Thereafter, both of them went away and she went off to search for her son.

199.11 When she went to look for her son, there were many people in the mob and she was afraid. They were bursting gas cylinders and burning houses and they had reduced the houses to ashes. She stealthily went till Jawannagar, looking for her son, but she could not find him. She was about to return to the Pinjara's house, when there was a huge mob there, and hence, she hid below a paan-cabin. From under the paan-cabin, she saw that many people from the mob were coming and the people from their community were running helter skelter. She saw a mob standing near Jaybhavani's house. She saw that Noori, Jadikhala and her son's son, that is, Jadikhala's grandson who was with them, all were near Jaybhavani's house. At that time, she saw that Jaybhavani and his daughter were driving everyone out of their house and were telling them that if the mob comes, there will be difficulty. They had driven everyone out, but thereafter they called the mob. They called the mob behind their house. Jaybhavani and his daughter gave kerosene soaked quilts to the mob. They were soaking the quilts in kerosene and were giving them. Moreover, several people in the mob also had kerosene with them.

199.12 Guddu was there in the mob and there were other

people also. They used kerosene soaked quilts and set Jadikhala, Noori and Jadikhala's grandson on fire. In the act of burning them in this manner, Jaybhavani and his younger daughter had also participated. She saw all this from under the paan-cabin. From under the cabin, she saw that the people in the mob were catching hold of living people and burning them. Upon seeing all this, she lost her mind and was very frightened.

199.13 After all this, upon getting a chance, she went back to the Pinjara's house. In the entire incident, the Muslims out of fear had fled to Gangotri Society. Out of the people who had fled, many did not remain alive on that day.

199.14 Upon getting a chance, she had gone to the Pinjara's house. At that time, the people in the mob had also entered the S.T. Workshop. At this time, it was evening and from the S.T., the people were hurling very dirty abuses which were unbearable for Muslims to hear. They stayed at the Pinjara's house till 1:30 at night. There were many people there. The people were coming to the Pinjara's house at night and knocking the door, however, out of fear, they had not opened the door. Those who were knocking the door said from outside that they were people belonging to their community and were not members of the mob, whereupon they opened the door. They took them opposite the Noorani Masjid, where the police vehicle was parked and in that vehicle, they were taken to the Shah Alam camp. While they were being taken in this manner, on the way, their vehicles were attacked. The police accompanying them told the driver not to stop the vehicle, and hence, he did not stop the vehicle and they were

taken to the Shah Alam camp in the vehicle.

199.15 She stayed at the Shah Alam camp for about six months. The police had not recorded her statement at the Shah Alam camp. The police had made a panchnama at that time. For that purpose, she had gone to Naroda Patiya. After about six months, she had returned to Naroda Patiya from the camp. They had returned to their house at Hussainnagar, Lane No.4. After they stayed in their house for two to three months, the Relief Committee gave them a house, whereafter they came to stay at the Relief Committee's house at Citizennagar and at present also, she is residing there.

199.16 The witness has stated that all the facts that she has deposed before the court, she has stated to the SIT and that, in all, her two statements have been recorded by the SIT. One was recorded at her house in Citizennagar.

199.17 The SIT had called her to the Gheekanta Court for identification of Jaybhavani's daughter. She had gone to the Gheekanta Court and identified her.

199.18 The witness has stated that even today, she can identify Jaybhavani's younger daughter (Geeta A-56).

199.19 The witness has stated that as per her knowledge, Guddu and Jaybhavani have passed away. The witness has stated that in the mob which was burning her maternal aunt Jadikhala, her grandson and Noori, a boy named Suresh was also present. She does not know Suresh's full name. However, Jaybhavani's daughter was addressing him as Suresh and was

talking to him, and hence, she came to know that his name is Suresh. She has stated that she can identify Suresh.

199.20 The witness has thereafter correctly identified Jaybhavani's younger daughter (A-56) and Suresh (A-22) before the court.

199.21 CROSS-EXAMINATION: In the cross-examination of this witness, it has come out that she was residing in the Naroda Patiya area since fifteen years prior to the incident. Prior thereto, she was residing at Bapunagar. The witness has admitted that on 28.2.2002 in the morning, she had gone to purchase vegetables from Padmaben's shop at 9:00 to 9:30 in the morning. The witness has stated that she cannot say as to what is the distance between Padmaben's shop and the carts near the Noorani Masjid and has voluntarily stated that one can see Natraj Hotel from near Padmaben's shop. The witness has stated that she cannot say how long it took her to purchase the vegetables. She has denied that when she went to Padmaben's shop, the situation of that area was normal.

199.22 The witness has denied that in the entire day, she had taken shelter only at the Pinjara's house. The Pinjara's house is adjoining her house in Hussainnagar Lane No.4. It is a two storeyed house. The witness has admitted that in the Pinjara's house, she had taken shelter in a room. She has denied that because she was in the room, she could not see what was happening in the chawl outside. The witness has stated that she had gone to the room late in the evening and prior thereto, she was outside at the corner of the lane. She has stated that she cannot say as to how long she was at the

corner of the lane as, at that time, they were concerned about saving their lives. The witness has stated that throughout the day, they used to go to the corner of the lane and come back to the Pinjara's house. The witness has admitted that when she came out of the Pinjara's house, the people of the mob had not stopped her. She has stated that the mob had not come up to the Pinjara's house and had entered Lane No.2 and 3. The witness has stated that she cannot say exactly at what time, the houses were set on fire and has stated that in many houses there were two gas cylinders and by using these gas cylinders, the people in the mob were setting them on fire. There was fire on all four sides.

199.23 The witness has denied that Bhavanibhai knew that the Muslims had taken shelter in the Pinjara's house, despite which, Bhavanibhai had not brought the mob to the Pinjara's house. She has voluntarily stated that he did not know as to where they had taken shelter. The talk about kadhi and khichdi had taken place near Jaybhavani's house.

199.24 The witness has stated that at the time when she met Bhavanibhai near his house, one Farida was with her when he talked about kadhi khichdi. Apart from Farida there were other people also with her. The witness has admitted that at that time, the mob was not there. The witness has admitted that Bhavani had talked with her peacefully, however, thereafter, Bhavani had called the mobs.

199.25 The witness has stated that out of the four women who had gone with her to tell the police that though they were standing there the mobs were burning houses, one was Farida.

The other women were from the nearby lanes in their locality. They had gone to tell the police in front of the S.T. Workshop, where there is a way for going into their lane.

199.26 In her cross-examination, the witness has stated that Khalid was injured in the police firing after they had gone to request the police. The witness has stated that she does not know the boys who lifted Khalid and took him; however, they were from their mohalla. She has stated that she knows as to whose house Khalid was taken and that she had gone to visit him. Only Muslims were with Khalid at that time, wherein there were more women and they were crying. She too had waited there for some time. She had stated that Khalid was kept in the house adjoining the Pinjara's house, which house is situated in Lane No.4 in Hussainnagar.

199.27 In her cross-examination it has come out that there are two houses of Pinjaras in Hussainnagar. One is Latifbhai's and the other house is of Umrudhin Pinjara. The witness has voluntarily stated that only Umrudhin Pinjara's house has two floors and Latif's house has only a ground floor. The witness has stated that she had gone from Hussainnagar to Jawannagar in the evening. The witness has stated that the paan-galla mentioned by her is in Jawannagar. The paan-galla was a wooden cabin. She does not know whose paan-galla it was but she had seen the paan-galla prior to the incident also. The witness has stated that she does not remember exactly how long she was in the galla; however, after the mob was not looking, she had gone back to the Pinjara's house. The witness has denied that she had lost her senses to such an extent that she did not know what was happening nearby. The witness has

stated that what she wants to say is that she was terrified. She has stated that when she came out from the paan-galla, it was still daylight and it was not night. She has admitted that she was lying on the ground under the paan-galla.

199.28 The witness has admitted that till she returned to the Pinjara's house, no person in the mob had attacked the Pinjara's house. The witness has voluntarily stated that as far as she knows, till then, no attack had taken place in Lane No.4.

199.29 The witness has denied that she has not seen the incident or the facts as stated by her in her examination-in-chief and that at the instance of the people of her community and NGOs, she is falsely deposing before the court and that she has not seen Bhavani or his daughter.

199.30 The witness has denied that she has seen the entire road from S.T. Workshop up to Teesra Kuva. She has stated that she has seen the road from the ST. Workshop compound wall upto Jaybhavani's house. She has denied that she used to pass through the road every day. The witness has stated that she does not know as to how many gallas were there on her way to the S.T. Workshop. The witness has stated that while going from her house towards Teesra Kuva she had seen a galla, which was near Bhavanibhai's house and she is talking about that galla.

199.31 The witness has stated that she is not aware as to whether Bhavani's front door falls on the side of the S.T. Workshop road. She has voluntarily stated that all that she knows is that his house is near Jawannagar. The witness has

admitted that when the door of her house does not face the road and that the door of her house opens towards Lane No.4 Hussainnagar. Her house is after two houses from the S.T. Workshop compound wall road when one enters the chawl. The witness has denied that at that time on the road coming out from their chawl, there was a paan-galla and has stated that she does not know as to on that day, how many gallas were there on the road.

199.32 The witness is shown an application Mark 644/42 and the signature at the end of the document. The witness has identified the signature to be hers. The contents of the application are read over to the witness, who has admitted the same. The application is exhibited as Exhibit-1572. The witness has thereafter been cross-examined regarding who had written the application, where and how it was forwarded, etc. The witness has stated that she does not know as to whether her statement was recorded on the day when the panchnama was drawn. The witness has denied that on the day when the panchnama was drawn, the police had written down something and she had put her signature thereon.

199.33 The witness has stated that before the SIT, she had stated that she had gone for drawing of the panchnama and had given the names of the accused; however, such facts were not recorded. The witness has denied that she has also told the SIT that she had gone to lodge a complaint but her complaint was not recorded. The witness has admitted that the SIT had read over her statement to her and there were no incorrect facts therein.

199.34 The witness is confronted with her statement dated 17.5.2002 wherein she had stated that on 28.2.2002, she was present at home and doing household work and her husband was also present at home. At that time, at around 9:00 to 10:00 in the morning, all of a sudden, one could hear commotion on the road and hence, she came out to see. The mobs of people belonging to the Hindu community had gathered on all four sides and were pelting stones on the masjid as well as their chawls and immediately she had come home and taken her husband and children and gone to Umarbhai's house and hide there and had stayed there till 2 o'clock at night, after which, upon the police vehicle coming they had gone to the Shah Alam relief camp. In the riots, no member of her family had sustained any kind of injury or loss of life. The witness has voluntarily stated that she had stated facts as stated before the court. The witness has denied that in her statement dated 17.5.2002 she has not stated any fact regarding her having seen the incident of Jadikhala, Noori and Jadikhala's grandson or named the accused or the role played by them. The witness has voluntarily stated that she had stated these facts before the police, however, the police had stated that at that time they were only to record the panchnama, and hence, had not written it down.

199.35 The contents of paragraphs 5 and 6 as well as the contents of paragraph 7 from the fourth line to the fifth line, the contents of paragraph 8 from the second line to the last lined, the contents of paragraph 10 from the second line to the end, the contents of paragraphs 11, 12, 13, 15, 16, 17, 18, 20, 21 and the first three lines of paragraph 26 are read over to the witness to the effect that she had not stated these facts in

her statement dated 17.5.2002, which the witness has denied. The witness has asserted that she had stated all these facts before the police. The witness has denied that till her statement dated 3.6.2008 came to be recorded; she did not know any girl by the name of Geeta. The witness has admitted that on 3.6.2008 she knew Geeta. The witness has denied that, in fact, till her statement dated 24.9.2008 came to be recorded, she did not know Geeta. The witness has stated that she does not know whether Geeta's test identification parade took place before 3.6.2008 and 24.9.2008. She has admitted that till the test identification parade was carried out, she did not know Geeta's name.

199.36 The witness has stated that, at present, she does not remember as to after how many years after the incident, Geeta's test identification parade was conducted. She, however, is not in a position to state exactly when such test identification parade was conducted.

199.37 In her cross-examination, it has come out that she did not visit Jaybhavani's house and did not know as to how many family members and how many women were there in Jaybhavani's house. The witness has denied that in her statements dated 24.9.2008 and 3.6.2008, had shown Geeta to be a suspect. The witness has admitted that in her first statement dated 3.6.2008 recorded by the SIT; she had not given Geeta's name because till then, she did not know her name.

199.38 The witness has admitted that she had no social relations with Guddu, Bhavani or Suresh Langdo nor did she

have any other dealings with them. The witness has admitted that she does not know where Suresh and Guddu are residing and what business they are carrying on.

199.39 The witness has admitted that when she went towards Jawannagar to search for her son, it was approximately 7:30. The witness has admitted that Khalid was the first person from the Muslim community to be injured by a bullet. Khalid was struck by a bullet on the road adjoining the S.T. Workshop compound wall. The witness has admitted that after Khalid was injured by a bullet, the Muslim boys had lifted him and taken him inside. She has admitted that when Khalid was injured by a bullet, it must have been around 12 o'clock in the afternoon but she does not know the exact time.

199.40 The witness is confronted with certain extracts of her statement recorded on 3.6.2008 by the SIT, however, since the witness is not confronted with her earlier statement as to any facts stated by her in her primary evidence, this part of her deposition is inadmissible in evidence.

199.41 The witness has admitted that during the course of investigation, no test identification parade of Guddu Chhara, Suresh Langdo or Bhavani has been conducted through her. The witness has admitted that there is only one woman by the name of Jadikhala in their area. This Jadikhala had died during the riots. The witness has admitted that she had seen Jadikhala outside Bhavani's house on the day of the incident. She has admitted that Jadikhala's name is Hajrabibi. The witness has admitted that there were four to five other persons with Jadikhala and has stated that she had not seen Jadikhala and

four to five other persons entering Bhavani's house.

199.42 The witness has denied that in her statement dated 3.6.2008, she has stated that Jadikhala and four to five persons of her community were burnt in Bhavanisingh's house. She has stated that they were burnt near the part outside Jaybhavani's house. The witness has denied that in the statement dated 3.6.2008 she had stated that at that time there were four to five persons from their community at Jaybhavani's house and Bhavanisingh and his younger daughter called the mob and gave the mob kerosene and poured kerosene on quilts and the mob assaulted and burnt her maternal aunt Hajrabibi alias Jadikhala as well as her grandson and a girl called Noori who was engaged, wherein she had seen Bhavanisingh and his daughter with her own eyes. The witness has voluntarily stated that she did not mean to say that they were set ablaze in Jaybhavani's house and that what she wanted to say was that they were set on fire outside near Jaybhavani's house.

199.43 The witness has admitted that Noori, Jadikhala and Jadikhala's grandson were set on fire at a little distance from Jaybhavani's house. They were set ablaze in front of Jaybhavani's door. The witness has admitted that after they were set ablaze they fell down. The witness has denied that she had not seen anyone burning Jadikhala and she has not seen any incident of Jadikhala and that at the instance of the SIT people she was falsely deposing before the court. She has admitted that she has been given a house without any consideration by the people of her community. She has denied that the people of her community had given the house to her for free for giving false evidence before the court. The witness

has voluntarily stated that the people in the SIT are not her relatives and that the incident of Naroda Patiya had actually taken place and she has stated what she has seen, and she has no reason to lie.

199.44 In her cross-examination, it has come out that the galla under which she had taken shelter did not have four wheels. The upper portion of the galla comprised of a tin cabin. The witness has denied that the tins were also affixed on the lower portion of the galla and has stated that the galla had four legs and that the four legs were made of wood. The witness has stated that she does not know as to whether the galla was set ablaze in the riots but has stated that while she was under it, it was not burnt. The witness has admitted that the distance between Bhawani's house and the galla was very small and that the galla is in the direction from Hussainnagar to Jawannagar. The witness has stated that she does not know whether if one goes straight ahead from the galla one would reach the S.R.P. Quarters. The witness has admitted that she has not seen that Jadikhala had died in any lane or in any house of Jawannagar. The witness has admitted that on that day, she had not gone towards Teesra Kuva and that on that day, she had not seen the road up to the water tank near Gangotri Society and Teesra Kuva.

199.45 To prove the omissions and contradictions as to her previous statements, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

199.46 PW-278 Shri R. B. Joshi, the assignee officer has in

his cross-examination admitted that he has recorded the statement of this witness on 17.5.2002 He has denied that this witness had given her address as Lane No.4, Jawannagar and has stated that the witness had given her address as Naroda Patiya, S.T. Workshop, Hussainnagar. The assignee officer has admitted that this witness in her statement recorded by him had stated that on 28.2.2002, she was present at home and was doing household work and her husband was also present at home. At that time at around 9:00 to 10:00 in the morning, all of a sudden, there was commotion on the road outside. Hence, she came out and saw that mobs of people belonging to the Hindu community had gathered on all four sides and were pelting stones at the masjid and thereafter, upon stones being pelted on their chawls, she immediately came home and took her husband and children and went and hide in the house of Umarbhai in their chawl and they were sitting there till 2 o'clock at night, whereafter upon a police vehicle coming, they had boarded the vehicle and come to the Shah Alam relief camp. That she was with her husband and children and that in the riots, no member of her family had sustained any injury or suffered any loss of life.

199.47 The contents of paragraph 57 of the deposition of the witness are read over to the assignee officer, who has admitted that such facts have been stated by the witness in the statement recorded by him. A perusal of the manner in which the facts have been put to the assignee officer creates an impression that such facts have in fact been stated by the witness in her deposition. However, it appears that these are only contents of her statement recorded by the assignee officer, which the witness has denied. It is settled legal position

that through the process of cross-examination, the facts stated by a witness in the statement recorded by the police under section 161 cannot be brought on record.

199.48 The assignee officer has further admitted that this witness in her statement recorded by him had not stated any facts regarding the incident of Jadikhala, Noori and Jadikhala's grandchildren and had also not given the names of any accused or attributed any role to them. The assignee officer has denied that he had not written down what the witness has stated and that he had told her that he was only recording the panchnama, and hence, such facts are not required to be stated in this statement. The contents of paragraphs 5, 6, 11, 12, 13, 15 to 18, 20, 21 and from the fourth line to the fifth line of paragraph 7, the second line to the last line of paragraph 8, the second line to the last line of paragraph 10 and the first three lines of paragraph 26 are read over to the assignee officer, who has admitted that the witness has not stated such facts in the statement recorded by him. The assignee officer has admitted that the Investigating Officer had not given any instructions to take any steps for carrying out any test identification parade.

199.49 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), has in his cross-examination admitted that he has recorded the statements of this witness on 3.6.2008 and 24.9.2008. The Investigating Officer has admitted that this witness in the statement recorded by him has stated that "*..... my statement dated 17.5.2002 is read over to me, which is only in respect of the damage caused to my house and at the relevant time the police had not taken any statement*

regarding the accused and the incident....” “.....and since the mob was also pelting stones at our chawls, under the impression that we would sustain more injuries in the firing, we had fled towards Hussainnagar, but as the mob was behind us, we also pelted stones in retaliation, however, since the people in the mob were armed and were more in number.....” “..... at that time, at Jaybhavani’s house there were four to five persons from our community, including my maternal aunt Hajrabibi alias Jadikhala. Bhavanisingh and his younger daughter called the people in the mob and gave them kerosene and poured kerosene over quilts and killed and burnt my maternal aunt and her grandchildren who were with her as well as a girl named Noori who was engaged, wherein she had seen Jaybhavani and his daughter with her own eyes....”

199.50 It may be noted that this witness has not narrated any incident regarding Noori, Jadikhala and Jadikhala’s grandson being assaulted and set ablaze in front of Jaybhavani’s house in her statement recorded by the police. This version has come on record for the first time before the SIT. When it is the case of the witness that she saw the entire incident from under a paan galla, was then it not the duty of the Investigating Officer to ascertain the location of the paan-galla and ensure that the same is brought on record? On a perusal of the evidence on record, there is nothing to indicate that there was any paan galla located in such a position as to enable the witness such witness an incident in front of Jaybhavani’s house in the manner narrated by her. All that the Investigating Officer has done is record another statement of the witness, whose statement was already recorded by the police earlier. When in the further statement the witness has

come out with a new story, it was the duty of the Investigating Officer to find out evidence to corroborate the version given by the witness. Upon a query by the court, the learned Special Public Prosecutor, though assisted by three advocates including the learned Assistant Special Public Prosecutor who had appeared before the trial court as well as a police personnel from the SIT, was not in a position to indicate the presence of a paan galla in the vicinity of Jaybhavani's house from under which she could have witnessed the incident. Considering the topography of Jaybhavani's house, which is situated on the side of the S.T. Workshop road and faces the road, a paan galla would have to be located on the road for her to have witnessed the incident from under it. The only paan galla located there is the one in the passage of the water tank, and it is not the case of the witness that she had gone to the passage.

199.51 SUBMISSIONS: The learned counsel for the appellants submitted that the evidence of this witness is in three parts. Firstly, while they were outside the Pinjara's house, Bhavanisingh and accused No.56 Geeta had met her outside the Pinjara's house and there was a conversation between them. Secondly, in the evening while she was beneath the paan-galla, she saw the accused calling the mob at the back of their house and passing on kerosene soaked quilts, where also she refers to Jaybhavani and Geeta. Thirdly, they had used such kerosene soaked quilts. The accused had set ablaze Jadikhala, Noori and Jadikhala's grandson at the house of Bhavanisingh referable to four accused, Guddu, Bhavani, Geeta and Suresh. It was submitted that there are material omissions of material facts in her police statement

from paragraph 5 to paragraph 26, which are proved through the testimony of the Investigating Officer concerned. As far as the accused are concerned, their names and alleged roles attributed were not stated before the police and are stated for the first time before the SIT. Even before the SIT, various facts narrated by her like four to five women including the witness having gone to the police to make a representation; that the accused in the mob had burst gas cylinders; having gone inside the Pinjara's house in the fact situation, coming out and going towards Jawannagar, the presence of Bhavanisingh's younger daughter at the place below the Pinjara's house and her driving out the people along with Bhavani; after seeing several persons being burnt and killed, going back to the Pinjara's house, etc.; are facts which are on the face of it not believable and the same are not so said or corroborated by the evidence of other witnesses. It was submitted that her claim that she went under the paan-galla after she left the Pinjara's house and had seen the incident of Jadikhala, Noori and Jadikhala's grandson is not feasible and possible, mainly for two reasons. Firstly, it is not the case of the prosecution that these three persons have been killed at or outside Jaybhavani's house. According to the say of this witness before the police, as proved by the Investigating Officer (PW-278) that after she entered the Pinjara's house till 2:00 a.m. on the next day, she and her family members kept on hiding. It was submitted that insofar as accused No.22 is concerned, after her entire chief is over, at the stage of identification of the accused, the witness has added a paragraph referring to the name of Suresh, which was not there before the police and in view of the fact that she had no acquaintance with him, as stated in paragraph 74, his identity is doubtful and is not established beyond doubt,

particularly when no test identification parade has been held to identify him.

199.52 As regards accused No.56 Geeta, it was submitted that the allegation made by her in all three incidents are not only far from truth but till her statement was recorded by the SIT on 3.6.2008, her name is not disclosed by the witness. It was submitted that there is nothing to show that when the witness for the first time before the SIT has referred as to her the younger daughter of Jay Bhavani, it A-56 whose identity can be said to have been established beyond reasonable doubt.

199.53 It was urged that in view of her admission, that from beneath the paan-galla she cannot see the fourth lane of Jawannagar, there is no question of her being able to see either the house of Jaybhavani or the passage where the alleged incident had taken place, which rules out the possibility of her being the eyewitness of Jadikhala's incident. It was submitted that this witness is not a credible witness. After six and a half years, when she has implicated accused No.56 and accused No.22, it would be hazardous to believe such a witness as regards the participation of the accused.

199.54 ANALYSIS: As per the version given by this witness, upon mob coming, they had left their house and taken refuge in the Pinjara's house, where many Muslims were hiding. The witness claims that from the Pinjara's house she had gone to Jawannagar to look for her son. When she saw a huge mob coming she had hidden under a paan cabin. The witness has further deposed that under the paan cabin she

saw a mob standing in front of Jaybhavani's house, and Noori, Jadikhala and Jadikhala's grandson were near Jaybhavani's house. At that time Jaybhavani and his daughter were driving them out and telling them that if the mob comes, there will be difficulty. They were driving every one out, but thereafter they had called the mob behind their house. Jaybhavani and his younger daughter had given kerosene-soaked quilts to the mob. Several people in the mob also had kerosene with them. Guddu and other people were in the mob and using the kerosene-soaked quilts, they had set ablaze Jadikhala, Noori and Jadikala's grandson. Jaybhavani and his younger daughter were involved in setting them ablaze in this manner. She had seen all this from below the galla (cabin). Considering the evidence as stated above it is difficult to believe that from under the paan cabin, when there was such a huge mob and Muslims were fleeing from the spot, she could hear what Jaybhavani and his daughter were speaking. While in the main part of her deposition, the witness has implicated Jaybhavani and his younger daughter, subsequently, she has deposed that in the mob she had also seen a youth named Suresh. She has stated that she did not know his full name, but Jaybhavani's daughter had addressed him as Suresh and talked with him, and, hence, she came to know that his name was Suresh. This again is difficult to believe inasmuch as from under the paan cabin, at a distance from Jaybhavani's house it would not have been possible for the witness to hear any conversation between Suresh and Jaybhavani's daughter.

199.55 In her examination-in-chief, the witness has stated that she had met Jaybhavani and his daughter when she came out of the Pinjara's house, whereas in her cross-examination

she says that the conversation with regard to *kadhi khichdi* took place outside Jaybhavani's house. In her examination-in-chief she has stated that she had gone outside to look for her son and when she reached Jawannagar, a huge mob had come and she has hidden herself under paan cabin. In these circumstances, after she left the Pinjara's house, there was no occasion for her to have reached near Jaybhavani's house where such conversation could have taken place inasmuch as Jaybhavani's house is situated at the end of Jawannagar where Gangotri Society begins.

199.56 Insofar as the location of the paan cabin is concerned, the witness, in paragraph 44 of her cross-examination, has stated that it was situated in Jawannagar and was a wooden cabin. In paragraph 92 of her cross-examination, the witness has stated that the paan cabin had four wooden legs and was at a short distance from Jaybhavani's house. The galla (cabin) was after Hussainnagar towards the side of Jawannagar. In her cross-examination it has been brought out that in her police statement she had not stated any fact regarding the incident of Jadikhala, Noori and Jadikhala's son, nor the names of the accused and the roles played by them. Considering the overall testimony of this witness, she does not come across as a truthful witness and her testimony is full of improvements, exaggerations and embellishment. Her testimony is also contrary to the testimony of majority of the witnesses, who have stated that the incident of Jadikhala took place near the passage of the water tank. Except for this witness, no other witness has stated regarding any incident having taken place in front of Jaybhavani's house. Considering the manner in which the witness has stated that she has seen

the incident, she does not come across as a truthful witness. While she has stated that she has seen the entire incident from under the paan cabin, nothing has been brought on record to indicate exactly where such paan cabin is situated.

199.57 It may be noted that this witness, in her statement recorded by the police, has not narrated any incident regarding Jadikhala, Noori and Jadikhala's grandson being assaulted and set ablaze in front of Jaybhavani's house. This version has come on record for the first time before the SIT. As noted hereinabove, it is the case of the witness that she saw the entire incident from under the paan cabin. In these circumstances, it was the duty of the Investigating Officer to ascertain the location of the paan cabin and ensure that the same is brought on record. A perusal of the evidence on record shows that there is nothing to indicate that there was any pan cabin located in such a position so as to enable the witness to see the incident in front of Jaybhavani's house in the manner narrated by her. However, all that the Investigating Officer (SIT) has done is to record another statement of the witness, whose statement had already been recorded by the police on 17.5.2002. When in her further statement the witness has come out with a version different from the version recorded by the police, it was the duty of the concerned Investigating Officer to find evidence to corroborate the version given by the witness. Upon a query by the court regarding the location of the paan cabin, the learned Special Public Prosecutor, though assisted by three advocates including the learned Assistant Special Public Prosecutor, who had appeared before the trial court as well as police personnel from the SIT, who has been assisting in the matter right from the inception, was not in a

position to point out to the court the presence of a paan cabin in the vicinity of Jaybhavani's house from under which the witness could have seen the incident. Considering the topography of Jaybhavani's house, which is situated on the side of the S.T. Workshop road and which faces the road, the paan cabin would have to be located on the road for the witness to have seen the incident from under it. The only paan cabin which is located there, in terms of the panchnama and other evidence on record, is the one in the passage of water tank, and it is not the case of the witness that she had gone to the passage.

199.58 Having regard to the testimony of this witness, who has named the accused for the first time after a period of more than six years before the SIT and considering the manner in which she claims to have seen the accused, the witness does not appear to be credible and truthful witness and her evidence cannot be taken into consideration for the purpose of establishing the charge against the accused named by her.

200. **PW-223 Gulammahammad Faizmahammad Pathan**, aged 42 years, has been examined at Exhibit-1596. The witness has deposed that his native is *Village Motidav, District Mahesana, Gujarat*.

200.1 The witness has deposed that he is residing at *Pandit-ni-Chali, next to the S.T. Workshop* since the last twenty five years. Since the last twelve years, he is serving as a watchman.

200.2 In the year 2002, he was working as a watchman at

Uday Gas Agency, Naroda Patiya as well as J. K. Timber Mart.

200.3 As a watchman, his duty hours were from 8:00 at night to 8:00 in the morning. In the year 2002 also, his duty hours were the same. He used to work as a watchman at night, and in the day time, he used to ply an auto rickshaw.

200.4 On 28.2.2002, that is, from 8 o'clock at night of 27.2.2002 till 8 o'clock in the morning of 28.2.2002, he was discharging duties at Uday Gas Agency and J. K. Timber Mart.

200.5 On 28.2.2002, the Vishwa Hindu Parishad had given a call for bandh. On 28.2.2002, in the morning, he was at Uday Gas Agency. On 28.2.2002, at about 8 o'clock, the workers of Uday Gas Agency had come to the workplace. He came to know about it as they had knocked at the gate. He had told them that there was a bandh call on that day, and hence, their employer has kept the agency closed and therefore, they should all go back, and accordingly, they had gone back. During this period, the customers of the gas agency also started coming, but he has sent them back. Thereafter, he closed the gate of the agency and went home.

200.6 On 28.2.2002, in the morning, when he was at home, a mob came and there was a lot of commotion, and hence, with a view to save his life as well as the lives of his family members, he took his family members and went to Uday Gas Agency. Upon returning to Uday Gas Agency from his house, he saw mobs on the side of Krushnanagar as well as Naroda Patiya. The people in the mob were shouting. He had reached Uday Gas Agency where he had kept his family

members on the upper floor and he remained down stairs.

200.7 In the afternoon, at about 12:30, a white coloured ambulance like vehicle came to the agency. The vehicle had a Red Cross mark and it had a red light which is the sign of an ambulance. There were around twenty-five people in this vehicle and the people told him to open the gate, but he had not opened the gate, saying that there were no orders from his employer to open the gate. When he said this to them, about fifteen people jumped over the gate and came inside the compound of their gas agency.

200.8 At that time, there was a truck filled with gas cylinders in the compound of the agency. The people who had come asked for gas cylinders; however, he told them that since there were no orders from his employer, he could not give them the cylinders. He had asked one of the persons who had come, to talk with his employer on his residential telephone number. He first talked with his employer and thereafter, handed over the telephone to the other person. He had informed his employer that these people were asking for gas cylinders and that he had refused to give them and that upon his refusing to open the gate, they had jumped and come inside. His employer told him on the telephone not to give the gas cylinders and told him that he was coming. Despite his employer having said that the gas cylinders were not to be given, the people who had come forcibly took away the gas cylinders. These people had forcibly taken away approximately twenty to twenty five gas cylinders.

200.9 All this happened at around 12:00 to 12:30 in the

afternoon. Thereafter, he had informed his employer that they had taken away the gas cylinders in this manner. His employer came to the agency at around 4:00 to 4:30. He had brought policemen with him. He had told his employer that approximately twenty five gas cylinders have been taken by the mob of people. Thereafter, his employer left with the police. Subsequently, his employer Shri Rameshchandra Nathalal Patel had lodged a complaint with the police station.

200.10 Thereafter on 28.2.2002, his family members stayed at Uday Gas Agency. On the next day, the Police Commissioner came to the gas agency to see the scene of incident. He came and inspected the place. Thereafter, the witness took his family members and left them at the Shah Alam camp. He and his family members stayed there for about three to six months. At the camp, his mother's health had deteriorated, and hence, he had taken to his paternal uncle's house. His mother has thereafter died on account of the illness at his paternal uncle's house.

200.11 On 28.2.2002, as well as in the incidents that took place thereafter, the people in the mob had looted his house in Pandit-ni-Chali and caused damage.

200.12 The Crime Branch as well as the SIT had recorded his statement in connection with the incident. While he was at the Shah Alam camp, a policeman had taken him to his house to carry out a survey. At that time also, the police had recorded his statement.

200.13 CROSS-EXAMINATION: This witness in his

cross-examination has admitted that Uday Gas Agency and J.K. Timber Mart are situated adjoining each other. He has admitted that during his service as a Watchman, he used to keep rotating between both the places turn by turn. The witness has admitted that he has stated all the facts regarding what he had seen at Uday Gas Agency on the day of the incident in his examination-in-chief. The witness has admitted that except for what he has stated in his examination-in-chief, he has not seen any other facts and has, therefore, not mentioned them.

200.14 The witness is cross-examined with regard to the topography of the area. He has admitted that from his gas agency, the Jawannagar pit can be clearly seen. The witness has voluntarily stated that from the outer part of the gas agency, the Jawannagar pit can be seen. The witness has admitted that after coming from out of the gas agency and crossing the National Highway road, Bipin Auto Centre is situated. The witness has admitted that on 28.2.2002, Bipin Auto Centre had been set on fire, which he had seen. The witness has admitted that he has no knowledge about what happened to the ambulance which had come on that day and in which direction it had gone. The witness has admitted that the ambulance like vehicle had come at about 12:30 in the afternoon. He has admitted that his employer came with the police at about 4:30 in the evening for the first time. He has admitted that there was only one policeman. The witness has denied that on that day from morning to evening, he was on the outer part of Uday Gas Agency. He has admitted that on that day, he had not seen any vehicle on the road going from Uday Gas Agency towards Jawannagar pit. The witness has

admitted that on the day of the incident, he had not seen any police vehicle coming to Uday Gas Agency and that only one policeman had come.

200.15 SUBMISSIONS: The learned counsel for the appellants submitted that this witness is the Watchman of Uday Gas Agency. He has not seen any mob going towards Jawannagar. Though he was on the ground floor of Uday Gas Agency he has not seen any mob going from Jawannagar to the S.R.P. Quarters during the day.

200.16 ANALYSIS: This witness was working as a watchman at Uday Gas Agency at the relevant time. Nothing much turns upon the testimony of this witness, who has only deposed regarding twenty two to twenty five gas cylinders having been forcibly taken by some persons, who had come in an ambulance in the afternoon on the day of the incident. This witness has not implicated any accused, nor had he narrated any incident relating to the offence in question.

201. **PW-224 Chandbhai Abdulrasid Shaikh**, aged 48 years, has been examined at Exhibit-1601. The witness has deposed that in the year 2002, he was residing at *Lane No.1, Jawannagar*. At that time, his wife and his daughter were residing with him. In the year 2002, he was doing tailoring work in *Pandit-ni-Chali, Near Noorani Masjid*. He is an illiterate.

201.1 The incident took place on 28.2.2002. At that time, the Vishwa Hindu Parishad had given a call for bandh. On that day, at around 9:00 to 9:15 in the morning, he had set out from his house to go for his job and had come out on the road.

201.2 When he came out, there was a mob near the gate of the S.T. Workshop. He came and stood there. There, he saw that stone pelting had started. The Hindus were pelting the stones on the Muslims. After pelting stones for some time, the people in the mob started setting the stalls and cabins on fire. Thereafter, the police lobbed tear gas at them. After lobbing the tear gas shells, the police resorted to firing. After the firing was over, the people in the mob set Noorani Masjid on fire. He had seen all this. He had to go to Pandit-ni-Chali for his job, but he could not go there on account of the incidents. Thereafter, he returned home.

201.3 After returning home, he told his family members about all the things that were going on on the road and everyone at home started crying.

201.4 Behind his house in Jawannagar, there is a compound wall. The people in the mob started entering Jawannagar and started breaking the wall behind his house, whereupon he and his family members were terrified. They, therefore, came out from his house and went out. For a little while, he stood there. Thereafter, the mob started breaking the other side of the wall, whereupon they left their house and went towards his mother's house. His mother's house was near the S.R.P. compound wall behind his house.

201.5 The persons who were breaking the compound wall were shouting slogans, "kill, cut". The mob was breaking the compound wall. In the mob, he had seen **Suresh Langdo (A-22)** and **Guddu Chhara** also. They were breaking the

compound wall. After breaking the compound wall, they came inside into the chawls of Jawannagar. At this time, they were shouting “kill, cut”.

201.6 Guddu Chhara and Suresh Langda had swords in their hands. They reached his mother’s place, however, his mother and his three brothers and their families had also left their house and gone out. They were standing near the compound wall of the S.R.P. Quarters. The people in the mob came to their chawls and started assaulting, cutting and burning. The mob had burnt a boy named Ayub near the S.R.P. compound wall.

201.7 Thereafter, they went to Gangotri Society through Gauri Apa’s terrace. They sat on the terrace. Thereafter, at night, when they were on the terrace, a police vehicle had come and they were taken in that vehicle to the Shah Alam camp.

201.8 Later on, they came to know that his sister Salima had been set ablaze and she had died in the incident. He had also learnt that his brother Zakirhussain’s son Shahrukh, who was 6 years old at that time, was also set ablaze and he too had died.

201.9 The witness has deposed that in the incident, his house had been set on fire. They had stayed at the camp for six months. The police had orally examined him in connection with the incident and had drawn a panchnama of his house. He knows Guddu and Suresh. He does not know where Guddu is at present and said that he can identify the accused.

201.10 The witness has thereafter identified Suresh (A-22) correctly.

201.11 CROSS-EXAMINATION: This witness in his cross-examination has stated that he does not know the exact date on which the police had recorded his statement at the camp but has stated that he remembers that his statement was recorded on the day when the police had taken him for the purpose of conducting survey, which was approximately about two and a half months after the incident. The witness is cross-examined with regard to the conditions at the camp as to whether leaders of their community were coming there and who was coming there to help them. The witness has admitted that from the people who were in the camp, he used to have conversation about the incident with his acquaintances. The witness has voluntarily stated that while talking about these things, the some person would give the figure of the dead as 500 and someone would say a lesser or a bigger figure. However, lastly they had come to know that the figure of the number of deaths was around 100. The witness has stated that he has not given any complaint in connection with the facts regarding the incident and has voluntarily stated that he has given his FIR or his statement which is his complaint.

201.12 The contents of first two lines of paragraph 4 of the examination-in-chief are read over to the witness, wherein he has stated that when he came out there was a mob near the S.T. Workshop gate to the effect that he has not stated such facts in his statement recorded by the police, which the witness has denied. The witness is read over the contents of

paragraphs 5, 6 and the contents of four lines from the second line of paragraph 7 of the examination-in-chief of the witness to the effect that he has not stated such facts in his police statement, which he has denied. The contents of paragraph 8 from the second line to the last line are read over to the witness. It appears that the trial court has not recorded as to what had transpired after reading over that part of the examination-in-chief to the witness. However, from the note below, it appears that the witness is confronted with that part of his examination-in-chief to the effect that he has not stated such facts in his police statement, which the witness has denied. It may be noted that in paragraph 8 of his examination-in-chief the witness has stated that when they reached his mother's place, his mother and his three brothers and their families had also left their homes and had gone out. They were standing near the S.R.P. compound wall. The mob came and started assaulting, cutting and setting ablaze the people from their chawl. The mob had set ablaze a boy named Ayub near the S.R.P. compound wall.

201.13 The trial court in a note below the part where the witness is confronted with his police statement has recorded that in his statement, the witness has stated that in the Hindu mob, Suresh Chhara, whom the witness knows by his face, was roaming around with a sword and was shouting "kill" "cut", and Guddu Chhara who resides behind the S.R.P. camp had a sword with him and was with the mob and there was stone pelting from the side of the S.T. Workshop also and they were burning bus seats and throwing them and that except for that, the other facts are not there in the statement. It may be noted that part of what is stated by the witness in the examination-

in-chief and the facts which the court has noted are totally different. When the witness has not mentioned anything about Suresh Chhara roaming around with the sword and shouting “kill” “cut”, as well as the fact regarding stone pelting, bus seats being thrown from the S.T. Workshop, the trial court was not justified in making reference to such facts, inasmuch as insofar as the Guddu Chhara and Suresh Chhara having swords in their hands is stated in paragraph 8 of the examination-in-chief and the witness has not been contradicted in respect of that portion of his examination-in-chief.

201.14 The witness has denied that the incident of the wall being broken took place while he was on Gauri Apa’s terrace. He has denied that during the entire day of the incident, he had not seen Suresh or Guddu anywhere and, therefore, in his statement he has not stated as to where and at what time and from where he had seen Guddu and Suresh.

201.15 The witness has admitted that Ayub was set ablaze near the S.R.P. compound wall. He has denied that the mob which set Ayub ablaze was comprised of only twenty-five to fifty people and has stated that he cannot give the exact number. He has stated that he had seen the incident from the Gauri Bhabhi’s terrace. The witness has stated that he does not know where the mob had surrounded Ayub but only knows that Ayub was set ablaze. The witness has denied that he has not seen any incident and that at the instance of the people of his community and the leaders of his community he was falsely deposing before the court.

201.16 The witness has admitted that he has no monetary

or any other relations with Suresh. He has no social relations with Suresh. The witness has voluntarily stated that Suresh used to visit his area. The witness has admitted that no test identification parade to identify Suresh and Guddu has been carried out by the police during the course of investigation and has voluntarily stated that he knew Suresh right from the beginning and that Guddu resides in their area and hence, he knew him also from the beginning.

201.17 To prove the omissions and contradictions as to the previous statement of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

201.18 PW-278 Shri R.B. Joshi, the assignee officer in his cross-examination has admitted that he had recorded the statement of this witness on 7.5.2002. The assignee officer has admitted that this witness had not stated that there was a mob near the gate of the S.T. Workshop but has stated that the witness has stated that when he came to the road, there were many Hindu people. The contents of paragraphs 5 and 6 and the four lines from second line to paragraph 7 of the examination-in-chief of this witness are read over to the assignee officer who has admitted that this witness has not stated any such facts in the statement recorded by him. The contents of paragraph 8 from the second line to the last line are put to the assignee officer who has denied that the witness has not stated all these facts in the statement recorded by him. The assignee officer has stated that this witness has stated that in this Hindu mob Suresh Chhara roaming with a sword and was shouting "kill" "cut" whom the witness had

seen and that secondly, Guddu Chhara who resides behind S.R.P. camp had a sword with him and was with the mob. There was also stone pelting from the S.T. Workshop and seats of buses were being burnt, except for this, the other facts stated in paragraph 8 have not been stated by the witness.

201.19 The contents of paragraphs 28, 29 and 30 have been put to the assignee officer, who has admitted that such facts were stated by the witness in the statement recorded by him. Once again, the question put to the assignee officer gives an impression that these are the facts stated by the witness in the deposition and not facts which are stated in the statement. If the witness has himself stated these facts in the statement recorded by the police as well as in his examination-in-chief, there was no question of proving the same through the testimony of the Investigating Officer. The assignee officer has admitted that this witness has not stated that he had seen the incident of the wall being demolished from Gauri Apa's terrace. He, however, has clarified that the witness has stated the facts regarding his having gone to Gauri Apa's terrace. The assignee officer has admitted that the witness has not stated any fact regarding at what time and or where he had seen Suresh and Guddu in the entire day. However, the witness had stated that he had seen them in the mob and has also stated as to what they were doing.

201.20 SUBMISSIONS: The learned counsel for the appellants submitted that this witness admittedly does not say as to what time and where he had seen Suresh and from which place. Though the witness claims that he knows Suresh, the acquaintance with Suresh is not established and no test

identification parade has been held. Referring to paragraph 6 of the examination-in-chief of the witness, it was pointed out that there is no reference of time and hence, there is no indication as to at what time the incident took place. Referring to the contents of paragraphs 6 to 8 of the examination-in-chief, of the witness, it was submitted that the contents thereof are very vague. Therefore, it is difficult to believe that the incidents have happened, as narrated by the witness.

201.21 As regards the incident of Ayub, it was submitted that the witness has stated that the mob had set Ayub on fire. It was submitted that if he had seen the incident, he would have stated two facts. Firstly, regarding Ayub jumping from the terrace and receiving injury and secondly, Ayub being set on fire in a rickshaw. It was submitted that these facts are prominently missing and, therefore, even if the witness says so, for the first time before the court, he is not to be believed. It was submitted that this witness does not refer to any mob from Krushnanagar though he talks about firing. He does not talk about anyone being injured in the firing. It was submitted that this witness left his house at 2:30 to 3:00 in the afternoon. It was submitted that the fact regarding the witness having seen both the accused before the wall was broken is highly improbable. Reference was made to the testimony of PW-143 Dildar Umrao Saiyed to submit that the said witness has stated that the wall was broken at 12:00 to 1:00. Therefore, if the wall was already broken, there was no question of breaking the wall again.

201.22 Reference was made to the contents of paragraph 28 of the cross-examination of the witness to point out that

witness has stated that he went to Gauri Apa's terrace in the evening and saw Ayub being burnt from the S.R.P. Quarters. It was submitted that this witness had again gone to Gauri Apa's terrace after Ayub was burnt. If the witness had seen the incident of Ayub, other witness would also have narrated this incident. Those witnesses have named Guddu whereas this witness has not named Guddu which means he has not seen the incident. It was submitted that looking to the inconsistencies in the evidence of this witness, he is not reliable and his testimony does not inspire confidence.

201.23 Mr. P. G. Desai, learned Special Public Prosecutor, submitted that in the cross-examination of this witness nothing much has been brought out except that the witness had gone to his mother's place. It was submitted that such an omission is not a material omission which would affect the prosecution case. It was submitted that the witness has named and identified accused No.22 Suresh Chhara, and therefore, his evidence is truthful, credible and believable.

201.24 ANALYSIS: From the testimony of this witness it emerges that in the morning he came out on the road and saw stones being pelted by Hindus at Muslims. After pelting stones, the mob started setting ablaze carts and stalls. Thereafter, the police lobbed teargas shells and resorted to firing. Thereafter, the mob had set the Noorani Masjid ablaze. Upon seeing all this, he had returned to his house in Pandit-ni-Chali. The witness in his examination-in-chief has mentioned the presence Suresh Langda (Accused No.22) and Guddu Chhara in the mob which had broken the Jawannagar compound wall and has deposed that Suresh Langda was

armed with weapons. However, an omission in the nature of contradiction has been brought out in his cross-examination, which has been proved through the testimony of the assignee officer PW-278, to the effect that the witness has not mentioned that he had seen Suresh Langda and Guddu Chhara in the mob which had broken the compound wall, nor had he narrated any fact regarding the compound wall having been broken. However, it appears that in his police statement he had mentioned the presence of Guddu Chhara and Suresh Langda in the mob and had also stated that Suresh Langda had a sword in his hand. However, the exact time and place where he had seen the two accused had not been mentioned. Insofar as reference to the incident of a youth named Ayub being set ablaze near S.R.P. compound wall is concerned, such fact was not mentioned by the witness in his previous statement and hence is a subsequent improvement.

201.25 Considering the overall testimony of the witness, it is established that he had seen Guddu Chhara and Suresh Langda (A-22) in the mob on the day of the incident.

202. **PW-225 Firoz alias Baba Khwajamoyuddin Shaikh**, aged 30 years, has been examined at Exhibit-1607. The witness has deposed that he is illiterate and in the year 2002, he was residing at *Mansuri-ni-Chali, Behind Noorani Masjid, Naroda Patiya*. His native place is Karnataka.

202.1 In the year 2002, he together with his mother, his brother Chand, his sister-in-law and his wife, all were residing together at *Mansuri-ni-Chali*. However, in the month of February, 2002, his wife had gone to his in-law's house at

Hussainnagar for her delivery.

202.2 His father-in-law's name is Khalidbhai. In the year 2002, he was working in a garage by the name of "Jashoda Body". His brother used to work in a bakery at Naroda Patiya at the relevant time. His wife Kausharbanu was working in a thread factory at Naroda.

202.3 He does not remember the month. The incident took place on 28th date in the year 2002. On that day, there was a call for bandh. He does not know who had given such a call and why such a call was given.

202.4 On the day of the incident, he was at home in the morning. On that day, after 9 o'clock in the morning, he went on the road near Noorani Masjid when he saw that people in the mob were pelting stones and setting things ablaze. They were setting the cabins and stalls on fire. They were pelting stones at the masjid.

202.5 From there, he went to fetch his wife from Hussainnagar, being his in-law's place. At Hussainnagar also, the mob had gathered and they were assaulting the Muslims. When he went inside Hussainnagar, there were mobs inside and they were shouting "kill, cut" and were burning the houses. Out of fear, he went away from there. While running, he had gone to Jawannagar pit.

202.6 At this time, it was around 4 o'clock in the afternoon. In the pit, he saw his mother-in-law and his wife. He does not know his mother-in-law's name. He saw that the

people in the mob had surrounded his mother-in-law and his wife. His wife was pregnant and the time for her delivery was very near.

202.7 A person with a cloth tied over his face inflicted a blow with a sword on his wife. Out of fear, he fled away from there and went to the S.R.P. Quarters. He went inside the S.R.P. Quarters and sat there till around 12 o'clock at night, whereafter upon a police vehicle coming, he went to the relief camp. He was taken to the Dariyakhan Ghummat relief camp.

202.8 He stayed at the camp for around three to four months. In the meanwhile, the police had orally examined him in connection with the incident. After a sword blow was inflicted on his wife, he had gone away from there. After going to the camp, he came to know that his wife Kausharbanu died in the incident. At the camp, he also came to know that his mother-in-law had also died in the incident.

202.9 CROSS EXAMINATION: This witness is extensively cross-examined with regard to the topography of the area near Noorani Masjid. In his cross-examination, the witness has admitted that the S.T. Workshop mob had crossed the road and had come near the Noorani Masjid. He has admitted that upon seeing this, he crossed the road and went towards Hussainnagar chawl. The witness has denied that he was a part of the Muslim mob and he had also resorted to pelting stones, glass and pieces of bulbs. The witness has denied that he was pelting stones and glass from Noorani Masjid. He has admitted that to protect the masjid, there was cross stone pelting by the Muslim mob.

202.10 The witness has admitted that Jenbi is his mother-in-law. He has denied that at that time, he has taken his mother-in-law Jenbi and his wife Kasuarbanu and was fleeing in the Jawannagar pit. The witness has voluntarily stated that he had gone there to look. The witness has admitted that when he went to look there, his wife Kausarbibi and his mother-in-law Jenbi were in the Jawannagar pit. His wife Kausarbibi was being assaulted with a sword and hence, he had fled from there.

202.11 The witness has stated that he does not remember as to how many people were there in this sword attack. He has further stated that there were around twenty to thirty persons. The witness has stated that he does not know as to whether his wife had screamed when she was assaulted with a sword. The witness has stated that he had heard the people in the mob shouting "kill" "cut". The witness has admitted that the assailants had covered their faces with clothes and only the eyes could be seen. The witness has admitted that that his wife Kausarbibi was assaulted with a sword in the Jawannagar pit and killed there and he had immediately fled from there.

202.12 SUBMISSIONS: The learned counsel for the appellants submitted that this witness has deposed contrary to the evidence of the other witnesses but has not been declared hostile. It was submitted that this witness is the husband of deceased Kausarbibi and son-in-law of Jenbi and, therefore, there are all reasons to believe that he is telling the facts that he has actually seen about them before the police and also the court, and that this witness has no reason to lie. It was submitted that the person who is alleged to have given the

blow by the sword is neither named nor identified. According to this witness, this incident took place at 4:00 p.m., whereas the say of the other witnesses is contrary to this, wherein the time, the manner, the place as well as the name of the accused, materially differ, which again are in contradiction with the say of this witness. It was contended that the version qua Kausarbibi is also found contrary to the medical evidence on record and, therefore, from no angle the incident of Kausarbibi as is differently stated by different witnesses and as is stated by this witness had occurred, and that the incident is all got up and unbelievable qua all individual accused, who are implicated by different witnesses differently.

202.13 Mr. P. G. Desai, learned Special Public Prosecutor, submitted that the witness has stuck to his earlier version during the course of his cross-examination by describing the incident of sword blow having been inflicted on his wife Kausarbanu stating that thereafter he went away from that place to save his own life. It was submitted that the witness has not implicated any accused person as the person who gave blow to his wife Kausarbanu with a sword. It was submitted that so far as this witness is concerned, reference to Kausarbanu is to his wife, but as regards the incident of taking foetus out of the womb and killing the foetus and the lady by the accused No.28 is concerned, the victim may not be the same Kausarbanu, in view of the fact that there is reference in one of the statements of PW-147 Reshambanu (paragraph 22) about the same incident.

202.14 ANALYSIS: As per the narration of events deposed by this witness, he was at home in the morning and he had

gone on the road near the Noorani Masjid at 9 o'clock, where mobs were pelting stones and committing arson. From there he went to his in-law's house at Hussainnagar to fetch his wife. At Hussainnagar, mobs had gathered and were assaulting Muslims. He, therefore, fled towards Jawannagar khada. At around 4:00 p.m. he saw his wife and mother-in-law in the khada (Jawannagar pit). The mob had encircled his wife and mother-in-law and a person with a cloth tied on his head assaulted his wife with a sword, whereupon the witness fled from the scene.

202.15 Having regard to the testimony of this witness, he is a chance witness, who appears to be at the spot by chance. The statement of this witness was not recorded at the relevant time when the incident took place. The version of the incident as given by this witness is contrary to the version given by other witnesses. From the evidence on record it emerges that Kausarbanu, wife of this witness, was killed near the passage of the water tank. Insofar as Jawannagar Khada is concerned, not a single witness has narrated any such incident having taken place there. This witness, therefore, does not come across as a credible or trustworthy witness and one fails to understand as to why the prosecution has examined such a witness whose version is totally inconsistent with the prosecution case. Insofar as the submission made by the learned Special Public Prosecutor that Kausarbanu, wife of this witness may not be same Kausarbanu who was killed near the passage is concerned, such submission is too far-fetched inasmuch as, it is nobody's case that there were two Kausarbanus, who were pregnant and who had been killed in the incident.

202.16 The witness has not named any accused in his testimony and even otherwise the version given by the witness does not inspire confidence and no reliance can be placed upon the testimony of this witness to establish the prosecution case.

203. **PW-226 Salim Allabax Shaikh**, has been examined at Exhibit-1608. He has stated that he can understand a little Gujarati, but will depose in Hindi because he can speak in Hindi. He is a native of District Gulbarga, Karnataka State.

203.1 At present, he is residing in the last lane of Jawannagar, but earlier he used to reside in the first lane of Jawannagar.

203.2 The incident took place on 28.2.2002. On the day of the incident also, he was residing at lane No.1, Jawannagar with his mother Akhtarbi, his elder brother Mahammad Ayub, his sister-in-law, his nephews, his nieces, his sister and his younger brother Mubarak. At that time, his sister was pregnant and had come to their house for her delivery. He had studied upto the 2nd standard.

203.3 On the day of the incident, he was at home. While he was having a bath, he came to know that there were disturbances outside and that the Muslims were being killed outside and that the mobs had come. After taking a bath, he came out and went near the S.T. Workshop. He went out and saw that there were mobs from the side of Krushnanagar as

well as Natraj Hotel. The people in the mob were setting the houses and shops on the road on fire and were coming forward. Thereafter, the police had released tear gas there. Thereafter, he saw that one or two persons were injured by bullets, but he does not know who fired the bullets. Upon seeing all this, he did not have courage to stay there, and hence, he went back to his house.

203.4 After going home, he told his family members about the incidents on the road and advised them that they should go away from there. Thereafter, only his elder brother stayed at home and the rest of the family members, left their house at 3 o'clock in the afternoon. After leaving, they went to the lanes on the rear side. He is presently residing in the lane where they went.

203.5 They stayed in the lane, thereafter, the people in the mob started entering the chawls. They started damaging the houses and setting them on fire. He had come to know that a gas cylinder had been thrown in his house, but he has not seen it. Amongst the persons in the mob, he had seen Bhavani, Guddu and Suresh. Suresh was wearing a sky blue coloured T-shirt and his face was covered by a handkerchief. There was a weapon in his hand, but he does not remember exactly as to whether it was a sword or a pipe. Bhavani and Suresh as well as the other people in the mob had weapons in their hands and the people in the mob were not empty handed.

203.6 Thereafter, he went and left his family members at Gangotri Society and he stayed there.

203.7 Thereafter, someone told him that someone had murdered his elder brother and set him ablaze. He has seen this while he was standing on the terrace of Gangotri Society. He had seen his brother burning. His mother was also with his brother. He had made his mother sit in a lane on the rear side. Before his brother was set ablaze, two to three persons had brought his brother to a lane and made him sit there. He had received news that his brother had sustained a fracture and upon coming to know of the place where he was, he took his younger brother and went near his elder brother. He saw his elder brother sitting there, and till then nothing had happened to him. He had come to know that he had fractured his leg. He, himself had seen his elder brother.

203.8 He and his younger brother lifted his elder brother and seated him in a house where other people were also sitting. That place was also the last lane of Jawannagar. They had also seated their mother at that place.

203.9 After they had seated his brother and his mother at that place, Guddu had come. Guddu had seen them and gone away. Thereafter, he took his younger brother and went to inquire about his family members who were sitting in Gangotri Society. When he went to Gangotri Society, he came to know that his elder brother had been burnt to death.

203.10 From the terrace of Gangotri, he saw that there were twenty to twenty five persons standing, including his brother and mother, and Guddu was also amongst them. He (the witness) gestured to his mother and called her from there. His mother came towards where they were and, thereafter, he

took her and went to Gangotri Society where his family members were. They stayed there till 12 o'clock at night. Thereafter, upon the police vehicles coming at 12:00 to 12:30 at night, they sat in their vehicles and went to the Shah Alam camp.

203.11 They stayed at the Shah Alam camp for five to six months. His brother, as already narrated by him, died on the spot.

203.12 The SIT had recorded his statement in respect of the incident.

203.13 The witness has stated that he knows Guddu Chhara, Bhavani and Suresh Langda. Guddu and Bhavani have passed away and Suresh Langda is alive. He can identify all of them. The witness has thereafter identified accused No.22 Suresh Langda in the dock. The witness has further stated that the name of his brother, who died in the incident, was Mahammad Ayub.

203.14 CROSS-EXAMINATION: In his cross-examination, it has come out that after the incident he had no occasion to meet Guddu, Bhavani and Suresh. The witness has admitted that after all these years on the basis of his memory, he has identified Suresh Langda. The witness has voluntarily stated that he knew all three of them since prior to the incident as they used to visit their area.

203.15 In his cross-examination, the witness has admitted that he had gone on the road at around 9:30 in the morning on

the day of the incident. The witness has admitted that at that time, there was a mob of ten to fifteen thousand people on the road. The witness has stated that he does not know that the people in the mob were pelting stones to get the shops shut down. The witness has stated that all that he knows is that, when he came out, there was stone pelting. The witness is confronted with certain extracts of his statement dated 26.5.2008 recorded by the SIT, but such statement has not been put to the witness to contradict any part of his evidence, and hence, the same not being admissible in evidence, it is not necessary to refer to it.

203.16 In the cross-examination of this witness, it has further come out that in the morning, out of the three accused, he had seen only Bhavani in the mob which came from the direction of Natraj. The witness has admitted that till he left his house at 3 o'clock in the afternoon, he had not seen the other two accused. In the morning, he was near the S.T. Workshop. The witness has denied that he had identified Bhavani in a mob of fifteen thousand people and has voluntarily stated that while he was standing near the S.T. Workshop, at that time, Bhavani came out of the chawl and went in the mob coming from the direction of Natraj Hotel. The witness has denied that only because he had seen Bhavani, he had stated that he had seen him in the Natraj mob. The witness has stated that he saw Bhavani from the mob which was coming from the direction of Natraj Hotel and hence, he was stating so. He had seen Bhavani talking with the people in the mob.

203.17 The witness has denied that if he sees somebody only once, even then after several years, he can recognize

such person and has voluntarily stated that he had seen these three people since his childhood.

203.18 The witness has admitted that he had no social or financial relations with the three accused. He has denied that he and his mother were together and had seen Ayub's incident together.

203.19 The contents of the third line of paragraph 9 of his examination-in-chief are read over to the witness, wherein he has stated that he was while standing on the terrace of Gangotri, to the effect that he has not stated such facts in his statement recorded by the SIT, which the witness has denied. The contents of the third and fourth line of paragraph 12 of his examination-in-chief are read over to the witness, wherein he had stated that he had gestured to his mother and called her from that place, to the effect that he had not stated such facts in his statement recorded by the SIT, which the witness has denied.

203.20 The witness has admitted that he can recognize people from a distance. He has admitted in his examination-in-chief that he has given the names of only those persons, whom he had seen on the day of the incident. The witness has admitted that since he could not recognize others, he had not given their names.

203.21 The witness is cross-examined with regard to the topography of the area. The witness has stated that he does not know in whose house he had hidden Ayub and that as on date also, he does not know where he has made his mother

and Ayub to sit. The witness has admitted that the house was in the last lane of Jawannagar and has denied that Ayub was killed in the house where he had left him. Certain extracts of his statement recorded by the SIT are sought to be put to the witness, however, since the same are not put to the witness to contradict any part of his evidence, they are not admissible in evidence.

203.22 The witness has admitted that he does not know as to on whose terrace he was in Gangotri Society. The witness has admitted that from the terrace of Gangotri Society, he could not see the house in which Ayub was hidden. The witness has admitted that from the terrace, he could see the lane of the house in which he was hidden. He has stated that from the terrace where he was hiding, the house where Ayub was hiding was at a distance of around 200 to 300 feet. The witness has admitted that Ayub's incident had taken place at a distance from where he could clearly see it.

203.23 To prove the omissions and contradictions as to the previous statement of this witness, the defence has cross-examined PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), who in his cross-examination has admitted that he has recorded the statement of this witness on 26.5.2008. The Investigating Officer has admitted that this witness in the statement recorded by him had stated that *".....since the riotous mob was committing arson, Muslims had also gathered and there was cross stone pelting....."* (paragraph 22); *".....at this time, the police had fired at the Muslim mob, wherein two persons were injured by bullets, which he had seen with his own eyes....."* (paragraph 23); *".....out of fear, he hid in a*

house at Jawannagar with his family; however, as the mobs were setting the Muslim chawls on fire and were killing Muslims, together with the people in the house they came out of their house at 3 o'clock....." (paragraph 24); "...he had come near his mother and seen that Guddu Chhara and the people with him, had ignited a fire and burnt him.....".

203.24 The contents of paragraphs 29 and 32 of the deposition of the witness are read over to the Investigating Officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him.

203.25 The contents of the last three lines of paragraph 9 of the examination-in-chief of the witness are read over to the Investigating Officer wherein the witness has stated that he had stood on the terrace of Gangotri Society and seen. The Investigating Officer has admitted that in his statement, the witness has not stated that he had seen from the terrace but had stated that he had come near his mother and seen.

203.26 SUBMISSIONS: The learned counsel for the appellants submitted that this witness had stated before the SIT that it was the police who had resorted to firing, but in his deposition, he has stated that he does not know who had fired the bullets. It was submitted that this witness has not given any statement or complaint prior to the recording of his statement by the SIT. In his examination-in-chief, he has not attributed any overt act to any of the accused. According to him, the incident of his brother has taken place in two parts. He came to know that his brother had sustained a fracture and somebody had made him sit near a lane. He along with his

younger brother went to him and found that he had sustained a fracture. The witness says that his brother was physically lifted by him and his younger brother and he was made to sit inside a house with their mother. He, thereafter, went away to Gangotri as stated in paragraph 11 and then, he says that from the terrace of Gangotri, he saw his brother burnt.

203.27 It was submitted that these facts, if seen with reference to paragraph 36 of his cross-examination, he has admitted that after his brother was hidden in a house, Guddu came along and that thereafter, he brought other ten persons and they had killed his brother by inflicting sword blows in the presence of his mother, whereas, as per his statement, he has stated that from the terrace where he was hiding, the house where Ayub was hiding was at a distance of around 200 to 300 feet, where he was burnt. It was submitted that thus, not only does he state contrary facts before the SIT and before the court, his version does not inspire any confidence as there is a clear proved omission about he having seen the incident from the terrace of Gangotri regarding his brother being found burning. It was submitted that the witness has pleaded ignorance as to in which house Ayub was made to sit. The say that his mother was then called back by gesturing is not believable in the fact situation because if his mother was present when Ayub was killed, she would not have been spared by the mob. It was submitted that his younger brother Mubarak and mother Akhtarbi, who would be very important witnesses, have not been examined to prove the facts regarding Ayub's incident.

203.28 It was submitted that all the facts as stated by the

witness though found contradictory *inter se* are in further contradiction to the incident of Ayub being stated by other witnesses, viz., after he jumped from the terrace, the mob put him in a rickshaw and set him ablaze. Therefore, from no angle, a consistent story is coming out regarding Ayub's incident, about the place where he is allegedly killed, the manner in which he is killed, whether he was set ablaze at the house where he was hiding or in a rickshaw as claimed by other witnesses; and further whether Ayub's incident has taken place consecutively, viz. his falling and immediately being killed; or that the sequence has taken place in two parts with a considerable gap in between.

203.29 It was further submitted that the witness has no acquaintance with accused No.22 as stated by him, and in view of the material contradictions in his testimony, it is very difficult to believe any participation of Suresh when nothing specifically is alleged against him.

203.30 Mr. P. G. Desai, learned Special Public Prosecutor, submitted that the contradictions brought out in the cross-examination of this witness are not material as he has clearly stated as to how and under what circumstances deceased Bhavani had been recognized from the mob. It was submitted that Ayub has been killed and this witness is not cross examined in that regard and no material contradiction has brought out in the cross examination of the witness as per the provisions of law. It was contended that the witness has not given statements in the year 2002, but had given an application to the Police Commissioner in the year 2002, and on that basis, the S.I.T. had recorded his statement in the year

2008. Therefore, this witness who has lost his brother, is believable. It was submitted that whether the fracture sustained by his brother was because of the fall from the terrace or not, the fact remains that he was set ablaze as stated by the witness. Therefore, the evidence of his brother being set ablaze is supportive evidence so far as other witnesses are concerned.

203.31 ANALYSIS: This witness is the brother of Ayub, who was killed in an incident. The evidence on record reveals that no statement of this witness was recorded by the police at the relevant time and for the first time his statement came to be recorded by the S.I.T. in the year 2008. On a perusal of the testimony of this witness, the entire story put forth by the witness in his examination-in-chief does not inspire confidence. According to this witness he was a resident of Lane No.1, Jawannagar. He left his house with the entire family, except his elder brother Ayub, at about 3 o'clock in the afternoon. They went in the lanes and the mob was ransacking the houses. The witness saw three accused, namely, Bhavani, Guddu and Suresh (accused No.22) in the mob. Thereafter, he left his family at Gangotri Society and was standing there. At this point of time somebody came and told him that his brother has been killed and burnt. The witness has stated that from the terrace of Gangotri, he saw his brother burning. However, prior thereto, he had heard that his brother had sustained a fracture, and therefore, he had gone with his younger brother, lifted his elder brother, taken him to a house and got him seated there. Subsequently, he had seen the incident of his brother being burnt. The entire sequence of events as narrated by this witness does not have a ring of truth in it, inasmuch as,

it is difficult to believe the manner in which the witness has been moving around. Moreover, the testimony of this witness with regard to the incident of Ayub also does not inspire confidence inasmuch as majority of the witnesses have stated that after Ayub jumped/ fell from the terrace, some of the accused had assaulted him, put him in a rickshaw and set him ablaze, whereas as per the version given by this witness, Ayub had fractured his leg, thereafter he and his brother lifted him and took him to a house and subsequently the accused had burnt him.

203.32 Having regard to the quality of the evidence of this witness together with the fact that such version had come for the first time in the year 2008, when his statement came to be recorded by the SIT, no reliance can be placed upon his testimony to prove the charge against the accused named by him.

204. **PW-227 Zuber Khan Islam Khan Pathan**, aged 38 years, has been examined at Exhibit-1614. The witness has deposed that he is residing at *Khemchand-ni-Chali, Opposite S.T. Workshop, Behind Noorani Masjid, Naroda Patiya* since his birth. His family is comprised of his wife, two sons and a daughter. In the year 2002 also, he was residing together with his wife and his three children.

204.1 In the year 2002, he was serving in a fruit shop. At present, he is working in a unit which disposes of old clothes.

204.2 The incident took place on 28.2.2002. On that day, the Vishwa Hindu Parishad had given a call for Gujarat Bandh.

On that day in the morning, he was at home. On that day, at around 9:00 to 9:15 in the morning, he had gone to Milan Hotel, near the Noorani Masjid to drink tea. There, two to three friends had gone to drink tea. On that day, at that time, he had seen that the mobs were coming from both the sides from Natraj Hotel as well as Krushnanagar. These mobs were comprised of Hindus. The people in the mobs were sitting in rickshaws and saying, "*Bandiyas, shut your shops*". He went towards Krushnanagar to watch. On seeing the mobs there, they were afraid and came back from the gate of the S.R.P. Quarters. They returned to Milan Hotel and they had a talk with the owner of Milan Hotel and told him to close the hotel.

204.3 At that time, in the mob, from the side of Krushnanagar, he had seen Bipin Panchal (A-44). He had a sword in his hand. In the same mob, Guddu Chhara and Babu Garagewala (A-33) was also present. Guddu Chhara and Babu Garagewala (A-33) both had iron pipes in their hands. The Krushnanagar mob was shouting and vandalizing and was burning tyres in the middle of the road. Thereafter, he went to Natraj Hotel. In the mob from Natraj Hotel, he had seen Mayaben Kodnani on the road. The people in that mob had saffron flags and were wearing khakhi shorts. Mayaben was telling the people in the mob that they should go forward and that she was with them. Thereafter, he returned to the Noorani Masjid.

204.4 Near the Noorani Masjid, he told the people of his community that the situation was tense and that they should be careful. The mob of Hindus was pelting stones at the Noorani Masjid. Upon Mayaben saying, what he had stated, to

the mob, out of fear and caution, he came to the Noorani Masjid and asked the people of his community to be careful.

204.5 On that day, there was a police point at the Noorani Masjid. The people at the police point told them that they would reason with the Hindu mob and that nothing would happen and told them to take the people of their community home. Upon hearing this from the police, he had taken the people belonging to his community from the Noorani Masjid to their homes.

204.6 While he was taking the people of his community, he saw that people belonging to the Hindu community were pelting stones and burning rags. At this time, the police lobbed tear gas shells at the people of their community. The police did not give them any help. The police had released tear gas and at this time, the people in the mob were saying "*You, Bandiyas will not escape; you say Jay Shri Ram*". At this time, people ran helter skelter to save their lives. The people in the mob were shouting "kill, cut".

204.7 The people in the mob were stopping the traffic on the road and were burning vehicles, cars and rickshaws and were causing destruction. Till that time, he was at the Noorani Masjid. Thereafter, he crossed the road and went towards Hussainnagar, which is situated next to the S.T. Workshop.

204.8 When he went to Hussainnagar, there also a Hindu mob was standing. They were assaulting people belonging to the Muslim community with weapons and were burning houses and throwing burning rags. There was also firing in

Hussainnagar. There was private firing as well as police firing. In this firing, a boy named Abidali had died. Abidali had died immediately. Upon this happening, there was a stampede amidst the Muslim public. At that time, he and the other people belonging to his community started going towards Jawannagar. They had gone to Jawannagar from 1:00 to 1:30 in the afternoon. He had gone straight from Hussainnagar to Jawannagar.

204.9 Thereafter, at about 4:00 to 4:30, they had gone to the S.R.P. Quarters. At the S.R.P. Quarters, they requested them to let them to enter the quarters. At that time, the Jawans told them that there are orders from above, and hence, they would not let them enter. Thereafter, they sat at the Jawannagar Chhapra (hutments) till around 5:30.

204.10 While they were sitting in this manner, Guddu Chhara, Babu Garagewala, Suresh Langda had come and seen them. Thereafter, these three people had come with a mob of Hindus and this mob had pelted stones at the people of the Muslim community. Thereafter, they went towards Gangotri Society. There, they had asked the people for help. However, they had not helped them. They had closed the doors of their houses. Thereafter, they returned to Hussainnagar.

204.11 Thereafter, they had gone to Umrudhin's house at Hussainnagar, which was a two storeyed house and they had gone there and hid there. Approximately two hundred to three hundred people had taken shelter at this place. They had stayed at Umrudhin's house till around 2:00 to 2:30 at night. Thereafter, upon the police coming to call them at night, they

were frightened. As they were afraid, they did not come out. They had felt that Hindu mobs might have come. Upon the police coming once again, they had taken them to the Shah Alam camp.

204.12 He had stayed at the Shah Alam camp for one to one and a quarter months. During this period, he had made an application dated 3.6.2002 to the Commissioner office. Thereafter, his statement was recorded by the SIT at Gandhinagar.

204.13 In the riots, his house was looted and damaged. He had lost about six tolas of gold and had also sustained other damages.

204.14 During the stone throwing on the day of the incident, he was injured on the right leg and had taken treatment at the relief camp.

204.15 In the year 2002, he had also another house at Pandit-ni- Chali, behind the Noorani Masjid. This house was set on fire during the incident. His house was looted, ransacked and then set on fire and he had suffered loss.

204.16 The witness has stated that he knows Guddu, Babu Garagewala and Suresh Langda and can identify all of them. Guddu has passed away. The witness has further stated that he can also identify Bipin Panchal and Mayaben Kodnani. The witness has thereafter identified Mayaben Kodnani (A-37), Suresh Langdo (A-22) and Bipin Panchal (A-44) correctly. The witness has stated that Babu Garagewala is not present,

though he was present. Therefore, the witness has not been able to identify Babubhai alias Babu Vanzara (A-33).

204.17 CROSS-EXAMINATION: In the cross-examination of this witness, it has come out that he has studied upto the 5th standard. The witness has admitted that his statement was recorded at the SIT office at Gandhinagar on 26.5.2008. He has admitted that the facts stated by him in the statement recorded by the SIT, had not been stated by him before any authority like the police, Collector, etc. prior thereto. The witness has admitted that he has not made any application to the SIT for recording his statement and has voluntarily stated that on 6.3.2002, he had made an application from the camp. He had not made any application addressed to any SIT authority to record his statement. The witness is cross-examined with regard to the conditions at the camp.

204.18 [During the course of the recording of the evidence, the learned counsel for the defence wanted to refer to the complaint of the applicant which is on the record to cross-examine the witness. The learned Special Public Prosecutor had submitted that no separate offence had been registered pursuant to the complaint of the applicant and that it is included in the main complaint being I-C.R. No.100/02].

204.19 The witness has admitted that in his application dated 6.3.2002, addressed to the Police Commissioner, he had stated all that he had seen. The witness has identified his signature at the bottom of the certified copy of the complaint. The witness has also identified his signature at the bottom of the readymade complaint as well as the loss damage analysis

form. The witness has admitted that the contents of the application are correct. However, in the loss damage analysis form, the number of his family members is stated to be seven, whereas actually it is five. The witness has further stated that moreover, in the application read over to him, one name is not written down which is Mayaben Kodnani's name. Other than that, all the facts stated therein are true. The complaint application and the loss damage analysis form are jointly given Exhibit-1616.

204.20 The witness has admitted that both, the complaint application as well as the loss damage analysis form, are printed wherein the facts are required to be filled in by hand. The witness has admitted that it has not happened that he has gone out of the camp and got the complaint application and form printed. The witness is not aware as to who came to him in the camp with the form. The witness has admitted that the forms were being filled up at the tables. He does not know the name of the person who wrote the form. The witness has stated that the document Exhibit-1616 was not read over to him. The witness has admitted that he had read the application form for the first time on that day. The witness has denied that document Exhibit-1616 was read over to him by the SIT at Gandhinagar. The witness has denied that in his application Exhibit-1616, he has not named Guddu, Mayaben and Suresh Langda. The witness has denied that in his complaint application Exhibit-1616, he has not stated the facts stated by him in the examination-in-chief and has voluntarily stated that he had dictated the same, but he is not aware whether they had written it down. The witness has admitted that many people belonging to their community were getting such printed

applications written down. The witness has admitted that there were volunteers and people belonging to the Muslim community who used to write down the applications. The witness has admitted that the document Exhibit-1616 bears two signatures of his. The witness has admitted that there are two signatures at the bottom of the form, but has stated that only one of the signatures is his. The witness has admitted that before the SIT, he has not stated that names of certain accused have been left out in the printed complaint application Exhibit-1616 and that the role played by the accused has not been written down.

204.21 The witness has admitted that ordinarily, he has breakfast at 7:00 to 7:30 in the morning. He has admitted that on the day of the incident, he was at home till 9 o'clock in the morning. The witness has admitted that on the day of the incident, till he was at home till 9 o'clock in the morning, there was no stone pelting. The witness has admitted that prior to 9 o'clock in the morning; there were no mobs on the Ahmedabad – Kalupur road and the Dhanurdhari Mata road. The witness has admitted that till 9 o'clock in the morning, he was sitting outside on the veranda and till then, there were no mobs. The witness has admitted that if one wants to go to the Noorani Masjid from his house, one can go through the internal roads of their chawls and that one can also go from the road going towards Dhanurdhari Mata temple through Krushnanagar. The witness is also cross-examined with regard to the topography of the area.

204.22 The witness has admitted that he had seen the people with saffron stoles/scarves, khakhi shorts and white

undershirts and that the mob was comprised of a large number of people. He had not seen Bipin and Babu Garagewala wearing saffron stoles, khakhi shorts and white undershirts. He has also stated that he also had not seen Guddu and Suresh wearing khakhi shorts and white undershirts and saffron scarves on their faces. The witness has stated that in the Krushnanagar mob also, he had not seen any person with a cloth tied over his face where only his eyes could be seen.

204.23 The witness has admitted that upon reaching the S.R.P. Quarters, he had seen the mob on Krushnanagar cross roads. The witness has admitted that he had identified the accused in the mob from the S.R.P. Quarters gate. The witness is once again cross-examined with regard to the topography of the area and the police points which had been placed in the area on that day. The witness has admitted that the mob was creating a lot of noise. When he came from Natraj Hotel to Milan Hotel, at that time, he did not have a talk with anyone on the road. He has admitted that when he went in this manner, the mob was in the middle and he had passed through the mob and when he returned through the mob, nobody had assaulted him or stopped him. He has admitted that there were huge mobs on all four sides. He has admitted that at this time, persons wearing khakhi shorts with stoles and cloths tied over their faces were there. The witness has admitted that in the mob which he had seen from Krushnanagar, many people had flags in their hands.

204.24 The witness has admitted that at this time, he had seen people coming in luxury buses and alighting from them. The luxury buses were coming from the main road on the

Naroda side.

204.25 The witness has admitted that after returning to Milan Hotel from the S.R.P. Quarters, he had sat there for about five minutes and again gone to Natraj Hotel, when he saw Mayaben in the car. The witness has denied that Mayaben was wearing a saree and salwar and had tied a saffron band. The witness has stated that Mayaben had not tied anything on her face or waist. He has not seen her wearing a helmet. The witness has admitted that at that time, there were Hindu mobs near Mayaben. The witness has admitted that at that time, he had gone and stood next to Mayaben and was standing there for two to five minutes. The witness has admitted that at that time, no one did anything to him. The witness has denied that after he saw Mayaben, she had crossed the mob and gone away from there. The witness has voluntarily stated that Mayaben had remained there. When he left, Mayaben was present. After he left, he does not know whether Mayaben had stayed there or not.

204.26 The witness has admitted that he had come to Hussainnagar. Before going to Hussainnagar, he had crossed the road and was standing underneath a tree near the S.T. Workshop. He had stood near the gate for around ten to fifteen minutes and thereafter, gone to Hussainnagar. The witness has admitted that while going on this road, after crossing three or four chawls, Hussainnagar-ni-Chali is situated. The witness has admitted that Muslims had fled inside the S.T. Workshop road. The witness has admitted that Abid was injured by a bullet near Hussainnagar lane.

204.27 The witness has stated that after Abid was injured by a bullet near Hussainnagar-ni-Chali, he had not taken him inside. He has stated that he had not seen the police firing from a police point near the Noorani Masjid. He had not seen the police firing from the S.T. Workshop towards Hussainnagar. The witness has admitted that there was a police point near the S.T. Workshop gate. The witness has admitted that there were four armed policemen at the S.T. Workshop gate, but has not seen any of the four policemen firing towards the Noorani Masjid. The witness has stated that Abid was injured by a bullet in his stomach. The witness has admitted that when Abid was injured by a bullet, it must have been around 12:00 to 12:30 in the afternoon. He has denied that till 6 o'clock in the evening, he had not seen Guddu, Suresh and Babu Garagewala. He has stated that he had no talking relations with Babu, Guddu, Bipin and Suresh and they do not visit each other's place and do not have any give and take relations.

204.28 The witness has stated that he knows that Bipin Auto Centre belongs to Bipinbhai. The witness has denied that when he did not get work from A.S. Automobiles, on that day he would go to wash cars at Bipinbhai's place and Bipinbhai used to pay him Rs.100/- per day for washing the cars and thus, prior to the incident, he had gone to Bipinbhai Autowala about fifteen to sixteen times and Bipinbhai had not paid him the amount towards such labour, and hence, he was falsely implicating him in the incident. The witness has denied that he had falsely given the name of Bipinbhai at the instance of certain people.

204.29 In his cross-examination, it has further come out

that he has seen Mayaben's hospital. He has admitted that if one comes out of his house and crosses the road, Mayaben's hospital is on the opposite side. The witness has admitted that he and his wife had no occasion to go to Mayaben's hospital. The witness has admitted that he has no give and take relations with Mayaben and does not have any speaking relations with her. The witness has admitted that he knows Mayaben as the M.L.A. of their area and has seen her photographs in the newspapers and advertisements. The witness has denied that he had needed the help of Mayaben for obtaining the balance amount towards the damage sustained by him from the Government. The witness has denied that he had asked Mayaben to help him in getting the compensation due to him from the Government, but as she had refused to do so, he had got angry and had falsely implicated her in the case. The witness has denied that he has not seen any of the accused whom he had named in his examination-in-chief, and hence, he had not lodged any complaint stating the names of all the accused and attributing the roles to them. The witness has further denied that it is at the instance of the SIT that he was falsely deposing on oath.

204.30 The witness has admitted that there were women and men in Umrudin's house. He has admitted that after he went inside the house, no other persons have come in. The witness has denied that in Umrudin's house, women were made to sit on the rear side and the men were sitting in the front side and stated that everyone were sitting together and men and women were not made to sit separately. People were sitting in the two rooms and on the terrace of Umrudin's house and that he was sitting on the terrace. The witness has

stated that after he went to Hussainnagar, the police started firing. He has admitted that Abid was injured in the police firing.

204.31 SUBMISSIONS: The learned counsel for the appellants submitted that no police statement of this witness has been recorded. The witness had given a printed complaint on 6.3.2002 (Exhibit-1616). According to the witness, it was given by him and upon the contents thereof being read, he has admitted the same, accepting the fact that the name of Mayaben is omitted in it though given. But the fact remains that he had not given the name of any accused as stated by him in his examination-in-chief at the first available opportunity on 6.3.2002 or at any subsequent stage until his statement was recorded by the SIT.

204.32 Referring to paragraph 6 of his examination-in-chief, it was submitted that after seeing the violent mob, he says that he crossed the road which is highly unlikely and he is not giving a correct account of the facts. Referring to the contents of paragraph 7 of his examination-in-chief, it was submitted that the witness has stated that Mayaben was in the mob, but he does not say that she came in a car. It was submitted that in the printed application, there are names of Bipin and Babu, but the names of Guddu, Suresh and Mayaben are not stated in that application. Referring to the cross-examination of the witness (paragraph 37), it was submitted that the witness has stated that out of the names stated by him, one name, that is, Mayaben is left out. It was submitted that even if at this stage he does not say that the three names given by him are not there in the application, which indicates that the other accused

were sought to be consciously roped in at a belated stage. Referring to the contents of paragraph 7 of the examination-in-chief of the witness, it was submitted that the witness refers to saffron flags which no other witness has stated. Referring to the contents of paragraphs 8 and 9 of his examination-in-chief, it was submitted that the witness has posed as a leader which is not said by any other witness and that the position of the witness was such that it is not believable that he would so dominate the group of persons of such community.

204.33 Referring to the contents of paragraph 14 of the examination-in-chief of the witness, it was submitted that Babu has not been identified and it appears that at this stage, all the Hindus had left the houses and had gone. Inviting the attention of the court to the contents of paragraph 15 of his examination-in-chief, it was submitted that it was not possible for the witness to return to Hussainnagar at this time. Therefore, whether the witness is giving the correct account of what he has seen is very doubtful. It was submitted that insofar as naming of the accused in the printed form is concerned, even if it is admitted, it may not be considered as a corroborative piece of evidence to corroborate the evidence of the witness when he names such accused subsequently. It was submitted that what is stated by the witness in the printed complaint signed by him and sent to the Commissioner of Police, the contents whereof he has admitted, runs completely contrary to the deposition of the witness. It was submitted that the naming an accused in such a printed complaint, which is also not referred to in his police statement or SIT statement or before the court, should not be taken as having any corroborative value to lend assurance to any such contrary

allegations made in the deposition.

204.34 Referring to the contents of paragraph 45 of his cross-examination, it was submitted that even before the SIT when his statement was recorded, he has consciously improved upon the entire story and implicated more persons whom he has named and identified before the court, however, one of whom though stated in the printed complaint, that is, accused No.33 is not identified before the court and that the accused who are not named in the application are named and identified. It was submitted that the entire testimony of the witness is doubtful as the whole story is coming up after six years. It was submitted that the witness has tried to talk about both the police and private firing in paragraph 12, whereas in the last paragraph 83, last two lines, he has specifically admitted that he saw Abid being injured in the police firing. It was submitted that in the cross-examination of the witness, it is clearly brought out that he had no acquaintances with Babu, Guddu, Bipin and Suresh, and in the absence of any test identification parade, the identification for the first time before the court should not be accepted.

204.35 It was submitted that out of several witnesses who have named Mayaben, only two witnesses have stated that they have seen Mayaben at the Natraj Hotel, and, therefore, the version given by the witness is contrary to the version given by the other witnesses. It was submitted that the fact that the witness says that there was firing at Hussainnagar shows that the witness was not present as Abid was not killed at Hussainnagar.

204.36 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that the presence of this witness at the scene of offence is not doubted. He has narrated two incidents, one that took place in the morning and the other in the afternoon. In the first incident, he spotted some of the accused persons in the mob, who were instigating the mob. For that incident, the defence failed to dislodge the theory of the prosecution during the course of cross-examination. It was submitted that the prosecution has proved through this witness about the presence of the accused in the morning and also in the evening, including the overt acts of the accused in both the incidents.

204.37 It was submitted that insofar as the printed complaint and the names of the accused persons are concerned, the witness being illiterate might not have any occasion to go through the contents and only because in the printed complaint, the names are not mentioned and are mentioned in the year 2008, the evidence should be discarded, is not the correct approach. It was submitted that the credibility of this witness is not impeached so far as the two incidents are concerned, and hence, his testimony is required to be believed.

204.38 ANALYSIS: As per the version given by this witness in his examination-in-chief, at 9:15 to 9:30 he went to Milan Hotel near the Noorani Masjid to have tea. He saw mobs from Natraj and Krushnanagar. The mobs of Hindus were sitting in rickshaws and making certain disparaging utterances. From there, he went to Krushnanagar to watch and upon seeing the mobs there, out of fear, he returned to Milan Hotel from the

S.R.P. gate. There, he had a talk with the hotel people and advising them to shut the hotel. At that time, in the mob from the side of Krushnanagar, he saw Bipin Panchal (A-44), Guddu Chhara (deceased) and Babu Garagewala (A-33), all of whom were armed with weapons. Thereafter, he went in front of Natraj Hotel. In the Natraj Hotel mob, he saw Mayaben Kodnani on the road. The people in the mob had saffron flags and were wearing khakhi shorts. Mayaben exhorted the mob to go ahead saying that she was with them. Thereafter, he returned to the Noorani Masjid. The witness has also stated that the people in the mob were stopping the traffic on the road and were burning cars and rickshaws. He went from there to Hussainnagar, where also Hindu mobs were present and they were assaulting the Muslims and were setting the houses on fire. There was firing at Hussainnagar, both private and police. One Abid was injured and the people of their community started running helter skelter. At this time, the other people went towards Jawannagar. When he reached Jawannagar, it was around 1:00 to 1:30. At around 4:00 to 4:30, they went to S.R.P. Quarters, but were not permitted to enter inside. They sat there till 5:00 p.m. While they were sitting there, Guddu Chhara, Babu Garagewala and Suresh Langda saw them and came with a mob of Hindus and started pelting stones at them. Thereafter, they went towards Gangotri Society. They asked for help from the people there but did not get any and hence, they returned to Hussainnagar and went to Umrudhin's house and hid there. The witness has identified Mayaben Kodnani (A-37), Bipin Panchal (A-44) and Suresh Langda (A-22) but could not identify Babu Garagewala correctly.

204.39 In his cross-examination, the witness has admitted

that prior to his statement being recorded by the SIT, he had not stated facts about the incident before any authority.

204.40 Insofar as implication of A-37 Mayaben Kodnani is concerned, the same shall be referred to while considering the evidence against the said accused in relation to the charge of conspiracy.

204.41 This witness has also admitted that Abid was injured near the lane in Hussainnagar. He has stated that the police started firing after he went to Hussainnagar and has admitted that Abid was injured in police firing. Thus, while most of the witnesses referred to Abid having been injured in the police firing on the road near the S.T. Workshop, this witness refers to police firing at Hussainnagar and Abid being injured by a bullet at Hussainnagar, which is contrary to the evidence of majority of the witnesses. The version given by the witness regarding the mobs stopping the traffic and burning cars and rickshaws is also not borne out from the record, inasmuch as, the evidence on record reveals that right from the morning, the traffic on the road was sporadic and none of the witnesses have stated that the people in the mob had stopped the traffic and were burning vehicles on the road. The entire story put forth by the witness is contrary to the evidence on record. The statement of this witness was recorded for the first time before the SIT. Prior thereto, no statement of this witness was recorded; however, a printed complaint Exhibit-1616 was made by this applicant, wherein he has not named any of the accused. A perusal of the complaint Exhibit-1616 reveals that it is signed by the witness and, therefore, it appears that the witness is not illiterate. Therefore, he would be well aware of the contents thereof.

204.42 It is quite disturbing that the witnesses who have come at the stage of SIT have made statements and have deposed contrary to the basic prosecution case. The SIT has been constituted by the Supreme Court to carry out further investigation as the victims had complained that the earlier investigation was not proper. Therefore, one would expect that the quality of investigation carried out by the SIT would be better than the investigation carried out by the earlier authority. However, some of the witnesses who have been introduced at the stage of the SIT have only succeeded in contradicting the prosecution case. For example, the inclusion of this witness as well as PW-225 Firoz Khwajamohiyuddin Shaikh, husband of Kausarbanu, as prosecution witnesses gives rise to a suspicion as regards the bona fides of the SIT in the matter of carrying out the investigation and bringing the culprits to book.

204.43 Considering the overall testimony of this witness, he does not come across as a credible and trustworthy witness and no part of his evidence can be relied upon for the purpose of proving the charge against the accused.

205. **PW-228 Javed Ismail Shaikh**, aged 22 years, has been examined at Exhibit-1621. The witness has deposed that he can understand Gujarati, but would find it more convenient to depose in Hindi and hence, he will give his testimony in Hindi.

205.1 The witness has deposed that he has studied upto the 3rd standard in Hindi medium. In the year 2002, he was

residing in *Lane No.1, Hussainnagar, Naroda Patiya*. He was born at Naroda Patiya. His native place is *Gulbarga, Karnataka State*.

205.2 In the year 2002, he, his father, his mother Noorjahanbanu and his sister Sufiyabanu were residing together. At that time, his mother was working in a thread factory and his father used to do tailoring work. He used to work as a conductor in a loading rickshaw.

205.3 The incident took place on 28.2.2002. On the day prior to the incident, he was at his job. During the course of his service, his rickshaw was at Krushnanagar on that day. There, in the context of the Godhra incident, stalls, cabins etc. were being made to shut down. The traffic of vehicles was also being stopped. On the day prior to the incident, in the evening, at around 5 o'clock, his employer had dropped him at Krushnanagar, and from there, he had gone home on foot.

205.4 On 28.2.2002, the day of the incident, he was at home and as per his routine, he left his home at around 9 o'clock and came to Patiya cross roads. There, he saw that the shops were closed. Thereafter, he sat there for a little while. At that time, he saw a jeep coming from the direction of the Noorani Masjid. The jeep was open jeep like those in which marriage processions are taken out. There were around fifteen to twenty people sitting in the jeep. They had saffron bands tied on their heads. They had swords and tridents in their hands. Several people also had daggers in their hands. They were coming towards the Noorani Masjid.

205.5 At Patiya cross roads, there is a temple of Jay Ambe Ma. The armed people in the jeep got down near the temple. Behind these people, another mob of Hindus was following. One more mob was coming from the direction of Krushnanagar. This mob was causing damages and while it was coming. The mob came near the Noorani Masjid and attacked the Noorani Masjid. They had pelted stones and had thrown gas cylinders, etc. inside the Noorani Masjid.

205.6 The police lobbed tear gas shells and resorted to firing at the Muslims who were present at the site to protect the masjid. In the police firing, one Mohammadhussain of their chawl was injured by a bullet. Priya Talkieswala Pirubhai was also injured in the shooting. Out of fear, he (the witness) went home from there.

205.7 When he went home, he saw that his family members as well as their relatives were sitting in his house. Thereafter, they stayed at his house till 12 o'clock in the noon. The people of the mob thereafter started to enter their chawls, whereupon they left their house and went towards Jawannagar. The people in the mob were causing destruction. They went to Jawannagar where other Muslims were sitting. They stayed there till around 4 o'clock in the evening. He does not know at whose house they were in Jawannagar.

205.8 At the place where they had stayed at Jawannagar, Bhavanisingh came. Bhavanisingh told them to come out from there and to come to a hall near his house and sit there. Upon hearing this, other Muslims started going and they also started following Bhavani. They sat in the hall for a little while.

205.9 Thereafter, Bhavanisingh came and told them that they should leave that place and that arrangements have been made for them towards Teesra Kuva. They started going in that direction and they saw a mob was standing there. He saw that the people in the mob had weapons like swords, dharias, guptis, cans of petrol, etc. Upon seeing the people in the mob, the Muslims started returning to their chawls. The mob followed them while they were returning, another mob came from the direction of the Muslim chawls, that is, Jawannagar. They were going towards Jawannagar; however, they could not reach Jawannagar. Before they could reach Jawannagar, they were caught in a passage near the water tank which is situated between Gopinath and Gangotri Society.

205.10 Several people, who could jump over the wall near the water tank, got away. However, they could not go. Both the mobs had stopped them there. Babu Bajrangi was there in the mob with a sword in his hand. He was showing them the newspapers and telling them that these were the photographs of the Godhra incident and that their condition would also be the same. Thereafter, Babu Bajrangi said "Jay Shri Ram" and started assaulting the Muslims. In the mob, he saw Guddu Chhara, Bhavanisingh, Suresh Chhara (A-22) and Manubhai (A-28). All these people and the other people in the mob said "Jay Shri Ram" and started assaulting. These people were throwing burning rags on them from the terrace of the tank.

205.11 In this incident, infant children came to be burnt alive. He was one of the persons, who were caught in all this. In this incident, there was stone pelting also and he himself

was injured on the right side of his forehead by a stone. He hid between bushes in the passage between Gopinath and Gangotri Society. He and his family members got separated in this incident. The incident took place at about 6:30 to 7:00 in the evening. He saw that his maternal aunt's daughter Kausarbanu, wife of Khalid Noormahammad Shaikh was also there at the time of the incident. She was trying to save herself from the mob. At that time, four people had caught hold of her. He saw that Babu Bajrangi struck a blow with a sword on her stomach and cut it open. Babu Bajrangi took out the foetus on the tip of the sword and swirled the foetus and threw it into the fire. Like other people were thrown into the fire, these people also threw Kausarbanu in the fire. In the mob, he had seen a woman whom he does not know. Her clothes were torn and the people in the mob were inserting an iron pipe inside her private parts. She was lying in an unconscious condition. He saw another woman named Kudratbibi who was fully burnt and was lying in a totally burnt condition at the spot. The people in the mob had pelted stones at Kudratbibi who was lying in this manner. There, something like a mass of muscle had come out from her head. She was completely burnt.

205.12 At the scene of incident , the people in the mob were trying to ascertain as to who was alive and who was dead and for this purpose, they were hitting the people who were lying there. He was trying to come out of the bushes when the people in the mob came there, and hence, he too lay down on the spot between the corpses and pretended to be dead. At this time, they were trying to ascertain whether anyone was alive and Guddu Chhara had inflicted a blow with a pipe on his head.

205.13 On the day of the incident, since morning, he had not eaten or drank anything, and hence, after Guddu hit him, he became unconscious at the scene of incident.

205.14 At around 10:00 to 10:30 at night, when he regained consciousness, he was still there. He saw that nearby, there were dead bodies which were burnt to ashes. When he got up and tried to go, on the road he could hear sounds of fire crackers and bands. Thereafter, he got up and went out. He went on the road outside walking against the S.T. compound wall. When he came out like this, there were burning corpses on the road.

205.15 Thereafter, he came to the highway which leads to Narol. Thereafter, he went on foot through *Soni-ni-Chali* through Krushnanagar and Thakkarnagar. When he reached near Geeta Gauri Cinema, he saw a Hindu mob attacking the shops of Muslims. From there, he went hiding and via CTM Ambika Hotel, went to his employer's house. His employer was a Hindu. At around 12 o'clock at night, he reached his employer's house.

205.16 Upon seeing him, his employer immediately called him inside the house. On seeing his condition, he gave him food, water and clothes. At this time, his hands and feet were burnt and he had also sustained an injury on his head. Thereafter, he (his employer) sent him with a person on his motorbike to the L. G. Hospital for treatment. At around 1 to 2 o'clock at night, they reached the L.G. Hospital. The doctors on duty there gave him treatment and bandaged him. His

employer had paid the expenses to the hospital. He was not admitted to the hospital and his employer had a talk with the doctor inside. Thereafter, his employer had left him at the L. G. Hospital.

205.17 He stayed at the L. G. Hospital for three or four days, but not as a patient. His employer used to come to meet him there. He used to eat and drink from the stall outside the L. G. Hospital.

205.18 At the L. G. Hospital, he talked to a Muslim compounder who used to come from Shah Alam about the incident. Thereafter, he took him to Shah Alam and left him at the Shah Alam relief camp.

205.19 At the camp, he met his maternal uncle Noormahammad. Upon his maternal uncle asking him about his family members, he told him that in the incident that took place in the passage of Gangotri – Gopinath, his mother, father and sister were killed by the mob. At the relief camp, he came to know that six family members of his maternal aunt Jenabbibi were also killed in the same incident. Thereafter, he stayed there for about seven to eight months. The witness has deposed that as stated by him, he had seen Bhavani, Guddu, Babu Bajrangi, Manubhai and Suresh Chhara in the incident and that he can identify them today also. The witness has thereafter identified Suresh Chhara (A-22), Babu Bajrangi (A-18) and Manubhai (A-28) correctly. The witness has further deposed that in the incident, his house at Hussainnagar was looted and burnt. His statement was recorded by the SIT in connection with the incident.

205.20 CROSS-EXAMINATION: In his cross-examination, the witness has admitted that in connection with the injury sustained by him in the incident, he had received in all Rs.1,25,000/- from the Government. The witness has admitted that for the death of his mother, father and sister, he had received compensation of Rs.15 lakh. The witness has voluntarily stated that the compensation was received in the name of his elder brother and has admitted that he and his brother had divided the amount and taken half share each. The witness has admitted that towards the damage caused to his house, he had received Rs.7,500/-. The witness has admitted that prior to his sole statement being recorded by the SIT, his statement was not recorded anywhere. The witness has admitted that when his statement was recorded, he was 18 years old. He has admitted that his statement was recorded by the SIT at Gandhinagar and that while recording the statement, he was asked questions in Hindi.

205.21 The witness has admitted that at the time of the incident, his age was 14 years and that at the time of deposing, his age was 22 years.

205.22 The witness has admitted that he has not seen the incident near the water tank regarding the death of his mother, father and sister. The witness has admitted that he had not seen the incident in which Jenabbibi and six of her family members had died in this incident at the water tank. The witness has denied that the incident near the water tank took place at 7:30 in the evening and has stated that it took place at around 6:30 to 7:00 in the evening. The witness has stated

that the name of his loading rickshaw owner is Kalpesh Bihola, who resides at Ganganagar Society, C.T.M. The witness has deposed that on the day of the incident, it took him around one and a half hours to reach to his employer's residence on foot. The witness is cross-examined with regard to topography of the area. In his cross-examination, he has stated that he had told his employer Sheth Kalpeshbhai limited facts about the incident and had casually informed him about the reason for going to his house. The witness has stated that at present, he does not remember whether he had informed his employer Kalpeshbhai about the incidents sequence-wise. He has stated that he had stayed at Kalpeshbhai's house for around one hour. The witness has admitted that he has not informed the doctor who gave him treatment at L.G. Hospital any facts regarding the incident. They had reached the L.G. Hospital between 1:30 to 2:00 at night. He had not seen any police table or any police sitting at the L.G. Hospital. He had not got any case papers prepared at the L.G. Hospital. He does not have any receipt of the amount paid at the L.G. Hospital and has voluntarily stated that his employer had paid the amount required to be paid there. He was treated for two days at the L.G. Hospital and has voluntarily stated that he had not stayed as an indoor patient who was allotted any bed. He merely used to stay in the L.G. Hospital lobby. The witness has stated that after he went there, he was given dressing only once. Thereafter, he was given treatment for his burns at the Shah Alam camp. He was not given any stitches on the injury sustained by him on his head and only dressing was done and the bandage was tied. The witness has stated that his injury certificate was given by the Shah Alam camp which was produced before the Government. His injury certificate was not

issued by the L.G. Hospital. The witness has denied that he had not gone to the L.G. Hospital on that day.

205.23 The contents of paragraph-21 of his examination-in-chief are read over to the witness to the effect that he has not stated such facts in his statement recorded by the SIT.

205.24 In his cross-examination, it has come out that his uncle (maternal aunt's husband) had met him on the day when he reached the Shah Alam camp. His uncle's name was Khalid Noormahammad Shaikh. The witness has admitted that Kausar was married to Firoz Khwaja Maiyuddin shaikh. He has admitted that he (Firoz) is his brother-in-law. The witness has admitted that his uncle informed him that his mother, father and sister, all three have died in the incident. The witness has admitted that he had informed his uncle Khalid about the manner in which Kausar was burnt as well as everything regarding Kausar's incident. In his cross-examination, it has come out that Kudratbibi was residing in Kumbhaji-ni-Chali and he used to reside in the first lane of Hussainnagar. He did not have any occasion to meet Kudratbibi and she had never talked with him.

205.25 The witness has denied that no one had assaulted Kausar with a sword and that her foetus had not come out and that nobody had killed her foetus and put it on the tip of the sword and swirled it and thrown it in the fire and that he was stating incorrect facts. The witness has denied that Kausar's dead body was found and its postmortem was conducted. He has denied that he has not seen Kausar's incident and has not seen her dead body and that he was falsely stating about the

entire incident.

205.26 In his cross-examination, it has come out that he had stood at the S.T. Workshop for about fifteen minutes on the day of the incident. At that time, he had seen a jeep which had come from the direction of Kubernagar. The witness has admitted that about fifteen to twenty persons wearing white undershirts and khakhi shorts were sitting in the jeep and they were armed with weapons. He had not seen any flags in the hands of the persons who got down from the jeep, but their vehicle had a flag. After the persons in the jeep got down, the mobs started going ahead slowly. The people who got down from the jeep were in front and the people in the mob were behind them and they had gone to the Noorani Masjid. The witness has stated that he does not know whether the people who got down from the jeep had talked to the people in the mob. The witness has admitted that these people had attacked the Noorani Masjid with swords, bottles and gas cylinders. The witness has stated that thereafter, he had gone outside the S.T. Workshop where at present the Naroda Police Chowky is situated. The witness has admitted that at that time, the Muslims were standing there. These Muslims had come to protect the masjid. The witness has admitted that to protect the masjid, the Muslims had pelted stones in opposition. The witness has denied that from the side of the Muslims, acid bulbs, broken glass bottles and tube-lights were thrown at the Hindu mobs. The witness has admitted that till the stone pelting continued, he was there. He was where the Muslim mob was and that he was in the Muslim mob. The witness has admitted that till there was firing for the first time, he had stood on the road and till then, he had not gone into the lane

of Hussainnagar.

205.27 The witness has stated that he does not know Abid who was injured by a bullet. He has not seen any person by the name of Abid who was injured by a bullet on his private parts on the road. The witness has stated that Pirubhai and Mahammad were injured by bullets on the Hussainnagar road which is on the service road. He had seen the firing. He has admitted that prior to the firing, tear gas shells were lobbed. The witness has admitted that the police who were on the side of the Noorani Masjid, had fired from the side of the service road and Mahammadbhai and Pirubhai were injured by the bullets. The witness has stated that he does not know whether there was any firing thereafter, because as soon as there was firing, out of fear, he had gone home.

205.28 The witness has stated that he has not seen the lines of Jawannagar. He has not seen any Umrudin's house in Jawannagar. The house in which he stayed in Jawannagar was a Muslim's house. It was possibly in the second lane. The witness has admitted that he had stayed there till around 4 o'clock. The witness has admitted that when he was at Jawannagar, till 4 o'clock, it was peaceful in that house. The witness has voluntarily stated that the sounds of disturbances were coming from nearby. The witness has stated that he does not know whether there was any rioting outside that house in Jawannagar because he had not come out of that house. After he came out from the house, there was a stampede amidst the public. The rioting was on the road. After coming out of the house at 4 o'clock, they were sitting in the hall shown by Bhavanisingh.

205.29 The witness has admitted that the Hindus as well as the Muslims residing in the chawls were running helter skelter out of fear to save their lives. The witness has denied that there were around three hundred people in the Bhavani's hall. The witness has voluntarily stated that all that he can say is that the hall was full. The witness has stated that he does not remember as to whether any of his acquaintances were there. He, however, has stated that Kausar was with him. In the hall also, Kausar was with her mother and he had seen both of them in the hall. The witness has admitted that Kausar and her mother had come to the hall on foot. He has admitted that till they were inside the hall, he has not seen Kausar being injured. The witness has denied that when he came out of the hall, Kausar also ran with him. He has stated that Kausar was holding her mother's hand and was walking. They were walking together. From the hall till Teesra Kuva road, they had reached together. They had reached the curve of the S.T. compound wall and thereafter, they had returned.

205.30 The witness has admitted that from this place, one can see Hussainnagar Lane No.1. From there, they had walked to Gopinath Society. At that time, they had seen a mob with a large number of people coming from the side of Teesra Kuva. There, they were surrounded by the people in the mob. There was pandemonium there. The witness has admitted that the Muslims were running to save their lives and the people in the Hindu mob were running to kill them. The mob was not very huge. There must have been around two hundred to two hundred and fifty people. He does not know as to how many people were there in the mob from the other side. This mob

was coming from the direction of the Jawannagar chawls.

205.31 In his cross-examination, it has come out that the passage of the water tank must be around twenty to twenty five feet wide. The length of the passage is around fifteen to twenty feet. The witness has admitted that in this passage, there is a water tank and a room below it. The witness has admitted that on the wall of the passage, pieces of glass have been affixed. The wall is around four to five feet high. The witness has admitted that Gopinath Society falls on one side of the wall of the passage and Gangotri Society falls on the other side of the wall of the passage. The witness has denied that from the wall of the passage, there is no way for going and has stated that there was a way in the wall. The witness has admitted that from the wall, there was a way for going into Gopinath Society. The witness has admitted that on that day, the shops near the tank were closed. The witness has denied that on that day, there were no walls near the passage. The witness has stated that there was one wall in front of the passage. This wall was next to Gopinath Society. He has denied that he has not seen any such wall on the road going from Hussainnagar to Jawannagar. The witness has stated that he had seen a cabin near Jawannagar. The witness has denied that from the wall near Jawannagar, one cannot see the interior side of the area of the tank.

205.32 The witness has stated that he had seen his parents in the passage. The witness has admitted that at the time when he saw Kausar's incident and prior thereto, he had not seen the incident of his father, mother and sister. He has stated that he had seen Kausar and her mother near the wall

of the passage. The wall of the passage was not the wall near the passage of the water tank. Kausar was killed and burnt on the part outside the passage. The witness has admitted that she was killed outside the passage towards the side of Gopinath and was burnt there. She was killed outside the passage towards the Gopinath Society. The witness has stated that he had not seen Guddu assaulting Kausar with a sword. The witness has stated that he had not seen Guddu take out his sister's foetus on the tip of a sword and swirl it and throw it in the fire. He had also not seen Bhavani in this manner. The witness has voluntarily stated that he had seen Babu Bajrangi in this manner.

205.33 In his cross-examination, it has further come out that he was at the water tank for more than two hours and that the incident near the tank went on for more than two hours. The witness has admitted that at that time, he did not shout or scream or ask for help and has voluntarily stated that at that time, there was no one to help them. The witness has stated that he did feel that Kausar was his sister and that he should save her. He, however, has stated that if he had gone to save her, they would have killed him. At that time, Kausar was at a distance of about twelve feet from him.

205.34 The witness has admitted that within the distance of twelve feet, Hindu people were standing. The witness has denied that at this time, the other mobs kept on coming from the direction of the Jawannagar chawls and Teesra Kuva. The witness has admitted that at that time, there was a stampede. He has admitted that in this incident, Kausarbanu and her mother were together. He had seen only Kausarbanu being

killed. The witness has stated that Kausarbanu was not surrounded on all four sides by the mob; however, four persons had caught hold of her and had surrounded her. The witness has admitted that he has not seen as to what happened to Kausarbanu's mother.

205.35 The witness has admitted that when Kausarbanu fell down, her foetus had come out and after it came out, the foetus was taken on the tip of a sword and was swirled. The witness has admitted that at that time, a fire was burning near the water tank. The witness has admitted that Kausarbanu and her foetus were thrown into the burning fire. The witness has admitted that upon a second blow being given, the foetus had come out and had fallen on the ground.

205.36 The witness has stated that he cannot say exactly as to how long Kausarbanu's incident went on. The witness has admitted that the incident took place for more than fifteen to twenty minutes. Kausarbanu and her foetus were burnt in the fire. The witness has stated that he had only seen both of them being thrown in the fire and at that time, he was in near those bushes. The witness has admitted that there was no tree there and that there were only bushes and such bushes were on the interior side. The witness has voluntarily stated that there was also a way there. The witness has admitted that this way is for going to Gopinath. The witness has denied that the entire road is full of bushes. The witness has stated that the bushes were near the tank. He had stated that he had not seen anyone come or go through that way. The witness has denied that there were no bushes there and there was no place for anyone to hide there.

205.37 In his cross-examination, it has come out that at the time of the incident he did not visit the homes of any Hindus in the Naroda Patiya area. The witness has denied that Manu, Guddu, Suresh, Babu etc., all were coming running on that day and has voluntarily stated that they were present at the site of the incident. The witness has admitted that these people were with the mob. The witness has admitted that the mob was running and coming.

205.38 The witness has admitted that at the time of the incident, he did not have any occasion to visit the homes of the accused persons whom he has identified before the court and that they did not have any business relations or social relations with him. He had no occasion to talk with them from the day of the incident till date and did not have any kind of relations with them and he does not know where all the accused are residing. The witness has admitted that no test identification parade has been carried out through him.

205.39 The witness has denied the suggestion that he did not know any of the accused whom he had identified before the court and that he is falsely deposing before the court. The witness has admitted that the SIT had called him for recording his statement and has voluntarily stated that he had received a summons. The witness has admitted that except for the application made to the SIT, he had not made any application or complaint prior thereto. In his cross-examination, it has come out that he had got the application made to the SIT through some other person and had not written it on his own. The application Mark 644/7 which is a handwritten application,

is shown to the witness. The contents of the application are read over to the witness who has admitted that the same are true. The application is exhibited as Exhibit-1623. The witness is also cross-examined with regard to the manner in which the application was made.

205.40 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has in his cross-examination admitted that he has recorded the statement of this witness on 28.5.2008. He has admitted that this witness had stated before him that several people could jump over the wall near the water tank.

205.41 SUBMISSIONS: The learned counsel for the appellants submitted that this witness is a cousin of Kausarbanu and was a minor at the relevant time when the incident took place. It was submitted that admittedly at the time of the incident, this witness was hardly twelve and a half years of age and no statement of his was recorded prior to his SIT statement. It was submitted that though he shares the facts about the incident with his uncle, that is, the father of Kausarbanu, no complaint of the incident has been filed by either of them. In the very incident, which he claims to have witnessed, three members of his family, including his parents and sister have died and six family members of his aunt Jenabbibi have also died, but surprisingly, the witness does not refer to any facts of killing of any of them, including the place, weapons and names of the accused. Therefore, it appears that after six and a half years he is brought as a witness of the so called incident of Kausarbanu and her mother with a view to implicate more number of accused who were not involved by any other victims/witnesses either in the police statements or

in their statements before the SIT. It was submitted that the veracity of the evidence of this witness, therefore, needs to be tested from various facts that he has narrated in his examination-in-chief from the angle of possibility, plausibility or otherwise existence thereof in view of the evidence of all other witnesses. Such facts are, firstly, that the facts stated by him are not stated by other witnesses, and, therefore, his version is not plausible. Secondly, no witness has stated that anyone has shown a newspaper at this place and this is the only witness who refers to the presence of Babu Bajrangi. It was submitted that the naming the accused persons is also with a deliberate design to give a natural colour to the testimony of this witness.

205.42 It was submitted that the witness claims that he had hidden himself behind some bushes. That again, his hiding was not a claim of any other witness and whether it is possible that he could have escaped from the sight of the accused also when inflammable substances were thrown from the upper part of the tank and the terraces is not explainable. It was submitted that causing injury to Kausarbanu in the way it is projected and taking out the foetus on the point of the sword and then throwing it in the fire are facts going completely contrary to the medical evidence, particularly the postmortem report of Kausarbanu Exhibit-657, inquest panchnama Exhibit-662 and the doctor concerned who has carried out the postmortem of Kausarbanu (PW-103). It was submitted that even this allegation of taking out the foetus on the tip of the sword is attributed by some to Guddu and by some to Bhavani. It is not the case of the prosecution that the very act of so causing injury and taking out the foetus with a sword is

committed by more than one accused. Therefore, qua the accused persons, totally inconsistent versions are brought on record by the prosecution.

205.43 Apart from the inconsistencies in the evidence of Kausarbanu's husband PW-225, as is brought out by the prosecution, the incident of Kausarbanu and causing her injury takes place two and half hours before the allegations made here, that is, at about 4:00 p.m. in the Jawannagar pit and one person whose face was covered by a cloth is alleged to have caused injuries to her by sword. It was submitted that this witness says that when Kausarbanu's incident occurred at about 7:00 p.m., she was not found with any injury on her body at that point of time and that she came to this place with her mother, coming out of the hall after the evening hours. Therefore, it is very doubtful whether the incident of Kausarbanu as alleged by this witness has, in fact, occurred the way in which it is projected by any of the named accused at the place so stated and at that point of time. Referring to paragraph 14 of his examination-in-chief, it was pointed out that if the witness was pretending that he was dead, his eyes would have been closed and therefore, he could not have seen Guddu hitting him. It was urged that there are all chances that this witness is not an eyewitness and he is a got up witness to implicate Babu Bajrangi and the version put forth is not possible.

205.44 It was pointed out that insofar as the incident of Kausarbanu is concerned, there are four witnesses: Reshmabanu Nadeembhai Saiyed (PW-147), who has stated that she had seen the incident and has implicated only Guddu

Suresh and Bhavani and she does not implicate Babu Bajrangi; Jannatbibi Kallubhai Shaikh (PW-142) in all her statements does not name Babu Bajrangi and she has made allegations against Guddu, Bhavani, Suresh and Manu. Even in her statement before the SIT and for the first time in the court, the name of Babu Bajrangi (A-18) is brought in, which clearly indicates that accused No.18 is specifically targeted for his apparent false implication and the witnesses were so tutored to name him and identify. It was submitted that there are other witness Firozbbhai alias Babakhwaja Moyuddin Shaikh (PW-225), husband of Kausarbanu and the present witness. It was, accordingly, urged that it is absolutely not believable that any such incident has taken place at the hands of Babu Bajrangi (A-18). It was submitted that if the mob had killed Kausarbanu on the side of Gopinath, it is highly improbable that this witness could have seen the incident from where he was hiding. It was submitted that if he was hiding, he could not have seen the incident even if it took place on the road outside the passage as there were many people in the passage.

205.45 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that in the case of this witness, there is no question of too many contradictions because there is only one statement recorded by the SIT. At the time of the incident, the witness was fourteen years of age. It was submitted that insofar as the part regarding the death of his parents in the incident and the rest of the incident narrated by him, there is no contradiction and, therefore, this witness is believable and credible.

205.46 ANALYSIS: As pointed out by the learned Special

Public Prosecutor, the sole statement of this witness was recorded by the SIT in the year 2008. At the time of the incident, the witness was fourteen years of age. As per the version given by this witness, in the morning at around 9 o'clock, he had gone towards Patiya Char Rasta when he found that the shops were closed. The witness has deposed that he had seen a jeep coming from the direction of Natraj Hotel, wherein fifteen to twenty persons who had tied saffron bands on their heads and had swords and trishuls in their hands and some of them had guptis were sitting and they were going towards the Noorani Masjid. That the people in the jeep had got down at Jay Ambe Temple near Patiya and behind them another mob of Hindus had come. One mob had come from Krushnagar near the Noorani Masjid and had attacked the Noorani Masjid. The witness has referred to bursting of teargas shells and firing by the police wherein Mohammadbhai and Pirubhai were injured. According to this witness, he went home. They sat at home till around 12 o'clock, after which the mobs started entering their chawls and they left their house and went towards Jawannagar. They sat in Jawannagar till around 4:00 in the evening. At the place where they were at Jawannagar, Bhavani came and told them that there was a hall near his house and they should sit there, and hence, they had gone and were sitting in the hall. Thereafter, Bhavanisingh told them to come out from there and go towards Teesra Kuva where arrangements were made for them. When they went in that direction, a mob was standing there, which was armed with weapons and had cans of kerosene, etc. Upon seeing the mob, the Muslims started going back to the chawls. The mob followed them and another mob came from the direction of the Muslim chawls. They were going towards Jawannagar but could

not reach there. Before they could reach Jawannagar, there was a water tank near Gopinath Gangotri Society. They were caught in the passage of the water tank. Several people could jump over the wall and escape but some of them could not. The people in both the mobs had surrounded them. In the mob, he had seen Babu Bajrangi (A-18), Guddu Chhara, Bhavanising, Suresh Chhara (A-22) and Manubhai (A-28). These people started hacking down and killing people and were also throwing burning rags from the terraces. He has stated that small children were being burnt alive and he was amongst the people who were stuck there. This witness has stated that he had hidden himself behind the bushes in the passage of Gopinath Gangotri Society. According to this witness, at the time of the incident he got separated from his family members. The incident took place at around 6:30 to 7:00 in the evening and he had seen Babu Bajrangi inflicting a blow with a sword on his maternal aunt's daughter Kausarbanu's stomach and splitting her stomach and taking out the foetus at the tip of the sword and bouncing it and throwing it in the fire. Other people threw Kausarbanu into the fire. The witness has also referred to an incident where the clothes of another woman were torn off and she was brutalised by the people of the mob. The witness has also referred to an incident regarding Kudratbibi. The witness has stated that he had hidden himself under the dead bodies and pretended that he was dead, when Guddu Chhara came and dealt a blow with a pipe on his head, after which he became unconscious. According to the witness, he regained consciousness at around 10:30 at night when there were dead bodies which were reduced to ashes near him. He went on the road and somehow reached his employer's house. His employer gave him food

and water and clothes and took him to the L.G. Hospital for treatment. In the incident, his mother, father and sister have died. His maternal aunt Jenabbibi and six members of her family were also killed in the incident. In his cross-examination, the witness has admitted that he had not seen the incident at the water tank, which resulted in the death of his parents and his sister. From the cross-examination of this witness it brought out that his maternal uncle's name was Khalid Noormohammad Shaikh and Kausarbanu was his daughter and as per the witness Kausarbanu was married to Firoz Khwajamohiyuddin Shaikh. Therefore, it is established that Kausarbanu, who died in the incident near the water tank is PW-225 Firoz Khwajamohiyuddin Shaikh's wife. The submission advanced by the learned Special Public Prosecutor regarding the version given by PW-225 Firoz Khwajamohiyuddin Shaikh that the Kausarbanu who was killed in the incident at Jawannagar Khada may be a different Kausarbanu, therefore, stands negated, inasmuch as, from the testimony of this witness, it is established that the Kausarbanu, who died in the incident at the water tank is the wife of PW-225.

205.47 In the cross-examination of this witness, the topography of the area in and around the water tank has been clearly brought out. This witness has been cross-examined at length regarding Kausarbanu's incident and he has withstood such cross-examination, which gives rise to the belief that the version given by the witness is true.

205.48 However, insofar as naming the accused is concerned, it would be risky to accept such version which has come at such a belated stage, more so, when nothing has been

brought on record to establish the acquaintance of the witness with the accused and no test identification parade has been carried out to establish the identity of the accused. This witness at the relevant time was fourteen years of age and some of the accused named by him are not residents of the chawls. Therefore, it was incumbent upon the prosecution to bring out the acquaintance with the accused.

205.49 In paragraph 76 of his cross-examination, certain facts relating to the incident of Kausarbanu have been brought out by way of admission, which is in consonance with the prosecution case.

205.50 Insofar as the incident of Kudratbibi and a woman being stripped and brutalised by the mob is concerned, the same appears to be in the nature of exaggeration and does not have a ring of truth. It may be noted that the statement of this witness came to be recorded for the first time before the SIT. The witness has deposed that after the incident, he had gone to his employer's house and was thereafter taken to the L.G. Hospital, where he was given treatment. However, the prosecution has not examined his employer as a witness to corroborate the version given by this witness and further no investigation appears to have been carried out to bring on record the fact that the witness was given treatment at the L.G. Hospital to corroborate his version.

205.51 Thus, while the narration of the incident of Kausarbanu by this witness appears to be truthful and credible, the naming of the accused at a belated stage cannot be accepted.

206. **PW-229 Sairabanu Khwajahussain Shaikh**, aged 40 years, has been examined at Exhibit-1628. The witness has deposed that she can understand Gujarati, but she finds it more convenient to speak in Hindi and therefore, will depose in Hindi. The witness has stated that she is a native of *Gulbarga, Karnataka State* and is residing at Ahmedabad since the last 30 to 35 years.

206.1 She has studied in Urdu medium till the 7th standard at Ahmedabad. Her husband was suffering from T.B., and he died on 24.12.1994. She had three children. The names of her sons are Saifuddin, Azaruddin and Harun. Her children were aged 13 years, 11 years and 9 years respectively at the time of the incident. In the year 2002, she was doing tailoring work at home and over and above that, she also used to work in the thread factory.

206.2 The incident took place on 28.2.2002. On that day, there was a call for Gujarat Bandh.

206.3 On the day of the incident, she was at home in the morning. At around 8:00 to 8:15, she had gone to a thread factory for her job. She was working in Shri Laljibhai's thread factory. This thread factory was situated at Saijpur tower, Naroda Road, next to Excise Chowky. She had reached the factory. On that day at around 08:45, a phone call was received from their employer Jirubhai at the factory that since there is was a call for bandh, the factory is to be kept closed. Their supervisor Dineshbhai informed them about this. After giving them this telephonic message, Dineshbhai told them all

to go home. Upon hearing Dineshbhai, all those who were in the factory, including the witness, left the factory.

206.4 In this manner, she returned home at around 9:00 to 9:15 from the factory. When she was returning from the factory, at that time, almost everywhere on the road, there were mobs of both the Hindus and Muslims. Her children were at home on that time. Her children used to go to school. On that day, the school was closed. After going home, she started doing the household chores. At this time, there were sounds of shouting. The Hindu mob was shouting. On hearing these sounds, she came out of the house. She went on the road and saw that the people in the mob were attacking the Noorani Masjid and the mob of people near the S.T. Workshop were pelting stones.

206.5 While she was doing her household work, her children had gone out to play. Upon hearing the commotion, she went out to look for her children. Stone pelting was going on near the Noorani Masjid and the S.T. Workshop. The police were also there near the S.T. Workshop at that time. She thought of going back to Bombay to her mother's place together with her kids. Hence, she started looking for her children. Stone pelting was going on near the Noorani Masjid as well as the S.T. Workshop. She went to search for her children on the road near the S.T. Workshop, where she found her children. She took her children and went to the bus stop to go in the municipal bus. After going there, she came to know that the buses were not running.

206.6 She took her children and returned home when a

policeman from near the S.T. Workshop came to where she was standing and told her that they should go inside. At that time, stone pelting was going on near the S.T. Workshop. Tear gas shells were being lobbed by the police. At this time, on account of the smoke that was emitted, nothing could be seen and at that time, her elder son Saifuddin sustained injury on his right hand and right leg and at the same place, her younger son was also injured in the stone pelting. In all this, she started going with her three children towards Hussainnagar when her son Azharuddin's hand slipped out of her hand. Stone pelting was going on from the S.T. Workshop till one enters the Hussainnagar. There was stone pelting everywhere. Taking her children, she entered in the Pinjara's house situated in Hussainnagar. She hid there. At this time, there were other Muslim men and women in that house.

206.7 At this time, there was a mob of Hindus in Hussainnagar-ni-Chali. In the mob, Chharas, Sindhis, including Suresh Chhara and Sahejad Chhara and Chhara women were also there. The people in this mob were looting the houses and were setting them ablaze. Jayedabibi's house is situated opposite the house in which she was sitting and at that time, she saw Chharas looting that house and set it on fire.

206.8 At this time, when she was in Pinjara's house, Sahejad Chhara and Suresh Chhara came to the window falling on that side and said that each woman together with two children should go with them and they would take them to a safe place. They (the witness and others) told them, that if they wanted to take them, they should take all of them together otherwise they would leave everything to the will of

Allah. They (the mob) showed them the newspaper and told them that, *"Look, what kind of atrocities you Muslims have committed; go away to Hyderabad and don't ever return"*. Thereafter, they went in the other direction.

206.9 They were at the Pinjara's house till around 5:00 to 5:30. There at around 5:00 to 5:30, two policemen had come there. They told them to come down as vehicles had come to take them. They did not trust them because they were not wearing belts and did not have caps on their heads. Despite this, four to five women from amongst them went out and found that there was no police vehicle. When they came out to see as to whether there was a vehicle or not, they saw a dead body burning. This dead body was burning in Lane No.1 of Hussainnagar. It was Maiyuddin's dead body. The witness has stated that she is saying that the dead body was Maiyuddin's because he was handicapped and a vehicle for handicapped persons was lying next to this dead body. Upon seeing his dead body, they were frightened, and hence, they returned to the Pinjara's house and hid there again. The house in which they were hiding belonged to Habibbhai Pinjara and they were hiding on the ground floor of that house. After a little while, they left that house and hid in a house which was four to five houses away. She does not know as to whom that house belonged. Thereafter they went to another house, and were hiding there, till 12 o'clock at night. After 12 o'clock, the police came and shouted that they had come to take them wherever they wanted to go. Thereafter, all of them came out of their house and went on foot to the corner of the S.T. Workshop. The policemen standing there took them in a vehicle to the Shah Alam relief camp.

206.10 When they had alighted from the bus and were going towards the relief camp, at that time, she met her nephew Maheboob Khurshid on the road. He was totally burnt. This Maheboob was her sister-in-law's son. He told her that all had been burnt, killed and hacked down and that in the incident that took place between Gangotri and Gopinath Society, everyone was killed and hacked down and that in this incident, he too was inflicted a blow on head with a sword and set on fire. Together with him, his seven to eight year old daughter Shabnambanu and his son Mahammadsafi, who must be about five years old, both these children were also in a burnt condition. His daughter was fully burnt and his son was burnt to a certain extent.

206.11 She took all three of them and went to the V. S. Hospital. When she went to the camp, both her sons were with her and she had no news about her third son. She left her children with somebody else at the camp and went with her sister-in-law's son, his children to the V.S. Hospital. She stayed with them for four or five days at the V.S. Hospital and took care of them.

206.12 During the course of treatment, on the fifth day, her nephew's daughter Shabnambanu and nephew Maheboob both of them died. Prior to his death, while she was at the hospital, Maheboob had told her that her sister-in-law Shahjahan, her husband Sarmuddin Khalid, her sister-in-law's two children Asif, aged 4, her second son Rafiq, aged 2, her sister-in-law's husband Sarmuddin, pregnant Kausharbanu and Sarmuddin's mother Jenabbibi, all had died in the incident near Gopinath –

Gangotri Society. They too were killed, hacked down and set ablaze at the same place. In the meanwhile, Mahammadsafi's mother came to the hospital and she handed over her son to her and returned to the Shah Alam camp. During these five days, her lost son Azharuddin had also come to the camp. At the camp, thereafter she found all her three children.

206.13 Her two children, who were hurt in the stone pelting, were treated at the camp. She had stayed in the camp for around seven months. While she was at the camp, the police had come. Their house was looted and vandalised during the incident. All the household articles and things in her house were looted in the incident and she had sustained a loss of around rupees one and half to two lakh.

206.14 Her statement was recorded at the relief camp. The SIT had recorded her statement at Gandhinagar also. The witness has stated that she would identify the accused and has identified Sahejad Chhara (A-26) and Suresh Chhara (A-22) correctly.

206.15 CROSS EXAMINATION: In the cross-examination of this witness it has come out that she had stayed at the factory till 9:15 in the morning. She had returned home from the factory through the road passing through the chawls. She has admitted that when she was returning, there was the mob belonging to their community near the Noorani Masjid. She has denied that when she crossed the road and came, at that time men belonging to their community were standing there.

206.16 The witness has stated that after returning from the

factory she had stayed at home till 9:45 in the morning. She has denied that Muslims were pelting stones near the Noorani Masjid. The witness has stated that stone pelting was going on in front of the Noorani Masjid, at which point of time she had crossed the road and gone to the bus stand. The witness has stated that while she was at the camp she had not made any application to the Police Commissioner. She has admitted that she signs in Gujarati.

206.17 At this stage, the learned counsel for the defence has sought permission to refer to the complaint application and loss and damage analysis form for the purpose of cross-examining the witness. The learned Assistant Special Public Prosecutor submitted that, in all, twelve complaints have been merged with Naroda Police Station C.R. No.I-188 of 2002, wherein the complaint application in question is at serial No.3.

206.18 The witness is shown the end portion of the complaint application at page 257, in response to which she has stated that the signature below the same is faint and she cannot identify it. Internal page 258 of the loss and damage application is shown to the witness and she has identified her signature at the end of the document. The witness has denied that the organizers of the camp and the leaders at the camp had approached her to inquire if she wanted to register a complaint. The witness does not remember as to whether she had made any complaint application at the camp.

206.19 The witness has admitted that when she was at the camp, on 12.5.2002, her police statement had been recorded. The witness has denied that she has stated in her statement

that she could not recognize any of the accused. The witness has voluntarily stated that she had given the names, but she does not know whether they have written them down. The witness has denied that when accused Suresh and Sahejad talked with her through window, they told her to wear a saree. The witness is sought to be confronted with her statement dated 28.5.2008 to contradict certain facts elicited during the course of her cross-examination, which is not permissible in law and therefore, not admissible in evidence.

206.20 The witness has stated that she does not remember whether, at the time when the panchnama of the damage caused to her house was drawn, she had also signed the complaint application. The witness has stated that she does not remember as to whether in connection with the loss sustained by her, she had filled in any form and signed the same.

206.21 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

206.22 PW-293 Shri B.T. Karoliya, the assignee officer has in his cross-examination admitted that he has recorded the statement of this witness on 12.5.2002. The assignee officer has admitted that this witness in the statement recorded by him had not given the name of any accused and had merely stated that amongst the people who had resorted to arson, there were people belonging to the Chhara community.

206.23 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), has in his cross-examination, admitted that he has recorded the statement of this witness on 28.5.2008, wherein the witness has stated that Suresh Langdo and Sahejad Chhara had told them to wear sarees and come out.

206.24 SUBMISSIONS: The learned counsel for the appellants submitted that this witness had not given the names of accused No.22 and 26 at the first available opportunity and had given them for the first time before the SIT. It was submitted that apart from the fact that this version comes up for the first time before SIT, the facts narrated by the witness are not believable on the face of it, for the reason that if they were hiding, they would not have been able to see what is going on outside. It was submitted that moreover the facts stated in paragraph 11 of her deposition are totally unnatural. Referring to the contents of paragraph 13 of her examination-in-chief, it was submitted that it is not probable that when the riots were at their peak in Jawannagar, women would venture out of the Pinjara's house and go up to lane No.1. It was submitted that the witness has stated that she saw Moinuddin's dead body burning at 5:00 to 5:30 in the evening, which is contrary to what some other witnesses have stated. It was urged that the witness has not attributed any overt role to the accused, and hence, her testimony cannot be relied upon to base a conviction in such a serious offence.

206.25 ANALYSIS: From the evidence of this witness, it emerges that at the relevant time when her statement came to be recorded by the police on 12.5.2002, the witness has stated that she does not know any of the accused. Thereafter her

statement came to be recorded by the Investigating Officer (SIT) in the year 2008, more than six years after the incident, wherein she has named the two accused. As per the version given by the witness in her testimony, she had taken refuge in the Pinjara's house and was hiding there on the ground floor. According to the witness a Hindu mob came to Hussainnagar wherein she saw Sahejad Chhara and Suresh Chhara and Chhara women who were committing loot and arson, however, the witness does not say from where she saw them committing such acts. Since the witness was inside the house on the ground floor, it is doubtful that she could have seen what was happening outside. The witness has further deposed that Sahejad Chhara and Suresh Chhara came to the window and asked the women and children to accompany them saying that they would take them to a safe place, whereupon the witness said that if they wanted to take them they should take all of them or leave it to the will of Allah. Thereafter the two accused showed them the newspaper and told them to see what atrocities the Muslims had committed and told them to go away to Hyderabad and not return. If the conversation between the witness and others and the two accused is believed to be true, then also according to the witness the accused offered to take them to a safe place; however, the witness and others said that they should take all of them. Whereupon the accused showed them the newspaper pointing out the atrocities committed by the Muslims and told them to go to Hyderabad and not come back. This part of the incident apart from being unnatural does not show any criminal complicity on the part of the two accused.

206.26 Considering the fact that when her statement came

to be recorded in May, 2002, the witness has not named any accused; the manner in which the witness claims to have seen the accused committing loot and arson as well as the conversation between the accused and the Muslim women in the Pinjara's house, as well as the fact that the witness has named the accused for the first time more than six years after the incident; the testimony of this witness does not appear to be credible insofar as the involvement of the accused is concerned. The evidence of this witness would therefore, not help the prosecution to prove the charge against the named accused.

207. **PW-230 Mahammadrafik Abdulkarim Shaikh**, aged 53 years, has been examined at Exhibit-1635. The witness has deposed that he knows Gujarati. He is a native of Bharuch district and has studied upto the 7th standard in Gujarati.

207.1 The witness has deposed that since his birth, he was residing in Naroda Patiya area. Since the last fifteen years, he is residing at *Lane No.5, Hussainnagar*.

207.2 In the year 2002, he was residing at Lane No.5, Hussainnagar with his family. His family was comprised of his three daughters and a son as well as his wife Bilkisbanu, all of whom were residing together. In the year 2002, he used to do heavy driving for a private party wherein he used to drive big buses, luxury buses, cars etc.

207.3 The incident took place on 28.2.2002. On that day at around 8 o'clock, he was sleeping at home. In the morning,

between 8:30 to 9:00, his wife woke him up and told him that there were disturbances outside and asked him to at least go out and see. Thereafter, he went to the corner of the S.T. Workshop, Opposite the Noorani Masjid. He went there and saw that four policemen were standing there. The people belonging to the Muslim community were also standing there. The people belonging to the Hindu community were standing near Natraj Hotel. The mob thereafter came forward. The mob came near the Noorani Masjid. Near the Noorani Masjid, the mob burnt tyres, set shops on fire, set the masjid on fire and thereafter, there was a cross stone pelting. Thereafter, the police told them to maintain peace and not to pelt stones and that everything would end.

207.4 Thereafter, he was standing in Dilip-ni-Chali near his paan-cabin. In the morning at about 11:00, he saw that a lot of public had gathered towards Krushnanagar as well as Natraj Hotel. At this time, there was a lot of stone pelting from the opposite side, whereupon the police left them and went towards the side of Natraj Hotel. Thereafter, it became very crowded.

207.5 In the crowd, Manoj Videowala was present. Manoj Videowala took a policeman's revolver and started firing with the revolver. In this firing, Mahammad Abid was injured on the waist and Pirubhai was injured by a bullet on his right leg. Thereafter, there was police firing also. In the police firing, Kaladiya was injured on the neck with a bullet. In the same firing, Mahammad Kaiyum was injured with a bullet on his hand. Thereafter, the police lobbed tear gas shells in huge quantities. Upon the police releasing the tear gas, there was a

stampede amongst them and in the stampede, they started going towards their area. He also went towards Hussainnagar.

207.6 Thereafter, the mobs from Natraj and Krushnanagar started entering their chawls. After coming to the chawls, they started vandalizing, assaulting and looting. They were also setting their chawls on fire. At that time, there was a stampede. Such stampede took place at about 4:00 to 5:00 in the afternoon, at which point of time they were terrified.

207.7 Out of fear, he too took his two children and wife and climbed on a terrace of Gangotri or Gopinath Society. His other two children had gone to the S.R.P. Quarters right from the morning. When he went to the terrace with his family, he saw that Guddu Chhara and Suresh were pushing twenty seven to twenty eight persons and taking them towards a water tank. At this time, it was around 5:30 to 6:00 in the evening.

207.8 After the people were taken to the water tank, from the top of the tank, some inflammable substances were thrown down upon the twenty seven to twenty eight women, men and children who were standing there and they set them on fire. These twenty seven to twenty eight persons were screaming for help. He had seen all this and had also heard their voices. However, he was very frightened and he himself felt that they would also do the same to him, and hence, he hid inside the parapet of the terrace.

207.9 When he had seen all this from the parapet, there were a lot of flames. He hid there till around 8 o'clock. Thereafter, the police jeep had come.

207.10 At about 8 o'clock, the police jeep had come and the youth of Gopinath had shouted that the police have come to save them and hence, whoever was hiding should come down. Upon hearing this, he took his wife and children and came down. Upon coming down, he saw that there was a police jeep and on the opposite side, dead bodies were burning. From that fire later on also cries of "*help, help*" could be heard. The police officer told him to separate the burning corpses and he had refused to do so. Thereafter, the police took him, his wife and his two children to the Naroda Police Station. His son Mahammadasif, daughter Taslimbanu and his wife were with him.

207.11 From the Naroda Police Station, late at night, they were sent to the Shah Alam camp. He stayed at the Shah Alam camp with his family for three months. In the incident, everything was looted from his house and it was set on fire. He found his other two children after staying at the camp for a week. Thereafter, he had come to know that they had gone with his brother to the Shahibaug relief camp. Upon finding his children, he had felt relieved because they had thought that they too might have died in the incident.

207.12 The police recorded his statement at the camp. The SIT had also recorded his statement.

207.13 The witness has deposed that he can identify Manoj Videowala, Guddu and Suresh whom he had seen in the incident. The witness has deposed that at present, Guddu is dead and he can identify Suresh and Manoj if they are in the

court. Thereafter, the witness has identified Suresh (A-22) and Manoj Videowala (A-41) correctly.

207.14 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that at the time when he woke up the mob had not entered his lane. The witness has admitted that lane No.5 Hussainnagar is situated in the centre of Hussainnagar. The witness has admitted that on that day, when he came out of the house, other persons had also come out of their house upon hearing the sounds. In the cross-examination, it has further come out that when he went and stood outside, there was a mob near the Noorani Masjid, the mob was rioting. The witness has admitted that he was peacefully standing there and watching. He has stated that where he was standing, there were around twenty-five to thirty people from their community and about ten to fifteen persons belonging to the Muslim community were standing near the Noorani Masjid. They were standing towards the Muslim chawls situated behind the Noorani Masjid. The witness has stated that to drive away the mobs of Hindus, all the people of their community had also made attempts wherein the youths were trying to make such attempts. He has stated that at present, he cannot give the name of any such youth. The witness has stated that the Hindus in the mobs were thousands in number and that he could only see heads. He has stated that he had remained at the corner of the S.T. Workshop for about two hours after which he had gone away. The witness has admitted that the mob which was standing near the Noorani Masjid and Natraj Hotel had not caused any harm to him. The witness has voluntarily stated that he was not standing at one place and that he was moving around for a while to the paan-galla then

near the chawls and then to the corner of the S.T. Workshop. The witness has stated that during these two hours, he had gone to his galla several times and had also gone several times to the chawl on the rear side. He was roaming around in Pandit-ni-chali, Kumbhaji-ni-chali. He has voluntarily stated that he was telling the people in the chawl that the mob has come and that they could go towards the rear side to save themselves. He has stated that he had told many people to move away towards the rear side, which included Hindus also. He has stated that at that time, there was no discrimination between Hindus and Muslims in their chawls and that Hindus were also there. He has admitted that during these two hours, no mob had entered the chawls. He has stated that afterwards when a huge mob gathered outside, he had gone back to his chawl. He has stated that to protect their lives they were roaming around here and there in the chawl and were searching for places to hide. That till around 5:30 to 6:00 in the evening, he was roaming around. During this period, from 5 to 6 o'clock, no person in the mob had caught him. The witness has voluntarily stated that if any person in the mob had caught him, he would certainly have been killed. He has admitted that while he was roaming around till 5 or 6 o'clock, he had not met any mob on the way.

207.15 The witness has admitted that in his statement dated 13.5.2002 recorded by the police at the camp, he had stated that, on 28.2.2002, as per his routine, his son had opened his paan-galla and was carrying on his business and that in the morning at 8:00 to 8:30 he had woken up and after completing his morning regime, at around 9:00 to 10:30 on account of Gujarat bandh, mobs of people had gathered and

were pelting stones, and hence, his son had shut down his paan-galla and had come to his house and informed him about the stone pelting, therefore, he had gone out to have a look and saw that stone pelting was going on, and hence, he had returned back. The witness has voluntarily stated that his wife had also woken him and told him and as regards his having returned, as stated by him earlier, it is in the sense that he kept on going and coming.

207.16 The witness has denied that he has also stated that he was at home with his family and upon the riots escalating, out of fear, he had locked his house and taken his family and gone to the S.R.P. Quarters, which was nearby where other people from the chawl were going, and had spent the whole day there. Thereafter, on 1.3.2002 at around 2:30 at night, the police vehicle had come there and he along with his family and other persons from the chawl, had together with police bandobast been taken to the Shah Alam relief camp where at present, he was staying with his family.

207.17 The witness has admitted that in the very same statement he has also stated with regard to the damage sustained by him on account of the riots. The witness has admitted that neither he nor any member of his family has been injured in the incident. The witness has been cross-examined with regard to the topography of the area. The witness has admitted that after he came out, he was on the service road near the S.T. Workshop throughout the period. He had seen Manoj near Natraj Hotel, whereas he had seen Suresh and Guddu on the interior sides of the chawl.

207.18 The witness has admitted that he has not heard Manoj talking with the police and had voluntarily stated that it was not possible to hear from such a distance. He has admitted that he had seen that Manoj had asked the police for the revolver and that the police had given the revolver to Manoj. He has stated that what he wants to say is that Manoj had snatched the revolver from the police. He has admitted that the person who gave the revolver was a police constable. The witness has denied that in the statement recorded by the police, he has not stated any such detail regarding Manoj having snatched or asked for a revolver. The witness has stated that he had stated before the police and that he does not know as to what the police had written down.

207.19 The contents of the first five lines of paragraph 7 of his examination-in-chief are read over to the witness. He has denied that in both his statements, he has not stated the fact regarding Pirubhai and Abid having been injured by bullets in the firing done by Manoj Videowala. The witness has admitted that there is only one person by the name of Abid who was injured by a bullet in the firing on that day. He has stated that he had seen Abid being injured by the bullet with his own eyes. He has stated that Abid was injured by the bullet where the S.T. compound wall ends, that is, near where at present the Patiya Police Chowky is situated. The witness has denied that Abid had sustained a bullet injury at the entrance of a lane of Hussainnagar. The witness has admitted that there was a mob near Natraj Hotel and Abid was injured by a bullet from that side. He has stated that Abid was injured by the bullet prior to 11 o'clock in the morning and it must have been approximately 10:30 to 11:00. He has denied that Abid had

sustained bullet injury after 12 o'clock in the afternoon.

207.20 The witness has admitted that Mohammad Kaladiya and Kaiyyum had also sustained bullet injuries at the same place where Abid was injured by a bullet and it had come from the direction of the mob near Natraj Hotel and that the bullet was from police firing.

207.21 The witness has admitted that in neither of his statements, he has stated that tyres were burnt near the Noorani Masjid. He has admitted that he has not stated in his statements that police had told them to maintain peace and that everything would be over. He has also not stated that he was standing in Dilip-ni-chali at the paan-galla. He had also not stated in both his statements that he had seen from the parapet of the terrace. The witness has stated that he does not remember whether in the statements recorded at the camp, he had stated any facts regarding the three accused or the role played by the three accused during the day of the incident. The witness has denied the suggestion that with a view to extract more money from the Government as well as from the Hindus he was falsely deposing before the court. He has denied the suggestion that he has not seen the incident and has not seen the named accused at the site and that he is falsely deposing.

207.22 In the cross-examination of this witness, it has come out that the stone pelting on the road started after he reached there. The witness has admitted that that it may be that like him many people had come to watch on the road out of curiosity. The witness has stated that except for his family,

there was no other person on the terrace where he was hiding. That the house on the terrace of which he was hiding was two houses away from the water tank. The witness has admitted that that from the place where he was hiding, he could not see the lower part of the water tank while he was in a hiding position. The witness has denied that while hiding, one could not see the road going through the S.T. Workshop compound wall.

207.23 The witness has stated that he has no social or financial relations with Suresh and does not have any relations of talking to him or visiting his house. The witness has admitted that Suresh is lame. He has admitted that he has no monetary, social or any other relations of visiting Manojbhai's house. He has admitted that no test identification of the above persons was carried out through him.

207.24 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

207.25 PW-300 Shri N.S. Malek, the assignee officer, in his cross-examination, has admitted that he has recorded the statement of this witness on 13.5.2002. The assignee officer has admitted that this witness has not attributed any role to any accused in the statement recorded by him. The assignee officer has admitted that this witness had stated before him that he was present at home with his family and upon the riots escalating, out of fear, he locked his house and took his family members and together with the other people from his chawl,

went to the S.R.P. Quarters, which is situated nearby and passed the entire day there. Thereafter on 1.3.2002, at around 2:30 at night, the police vehicle had come there and in the said police vehicle, he, together with his family and other people of the chawl, together with police bandobast were dropped at the Shah Alam relief camp and at present, he is at the relief camp with his family

207.26 The assignee officer has admitted that this witness had in the statement recorded by him not stated that Manoj had snatched or asked or taken the revolver. The assignee officer has admitted that the witness has not stated before him that Manoj Videowala had taken the police revolver and fired and in the firing, Piru and Abid were injured by bullets.

207.27 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statement of this witness on 18.6.2008. He has further admitted that this witness in the statement recorded by him had not stated that Manoj had snatched the revolver, asked for it or taken it. He has stated that the witness in his statement dated 18.6.2008 had stated that Manoj Sindhi had snatched a rifle from the police and had fired towards where they were standing.

207.28 The first five lines of paragraph 9 of the examination-in- chief of the witness are read over to the Investigating Officer, who has admitted that the witness has not stated before him that in the firing by Manoj, Piru was injured by a bullet on his leg and Abid on his waist. The Investigating Officer has stated that the witness had stated

before him that in the firing Manoj Videowala had caused injury. He has stated that in the statement, the witness has referred to a rifle, whereas in the deposition he has mentioned revolver.

207.29 SUBMISSIONS: The learned counsel for the appellants submitted that this witness has not named Manoj, Guddu or Suresh in his police statement and he has come out with two different stories qua them for the first time before the SIT.

207.30 Against accused No.41 Manoj, the allegation is about snatching away or taking away a revolver from police personnel, who he says in the cross-examination that he was a police constable and has fired from it and Abid and Piru received injuries, which is not believable for the reason that firstly, constables are not given revolvers; secondly there is ample evidence on record that Abid and Piru sustained injuries in police firing; thirdly before the SIT the witness has stated about snatching away rifle for the first time and has thereafter improved the version before the court to snatching of a revolver. It was submitted that when the witness had no acquaintance with accused No.41 at all, as narrated in paragraph 61 of his cross-examination, in the absence of a test identification parade, his version for the first time before the SIT and then improved before the court, cannot be believed.

207.31 As far as Guddu and accused No.22 are concerned, the story narrated in paragraph 9 that at about 5:00 to 6:00 p.m. they were pushing and driving away some twenty seven to twenty eight persons towards water tank, which he saw

from parapet of some terrace in Gangotri Society, which he does not know, it was submitted that the story on the face of it is not believable, as firstly he has stated this for the first time before the SIT; secondly, in the fact situation it is not possible to believe that two persons, one of whom is handicapped, could push and drive away so many people in a particular direction; thirdly, the omission in both of his statements about his having seen such incident from the parapet of his terrace; and lastly the say of this witness before the police as proved by the Investigating Officer is in complete contradiction to what has been stated by him in paragraphs 9 and 10 of his examination-in-chief as he went with his family to the S.R.P. Quarters after locking his house and had stayed there for the whole day and had only come out on the next date at 2:30 a.m. to go to the relief camp with the police. It was, accordingly, urged that therefore, the entire version of this witness in respect of the three accused is not believable.

207.32 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness had spotted accused No.41 Manoj in the mob and had also seen accused No.22 and Guddu Chara between 5 to 6 o'clock. It was submitted that this witness knew only two persons and, therefore, he has named only two persons, which does not mean that there were only two persons, who were driving and pushing them. It was submitted that the contradiction brought out in paragraph 27 of the cross-examination in respect of the statement dated 13.5.2002 is not in accordance with the provisions of section 162 of the Code read with section 145 of the Evidence Act. It was submitted that the witness has also stated about snatching of rifle by accused No.41 and there is no cross-

examination except as to nature of weapon, and, therefore, the credibility of this witness is not impeached and his presence is also established and the witness is required to be believed.

207.33 ANALYSIS : From the testimony of this witness, it emerges that in his police statement dated 13.5.2002 recorded by PW-300, the witness had not stated any fact regarding presence of accused No.41 Manoj Videowala and his having a revolver with him with which he had fired. In his cross-examination, it has further been brought out that in his statement recorded by the police, he had not stated any fact regarding Guddu Chhara and Suresh (Accused No.22) having pushed twenty seven to twenty eight people towards the water tank or attributed any role to these accused.

207.34 This witness has alleged that Manoj Videowala was present in the mob and had fired with a revolver, wherein Mohammadabid was injured on the waist and Pirubhai was injured on his right leg. From the overall evidence which has come on record, there was police firing in the morning wherein Mohammadabid and Pirubhai were injured. This witness in his original statement has not referred to any firing by Manoj nor has he named him in such statement. Subsequently, at a belated stage, when his statement came to be recorded by the SIT on 18.6.2008, he has implicated Manoj and had stated that Manoj had snatched a rifle from the police and fired towards where they were standing. Thus, for the first time, in his statement before the SIT, the witness has named Manoj Videowala and has alleged that he had fired from a revolver. The evidence of this witness is, therefore, contrary to the

evidence of the other witnesses, who had come out on the road. Moreover, as noticed earlier, it appears that after the SIT came into picture, a version is sought to be put forth whereby certain accused are roped in and are alleged to have fired at the Muslims wherein certain Muslims were injured. This appears more of an exercise to exonerate the police from the death and injuries caused on account of firing in the morning.

207.35 Insofar as accused Suresh and Guddu are concerned, the witness had not implicated them in his statement recorded by the police at the relevant time. In the version given by him in his examination-in-chief, he has said that twenty seven to twenty eight persons were being pushed by them and taken towards a water tank. Such version put forth by the witness is to say the least preposterous. No witness has come forth stating that twenty seven to twenty eight persons were pushed by anyone. The entire version is that while the witness and others were going towards Teesra Kuva, there was a mob coming from that direction and, therefore, they had gone towards Gangotri Society where another mob came from the opposite side and they were caught in between the two mobs and went towards the passage of the water tank where the massacre took place. Therefore, the version given by this witness does not appear to be a correct version of the incident.

207.36 Under the circumstances, when the witness has named Manoj Videowala and Suresh Chhara for the first time before the SIT and the role attributed by him to them in his deposition before the court, is not credible, no reliance can be placed upon the testimony of this witness to prove the charge

against the accused and he does not come across as a credible and trustworthy witness.

208. **PW-231 Zulekhabegum Mahammadayub Shaikh**, aged 40 years, has been examined at Exhibit-1637. The witness has deposed that she can understand a little Gujarati, but would depose in Hindi as it is more convenient for her to speak in Hindi. The witness has deposed that she is a native of *Gulbarga District, Karnataka State*.

208.1 The witness has deposed that prior to where she is presently residing, she used to reside at *Lane No.1, Jawannagar*. In the year 2002, she was residing at Jawannagar, which is also known as Jawaharnagar with her entire family that comprised of her, her husband, her four sons, two daughters, her brother-in-law, her sister-in-law and her mother-in-law.

208.2 The incident took place on 28.2.2002. On that day, it was a Thursday and there was a call for bandh. On the day of the incident, in the morning, all of them were at home when her brother-in-law Abdulsalim went on the road at around 9 o'clock in the morning. Upon returning from the road, her brother-in-law told her that there were disturbances near the Noorani Masjid and that there was assault and a mob had come. He also said that there was vandalism near the road near the masjid. Her brother-in-law came and told her husband that an attack was going on outside, and hence, her husband had gone out. Thereafter, her husband returned home.

208.3 Upon returning home, her husband said that there

was an attack outside and now it was not possible to escape, and told them to come out. Therefore, she took her two sisters-in-law, her six children and her mother-in-law with her and came out on the open ground. She took everyone near the compound wall of the S.R.P. Her husband had come and left them there and he had returned home.

208.4 There were policemen at the S.R.P., whom they had requested to let them go inside the S.R.P. The police told them *"Today, you have to die"*. Thereafter, they had severely beaten them with sticks. Her mother-in-law was severely beaten by the police and she had fallen down. When she went to pick her up, they had also beaten her up with sticks and that even today, her mother-in-law cannot get up and she (the witness) suffers a lot of pain in her leg. Thereafter, they had stayed outside the S.R.P. Quarters. At that time, by the stones which were being pelted from the open ground, her sister-in-law and brother-in-law Abdulsalim were injured. Thereafter, they stayed near the S.R.P. compound wall.

208.5 Jawannagar, Lane No.1 is situated near the S.R.P. There is a gas agency near Jawannagar, Lane No.1. The people in the mob had broken the compound wall situated near the gas company. Upon this wall being broken, the mob entered their chawl. Her house was the first house in Jawannagar, Lane No.1. The people in the mob suddenly entered the houses and started ransacking and burning them. They placed gas cylinders inside her house and burnt it completely. When the mob had entered her house and placed the gas cylinders and set it on fire, her husband was at home. She had seen the mob ransacking her house and set it on fire and has seen her house

being burnt down.

208.6 At this time, her husband, who was on the terrace of their house, fell down from the terrace and fractured both his legs. At this time, there was a stampede amongst the public. The people in the mob were assaulting and were burning whoever came in their hands. Bhavani, Guddu Chhara and Suresh Chhara were in this mob. They told her *"Today, you have to die, so die here!"* In the incident, her family members got separated. Her sister-in-law and her six children were with her. To escape, they had gone to Gangotri Society and hidden in a godown. The people from near Gangotri Society told them to get out of the godown, and hence, they had come out from the godown. Thereafter, they started going towards Naroda, where there were a lot of people. Some people went and started returning and informed them not to go ahead as there was a mob there also. They were trapped there because there were mobs on both the sides. They had felt that they would not escape.

208.7 To save themselves, they had gone on the terrace of Gangotri Society near the S.R.P. compound wall. From the terrace, she saw that the people in the mob were ransacking and were burning and amongst them, she saw Bhavani, Guddu Chhara and Suresh Chhara.

208.8 Thereafter, in the evening time, she saw from the terrace that Guddu Chhara pulled her husband and took him to the last lane of Jawannagar, where Bhavani was there. Guddu pulled her husband and took him and then, Guddu Chhara, Suresh and Bhavani hacked down her husband and put him in

a rickshaw and poured inflammable substance and set him ablaze.

208.9 In this mob, there were people who had tied saffron bands on their foreheads and wearing white undershirts and khakhi shorts. They too, were involved in the incident. She had seen her husband being dragged, hacked down and set ablaze in the rickshaw. On seeing this, her children were terrified and she herself was shocked on account of the incident and remained sitting on the terrace. (At this stage, the court has recorded that the witness is crying a lot and is saying that she and her children have become helpless and have been rendered orphans.).

208.10 Her children were very frightened. Since morning, they were going around here and there, protecting themselves and hence, her children were very hungry and thirsty. She was not in a position to give them anything to eat or drink. On the other hand, her mother-in-law and brother-in-law had gone to see the incident of her husband. Hence, they were in a very difficult situation. While she was on the terrace, several people in police uniform came to call them. There were many people on the terrace, however, since they did not trust the people who had come to call them, they did not go with those people and remained on the terrace. However, some people on the terrace trusted them and went there and in a vehicle full of people, they were taken. There were many other Muslims on the terrace.

208.11 Thereafter, upon another vehicle coming, they mustered the courage and got down from the terrace to go in

the other vehicle. They did not have chappals on their feet. They had gone to the S.T. Workshop road on foot when there were many dead bodies burning on the road. When they reached the road, another vehicle came. The mobs from Krushnanagar and Natraj were pelting stones on this second vehicle, due to which, their children were very frightened and hence, they did not go in the second vehicle also and hid nearby, whereafter in a third vehicle which came there, they sat and reached the Shah Alam camp along with her children and sisters-in-law.

208.12 At the Shah Alam camp, they were given treatment in connection with the injuries which they had sustained. Thereafter, at the Shah Alam camp, they had found her mother-in-law and brothers-in-law, who had got separated during the incident. They too, had taken treatment there. They stayed at the relief camp for around six months. At the relief camp, the police recorded her statement twice. Her statement was also recorded by the SIT at Gandhinagar.

208.13 At the Shah Alam camp, she had met Meblahasan and Maharoo. They told her that they had got the postmortem of her husband's dead body performed at the Civil Hospital and had taken his dead body to Shahibaug Kabrastan and buried him there. She came to know about this fact from them.

208.14 The witness has deposed that Guddu and Bhavani have passed away and that she would try to identify Suresh. The witness has deposed that she had stayed at the relief camp for about six to seven months, whereafter the Islamic Relief Committee had given her a house, where she had gone

to reside. She is residing at Faizalpark with her two children. The witness has deposed that upon seeing their father being burnt alive, her children had suffered very severe fever and they had become very nervous, and hence, she had sent her four children to her brother's house at Bangalore and they are residing there.

208.15 In this incident, her husband had died a homicidal death. Besides, on account of her being beaten, she was suffering very intense pain in her leg. She herself was destroyed physically, mentally as well as socially. On account of the incident, she herself was under great stress. She could not muster courage to venture out of her house. She had mustered a lot of courage and come to the court. Without any fault on their part, she had suffered loss on account of her husband's death as well as household goods. All her household articles and things, rickshaw, etc. were destroyed in the incident and they were totally ruined. She had received very little compensation and today also, she has not regained her health after the incident.

208.16 The witness has deposed that she would try to identify Suresh and has, accordingly, correctly identified Suresh (A-22). The witness has deposed that she is totally illiterate.

208.17 CROSS EXAMINATION: The witness has admitted that before her statement was recorded by the SIT, she had made two applications to the SIT. She has admitted that she has put her thumb impression at the end of both the applications. The witness is cross-examined as to where she

had got the applications made and who had written them down for her. The witness has stated that she knows Maharooof and Mehblahussain and that they are residing at Jawannagar in her lane. The witness has admitted that they were all helping each other. She has stated that Nazir Master resides in her lane and that Nazir Master was helping victims like her. The witness has admitted that that these two persons were writing applications for the affected persons. She has admitted that both these persons used to write applications and complaints for everyone at the camp. The witness is shown a thumb impression below the Mark 644/22 and 644/48 and she has identified it to be hers. The witness has admitted the contents of applications Mark 644/22 and 644/48, which are exhibited as Exhibits-1638 and 1639 respectively.

208.18 The witness has denied that in her statement dated 6.5.2002, she has stated that on 27.2.2002, kar sevaks who were passing in the Sabarmati Express Railway Train, were burnt alive and killed by Muslims of Godhra near the Godhra Railway Station. The witness has admitted that in her statement before the police she has stated that at that time, her brother-in-law Abdulsalim had come and informed them that there are about fifteen thousand to twenty thousand Hindus on the road and that even larger mobs had gathered and all of them had weapons and were coming towards their chawl to kill them.

208.19 The witness has admitted that she has stated that, therefore, they had all hidden in their house and that they were under the impression that the people in the mob would not come up to their chawl, and hence, they were hiding in

their house, and in the meanwhile, they could hear sounds of the mob coming near, and hence, all the members of their house at around 12 o'clock, locked the inside room of their house and went away and were hiding on the rear side of their chawl against the walls and were halting and going.

208.20 The witness has admitted that she has stated that at that time, it was around 5 o'clock in the evening and upon the mob coming there, her husband was around 50 to 60 metres away from them and from the people in the mob, someone struck her husband with a sword and another had inflicted blows with dharias, gupti and at that time, her brother-in-law told her and explained to her that it was more necessary to save her children, and hence, she should flee from there.

208.21 The witness has admitted that upon her brother-in-law saying so, she had taken her children and gone on the terrace of Gangotri Society. She has admitted that in her statement she had stated that she does not know any of the persons who killed her husband and cannot identify them even if they are shown to her.

208.22 The witness has admitted that her statement was also recorded on 7.9.2002. She has admitted that in such statement, she has stated that her husband used to keep a beard. His age was around 40 years. After the death of her husband, till she got this house, she was residing at the Shah Alam camp. Her husband was killed near the compound wall of the S.R.P. police lines and she does not know any of the persons in the riotous mob.

208.23 The contents of paragraph 10 of her examination-in-chief are read over to the witness, who has denied that she has not stated all these facts in both her statements recorded by the police and has voluntarily stated that she had stated so, but how would she know whether or not, they have written them down. The contents of paragraph 10 are once again read over to her and she has denied that in her statement dated 30.5.2008 recorded by the SIT, she had not stated that her husband was put in a rickshaw and set ablaze. The witness has voluntarily stated that she had stated so but they had not written it down.

208.24 The witness has denied that she had not informed anyone at the camp that Guddu, Suresh and Bhawani had hacked down her husband and had poured inflammable substance on him and set him ablaze and has voluntarily stated that she had stated so, however, how would she know that whether or not, they had written it down. The witness has admitted that she did not have any social or any other kind of relations with Suresh and Bhavani. She has admitted that no test identification parade of any accused was carried out through her. She has admitted that her husband was on the terrace of the last house of Gangotri Society, which is near the S.R.P. compound wall and he had fallen down from there. The witness has admitted that this was the same terrace, where she was hiding. She has admitted that where her husband was, Hindu and Muslim mobs were running and coming. She has stated that when her husband fell down, he fell in Jawannagar.

208.25 The witness has stated that the first lane of

Jawannagar comes after leaving one house from her house. She has admitted that the incident took place near the S.R.P. compound wall and not near her house. The witness has admitted that whatever she had seen in the incident, she had seen with her own eyes. The witness has admitted that she had come to depose at the instance of the people of her community.

208.26 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

208.27 PW-292 R. C. Pathak, the assignee officer has, in his cross-examination, admitted that he has recorded the statement of this witness on 7.9.2002. The contents of paragraph 10 of the examination-in-chief of the witness are read over to the assignee officer, wherein the witness has stated that thereafter in the evening, she saw from the terrace that Guddu Chhara pulled her husband and took him to the last lane of Jawannagar, where Bhavani was also present. Guddu Chhara pulled her husband and took him. Guddu Chhara, Suresh and Bhavani hacked down her husband and put him in a rickshaw lying there and poured inflammable substance on him and set him ablaze. The assignee officer has admitted that the witness had stated the facts regarding her husband being burnt, but had not stated as to who had set him ablaze and had also not stated the names of the accused before him.

208.28 PW-307 S. S. Chudasama, the Investigating Officer has admitted that he has recorded the statement of this

witness on 6.5.2002. He has admitted that this witness had stated before him that on 27.2.2002, kar sevaks who were passing through in the Sabarmati Express railway train, were burnt alive by the Muslims at Godhra near Godhra railway station and were killed.

208.29 In the opinion of this court, this part of the statement of the witness in no manner contradicts any part of what is deposed by the witness in her examination-in-chief. As discussed earlier, in view of the proviso to section 162 of the Code, a statement under section 161 of the Code can be used only for the purpose of contradicting a witness. This part of her testimony is, therefore, not admissible in evidence.

208.30 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), has in his cross-examination admitted that he has recorded the statement of this witness on 30.5.2008. The Investigating Officer has admitted that this witness in the statement recorded by him has not stated that her husband was put near a rickshaw and set ablaze and that she has not mentioned the word "rickshaw".

208.31 SUBMISSIONS: The learned counsel for the appellants submitted that as per the version given by this witness in respect of the facts mentioned in paragraph 10 of her deposition with respect to the incident of her husband, she has not named any of the three accused including accused No.22, as she did not know who were the miscreants as admitted by her in paragraphs 34 and 35 of her cross-examination. Therefore, this version of this witness with the name of accused is coming up for the first time before the SIT

and even before the SIT, the fact of her husband being set on fire in a rickshaw was not stated which has been stated by her for the first time before the court.

208.32 Referring to paragraph 4 of her examination-in-chief, it was submitted that all the family members of the witness were first taken to the S.R.P. compound wall by her husband, who then went back home. It was submitted that according to the witness their house is situated in Lane No.1 of Jawannagar. It was submitted that in paragraph 7 of her examination-in-chief, she has stated that her husband fell down from the terrace of their own house and sustained fractures. In paragraph 8 of her examination-in-chief she has stated that they had gone to Gangotri and hidden in a godown and after they were asked to come out of the godown, they had gone to the terrace of Gangotri and while she was on the terrace at Gangotri, she saw from there the incident of Guddu pulling her husband to the last lane in Jawannagar and in that lane she saw Guddu, Suresh and Bhavani killing him in a rickshaw by assaulting and setting him on fire. It was submitted that in contradiction to this version the witness has stated in paragraph 42 of her cross-examination that her husband fell down from the terrace in lane No.2 of Jawannagar and in further contradiction, in paragraph 41 she has stated that her husband fell down from the same terrace in Gangotri where she had hidden herself. It was argued that apart from the above inconsistencies, if the deposition of the witness is taken and read at its face value, the incident of her husband falling down in the afternoon and the incident of killing him had taken place after some time, are definitely not in consecutive sequence. It was submitted that this version of the witness is

in complete contradiction to the version other witnesses of this incident, namely, PW-140, PW-143, PW-149, PW-156, PW-224, PW-226 and PW-213. It was submitted that the testimonies of those witnesses also are *inter se* contradictory in material parts as regards time, place and sequence of events and also inconsistent with respect to the names of accused. It was submitted that according to this witness she was informed by Meblahasan and Maharooof as stated in paragraph 15 that they had taken the dead body of Ayub to the Civil Hospital for postmortem and got buried at Shahibaug Kabrastan. It was submitted that Maharooof is examined as PW-91, but he does not say anything in this regard. It was submitted that Ayub's inquest is shown in inquest panchnama exhibit 662 and as stated in paragraph 15, the dead body of Ayub would have been identified. It was submitted that having regard to this inconsistent and contrary facts coming on record, and when the witness has not named any accused in both of her police statements, this story about her husband coming up before SIT for the first time, creates complete doubt as regards the credibility and reliability of her version. It was submitted that other witnesses have referred to a rickshaw in which the incident of Ayub is stated to have taken place, however, no remnants of a human body are found therein, nor is there any scientific investigation made by the prosecution to prove this fact beyond reasonable doubt.

208.33 Referring to paragraph 43 of her cross-examination, it was submitted that the witness has admitted that she had come to depose at the instance of her community, which indicates that she was brought as a witness after her statement was recorded by the SIT to state something which

she had never stated in either of her police statements. It was submitted that as admitted by the witness in paragraph 40 of her cross-examination, that she had no relation of any kind with Suresh, in the absence of a test identification parade, naming and identifying the accused after so many years, also brings the case in the dock of doubt.

208.34 The learned Special Public Prosecutor submitted that one contradiction about rickshaw qua her statement before SIT that she had not stated about a rickshaw in her police as well as SIT statement has been brought on record. As regards the other facts even in the first and second statements recorded in the year 2002 there is a narration. It was pointed out that in paragraphs 41 and 42 of her cross-examination she has clarified the situation.

208.35 It was submitted that the version given by the witness cannot be considered to be contradictory to other witnesses because PW-156 also says that Ayub was killed in the last lane of Jawannagar, near Abeda's house. PW-231 has also referred to the last lane of Jawannagar. PW-140 has stated that the incident had taken place near Abeda's house, near the S.R.P. Quarter's wall. PW-143 has stated that the incident took place near Gauri Apa's house, whereas PW-149 has stated that the incident took place at Jawannagar. It was submitted that these testimonies of all these witnesses corroborate the version given by this witness in respect of Ayub being killed near the S.R.P. and Jawannagar, and therefore, the evidence of this witness cannot be said to be contradictory to the evidence of other witnesses. Therefore, this witness is a believable and credible witness.

208.36 ANALYSIS: This witness is the wife of Mohammadayub, who is stated to have died in the incident. In respect of the manner in which Ayub died, many versions have come forth in the testimonies of different witnesses. The main version which has come forth is that upon seeing the mob, out of fear, Ayub jumped from the terrace and had fractured his legs and some people from the mob had assaulted him and put him in a rickshaw, poured inflammable substance on him and set him ablaze. This witness is the wife of Ayub. At the relevant time, when her statement was recorded, the witness has stated that in the evening at around 5 o'clock, the mob had come and her husband was at a distance from them and he was assaulted by the mob and, at that time, her brother-in-law told her that it was necessary to save the children and, therefore, they had fled from there. In her deposition before the court, she had stated that they were sitting near the compound wall of the S.R.P. Quarters when the mob broke the wall of Uday Gas Agency and entered inside. Her house was the first house in Lane No.1 of Jawannagar. The mob had set her house ablaze. At that time, her husband was on the terrace of the house, and hence, he fell down from the terrace and fractured both his legs. The public was running helter skelter and the mob was assaulting the people and was setting anyone who came in between, on fire. Bhavani, Guddu Chhara and Suresh Chhara (A-22) were in the mob. They told her that today they were to die, so they should die there. The witness has deposed that her family members got separated in the evening and she together her sister-in-law and children hid in a godown in Gangotri Society. Subsequently, they were driven out from there and were going towards Hussainnagar,

however, they were told by someone not to go ahead as there was a mob. Therefore, they went and took shelter on a terrace of Gangotri Society near the S.R.P. Quarters wall. From the terrace, she saw Bhavani, Guddu Chhara and Suresh committing arson. In the evening at around 6 o'clock, she saw from the terrace that Guddu Chhara had dragged her husband to the last lane of Jawannagar where Bhavani was present and they put him in a rickshaw and Guddu, Suresh and Bhavani sprinkled inflammable substance on her husband and set him ablaze. This entire version given by this witness is contrary to the version given by the other witnesses who have stated that the incident of Ayub falling down from the terrace and being assaulted and put in a rickshaw and burnt, took place sequentially at a time, whereas this witness has referred to her husband having fallen and after a considerable time thereafter, the above three persons having brought him there and put him in a rickshaw and set him ablaze. Moreover, in her cross-examination at paragraph 34, she has admitted that in her police statement she had stated that she does not know the persons who have killed her husband and cannot recognise them even if they are shown to her.

208.37 In paragraph 35 of her examination-in-chief, the witness has admitted that her statement was recorded on 7.9.2002, wherein she has inter alia stated that her husband was killed near the S.R.P. police line compound wall and that she does not know any of the persons in the riotous mob. A contradiction has been brought out that in both her statements recorded at the camp she had not stated any fact regarding Guddu, Suresh and Bhavani having poured inflammable substance on her husband and having set him ablaze. Thus,

the witness did refer to the incident of her husband being killed near the compound wall of the S.R.P. Quarters.

208.38 Insofar as the acquaintance with the accused is concerned, the witness has admitted that she had no social or financial relations with Suresh and Bhavani and has admitted that no test identification parade had been carried out through her to identify the accused. The witness has also admitted that she had come to depose at the instance of the members of her community.

208.39 Considering the nature of the omissions and contradictions brought out in the testimony of the witness as well as the version of the incident given by her, it would be hazardous to place reliance upon the testimony of this witness to prove the charge against the sole living accused named by her, namely, accused No.22 Suresh Chhara.

209. **PW-232 Shahidhussain Abdulgafur Shaikh**, aged 43 years, has been examined at Exhibit-1643. The witness has deposed that he is residing in Gujarat since his birth and he can understand Gujarati to a certain extent. However, he would find it more convenient to depose in Hindi and, therefore, would give his testimony in Hindi.

209.1 The witness has deposed that since the last 35 years, he is residing at *Naroda Patiya* in a rented house. In the year 2002, he, with his wife, his daughter and his elder son, were all residing together in his house. At that time, he used to ply a rickshaw.

209.2 The incident took place on 28.2.2002. On that day, there was a call for Gujarat Bandh.

209.3 On that day, he was sleeping at home. In the morning at around 8:30 to 8:45, there was a lot of commotion. On hearing the commotion, he came on the road at the entrance of the S.T. Workshop, Opposite the Noorani Masjid. He saw the mobs coming from the direction of Krushnanagar and Natraj Hotel. The mob came near the S.T. Workshop. In the mob, he had seen Babu Garagewala (A-33).

209.4 The mob was shouting. He could not understand as to what they were shouting. He stayed there for some time, but a lot of public had gathered there. He was frightened and thereafter, he ran straight home to Hussainnagar. Babu Garagewala was in the front of the mob, and hence, he noticed him. He too was shouting.

209.5 Thereafter, he came home. He took his wife and children and went to the Pinjara's house at Hussainnagar. Out of fear, he together with his wife and children had gone to hide there. At that time, he did not find his elder son at home. He did not know as to where he had gone away. However, lastly, they had met at the camp.

209.6 They stayed at the Pinjara's house till late night. At around 10 or 12 o'clock at night, the police had come. They were taken in a police vehicle to the Shah Alam camp. All three of them were in the camp.

209.7 On the same day at night, he had met his elder

brother at the camp. He had sustained an injury on his eye in the incident and was bleeding. He asked him the reason for the injury and he told him that he was injured by a stone in the incident.

209.8 He stayed at the camp for around six to eight months. The police had recorded his statement. The SIT people had also recorded his statement.

209.9 At that time also, he used to ply a rickshaw. He used to park his rickshaw near his sister's house in Lane No.3, Hussainnagar. In the incident, his household goods, cash, ornaments, etc. everything was damaged and the rickshaw was set on fire in the incident.

209.10 The witness has deposed that he can identify Babubhai. He has stated that of course, since a long time has elapsed, he would try to identify him. Ultimately, the witness has failed to identify Babubhai despite the fact that Babubhai (A-33) was sitting amongst the accused.

209.11 CROSS EXAMINATION: In the cross-examination of this witness, he has denied that in either of his statements, he has not named Babubhai Garagewala was in the forefront of the mob, and hence, he has seen him as well as the fact that the mob had come near the S.T. Workshop from Krushnanagar and Natraj Hotel. In his cross-examination, the witness has denied that he does not know any person by the name of Babubhai and that he has not seen any person and that at the instance of the people in the camp, he was falsely stating so. The witness has stated that he does not know whether

Babubhai's father's name is Motibhai.

209.12 To prove the omissions and contradictions in the testimony of this witness as to his previous statements recorded by the investigating agencies, the defence has cross-examined the concerned assignee officer/Investigating Officer.

209.13 PW-281, Shri D. S. Vaghela, the assignee officer has admitted that he had recorded the statement of this witness on 13.5.2002. He has denied that this witness had not given the name of any person by the name of Babu before him. He has stated that the witness had stated before him that a person whose name is Babu and works as a foreman, whom he knows by his face, was instigating the mob, which he had seen with his own eyes. The assignee officer has admitted that the witness has not stated that Babu Garagewala was in front of the mob. The assignee officer has admitted that the witness has not stated before him that the mobs from Krushnanagar and Natraj Hotel came near the S.T. Workshop. He has stated that the witness had stated before him that the mobs had started gathering in front of Naroda Patiya and the Noorani Masjid.

209.14 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statement of this witness on 19.6.2008. The Investigating Officer has admitted that this witness in the statement recorded by him has not stated that Babu Garagewala was in front of the mob. He, however, has stated that he had seen Babu Garagewala in the mob and that mobs had gathered in front of Naroda Patiya as well as the Noorani

Masjid.

209.15 SUBMISSIONS: The learned counsel for the appellants, have submitted that this witness has named only one accused, that is, Babubhai Garagewala (A-33), but could not identify him. It was submitted that the name Garagewala has been stated by the witness for the first time before the SIT. Therefore, when before the police the witness has stated that it was Babubhai who was present, a test identification parade should have been carried out to establish his identity and also to rule out the possibility of false implication at a subsequent stage of a person named Babubhai who may be a different person. It was submitted that this submission is strengthened by the fact that the witness could not identify the accused in the court. The learned counsel further submitted that even if the statement recorded by the SIT and what is stated by the witness in his deposition is taken at face value, then also, the only fact alleged against him is that he was found in the mob in the morning without any specific overt act being alleged.

209.16 ANALYSIS: This witness in his examination-in-chief has only referred to the mob on the highway and has stated that he had seen accused No.33 Babubhai Garagewala in front of the mob which had come from Natraj Hotel to the S.T. Workshop. However, the witness could not identify the sole accused named by him, in the dock. Considering the contradiction brought out in the cross-examination of the witness, to the effect that he had not named Babu Garagewala in either of his two statements, [but had named some Babubhai who was working as a foreman as per the testimony of PW 281], it is evident that the witness had not correctly

named the accused in his police statement. Therefore, when the accused is neither correctly named nor identified before the court, the testimony of this witness would not help the prosecution in proving the charge against the accused.

210. **PW-233 Rajabax alias Rajesh Nabisha Saiyed**, aged 60 years, has been examined at Exhibit-1644. The witness has stated that he can understand Gujarati to a certain extent, but would depose in Hindi because he finds it more convenient to speak in Hindi.

210.1 The witness has deposed that his native place is *Karnataka*. Prior to coming to Ahmedabad, he was residing at *Karnataka*.

210.2 The witness has deposed that since the last twenty years, he is residing at Ahmedabad and right from then, he is residing at *Pandit-Ni-Chali*.

210.3 The witness has deposed that he is illiterate. In the year 2002, he used to do the work of distributing kerosene given by the Government for rationing. He used to sell the kerosene in a cart. He used to park his cart opposite the Noorani Masjid.

210.4 In the year 2002, he and his two sons, their wives and his wife, all were residing together. At the same place where he was carrying on his business, one Usmanbhai also used to distribute kerosene like him and like him, he too used to park his kerosene cart in front of the Noorani Masjid.

210.5 The incident took place on 28.2.2002. On that day, there was a call for bandh. Since everything was closed, he was at home and at that time, at around 8:00 to 8:30, the commotion started. Upon hearing the commotion, he came out of his house and went opposite the Noorani Masjid.

210.6 At this time, the mobs were coming from Kubernagar as well as from Krushnanagar. Pelting stones, the mob had come near the Noorani Masjid and was pelting stones there. The people in the mob entered the Noorani Masjid. The witness's kerosene filled cart was lying in front of the Noorani Masjid along with Usmanbhai's kerosene filled cart. His cart contained 50 litres of kerosene. The people in the mob threw both these kerosene carts in the Noorani Masjid and set them ablaze.

210.7 In the mob which put the kerosene carts in the masjid in this manner, he had seen **Manoj Sindhi Videowala and Bipin Panchal**. Bipin Panchal and Manoj Sindhi had called the people in the mob. In the meanwhile, upon the police releasing tear gas, he had gone home.

210.8 In order to protect themselves, he and his family, went to Masjid-ni-Chali and sat there for the entire day and night. Thereafter, at dawn at around 4 o'clock, a vehicle came and took them to the Shahibaug camp.

210.9 They stayed at the camp for around six months. In the incident, his house was burnt and all his household articles and other things were looted. His kerosene cart was burnt.

210.10 The police had recorded his statement.

210.11 The witness has stated that he would attempt to identify Manoj Videowala and Bipin Panchal. The witness has thereafter identified Manoj Videowala (A-41) correctly, but has stated that he could not identify Bipin Panchal (A-44) from amongst the accused, though the accused was present in the court.

210.12 CROSS EXAMINATION: In the cross-examination of this witness, he has denied the suggestion that he had not stated the fact regarding the mobs having come from the direction of Krushnanagar and Kubernagar in his statement recorded by the SIT. The witness has admitted that in his statement recorded by the SIT, he had stated that on 28.2.2002, as there was a call for Gujarat Bandh, he was present at home and 50 litres of kerosene was lying in the cart in which he carried on his business and the said cart was lying in front of the masjid. At around 9 o'clock in the morning, a mob of Hindus had gathered near the Noorani Masjid and upon the police releasing tear gas towards them, they had gone inside the chawl and their carts were thrown inside the masjid and were set on fire by the mob.

210.13 The witness is cross-examined with regard to the topography of the area. The witness has admitted that from the place where he was standing, he could not see the door of the masjid. In his cross-examination, it has further come out that he has no financial or social relations with Manoj Sindhi and has no occasion of visiting his house or having conversation with him. The witness has further admitted that

during the course of investigation, no test identification parade was carried out for identification of Manoj Sindhi. He, however, has voluntarily stated that he knew Manoj since earlier times. The witness has admitted that arrangements were made for lodging the complaint at the camp and that he has not lodged any complaint. The witness has denied that he has not seen any incident as stated by him in his examination-in-chief and that he has not seen any accused in the incident, and hence, he has not lodged any complaint at the camp and has voluntarily stated that out of fear, he had not lodged any complaint. The witness has admitted that he had not received any threat from any accused and that he had not asked for any police protection.

210.14 In the cross-examination of this witness, it has further come out that he had not made any application to the SIT and that his statement was recorded at a madressa at Naroda. Such madressa is situated in the Jawannagar pit. He has admitted that Nazir Master had come to call him for going to the Jawannagar pit. He, however, has denied that in the year 2008, he had gone to record his statement at the instance of Nazir Master and that he had given a false statement and that today, he was falsely deposing before the court.

210.15 To prove the omissions and contradictions as to the previous statement of this witness, the defence has cross-examined PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), who, in his cross-examination has admitted that he has recorded the statement of this witness on 22.6.2008. He has admitted that the witness in the statement recorded by him had not stated that the mob had come from Krushnanagar

and Kubernagar and that the mob had entered the Noorani Masjid. The Investigating Officer has stated that the witness has stated that a Hindu mob had gathered near the Noorani Masjid.

210.16 SUBMISSIONS: The learned counsel for the appellants submitted that no statement of this witness has been recorded by the police and his sole statement is recorded by the SIT. It was submitted that more than six years after the incident, the witness has given the names of Manoj Videowala (A-41) and Bipin Panchal (A-44). Out of the two named accused, he could not identify Bipin Panchal and in view of the fact and admission made in paragraph 26 of his deposition, that he had no acquaintance of any kind with Bipin Panchal also there is reason to believe that his coming up with the names of the two accused so belatedly, is at somebody's instance, more particularly when he has not made any application to the SIT and as admitted by him in paragraph 31, he was called by Nazir Master and his statement was recorded in the madressa in the Jawannagar pit.

210.17 It was pointed out that the witness has admitted in paragraphs 27 and 28, that from the very next day of the incident, police officers, leaders of Muslim organisations and Muslim social workers were visiting the relief camp and further admitted that in the camp, arrangements were made for giving complaints and he has not given any complaint, which clearly indicates that he was not a witness of any such incident and he has come up with a false story after more than six years. According to the learned counsel even if the statement recorded by the SIT is taken at face value, even then the fact

regarding kerosene carts having been thrown inside the masjid has not been stated by other witnesses, and even otherwise, he could not have seen such incident of throwing kerosene carts from inside the lane where his house is situated. It was urged that this witness, therefore, is not a reliable and truthful witness, even against accused No.41 Manoj Videowala whom he has named and identified.

210.18 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness has given one statement before the SIT and there is nothing adverse elicited in the cross-examination. It was submitted that what is stated by the witness in his examination-in-chief is corroborated by what is elicited in his cross-examination as regards the kerosene cart having been parked in front of the masjid and that there is no contradiction or variation from his examination-in-chief, and, therefore, this witness is a believable and credible witness.

210.19 ANALYSIS: The sole statement of this witness was recorded by the SIT in the year 2008, after a period of more than six years from the date of the incident. The witness has named two accused viz. Bipin Panchal (A-44) and Manoj Videowala (A-41), and has claimed to have seen them in a mob throwing his cart along with a cart belonging to one Usmanbhai inside the Noorani Masjid and setting them ablaze. He has also stated that he had seen these accused calling the mob. Out of the two accused named by him, he could not identify Bipin Panchal in the dock. From his cross-examination, it has been elicited that he had seen the incident from the lane of the unfinished building. In this regard it may be pertinent to note

that the lane of the unfinished building is on the same side as the Noorani Masjid, therefore, a person standing in that lane would not be in a position to see what was happening inside the Noorani Masjid. Moreover, from the cross-examination of the witness it has been elicited that complaints were being recorded at the camp, however, at the relevant time he has not disclosed these facts to the police. It has also come on record through the testimony of other witnesses that police were visiting the camps and recording statements; however, at no point of time has this witness come forward for recording of his statement. This witness is not an injured witness nor has any member of his family sustained any injury or loss of life, therefore, it was not as if he would be suffering from severe shock or trauma. In his cross-examination, he has stated that as he was afraid, he had not given his complaint at the relevant time, which does not appear to be a plausible explanation. In these circumstances, it would be very hazardous to place reliance upon the testimony of this witness to prove the charge against the accused.

211. **PW-234 Mahammadyunus Basirahemad Shaikh**, aged 38 years, has been examined at Exhibit-1652. The witness has stated that he can understand Gujarati to a certain extent, and that he can depose in Gujarati.

211.1 The witness has deposed that at present, he is residing at *Ektanagar*. Prior thereto, he was residing at *Kumbhaji-ni-Chali, Opp. Noorani Masjid, Jawannagar*. He was residing at *Kumbhaji-ni-Chali* since around fifteen years prior to the incident. This house was comprised of two rooms. His father and his second wife Zubedabanu used to live in one

room. His mother had passed away many years prior thereto. In the other room, he, his younger brother Mubarakahemad, his wife Samsadbanu and his daughter Namirabanu, all were residing together. His one elder brother was residing behind the Noorani Masjid. He (the witness) has studied up to the 5th standard and knows how to read and write Gujarati. At the relevant time, he used to do tailoring work.

211.2 The incident took place on 28.2.2002. On that day as well as on the next day, that is, on both the days, there was a call for bandh. On the previous day, a train had been burnt at Godhra. They were in all three sisters and three brothers. All of his three sisters were married prior to the incident.

211.3 On that day, in the morning at around 9 o'clock, he was at home when there was commotion in the entire area. Thereafter, he went out to see. He came out to the corner of the S.T. Workshop compound wall, opposite the Noorani Masjid. There, he saw that mobs had gathered near Natraj Hotel. Thereafter, he looked towards Krushnanagar and saw that there was a mob of people there also. He and people from his chawl all had gathered there.

211.4 Two policemen came there and they told the Muslims that nothing would happen; they should stand there peacefully and not worry. They were trying to make them understand. After explaining to them, the police went towards Natraj Hotel.

211.5 Thereafter, the people in the mob kept standing there. The police were standing nearby. Two to three women

belonging to the Muslim community went to the police and asked them as to why the mobs were gathering there. The police were present at the place where the mob was standing. They told them *“run away from here, today not a single person will escape alive”*. Thereafter, the police beat the women with sticks and drove them away, whereupon, the women came back towards them.

211.6 The people in the mob started ransacking the shops and carts near the Noorani Masjid and also pelted stones at them.

211.7 On the road, at this time, the police started firing at the Muslims standing at the entrance of their chawls. As a result, Pirubhai, Abid, Khalidbhai, Mahammadbhai, Mustaqbhai and Masak of their chawls were wounded by bullets. He, and other youths from the chawls, went and lifted Masakbhai who died in the firing, and put him on the platform of a house. Thereafter, he came back to the entrance of the S.T. Workshop.

211.8 When he returned to the corner after leaving Masakbhai, he went to check his brother Mubarakahemad's garage, which was at the corner of Mira Motors at Krushnanagar vegetable market. Upon going there and looking at his brother's garage from a distance, he had seen that the people in the mob had set on fire a Maruti car which had come for repairing to the garage. There were around ten to fifteen thousand people. However, he does not know any of them. Thereafter, he returned and came back to the entrance of his chawl.

211.9 When he was returning to the corner of his chawl, he was standing near Bipin Auto Centre, when he saw Bipin Panchal amidst the people in the mob near his garage. This Bipin Panchal was telling the people in the mob that “*the Muslims do not have any resources, you people enter the chawls from the side of Uday Gas Agency and start beating and hacking, not a single person should remain alive*”. Upon his saying so, the people in the mob started entering the chawls.

211.10 At that time, he had returned to the entrance of his chawl. He saw that a tanker was set on fire and was sent from Bipin Auto towards the Noorani Masjid. This burning tanker halted in a pit on the road outside the Noorani Masjid and got stuck there. At this time, stone pelting and firing was going on. Over and above that, tear gas was also being released. At this time, the people had started running helter skelter to save themselves. Thereafter, he did not find his brother.

211.11 The people in the mob had entered their entire area. At this time, it must have been around 11:00 to 11:30. At this time, he went and stood together with the Muslims in the mob.

211.12 At this time, there was a mob in the direction of Natraj Hotel also. The people in this mob were armed with sticks, tridents, swords, pipes etc. The people in the mob attacked their chawls, opposite the S.T. Workshop and started assaulting, vandalizing and looting. The mob had also ransacked the Noorani Masjid and assaulted people.

211.13 They brought gas cylinders from Uday Gas Agency in an ambulance. They had burst gas cylinders at the Noorani Masjid and set it on fire. He had seen all this.

211.14 The Noorani Masjid had caught fire. At this time, many people in their locality were frightened and started looking for shelter in their own way. He too with other people had gone on the terrace of a house in *Kumbhaji-ni-Chali* and hidden there.

211.15 From the terrace, he had seen the people in the mob setting things on fire with gas cylinders, etc. From the terrace, he saw that the people in the mob had poured kerosene on a person named Mustaq, whom they had put on the platform, and set ablaze.

211.16 Thereafter, upon looking at the other side, the people had pulled out a boy named Moin, who was residing opposite the Fair Price Shop in Hussainnagar out of his house. This person was handicapped. The mob stuffed a cloth in his mouth and tied his hands and legs, poured kerosene on him and set him on fire.

211.17 The people in the mob had tied saffron bands on their heads. They had swords, dharias, tridents, etc. in their hands. He had seen all this. He could not recognize any of them.

211.18 As told by him, the people in the mob had broken the fair price shop. There were around eight to ten barrels

filled with kerosene in the shop which were taken out. Thereafter, kerosene was used to set the area on fire.

211.19 The mob had set the house on the terrace of which he was hiding, on fire on the lower level. At that time also, he was on the terrace. While he was in his chawl, other houses near the terrace were set on fire after placing gas cylinders inside, all of which he had seen with his own eyes. Burning that house as well as the houses nearby was going on. The house in which flames were rising in the lower level, in that very house they had hidden on the terrace for two to three hours. They sat there till around 6:30 to 6:45 in the evening.

211.20 Thereafter, they got down to find out as to what had happened to their family members. After getting down from the terrace, he had gone towards Gangotri Society to look for his family. There, his wife, daughter, sister-in-law and his niece were standing near the first corner of Gangotri Society and they told him that it was a good thing that they had met him because women, children and men were being killed there. Thereafter, he took them and came towards their area.

211.21 While he was returning with his family members from Gangotri Society, in the mob which he saw, he had seen Bhavanisingh with a sword in his hand, and he was shouting "*Not a single bandiya should escape, kill them!*" Thereafter, he brought his family to a three storeyed house towards his chawl near Hussainnagar, Lane No.3. In that house, he sat in the first room itself. Around four hundred to five hundred people were hiding in that house. In the same house, a boy named Khalid who was injured by a bullet was writhing and asking for water.

Other people, who were there, were crying because of the injuries they had sustained on account of getting burnt and were shouting for water.

211.22 In this house, he did not find his father. He had found the rest of them. They stayed in the house at 11:30 to 12:00 at night. At around 12 o'clock, the police came and parked a vehicle at the corner. The police personnel who had come, told them to come with them as they had come to take them, despite which, they had not come out. Thereafter, one person from amongst them went and verified. The person from amongst them, who had gone to look, had learnt that the vehicle was a police vehicle. That person told them that they should all go; nothing would happen to them, if they stayed there till morning, all of them would be killed. Thereafter, slowly they came out of the house.

211.23 After coming out of the house, they went near the S.T. Workshop. They went from near the S.T. Workshop compound wall. At that time, in the brightness of the flames of the burning houses, they could see and they started coming out. At this time, he saw on the road that the dead body of the person named Moin, who was burnt alive, was lying in the middle of the road.

211.24 Thereafter, they sat in the police vehicle and departed. From there, when they reached near Saijpur Tower, the people in the mob stopped the vehicle. After stopping the vehicle, they started pelting stones. At this time, the driver of the police vehicle got down and started telling the people in the mob to move away, otherwise they would start firing.

Thereafter, the people in the mob moved away.

211.25 The vehicle was going to Amdupura. There also, there was a stone pelting. The driver did not stop the vehicle. Thereafter, they reached the Shah Alam camp at around 1:00 to 1:30 at night.

211.26 At the camp, he met his relatives. However, he did not find his father. His father met him at the Shah Alam camp after around one to two months. In the incident, his father was injured by a sword, his brother Mubarak's eyes were also swollen on account of tear gas injuries; he was injured on the shoulder with a brick; his elder brother Mahammadali had also sustained injuries due to tear gas; and his wife had sustained a brick injury on her head. All of them had taken treatment at the Shah Alam camp, where they stayed for around three and a half months.

211.27 In the incident, the people in the mob had set his house on fire, wherein his household articles and other things damaged, which he had seen from the terrace of the house on which he was hiding on the day of the incident. However, even after he came back to the camp, he had heard about it.

211.28 In connection with the incident, the SIT had recorded his statement. The witness has deposed that he can identify Bhavanisingh Chhara and Bipin Panchal, but Bhavanisingh has passed away. The witness has, thereafter, correctly identified Bipin Panchal (A-44).

211.29 CROSS EXAMINATION: The witness has admitted

that he was doing tailoring work at home. He has stated that opposite the entrance of the S.T. Workshop, if one goes inside towards their chawl, Kumbhaji-ni-chali is in the third lane. Upon entering Kumbhaji-ni-chali, his house is the tenth house. The witness is cross-examined with regard to the topography of the area. The witness has admitted that some Hindus were also residing in Kumbhaji-ni-chali. The witness has admitted that at the time when he left his house on the day of the incident, he had not looked at the watch and that he is stating the time on the basis of estimate. He has stated that he was standing on the road going inside the S.T. Workshop compound wall. He has stated that from where he was standing there, he could see Natraj Hotel, Krushnanagar Highway but could not see the crossroads. He has stated that he was standing there for about an hour.

211.30 In his cross-examination, it has come out that when he reached the entrance of the S.T. Workshop, the stone pelting had started. About forty-five minutes after he reached there, the stone pelting had started. He has denied that the stone pelting initially took place to get the shops and cabins closed. He has admitted that like him, people residing nearby had also come outside and were standing there and watching. He has admitted that several people were worried about their carts, cabins and shops. The witness has admitted that the moment the stone pelting commenced, he had immediately gone towards the interior side of his chawl. He has denied that he had gone home. He has denied that as and when people were getting injured by bullets, they had gone to lift those who were injured and bring them inside. He has stated that he does not know that after the firing, who had brought anyone inside

the chawl. He has stated that he had only gone to leave Masakbhai. He had stated that from there he had gone to the second lane of Kumbhaji-ni-chali to leave Masakbhai. The witness is cross-examined with regard to the route which he had taken when he went to see his brother's Mira Motors garage as well as the time it took him to reach there. The witness has stated that he was standing at a distance from where he could see his brother's garage. He has admitted that from the cemetery, he had seen the mob at his brother's garage. He has admitted that out of fear of the mob, he did not have the courage to go any further. He has stated that from the cemetery, he could see Bipin Auto Centre. He has stated that Bipin Auto Centre was not open. He has admitted that the mob at his brother's garage must be comprised of about one hundred to one hundred and fifty people and that the mob near Bipin Auto Centre must be comprised of more people than one hundred to one hundred and fifty people.

211.31 The witness has denied that Bipinbhai had tied a saffron band on his head at that time and that he was wearing khakhi shorts and white undershirt. He has admitted that when he returned from the cemetery to the Noorani Masjid, Bipin Auto Garage was in the way. He has stated that when he went as well as when he returned, he had seen Bipinbhai near Bipin Auto Centre. He has admitted that he had seen him for the first time at Bipin Auto Centre and thereafter, for the entire day, he had not seen Bipinbhai. The witness has admitted that after releasing teargas, the police had resorted to firing and that the police was firing in the direction where they were standing.

211.32 The witness has stated that he had seen the tanker

near Bipin Auto Centre for the first time. The witness has stated that it was set on fire and then sent towards the Noorani Masjid. It was a six wheeler vehicle. He has stated that after the truck was set on fire, the driver was driving it and had brought it straight to the Noorani Masjid and left it there. He had put a brick on the accelerator and driven it. The witness has stated that half way to the masjid, the driver had jumped out the truck. The truck had gone one or two feet ahead, after which the driver had jumped out. The witness has admitted that after the driver jumped down, the vehicle had gone ahead without the driver. He has admitted that thereafter, the vehicle had gone upto the Noorani Masjid without the driver.

211.33 The witness has admitted that Bhavani was residing at Gangotri Society. He has stated that he has not seen him near his house or in his society. The witness has stated that when the gas cylinders were brought in the ambulance, he was standing at the corner of the S.T. Workshop. The witness has stated that the fair-price shop is in the first lane of Hussainnagar and he does not know who the owner of the shop was. He has thereafter, stated that the owner was Basirahmed Shaikh. He is not in a position to say as to how many people were there in the mob which destroyed the shop. The witness has stated that the kerosene barrels which he had seen were steel barrels. These barrels were big in size. He has denied that the people in the mob had lifted these barrels. He has stated that they had rolled the barrels and taken them out of the shop. He has stated that they were taking out the kerosene from the barrels and supplying them. He has stated that he could not see as to in which containers, the kerosene was being supplied. He has stated that there were around

eight to ten barrels.

211.34 The witness has admitted that prior to the SIT recording his statement on 4.6.2008, no prior statement of his was recorded. He has admitted that whatever he knew about the incident, he has stated that for the first time before the SIT.

211.35 To prove the omissions and contradictions in the testimony of this witness as to his statement recorded by the SIT, the defence has cross examined PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), who, in his cross-examination has admitted that he has recorded the statement of this witness on 4.6.2008. He has admitted that this witness had stated before him that, *"... therefore, upon my glancing behind Gangotri Society, Bhavanisingh Chhara was standing with a sword in his hand and was shouting that not a single person should remain alive, kill everyone, burn them...."* (paragraph 50) *"... and from Uday Gas Agency..... kerosene, and petrol were being brought and with that the Noorani Masjid was being set ablaze, which I had seen..."* (paragraph 74).

211.36 SUBMISSIONS: The learned counsel for the appellants submitted that no statement of this witness has been recorded by the police, and that for the first time, his statement was recorded on 4.6.2008 by SIT. It was submitted that this witness has made allegations against the accused in two different incidents. Insofar as accused No.44 Bipin is concerned, the witness says that while he was going to Mira Motors and while coming back, he saw Bipin near his garage

with other people and according to him he had heard Bipin telling the mob to enter the Muslim chawls from Uday Gas Agency and start assaulting them and that not a single person should be left alive. It was submitted that upon accused No.44 saying so, the witness alleges that the people of the mob started entering the chawls. It was argued that this allegation is not believable as it was not possible for the witness in the fact situation to hear Bipin Panchal telling something to the mob.

211.37 It was submitted that the witness had narrated this incident to have taken place in the morning hours, at which time there is no allegation made that the people in the mob had already started entering the chawls.

211.38 It was submitted that the claim which the witness has made that when the people in the mob had entered their area at about 11:00 to 11:30, he was standing with a mob of the Muslim community, which is not possible to believe as in the fact situation he would not have just preferred to stand there with other people of the Muslim community. It was submitted that even if his first statement recorded by the SIT, which he gave after more than six years, is believed and taken at its face value and if accused No.44 is found nearby his garage, his presence there may be natural, particularly, in the light of the evidence which has come on record that his auto centre was set on fire. It was submitted that this witness is even otherwise not believable as he gives an account of some tanker being driven after it was set on fire, from Bipin Auto Centre to the Noorani Masjid which was initially driven by a driver and then a brick was put on the accelerator. It was

submitted that this is an imaginary story and is not even stated by the other witnesses. It was submitted that this witness claims to be an eye witness of two major and serious incidents of setting the body of Masak on fire after he allegedly died in police firing and after his body was placed on a platform of a building by the witness and others, as well as the incident of Moin. It was submitted that this witness has also tried to unjustifiably support the story of gas cylinders being transported in an ambulance from Uday Gas Agency, as deposed by PW-223, the watchman of Uday Gas Agency.

211.39 It was submitted that even in his statement before the SIT, as reflected in paragraph 74 of his cross examination, the witness has claimed that he had seen the Noorani Masjid being set on fire with the help of kerosene and petrol brought from Uday Gas Agency as proved by the Investigating Officer of the SIT in paragraph 629 of his deposition and ultimately, the witness has given a contrary version before the court in paragraph 73, disowning such statement.

211.40 It was submitted that in paragraph 21 of his deposition, the witness has narrated the facts that after 6:30 to 6:45 p.m. he went to the corner of Gangotri Society and found his wife, mother, sister in law (Bhabhi) and niece standing at the corner of Gangotri and had a peaceful conversation with them and brought them back to his area, which is not possible to believe. It was submitted that this witness is not at all believable when he has admitted in paragraph 78 that he has not disclosed anything anywhere prior to his SIT statement. It was submitted that in view of the averments made in paragraph 18 of his deposition, the same

completely rules out the possibility of at least accused No.44 being involved in the incident as narrated in paragraphs 16 and 17 of his deposition.

211.41 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that nothing adverse has been elicited in the cross-examination of this witness qua the statement recorded by the SIT. Therefore, this witness could not be discredited and his version could not be impeached and therefore, this witness is a believable and credible witness.

211.42 ANALYSIS: From the evidence of this witness it emerges that no statement of this witness was recorded by the police at the relevant time when the incident had taken place, and his statement was recorded for the first time 4.6.2008, after a period of more than six years after the incident.

211.43 In his examination-in-chief, the witness refers to violent mobs on the road and firing by the police wherein several persons including one Masak were injured. According to this witness, Masak died in the firing and was taken and put on a platform inside the chawls. As per the version given by this witness, he had seen Bipin near his garage and he was exhorting the mob as referred to hereinabove to beat and hack the Muslims. He also refers to a tanker being set on fire towards the Noorani Masjid which got stuck in a pit on the road. The mobs then entered into their areas. He also speaks about gas cylinders being brought from Uday Gas Agency in an ambulance and being burst in the Noorani Masjid. He says that the people in the locality were frightened and he too went on the terrace of a house in Kumbhaji-ni-Chali and hid there. From

the terrace he saw, Masak being set ablaze after sprinkling kerosene, etc. on him. He also speaks about Moin, a handicapped boy, who used to reside opposite the fair price shop being dragged out of his house and set ablaze. He also saw the mob taking kerosene from the fair price shop and using it to torch their locality. The witness further says that the house in which he was hiding was set on fire on the lower side and with the fire blazing below; they had remained hiding on the terrace till 6:30 to 6:45. Then he came down and went towards Gangotri to ascertain the whereabouts of his family and found his family standing at the corner of Gangotri Society and they told him that it was good that they met him, because women, children and men were being killed there. Thereafter, he took his family and returned to his area. While they were returning from Gangotri, he saw Bhavanisingh with a sword in his hand saying "*Not a single bandiya should remain alive, kill them!*" He then went with his family to a three storeyed house in Hussainnagar Lane No.3 and stayed there till the police came late at night.

211.44 Insofar as the incident of Masak is concerned, from the evidence of all the other witnesses who have referred to the incident of police firing or even private firing, no one has mentioned any Masak having died in the incident. Insofar as the witness having seen Bipin in the mob and exhorting them is concerned, it is difficult to believe that with all the commotion going on he could hear what Bipin was saying. As regards the incident of a tanker being sent towards the Noorani Masjid, the only tanker near the Noorani Masjid has been reversed and rammed into it. Therefore the story about such tanker does not inspire confidence. The witness has also

referred to an incident relating to Moin, a handicapped boy which is also contradictory to what is stated by his mother PW 261. The fact stated by the witness regarding his having gone to Gangotri and found his family members standing at the corner does not appear to be plausible, because when the onslaught was at its peak, it would hardly have been possible for any Muslim to stand anywhere near Gangotri, as there was a situation of turmoil and people were fleeing for their lives. Overall, the version given by the witness does not inspire confidence.

211.45 The statement of this witness has been recorded after a considerable delay of more than six years and no plausible reason has been advanced as to why his statement was not recorded at the relevant time. Having regard to the delay in recording of his statement and considering the evidence of this witness, he does not come across as a credible and truthful witness. No reliance can therefore, be placed upon his testimony to prove the charge against Bipin Panchal (A-44), the sole living accused named by him.

212. **PW-235 Nadeemuddin Sharifuddin Saiyed**, aged 46 years, has been examined at Exhibit-1654. The witness has stated that he can understand Gujarati to a certain extent. However, he is more conversant with Hindi and therefore, would depose in Hindi. The witness has stated that his native place is *Achalpur, Bhusaval, Maharashtra*.

212.1 The witness has deposed that he has studied up till 8th standard in Hindi medium at Maharashtra. In the year 2002, he was residing at *Imambibi-ni-Chali, Naroda Patiya* over a

period of twenty years prior to the incident.

212.2 The incident took place on 28th date in the year 2002. He does not remember the month. At the time of the incident, he was with his wife Reshmabanu and his five children, viz., Mohsin, Venusbanu, Sadiyabanu, Nazamuddin and Mustaquim, all of them were residing together. At the relevant time, he was engaged in the business of furniture making.

212.3 On the date of the incident, there was a call for bandh. On that day, since on account of the bandh, he had kept his business closed, he was at home. He was sleeping at home.

212.4 On that day, in the morning at around 9:30, when his wife woke him up and told him that a huge mob was standing outside towards the side of Krushnanagar, at that time, he did not go outside. His wife told him to take them to some safe place. Thereafter, he took his wife and children and left them inside the S.R.P. Quarters. On that day, his younger son Mustaquim was at his mother's place. His mother's house was behind Noorani Masjid in *Juni Masjid-ni-Chali*. He left his four children and wife at the S.R.P. Quarters.

212.5 After leaving these people at the S.R.P. Quarters, he came on the road towards the Noorani Masjid. At that time, he saw a huge mob of public on the side of Krushnanagar. In the mob, he had seen four persons whom he knew. They were Bipinbhai Panchal (A-44), Rameshbhai Chhara (A-47), Guddu Chhara and Laliya Chhara. The mob was pelting stones and

committing loot. He saw that the mob had started going towards his house at *Imambibi-ni-Chali*. He was standing on the opposite side and had seen that the mob had damaged his house and committed loot. Upon seeing this, he went to his mother's house at *Juni Masjid-ni-Chali*, where he met his son *Mustaquim*. Thereafter, he remained hiding there. It was a month of 28 days. He hid there till the 1st. On the 1st that is, on Friday, in the afternoon at 1 o'clock, they were taken in a police vehicle from *Masjid-ni-Chali* to Shah Alam camp. At Shah Alam camp, after fifteen days, he met his wife and four children whom he had left at the S.R.P. Quarters. When he was at the Shah Alam camp, he had sent a friend to *Shahibaug* camp and called his wife and children to Shah Alam camp and in this manner, he had met them after fifteen days.

212.6 Thereafter, all of them stayed at the camp for about six months. After two months, he had gone for drawing a panchnama of his house when he found that everything in his house was burnt and no articles remained. The panchnama of his house was drawn. The police had recorded his statement at the camp. Thereafter, he had gone to give his statement at the camp.

212.7 The witness has stated that he can identify *Ramesh Chhara*, *Laliya Chhara*, *Bipin* and *Guddu Chhara*. The witness has stated that as per his knowledge, *Guddu Chhara* and *Laliya Chhara* are dead and he can identify the remaining accused. The witness has correctly identified accused No.47 – *Ramesh Chhara*. The witness, however, has wrongly identified accused No.17 as accused No.44 *Bipin Panchal*.

212.8 CROSS EXAMINATION: In his cross-examination, the witness has admitted that from the S.R.P. Quarters he had gone and stood at the corner of the ice factory. The witness has admitted that from the time he left his home till he reached the ice factory he has not seen any incident. The witness has admitted that from there he had gone to his mother at Masjid-ni-chali, but has clarified that he had gone to his mother-in-law's house. He had gone there because his mother was at his mother-in-law's house. In his cross-examination the witness has stated that thereafter he had stayed at his in-law's house for the entire night and has admitted that during this period he did not have any news about his wife and four children.

212.9 The witness has stated that he is not aware as to whether Kausarbanu was his wife's friend. The witness has admitted that he has neither seen nor heard of the incident of Kausarbanu nor had his wife Reshambanu (PW-147) informed him about such incident.

212.10 In his cross-examination it has further come out that he had seen the Krishnanagar mob near Bipinbhai's showroom. He had seen the mob near the ice factory. The mob was comprised of around ten thousand people. The witness has admitted that the accused whom he has identified before the court were in this mob of ten thousand people. The witness has stated that there were old people and young people in the mob. He has not seen as to how many people had mustaches and beards. He has not seen as to how many in mob were bald. He has stated that there were fat people and thin people, but he does not know their numbers. He has admitted that it

was true that there might be five to fifty fat people, some of whom were thin also. This court has referred to this part of the cross-examination to merely to bring on record nature of cross-examination carried out by the defence.

212.11 In his cross-examination it has further come out that he had seen the Krishnanagar mob between 11:30 to 12:00 in the morning and thereafter, he had seen in the mob the persons whom he had named in the court. The witness has admitted that thereafter, for the entire day he had not seen the accused. He had admitted that after the day of the incident, he never had any occasion to see the persons named by him before the court and no test identification parade of such accused had been carried out.

212.12 The contents of paragraph 5 of the examination-in-chief of the witness from third line to ninth line at paragraph 3 are read over to the witness to the effect that he has not stated such facts in either of his two statements. It appears that in his statement dated 13.5.2002 the witness has stated that he had left his wife and children at the S.R.P. Group, and has stated that he and one child had gone towards Masjid-ni-Chali nearby. Under the circumstances, it cannot be said that there is any material omission or contradiction in what is stated by the witness in paragraph 5 of his examination-in-chief inasmuch as more or less the same facts are stated by him, only the manner of expression is different.

212.13 The witness has admitted that in his statement dated 13.5.2002 he had not given Bipinbhai's surname and had not stated that Bipinbhai's surname was 'Panchal'. The

witness has admitted that he is not aware as to how many Bipin Gujaratis are there in the Naroda area and how many Bipin Panchals are there in that area. The last three lines of paragraph 6 of his examination-in-chief are put to the witness wherein he had stated that he had stood on the opposite side and seen that the mob was damaging and looting his house, to the effect that he has not stated these facts in either of his statements recorded by the investigating agency, which the witness has denied.

212.14 The witness has denied that he had done some furniture work for Ramesh Chara. The witness has admitted that Hasibkhan Acchhankhan Pathan is his brother in law. Hasibkhan has come to his house in the morning of the incident. The witness has stated that he does not know as to how many Ramesh Charas are there in Charanagar, but has stated that Ramesh Chara, whom he has identified, resides in a house which is situated in a lane in Mahajaniavas. The witness has denied that when he had gone to Ramesh Chara for furniture work, he had not given him labour charges and hence he has falsely implicated him. The witness has voluntarily stated that Ramesh Chara is a good person and in fact, he had given him more money for his labour work. The witness has denied that he had gone with Hasibkhan to Ramesh Chara's R.K. Fry Centre for a meal and after the meal, Hasibkhan had told Ramesh that he was a '*Dada*' and that he would not pay for the meal; and he and Hasibkhan had a dispute with Ramesh Chara on account of which both of them had threatened him to falsely implicate him in a case and had acted accordingly.

212.15 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer who had recorded such statement.

212.16 PW-302 D. A. Rathod, the assignee officer has, in his cross-examination, admitted that he has recorded the statement of this witness on 13.5.2002. The assignee officer has admitted that no complaint of the witness had been given to him. He has further stated that he has not taken the signature of the witness on the statement recorded by him.

212.17 Certain contents of paragraph 5 of the examination-in-chief are read over to the assignee officer who has denied that all such facts have not been stated by him in the statement recorded by him. The assignee officer has stated that before him, the witness has stated that he had left his wife and children at the S.R.P. group and he and one of his children had gone to Masjid-ni-Chali. To that extent, the facts have been stated before him and the remaining facts have not been stated before him.

212.18 The contents of the last three lines of paragraph 6 of the examination-in-chief are read over to the assignee officer who has admitted that the witness has not stated such facts in the statement recorded by him.

212.19 The assignee officer has admitted that this witness had stated before him that he stays at Shah Alam. Till date, he has not gone to see his house, however, their neighbours had gone from whom he had come to know that his house was

damaged, set on fire and was looted. It appears that the assignee officer has stated that certain words written down in the statement are not legible to him today. He has stated that he cannot decipher the word, but it should be "returned". The assignee officer has voluntarily stated that there was an excess of refugees in the Shah Alam relief camp during May 2002 and the statements were recorded in extreme heat and at that time, they had worked under great difficulties.

212.20 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statement of this witness on 22.8.2008. He has admitted that this witness in the statement recorded by him has stated that he has read over the statement dated 13.5.2008 recorded by the Crime Branch police in the context of the communal riots that had taken place in the year 2002 and that such statement is as stated by him and is proper and true. Certain extracts of paragraphs 5 and 6 of the examination-in-chief of the witness are read over to the Investigating Officer who has admitted that these facts have not been stated by the witness in the statement recorded by him.

212.21 SUBMISSIONS: Mr. Y. S. Lakhani, learned counsel for the appellants has submitted that this witness has named two accused, viz., Bipin (A-44) and Ramesh Chhara (A-47). It was submitted that two statements of this witness have been recorded, one by the police on 13.5.2002 and the other by the SIT on 22.8.2008. Insofar as the accused Bipin Panchal is concerned, this witness, in his police statement, has merely referred to him as Bipinbhai and in his cross-examination, he

has admitted that there may be other people by the name Bipinbhai, and therefore, for the purpose of establishing his identity, a test identification parade ought to have been held. However, no such test identification parade has been carried out. It was submitted that it is only subsequently before the SIT, that the witness has added his surname Panchal and it is apparent that accused No.44 was then targeted at somebody's instance as even before the court, he could not identify him.

212.22 As regards accused Ramesh Chhara, it was submitted that it is too common a name that even this name has been stated in both the statements, in the absence of a test identification parade, it cannot be said that he is the same person, namely, accused No.47, beyond reasonable doubt.

212.23 The attention of the court was invited to the contents of paragraph 52 of the testimony of this witness where, in his cross-examination, he has stated that Ramesh Chhara is a good person. It was submitted that even if the testimony of this witness is taken at face value, the only allegation made against accused No.47 in paragraph 6 is that when he was coming from the S.R.P. Quarters on the road of the Noorani Masjid at the side of Krushnanagar, he saw a big mob of public and he said that he had seen four persons whom he knew. There is no further allegation or overt act against Ramesh Chhara individually, except to generally say that the crowd or the mob was pelting stones, etc. It was submitted that no weapon is attributed in his hand and even in response to a suggestion made by the defence in paragraph 34, he has categorically stated that they were standing. It was submitted that the accused No.47 Ramesh Chhara has been convicted

with the aid of section 120B of the Indian Penal Code solely based upon the testimony of this witness. The attention of the court was invited to the findings recorded by the trial court in connection with the accused No.47, to point out that there is no proper analysis or discussion for the purpose of convicting him for the alleged offence with the aid of section 120B, IPC.

212.24 Mr. B. B. Naik, learned counsel for the appellants submitted that this witness claims to have seen the Krushnanagar mob at 11:30 to 12:00. It was argued that since the mobs had merged at 9:30 to 10:00 in the morning, the witness could not have seen the mob at 11:30 to 12:00. It was pointed out that the witness had left his family at the S.R.P. was before 10 o'clock, hence, he must have reached the ice factory in ten minutes. If he stayed at the ice factory for half an hour, it cannot be beyond 10:45. It was submitted that reading his testimony as a whole, it clearly transpires that the witness has not seen any mob or the named accused in the mob. According to the learned counsel, considering the evidence of his wife also, it becomes very clear that whatever the witness is saying is not the truth.

212.25 Mr. Prashant Desai, learned Special Public Prosecutor submitted that this witness has named both the accused in his statement dated 13.5.2002 and has also correctly identified accused No.47 Ramesh Chhara in the dock. It was submitted that from the testimony of this witness, it emerges that he is a natural witness and his presence at the scene of offence is established. It was contended that nothing adverse has been elicited in the cross-examination of this witness and from his evidence, it is evident that the witness

had come back to the Noorani Masjid and spotted accused No.44 and 47 and then, he went back to his mother's house at *Juni Masjid-ni-Chali*. It was submitted that this witness is a credible and believable witness and nothing has been elicited by the defence so as to dent the credibility of the witness.

212.26 ANALYSIS: From the testimony of this witness it emerges that on the day of the incident, he had left his wife and children at the S.R.P. Quarters in the morning and had then gone on the road where he had seen the accused in the mob. The witness has been cross-examined at length. However, no material omissions or contradictions have been brought out as to his previous statements dated 13.5.2002 and 22.8.2008. The only material omission which has been brought out is that in the statement recorded by the police, he had not stated that Bipinbhai's surname was Panchal. Before the court the witness has identified Ramesh Chara correctly, but has failed to identify Bipinbhai Panchal correctly, and instead of him he has identified accused No.17. Therefore, there is no proper identification of accused No.44 Bipinbhai Panchal. However, insofar as accused No.47 Ramesh Chara is concerned, the witness is consistent right from the beginning and his acquaintance with the accused is also brought out in his cross-examination as referred to hereinabove. While certain minor discrepancies have been pointed out in the testimony of this witness, such discrepancies are not at all material, and, therefore, would not dent the credibility of the witness who has been consistent insofar as the core of his testimony is concerned. Therefore, the complicity of Ramesh Chara (A-47) in the incident to the extent referred to by this witness is proved through the testimony of this witness. On behalf of the

appellants, it has been submitted that no further allegation or overt act has been attributed to Ramesh Chara individually, except for a general statement that the mob was pelting stones, etc. Insofar as such submission is concerned the same would be considered at the time of considering the charge against each individual accused.

213. **PW-236 Siddiqbhai Allabax Mansuri**, aged 38 years, has been examined at Exhibit-1662. The witness has deposed that he is born in Gujarat and he knows Gujarati. His native place is Rajasthan. He has studied up to the 6th standard in Gujarati medium.

213.1 The witness has deposed that the incident took place on 28.2.2002. At the time of the incident, he used to reside with his wife and his four children. His house was a two storeyed house. He was residing with his family in the ground floor, whereas his younger brother was residing with his mother on the first floor. In the year 2002, he was engaged in the business of mattresses and quilts.

213.2 On the day of the incident, there was a call for bandh. The call for bandh was given in the context of the train incident that had taken place at Godhra.

213.3 On the day of the incident, he was at home because of the call for bandh and hence, he had also kept his shop closed.

213.4 While he was at home, he came to know that a lot of public had gathered on the road outside. At this time, it was

around 8:30 to 9:00 in the morning. Upon coming to know of this, he came out of his house and went near Natraj Hotel. There, there was a mob of around five to ten thousand people. He was present there. In the meanwhile, Mayaben came in a Maruti fronti car. Her P.A./Assistant was present with her in the car. Both of them alighted from the car at the spot where he was standing.

213.5 Upon seeing them, the people standing there in the mob started chanting, "*Jay Shri Ram*". Mayaben gave a provocative speech to the people there and told them that she had gone to Godhra and had seen the dead bodies of the Kar Sevaks and that they, *Rambhaktas* should kill and cut the Miyas. Just like the Babri Masjid had been demolished, they should also demolish the masjid here. She and Narendra Modi were with them and they would not have to face any problems. After saying this, she went away.

213.6 After she went, the public was aroused and they towards their (the Muslim's) area as well as towards Noorani Masjid. The police was with them (the mob). Therefore, their population started going backwards towards Noorani Masjid. The people in the mob started coming towards them. Upon seeing this, he had fled. At this time, the mob which had come near Noorani Masjid, started pelting stones on the Muslims and the police started lobbying tear gas shells at them and also resorted to firing.

213.7 After this went on for around ten to fifteen minutes, the Hindu mob went back towards Natraj. At this time, he went and stood on an incomplete building and was watching

everything.

213.8 At this time, at around 11 o'clock, Mayaben came in a white coloured Maruti fronti car near the S.T. Workshop gate which was followed by a jeep. Both the vehicles came from the direction of Krushnanagar and halted near the S.T. Workshop and were parked facing the S.T. Workshop gate. Mayaben alighted from the Maruti car. After getting down, she gestured towards the mob standing near Natraj. She gestured to the mob and called them to the S.T. Workshop gate. At this time, around a hundred leaders came there, amongst whom, Mayaben's P.A. was also there. Mayaben talked with those people and discussed something. Thereafter, she gestured to her P.A. and gave him instructions.

213.9 At this time, Mayaben's P.A. took out weapons from the tracks jeep. Amongst the weapons, there were swords, spears, tridents and something which looked like a revolver from far. Under Mayaben's instructions, Mayaben's P.A. gave all these to the leaders of the mob. Thereafter, Mayaben's vehicle and the jeep started going towards Krushnanagar and while going, the vehicles turned in the lane of Uday Gas Agency. After Mayaben went away, the people in the mob in which her P.A. was also there, they attacked Noorani Masjid. The mob threw gas cylinders inside the Noorani Masjid and damaged it and also poured the whole kerosene tanker inside the Noorani Masjid.

213.10 At that time, the people in the mob were sitting the shops near the Noorani Masjid on fire. Thereafter, the entire mob entered the road going to Hussainnagar, Jawannagar. The

mob set the houses in Jawannagar and Hussainnagar on fire and burnt the women, men and children alive, which fact he had heard. Other than that, the facts stated by him were actually witnessed by him i.e. the fact till the mobs having entered Jawannagar and Hussainnagar had been seen by him.

213.11 Thereafter, out of fear, he went to his house in *Khemchand-ni Chali* behind Noorani Masjid. From there, he took his family and went to the nearby Masjid-ni Chali. The Muslims had gathered near Masjid-ni Chali.

213.12 On the next day, that is, on 1st of March, a police vehicle came to pick them up at around 12 o'clock in the afternoon. In this police vehicle which had come, they had gone to Shah Alam camp, where they stayed for around four months.

213.13 Thereafter, on 12th March, 2002, he had gone to Naroda Police Station to lodge the complaint in connection with the facts seen by him. The policeman there refused to record his complaint and told him that he does not know Mayaben. He also told him to get the panchnama of his house drawn and not to enter into all these complications, otherwise he would be in difficulty. Thereafter, on 9th May, 2002, he had got the panchnama of his house drawn. They had not recorded his complaint.

213.14 In the incident, he had suffered a loss of Rs.1,25,000/- in respect of different household articles and furniture, etc. from his house.

213.15 In June, 2002, they had gone back to reside at his house at Naroda Patiya. Around forty-five family members had returned to reside in this area together. In the beginning, they had no business or means of employment and hence, they used to obtain grain kits from NGOs and used to discharge service of distributing this to other families. At this time, Sahejad Chhara has told him that, his name had come up in the 2002 riots case and that he was ready to give money and that he should take money and make an affidavit for him. The witness had refused to do so, whereupon Sahejad had told him that this time in the riots, he had escaped; however, next time during the riots, he would kill him.

213.16 The witness has further deposed that the SIT had recorded his statement.

213.17 The witness has deposed that he does not know the name of Mayaben's P.A., but he knows him by his face. The witness has further deposed that he knows the leaders of the mob by their face, but does not know their names. Today also, he can identify them. The witness has thereafter identified Mayaben (A-37) and Mayaben's P.A. (A-62) correctly. The witness has also identified Accused No.24, 20, 17, 2 and 44 correctly. The witness has stated that Sahejad who had threatened him after the incident, is not present before the court.

213.18 Thus, the witness has identified Raju Chomal (A-24), Kishan Korani (A-20), Nandlal alias J.K. Vishnu (A-17), Murli Naran Sindhi (A-2) and Bipin Panchal (A-44) by their faces. Sahejad Chhara (A-26) had filed exemption application and is,

therefore, deemed to have been identified.

213.19 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that the incident of Sahejad threatening him took place in June, 2002. He has denied that after Sahejad incident, he was roaming all over Ahmedabad city. He has stated that he was roaming around Ahmedabad city after 2003. The witness has admitted that he had an occasion of passing through many police chowkys during this period but has voluntarily stated that they did not have faith in the police. The witness has admitted that after 2003, he has not gone to the police and given any complaint with regard to the Sahejad incident. He has admitted that NGOs were coming to them but does not know the name of such NGO.

213.20 He has stated that he had lodged his complaint at the camp. He has voluntarily stated that he had given the name of Maya Kodnani. The witness has admitted that that he had signed the complaint and that the complaint was read over to him. He has stated that he came to know tht his complaint was not taken on record when other people in the Patiya received police protection and he was not given any police protection. At that time, he thought that it appears that his complaint is not taken or that it has not been taken on record. The witness has admitted that prior to 2008, he had not informed any authority that he was an eyewitness of the incident and had also not given any complaint in this regard. The witness has voluntarily stated that since he did not have any faith in the police, he had not lodged any complaint. He has stated that he had faith in the SIT. The witness has admitted that that he did not have faith in the police from

2002 to 2008. He has admitted that did not feel like going to the court and lodging a private complaint. The witness has stated that after recording his statement, the SIT had read it over to him. The witness has denied that he had found the statement which was read over to him to be proper. He had voluntarily stated that he had given several instructions, namely, that he had given the name of Mayaben's P.A., whereas they had written down Mayaben's husband, which he had pointed out to them. He had also stated that he had heard about the Ranjit's incident and had not signed it and told them to correct it. Moreover, he had given the date of his panchnama as 9.5.2002, but they had written down 12, which also he had informed them. He has stated that he does not know whether the SIT had made the corrections, as suggested by him.

213.21 The witness has denied that he has not sustained any damage and that he is not an eyewitness and that no panchnama of his house has been carried out. He has admitted that till his statement was recorded by the SIT, he did not get any police protection. He has denied that he is a leader in his area as well as in his community.

213.22 The witness has denied the suggestion that he has not stated any fact with regard to Mayaben's P.A. before the SIT. The witness has admitted that what is stated by him in the last four lines of paragraph 6 of his examination-in-chief wherein he has stated that in the meanwhile Mayaben came there in a Maruti fronti car and with her in the car her P.A./Assistant was present; both of them got down, where he was standing from the car which he had seen as well as what

has been told by him in the first two lines of paragraph 7 of his examination-in-chief, wherein he has stated that upon seeing her, the people in the mob standing there had raised slogans of "Jai Shri Ram", have not been stated by him in the statement recorded by the SIT. The witness has denied the suggestion that the facts stated by him in paragraph 10 of his examination-in-chief wherein he has stated that a Fronti car and Trax jeep came from the direction of Krushnanagar and were standing facing the S.T. Workshop gate, have not been stated by him before the SIT. That last four lines of paragraph 10 of his examination-in-chief are read over to the witness, wherein the witness has stated that at this time, about one hundred leaders gestured and gave instructions, have not been stated by him in the statement recorded by the SIT, which the witness has denied.

213.23 The contents of the first five line of paragraph 11 of his examination-in-chief are read over to him wherein the witness has stated that at that time, Mayaben's .. had given to the leaders. The witness has denied that he has not stated such facts in the statement recorded by the SIT. The witness has further denied the suggestion that what is stated by him in the sixth, seventh lines of paragraph 11 of his examination-in-chief, namely, that the car turned in the lane of Uday Gas Service, have not been stated by him in the statement recorded by the SIT, which the witness has denied. The last three lines of paragraph 11 of his examination-in-chief are read over to the witness wherein he has stated that the people in the mob had thrown gas cylinders inside the Noorani Masjid and damaged it and had thrust the entire tanker inside the Noorani Masjid. The witness has denied that he has not stated

such facts in the statement recorded by the SIT.

213.24 The contents of first two lines of paragraph 12 of the examination-in-chief are read over to the witness, wherein he has stated that thereafter the shops situated near the Noorani Masjid had been set on fire by the people in the mob. The witness has denied that he has not stated such facts in the statement recorded by the SIT. The witness has denied that he has not stated before the SIT that Mayaben's P.A. was in the Noorani Masjid mob.

213.25 The contents of paragraph 13 of the examination-in-chief are read over to him and he has denied that he has not stated such facts in the statement recorded by the SIT.

213.26 The third line to fifth line of paragraph 15 of the examination-in-chief of the witness are read over to him, wherein it is stated that, "*there the police .. you will be in difficulty*". The witness has denied that such facts have not been stated by him in the statement recorded by the SIT.

213.27 The first three lines of paragraph 19 of the examination-in-chief of the witness are read over to him, wherein it is stated that he does not know the name of Mayaben's P.A but knows him by his face. He knows the leaders of the mob but does not know their names. The witness has denied that he has not stated such facts in the statement recorded by the SIT. The witness has admitted that the SIT people have not carried out any test identification parade of the leaders of the mob or any accused through him. The witness has admitted that he has no relations with

Mayaben's P.A. and that he had no occasion for any work with him. He has no relations of visiting his house or talking with him. The witness has stated that he had met Mayaben's P.A. as Mayaben being the M.L.A. of the area, he had occasion to go and get a certificate from her. The certificate was being given at Mayaben's office. The witness has stated that he does not know whether Mayaben's P.A. or Assistant is serving with Mayaben but he is always there with Mayaben at any public meeting and hence they had thought that he is Mayaben's P.A. He has admitted that Mayaben's office is next to his house. He has admitted that he knows that Mayaben is a doctor by profession. He has denied that he is referring to her hospital as her office and has voluntarily stated that her office is different. He has stated that he knows where her office is and that it is next to Anand Surgical. He has stated that he had gone to Mayaben's office for obtaining certificates on two occasions. The witness has denied the suggestion that her people used to prepare the certificate after which Mayaben used to sign them. He has stated that there were readymade certificates signed by Mayaben and that her people also used to give them blank certificates wherein her people used to fill in the details. He has admitted that they were required to fill in the details in the blank certificates signed by Mayaben.

213.28 The witness has admitted that since Mayaben is the M.L.A. of the area he had seen her and knows her and that he had seen her in many public meetings and had also seen her photographs in the paper and advertisement.

213.29 The witness has admitted that he had no occasion of speaking to any of the leaders whom he has identified and

had no occasion to visit their houses. That he does not know the names and addresses of such leaders. The witness has stated that on the day of the incident, the accused had tied saffron bands on their heads. The witness has admitted that he had made an application dated 1.5.2008 to the SIT. He has denied that prior to making the application to the SIT he had not made any application declaring the above facts. The application Mark 644/38 is read over to the witness. He has stated that he had got it written down by somebody else. The witness has stated that he knows Nazir Master but does not remember as to by whom he had got the application written and does not remember as to whether it was written by Nazir Master. The witness has identified his signature on the application, which is given the Exhibit No.1663.

213.30 The witness has denied that he had lodged any complaint with the Crime Branch. He has voluntarily stated that he does not know whether the police who had come to the Shah Alam camp were from the Crime Branch but has stated that he had lodged the complaint from the Shah Alam camp.

213.31 The witness has denied that at the Shah Alam camp, the complaint was not written down as dictated by him. He has admitted that in his application Exhibit-1663, he has stated that his FIR was not registered. He has stated that he has got it written down because the FIR given by him was not brought on the record. The witness has stated that it has not happened that the FIR given by him was read over to him or that he had got an opportunity to see it.

213.32 The witness has stated that he came to know that

the complaint has not been recorded as stated by him for the first time when other people were granted police protection under orders of the Supreme Court and he was not granted such police protection. He had stated that he had never gone to the Crime Branch to inquire about the investigation into his complaint. The witness has stated that he had inquired from the people who were sitting at the Shah Alam camp and they had informed him that his complaint was written down and hence, he did not worry about it.

213.33 The witness has stated that his complaint was not in a printed form and that his complaint was recorded in his presence. He has admitted that the police had written down the complaint and had taken his signature and thereafter, his complaint was read over to him. The witness has denied that he has not lodged any such complaint with the Crime Branch and that he is stating false facts.

213.34 The witness has admitted that from 2002 to 2008, he had not felt like going and lodging a complaint anywhere. He has voluntarily stated that upon the SIT being constituted in 2008, he had got the courage, otherwise everybody used to say that everything is over and there was no question of lodging any complaint anywhere. He has admitted that in the meanwhile, he had not given any complaint before any higher officer. He has admitted that he had not taken the opinion of any legal expert as regards his complaint not being taken for the reason that he had lost his courage and upon the SIT coming, he had got the courage to do so.

213.35 The witness is cross-examined with regard to the

topography of the area.

213.36 In the cross-examination of the witness, it has further come out that Mayaben was not giving the speech on the mike. The witness has admitted that she was surrounded by the mob. He has stated that he does not know whether there was any Muslim, other than him, in this mob. The witness has admitted that some people in the mob had tied saffron headbands. He has admitted that Mayaben's P.A. has tied a saffron headband. Mayaben had not tied a saffron band on her head. He has denied that Mayaben was wearing a Punjabi dress. He has stated that he knows the colour of the saree which she was wearing and that it was a white saree.

213.37 The witness has admitted that she had given the speech while standing near the car and has voluntarily stated that since the car came, the mob made way for her and thereafter, all the people in the mob came near the car. He has admitted that Mayaben had stayed there for two to three minutes to give the speech. He has denied that Mayaben had got down from the driving seat of the car and had voluntarily stated that she had got down from the back side. She had stayed there for two to three minutes and had thereafter, immediately got into the car. The witness says that he does not know whether the car had returned to Krushnanagar. He has stated that he was near the car. The witness has admitted that till the car went from there, there were no riots near Natraj or the Noorani Masjid. The time when the car left, it must be around 9 o'clock in the morning.

213.38 The witness has denied that after the car went, the

mobs entered Naroda Patiya and has voluntarily stated that the mobs started going towards the Noorani Masjid. The witness has admitted that after coming in this manner, the mobs started pelting stones. He has denied that thereafter upon the police releasing teargas, the mob had gone away. The witness has voluntarily stated that the police was firing and lobbing teargas shells towards Muslims and the Muslims started going inside the chawl, due to which, the mob went behind them.

213.39 The witness has admitted that in his statement dated 26.5.2008 recorded by the SIT he had stated that *“After saying this much, if had left. Thereafter, the mobs had entered towards Naroda Patiya and pelted stones and the police had released teargas due to which the public had gone away”*.

213.40 The witness has stated that after hearing Mayaben’s lecture, he has immediately left and gone to the Noorani Masjid. He had remained outside the Noorani Masjid and at that time, there were no Muslim mobs. He has stated that when he came to the Noorani Masjid in this manner, he had stayed on the building nearby for about one to two hours. He has admitted that after returning, he had immediately gone to the building next to the Noorani Masjid. He has denied that the building belongs to Hasibkhan Achchhankhan Pathan.

213.41 The witness has stated that he knows Hasibkhan Achchhankhan Pathan. He has denied that the building was in a dilapidated condition. He has stated that the building could be said to be of incomplete construction, wherein there was a terrace on the first floor on pillars and there were no walls on

all four sides. The witness has stated that while he stayed in this incomplete building for about two hours, he had not seen any Muslim mobs. He has admitted that when he stood there, it must have been around 11 o'clock in the morning.

213.42 The witness has denied that after the teargas was released, the public had gone and in the meanwhile, he came to know that one Ranjit Rickshawwala had been murdered in Jawannagar. The witness has admitted that in his statement, he had stated that the police had released teargas, therefore the public had gone. In the meanwhile, Ranjit Rickshawwala had been murdered in the Jawannagar pit and at this time, he had hidden in a broken down building next to the Noorani Masjid and it must have been around 11 o'clock. The witness has stated that all these events had happened after Mayaben's second visit.

213.43 It may be noted that the witness has been confronted with his previous statement recorded by the SIT not with a view to contradict any assertion made by him in his examination-in-chief, but a suggestion is put to the witness in his cross-examination and he is sought to be contradicted in respect of the answer given by him in such cross-examination. Therefore, this part of the deposition is not admissible in evidence. The attention of the witness is drawn to the words, "had fired" in paragraph 8 of his examination-in-chief and he has denied that he has not stated before the SIT that the police had fired on them.

213.44 The witness is confronted with his previous statement recorded by the SIT to the effect that the words

stated by him in paragraph 10 of his examination-in-chief wherein he had mentioned “Maruti Franti Car” were not stated by him before the SIT. The witness has denied that he had only mentioned white coloured car and had not mentioned the words, “Maruti Franti Car”.

213.45 The witness has admitted that when the Maruti Franti Car, namely, the white car came, at that time, he was on the first floor of the building next to the Noorani Masjid. He has admitted that at that time, other people were also there. The witness has admitted that from this place, he had seen the police firing in the front yard of the Noorani Masjid. The witness has admitted that when he went to Natraj and returned near the Noorani Masjid, the police had not stopped him anywhere.

213.46 The witness has stated that when he saw the Fronti car near Natraj he had also seen there. The witness has stated that the PI’s vehicle was there and other police staff was with him. The witness has admitted that he has declared this fact for the first time before the court and has voluntarily stated that the reason is because he has been asked about such fact today and prior thereto nobody has asked him about these facts.

213.47 The witness has stated that he does not remember whether there was a vehicle of the P.I. and the vehicle of Mayaben, namely, whether there were two vehicles. He has stated that while he was there he had not seen any ambulance.

213.48 The witness has stated that he is not specifically

aware as to whether when Mayaben came near the S.T. Workshop, she had tied a saffron band on her head. He has denied that she was wearing a Punjabi dress and has stated that she was wearing a white saree. He has stated that on the day of the incident, her hair was cut short. The witness has admitted that when she came to the Workshop, he could see her hair. The witness has admitted that when he saw her get down near the car from the S.T. Workshop, he saw her along with her hair. He has admitted that she got down from the car and called the mob by gesturing.

213.49 The witness has denied that in his statement dated 26.5.2008, he had stated that *"..... near the S.T Workshop gate. Mayaben was wearing a helmet on her head which she took off and gestured to the mob and called it near her"*. It may be noted that this part of the statement dated 26.5.2008 has been put to the witness to confront something which is elicited in the cross-examination and not to contradict any assertion made by the witness in his examination-in-chief. This part of the deposition of the witness is, therefore, not admissible in evidence.

213.50 In the cross-examination of the witness, he has stated that there was a Trax jeep vehicle there. He has stated that except for these two vehicles, he had not seen any other vehicle standing near the S.T. Workshop. He has stated that at that time except for the two vehicles, he had not seen anyone take out weapons and distribute them. The witness has admitted that after the vehicles went towards Krushnanagar, the masjid was attacked. The witness has admitted that after the masjid was attacked, the mob entered Hussainnagar and

Jawannagar and damages the houses, looted them and set them on fire. The witness has voluntarily stated that after looting, damaging and burning the shops and houses near Noorani Masjid, the mob had come inside Hussainnagar and Jawannagar and were damaging, looting and setting them ablaze. The witness has admitted that the mobs which went inside Hussainnagar were large in numbers and some of the people in the mob had tied saffron bands on their heads.

213.51 The witness has denied that he had seen the incident of the mob entering Hussainnagar and Jawannagar and damaging, looting and burning the houses of the Muslims while hiding in the incomplete constructed building. The witness has voluntarily stated that he had heard about this at night whereas he had seen the mob entering with his own eyes. The witness says he does not remember as to whether he had filled in any loss/damage analysis form and had voluntarily stated that many forms were being filled in at the camp. He has further stated that he does not remember whether he had given any complaint in printed form regarding the damage caused to his residential house and the incident seen by him.

213.52 The witness has denied that the accused whom he has identified and mentioned before the court were not present on the day of the incident and that he has implicated these people as late as in the year 2008 at the instance of the leaders of the Muslim community and the SIT Officers. The witness has stated that he is residing at Khemchand-ni-chali since his childhood and has few friends in this area because he goes to Odhav for business from 8:00 in the morning and

returns at around 9 to 10 o'clock at night.

213.53 The witness has admitted that from 9 to 11 o'clock, he had seen stone pelting on one side. This stone pelting had started after Mayaben had instigated and gone.

213.54 To bring out the omissions and contradictions in the testimony of this witness as to his statement recorded by the SIT, the prosecution has cross examined PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), who in his cross-examination has admitted that he has recorded the statement of this witness on 26.5.2008. The Investigating Officer has admitted that this witness has stated before him that since was a leader of that area, he used to bring relief kits to the Muslims from the organisations and used to help in carrying out the survey by the Collector and Sahejad Chhara used to tell him to persuade the Muslim witnesses. However, the Investigating Officer has admitted that the witness in the statement recorded by him has not stated that the public had come towards their area and towards the Noorani Masjid and the police was also with them; the cars turned into the lane of Uday Gas service; the people in the mob threw gas cylinders into the Noorani Masjid and a whole kerosene tanker was thrust inside the Noorani Masjid; thereafter the people in the mob set the shops near the Noorani Masjid on fire; thereafter he was afraid and had gone to his house in Khemchand-ni-chali behind the Noorani Masjid; from there he took his family and went to Masjid-ni-chali; the Muslim people gathered nearby Masjid-ni-chali; thereafter Mayaben's car and that jeep.

213.55 Certain extracts of paragraph 10 of the

examination-in-chief of the witness are read over to the Investigating Officer, wherein the witness has stated that a Franti car and a Trax jeep came from the direction of Krushnanagar and were standing facing towards the S.T. Workshop gate. The Investigating Officer has denied that this witness has not stated such facts in the statement recorded by him. He has stated that the witness has stated that both the vehicles had come and that the other facts have not been stated by him.

213.56 Certain extracts of paragraph 10 of the examination-in-chief of the witness are read over to the Investigating Officer wherein he has stated that at that time Mayaben's P.A. was amongst the around one hundred leaders who there; Mayaben spoke about something to these people which appeared to be a discussion; thereafter, she gestured to her P.A. and gave instructions. The Investigating Officer has denied that the witness has not stated such facts in the statement recorded by him. He has stated that the witness had stated before him that Mayaben had come, she had gestured and called the mob, the leaders of the mob had come wherein there were around one hundred to one hundred and fifty persons and there was some conversation. The Investigating Officer has stated that except for reference to the P.A., all the other facts are stated in the statement recorded by him.

213.57 Certain extracts of paragraph 11 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein he has stated that at this time, Mayaben's P.A. took out the weapons from the Trax jeep. Amongst the weapons there were swords, spears, trishuls and

something which appeared like a revolver from far. Under the instructions of Mayaben, Mayaben's P.A. gave all these to the leaders of the mob. The Investigating Officer has denied that all these facts have not been stated by the witness in the statement recorded by him. He has stated that except for stating that the P.A. had given the weapons to the leaders, the rest of the facts have been stated by him.

213.58 The contents of last four lines of paragraph 6 of the examination-in-chief of this witness are read over to the Investigating Officer wherein he has stated that in the meanwhile, Mayaben came there in a Maruti Franti car and her P.A./Assistant was present with her in the car and both of them had got down from the car at the place where he was standing which he had seen. The contents of first two lines of paragraph 7 of the examination-in-chief of this witness are read over to the Investigating Officer wherein he has stated that upon seeing her, the people in the mob standing there had chanted "Jai Shri Ram". The Investigating Officer has denied that all these facts have not been stated by the witness in the statement recorded by him. He has stated that the witness had stated that he was standing there when Mayaben Kodnani together with her husband had come in a white coloured Maruti Franti. However, the above contents of paragraph 7 of the examination-in-chief have not been stated by him in the statement recorded by him.

213.59 Certain extracts of paragraph 15 of the examination-in-chief of the witness are read over to the Investigating Officer wherein the witness has stated that the police were refusing to record his complaint and had told him

that he does not know Mayaben. The police had told him to go and get the panchnama of his house drawn and not to enter into all this headache or else he would be in difficulty. The Investigating Officer has denied that the witness has not stated all these facts before him. He has stated that the witness had stated that he had gone to file complaint at the Naroda Police Station but they had not taken his complaint; that he had gone to lodge his complaint on 12.3.2002. The rest of the facts have not been stated by the witness.

213.60 The Investigating Officer has admitted that this witness in the statement recorded by him has not stated that there the police had refused to record his complaint and told him that he does not know Mayaben. The police had told him to get the panchnama of his house drawn and not to enter into this entire headache, else he would be in difficulty; he does not know the name of Mayaben's P.A. but can identify him, if he sees him. He knows the leaders of the mob by fact but does not know by name; they had fired. The Investigating Officer has admitted that the above facts have not been stated by the witness in the statement recorded by him.

213.61 The Investigating Officer has admitted that the words, "Maruti Franti car" mentioned in paragraph 10 of the examination-in-chief have not been mentioned by this witness in the statement recorded by him but that the witness had stated that a white coloured Maruti Franti but had not used the word "car". The Investigating Officer has admitted that this witness in the statement recorded by him had stated that near the S.T. Workshop, Mayaben had worn a helmet on her head which she took off and gestured to the mob and called them

near her.

213.62 SUBMISSIONS: The learned counsel for the appellants submitted that this witness has named two accused, namely, Mayaben Kodnani accused No.37 and her PA accused No.62. However, before the court he has identified eight accused, namely, (i) Accused No.24 Rajkumar Alias Raju Chomal, (ii) Accused No.20 Kishan Korani, (iii) Accused No.17 Nandlal Alias Jaiki Vishnubhai Chara, (iv) Accused No.2 Murlibhai Sindhi, (v) Accused No.44 Bipin Alias Bipin Autowala Panchal, (vi) Accused No.26 Suresh Alias Sehjad Chara, (vii) Accused No.37 Mayaben Kodnani, and (viii) Accused No.62 Kirpalsingh Chabda (PA to Mayaben Kodnani). It was submitted that this witness' statement was recorded on 26.5.2008 by the SIT. Prior thereto, no statement of the witness was recorded. It was submitted that this witness had never filed his complaint at any earlier point of time and has not disclosed any such facts before anybody and the grievance he has made in paragraph 15 has not been made by him before any authority whatsoever. Referring to the contents of paragraph 15 read with paragraph 24 of his examination-in-chief it was submitted that the witness has stated that he went to the Naroda Police Station and thereafter he says that he had also given an F.I.R. at the camp. However, none of these facts have been stated by him before the SIT. It was submitted that there is no evidence whatsoever of a TRAX car and distribution of weapons to the leaders. No registration particulars of such TRAX car have come on record during the course of investigation. No TRAX car has been seized, nor have any particulars been brought on record including of the driver or owner.

213.63 It was submitted that the story about two vehicles taking a turn into the lane of Uday Gas Agency is also a fact, which is not stated by any of the witnesses. It was submitted that no complaint has been made by the witnesses against Sehjad for trying to influence him. Out of the persons named by the witness, he has identified five persons in the court, namely, accused No.24, 20, 17, 2 and 44. However, none of these persons have been named in his only available statement before the SIT or before the court and as coming out from paragraphs 43, 50 and 54 of his cross-examination, he had no acquaintance with any such persons prior in point of time, nor does he recollect any identification marks of any such persons and in view thereof, in the absence of any test identification parade, as admitted in paragraph 43 by the SIT, only identification in the court cannot be relied upon.

213.64 It was submitted that the witness has not made any complaint about Sahejad at the relevant time and by way of an afterthought, the witness has sought to implicate as many accused as possible. It was submitted that this witness cannot be relied upon for convicting Sahejad as he does not attribute any criminal complicity to him.

213.65 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness had spotted accused No.37 at around 9:00 in the morning with accused No.62. It was submitted that the discrepancy with regard to the PA cannot be considered to be a major contradiction. It was submitted that the omission brought out in paragraph 10 read with paragraph 33 of the cross-examination as regards from

which direction the vehicle had come, may not be treated as a material omission. Referring to paragraph 10 read with paragraph 34 of his deposition, it was submitted that as regards the statement made before the SIT, whereas as a matter of fact, PW 327_in paragraph 698 of his deposition, has stated that the witness has stated that the mob was called by making gestures, and, therefore, it cannot be said that there is a material omission. It was submitted that as regards the omission in paragraph 11 of his examination-in-chief as brought out in paragraph 35 of his cross-examination, the PA had taken out weapons from TRAX jeep which appears to be from a distance.

213.66 ANALYSIS: From the evidence of this witness it emerges that no statement of this witness was recorded at the relevant time when the incident took place, and it is only after more than six years of the incident that his statement came to be recorded by the SIT. According to the witness, on 12th March, 2002, had gone to the Naroda Police Station to lodge his complaint, but the policemen there refused to register his complaint as Mayaben was a very influential person. The witness has admitted that he had not approached any authority to lodge his complaint saying that he was an eye witness. He has stated that as he did not have faith in the police he had not lodged a complaint.

213.67 In his examination-in-chief, the witness has deposed that he had come out of his house at around 8:30 to 9:00 in the morning and had gone near Natraj Hotel where there was a mob of around five to ten thousand people. Mayaben came there in a Maruti Franti car and her P.A./assistant was also

present with her in the car. Mayaben gave a provocative speech to them and left. After she went the public was aroused and started coming towards their locality and the Noorani Masjid. He fled from there and then the police resorted to bursting tear gas shells and firing. He then went and stood on an unfinished building adjoining the Noorani Masjid.

213.68 At around 11 o'clock in the morning, Mayaben came in a white Maruti Franti car which was followed by a TRAX jeep. They came from the side of Krushnanagar and stopped near the S.T. Workshop. Mayaben alighted and gestured to the mob whereupon about a hundred leaders came there and Mayaben spoke to them, which appeared to be a discussion. She then gestured to her PA and gave him instructions. Mayaben's P.A. took out weapons from the Jeep and under her instructions distributed the weapons to all the leaders of the mob. Her car and the jeep then went towards Krushnanagar and turned towards Uday Gas Agency. After Mayaben left, the mob including her P.A. attacked the Noorani Masjid.

213.69 The witness has stated that he does not know the name of Mayaben's P.A. but can identify him by his face and further that he also knows the leaders of the mob by their faces and can identify them.

213.70 From the cross-examination of the witness it is disclosed that in the statement recorded by the SIT, he had stated that Mayaben was accompanied by her pati (husband). From the cross-examination of the witness it further emerges that while he had stated the facts stated by him in the last four lines of paragraph 10 of his examination-in-chief regarding

Mayaben having spoken to the leaders of the mob and the entire facts stated in paragraph 11 regarding the weapons being brought in the TRAX jeep and being distributed to the leader of the mob, he had not made any reference to Mayaben's P.A. Therefore, it appears that apart from the fact that the witness's statement was recorded at a highly belated stage, even before the SIT he had not made any reference to Mayaben's P.A. and at one place had referred to her pati (husband). Therefore, insofar as Mayaben's P.A. is concerned, he has been implicated for the first time before the court. Another aspect of the matter is that there is no material on record to indicate that accused No.62 Kirpalsingh is Mayaben's P.A. In these circumstances, it would be risky to place reliance upon the testimony of this witness to prove the charge against accused No.62.

213.71 Insofar as accused No.37 Mayaben Kodnani is concerned, the witness has stated that he had seen her on two occasions on the day of the incident. On one occasion he had seen her between 8:30 to 9:00 near Natraj Hotel. Insofar as the presence of Mayaben at Natraj Hotel between 8:30 to 9:00 is concerned, there is material on record to show that she being an MLA was present at the Vidhan Sabha at Gandhinagar and was present there till around 8:45 p.m. and left thereafter. In these circumstances, even if she had come to the spot straight from Gandhinagar, she could not have reached there before or at 9:00 a.m. Insofar as the second incident is concerned, it may be noted that there is ample evidence on record in the nature of testimonies of police officers which indicates the presence of high ranking officers near the S.T. Workshop gate between 10:30 to 12:00. Therefore, it is highly doubtful that in

the presence of all these officers who have deposed that they were making all efforts to quell the riots, Mayaben would have been able to distribute weapons to the mob. Moreover, none of the officers have mentioned the presence of Mayaben at the S.T. Workshop gate at that time. It cannot be gainsaid that Mayaben being the MLA of the area was a public figure and hence, her presence at the spot would not have gone unnoticed by the police. It is highly unfortunate that on the one hand the prosecution seeks to implicate Mayaben Kodnani in the offence in question, but none of the police officers support the prosecution case. Moreover, several witnesses who were at the corner of the S.T. Workshop in the morning on that day have been examined by the prosecution. However, none of the witnesses have referred to Mayaben having come twice, and more particularly to the facts regarding the TRAX Jeep and distribution of weapons. Thus, the prosecution has led two sets of evidence, one which shows the presence of this accused at the scene of offence and another which negates her presence. It is settled legal position that when two sets of evidence are led by the prosecution, one against and one favouring the accused, the view in favour of the accused has to be adopted.

213.72 While the witness has named only two accused in his examination-in-chief, namely Mayaben Kodnani (A-37) and her P.A./Assistant, he has identified Raju Chomal (A-24), Kishan Korani (A-20), Nandlal alias J.K. Vishnu (A-17), Murli Naran Sindhi (A-2) and Bipin Panchal (A-44) by their faces as being the leaders of the mobs. Sahejad Chhara (A-26) had filed exemption application and is, therefore, deemed to have been identified. Thus, while the witness has not named these accused in any of his statements or before the court, and no

test identification parade had been carried out to identify them, the witness has identified them for the first time before the court. In the opinion of this court, it would be highly risky to accept such identification after a period of eight years from the date of the incident without having first fixed the identity of the accused. Therefore, the testimony of this witness would not help the prosecution in establishing the charge against the accused where their implication in the offence is based merely on such identification.

213.73 Insofar as Sahejad Chhara (A-26) is concerned, the witness has alleged that after the incident he had tried to influence him and asked him to make an affidavit in his favour as his name had cropped up in the case. Thus, this allegation is in respect of influencing witnesses and would constitute a different offence, in respect of which a separate complaint would be required to be lodged. In the present case Sahejad Chhara (A-26) is not charged with any such offence, and hence, the testimony of this witness insofar as this accused is concerned would not help the prosecution to prove such charge against him.

213.74 Thus, the testimony of this witness will not come to the aid of the prosecution in proving the charge against any of the accused, viz. those named and identified and those who are only identified by him.

214. **PW-238 Nasreen Mahammadrafik Shaikh**, aged 28 years, has been examined at Exhibit-1673. The witness has deposed that she can understand Gujarati, but would find it more convenient to speak in Hindi and hence, will depose in

Hindi. The witness has stated that her native place is *Lucknow, U.P. State.*

214.1 The witness has deposed that when the riots took place, at that time in the year 2002, she was residing with her sister Ishratjahan (PW-177) in *Lane No.4, Hussainnagar.* When the SIT people recorded her statement, she was residing at *Pandit-ni Chali, Next to ST Workshop, Naroda Patiya.*

214.2 The incident took place on 28.2.2002. During that period, she was residing with her sister Ishratjahan at *Lane No.4, Hussainnagar* and at that time, over and above the two of them, her sister Ishratjahan's husband Parvezhussain, her sister Kausarparveen, her brother Sabbirhussain, were also residing together.

214.3 Her marriage was solemnised after the riots in the year 2002 when they were at the Shah Alam camp. She has studied up till the 3rd standard. She does not remember as to in which medium they used to teach her, as to whether it was in Hindi medium or Gujarati medium.

214.4 On the day of the incident, she was at home in the morning. At that time, the people nearby started shouting. Hence, she came out of the house to see. Everyone was saying that there is stone pelting. She came out on the road near the S.T. Workshop and saw that the mobs had started coming from the direction of Krushnanagar and Natraj Hotel. It was a Bajrang Dal mob and there were Gujaratis, Sindhis and Chharas.

214.5 The people in the Bajrang Dal mob had tied saffron bands on their heads with "Jay Shri Ram" written on them. In the mob which had gathered on the road, she had seen Munna Shetty (deceased) and Sahejad Chhara (A-26) pelting stones and at that time, Suresh Langda (A-22) had a sword in his hand. Thereafter, there was intense stone pelting and the police had resorted to firing at the Muslims.

214.6 When she came out, it was approximately 9:30 in the morning and at that time, the situation was as she has narrated and hence, she returned home at about 10:30. Her brother-in-law Parvezhussain had come to fetch her and he was injured on the head with a stone. Both of them had gone home and all the members of the family had also come home.

214.7 Thereafter, at around 12 o'clock, they heard commotion and upon such commotion taking place, they came out. Upon coming out, they saw that the mob was ransacking the houses and burning people alive. She was very frightened. She did not know any person in the mob and she had seen all this from far.

214.8 Everyone in the house was frightened, and hence, she and her family members went to a house which was a bungalow opposite their house in Lane No.4, Hussainnagar for shelter and they had gone to the top most floor of the bungalow. They had gone on the terrace. From the terrace, she had seen incidents that were taking place. In the evening at around 5:00 to 5:30, though she is not aware about the exact time, but it was evening, she saw that people in the mob were ransacking the chawls and were burning the houses. She had

seen four people in the mob.

214.9 At that time, she had seen Munna Shetty, Sahejad Chhara, Suresh Langdo and Ganpat Chhara. Munna Shetty and Sahejad were in the mob. Suresh had a sword and Ganpat Chhara was gesturing with his hands. She stayed on the terrace till 10 o'clock at night. Thereafter, upon a vehicle coming from the Shah Alam camp, they had gone to the Shah Alam camp.

214.10 In the incident, her brother-in-law Parvez had sustained an injury on the head in the stone pelting, whereas she had sustained a slight injury on her hand.

214.11 In the very near future after the incident, her marriage was to take place. For the purpose of her marriage, her dowry items were collected and were kept in the house where she was residing. In the incident, their house was also looted and all her dowry items were looted.

214.12 She had stayed at the Shah Alam camp for around six months. During this period, she had made an application from the camp. There after, in the year 2008, her statement was recorded at Gandhinagar.

214.13 The witness has stated that she has learnt that Munna Shetty had died a short time prior thereto and that she can identify all the four persons whom she has named. The witness has thereafter identified Ganpat Chhara (A-4), Suresh Langdo (A-22) and Sahejad Chhara (A-26) correctly.

214.14 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that the SIT had examined her in Hindi. She has stated that she had informed the SIT people that she could understand a little Gujarati, but cannot speak in Gujarati. She has stated that the SIT had read over her statement to her. The witness has stated that she has studied up to the second standard and that she remembers a song which she was taught at that time. She has stated that when she first came out of her house on the day of the incident, she does not remember as to whether anyone of her family members was with her. She has stated that on that day, there were many people running around in the chawl. She has stated that she had reached near the S.T. Workshop at around 9:30 in the morning and was there on the road for about one hour. She has said that she means that she was going here and there on the road. She has further stated that she had seen the mob from a distance of about ten to twelve feet. She has stated that she was standing with the women from the mohalla, however, they were moving around near the S.T. Workshop. She has stated that where she was standing, there were only women and that there must be around ten to fifteen women. She has stated that she can identify these women as she was residing in the mohalla since her childhood and she remembers that amongst the women were Gugu Khala, Khatun Apa and Noora Apa.

214.15 In the cross-examination of the witness, it has further come out that when she came out, she was standing near the flour mill on the road. She has admitted that from the flour mill, one cannot see the S.T. Workshop gate. The witness has explained that the flour mill is on the interior road from

where, one comes out of Hussainnagar. The witness is cross-examined with regard to the topography of the area and more particularly, the flour mill. The witness has admitted that when one comes out of the flour mill, after crossing two houses, the Naroda Patiya road is situated. She has explained that from this place, on one side, there is a road going towards the S.R.P. Quarters, that is, Krushnanagar and on the other side, the road goes towards Naroda Patiya which is in the direction of the S.T. Workshop. The witness has admitted that for the one hour that she was standing there, during that period, she had not seen any person in the mob entering their chawls. She has voluntarily stated that at that time, the mob was pelting stones and there was police firing. She has stated that during the entire period when she was there, stone pelting was continuing, however, she does not know exactly as to when the firing started. She has stated that when the stone pelting started, there were many men and women from their mohalla and that everyone from their mohalla had come out to watch. The witness has admitted that the people from the mohalla were standing near them. She has stated that while she was standing there, she has seen the people being injured on account of stone pelting and that she can give the name of one person, namely, the Maulana of the masjid who was profusely bleeding on account of being injured by a stone.

214.16 The witness has stated that her brother-in-law Parvez had come to fetch her from where she was standing and she does not remember whether at that time, she had seen her family members there. She has stated that she had not talked to any family members while she was standing there and that it had not happened that her sister Ishratjahan

had come out of the house with her.

214.17 The witness has stated that while she was standing near the lane and was moving around here and there, at that time, she had not seen twenty-five to fifty or one hundred to two hundred people fleeing and running. She had seen somebody being picked up and taken and has voluntarily stated that those Muslims who were injured in the firing were being lifted and taken away.

214.18 The witness has admitted that while she was on the road for an hour, her main attention was on the road. She has stated that she does not know the name of any of the Muslims who were injured in the firing on the day of the incident and that as on date, she knows the name of only one person who was injured in the firing whose name is Mohammadbhai. She has admitted that she does not know on what part of his body Mohammadbhai was injured by the bullet.

214.19 The witness has stated that her brother-in-law had come to fetch her at 10:30 and that till they reached home, no person in the mob had stopped them or caused any damage to them. She has stated that everyone in the mob was pelting stones. There were about one and half to two thousand people. At that time, the stones were coming up to the flour mill. The witness has voluntarily stated that, that is why she was injured in the stone pelting. The witness has admitted that she has not disclosed that she was injured by a stone till date for the reason that the injury sustained by her was very minor.

214.20 The witness has admitted that when they were at

home till 12 o'clock, the people in the mob had entered, and hence, everybody had started shouting. The witness has stated that she cannot say as to whether or not the mob that was comprised of one thousand five hundred to two thousand people which she had seen outside, was the same mob which had come into their mohalla. She has stated that the people in the mob had not entered her house.

214.21 The witness has admitted that till 12 o'clock, the mob had not entered the lane in which she was residing. She has stated that the place where they went for protection was Pinjarabhai's house which is in the line opposite their lane. She has stated that she had sat in that building till 12 o'clock at night.

214.22 The witness has admitted that the people in the mob did not come to Pinjarabhai's house. The witness has voluntarily stated that they had put a lock below. The people in the mob used to knock on the door and go away. The witness has stated that there were other people from their mohalla in Pinjarabhai's house, but she cannot say as to how many people were there. Her family members had got separated in this house. Some of her family members were on the ground floor, whereas some were on the terrace. The witness has admitted that her house is situated opposite Pinjarabhai's house and there is only one road in between both the houses. She has admitted that all the members of her family were in this house. She has admitted that all her family members had met at the relief camp.

214.23 The witness has stated that she does not know

anything about the Bajrang Dal, but had heard from others on that day that those who have tied saffron bands on their heads are all Bajrang Dal people, and hence, she had believed it. She has stated that she does not know whether the words “Jay Shri Ram” were written on the bands in Gujarati or Hindi.

214.24 The witness has stated that she does not know anything about the Vishwa Hindu Parishad, but had heard about it from people. The witness has admitted that she cannot say as to which member of the mob was from the Bajrang Dal and who was from the Vishwa Hindu Parishad.

214.25 The witness has stated that her brother-in-law Parvezhussain and her brother Sabbir were with her on the terrace. She had also given the names of three to four other people who were with them on the terrace.

214.26 The witness has stated that merely by looking at someone, it is not possible to say as to which person is a Sindhi or is a Chhara and has voluntarily stated that as she used to visit Kubernagar, she knows the language of Chharas and Sindhis and from what she heard, she could make out as to whether they are Sindhis or Chharas. Prior to her going on the terrace, she had heard them talking.

214.27 The witness has admitted that when she was on the terrace from 12 o'clock in the afternoon till 12 o'clock at night, she had not heard them speaking and that she had heard them speaking when she was in the mob. The witness has stated that she had slept on the terrace and after a little while, she was sitting, but she was not standing. She has further stated

that they were sitting on the terrace in a manner whereby nobody could see them. The witness has voluntarily stated that there was a lattice on the terrace from which, they could see, but nobody could see them. This lattice was made of cement.

214.28 In the cross-examination of the witness, it has further come out that from the lattice, they could see the Noorani Masjid road. The witness has stated that the houses in Hussainnagar are comprised of two rooms. She has admitted that from the terrace of the house on which she was, she could see all the huts in Hussainnagar. The witness has voluntarily stated that the huts could be seen from the cement lattice and if one stands on the terrace, the entire area can be seen. The witness has denied that if the mob enters this area, they can only see the black hair on the head of the people and cannot see anything. The witness has voluntarily stated that one can also see the faces of the people in the mob.

214.29 The witness has admitted that the people in the mob did not know that they were hiding in Pinjarabhai's house and has voluntarily stated that if they knew about it, they would have hacked them. The witness has stated that she has not seen any person banging on the door of Pinjarabhai's house or banging the locks of Pinjarabhai's house. The witness has voluntarily stated that such sounds were coming from upstairs. She has stated that the entrance door of the house was made of iron and nothing could be seen through the door. The witness has stated that she has seen the looting and burning of houses. She has stated that only Muslims reside in this area. The witness has stated that she cannot say as to whether the mob which was damaging and the mob which was

assaulting were different. The witness has admitted that she cannot say so because she had not seen the incident from near and has voluntarily stated that she had seen the incident from far.

214.30 The witness has admitted that from 12 o'clock in the afternoon till 12 o'clock at night, she had not gone out of Pinjarabhai's house even once. She has stated that wherever she had gone and seen was between 9:30 to 10:30, when she was on the road and the rest was seen from Pinjarabhai's terrace.

214.31 The witness has admitted that in her statement dated 21.5.2008 recorded by the SIT, she had stated that they had left their house at 12 o'clock and had gone to a big house in their society where other Muslims were hiding and from the top of this house, they had seen that Hindu people, Sindhis and Chharas were damaging and looting in the society.

214.32 The witness has denied that on the day of the incident, she had not seen any accused with weapons, and hence, prior to 21.5.2008, she had not stated any such facts. The witness has voluntarily stated that in the year 2002, about eight days after the incident, she had given an application about the incident at the camp and had stated these facts. The witness has denied that she has not given any such application or complaint. The witness has stated that she does not know as to who had written the application, but everybody at the camp was giving such applications, and hence, she also had done so.

214.33 The witness has admitted that while she was at the camp, no police had come to her and she had also not gone to the police to give her statement.

214.34 The witness has stated that in her house, her elder sister Ishrat is the elder one and that since the time she was very young, her mother had passed away and her father, three months prior to the incident had gone to Lucknow where he had remarried. The witness has admitted that while they were at the camp, they would discuss as to what damage had been caused to each other. She, however, has denied that at the camp, it was decided as to which accused should be involved in which offence.

214.35 The attention of the witness is drawn to the words "near the S.T. Workshop" in paragraph 5 of her examination-in-chief and she has denied that she has not stated these words in her statement. The attention of the witness is drawn to paragraph 7 of her examination-in-chief wherein she has stated that her brother-in-law Parvezhussain had come to fetch her. The witness has denied that she had not stated such words in her statement.

214.36 The witness has stated that she had an ordinary relation of talking with Suresh Langda and Sahejad Chhara. She has admitted that Sahejad Chhara resides at Hussainnagar. She has admitted that there is a Devi Mata's temple in Sahejad Chhara's house and in the morning and evening, Devi Mata's puja is being performed in his house. The witness has denied that during the puja, they play the drums and nagaras and that during the puja, they play the tape

loudly. The witness has denied that the Muslims did not like the tape being played. The witness has admitted that at this time, the people from Mahajaniyavas used to come. The witness has denied that because they used to play the tape in this manner and the people from Mahajaniyavas used to come, the Muslims had a dispute with Sahejad. She has denied that at the instance of the people from her community, she had wrongly given the name of Sahejad. The witness has stated that while she was on the terrace, she has not seen any person being lifted and brought there. The witness has denied the suggestion that she had not seen the incident and is deposing falsely.

214.37 To prove the omissions and contradictions in the testimony of the witness as to her statement recorded by the SIT, the defence has cross examined PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), who in his cross-examination has admitted that he has recorded the statement of this witness on 21.5.2008. He has admitted that this witness in the statement recorded by him had stated that the SIT people had asked questions to her in Hindi. She had told the SIT people that she can understand Gujarati a little but cannot talk in Gujarati. The SIT people had read over the statement to her. She does not remember as to whether at the time of reading her statement, the SIT had recorded that she knows both Hindi and Gujarati languages well and understand it.

214.38 The Investigating Officer has admitted that the extracts of paragraph 7 of the examination in chief wherein the witness has stated that her brother-in-law Parvezhussain had come to take her, have not been stated by her in the

statement recorded by him. Certain extracts of paragraph 9 of the examination-in-chief of the witness, wherein she has stated that at around 5:00 to 5:30 in the evening, she does not know the exact time but it was evening at that time, are read over to the Investigating Officer, who has admitted that this witness has not employed such words in the statement recorded by him. The words "near the S.T. Workshop" are read over to the Investigating Officer from paragraph 5 of the examination-in-chief and he has admitted that the witness has not stated such words in the statement recorded by him but the witness had stated that she had come out and seen.

214.39 SUBMISSIONS: The learned counsel for the appellants submitted that this witness is the sister of PW-177 Ishratjahan Parvezhussain Saiyed. It was pointed out that the witness has named three accused, namely, accused No.26 Suresh alias Sehjad Chhara, accused No.22 Suresh Chhara and accused No.4 Ganpat Chhara; and she has identified all three of them. It was submitted that the statement of this witness was recorded for the first time on 21.4.2008 by SIT and no statement was recorded by the police at the relevant time.

214.40 It was submitted that this witness has deposed regarding two incidents, namely, the first incident which took place at 9:30 in the morning, wherein she has seen three accused in the mob, and the second incident in the evening hours, where she had seen four accused committing loot and setting the houses on fire. It was submitted that insofar as the first incident is concerned, during the one hour when she was standing there, except for what she has stated in paragraph 6 of her examination-in-chief, no further participation has been

alleged. It was submitted that the witness does not refer to any other incident that had taken place in that hour, therefore, at best even if the SIT statement is taken at its face value, accused No.26 and accused No.22 were seen as part of the mob in the morning.

214.41 In the second incident, the time stated by the witness was evening time. She has stated that from the terrace she had seen the mob committing loot and setting houses on fire and in that mob she could see and identify four persons. It was contended that even if this part of her deposition is taken at face value as the first time version given before the SIT, then also insofar as Manubhai and Sehjadbhai are concerned, all she says is that they were present there, without attributing anything to them. It was submitted that so far as accused No.22 is concerned, even in the morning incident he is stated to be holding a sword. In the evening also he is said to be holding sword without any overt act being attributed to him. As regards accused No.4 Ganpat Chhara, the allegation against him is that he was making some gestures with his hand. It was contended that this allegation will not lead to any specific inference indicating any criminal complicity on the part of the accused. It was submitted that if paragraphs 36 and 39 of the cross-examination of the witness are read together, it becomes doubtful whether she could have seen anything happening down on the road. Therefore, when the witness has remained silent for about six and a half years, it is very difficult to believe her version, when it is given for the first time before the SIT and before the court. Therefore, she is not a believable and reliable witness.

214.42 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that presence of this witness at the place of incident is not doubted. She had spotted accused No.26 and accused No.22 with a sword in his hand, in the morning mob. Even in the evening when she went to another place, she saw the mob looting and ransacking houses and the truthfulness of the witness is demonstrated by the fact that she says that she could not identify anybody in the mob. It was submitted that therefore, when the witness could identify the accused, she had given their names and when she could not identify them, she has not given any names wrongly implicating anyone.

214.43 It was submitted that in the evening between 5:30 to 6:00, once again she saw houses being looted and damaged in which she could identify accused No.22, accused No.26 and accused No.4, wherein accused No.22 had a sword in his hand and she has deposed accordingly. It was submitted that only one contradiction is tried to be brought out in paragraph 50 of her cross-examination, namely that the witness has stated the place to be near the S.T. Workshop, while in her statement recorded by the SIT she had stated that she spotted them after coming out. It was submitted that such a contradiction is not a significant one and, therefore, there is no material deviation from her previous statement. It was pointed out that this witness has given printed application on 7.3.2002, and in that application, names of three persons were indicated and on the basis of that application, the SIT had recorded her statement on 21.5.2008. It was, accordingly, urged that his witness is a truthful and believable witness qua accused No.4, 12 and 26 and through the testimony of this witness the presence of all

the three accused, one with weapon, has been proved beyond reasonable doubt.

214.44 ANALYSIS: From the evidence of this witness it emerges that at the relevant time her statement was not recorded by the police and for the first time her statement was recorded by the SIT on 21.5.2008, more than six years after the incident. As per the testimony of this witness, she came out on the road in the morning and saw the three accused viz. Munna Shetty (deceased), Sahejad Chhara (A-26) and Suresh Langda (A-22) in the mobs which had gathered on the road. The witness only refers to their presence on the road, without attributing any overt act to any of them. The witness says that at around 10:30 she returned home as her brother-in-law had come to fetch her. At about 12:00 in the afternoon, they heard commotion outside and came out and saw mobs looting houses and burning people alive. She had seen this incident from far and could not identify any accused. Out of fear all the family members went to a bunglow in Hussainnagar lane no.4 and went to the terrace from where she was looking at the events that unfolded. At around 5:00 to 5:30, she saw mobs looting the houses in their chawls and setting them ablaze and in this mob she saw Munna Shetty and Sahejad Chhara, Suresh Langdo and Ganpat Chhara. Munna Shetty and Sahejad Chhara were in the mob and Suresh had a sword and Ganpat was gesturing with his hands. Thus, the witness refers to the presence of three of the accused in the mob in the morning as well as in the evening, and refers to the presence of Ganpat Chhara in the mob in the evening.

214.45 As noted hereinabove, the witness has for the first

time come forward and disclosed the participation of the above accused in the offences in question in the year 2008 after a period of more than six years of the incident. After the incident, the witness had stayed at the Shah Alam camp for about six months. It is a matter of record that the police had visited the camp on umpteen occasions to record the statements of witnesses. In the case of this witness, no member in her family has been injured or suffered loss of life. It is not the case of the witness that she was in a state of shock and trauma after the incident and, therefore, could not get her statement recorded. Besides, it has come on record that the statements of most of the witnesses were recorded in the month of May, 2002. Therefore, when the witness has not thought it fit to state anything before the police at the relevant time, it would be hazardous to rely upon the testimony of the witness when she has disclosed the names of the accused after such a long period of time. Considering the intervention of several external influencing factors in the interregnum between the time of the incident and the recording of statements by the SIT, false implication of the accused also cannot be ruled out. The testimony of this witness, therefore, would not come to the aid of the prosecution to prove the charge against the accused.

215. **PW-239 Gulamyaasinbhai Noorbhai Kureshi**, aged 50 years, has been examined at Exhibit-1674. The witness has deposed that he knows Gujarati and has studied in Gujarati upto the 5th standard. He runs a mutton shop and the name of his shop is "Ajmeri Mutton, Chicken Centre". His shop is situated in *Pandit-ni-Chali*. He is a partner in a shop, viz., "Anjuman Grahak Sahakari Bhandar", which is situated in *Lane*

No.3, Hussainnagar. He was a partner in the shop from 1997 to 2007. Amongst the other partners of the shop were Basirbhai Ismailbhai Shaikh, Rahemtulla Khwajahussain Shaikh and Kadar Nannumiya Saiyed.

215.1 Basirbhai used to manage the affairs of their Sahakari Bhandar. Rahemtulla Khwajahussain used to weigh the items in the shop. Their partner Kadarhussain used to settle the accounts and he (the witness) used to do the work of bringing goods from outside.

215.2 In this shop, they used to sell kerosene, wheat, rice, sugar, oil etc. at Government rates, that is, fair prices.

215.3 The incident took place on 28.2.2002. On that day, their shop was open. On that day, even his Ajmeri Mutton Centre was also open.

215.4 In the morning, at about 7:30 to 8:00, he had gone to Ajmeri Mutton Centre. He opened the shop and started his business. On that day, there was a call for bandh. In the morning, at around 9 o'clock, Gujarati mobs started coming from the direction of Natraj Hotel and Krushnanagar. The people in the mob came near the Noorani Masjid. They started pelting stones on the chawls near the Noorani Masjid and started burning the houses in the chawls as well as stalls and shops etc. near the Noorani Masjid. In the meanwhile, the police arrived.

215.5 The mobs attacked the Noorani Masjid and the people in the mobs also attacked the Muslims.

215.6 In the meanwhile, the police started firing at the Muslim mob. In the firing, a boy named Abid was injured and two to three other persons were also injured in the firing. Upon all this happening, out of fear, he closed his Ajmeri Mutton Centre and went towards his chawl. They had shut their house and remained at home during the entire day.

215.7 Prior to going home, he had stopped near his shop Ajmeri Mutton Centre for a little while. In the open space, opposite his shop, he had forty five goats. At this time, the mob came there and the people in the mob took away all his forty five goats. Suresh Langdo was in the mob.

215.8 Suresh Langdo was leading the mob and was taking away the goats. The witness was himself watching all this; however, he did not have the courage to stop them.

215.9 On that day, there was a stock of approximately 1,000 litres of kerosene in their shop "Anjuman Grahak Sahakari Bhandar". The wheat, rice, sugar etc. were sold off; however, 1,000 litres of kerosene was lying in stock. He had learnt that everything was being burnt in Hussainnagar and all the kerosene from his shop was looted. Their Anjuman Grahak Sahakari Bhandar was also burnt and was destroyed in the incident. On the day of the incident, his 1,000 litres of kerosene was also looted. They were maintaining a stock register in their shop. However, everything was burnt in the incident.

215.10 Late at night, the police took them to the Juhapura

camp. They stayed there for two days. After two days, they had gone to his sister-in-law Sugarabibi's house, where they stayed for about one year. After one year, they returned to their house at Naroda Patiya.

215.11 The SIT had recorded his statement in connection with the incident. The witness has stated that he knows Suresh who was in the mob and was taking away his goats, even today and can identify him. The witness has thereafter identified Suresh Chhara (A-22) correctly.

215.12 CROSS EXAMINATION: In his cross-examination, the witness has stated that his Ajmeri Mutton Shop is situated in Pandit-ni-Chali. Pandit-ni-Chali is situated next to the Noorani Masjid. The witness has admitted that if he wants to go to Anjuman Grahak Sahakari Mandali, he has to cross the national highway. The witness has admitted that if he is sitting at the Ajmeri Mutton Centre, he cannot see Natraj Hotel or Naroda Patiya Circle. He has voluntarily stated that due to the commotion, he came out to watch, and hence, he had seen what had happened. He has admitted that on hearing the commotion, when he went out to watch, the spot where he went was at a distance of about one or two minutes from his shop. The witness has admitted that if one wants to go from his house to Ajmeri Mutton Centre, then Naroda Narol Highway does not come on the way. The witness has stated that he had opened his shop at around 7:30 in the morning and after about one and half hours, he had heard the commotion. The witness has denied that the commotion which he heard was for shutting down the shops due to the bandh call. The witness has voluntarily stated that the commotion was because the

mobs had come from both the sides and had started pelting stones and resorted to vandalism.

215.13 The witness has admitted that when he first saw the mobs, the stone pelting was continuing. The witness has admitted that at this time, a Muslim mob had gathered to protect the Noorani Masjid. He has denied that for protecting the Noorani Masjid, there was cross stone pelting between Hindus and Muslims. The witness has denied that in his statement dated 27.6.2008 recorded by the SIT, he had stated that *"Therefore, Muslims had also gathered and since there was stone pelting at the masjid, to protect the masjid, the Muslims mob had also pelted stones at the Hindu mob. At this time, the Hindu and Muslim community mobs came opposite each other"*. It may be noted that here the witness is sought to be contradicted by his previous statement recorded under section 161 of the Code in respect of an answer elicited in his cross-examination, which is hit by the bar contained in section 162 of the Code, and therefore, is not admissible in evidence.

215.14 The witness has denied that since there was cross stone pelting, the police had lobbed tear gas shells at those who were pelting stones and had resorted to firing. He has stated that he does not know whether before firing the police had lobbed tear gas shells. He has admitted that the police firing was from the direction of Natraj Hotel. The witness has admitted that police had fired towards Muslims who had gathered to protect the Noorani Masjid, and in this firing, Abid was injured by a police bullet. He has stated that since Abid was residing in his mohalla, he knew him.

215.15 The witness has admitted that on that day, he had gone home at around 10:00 to 10:30. He has admitted that after he went home, till the time he went to the camp, he had not gone out of his house. The witness has admitted that he had stated whatever he had seen near the Noorani Masjid and near Naroda Patiya Circle. He has admitted that his Anjuman Grahak Sahakari Bhandar was administered by Basirbhai Ismailbhai Shaikh. The witness has denied that he did not have any personal knowledge about the stock in his shop.

215.16 The witness has admitted that in his statement before the SIT, he had stated that as far as he remembers, on 28.2.2002, there was a stock of around one thousand litres of kerosene in his shop. The witness has stated that he had specifically stated one thousand litres kerosene in his statement before the SIT because they were required to maintain daily accounts of the goods which they sold at fair prices through the Government. The witness has admitted that he has not produced his daily stock register before the SIT authorities, and has voluntarily stated that it was burnt in the incident. The witness has stated that there was no tank for keeping kerosene in the Anjuman Grahak Sahakari Bhandar and has voluntarily stated that there was a barrel. The witness has admitted that they had not lodged any complaint regarding the damage caused to their Anjuman shop. He has admitted that he himself has not produced any evidence before the officers at the Collector's office and the Civil Supply Department. The witness has voluntarily stated that all the evidence was burnt; hence, it was not possible to produce it. The witness has denied the suggestion that one thousand litres of kerosene was not there in his shop and that whatever

kerosene was there, was given by him to the Muslims to attack the Hindus, to damage their properties and burn them. The witness has voluntarily stated that their mohalla was comprised of Muslims, and hence, there was no question of doing so. The witness has admitted that the Hindus are also residing at Hussainnagar and has voluntarily stated that they reside on the other side towards Gangotri Society. Various questions are put to the witness with regard to maintenance of accounts of the fair price shop, etc. The witness is also cross-examined with regard to the topography of the area. The witness has denied that sufficient space is not available for keeping forty give goats in front of his shop. He has stated that when he saw his goats being taken away, it was at a distance of about a hundred feet from his shop. He has admitted that the mob which came to take the goats was comprised of around one thousand to one thousand five hundred people. He has admitted that this mob had directly entered the chawls and has voluntarily stated that after entering, the mob was burning shops and houses. The witness has admitted that he does not know as to from where the mob had come, but had subsequently stated that the mob had come from the direction of Natraj.

215.17 The witness has admitted that when the mob was committing arson and advancing, he was at home. He has denied that after he went away, the goats were taken away. The witness has voluntarily stated that he was standing there when they took his goats away. He has stated that while taking away the goats, some of them pulled the goats by their ears while some lifted them and took them away.

215.18 The witness has denied that since five years prior to the incident Suresh Langda was doing the work of cutting mutton in his shop and that his one year's pay was outstanding, and time and again he was asking for his pay, and hence, with a view to see that he does not have to pay him such amount, he had given his name in this case in the year 2008. The witness has voluntarily stated that Suresh was never serving with him and that he never had any need for employing anyone.

215.19 The witness has stated that he had not made any application to the SIT for recording his statement and that he had not received any summons from the SIT. The witness has voluntarily stated that Basirbhai of Anjuman Grahak Sahakari Bhandar may have made an application and hence, his statement may have been recorded. The witness has admitted that his statement was recorded at a madressa in Jawannagar.

215.20 The witness is re-examined to bring on record the fact that Basirbhai who is the Secretary of Anjuman Grahak Sahakari Bhandar had passed away.

215.21 To prove the omissions and contradictions in the witness's statement dated 27.6.2008, the defence has cross-examined PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), who, in his cross-examination has admitted that he has recorded the statement of this witness on 27.6.2008. The contents of paragraph 18 of the examination-in-chief of the witness are read over to the Investigating Officer wherein the witness has stated that, therefore Muslims had also gathered and since stones were being pelted at the masjid, to

protect the masjid, the Muslim mob had also pelted stones at the Hindu mob. At this time, the mobs belonging to the Hindi and Muslim communities came against each other. The Investigating Officer has admitted that the witness has not stated such facts in the statement recorded by him. The contents of paragraph 9 of the examination-in-chief are read over to the Investigating Officer, wherein the witness has stated that Suresh Langdo was leading the mob and was taking away the goats. He was himself watching but he did not have the courage to stop him. The Investigating Officer has denied that the witness has not stated such facts in the statement recorded by him. He has stated that the witness has stated before him that forty five goats had been looted. Moreover, after stating this, the witness had stated that on the day of the incident in the Hindu mob, which had resorted to vandalism and arson, Suresh Langdo Chhara had played a leading role.

215.22 SUBMISSIONS: The learned counsel for the appellants submitted that no statement of this witness was recorded by the police. It was submitted that this witness in paragraphs 8 and 9 of his deposition has named Suresh Chhara (A-22); however no criminal complicity in taking away any goat, out of forty five goats can be attributed to Suresh. It was pointed out that the facts stated in paragraph 9 of his examination-in-chief, have not been stated by the witness in his sole statement before the SIT.

215.23 Referring to paragraph 35 of his cross-examination, it was submitted that even according to this witness different people had taken away different goods. It was submitted that

the evidence of this witness is therefore, not credible and trustworthy and it does not come to the aid of the prosecution to support the charge against the accused.

215.24 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness has deposed that Abid had sustained bullet injury and thereafter he went to his house and stayed there. No contradiction has been brought out in respect of the version given by the witness. It was submitted that no major contradiction has been brought out in the cross examination of this witness and there is no omission in respect of taking away goats and the only omission is qua Suresh Langdo, however, he has been identified. Therefore, the offence under sections 379 and 380 of the Penal Code is clearly made out against the accused.

215.25 ANALYSIS: The statement of this witness came to be recorded for the first time in the year 2008 by the SIT, more than six years after the incident. As per the testimony of this witness, forty five goats belonging to him were there in the open space in front of his shop and the mob took away his goats and that Suresh Langdo (A-22) was leading the mob which was taking away his goats. In his statement recorded by the SIT, the witness had attributed a different role to Suresh Langdo than that attributed in his testimony before the court. Considering the fact that the statement of this witness has been recorded for the first time after a period of more than six years after the incident, and in this testimony before the court, there are contradictions and discrepancies even qua such statement, it would be hazardous to place reliance upon the testimony of this witness for proving the charge against the

accused. It may be pertinent to note that the learned Special Public Prosecutor has submitted that the offence under sections 379 and 380 of the Penal Code which relate to punishment for theft and theft from dwelling house etc., has been clearly made out against the accused. It appears that the learned Special Public Prosecutor has lost sight of the fact that there is no charge under sections 379 and 380 of the Penal Code against any accused.

216. PW-240 Mahammadkhurshid Mahammadnasim Shaikh, aged 30 years, has been examined at Exhibit-1679. The witness has deposed that he knows Gujarati to a certain extent, but is more conversant with Hindi and hence, will give his deposition in Hindi.

216.1 The witness has deposed that he has studied in Hindi medium till the 8th standard. His native place is *Faizabad District, Uttar Pradesh*.

216.2 The incident took place on 28.2.2002. He was residing in *Lane No.2, Jawannagar* in the year 2002. He did not have any house number or room number and they used to simply write *Lane No.2, Jawannagar*.

216.3 During the period of incident, he used to reside with his wife Shabnam as a tenant, on a monthly rent of Rs.600/-. At the relevant time, he used to do embroidery work at Bapunagar.

216.4 At the time of the incident, his father used to reside at Hukamsing-ni-Chali. Eight months prior to the incident, he

had got married. His service hours were from 8:00 in the morning to 8:00 in the evening.

216.5 On the day of the incident, there was a call for Gujarat bandh. He and his wife were at home on that day. On account of the bandh call, he was not required to go for his job on that day. In the morning at around 8:30 to 9:00, from the open ground as well as Hussainnagar, the mobs started coming. At this time, they were at home and they remained at home. The mobs were shouting, however, they stayed hidden in their house.

216.6 There is a wall of Jawannagar behind which there is an open ground. At around 2:30 in the afternoon, the people in the mob who were Hindus started breaking that wall. The mob broke the wall and thereafter, the people in the mob started entering inside their houses. They were damaging their houses and setting them on fire. Out of fear that the people in the mob would also enter their house, with a view to save their lives, he and his wife locked their house and went away. Both of them went from one lane to other and kept on roaming around to safeguard their lives.

216.7 At around 5 to 6 o'clock, they had gone towards Gangotri Society. The mob was after them. The people in the mob had swords, pipes, sticks, kerosene cans, etc., in their hands. Upon trying to flee, the people in the mob had caught hold of his wife Shabnambanu. He was nearby. He saw that the people in the mob had inflicted blows with swords on his wife and wounded her. Thereafter, they had sprinkled kerosene or petrol on his wife and set her ablaze. He was terrified.

216.8 In the incident, he was injured on the back with a stone and on the heel of his left leg with a glass. Due to all this, out of fear he escaped with his life and reached a terrace of Gangotri Society. His wife died on the spot in the incident.

216.9 He stayed on the terrace till 11:30 to 12:00 at night, whereafter, upon the arrival of the police vehicle he sat in the vehicle and went to the Shah Alam camp. He stayed at the camp for three to four months. From the camp, the police had taken him to draw a panchnama of his house. In the incident, his house was damaged and all the household articles and goods were looted. He had sustained a loss of around fifteen to twenty thousand rupees. He had availed of treatment for the injuries sustained by him at Shah Alam camp.

216.10 The police had recorded his statement regarding the incident. The witness has stated that he does not know the people who had injured his wife with swords and set her on fire. However, he can identify them if they come in front of him.

216.11 CROSS-EXAMINATION: In the cross-examination of this witness, he has admitted that when the Jawannagar wall broke, it must have been around 2:30 to 3:00 in the afternoon and not prior thereto. The witness has admitted that till the Jawannagar wall broke, the people in the mob had not come to Jawannagar. He has stated that at the time when Shabnam was killed, it must have been around 6:00 to 6:30 in the evening. The witness has admitted that she must not have been killed prior thereto.

216.12 The witness has stated that his wife Shabnam was killed in a lane of Gangotri Society. He has admitted that at that time, he was in a lane of Gangotri Society. He has denied that at the time of the incident, he was not residing at Jawannagar. He has stated that there are three lanes in Jawannagar and that he knows the people residing in his lane. The witness has denied that no attack had taken place in the lane of Jawannagar till 3:30. The witness has denied that till he was in the Jawannagar lane, no attack had taken place. The witness has clarified that stone pelting was going on.

216.13 The witness has denied that from his lane in Jawannagar, one can see the Jawannagar pit. He has stated that this compound wall is behind his house. The witness has admitted that at the relevant time, one could not see what was happening behind the compound wall from his house. The witness has denied that at the time of the incident, he was residing in Hukamsing-ni-Chali. The witness has admitted that his father's name is Mahammadnasim Shaikh Buddhu Shaikh and his mother's name is Aminabibi and his brother's name is Gulamhussain and his sisters' names are Rabiya and Raziya. At the relevant time, they were residing at Hukamsing-ni-Chali. The witness has admitted that four months prior to the incident, he had gone to reside at Jawannagar.

216.14 The witness has admitted that in his statement dated 10.5.2002, he has stated that he was residing in the above house with his wife since the last four months and was paying rent of Rs.600/-, and prior thereto, he was residing with his father in Hukamsing-ni-Chali near Teesra Kuva. In the

opinion of this court, this part of the statement of the witness only corroborates what is stated by him in paragraph 15 of his cross-examination. Therefore, the same could not have been brought on record inasmuch as a statement under section 161 of the Code can only be used for the purpose of contradicting a witness and not for corroborating anything stated by him.

216.15 The witness has admitted that there is an open ground of Jawannagar behind his chawl and that there is other ground. He has admitted that from where he was staying, one can reach Gopinathnagar Society on foot in two to three minutes. He has stated that the mobs were at both the places, namely in the Jawannagar pit as well as in Hussainnagar.

216.16 The witness has denied that on that day, he had locked his house and straightaway started running towards Gangotri and Gopinath Society. The witness has admitted that while he was fleeing, his wife was with him.

216.17 The witness has stated that on that day when he reached there, there was no mob at the corner of Gangotri Society. The mob was near Gangotri Society. The witness has admitted that he had gone from Gangotri Society towards Gopinath Society and the mob which was coming behind them, was comprised of people who were at different places like Gangotri Society, Gopinath Society, Jawannagar and Jawannagar pit and had gathered together.

216.18 The witness has stated that on that day, while going towards Gangotri Society, no one had stopped him, but they were running to save their lives from the mob and were hiding

and had reached the terrace of Gangotri Society, therefore, the question of the mob stopping them did not arise.

216.19 The witness has stated that one can go straight from Jawannagar to Gangotri and on that day also, he had directly gone there. He had gone straight from Jawannagar to the terrace of Gangotri. The witness has admitted that thereafter, it was only after the police came at night that he had climbed down. The witness has admitted that thereafter, he had not gone towards Teesra Kuva and had remained hiding on the terrace of Gangotri.

216.20 In his cross-examination, it has further come out that while he was going, there was a mob in the direction of Gopinathnagar and hence, he had turned back. He had returned and come to Gangotri Society. The witness has admitted that he had returned to Gangotri Society from the same road on which he had gone to Gopinath Society.

216.21 The witness has stated that Shabnam was with him till they reached Gangotri Society. He has denied that Shabnam had reached behind Gangotri Society and the mob had caught her there and killed her. He has admitted that he had gone ahead and Shabnam was left behind and the mob caught hold of her and killed her. The witness has admitted that when all this happened, he was further ahead. He has denied that after ten to fifteen minutes, he had come back.

216.22 The witness has stated that he has not gone further from Gopinath Society. He has admitted that from where he returned to Gopinath, there is a road going towards Teesra

Kuva. He has denied that he has not seen his wife being caught and killed. He has stated that when he was returning from Gopinath Society, at that time the mob had caught hold of his wife which he had seen. The witness has voluntarily stated that she was injured with a sword and thereafter, was burnt, which incident he had seen. However, thereafter, out of fear, he had escaped from that place. He has stated that he had not seen the mob killing anyone else at that time.

216.23 The witness has denied that he had stated that his wife was killed by a mob behind Gopinath Society and that in his sole statement dated 10.5.2002, he has stated that they were running towards Gangotri Society near their house and his wife Shabnam was also with him and he had seen that there was a mob of Hindus near Gangotri Society due to which, they were going from near Gangotri Society towards Gopinath Society and the people in the mob behind his wife Shabnam could not run together him and he had gone ahead and his wife had reached behind Gopinath Society where the people of the Hindu mob caught her and injured her with a sword, sprinkled petrol and kerosene and lit a match stick and burnt her and he was ahead. However, since the mob of people was behind him, hence he kept running further forward and his wife Shabnam was killed on the spot and he had gone on a terrace of Gangotri Society.

216.24 The witness has admitted that he himself had gone on the road from where one can go to the lane behind Gopinath Society. He has admitted that at the time when Shabnam's incident took place, it had started becoming dark. The witness has stated that after going to the terrace of

Gangotri, he was quietly sitting there. He does not know whose terrace it was. There were several other people on the terrace. The people from Gangotri Society had not come to make them get down from the terrace or to kill them. The witness has voluntarily stated that they were sitting very quietly so that no one would know.

216.25 The witness has stated that there were few Muslims on the terrace where he was and that there was no place for getting down from this terrace from Gangotri Society to Jawannagar.

216.26 The witness has stated that at the Shah Alam camp, he had narrated the facts regarding Shabnam's incident to the police. The witness has admitted that the Shah Alam police had recorded his complaint about his wife Shabnam having died. The witness has admitted that he had not shown the place where Shabnam's incident had taken place. The witness has voluntarily stated that the police had not taken them there, and hence, he had not shown the place. The witness has stated that there is no other witness with him regarding Shabnam's incident. The witness has denied that he had not seen the incident and was falsely deposing before the court.

216.27 To bring out the omissions and contradictions in the testimony of this witness as to his statement dated 10.5.2002, the defence has cross-examined PW-278 Shri R.B. Joshi, the assignee officer, who, in his cross-examination has admitted that he had recorded the statement of this witness on 10.5.2002. The assignee officer has admitted that this witness in the statement recorded by him has stated that they were

running towards Gangotri Society, which is situated near their house and his wife Shabnambanu was also with him and they saw that a mob of Hindus was near Gangotri Society, due to which, they were going to Gopinath Society near Gangotri Society and the people in the mob behind themhis wife Shabnambanu could not run with him and he had gone further ahead and when his wife reached behind Gopinath Society, the Hindu mob caught her there and assaulted his wife with sword and injured her and sprinkled kerosene / petrol and set her ablaze and that he was ahead but the people in the mob were behind him, and hence, he went on running and his wife Shabnambanu was killed on the spot and he had gone on the terrace of Gangotri Society.

216.28 Once again from the cross-examination of the Investigating Officer, it is evident that through the process of cross-examination, it is only the contents of statement under section 161 of the Code recorded by him that are brought on record, without seeking to contradict any part of his examination-in-chief.

216.29 ANALYSIS: This witness has deposed that at round 2:30 in the afternoon the mobs had broken the Jawannagar wall and had started entering the chawls and ransacking them and setting them ablaze and fearing that the mob would also enter his house, he had his wife locked their house and fled to save their lives. They went around in the lanes fleeing for their lives. At around 5:00 to 6:00 in the evening, they went towards Gangotri Society and the mob chased them. The people in the mob were armed with weapons and had cans of kerosene, etc. While they were fleeing, the mob caught hold of his wife and

inflicted blows on her with a sword and caused injuries to her and then sprinkled either kerosene or petrol on her and set her ablaze. He was terrified and escaped with his life to a terrace of Gangotri Society. His wife died in the incident. This witness has specifically stated that he does not know any of the people who injured his wife and set her ablaze but can identify them if he sees them. The testimony of this witness is not challenged in his cross-examination and hence, the version given by him in his examination-in-chief is required to be accepted.

217. **PW-241 Bipin Jayantilal Mehta**, aged 57 years, has been examined at Exhibit-1681. The witness has deposed that on 28.2.2002, he was discharging duties at the police table of V.S. Hospital. Constable Bhikhaji Maknaji, ASI was also discharging duties at V.S. Hospital in the next shift. Bhikhaji being his co-employee, he is conversant with his handwritings.

217.1 The witness has deposed that at the police table at the V.S. Hospital, the main work which they are required to do is to write the vardhies of the injured. These vardhies are written under instructions of the doctors and they inform the concerned police station about the facts of the vardhies. At the police table, they maintain a register of the action taken by them. All the details of the vardhies are written in the register.

217.2 The witness has deposed that he has brought with him the Vardhi Register of the V.S. Hospital which starts from 9.1.2002 to 1.3.2002.

217.3 The witness has deposed that Bhikhaji is dead at present. The witness has proved the vardhy recorded by

Bhikhaji at internal page 128, which is in relation to one Mahammadkhalid Saiyadali, resident of Saijpur Bodha Patiya, Noorani Masjid, who has stated that on 28.2.2002, the riotous mob, when he was at home, he was injured on the stomach with a bullet and had been brought for treatment. This vardhy was received at night at 1:40 hours.

217.4 The witness has also proved the other vardhies recorded in the register relating to one Shakina Babubhai Bhatti, Razak Babubhai Bhatti, Mahammadhussain Kaiyumhammad Shaikh, Zarinabanu Naeemuddin, Shabinabanu Maheboobbhai, which are all in the handwritings of ASI Bhikhaji. The witness has thereafter proved the vardhies in relation to the patients being Maheboob Khurshid, Yasin Abdulmajid, Ahemad Badshah, Pirmahammad Allabax, Madina Arifbhai, Kulsum Ibrahimbhai, Farhinbanu Salambhai, Babul Maheboobbhai. The vardhies have been exhibited as Exhibits-1682, 1683 and 1684.

218. **PW-242 Mahammadsalim Ahemadbhai Shaikh**, aged 35 years, has been examined at Exhibit-1690. The witness has deposed that he can understand Gujarati. However, he will depose in Hindi as he finds it more convenient. He has studied in Gujarati up to the 5th standard.

218.1 He had come to reside at Hussainnagar only one year prior to the incident. The incident took place on 28.2.2002. At that time, there were riots. At the time of the incident, he, his wife Samirabanu, his son Aliabbas, all three of them were residing together. At that time, he used to do tailoring work. His wife was pregnant at that time.

218.2 On the day of the incident, there was a call for Gujarat Bandh, he was at home.

218.3 In the morning at around 9:00 to 9:30, he was at home when sounds came from outside. People were saying that the mobs have come outside. Therefore, he came out of his house and went to the entrance of *Kumbhaji-ni-Chali*. *Kumbhaji-ni-Chali* is situated opposite the S.T. Workshop compound wall near the neem tree. He went there and stood there.

218.4 He saw that there was a mob near the S.T. Workshop. There was a mob on the side of Krushnanagar also. The mob from the S.T. Workshop went towards the Noorani Masjid and started damaging the masjid and setting it on fire. Thereafter, the riots escalated. Thereafter, the police released tear gas at the Muslims and resorted to firing at them. In the firing, his paternal uncle Abidali was injured on his private parts with a bullet. Upon the bullet injuring him, around four boys from the chawl lifted his uncle and took him near Jadikhala's house. His uncle died on the spot.

218.5 Thereafter, after leaving his uncle, he went to Jawannagar to search for his family members. He found his family members at Jawannagar and all of them sat there for two to three hours.

218.6 Thereafter, at around 4 o'clock in the evening, he went towards his house. He was going back to *Khumbhaji-ni-Chali* with his entire family. At that time, a mob was standing

in the Jawannagar pit. In the mob, there were many people. Suresh Langdo (A-22), Haresh Chhara (A-10) and Guddu Chhara were in the mob. These three persons had weapons like rods and swords in their hands. However, he does not know exactly as to who was holding which weapon.

218.7 While he and his family were going towards *Kumbhaji-ni-Chali*, two youths from this mob came after them with swords in their hands. He took his wife and ran towards Jawannagar. At this time, his wife fell down and sustained a slight injury on her stomach. From there, he went straight to Gangotri Society.

218.8 At Gangotri Society, he had stayed on a terrace. His wife and his son were also with him. He was injured by a stone thrown by the mob in the Jawannagar pit. The injury was not serious, but he was injured. While they were on the terrace of Gangotri Society, at around 12 o'clock at night, a police vehicle had come to take them to the Shah Alam camp.

218.9 They stayed at the Shah Alam camp for about three months. He and his wife had taken treatment in connection with the injuries sustained by them at the camp. His wife had gone for her delivery to his in-law's house. His in-law's used stay at Solapur, Maharashtra. His native place is Ratnagiri, Maharashtra. After staying at the camp for about three months, he had gone to Solapur.

218.10 After three months, he came to know that his house was looted. Nothing was left in his house. He had sustained loss of approximately rupees two to two and a half lakh in the

incident.

218.11 In connection with the incident, the SIT had recorded his statement in the year 2008.

218.12 The witness has deposed that he had seen Guddu Chhara, Suresh Langda and Haresh Chhara in the mob in the Jawannagar pit and that he can identify all of them. He has learnt that Guddu Chhara has passed away. Thereafter, the witness has identified Suresh Langda (A-22) correctly. The witness has stated that he cannot see Haresh Chhara in the court, though Haresh Chhara (A-10) was present before the court. Therefore, the witness has failed to identify the said accused.

218.13 CROSS EXAMINATION: In the cross-examination of this witness, he has admitted that when he came to the corner of Kumbhaji-ni-Chali, there was no mob on the road. The mob was on the outer side. When he came out, the people had informed him that there were disturbances outside. When he came to the corner of Kumbhaji-ni-Chali, at that time he came to know about the mob. The witness has stated that after coming to the corner of Kumbhaji-ni-Chali, he has not stated as to whether he himself had seen the mob or whether somebody had told him that there was a mob. The witness has admitted that when he was at home, he had not informed anyone about the mob.

218.14 In the cross-examination of this witness, it has come out that when he left his house and came out, at that time, the Muslims from the lane had not gathered outside. At that time,

he did not meet any Muslim from his lane. The witness has voluntarily stated that the people were running helter skelter and therefore, there was no question of meeting each other. The witness has stated that he had not asked the people who were running as to why they were running. The people in the chawl were shouting that "the mobs are coming, mobs are coming". The witness has denied that when he reached, there was cross stone pelting and has voluntarily stated that the stones were being pelted only from the opposite side. The stones were being pelted from the side of the S.T. Workshop and the Noorani Masjid. The witness has admitted that he cannot say as to how long he had stayed there. He has stated that he had moved away from Kumbhaji-ni-Chali at around 12:00 to 12:30. When he was standing at the corner of Kumbhaji-ni-Chali, nobody had pelted any stones at him.

218.15 The witness has stated that he had not seen any movement of vehicles on the national highway on the day of the incident and has voluntarily stated that the road was packed with the mob. The witness has stated that while he was standing at the corner of Kumbhaji-ni-Chali, from 9:00 to 9:30 in the morning till 12:00 to 12:30 in the afternoon, he had not seen anybody causing any damage to any vehicle or any property. The witness has voluntarily stated that he had seen the masjid being destroyed.

218.16 The witness has stated that while he was standing there, he had not seen Hindu mobs entering their chawls. They were standing outside. The witness has stated that he does not remember as to with how many stones he was hit while he was standing there. He was injured by stones on his hand and leg.

Where he was standing, there were around fifty to sixty people belonging to the Muslim community.

218.17 The witness has stated that when his uncle was injured by a bullet, at that time it must have been around 12:30 in the afternoon. When he was injured by a bullet, his uncle was on the road. He was slightly behind him at the corner of Kumbhaji-ni-Chali.

218.18 The witness has stated that Jadikhala's house is in Hussainnagar Lane No.3. He knows Jadikhala. She was his grandmother. Jadikhala's house was in Lane No.3 of Hussainnagar after leaving approximately ten houses. The witness has denied that after leaving his uncle at Jadikhala's house, he had gone home. He had not gone home for the reason that his family members were not at home. When he came home, everyone's house was vacant, and hence, he came to know that his family is also not at home. Nobody had informed him as to where his wife and child were. He had gone to stay at Hussainnagar one year prior to the incident and his parents were residing in Hukamsing-ni-Chali and his grandparents were also residing there. The witness has stated that since he had separated, he was residing with his wife and child at Hussainnagar. The witness has stated that he does not know anyone at Jawannagar and that his wife and child were standing with others at one corner in Jawannagar.

218.19 The witness is cross-examined with regard to the topography of the area and the nature of population of Jawannagar, etc. In the cross-examination of the witness, it has come out that he started going home at about 4:00 to 4:30 in

the evening. When he set off to go home, no one was with him. The witness has stated that while he was trying to return home, he had not seen any mob on the road. The mob was in the Jawannagar pit. He had seen the mob in the Jawannagar pit from the place behind the toilets. At that time, there were many people in the pit. He has admitted that there were so many people there and that there was no space in the pit.

218.20 The contents of paragraph 7 of the examination-in-chief of the witness from the third line to the fourth, wherein the witness has stated that at that time, there was also a mob in the Jawannagar pit, are read over to the witness and he has denied that he has not stated these facts in the statement recorded by the SIT. The witness has denied that in his examination-in-chief, he has stated that the S.T. Workshop mob had gone towards the Noorani Masjid, wherein he has stated that the entire S.T. Workshop mob had gone to the Noorani Masjid. The witness has voluntarily stated that half the mob had gone and the other half of the mob had remained near the S.T. Workshop.

218.21 The witness has admitted that in his statement dated 2.7.2008 recorded by the SIT, he had stated that the Hindu mob had pelted stones due to which the Muslims had also pelted stones. The witness has voluntarily stated that what he means to say is that when there was stone pelting at the Noorani Masjid, to protect it, several Muslims had pelted stones. The witness has denied that on the day of the incident, he was not at the site of the incident, he was not at the corner of Jawannagar and was not in the mob, and hence, he could not give anyone's name and therefore, he has given his

statement in the year 2008, wherein he has falsely named the three accused at the instance of somebody else.

218.22 To bring out the omissions and contradictions in the testimony of this witness, the defence has cross examined PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), who, in his cross-examination, has admitted that he has recorded the statement of this witness on 2.7.2008. Certain extracts of paragraph 7 of the examination-in-chief are read over to the Investigating Officer, wherein the witness has stated that at this time a mob was standing in the Jawannagar pit. The Investigating Officer has admitted that the witness has not stated these facts in those words, but had stated that he had seen these three persons in the mob.

218.23 SUBMISSIONS: The learned counsel for the appellants submitted that no statement of this witness has been recorded by the police and for the first time, he has come up with those allegations in the statement recorded by the SIT on 2.7.2008. It was submitted that this witness in paragraph 7 of his deposition, says that at about 4:00 p.m., while he was taking his family back to Kumbhaji-ni-Chali after he found his family members at Jawannagar, he saw a mob in Jawannagar khada, in which he could notice the presence of accused No.10, accused No.22 and Guddu with some weapons. It was submitted that this is not possible for two reasons. Firstly, if at 4:00 p.m. after he found his family members in Jawannagar and if he was coming back home to Kumbhaji-ni-Chali, he would not have to pass through the Jawannagar pit at all; and secondly, if such a big crowd had gathered in the Jawannagar pit, which according to him was a huge crowd, if they were

seen by the mob, they would have been chased and would not have escaped without any injury.

218.24 Referring to paragraph 9 of his examination-in-chief, it was submitted that the witness has created a story to give a natural colour to the incident. It was submitted that the witness had no reason to go to Kumbhaji-ni-Chali as he was residing in Hussainnagar. As regards having seen the mob in the khada, the witness says this for the first time before the court, which omission has been brought on record through the testimony of the Investigating Officer. It was submitted that the very fact that the witness could not identify accused No.10 whom he has named while he was so hurriedly looking at the mob and identifying him, is a clear indication that he has come up with a false story, taking advantage of the further investigation made by the SIT to come forward after six and a half years and implicate somebody. It was submitted that therefore, in paragraph 46 of his cross-examination, the witness has very cleverly stated that while he was in the camp for three months, he had not seen any police having come there, which is completely contrary to the evidence on record. It was submitted that moreover, this witness has referred to Abid having sustained injury at 12 o'clock in the afternoon. It was submitted that this witness is not a credible and trustworthy witness and cannot be relied upon.

218.25 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness is a truthful witness who has stuck to his stand and is believable. Referring to paragraph 7 of his deposition, it was submitted that the witness has seen accused No.22 and accused No.10 at the

Jawannagar khada at 4:00 p.m. It was submitted that this witness is a truthful witness who has stated whatever he had seen. There is no other contradiction proved in the testimony of this witness and therefore, the presence of accused No.22 is proved beyond reasonable doubt.

218.26 ANALYSIS: From the testimony of this witness, it emerges that his statement was not recorded at the relevant time when the incident took place and for the first time after more than six years, his statement came to be recorded by the SIT, wherein he has implicated accused No.22 Suresh Chhara, accused N0.10 Hares Chhara and Guddu Chhara (deceased). As per the version given by this witness, he was residing at Hussainnagar. At 9:00 to 9:30 he heard sounds from outside and went to the corner of Kumbhaji-ni-Chali to see what was going on. He stood there and saw mobs coming and the riots escalating and the police releasing tear gas at the Muslims and resorting to firing wherein his uncle Abidali was injured on his private parts by a bullet. The witness says that he and four to five other youths lifted him and took him to Jadikhala's house. Thereafter he went to Jawannagar, in search of his family members and he found them there. He took his entire family and started coming towards Kumbhaji-ni-Chali at around 4 o'clock. It may be noted that Kumbhaji-ni-Chali is the first chawl when one enters from the national highway. The houses in the chawls towards the highway had been damaged first in point, and hence, there would be no question of anyone coming from Jawannagar to Kumbhaji-ni-Chali. While all the other witnesses say that upon the mobs coming, they fled towards the rear side towards Jawannagar and Gangotri, this witness says that he was coming with his family towards the

front side. The witness claims that at this time he saw a mob in the Jawannagar pit wherein he saw the three accused who were armed with weapons. According to this witness while they were going to Kumbhaji-ni-Chali, two youths chased them with swords in their hands, due to which he and his wife fled towards Jawannagar and at that time his wife fell down and sustained minor injuries. In the opinion of this court, if two youths were chasing the witness and his pregnant wife and his wife had fallen down, she could not have escaped from the persons who were chasing them. The witness says that thereafter, they went to a terrace of Gangotri Society. Considering the version given by the witness, the court finds force in the submission advanced by the learned counsel for the appellants that the witness had no reason to go to Kumbhaji-ni-Chali at that time, inasmuch as he was a resident of Hussainnagar and considering the situation on that day, there would be no reason for him to go to Kumbhaji-ni-Chali at that time of the day.

218.27 There are several other material discrepancies in the testimony of this witness, inasmuch as he says that the incident of Abid took place at around 12:30 in the afternoon, which is contrary to the version given by a majority of the witnesses. Considering the overall testimony of this witness, he does not come across as a credible and trustworthy witness. Besides, the version given by the witness has come for the first time after a period of six years from the date of the incident. Therefore, also it would be very risky to rely upon such evidence. The evidence of this witness, therefore, would not assist the prosecution in establishing the charge against the named accused.

219. **PW-243 Sabbirali Niwasali Ansari**, aged 38 years, has been examined at Exhibit-1694. The witness has deposed that he can understand Gujarati to a limited extent. He has studied in Gujarati up to the 4th standard, but he finds it more convenient to speak in Hindi and will, therefore, depose in Hindi. His native place is Basti, District: Uttar Pradesh.

219.1 In the year 2002, he was residing at *Jigarhasan-ni-Chali, Behind Noorani Masjid, Naroda Patiya* and has been residing there since the last thirty five years.

219.2 The incident took place on 28.2.2002. At the time of the incident, his two brothers, his mother, his wife and three sons, were all residing together. In the year 2002, he used to ply a rickshaw of his ownership.

219.3 On 27.2.2002, in the evening, while he was driving his rickshaw, he came to know that a train had been set on fire at Godhra. He continued to ply his rickshaw and had returned home via Ashok Mill and Krushnanagar.

219.4 At this time, on 27.2.2002, at around 9:00 to 9:30 at night he had seen a mob at Krushnanagar. The situation was bad. Thereafter, he came home and went to sleep.

219.5 On 28.2.2002, in the morning, he woke up and came to Milan Hotel, near the Noorani Masjid to have tea. Upon going there, he came to know that there was a call for Gujarat Bandh. There were four to five other people from their mohalla who had come to have tea at the tea hotel.

219.6 In the morning, at about 7:00 to 7:15, Shri Mysorewala, who was the Police Inspector of Naroda Police Station, had come to the Noorani Masjid. At this time, other persons had gone to show Juni Masjid which is situated behind the Noorani Masjid, to Shri Mysorewala because Shri Mysorewala had asked them about Juni Masjid. Shri Mysorewala saw Juni Masjid and then returned.

219.7 After coming back, Shri Mysorewala went towards Natraj Hotel. A mob started slowly gathering near Natraj Hotel. The mob was comprised of Hindus. The people in the mob started slowly advancing towards their Noorani Masjid. The people in the mob had weapons like sticks, swords, dharias, etc., in their hands, and were shouting slogans of Jay Shri Ram and were committing loot and causing damage.

219.8 In this mob, he had seen Suresh Langda, Jaybhavani and Guddu Chhara. Moreover, there was another mob coming from Krushnanagar. In this mob, he had seen Bipin Panchal. At this time, Bipin Panchal had something like a revolver with him. The police was with the mob. The mob from Krushnanagar also came towards the Noorani Masjid. The people in the mob were pelting stones at the Muslims.

219.9 Thereafter, the police released tear gas and resorted to firing against their community. In this firing, a person named Abid was killed. Abid who was injured with a bullet, was on the side of the S.T. Workshop. At this time, the police also had resorted to firing from the direction of Krushnanagar, wherein a boy belonging to the Muslim

community had died.

219.10 He saw all this. Thereafter, upon all this happening, at around 11 o'clock in the morning, they returned to their mohalla. With a view to see that the mob does not enter their chawls behind the Noorani Masjid, they put wood and plastic, etc., in the lanes and set them on fire and created obstacles to prevent the mob from entering inside. Thereafter, they went to their mohalla. On the next day, upon the police vehicle coming, they sat in that vehicle and came to the Shah Alam camp. They had stayed at the Shah Alam camp for six months.

219.11 He had parked his rickshaw where there was a parking place next to Bipin Auto Centre.

219.12 During this incident, his house had been set on fire. They learnt about this fact at the camp. When he was at the camp, the police had recorded his statement.

219.13 In 2008, the SIT had recorded his statement regarding the incident.

219.14 The witness has deposed that he knows that Suresh Langdo, Bipin Panchal, Guddu and Bhavani, who were in the mob. At present, Guddu and Bhavani are dead. The witness has thereafter identified Suresh Langdo (A-22) correctly. However, he has identified accused No.17 as accused No.44 Bipin Panchal. Thus, the witness has not been able to identify accused No.44 Bipin Panchal correctly. The court has made a note below that accused No.44 Bipin Panchal is present in the court and that he had removed the spectacles which he

routinely wears and after the witness had identified the wrong accused, he was laughing a lot.

219.15 CROSS-EXAMINATION: In his cross-examination, the witness is sought to be confronted with his statement dated 13.5.2002 to the effect that he had stated therein that he had gone to have tea near the Noorani Masjid at around 9:30 in the morning and then it appeared that a mob of people were coming towards their chawl from the direction of Naroda Patiya, and hence, he went from there to his chawl and they had tried to put up obstacles to see that the mobs do not enter into their chawls. The witness is further confronted with his statement dated 13.5.2002 recorded by the police to the effect that he had stated that he does not know any person in the mob. The witness has denied that he had not given the names of the accused whom he has referred to in his examination-chief and identified before the court, in his statement recorded at the camp and has ultimately, stated that they used to give the names but the police were not writing them down.

219.16 In his cross-examination, it has further come out that he came to know that the police had not recorded the facts, as stated by him, when he went to get a copy of the panchnama that he needed, as the people who were sitting at the camp had asked for it as his house had been burnt. In his cross-examination, it has further come out that he was not read over his statement which was recorded at the camp. He, however, has admitted that he got a copy of his statement and he had taken it and gone to meet the people at the camp, who told him that the names of the accused were not written down in the statement. From the note below the statement of the

witness, it appears that the witness was replying the questions put to him in his cross-examination without understanding the same and hence, the court had impressed upon him to first understand the question and then give a reply.

219.17 The witness has admitted that the police had recorded two statements of his, one at the time of carrying out survey and the second in the camp. In his cross-examination, it has further come out that he had made an application to the SIT on his own and that the facts stated therein are correct and that he is aware of the facts stated therein. The application is exhibited as Exhibit-1695. The witness has stated that in his examination-in-chief he had stated that his statement was recorded by the police at the Shah Alam camp, whereas in his application Exhibit-1695, he had stated that the police had not recorded his statement, that upon being asked which fact is correct, he has stated that the police has not recorded his statement at the camp.

219.18 In his cross-examination, the witness was confronted with his statement recorded by the SIT to the effect that he had stated before the SIT that he had gone to the hotel at 11 o'clock in the morning. The witness, however, has stated that the SIT has committed a mistake in recording the time and that while he had stated that he had gone to the hotel at 7 o'clock in the morning, the SIT had wrongly recorded the same as 11 o'clock. The witness has admitted that from 7 o'clock to 9 o'clock in the morning, he was at Milan Hotel.

219.19 The witness has been cross-examined with regard to the topography of the area. The witness has admitted that

in his statement before the SIT he has not stated that after returning, Shri Mysorewala had gone towards Natraj Hotel. The witness has admitted that when they put obstacles, the mob had started pelting stones at the Noorani Masjid. He has further admitted that both sides of the road were jam-packed and there was no space to walk. The witness has admitted that he did not have any relations with the accused whom he has named in his examination-in-chief and identified before the court. He, however, has denied that he was falsely deposing before the court at the instance of his community.

219.20 To prove the omissions and contradictions as to his previous statement recorded by the investigating agencies brought out in the testimony of this witness, the defence has cross-examined the concerned assignee officer and or Investigating Officer who had recorded such statement.

219.21 PW-292 R. C. Pathak, the assignee officer has, in his cross-examination, admitted that he has recorded the statement of this witness on 13.5.2002. The assignee officer has admitted that this witness had stated that he had gone near the Noorani Masjid to have tea at around 9:30 in the morning. At that time, it appeared that a mob of people was coming from Naroda Patiya towards their chawl, due to which, he went away from there to his chawls and to prevent the mob from entering inside, created obstacles in their chawls and the mobs tried to come inside the chawls, but could not come in. Thereafter, on 18.3.2002, the police from Shah Alam came and said that there is a police point there, whoever wants to go and see their house, should go, and hence, he had gone. Certain parts of the statement of the witness were put to the assignee

officer, wherein the witness has referred to the damage sustained by him and has stated that he does not know any person in the mob and could not identify anyone and he does not want to say anything more. The assignee officer has admitted that the witness had not given the name of any accused before him. The assignee officer has admitted that when he went to record the statement of this witness, the Investigating Officer had not given him any complaint which the witness had made.

219.22 The contents of paragraphs 4, 5 as well as 7 to 10 and 12 of the examination-in-chief are read over to the assignee officer, who has admitted that such facts are not stated by the witness in the statement recorded by him. The contents of paragraph 6 of his examination-in-chief, wherein the witness has stated that four to five other people from their mohalla had also come to have tea; as well as the contents of paragraph 11 of the examination-in-chief of the witness have been read over to the assignee officer, wherein the witness has stated that he saw all this and thereafter, at around 11 o'clock, upon all this happening, he returned to his mohalla. The assignee officer has admitted that this witness has not stated such facts in the statement recorded by him.

219.23 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has in his cross-examination admitted that he has recorded the statement of this witness on 4.6.2008. Certain extracts of the statement of the witness have been read over to him, and he has admitted that this witness had stated such facts before him.

219.24 SUBMISSIONS: Mr. Y.S. Lakhani, learned counsel for the appellants submitted that this witness has involved four persons, out of whom, Jaybhavani and Guddu have passed away. It was submitted that the witness claims to have seen accused No.22 Suresh in the morning mob at Natraj Hotel, but he has not named him in his police statement dated 13.5.2002. He is named for the first time on 4.6.2008 before the SIT. It was submitted that as regards accused No.44 Bipin, the witness has stated that he saw him in the mob coming from Krushnanagar and has alleged that he was having something like a revolver with him. It was submitted that the name of the accused and the weapon held by him has not been mentioned in his statement dated 13.5.2002, and for the first time before the SIT, he has named him. It was submitted that this accused has not even been identified before the court and instead accused No.17 has been identified in his place. It was submitted that in paragraph 13 of his deposition, the witness has stated that his statement was recorded by the police at the camp; however, he says that the contents of his application where he has stated that his statement was not recorded by the police are correct. Therefore, out of the two versions, he was specifically asked as to which fact is correct and he stated that his statement was not recorded by the police and what he had stated in the application was correct. Therefore, in paragraph 61 a specific suggestion is made. On a conjoint reading of paragraphs 13 and 35 of his deposition, it is very clear that he made such averments to the SIT in his application Exhibit-1695 that his statement is not recorded so that he can give a statement before the SIT and bring in these four accused persons for the first time.

219.25 Referring to the contents of paragraph 62 of his deposition, it was submitted that the witness has no relations with the accused and yet he has named accused No.22 and 44 before the SIT, though he had no acquaintance with them.

219.26 Referring to the contents of paragraph 10 of his deposition, it was submitted that the witness could not have identified the accused from across the road and that no witness has stated that any one at the Noorani Masjid received bullet injuries and died. It was submitted that considering the contents of paragraph 11 read with paragraph 40 of his deposition, it is evident that this witness could not have seen anything that was happening and he could not have seen any accused as he was with them only from 7:00 to 9:00 a.m.

219.27 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that the fact that this witness has not named Suresh in his police statement is no ground to discard his evidence qua the said accused. It was submitted that from the testimony of this witness, he comes across as a credible and trustworthy witness and hence, there is no reason to disbelieve the evidence of the said witness qua the named accused.

219.28 ANALYSIS: From the testimony of this witness it emerges that his statement was recorded at the relevant time on 13.5.2002, wherein he had not named any accused. Subsequently, before the SIT in the year 2008, he has disclosed the names of four accused, two of whom are dead. In his cross-examination, on the one hand he has admitted that his statement was recorded at the camp and on the other

hand, when he was confronted with his application made to the SIT wherein he had stated that his statement was not recorded by the police, he has chosen to stick to the contents of the application and stated that in that case his statement was not recorded by the police. As to the manner in which the applications came to be made and their evidentiary value has been discussed separately.

219.29 Having regard to the fact that the witness in his first available statement had not named the accused, it would be hazardous to rely upon his testimony to prove the charge against the named accused. However, one fact that is established from the testimony of this witness, in respect of which he has been consistent throughout, is that with a view to prevent the mobs from entering the chawls behind the Noorani Masjid, the witness and others had put obstacles in the lanes. Probably that is one of the reasons why hardly any casualties have been reported insofar as the chawls situated behind the Noorani Masjid are concerned.

220. **PW-244 Maiyuddin Imamuddin Shaikh**, aged 42 years, has been examined at Exhibit-1703. The witness has deposed that his native place is District Mehsana, Gujarat and he knows Gujarati well. He has done his S.S.C. in Gujarati medium.

220.1 At present, he is residing at Citizennagar with his family. The incident took place on 28.2.2002. On that day, there was a call for bandh. In the year 2002, he was residing in *Lane No.3, Hussainnagar, Naroda Patiya* with his wife and three children. The house was a rented one. The witness has

stated that he has an 8th standard pass certificate, but has studied thereafter till the 10th standard.

220.2 On the day of the incident, he was at home and had not gone to ferry passengers in his auto rickshaw. While he was at home, he could hear the sounds of commotion by the mob and the people in the chawls were running helter skelter. His wife informed him that something had happened on the road. He went on the road to look. He was standing next to the S.T. Workshop. He saw that two huge different mobs were coming from the direction of Natraj Hotel as well as Krushnanagar. The people in the mob had attacked the Noorani Masjid and were damaging it and were shouting slogans of "Jay Shri Ram".

220.3 The people in the mob had tied saffron bands on their heads and they had sharp edged weapons in their hands. They had swords, trishuls, spears, iron pipes, etc. and the people in the mob were damaging the masjid. Some of the people in the mob started pelting stones directly at them. At that time, it was around 10:15 to 10:30 in the morning.

220.4 Upon the mob pelting stones at them, his son Nasruddin, aged 7 years, was injured by a stone on his forehead and was bleeding. He was taking him towards his house, in the meanwhile, a tear gas shell struck him on the left side of his chest, and hence, he too was injured. During this period, other tear gas shells were also released which injured him on the palm of his right hand. Thereafter, he went straight home and put bandages on himself and his son.

220.5 After a little while, the mob which had pelted stones at them entered Hussainnagar. The people in the mob commenced vandalism and loot at Hussainnagar. With a view to save their families, they went towards Jawannagar. A part of the S.R.P. Quarters compound wall near Jawannagar, was broken, from which the children of their mohalla used to go to school. He requested the S.R.P. jawans at the S.R.P. Quarters to let them go inside as otherwise these people would kill them; however, they had refused to do so.

220.6 There is an open plot near the S.R.P. compound wall at Jawannagar, where several Muslims were sitting with their family members. He, with his family, went and sat there. At this time, it was around 2:00 to 2:30 in the afternoon. In the meanwhile, a huge mob rushed towards them from Uday Gas Agency.

220.7 Babu Bajrangi was leading this mob. He gestured the mob with his fingers and pointed towards them (the Muslims) due to which the mob attacked them.

220.8 At that very moment, he took his family and went to a terrace of Gangotri Society, where they hid themselves.

220.9 Before going to the terrace in this manner, when Babu Bajrangi was in the mob, some Muslim people were saying "Woh khada Babu Bajrangi" [Babu Bajrangi is standing there]. He was wearing a white kurta and a white pyjama and has tied a saffron scarf around his neck. The witness had never seen him prior to the day of the incident; however, on that day, because of the people saying so, he could recognize him.

Thereafter, they had gone to the terrace of Gangotri Society.

220.10 While they were on the terrace, they could hear the shouts of “bachao bachao” [help help] and sounds of the mob shouting “maro, kapo, looto” [kill, hack, loot]. At this time, it was around 6:30 in the evening. He stayed on the terrace of Gangotri Society till 10:30 to 11:00 at night. After 10:30 at night, they could hear sounds of bands playing on the road and people bursting fire crackers. Thereafter, the police arrived and took them in a vehicle to Shah Alam relief camp.

220.11 At the relief camp, he and his son availed of treatment for the injuries sustained by them.

220.12 At the time of the incident, he used to run a rickshaw on hire which was burnt down and all the household articles and other things in his house were looted in the incident. He had sustained loss with respect to his household goods.

220.13 He stayed at the relief camp for around six months. His statement was recorded at the relief camp. The statement was not read over to him. Thereafter, he had given an application to the SIT and his statement was also recorded there. The witness is shown his signature at the bottom of the application, mark 644/43 and he has identified his signature. He has stated that the application is in his own handwriting. The witness has stated that he knows how to read Gujarat and after reading the application, he has admitted the contents thereof. The application is exhibited as Exhibit-1704.

220.14 The witness has stated that he knows Babu Bajrangi and though a long time has elapsed, he may be able to identify him. The witness has thereafter identified accused No.47 Ramesh Keshavlal Didavala as Babu Bajrangi (A-18). Thus, the witness has not been able to correctly identify accused No.18.

220.15 CROSS-EXAMINATION: In his cross-examination, the witness has denied that he knows how to speak, read and write English properly. The witness has stated that he knows how to sign in English and read a little. Other than that, he does not know English. The witness has admitted that he has written the facts in his application Exhibit-1704 to the SIT after thoughtful consideration. The witness has stated that prior to his making the application Exhibit-1704, his complaint and statements recorded at the camp were not read over to him. The witness does not remember as to whether he has filled in any loss damage form. The witness is shown his signature on certain documents and he has admitted that such signature. The document is given Exhibit-1705. The witness has stated that he does not know whether the persons who wrote down the documents were policemen and has voluntarily stated that they were not wearing uniforms. He has stated that none of the persons who wrote down the complaints were from amongst the managers of the camp. The witness has admitted that complaints of other affected persons were also being recorded at the camp.

220.16 The witness has denied that the police had explained to him that his complaint is included in Crime Register No.176/02. The witness has stated that he does not know the person who had recorded his complaint and who had

filled in his loss damage form. The witness has denied that in his printed complaint application Exhibit-1705, against the column of names of people in the mob, he had stated Chharas and given the address Chharanagar. The witness has admitted that in the loss and damage form (Exhibit-1705), he had stated that Chharas from Chharanagar and Sindhis were involved in the looting and the Bajrang Dal people were also involved in looting. The witness has stated that he had no dispute or enmity with the officer of the SIT, who recorded his statement. He has stated that after his statement was recorded it was read over to him. The witness has voluntarily stated that he had told the SIT people that in his statement recorded at the camp in the year 2002, the police who recorded his statement had not written down what was dictated by him and that he has not stated that the statement was correct and proper and that to that extent there is a mistake in the statement recorded by the SIT. Moreover, he had stated that he had seen Babubhai Bajrangi in the open ground of Jawaharnagar and had informed the SIT about it. However, by mistake, they have not written it down.

220.17 The witness has admitted that his statement was recorded at the camp on 13.5.2002 and that his statement was not read over to him. The witness is confronted with his statement dated 13.5.2002 to the effect that his wife had woken him up at quarter to ten and told him that there was commotion outside and that he should go out. The witness has stated that the police had made a mistake in writing it down. The witness has denied that in his statement dated 13.5.2002, he has stated that there was a mob of around seven to eight thousand Hindus. The witness has stated that he has not given

the number of people in the mob, but had only stated that it was a huge mob. The witness has denied that in his statement dated 13.5.2002, he has stated that the police was releasing teargas shells at the mob and had also resorted to firing. The witness has denied that he has not stated that they had locked their house and fled and that the S.R.P. people had made them sit there. It may be noted that the witness has been confronted with his police statement without seeking to contradict any part of his evidence, which is not permissible in law.

220.18 The witness has admitted that they had stayed on the terrace where they had gone, till 10:30 at night. The witness has denied that in this very statement he has stated that while he was climbing on the terrace, he was injured by a police teargas shell on the palm of his right hand and on his chest by the another shell. The witness has denied that the police was releasing teargas and was firing to disperse the Hindu mob. He has admitted that in his statement dated 13.5.2002; he had stated that he does not know any person in this riotous Hindu mob. The witness has voluntarily stated that he knows the leader of the mob Babu Bajrangi, for the reason that people had acquainted him with such fact.

220.19 The witness is confronted with his statement dated 26.6.2002 to the effect that he had stated therein that on 28.2.2002 there was a bandh call in the context of Godhra train incident and that on that day, at around 9:30 to 10:00, a mob of around ten to fifteen thousand Hindus came shouting "kill" "cut" due to which, out of fear, they locked their house and went and hide on the terrace of Gangotri Society, which is situated on the rear side. On 1.3.2002 at about 1:30 at night,

upon the police vans coming... The witness has voluntarily stated that he had stated the facts stated by him in his examination-in-chief.

220.20 The witness is confronted with his statement dated 26.6.2002, to the effect that he has stated therein that no person in his family had sustained any loss of life and that he does not know any person in the Hindu mob and does not know their addresses. The witness has voluntarily stated he had clearly stated that he knew Babu Bajrangi, who was leading the mob, on account of people saying so.

220.21 The witness is confronted with his statements dated 13.5.2002 and 26.6.2002 to the effect that, in both the statements, he has not stated the facts stated by him in paragraph 4 to 13 of his examination-in-chief. The witness has further denied that he has not stated such facts in his printed complaint Exhibit-1705. The witness has admitted that when he reached the S.R.P. camp compound wall it must have been around 2:30 in the afternoon. They had remained in the Jawannagar open ground. The witness has stated that they were sitting at a place where on one side there is the S.T. Workshop compound wall and on the other side there is the compound wall of the S.R.P. Quarters and that they were sitting in the open ground in between them. The witness has denied that between the two, there is no wall of the pit. The witness is stated that he does not know as to whether the open ground where he was, is called the Jawannagar Khada. The witness has stated that he had newly come to reside in that area. The witness has admitted that from where he was sitting he could clearly see that Uday Gas Agency road. The witness

has voluntarily stated that there is wall across Jawannagar and that they were sitting behind such wall and from there they cannot see the road. The witness has admitted that from where they were sitting, they could not see Uday Gas Agency road. The witness has admitted that while they were sitting near the wall after some time another mob of Hindus came from the Uday Gas Agency road. The witness has admitted that prior thereto, he had not seen any mob coming from the Uday Gas Agency road. He has additionally stated that the mob which came from the side of Uday Gas Agency broke the Jawannagar compound wall, after which he has seen the mob. Babu Bajrangi was instigating the mob, and upon seeing this, the Muslims were pointing and saying "look Babu Bajrangi is standing there". In this manner, the people in the mob demolished the Jawannagar compound wall. This wall, which the mob had broken on that day, was between the road coming from Uday Gas Agency and the road for entering into the Jawannagar. The witness has admitted that till the mob broke the wall, it was complete and he could not see anything behind the wall. The witness has denied that after the mob came and Babu Bajrangi pointing his fingers, he has gone to Gangotri Society. The witness has voluntarily stated that he had climbed on the terrace of Jawannagar and from there had gone directly to Gangotri Society and had not gone through S.R.P. Quarters. The witness has stated that he does not know as to on whose terrace they had gone to in Gangotri Society and has voluntarily stated he remembers that there was a temple in that lane.

220.22 The witness has denied that he had not seen the wall breaking and the mob coming and that he had directly

gone to the terrace of Gangotri Society. The witness has denied that in his statement dated 3.6.2008 he had stated before the SIT that at this time the Muslims from the chawl who were standing on the terrace stated that look Babu Bajrangi is standing there wearing white pyjama and kurta and has tied saffron scarf around the neck. The witness has admitted that from the terrace where he was, the road below or any other thing could not be seen. The witness has admitted that if they stand behind the wall, they cannot see anything from the terrace.

220.23 The witness has admitted that from the terrace they had gone on foot till the police vehicle and that the police vehicle which had come to pick them up was parked at the entrance of their chawl. The witness has admitted that while they had gone walking on the road, there was scrap like glass, stones etc. The witness has admitted that while they were going to the camp, the mob had stopped their vehicle near Natraj Hotel and the police had to release teargas.

220.24 The witness has admitted that he does not have any kind of social or other relations with the accused whom he has named and whom he has identified before the court and that he had never met him prior to the incident. The witness has admitted that in connection with the mistakes that took place in the SIT statement, he had not made any application to any authority. The witness has stated that he does not know any person by the name of Rameshbhai Keshavlal Didawala.

220.25 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-

examined the concerned Investigating Officer/assignee officer who recorded such statement.

220.26 PW-281 Shri D. S. Vaghela, the assignee officer has admitted that he has recorded the statement of this witness on 13.5.2002. He has admitted that this witness had stated before him that at around 9:45 in the morning, his wife had woken him up and told him that there was commotion outside and he should go out and see; that there was a mob of around seven to eight thousand Hindus; that the police was releasing tear gas against this mob and was firing; that they had locked their houses and fled; that the S.R.P. people had made them to sit; that when he was climbing on the terrace, at that time, he was injured on the palm of his right hand as well as on his chest with a police tear gas shell.

220.27 The contents of paragraph 4 of the examination-in-chief of the witness are read over to the assignee officer. He has admitted that the witness has not stated such facts in the statement recorded by him. He, however, has clarified that what was stated by the witness before him, meant the same. In this regard, if what was deposed by the witness and what was stated before the police is more or less the same, except for the different manner of expression, then there is no contradiction and the trial court should not have permitted the witness to be contradicted in that regard.

220.28 Certain extracts of paragraph 5 of the examination-in-chief of this witness are read over to the assignee officer, who has admitted that such facts have not been stated by the witness in his statement recorded by him, but has stated that

the witness had stated before him that the people in the mob were attacking the chawl and similar fact regarding the people in the mob were pelting stones, is also there.

220.29 The contents of paragraph 6, 7, 8 to 11 and certain extracts of paragraphs 12 and 13 of the examination-in-chief of this witness are read over to the assignee officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him.

220.30 PW-291 M. B. Raj, the assignee officer has, in his cross-examination, admitted that he had recorded the statement of this witness on 26.6.2002. The contents of paragraphs 39 and 40 of the deposition of the witness which is in inverted commas, are read over to the assignee officer, wherein it is stated that on 28.2.2002, there was a call for Gujarat Bandh in the context of Godhra train incident. On that day, at around 9:30 to 10:00 in the morning, a mob of ten to fifteen thousand Hindus had come, shouting "kill, cut", and out of fear, they had locked their houses and had gone to the terrace of Gangotri Society situated on the rear side and had hidden there. On 1.3.2002 at around 1:30, upon the police vehicles coming they were taken to the relief camp. No member in his family had sustained any loss of life and that he could not recognize any person in the Hindu mob and does not know their address. The assignee officer has admitted that the witness had stated that the above facts in the statement recorded by him.

220.31 The contents of paragraphs 4 to 13 of the examination-in-chief of the witness are read over to the

assignee officer who has admitted that the contents of paragraphs 5, 6, 7, 8, 9 and 11 have not been stated by the witness before him. In the context of paragraph 4, the assignee officer has stated that the words "sounds of ho..ha" as stated in the examination-in-chief have not been stated by the witness, but he had stated that a mob had come shouting "kill, kill, cut, cut". The assignee officer has denied that all the facts stated in paragraph 10 of his examination-in-chief have not been stated by the witness and that the witness had stated that they had gone to the terrace of Gangotri Society and that he had not used the words "his family", but has stated "they", the meaning of which is the same. The assignee officer has denied that this witness had not stated the facts stated by him in paragraphs 12 and 13 of his examination-in-chief and that he had stated that they were on the terrace. Other than that, the contents of paragraph 12 have not been stated by him. Insofar as the contents of paragraph 13 are concerned, the assignee officer has stated that the witness had only stated before him that they were taken in the police vehicle to the Shah Alam camp.

220.32 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statement of this witness on 3.6.2008. He has admitted that this witness had stated before him that at this time, the Muslims from the chawl from the terrace started saying that, "*Woh khada re Babu Bajrangi, safed lengha jhabhbha pehna hai. Galama kesri rumal chhe!*" The statement dated 13.5.2002 recorded by the police has been read over to him and the same is proper and correct. It may be noted that the contradiction sought to be proved through the testimony of

the Investigating Officer is not as to any omission or contradiction in the primary statement of the witness, but what has been elicited in his cross-examination. Therefore, it was not permissible for the defence to confront the witness with his previous statement and consequently, such contradiction could not have been proved though the testimony of the Investigating Officer. It is rather disturbing to note that throughout the recording of the evidence, the provisions of section 162 of the Code read with section 145 of the Evidence Act and the principles enunciated by the Supreme Court in the case of Tahsildar Singh (supra) have been ignored.

220.33 SUBMISSIONS: The learned counsel for the appellants submitted that this witness in both his police statements dated 13.5.2002 and 26.6.2002 has not named accused No.18 Babubhai Bajrangi. He has admitted that he did not know either the person named by him or the person identified by him, prior thereto. Even as per his first statement before the SIT, for the first time he has named accused No.18 Babubhai and that too, on Babubhai being identified by others on the terrace and more so, he has been identified with a specific dress of white kurta and pyjama and saffron scarf on his neck, which means that he did not know him and upon someone on the terrace saying so, he has said that it was Babubhai. It was submitted that no test identification parade has been held and the very fact that the witness could not identify Babubhai in the court and instead has identified accused No.47, when he is nowhere named and whose physique, appearance and height are completely different from accused No.18 as noted by the court below, clearly indicates that with the sole purpose to implicate accused No.18 falsely

at the instance of somebody for extraneous reasons, he has named accused No.18 for the first time before the SIT. It was submitted that if the statement recorded by the SIT is taken at face value, he has stated that upon some other people on the terrace informing him, he could know that somebody in a particular dress is accused No.18 as proved by the Investigating Officer (SIT). It was pointed out that in paragraph 11 of his examination-in-chief, the witness has stated on oath regarding such conversation that other Muslims had with him before going up to the terrace. It was submitted that such discrepancies and contradictions have apparently surfaced, as he had never witnessed such facts, but has stated them only with a view to implicate accused No.18 falsely.

220.34 It was submitted that no witness has stated that in the afternoon hours at about 2:00 to 2:30 in the mob coming from Uday Gas Agency accused No.18 was seen by anybody, much less in the typical dress as stated by this witness.

220.35 There are no submissions on behalf of the prosecution as he has wrongly identified the sole accused named by him.

220.36 ANALYSIS: This witness's statements came to be recorded by the police on 13.5.2002 as well as on 26.6.2002. At the relevant time he did not name any accused and in fact had stated that does not know any person in the mob. However, in the year 2008, before the SIT he has named accused No.18 Babubhai Bajrangi and had stated that he had seen him in the mob, and though he did not know him, some of the other Muslims pointed out to the accused and said "who

raha Babu Bajrangi". The witness has also failed to identify the accused in the dock. Thus, from testimony of this witness, it emerges that at the relevant time he had not named any accused, but before the SIT after a period of more than six years, he has named the accused and that too, on the basis of other persons having said that such person is Babu Bajrangi. The witness has admitted that he had no prior acquaintance with the said accused and that he had never seen him prior to the incident. It is an admitted position that no test identification parade had been carried out to identify the accused. Under these circumstances, apart from the fact that at the relevant time the witness had not named the accused when his statement came to be recorded, when the witness had no acquaintance with the accused and has not been able to identify him in the dock, no reliance can be placed upon the testimony of this witness to prove the charge against the accused.

221. **PW-246 Noorjahan Abdulkadir Shaikh**, aged 48 years, has been examined at Exhibit-1713. The witness has deposed that if somebody speaks Gujarati, she can understand it to a limited extent, but she does not know how to speak in Gujarati and hence, will depose in Hindi.

221.1 The witness has deposed that after the communal riots of 2002, she is residing at Faizal Park. In the year 2002, she was residing in the last lane of Jawannagar which is near Gangotri society at Naroda Patiya.

221.2 The incident took place on 28.2.2002. At the time of the incident, she, her mother-in-law, her husband and her

three children, all of them were residing together. At the relevant time, she was serving in a factory and her husband used to ply a rickshaw on hire.

221.3 Her working hours were from 8:00 in the morning to 6:00 in the evening.

221.4 The day of incident was a Thursday. On that day, there was a call for bandh. She did not know that there was a call for bandh and hence, as per her routine, she had set off to go for her job at 8 o'clock in the morning with her son Salim. She reached her place of service at Memco. Except for her and her son, all her family members, including her husband were at home.

221.5 After they reached her place of service, her employer Arjunbhai had told them that there is a call for bandh and the situation is bad and considering the atmosphere, since they were Muslims, they should go back. After saying so, Arjunbhai himself dropped her and two to three other women near the excise chowky.

221.6 When she reached the excise chowky, there was quite a big mob. On account of the mob, she went from Navi Masjid to Juni (Old) Masjid and in this manner she was able to come out and reach her house. On that day, she was wearing a saree and she held her son's hand and went through the lanes and reached her house. She saw that there were many people in the mob and they were pelting stones at the Noorani Masjid and were throwing kerosene and setting it and everything else on fire and were also pelting stones on people. She had seen

all this.

221.7 When she reached home, all her family members were present at home. On account of the bandh call, her husband had taken a holiday from plying his rickshaw on that day. When she reached home, she heard a lot of commotion on all four sides. They have never seen or heard any such thing, and hence, they were very frightened.

221.8 Near the last lane of Jawannagar, there was a compound wall. The people in the mob had broken the wall. They had broken the wall and had come inside Jawannagar and had come near the municipal toilet. Her husband was at home when the mob came. However, thereafter, he went to the toilet. At that time, they did not have toilet at home. Her husband was very frightened and hence, he had gone to relieve himself at the municipal toilet. She was at home with her mother-in-law and children, when somebody came and told her that someone had set her husband on fire and had killed him and that he was killed near the toilet. She did not believe this to be true, but she come out to see what had happened when her husband had something like a towel tied on his hand and with that, he gestured to her not to come there. Hence, she went back to her house. Thereafter, her husband was burnt alive at that place. She saw that the people in the mob had burnt her husband. However, she did not know any person in the mob.

221.9 When she came to know about the fact of her husband being burnt alive in this manner, she went home and told her mother-in-law and children about it, whereupon she

and her mother-in-law and her children, all started crying.

221.10 Upon hearing this, her mother-in-law took her son Salim and immediately went out towards the S.R.P. Thereafter, she met her mother-in-law and her son Salim after eleven days at the Shahibaug camp.

221.11 She and her daughter stayed at home till 6 o'clock in the evening. Thereafter, from the rear side, they could hear sounds of killing and cutting and a great deal of commotion and upon the day coming to an end, they were terrified and they came out of their house and went to a terrace of Gangotri Society. They went from the terrace of their own house in Jawannagar to somebody else's terrace and went on the terrace of Gangotri Society. They stayed on the terrace of Gangotri Society till 12 o'clock at night, after which upon a police vehicle coming, they came down from the terrace and went to the Shah Alam camp in the police vehicle.

221.12 When they climbed down from the terrace of Gangotri Society and went to the police vehicle, on the way, she had seen half burnt dead bodies. Out of which, one burnt dead body was of a youth who used to sell the shaved ice-balls.

221.13 When she was at the relief camp, the police had recorded her statement.

221.14 All the household articles, furniture, etc. in her house were looted and taken away on the day of the incident. Nothing remained in her house. They had damaged the house

and gone away.

221.15 CROSS-EXAMINATION: Nothing much turns upon the testimony of this witness and hence, it is not necessary to dilate upon the same.

221.16 PW-278 Shri R.B. Joshi, the assignee officer in his cross-examination has admitted that he had recorded the statement of this witness on 11.5.2002. The assignee officer has admitted that this witness in the statement recorded by him has stated that there was cross stone pelting between the people in the mob and the people from their chawls.

221.17 SUBMISSIONS: The learned counsel for the appellants submitted that this witness in paragraph 14 of her deposition has referred to the dead body of a person selling ice-cream balls which creates a doubt in Hussainabanu's evidence regarding her brother having been set ablaze in the house of Jadikhala.

221.18 ANALYSIS: This witness is the wife of Abdulkadir. In terms of the testimony of this witness, her husband had gone to relieve himself at the municipal toilet. While she was at home someone came and told her that her husband had been set ablaze near the toilet and had been killed. Thereafter, she came out of her house to see and saw her husband, who had gestured to her not to come there, and hence, she had returned. Thereafter, her husband was burnt alive at that place and she had seen the mob setting him ablaze. This version of the witness is self contradictory, inasmuch as the person, who came to tell her about her husband, informed her that he had

been set ablaze and killed; however, according to the witness her husband was set ablaze after she came out and he gestured to her not to come there. In the opinion of the court if the mob had not harmed her husband till she came out, there was no reason for anyone to come and inform her that he was set ablaze. Besides, in such a situation, it is hardly likely that her husband would notice her coming out of the house and gesture to her. Thus, the witness does not come across as a credible witness. Moreover, she has not named any accused involved in the incident, and hence, her testimony does not in any manner assist the prosecution in proving the charge against the accused.

222. **PW-247 Afrozbanu Mahammadrazak Ansari**, aged 65 years, has been examined at Exhibit-1717. The witness has deposed that she can understand Gujarati to a certain extent. However, she will depose in Hindi as she finds it more convenient to speak in Hindi.

222.1 The witness has deposed that in the year 2002, she was residing at *Pandit-ni-Chali, Near S.T. Workshop, at Naroda Patiya*, with her family. She is absolutely illiterate, but she has obtained religious Islamic Education, that is, study of Quran-e-Sharif. Right from the beginning, they have been residing in Ahmedabad.

222.2 At present that she does only household work. In the year 2002 and even thereafter, she used to do tailoring work. However, now, as her eyesight has become weak, she stopped doing tailoring work.

222.3 Her husband passed away in the year 1988. The incident took place in the year 2002. In the year 2002, she was residing at *Pandit-ni-Chali* together with her elder son Mahammadyunus, his wife Maheboobbibi, her granddaughter Gazala. Her other two children were married and were residing at Juhapura.

222.4 On the day of the incident, there was a call for Gujarat bandh. On that day, her daughter-in-law and her granddaughter had gone for a wedding at Dani Limda. She and her son Mahammadyunus were at home.

222.5 In the morning time, she and her son were having tea when they heard a lot of commotion, whereupon, she came out. The road is just outside her house. She came on the road and stood there. She saw that on both the sides, there were huge mobs. She could hear sounds of “kill, cut” and hence, out of fear, they started walking slowly along the boundary of the S.T. Workshop compound wall towards the interior side. Her son was also with her at that time.

222.6 They went to Hussainnagar, Lane No.3, where her son Mahammadyunus’s in-laws live. They went to their house. His brother-in-law whose name is Naeemuddin, his brother-in-law’s wife’s whose name is Zarinabanu, Naeemuddin’s sister-in-law and Naeemuddin’s children and his mother, etc., were all at home, but out of fear, they started fleeing from there. They all firstly went towards the S.R.P. Quarters. When they reached near the S.R.P. Quarters, it must have been around 10 o’clock in the morning.

222.7 There is a small gate for going inside the S.R.P. Quarters and they went there. The S.R.P. policemen were there. They did not let them go inside the S.R.P. Quarters. The policemen at the S.R.P. Quarters told them that they had to die today and that they would not let them go inside. One of the S.R.P. personally forcefully butted her with a gun below her neck and on her chest due to which, she had sustained injuries.

222.8 The witness has further deposed that upon being hit by the butt of a gun, they all had gone towards Gopinath Gangotri Society so as to save their lives. After they went there, from there, they saw that another mob was also coming. She does not know from which area the mob was coming and that it was possibly from the direction of Teesra Kuva. However, the mob was coming and therefore, they were terrified.

222.9 When they reached Gopinath Gangotri Society, the mob surrounded them. They were all in the middle. At this time, it was around 5:00 to 6:00 in the evening. She knows two of the persons in the mob that had surrounded them at that time. They are Bhavani, who at present is dead, and the other is Suresh Langdo. The witness has stated that, however, since many years have passed, she does not know whether she would be in a position to identify him.

222.10 The witness has further deposed that the people in the mob initially pelted stones at her son and he was injured below his right ear and thereafter, a blow was inflicted on his leg and he was felled and thereafter, he was burnt alive. Her

son died on the spot. She had seen this incident of her son.

222.11 During this incident, she had seen Salim and Wasim, two children of her son Mahammadyunus's brother-in-law Aziz, being thrown alive in the fire. Both the children also died.

222.12 She had also seen four people catch hold of Mahammadyunus's brother-in-law Naeemuddin's wife and pull her into the lane. Her name was Zarinabanu.

222.13 After all this, it started becoming night time and they all escaped and went on a terrace of Gangotri Society and hid there. At around 9 o'clock at night, when they got down from the terrace, they had seen Zarina in a naked condition. Her hand was cut and there were injuries on her head. They could not do anything, but someone from amongst them took out a dupatta and covered her. Thereafter, upon the police vehicle coming, Zarina was taken in the same condition and they had gone in the police vehicle to the Shah Alam relief camp. From the Shah Alam relief camp, the camp people had sent Zarina to the V.S. Hospital. She was so anguished on account of the death of her son Mahammadyunus that she did not even remember that she was injured with the butt of the gun. She had not availed of any treatment and she had let the wound heal on its own.

222.14 She had stayed at the Shah Alam relief camp for five months. The police had recorded her statement there. Thereafter, the SIT had recorded her statement.

222.15 At the time of the incident, she knew Bhavani and Suresh Langdo. Both of them were residing in her area and used to pass through their area. At present, Bhavani is dead and she is not sure whether at this age she can identify Suresh Langdo. The witness has thereafter tried to identify Suresh Langado, but could not muster up the courage to do so and she quickly returned to the witness box.

222.16 The witness has stated that she is not afraid, but she is not confident that she can identify accused Suresh Langdo now and hence, she has returned because a long time has elapsed since the incident took place.

222.17 CROSS-EXAMINATION: In the cross-examination of this witness it has come out that in the year 2002, she used to do tailoring work at home. The witness has stated that she rarely had occasion to go out of her house. The witness has admitted that she does not know all the people residing in and around her chawl by their names. She has stated that she knows some of the people. The witness has admitted that she knows the people residing nearby by their names. The witness has admitted that Suresh Langda and Bhavani do not reside near her.

222.18 The witness has admitted that a lot of people were going from near her house on the day of the incident. The witness has voluntarily stated that there is a road. The witness has admitted that there was movement of people belonging to the Chhara community and other people on this road. The witness has admitted that she does not know the names of the people, who pass from near her house.

222.19 The witness has admitted that she has no relations of talking with Suresh Langda or Bhavani, nor does she have any social or monetary relations with them. The witness has voluntarily stated that they used to frequently pass through the S.T. Workshop road and that therefore, she has seen them many times and hence she knew them. However, she did not have any occasion to talk with them.

222.20 The witness has admitted that Naimuddin and his family were with them from the afternoon. The witness has admitted that even at the camp they were together. The witness has stated that she had talked with Naimuddin regarding whatever she had seen in the evening on the day of incident. The witness has admitted that Naimuddin has also told her about whatever he has seen. The witness has admitted that Naimuddin had not told her as to whom he has recognized regarding Zarina's incident.

222.21 The witness has admitted that when she was at the camp, leaders of the Muslim community used to come to the camp. The witness has admitted that there were arrangements for registering complaints at the Shah Alam Camp. The witness has admitted that such arrangements were made inside the madressa. She has admitted that she had also lodged complaint.

222.22 The witness has stated that she had given a complaint at the camp to the police. The witness has admitted that whatever she knew she had stated in the complaint. The witness has admitted that after writing whatever she has

stated, her thumb impression was taken on the complaint. The witness has admitted that when her thumb impression was taken, the complaint was read over to her. She has admitted that when the complaint was read over to her, she thought that the facts stated therein are correct and are in terms of what she has stated. The witness has admitted that she has also received a copy of the complaint.

222.23 The witness has admitted that at the time when SIT recorded her statement in the year 2008, the complaint was read over to her. The witness has admitted that the SIT people has taken out a copy from their possession and read it over to her. The SIT had shown her the thumb impression on the complaint.

222.24 The witness has denied that even before the SIT she had not given the names of any of the accused, nor had she attributed any role to them.

222.25 The witness has admitted that the people in the mob whom she did not know had inflicted pipe blows on her son's head. The witness has admitted that after being injured by the pipe, her son fell on the ground. The witness has voluntarily stated that he was injured on his head by a stone and a pipe blow was inflicted on his leg. The witness has stated that at the time of the incident she was with her son and there was very short distance between them. The witness has stated that she cannot say whether the mob which assaulted her son was comprised of one thousand people. The witness has stated that it had not happened that the mob had first surrounded her son and thereafter attacked him. She has stated that first he

was injured with a stone on his head and thereafter was inflicted pipe blows on his leg, and after he fell down, petrol was sprinkled upon him and he was set ablaze. The witness has admitted that after injuring him on his head with stones and inflicting pipe blows on his leg and after he fell down, the mob had surrounded and set him ablaze. The witness has stated that she does not know as to how many people were there in the mob which surrounded her son.

222.26 The witness has admitted that she does not know as to who had inflicted the blow on his leg. The witness has admitted that she had seen the mob setting her son ablaze, however, she had not seen as to which person had set him ablaze. The witness has admitted that at the time when her son was attacked, other Muslim women and men nearby were also being attacked. She has admitted that no person in the mob had injured her at that time and nobody had attacked her. The witness has denied that she has not seen any incident as stated by her in her examination-in-chief and that she was falsely deposing before the court.

222.27 The contents of paragraphs 7 and 8 of her examination-in-chief are read over to the witness, who has denied that she has not stated such facts in her statement recorded by the police.

222.28 The contents of paragraphs 7 and 8 of her examination-in-chief are once again read over to the witness to the effect that she has not stated certain facts stated therein in the statement recorded by the SIT.

222.29 The contents of paragraph 12 of her examination-in-chief are read over to the witness, who has denied that she has not stated such facts in both of her statements recorded in the year 2002.

222.30 The contents of paragraph 13 as well as the contents of paragraph 14 from the third line to the last line are read over to the witness, to the effect that she has not stated such facts in her statement recorded by the police, which the witness has denied.

222.31 To prove the omissions and contradictions as to her previous statement recorded by the police as brought out in her cross-examination, the defence has cross-examined the concerned Investigating Officer/assignee officer who recorded such statement.

222.32 PW-291 Shri M. B. Raj, the assignee officer has, in his cross-examination, admitted that he had recorded the statement of this witness on 17.7.2002. The contents of paragraphs 12 and 13 and the contents of paragraph 14, from the third line to the last line, of the examination-in-chief of this witness, are read over to the assignee officer, wherein the witness has deposed that, at that time, she had seen that two children of her son Mahammad Yunus's brother-in-law Aziz, namely, Salim and Wasim were thrown alive in the fire. That she had also seen that her son Mahammad Yunus's brother-in-law Naeemuddin's wife was caught and was pulled and taken away by four members of the mob. Her name was Zarina. At around 9 o'clock at night, when they came down from the terrace, she had seen Zarina in a naked condition. Her hand

was cut and there were injuries on her head. They could not do anything and someone from amongst them had taken off a dupatta and covered her. Thereafter, upon the police vehicle coming, they had taken Zarina in this condition and had gone to the Shah Alam relief camp in the police vehicle. The assignee officer has admitted that the witness has not stated such facts in the statement recorded by him. The assignee officer has admitted that at the time of recording the statement of this witness, Shri Chudasama had not given him any complaint of the witness.

222.33 PW-302 Shri D. A. Rathod, the assignee officer has, in his cross-examination, admitted that he has recorded the statement of this witness on 12.5.2002. The assignee officer has admitted that the witness had not given any complaint before him and that at the time when he went to record the statement, the Investigating Officer had not given him any complaint registered as Naroda Police Station I-C.R. No.210/2002 of this witness. (In the FIR Exhibit-315, this witness is shown as a witness in the complaint). (At page-55, I-C.R. No.210/02, there is a printed complaint of Afrozbanu Ansari).

222.34 The contents of paragraphs 7, 8, 12 and 13 of the examination-in-chief of the witness are read over to the assignee officer, who has admitted that the witness has not stated all such facts in the statement recorded by him. The contents of paragraph 14 of the examination-in-chief are read over to the assignee officer who has admitted that except for stating that the witness had gone to the Shah Alam camp in a police vehicle, none of the other facts have been stated before

him.

222.35 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statement of this witness on 6.7.2008. Certain extracts of paragraph 7 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that the witness had not stated all these facts in the statement recorded by him. The contents of paragraphs 7 and 8 of the examination-in-chief of the witness are read over to the Investigating Officer, who has stated that except that the facts stated in paragraph 7 that, "*We had gone to their house at Hussainnagar Lane No.3.*", "*It must have been around 10 o'clock in the morning*" all the other facts stated in paragraphs 7 and 8 of her deposition have been stated by the witness.

222.36 The Investigating Officer has admitted that the witness in her statement dated 6.7.2008 has not given the name of Bhavani and Suresh or any role played by them. He, however, has stated that the witness upon her statements dated 12.5.2002 and 17.7.2002 being read over to her, had stated that they are correct and thereafter her further statement had been recorded. In the statement dated 12.5.2002, the witness has stated regarding the entire incident, the names of Bhavani and Suresh, the manner in which the witness's children were killed and had given the names of both the accused amongst the people who killed them there, their role, had all been clearly stated by her. The statement recorded by him is in the nature of a further statement and hence, what was stated by the witness in her earlier statement have not been reiterated by her.

222.37 SUBMISSIONS: The learned counsel for the appellants pointed out that this witness has named two accused, namely, Bhavani and Suresh Langdo. The witness has failed to identify accused Suresh Langdo before the court. Referring to the contents of paragraph 7 of the examination-in-chief of the witness, it was submitted that the witness has stated that at around 10:00 to 10:15 they were prevented from going to the S.R.P. Quarters, whereas the other witness have stated that in the morning time they were permitted to go to the S.R.P. Quarters. It was submitted that as to what had happened during the period from 5:00 to 6:00 in the evening is not coming on record. It was submitted that having regard to the omissions in the police statements, the fact regarding her having witnessed her son being killed also becomes doubtful. It was submitted that on a combined reading of paragraphs 32, 35 and 36 of her cross-examination, it appears that it is doubtful whether the witness has seen such an incident and was present there. It was submitted that even if the witness has named Suresh, in view of the averments made in paragraphs 32, 35 and 36, the participation of the named accused is not alleged with any specific role.

222.38 ANALYSIS: From the evidence of this witness, after considering the omissions and contradictions brought on record and proved through the Investigating Officer/assignee officers, it emerges that the witness had gone on the road in the morning and had seen huge mobs on both the sides shouting 'kill, cut'. Out of fear she and her son who was with her slowly went towards the interior side of the chawls. The SRP people hit her with the butt of a gun and they all went

towards Gopinath Gangotri Society to save their lives. When they reached there, they saw another mob and hence, they were terrified. When they reached Gopinath Gangotri Society, the mob encircled them and they were in the middle. It was around five to six in the evening. In the mob which encircled them, she could recognise two persons Bhavani and Suresh Langdo. The mob firstly pelted stones at her son which wounded him below his right ear and then inflicted a pipe blow on his leg and felled him and then burnt him alive. Her son died on the spot. She had seen the incident. After all this, night time started and all of those who had escaped went to a terrace of Gangotri Society and hid there. Thus, while the witness appears to have improved upon her original version by narrating incidents of the two children being thrown in the fire and Zarina being pulled by four people and taken into a lane nearby, insofar as the core of her testimony regarding the killing of her son and her having seen the two named accused in the mob which encircled them is concerned, she is consistent right from the beginning. Under the circumstances, there is no reason to disbelieve the narration of the incident given by the witness. Though the witness has named Suresh Langdo in her examination-in-chief, she has failed to identify him in the dock. Therefore, the testimony of this witness would not help the prosecution in proving the charge against the sole living accused named by her.

223. **PW-248 Mahammadyunus Abdulhai Chaudhary**, aged 45 years, has been examined at Exhibit-1722. The witness has deposed that he can understand Gujarati, but he is not able to speak Gujarati properly and hence, will depose in Hindi.

223.1 The witness has deposed that he was residing at *Pandit-ni-Chali, Next to S.T. Workshop, Naroda Patiya* since about thirty to thirty five years prior to the incident.

223.2 In the year 2002, he used to do tailoring work at home. In the year 2002, his mother Amirbibi, his wife Suraiyabanu, his three daughters, viz., Samreen, Saheen and Afreen, were all residing with him.

223.3 The incident took place on 28.2.2002. On that day, he woke up at around 7 o'clock in the morning and went to the Noorani Masjid to offer namaz. After namaz, he returned home and after reading Quran Sharif, at around 9 o'clock in the morning, he sat down to have his breakfast. At this time, there was commotion in the chawl and shouts were heard in the chawl that mobs of the Vishwa Hindu Parishad have come. Upon hearing this, he went to near the S.T. Workshop outside his house.

223.4 He saw that mobs were coming from Natraj Hotel as well as from Krushnanagar. The mobs came and started damaging the carts, stalls, houses, rickshaws, etc. near the Noorani Masjid. Those people had weapons like swords, trishuls, hockey sticks, etc. in their hands. The people of the mob had gone inside the masjid and were burning the Quran Sharif as well as the rugs which were spread on the floor, etc.

223.5 In the mob which was coming from the direction of Natraj, he had seen Bhavanisingh, who was a driver in the AMTS. He had seen him with a sword in his hand. In this mob,

he had also seen Guddu Chhara with a sword in his hand. This mob had gone inside the masjid and burnt the sheets, etc. They were vandalising the masjid. At this time, the residents of the chawls came out to protect the masjid. At this time, the mob which was a Vishwa Hindu Parishad mob, pelted stones at them.

223.6 The police, which was placed for bandobust at the masjid, joined the mob and connived with them. Thereafter, the mob attacked them. Thereafter, there was firing at the Muslims from the mob. In the firing, a boy named Abid died. Moreover, two to three other Muslim youths also fell down on the spot in the firing. While watching all this, he had stayed outside till 12 o'clock.

223.7 In the afternoon, at around 12 o'clock, the incidents increased and hence, to protect his life, he went towards their chawl. He went to his house at Pandit-ni-Chali to see his family. When he reached home, he saw that his house was locked. Thereafter, he was searching for his family members in the Muslim chawls. Subsequently, on that very day, while he was searching, he could find his family members at the Jawannagar pit at around 4 o'clock in the afternoon. When he met his family members in this manner, he saw that his wife Suraiyabanu was injured on her head. Upon asking her as to how she got injured, she had told him that she was hurt by a stone from the S.T. Workshop. She was bleeding from the wound.

223.8 They came to know thereafter that a Hindu mob had come in the Jawannagar pit, hence, they, that is, he and

his family went towards the S.R.P. Quarters and wanted to go inside. However, the S.R.P. police standing there lathi-charged them and drove them away. He was injured in the right leg in the lathi-charge. His daughter Afreenbanu was about two years old at that time. She was also injured on her back on account of the lathi-charge by the S.R.P. people. They were lathi-charging them and were chasing them towards the well on the rear side, however, they had not gone there.

223.9 Thereafter, they climbed on the terrace of a closed house in Gangotri Society. At this time, it was around 5 o'clock in the evening. From the terrace, he saw that the S.R.P. people were beating the Muslims and sending them towards the well on the rear side and out of those people who went towards the well in this manner, a Hindu mob came in front of them and the people in the mob had petrol, kerosene, swords etc. in their hands and they were killing and hacking those people and setting them on fire. While they were on the terrace, there was screaming from the side of the water tank in the society and they had heard people screaming for help. At this time, it was around 5:00 to 6:00 in the evening. At the time when he heard these screams, it was the time for Maghreb Namaaz.

223.10 He had stayed at the terrace of Gangotri Society till 12 o'clock at night with his family. Upon a police vehicle coming to take them, they got down from the terrace of Gangotri Society. While they were going to the vehicle from the terrace of Gangotri Society, there were many dead bodies lying on the road. The hands and legs of the dead bodies were cut and broken. Some of the dead bodies were in a burnt condition and only the skeletons could be seen. He saw that

their houses were set on fire and the household goods and articles were also looted.

223.11 The police took them in the vehicle to the Shah Alam camp. They had stayed at the Shah Alam camp for four to five months. While they were at the camp, the police had recorded his statement. Thereafter, the SIT had also recorded his statement.

223.12 The witness has deposed that they had availed treatment for the injuries sustained by him, his daughter and his wife, at the Shah Alam camp. His house was damaged and set on fire in the incident. All the household goods and articles were looted in the incident. The witness has deposed that he can identify Bhavanisingh and Guddu whom he had seen in the incident. However, both of them are dead.

223.13 CROSS-EXAMINATION: The witness in his cross-examination has admitted that his statements were recorded at the camp on 12.5.2002 and 17.5.2002. The witness has denied that in his statement dated 12.5.2002 he had not stated the name of Bhavani and the role played by him. The witness has denied that on the day of incident there was stone pelting on Hindus from the chawls also. The witness has admitted that as the number of Muslims was lesser and the mob on the opposite was huge they had returned to their houses. He has admitted that the people in the riotous mob had entered the houses of Muslims.

223.14 The witness has denied that in his statement he has stated that the riotous mob had entered his house. The witness

has voluntarily stated that he had not seen as to whether the mob had entered his own house, but he knew the mob had entered their chawl. The witness has denied that he had seen the mob which came from the front of the gas agency at 4:00 in the evening. The witness has stated that he had heard about it.

223.15 The witness has admitted that on the day of the incident, the mobs on the side of Krushnanagar and Natraj Hotel which he had seen, were comprised of ten thousand to fifteen thousand people. He has admitted that some of the people in the mob near the Noorani Masjid had tied saffron bands on their heads. He has admitted that he had not seen any one in the mob wearing *khaki* shorts and undershirts. The witness has denied that in his statement dated 12.5.2002 he had not stated any fact regarding firing. The witness has denied that he has not stated the facts regarding Quran-e-Sharif and rugs in his statement dated 12.5.2002 recorded by the police. The witness has denied that he has not stated the facts regarding Gangotri Society, the well on the rear side and the Muslim boys having fallen in the firing and having died, in his statement dated 12.5.2002.

223.16 The witness has admitted that prior to his statement being recorded by the SIT he had made an application. The witness is shown the application Mark 644/1 and he has identified his signature thereon. The contents of the application are read over to him and he has admitted the contents thereof. The application is given Exhibit No.1724. The witness has stated that FIR means what he states before the police and that when he went to the SIT his FIR was read over

to him. The contents of the witness' statement recorded by the SIT are read over to him; however, since no part of his evidence is sought to be contradicted, the same is not admissible in evidence.

223.17 In his cross-examination, it has come out that he did not have any occasion to visit the homes of Guddu and Bhavani and did not have any talking relations with them. They did not have any relations of visiting each other's houses or any other social relation. The witness has denied that he has not seen the incident and that he had gone to his house in Jawannagar chawl and was hiding there.

223.18 In his cross-examination, it has further come out that he knew that Bhavani was a driver in the AMTS and he has seen him driving an AMTS bus. He has stated that he has seen Guddu from a distance of fifty to sixty feet and has also seen Bhavani from the same distance.

223.19 To prove the omissions and contradictions as to his previous statements brought out in his cross-examination, the defence has cross examined the concerned Investigating Officer/assignee officer who recorded such statement.

223.20 PW-279 Shri B. J. Sadavrati, the assignee officer has admitted that he has recorded the statement of this witness on 12.5.2002. He has admitted that this witness has not given the name of accused Bhavanisingh before him, nor has he mentioned any act committed by him. The assignee officer has admitted that the witness had stated before him that they had hidden at Jawannagar-ni-Chali and late at night, upon the

police vehicle coming, they had come to the Shah Alam camp in the vehicle. The assignee officer has admitted that the witness had not stated any fact regarding any kind of firing. He has also admitted that the witness has not stated anything regarding Quran-e-Sharif or rugs. He has also admitted that the witness has not stated any facts regarding Gangotri Society, the well on the rear side as well as a Muslim youth having fallen in the firing and having died, in the statement recorded by him.

223.21 PW-282 Shri K. S. Desai, the assignee officer has admitted that he has recorded the statement of this witness on 15.5.2002. The assignee officer has denied that this witness had not named Bhavanisingh or that he had not attributed any role to him in the statement recorded by him.

223.22 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statement of this witness on 2.6.2008 wherein the witness has stated that his statement dated 12/17.5.2002 was recorded at the Shah Alam camp, Ahmedabad, which is proper and correct; the Muslim mob had also pelted stones and upon both the mobs coming against each other; a police point people were present near the Noorani Masjid ... there was firing on the mob belonging to the Muslim community wherein a Muslim youth was injured by a bullet, whose name was Abid. It may be noted that while trying to bring out the contradiction even the explanation given by the witness when such a contradiction had been put to him, is reproduced in the cross-examination of the Investigating Officer.

223.23 SUBMISSIONS: The learned counsel for the appellants referred to the contents of paragraph 5 of the examination-in-chief of the witness, wherein the witness has stated that the people in the mob went inside the masjid and had burnt Quaran-e-Sharif and rugs in the masjid, to submit that the witness could not have seen what is going on inside masjid. It was submitted that the version given by the witness that they were driven out of the S.R.P. to Teesra Kuva is a presumption and not a question of fact. Referring to the contents of paragraph 11 of his examination-in-chief wherein the witness has stated that from his terrace he has seen S.R.P. Police beating Muslims and driving them away towards the wall, it was submitted that if the witness could see the S.R.P. Quarters, he could not have seen the other side. Referring to paragraph 12 of his examination-in-chief, it was submitted that the witness has stated that when they were going towards the police vehicle, he has seen many corpses on the road. It was submitted that only Moinuddin and Kadir Rana were killed on the road and, therefore, there is no question of having seen many dead bodies lying on the road. It was submitted that the witness could not have seen all the incidents as stated by him and that he has narrated all the facts only after coming to know about them later on.

223.24 ANALYSIS: From the evidence of this witness, it is apparent that he witness has merely been confronted him with his police statement, without pointing out to him as to in respect of which part of his testimony he is sought to be contradicted. In view of the provisions of section 162 of the Code read with section 145 of the Evidence Act, in case where

omission amounts to contradiction or where there is a contradiction, the omission or the contradiction in the police statement of the witness is required to be put to him in his cross-examination under section 145 (second part) of the Evidence Act read with section 162 of the Code and the Explanation to section 162, by drawing his attention to the fact that what he is now stating at the trial was not stated by him in the police statement. In case of an omission, this process necessarily entails the reading of the entire police statement and in case of a contradiction, that part of his police statement which contradicts any part of what he has stated before the court. If the omission or contradiction brought to the attention of the witness is admitted, then it stands proved, otherwise, it will have to be proved in the evidence of the investigation agency, where again the process of referring and reading the police statement takes place. In case of this witness, while reference is made to the police statement, his attention has not been drawn to the part of his evidence in relation to which the omission or contradiction is sought to be proved. Therefore, unless the proper procedure is followed, the question of proving the omission/contradiction through the testimony of the Investigating Officer would not arise.

223.25 This witness has deposed regarding the Quran-e-Sharif and rugs in the Noorani Masjid being set on fire. Considering the fact that the witness was watching the incident from near the S.T. Workshop, it is highly improbable that he could have seen what was going on inside the masjid from such a distance.

223.26 This witness has named only two accused in the

mob on the road in the morning on the day of the incident, both of whom are dead. Therefore, the testimony of this witness would not help the prosecution prove the charge against the accused.

224. **PW-249 Salauddin Sarifuddin Saiyed**, aged 41 years, has been examined at Exhibit-1725. The witness has deposed that he can understand Gujarati, but he finds it more convenient to depose in Hindi. The witness has deposed that he has studied up till the 1st standard in Urdu medium. His native place is District Amravati, Maharashtra State.

224.1 In the year 2002, he was residing at *Pandit-ni Chali, Naroda Patiya*. Pandit-ni-Chali is situated near the S.T. Workshop. He was residing at Pandit-ni-Chali since around ten to fifteen years prior to the incident. His house at Pandit-ni-Chali was a rented house.

224.2 The incident took place on 28.2.2002. At the time of incident, he was residing with his wife and four children. At the relevant time, he used to drive a tanker which belonged to one Nirmalkumar Gupta. Prior thereto, he used to drive a tanker of Shivcharan, brother of Nirmalkumar. He used to do the work of bringing crude oil from Vadodara Refinery in the tankers. He used to park the tanker on the road, near Pandit-ni-Chali at night.

224.3 Upon coming out on the road at 7 o'clock on the previous evening of the incident, he came to know about the details of the Godhra Train Murder incident. Upon hearing this, they did not sleep the entire night. They had stayed at home.

224.4 On the day of the incident, he had come on the road at around 8:00 to 8:30 in the morning. At that time, a lot of public had gathered near the S.R.P. Quarters. A lot of public had gathered near Natraj also. The mob had gathered on both sides. They had started burning the carts and stalls belonging to Muslims near the S.R.P. Quarters.

224.5 They all gathered together at around 9:00 to 9:30 on the road near Pandit-ni-Chali. Out of the people who had gathered there, ten to fifteen had gone near Bipinbhai's Auto Show Room. They had reasoned with Bipinbhai, Auto Centrewala that there was a population of poor people residing there and they were not the people who were raising any disputes. Bipinbhai told them that they should go and nothing would happen there.

224.6 At the time of the incident, his mother used to live in Kashiram Mama-ni-Chali, near the Noorani Masjid. After talking with Bipinbhai, he took his family and crossed the road and went to his mother's house. At this time, he saw that there were many people from the public on both the sides of the road and destruction had commenced. He took his children and ran very fast. In the riots, his daughter Navazunisha was injured on her thigh by a glass bottle thrown on her.

224.7 After they talked with Bipinbhai and returned, the mobs came opposite Bipinbhai's Auto Centre and burnt the STD Booth. He was also one of the ten to fifteen persons who had gone to talk to Bipinbhai Auto Centrewala. When they went to Bipinbhai, Babu Vanzara was also there. This Babu

Vanzara does the work of foreman of four wheeler vehicles.

224.8 From his mother's house, they went to Jigarhasan-ni-Chali, behind the Noorani Masjid. They stayed at Jigarhasan-ni-Chali throughout the night. On 1.3.2002, in the afternoon at 1 o'clock, they were brought to the Shah Alam camp, where they had stayed for six months. In the incident, his tanker was set on fire. The tanker was empty.

224.9 When he was at the camp, the police had examined him orally. The police had also examined him orally in connection with the incident. His daughter had availed of treatment at the camp in connection with the injury sustained by her. At the camp, they had come to draw a panchnama of his house. At that time, he had seen that his house was burnt.

224.10 The witness has stated that he can identify Babu Vanzara and Bipin Auto Centrewala whom he had seen on that day. The witness has thereafter stated that he cannot identify either of the two accused.

224.11 CROSS EXAMINATION: This witness has been cross-examined as regards the topography of the area and the location of his house. In his cross-examination, the witness is confronted with his police statement dated 12.5.2002, to the effect that he had not stated that fifteen of them had gone to Bipinbhai and talked to him and that he had given them an assurance. In his cross-examination, it has come out that the witness had not made any application to the SIT and he does not know as to whether when he went for recording his statement to the SIT, his statement was recorded. The witness

has admitted that in his statement dated 12.5.2002, he had stated that a Hindu mob wherein there were people belonging to the Chhara community damaged his house and looted the articles and took them away. He cannot say as to who were the people from the Chhara community in the mob and that he cannot identify them even by their names.

224.12 In his cross-examination, it has come out that he had parked his tanker on the road going from Naroda to Krushnanagar near Pandit-ni-Chali. He had parked the tanker on the service road near the highway and had also informed his employer that the tanker had been set on fire; his employer may have lodged a complaint in connection with the burning of the tanker. The witness has denied the suggestion that on the day of the incident, no empty tanker had been set on fire.

224.13 To prove the omissions and contradictions as to the previous statements of this witness as brought out in the cross-examination, the defence has cross-examined the concerned Investigating Officer/assignee officer who recorded such statement.

224.14 PW-284 Shri Tarun Barot, the assignee officer has, in his cross-examination, admitted that he has recorded the statement of this witness on 12.5.2002. He has admitted that the witness had stated before him that no member in his family had sustained any loss of life or had sustained any minor or major injury. The assignee officer has admitted that this witness had not stated before him that they fifteen people had gone near Bipinbhai and had talked to him and Bipinbhai had assured him. The assignee officer has admitted that the

witness had not given the name of Bipinbhai before him.

224.15 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statement of this witness on 21.5.2008. He has admitted that this witness in the statement recorded by him has stated that he is shown the printed form application dated 6.3.2002 .. upon showing the signature thereon, it is the signature of his wife Husna Ara .. all the facts stated therein are true; the statement dated 12.5.2002 recorded by the Police Inspector, DCB, Ahmedabad city in connection with the incident is read over to him and it is as stated by him and is correct and proper.

224.16 SUBMISSIONS: Mr. Yogesh Lakhani, learned counsel for the appellants submitted that no criminal complicity has been alleged by this witness against either Bipinbhai Panchal (A-44) or accused No.33 and neither of the two accused has been identified before the court.

224.17 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness is a natural witness who is residing in the area. No suggestions were put to the witness in his cross-examination that he did not have a tanker. The only omission brought out is in respect of the talk with accused No.44. There is no omission regarding the presence of a mob on the road in both the statements and the only omission regarding Bipinbhai is in the statement of 12.5.2002. It was further submitted that the contradictions brought on record are not proved in accordance with law. It was submitted that in the cross-examination of this witness, the facts

regarding the presence of a mob on the road which was ransacking the properties of Muslims, has gone unchallenged.

224.17 ANALYSIS: As per the testimony of this witness, he and ten to fifteen persons went to meet Bipinbhai at around 9:00 to 9:30 in the morning and he had told them that nothing would happen there. He has further deposed that when they went to meet Bipinbhai, Babubhai Vanzara was also present there. The witness has not made any other allegation against either of the accused. Therefore, no criminality has been attributed to either of the accused by this witness. Moreover, the witness has also failed to identify the accused in the dock. The testimony of this witness, in no manner helps the prosecution in proving the charge against both the named accused. The only fact that emerges from the testimony of this witness is that he used to park his tanker near the road in front of Pandit-ni-Chali and this tanker was burnt in the incident.

225. **PW-250 Naseembanu Khwajahussein Shaikh**, aged 50 years, has been examined at Exhibit-1729. The witness has deposed that she can understand a little Gujarati, but will depose in Hindi as she is more conversant with it.

225.1 The witness has deposed that she is totally illiterate. She resides in *Pandit-ni-Chali, Opposite Noorani Masjid*. At the time of the incident and presently also, she is residing at Pandit-ni-Chali with her family. Her husband died of cancer three months prior to the incident of 2002. She has two daughters and one son. Her elder daughter is Shabana, then younger daughter Shahin and then son Wahab. Her son Wahab is doing tailoring work.

225.2 She does not remember the date of the incident, but it took place around nine years prior thereto. It was Bakra Eid, one or two days prior to the incident and on the day of the incident, there was a call for bandh in the entire Gujarat State.

225.3 On the day of the incident, at around 9 o'clock, she was at home. She and her children were having breakfast when the people of their mohalla started saying that mobs of Hindus have come outside and were saying "come out, the mobs have come". While having breakfast, they came out. When they came out on the road near Noorani Masjid, there was a mob on the road. In the mob, she saw Ashok Chhara and Raju Chhara, both of whom were pelting stones.

225.4 Upon seeing the mobs, her children were afraid and started crying. As her children were afraid, she went to the Gangotri Society. When they went to Gangotri Society, at that time also, the people in the mob were pelting stones at their chawls, wherein she had seen Raju Chhara and Ashok Chhara. She stayed at Gangotri Society. In the meanwhile, upon the police vehicle coming to take them at around 8 o'clock at night, they sat in the vehicle and had gone away. They were taken to the Shah Alam camp, where she stayed for about nine months.

225.5 At the camp, the police had recorded her statement in connection with the incident. She or her children were not injured in the incident. Her house was damaged in the incident.

225.6 The witness has stated that on account of lapse of

many years, she would not be able to identify Raju Chhara and Ashok Chhara even if she tries to do so.

225.7 CROSS EXAMINATION: This witness has been cross-examined as regards her acquaintance with the accused. The witness has admitted that it has not happened that prior to the incident Ashok Chhara and Raju Chhara had visited her house or that she had gone to their houses or that she had any social relations with either Ashok Chhara or Raju Chhara and that she had seen them both for the first time on the day of the incident.

225.8 The witness has admitted that when the incident was taking place, there were cross stone pelting between the two communities. The witness has admitted that in her sole police statement dated 13.5.2002, she had not stated that she had gone to Gangotri Society with her children. The witness has admitted that for nine months after the incident, she had not gone home. In her cross-examination, it has further come out that she had seen both the accused in the mob outside the Noorani Masjid. She has admitted that there were around ten to fifteen thousand people in the mob near Noorani Masjid. The witness has denied that though she does not know either of the two accused, she is falsely implicating them at the instance of the people of her community. The witness is sought to be contradicted as to her police statement to the effect that she had not stated certain facts narrated in paragraphs 5 and 6 of her deposition in her police statement. However, the contradiction is not very material in nature inasmuch as in her police statement, the witness had stated that the Hindu mob was pelting stones at the chawls and she had seen Ashok

Chhara and Raju Chhara in the mob.

225.9 To prove the omissions and contradictions as to her previous statements brought out in her cross-examination, the defence has cross-examined the concerned Investigating Officer who recorded such statement.

225.10 PW-307 S. S. Chudasama, the Investigating Officer has admitted that the statement of this witness was recorded by Shri A. A. Chauhan (now deceased) on 13.5.2002. The contents of paragraph 5 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein she has stated that she and her children were sitting and having snacks. At that time, a mob of Hindus had come from outside and the people of their mohalla had said that they should come out as the mobs had come. In this mob, she had seen Ashok Chhara and Raju Chhara both pelting stones.

225.11 The contents of paragraph 6 of the examination-in-chief of the witness are read over to the Investigating Officer, wherein she has stated that in the mob which was pelting stones, Raju Chhara and Ashok Chhara were also there at Gangotri Society. The Investigating Officer has denied that the witness has not stated all these facts in her statement. He has stated that the witness had stated that the Hindu mobs had gathered on the road and were pelting stones at their chawls and in this mob, Ashok Chhara and Raju Chhara were present. There was cross stone pelting.

225.12 SUBMISSIONS: The learned counsel for the appellants have submitted that in the cross-examination of the

witness, the witness has admitted that she had seen the accused for the first time on the day of the incident and that she has not stated as to how she had come to know their names. It was submitted that one of the two accused named by this witness is dead, whereas the other one has not been identified before the court. It was submitted that in view of the contents of paragraph 9 of her testimony, the witness could not have named them in her first available statement in the absence of any test identification parade. It was submitted that the witness has not identified the accused before the court, which gives reason to believe that she has implicated them at the instance of someone else.

225.13 ANALYSIS: This witness has named two accused viz., Ashok Chhara and Raju Chhara, in her statement dated 13.5.2002 as well as in her testimony before the court. Out of the two named accused, one is dead. Though the witness is consistent insofar as the involvement of both the accused in the offence in question is concerned, she has failed to identify the sole living accused named by her. Considering the narration of events given by the witness, nothing much turns upon the testimony of this witness. No part of the testimony of this witness would assist the prosecution in any manner in proving the charge against the accused.

226. **PW-251 Inayat Abdulrahim Saiyed**, aged 44 years, has been examined at Exhibit-1730. The witness has deposed that he knows Gujarati and is residing at *Hussainnagar, Naroda Patiya* since many years. In the year 2002, he was residing in *Lane No.4, Hussainnagar*.

226.1 The witness has deposed that the incident took place on 28.2.2002. At that time, he used to serve in Ruby Coach Builders and his working hours were from 8:30 in the morning to 5:00 in the evening.

226.2 At the relevant time, his mother Hajrabanu, who is also known as Jadikhala in this area because she was obese, his wife Sufiyabanu, his sons Farhan, Irfab and Salman were all residing together.

226.3 He was the eldest in his family and he had two brothers and two sisters also. Their native place is Maharashtra. His father has died around four years prior to the incident.

226.4 On the date of the incident, there was a call for bandh in connection with the Godhra incident. However, the place where he was serving was open, and hence, he had gone for his job. His family members were at home. When he went for his job, his employer Pankajbhai told him that there was a call for bandh and hence, he should go back. Around twenty to twenty-five Muslims who were serving there like him, were sent back home on the day of the incident. Upon being relieved from his job, he went home to Naroda Patiya.

226.5 When he was returning home from his service, at that time, when he reached Patiya, he had seen mobs of Hindus on the road. The people in the mob were burning stalls and shops etc. The mob was comprised of people from the Bajrang Dal, the Vishwa Hindu Parishad, Shiv Sena, etc.

226.6 On account of the riots which were taking place, it was not possible for him to go home, and hence, he went to Masjid-ni-Chali, which is situated behind the Noorani Masjid and stayed at the chali itself. Till around 6 to 7 in the evening, he stayed at the Masjid-ni-Chali.

226.7 Thereafter, in the evening at around 6:00 to 7:00, he took his cycle and went to Ranavav Village at Suresh Darbar's house and stayed there at night. From there, on the next day, he and Suresh Darbar went to their company, that is, his place of service. There, his brother Abdul had called and through the telephonic message given by him, it was learnt that on the day of the incident, his mother and two children were burnt and killed. His two children, namely, his sons Salman and Irfan as well as his mother Hajrabibi died in the incident. His brother told him on the phone that his wife Sufiyabanu was injured on the head and her left hand was burnt and hence, she was admitted in the Civil Hospital.

226.8 Since the disturbances were still going on, he had gone to the Shah Alam camp after three to four days, where he met his family members. Thereafter, he had stayed at the Shah Alam camp.

226.9 His wife was discharged from the hospital after being treated for a week, whereupon she had also come to the camp. Thereafter, he had sent his family members to his native place in Maharashtra. After going to her native place, his wife has not returned till date and she is not going to return any more. The witness has deposed that on account of conflict between them, he and his wife are not residing together and at

present, she is residing at her parental home. The witness has deposed that his wife will not come to depose before the court at his instance and she will not come to Ahmedabad.

226.10 The witness has stated that he could not go to identify the dead body of his mother Hajrabibi and his two sons Irfan and Salman because at that time, disturbances were going on in Ahmedabad city and hence, it was not possible to go to identify the dead bodies. He does not know as to who performed the last rites of all the three. He has learnt that his mother's dead body had been identified by Badruddin. However, he does not know who had identified the dead bodies of his children.

226.11 In the incident, all the household articles from his house had been looted by the people in the mob.

226.12 He had stayed at the camp for around seven to eight months and had thereafter returned to Naroda Patiya. The police had orally examined him twice in connection with the incident while he was at the camp. Prior to the incident as well as presently also, he was residing at Lane No.4, Hussainnagar.

226.13 The witness has been cross-examined by the learned advocates for the defence, however, nothing substantial has been elicited in his cross-examination.

226.14 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-examined the concerned assignee officer/Investigating Officer

who had recorded such statement.

226.15 PW-178 Shri P. N. Barot, the Investigating Officer has admitted that he has recorded the statement of this witness on 11.4.2002. Certain extracts of the police statement of the witness are sought to be put to the Investigating Officer, however, since the facts recorded in the extracted portion are not in the nature of omissions in the nature of contradiction, the same could not have been put to the Investigating Officer and hence, are not admissible in evidence.

226.16 ANALYSIS: From the testimony of this witness, it is apparent that he is not a witness to the incident. He is the son of Jadikhala alias Hajrabibi and his mother Jadikhala and two sons, namely, Irfan and Salman were killed in the incident. Another notable fact which comes from the evidence of this witness is that on the day of the incident, at around 6 to 7 in the evening, he had gone on his bicycle to Ranasar through Chiloda, which gives reason to believe that at around 6 to 7 in the evening, there was no disturbance on the highway.

227. **PW-254 Mahammad Azharuddin Mahammadyunus Shaikh**, aged 35 years has been examined at Exhibit-1742. The witness has stated that he can understand Gujarati. However, he would find it more convenient to depose in Hindi and will, therefore, depose in Hindi. His native place is West Bengal and he has studied up till B.A. in Urdu. He is a teacher in a madressa and he teaches Muslim religious literature.

227.1 The witness has deposed that on 28.2.2002, on the

day of the incident, communal riots had taken place. In the year 2002, he was residing at the Noorani Masjid at Naroda Patiya with his wife and children and used to teach religious literature to children.

227.2 As per the Muslim religion, his status is considered to be that of a maulavi. At that time, there was one more maulavi at the Noorani Masjid who used to do the work of Pesh Imam in the masjid. The Pesh Imam does the work of making people read namaaz. His name was Abdul Salam. Both of them used to reside in the rooms situated on the first floor of the Noorani Masjid.

227.3 The incident took place on 28.2.2002. He was at the Noorani Masjid. Since at 8 o'clock the madressa would start, he was preparing for it. On that day, the children had also come to study at the madressa and he was teaching them.

227.4 Whenever any Muslim ceremony is to be performed, they go to such person's place to read Quran-e-Sharif. On the day of the incident also, there was a ceremony in the mohalla. On that day, they had gone to Hussainnagar for performing the ceremony of inauguration of a shop. Together with him, around fifteen to twenty children who had come to study at the madressa had also come for the ceremony of the said shop at Hussainnagar.

227.5 After completing such ceremony of the shop at Hussainnagar, they set off from there, when in the nearby mohalla, there was commotion as something had happened on the road, as a result thereof, the children who were

accompanying him, got separated. He does not know as to where the children who got separated from him had gone.

227.6 He came out of Hussainnagar and went to the road alone. He came to the corner of S.T. Workshop, and from there, he saw that on both the sides of the road, there were mobs from the direction of Krushnanagar and Kubernagar. There were around fifty thousand people in the mobs. The entire road was full. At that time, he saw that the Noorani Masjid was being attacked. The people in the mob were pelting stones at the Muslim mohallas.

227.7 He thought of going to save the Noorani Masjid, however, as the mobs were in between, he could not do so. He had secured a lock on the bottom door of the masjid. He had put a lock on the gate on the side of the road.

227.8 As the gate of the Noorani Masjid was locked, the people in the mob brought a tanker. The people in the mob rammed the tanker on the gate of the Noorani Masjid and broke the wall and entered the Noorani Masjid. There were rugs in the masjid for reading namaaz, fans, Quran Sharif etc., all of which were set on fire by the people in the mob. The fire spread in the masjid and the smoke started emanating from all four sides.

227.9 The witness has deposed that he saw that the people in the mob had started breaking the minaras of the masjid and they had insulted the house of God. The people in the mob broke the loud speakers, etc. at the Noorani Masjid and several persons took them and went away. The Noorani

Masjid had become black on account of smoke and fire, all of which he had seen with his own eyes. The people in the mob then put a saffron flag on the Noorani Masjid. They found it very difficult to save their lives, hence, with a view to escape, he went towards Hussainnagar.

227.10 He does not know as to what happened to his family at that time, however, thereafter, he found his family at the Shah Alam camp.

227.11 Upon he and other Muslims starting to go towards Hussainnagar, the police started firing. Due to firing, there was chaos in which certain Muslims were injured by bullets and several people fell down. They had stayed at a house in Hussainnagar for safety and they had remained hidden there. In this house at Hussainnagar also, he realised that the mobs had surrounded them from all four sides and stones were being pelted from the S.T. Workshop.

227.12 Thereafter, when he came out of that house, the assault was going on. He went near the S.R.P. Quarters compound wall, however, the S.R.P. people did not let him go inside the compound wall and they told him that' *"Just like the kar sevaks have been burnt at Godhra, in the same manner, we will kill you here"*.

227.13 In the evening, he went to a terrace opposite the S.R.P. Quarters and hid there. On the terrace a lot of sounds could be heard. It was time for Maghreb Namaz. He had heard shouts and screams coming from all the directions. People were shouting *"Bachao! Bachao!"* He had seen that houses of

Muslims had been set ablaze and the goods were being taken away. The people in the mob had burnt people alive and he could hear those persons who were burning in the houses screaming "*Bachao, Bachao.*"

227.14 At that time, the voices of women being raped were also heard. In the mob comprised of thousands of people, he did not recognize anyone because his work was to teach at the madressa in the masjid. But the people in the mob were wearing black undershirts and shorts and had black bands around their heads.

227.15 All the household goods, articles etc. in the house in which he was residing at the madressa in the Noorani Masjid were burnt. He had sustained loss of the cash lying in his house, household goods and the Muslim religious books.

227.16 Everyone in his family had remained safe, however, he had sustained injury on his waist during the incident and somebody had also assaulted him on his right hand with some weapon. The people in the mob had weapons in their hands.

227.17 When he went in the police vehicle to the camp at night, at that time also, the mobs at the Patiya were shouting slogans "Drive away the Pakistanis". Since on the road it was difficult for their vehicle to reach the camp, the police had taken them on a circuitous route and they could reach the Shah Alam camp from the Patiya after three hours.

227.18 He stayed at the camp for six months. He found his family members on the second or third day at the camp.

227.19 The police had recorded his statement in connection with the incident. However, the police were also continuously abusing them and were not recording the statements as stated by them.

227.20 CROSS-EXAMINATION: In the cross-examination of this witness, he has denied that the masjid and the madressa are both separate. He has stated that the masjid is on the lower level and the madressa is on the first floor. He has admitted that he does not reside in any chawl in the masjid and has voluntarily stated that there is one madressa in the chawl also. Other than the madressa situated in the Noorani Masjid, there is another madressa opposite the S.T. Workshop on the road after leaving two – three Muslim chawls.

227.21 The witness has stated that he had left the Noorani Masjid at around 8:30 in the morning on the day of the incident. He has admitted that he does not know as to whose shop he had gone for the purpose of the ceremony, but he had gone to a Muslim mohalla. It took him around half an hour to perform the ceremony. Thereafter, he heard the sounds and the children went away. He denied that till the children went away, he was at the shop after he performed the ceremony. He has stated that he had gone on the road. He does not know the name of the owner of the shop and has stated that it was a new shop which was a paan-galla. He has stated that thereafter, he went and stood near the S.T. Workshop gate.

227.22 He has admitted that upon seeing the mobs, from where he was standing he had gone inside the chawls. The

witness has voluntarily stated that when there was police firing, he had gone inside. He has admitted that till the police firing commenced, he was at the S.T. Workshop gate. He has admitted that thereafter, he went straight towards Hussainnagar side, but has stated that at that time, there was pandemonium and chaos on all four sides and he had protected himself and reached there. He does not remember as to in which house in Hussainnagar he was hiding and has stated that it was near the S.R.P. compound wall. He does not remember as to when he had reached the compound wall, but the assault had started.

227.23 He does not remember as to how long he had stayed near the S.R.P. compound wall. He has admitted that while he was standing near the S.R.P. compound wall, he had seen smoke on all four sides.

227.24 The witness has admitted that thereafter, he went to the terrace. He was alone on the terrace on which he went and there was no other Muslim. On the terrace on which he was sitting, there were parapets on all four sides. He has admitted that in the line of the terrace in which he was sitting, there were several other terraces. He has admitted that from the sounds which were coming, he could make out that the Muslims were hiding on the other terraces. The witness has admitted that when he reached the terrace, it had become dark. He has admitted that from the terrace, one could not see what was happening on the lower part on the ground. The witness has denied that he has not seen any incident of the Noorani Masjid and that he is falsely deposing before the court. The attention of the witness is drawn to the contents of

paragraphs 3, 5, 6 and the first three lines of paragraph 7, the contents of paragraph 8, the first four lines of paragraph 9, the contents of paragraphs 10, 12 and 13 and the first four lines of paragraph 14 as well as the last three lines of paragraph 15, the last two lines of paragraph 17, the second to the last line of paragraph 18, to the effect that he has not stated such facts in his sole statement dated 12.5.2002, which he has denied.

227.25 To prove the omissions and contradictions as to the previous statements of this witness, the defence has cross-examined the concerned assignee officer who had recorded such statement.

227.26 PW-301 Devendragiri Himmatgiri Goswami, the assignee officer has, in his cross-examination, admitted that he has recorded the statement of this witness on 12.5.2002. The assignee officer has admitted that this witness has not named any accused before him. The assignee officer has admitted that before him, this witness had stated that he was residing with his entire family in the madressa in this chawl. The contents of paragraphs 6, 8, 12 and 13 of the examination-in-chief of the witness are read over to the assignee officer who has admitted that all the facts stated therein have not been stated by him in the statement recorded by him.

227.27 The contents of paragraph 10 of the examination-in-chief of the witness are read over to the assignee officer, who has admitted that the witness had not stated these facts verbatim, but has stated before him that the witness had stated that he had fled towards the chawls in the east and that upon reaching the end of the Muslim area, he had gone and

hidden in Gangotri Society. The rest of the facts are not stated by the witness in the statement recorded by him.

227.28 Parts of the contents of paragraphs 7, 9, 14, 15, 17 and 18 of the examination-in-chief of the witness are read over to the assignee officer, wherein the witness had *inter alia* stated that there were around fifty thousand people in the mob and the entire road was full and at that time, he had seen; since there was a lock on the gate of the Noorani Masjid, the people in the mob had brought a tanker; the people in the mob rammed the tanker against the door of the Noorani Masjid and had broken the wall of the Noorani Masjid and entered inside; in the evening time, he had gone on a terrace, opposite the S.R.P. Quarters and had hidden there; they could hear many voices from the terrace; it was time for Maghreb Namaz; who has stated that such facts have not been stated by the witness in the statement recorded by him.

227.29 ANALYSIS: On a perusal of the testimony of this witness, it is apparent that most part of what has been deposed by him is in the nature of improvements. The witness has not named any accused and no part of his evidence, would help the prosecution in proving the charge against the accused.

228. **PW-255 Mahammadkhalid Saiyadali Saiyed**, aged 38 years, has been examined at Exhibit-1743. The witness has deposed that he can understand Gujarati as he has studied up till the 6th standard in Gujarati and he can also speak in Gujarati.

228.1 The witness has deposed that in the year 2002, he was residing *opposite Noorani Masjid, Next to S.T. Workshop in Hussainnagar, Lane No.2*. At the relevant time, his family was residing with him and at that time also, he was working as an electrician.

228.2 The incident took place on 28.2.2002. On the day of the incident, he had gone for his job as an electrician to Pooja Electronics, Opposite Anuradha Medical Stores in the Chharanagar area.

228.3 Since there was a call for bandh on that day, their employer had told them to work by keeping the shutter of the shop closed, and hence, they had continued with their work. Thereafter, upon the crowd near their shop swelling, their employer decided that they should shut the shop and go away, and hence, at around 9:00 to 9:30, after closing the shop, he walked amidst the public which standing there and went and stood in the chawl near his house. He had stood near the S.T. Workshop. When he went and stood near the S.T. Workshop, a large number of people from the public had gathered on both the sides of the road. The people in the mob were shouting "Jay Shri Ram" and "cut, kill". He went and stood there and immediately, he was injured by a bullet in the firing. The bullet hit him on the vertebrae of his waist. Upon he being injured, the youth from their mohalla lifted him and took him inside. His elder brother Saiyed Badshah was also amongst them.

228.3 They took him to the verandah of his elder paternal aunt Hajrabibi's [Jadikhala's] house. After staying there for about five to ten minutes, somebody said that an ambulance

has come, and hence, he was lifted and taken to the corner of Hussainnagar, when the mob had come inside in large numbers. Thereafter, they lifted him and hid him in someone's house. At this time, his wife Nasimbanu was also with him. They must have stayed in that house for around five minutes, when the owner of the house came there and told them to vacate the house as the mob was coming there also. Hence, they came out from there. His wife and brother had lifted him and taken him out. They were in the Jawannagar Khada when from inside the Pinjara's house which was on the way, they were told to come inside, and hence, they went inside the Pinjara's house. At this time, stones that were being pelted from the S.T. Workshop, were breaking the roof and falling inside the Pinjara's house. Hence, they hid in another corner of the house. They hid in that house till around 6 o'clock in the evening.

228.4 So far as he remembers, there were around twenty five to thirty people in the Pinjara's house. At around 6 o'clock in the evening, four persons who appeared to be policemen came in plain clothes, but they had guns. They told them that a vehicle had come to take them, and hence, they should go with them. Therefore, his wife and brother lifted him and came out and they were going towards the road, when these four persons told them that the vehicle is going to come towards the well, and hence, they should go on the rear side as the road on the front side is closed. Hence, believing what they had said, they followed them. At that time the four persons had gone towards the road. Other people had also come out with them from the Pinjara's house. When they started going towards Jawannagar, at that time, someone from the public

who was standing there, told them not to come towards that side and said that killing and hacking was going on there. Thereafter, they returned and went to the house of another Pinjara and hid there. This second Pinjara's house was a three storeyed house. The Pinjara's house in which they had stayed only had a ground floor and a tin sheet roof. When they went towards Jawannagar and returned back, at that time, there were people in the mob armed with weapons, which he had seen.

228.5 Several Muslims were hiding in the Pinjara's house that had three floors. The number of people might be about five hundred. They hid in this house till around 11 o'clock at night. When they were inside the house, some people started saying that they had come to take them; however, they could not trust them. They told them that they had come from Shah Alam to take them and hence, they believed them and came out and there were vehicles on the road to take them. They sat in the vehicle and went to Shah Alam. His wife and his brother had lifted him and taken him till the bus and thereafter, they had gone in the bus to the camp. After they got down at the camp, he was taken to the V.S. Hospital in an ambulance.

228.6 At the V.S. Hospital, he was given treatment. He stayed there for twenty five days. Thereafter, they stayed in the Shah Alam camp. After staying for about one month at the Shah Alam camp, he was taken to CMC Hospital, at Vellur for further treatment. He was given treatment at Vellur for one month and twenty five days. Thereafter, they stayed in a hut at Chandola. Thereafter, he came to reside in his mother-in-law's house at Juhapura. Later on, they got a house from the

Relief Committee and at present, he is residing in that house.

228.7 The witness has deposed that in the incident, his elder paternal aunt Hajrabibi has died and two sons of his elder brother Inayat Saiyed who is the son of Hajrabibi, have died in the incident. His brother-in-law Abidali has also died in the incident. His younger brother Abdul Majid was also injured on his leg by a bullet in the incident.

228.8 The witness has deposed that he was not at all handicapped by birth. He was totally healthy. However, in the incident, on account of being injured by a bullet on the vertebrae of his waist, he has been permanently handicapped from below his waist, due to which, he had to undertake a long treatment and that his treatment still going on. On account of such handicap, he needs to use crutches for walking and without them, he cannot even stand up. On account of his handicap, he cannot relieve himself and cannot routinely pass urine or stool. All these things have to be done by him artificially. Despite all the treatment which he has taken, the physical difficulties faced by him, especially while passing of urine and stool, are extreme difficulties which have not been alleviated and because of all this, these problems have become lifetime problems. The doctors have told him that he will have to suffer such problems throughout his life.

228.9 The witness has deposed that on account of the bullet injury, immense injury has been caused to the lower part of his body below his legs due to which, his left leg has become totally lifeless and in his right foot also, there is only slight movement. On the lower part of his body below the waist, if

one touches certain parts, there is no sensation and in some other parts, the sensation is not more than 10 to 15%.

228.10 On account of the injuries sustained by him during the incident, for at least three years, he could not do any work or business and he was given treatment with the aid of some organization.

228.11 At present, on account of the injuries, he can sit for a maximum for thirty minutes. He has to keep a hole in the chair on which he sits and because of the hole, the injured part of his body stays outside. He has deposed that he cannot sit for long, and hence, has to suffer a lot of difficulties in working as an electrician. On account of the handicap, he can only perform such tasks for earning his livelihood, which he can do while sitting.

228.12 The police had recorded his statement in connection with the incident. While he was at the hospital, the police had recorded his statement twice. The SIT had also recorded his statements twice.

228.13 The witness has deposed that he had sustained loss in connection with the household articles and furniture, etc. in his house in the incident, which was on account of the looting that took place in his house.

228.14 CROSS EXAMINATION: In the cross-examination of this witness, it has come out that he can read Gujarati. An application Mark 644/15 is shown to the witness who has read it and he has stated that he does not know whether all the

facts stated in the application are true, but he has identified his signature thereon. The application to the extent of the signature is exhibited as Exhibit-1744.

228.15 The witness is cross-examined with regard to the application as to where it was written. The witness has admitted that because of the application, the SIT had recorded his statement at Gandhinagar. He does not remember whether the SIT had read over his statement to him.

228.16 The witness has admitted that the police had recorded his statement at the hospital on 7.3.2002. He does not remember as to whether his statement dated 7.3.2002 was read over to him by the SIT. The witness is confronted with his statement dated 29.5.2008 recorded by the SIT wherein he has, inter alia, stated that his statement dated 7.3.2002 is read over to him which is as stated by him and is correct and proper. In the opinion of this court, this part of the statement of the witness is brought on record to corroborate the stand of the defence in the cross-examination. A statement under section 161 of the Code can only be used to contradict a witness and through the process of cross-examination, what is stated in such statement cannot be brought on record. The contents of paragraph 23 of the deposition of this witness are, therefore, not admissible in evidence.

228.17 In the cross-examination of this witness, it has come out that he is residing at Naroda Patiya area since his birth. He has admitted that on the day of the incident, Pirubhai was firstly injured by a bullet in the firing and thereafter, immediately he was injured by a bullet. The witness is cross-

examined with regard to the topography of the area. The witness has denied that at the time of the incident, the Hindus and Muslims were pelting stones against each other.

228.18 In his cross-examination, it has come out that he has not seen Abid being struck by a bullet. He does not know as to whether he was injured by a bullet in the police firing. The witness has stated that he does not know that at that time, it had happened that a mob was coming from the direction of Saijpur Patiya and that the police had fired at the mob and in the firing, while he was going at home, he was injured in the police firing. The witness has admitted that when the police had recorded his statement on 7.3.2002, he was able to speak and was conscious. The witness has admitted that in his statement dated 7.3.2002, he had stated that in the context of the incident that took place at Godhra, on 28.2.2002, there was a call for Gujarat Bandh. In the opinion of this court, since this part of his statement has not been put to the witness to contradict any part of his evidence, it is not admissible in evidence and ought not to have been permitted to be brought on record.

228.19 The witness has denied that in his statement, he has also stated that upon going to his shop, since it was closed, he was returning home. He has admitted that in his statement, he has stated that there was a huge mob of people at Saijpur Patiya which had started shouting and pelting stones due to which, the police had released tear gas and carried out firing and he was injured on his thigh as well as on the right side of his abdomen. The witness has voluntarily stated that in his statement, he has not stated that he was injured by a bullet

in the police firing and has only stated that he was injured by a bullet. The witness has denied that in his statement, he has stated that therefore, he had fled to the chawl and had hidden himself. The witness has stated that he was not in a position to run.

228.20 The witness has admitted that in his statement dated 29.5.2008 before the SIT, he had stated that his employer Vijay Sharma had told him that mobs of people had gathered and there was a call for Gujarat Bandh on that day, hence, they should close the shop and go to the respective homes, and hence, he had immediately set off to go home and he had just come out from the mob and reached where the new police chowky has been constructed and was standing there and the mob of people belonging to the Hindu community had started pelting stones at their people as well as the chawls near the Noorani Masjid. There was a police point near the Noorani Masjid and he does not know as to how many police were there. When the stone pelting started, they had gone from the point towards the Hindu mob and there was a police gypsy and there was cross stone pelting when the police firstly released tear gas at them and thereafter, started firing at the people of their community. Therefore, the people of their community started running helter skelter and came towards their chawls. Thereafter, he was injured by a police bullet on the left side of his abdomen. Upon he being injured, some youth from their community had pulled him and taken him inside the chawls. The witness has voluntarily stated that since there was police firing, he had felt that he might have been injured by a police bullet; therefore, he must have stated so. The witness has admitted that in his statement recorded by

the SIT, he has stated that he was injured in the police firing in the incident that took place on 28.2.2002 and he had also availed of treatment. During the treatment, he was totally physically handicapped.

228.21 The witness has stated that he does not remember as to whether he has stated so, but he remembers that he had stated that investigation should be carried out to the extent of the police who had fired bullets at him and they should be punished. The witness has admitted that in the context of his injury, he has received compensation of Rs.1,25,000/-.

228.22 The witness has denied that he has not sustained serious injuries as stated by him in his deposition. He has denied that he has not been seriously injured and that he is falsely deposing at the instance of people of his community.

228.23 (The trial court has noted that when the witness came out of the witness box and was going out of the court, his physical problems could be clearly seen and he could walk with great difficulty, and in both his hands, he had crutches with grip and with their support, he could walk. Even when he got up from the chair, it could be seen that he had a lot of difficulty.).

228.24 To prove the omissions and contradictions in the testimony of this witness as to the statements recorded by the assignee officer and the Investigating Officer (SIT), the defence has cross-examined them.

228.25 PW-276 Shri P.U. Solanki, in his cross-examination

has admitted that he had recorded the statement of this witness on 7.3.2002 at the V.S. Hospital. He has admitted that this witness in his statement dated 7.3.2002 had stated before him that upon going to the shop, as the shop was closed, he was returning home and at this time, it was around 11:00 to 11:30 in the morning. The assignee officer has admitted that the witness has further stated before him that therefore, he ran and hid in the chawls. Considering the physical condition of the witness and the injuries sustained by him, it appears that the witness is telling the truth that he has not stated before the assignee officer that he had run and hidden in the chawls. The assignee officer, therefore, does not appear to have recorded the statement of this witness accurately.

228.26 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), in his cross-examination has admitted that he has recorded the statements of this witness on 29.5.2008 and 4.7.2008. He has stated that in his statement dated 29.5.2008, the witness had stated that upon being shown the application addressed to the Chairman and Convener Shri, SIT, Gandhinagar, he has written the details stated therein and has signed the application and that the signature is his. The statement dated 7.3.2002 is read over to him and is, as dictated by him and is correct and proper ; upon remembering presently, he is also stating that at least to the extent of the police who had fired the bullet at him, there should be investigation and he too should be punished. The entire part of the testimony of the Investigating Officer referred to hereinabove, is not admissible in evidence inasmuch as the same has not been used to contradict any part of the primary statement of the witness.

228.27 SUBMISSIONS: The learned counsel for the appellants submitted that this witness is the elder brother of Saiyed Badshah. This witness does not implicate any accused. Moreover, there are inconsistencies between the testimony of this witness and his wife PW-68 Naseembanu Mohammad Khalid Saiyad. It was submitted that while according to this witness he was taken to Hajrabibi's (Jadikhala) verandah and that he took shelter at the Pinjara's house, his wife PW-68 does not say that her husband was taken to Jadikhala's house or that they took shelter in the Pinjara's house.

228.28 ANALYSIS: This witness has sustained bullet injury in the morning, immediately after he went and stood near the S.T. Workshop. The witness was carried by youths from their mohalla, including his brother Saiyed Badshah to the verandah of Hajrabibi @ Jadikhala. After ten to fifteen minutes they were informed that an ambulance has arrived and taken to the corner of Hussainnagar but by that time the mobs had entered the chawls in large numbers and hence, they hid in someone's house. However, in a short while they were asked to leave the house as the mobs were coming there also. His brother and his wife lifted him and took him to a Pinjara's house and they hid in the house till 6 o'clock in the evening. At around six in the evening, four persons in plain clothes but with guns, who appeared to be policemen, came there and told them that a vehicle had come for them and asked them to come along. Following them, they started going towards Jawannagar, but the public standing there told them not to go as there was violence there. Thereafter, they went to another Pinjara's house and stayed there till about 11 o'clock at night when

people came with vehicles from Shah Alam and took them to the camp. From the camp, he was taken to the hospital in an ambulance. The witness has been severely injured by the bullet and has been rendered physically handicapped for life.

228.29 In his cross-examination it has been elicited that the first person to be injured by a bullet was Pirubhai and immediately thereafter, a bullet struck him. The witness has not seen Abid being wounded by a bullet and is not aware as to whether he (the witness) was injured in police firing. In the entire cross-examination, no omission or contradiction has been brought out as to his statements recorded by the police. Therefore, the version given by the witness deserves to be accepted. This, witness has not named any accused and his testimony is relevant only to the extent he has deposed as above. From the testimony of this witness, it emerges that after he was wounded, he was taken to Jadikhala's house, which supports the testimony of PW 135 Hussainabanu who has deposed that the mattress on which this witness was made to lie down was blood stained and this blood stained mattress was placed upon her brother Hasanali and he was set ablaze.

229. **PW-257 Mahammadriyaz Fasiyuddin Shaikh**, aged 38 years, has been examined at Exhibit 1754. This witness has deposed that he can understand Gujarati; however, he finds it more convenient to speak in Hindi and will, therefore, depose in Hindi. His native place is District Gulbarga, Karnataka State.

229.1 The witness has deposed that he is illiterate and is residing at Jawannagar since the last twenty years and since

the last fifteen years, he is in the business of grocery and vegetables. He carries on his business from his residence.

229.2 The incident took place on 28.2.2002. At the time of the incident, his mother, father and his brother, sisters, his wife and children, were all residing together.

229.3 On the day of the incident, he was at home. At that time in the morning at around 9 o'clock, the mobs had gathered opposite S.T. Workshop. The people came near their house and were saying that the mobs have gathered outside. Upon hearing this, he also came out of his chawl and went and stood at the corner of S.T. Workshop.

229.4 When he went there, he saw that the people in the mob had gathered. The mobs were coming from Krushnanagar, Mahajanivas and Patiya. The people in the mob were shouting slogans of Jay Shri Ram and were pelting stones. They were pelting stones at the masjid and were damaging the masjid. He saw that the mobs had come in front of the masjid and after coming there, they were pelting stones and damaging it.

229.5 The people in the mob had dharias, swords and other weapons in their hands. The people in the mob had assaulted the Imam Saheb of the masjid. Upon seeing all this, he was frightened. As he was frightened, he went back home. He stayed with his family members at home till 1 o'clock in the evening.

229.6 Thereafter, the mobs started breaking the wall of the Jawannagar pit and started coming inside. Hence, out of

fear, he and his family left their house and went towards the S.R.P. compound wall.

229.7 Amongst the people in the mob which broke the compound wall of Jawannagar, and entered their chawls, he had seen Guddu Chhara. He had tied a black band on his head and he had a sword in his hand. He had also seen Suresh Langda in the mob with a dagger in his hand. He had seen Guddu Chhara assaulting a woman. Guddu Chhara first assaulted the woman with a sword and thereafter, sprinkled kerosene on her and set her on fire. Suresh Langda was inflicting blows with gupti on women. He had also seen Bhavanisingh in the mob. Bhavanisingh Chhara was gesturing to the people in the mob and calling them and all the people in the mob were coming to the chawls and upon his so gesturing, the people in the mob were entering the chawls and were looting.

229.8 They tried to go inside the S.R.P. Quarters, but the S.R.P. people who were standing there did not let them enter and hence, they stood outside the compound wall of the S.R.P. Quarters. They stayed there till 5 o'clock in the evening. Upon the mobs increasing, thereafter they went to a terrace of Gangotri Society and sat there. At this time, his younger brother Mohammad Afzal got separated from him. He left his family on the terrace and went to search for him towards Jawannagar. In Jawannagar, the people in the mob were killing any person from the Muslim community who fell in their hands. Four youths in the mob had stripped a woman naked and raped her. At that time, it was around 6:30 to 7:00 in the evening. He does not know the names of these four youths.

229.9 Thereafter, he went on another terrace of Gangotri Society. From the terrace, he had seen that another woman was also assaulted and her hands and legs were broken by the people in the mob. From the terrace, he had seen his maternal aunt's son Zakirhussain's son, who was aged 5 years, being thrown alive in the fire by the mob. Thereafter, the mob went away. All this he had seen while hiding on the terrace.

229.10 The people in the mob were the members of the Vishwa Hindu Parishad, Bajrang Dal and Shiv Sena. He stayed at the terrace till around 12:30 at night. Thereafter, upon the police vehicle coming, they were taken to the Shah Alam camp. They had stayed at the camp for around six months. Thereafter, they had returned to Naroda Patiya.

229.11 Most of the business items as well as household articles from his house were looted by the people in the mob. The SIT had recorded his statement in connection with the incident.

229.12 Out of the persons whom he had named, Guddu Chhara and Bhavanisingh are dead. The witness has stated that he can identify Suresh Langda and has correctly identified accused No.22 – Suresh Langda.

229.13 CROSS EXAMINATION: In the cross-examination, the witness has admitted that for the purpose of panchnama and survey of his house, he himself had gone with the police. He has denied that on the day when the police went to draw the panchnama, his statement was also recorded. The

witness has denied that in his statement dated 6.5.2002, he has stated that on 27.2.2002, at the Godhra Railway Station, people belonging to the Muslim community sprinkled kerosene on a coach of the Sabarmati Express Train in which the Kar Sevaks were travelling and set it on fire and had burnt them alive, due to which, the Vishwa Hindu Parishad had given a call for Gujarat Bandh. The witness has voluntarily stated that his statement was recorded only by the SIT. Apart from the fact as to whether any statement of the witness was recorded on 6.5.2002, the part of the statement which is put to the witness has not been put to contradict any part of what is stated by the witness in his evidence. Under the circumstances, this part of his statement under section 161 of the Code could not have been brought on record and is inadmissible in evidence.

229.14 The witness has denied that in his statement dated 6.5.2002, he had stated that on 28.2.2002, he woke up in the morning and after drinking tea, he was present in his shop and at 9 o'clock in the morning, there was commotion and unrest outside, and hence, he was going out on the road to look. However, outsiders were coming inside, hence, at around 12 o'clock, he also came out with his children and went and sat near the S.R.P. camp, where everyone were sitting and at this time, about fifteen to seventeen thousand Hindus, with weapons, came there and started setting the houses on the front side of the road on fire. In this mob, one Guddu Chhara was there who had a sword and whose full name he does not know, but whom he knows by his face. Thereafter, they had gone to a terrace of Gangotri Society and at 11 o'clock at night, upon the police vehicle coming, they were directly taken to the Shah Alam camp and at present, they are at the camp.

The witness has voluntarily stated that he did not have any shop and that he used to do his business from his house and was not required to go to his shop.

229.15 The witness has denied that in his statement, he had stated that on 28.2.2002, the Hindu mobs had taken away. He does not know who had taken away the good; regarding who had which weapons in the riots, he is stating that when this mob of Hindus came, out of fear, they had hidden against the S.R.P. compound wall, and thereafter, had gone to Gangotri Society and at 12 o'clock at night, they had gone to the Shah Alam camp. The witness has stated that no such statement of his was recorded and the police had only drawn a panchnama. The witness has denied that he had stated about the damage caused to his house in the statement and has voluntarily stated that he had stated about the damage in the panchnama.

229.16 The contents of the first three lines of his examination-in-chief are read over to the witness who has denied that he had not stated these facts in the statement recorded by the SIT. The contents of last two lines of paragraph 4 of his examination-in-chief are read over to the witness, wherein he has stated that upon hearing this, he too came out of his chawl and stood at the corner of the S.T. Workshop, to the effect that he had not stated such facts in his statement. The contents of paragraph 5 from the second to third lines of the examination-in-chief of the witness are read over to the witness to the effect that he had not stated such facts in his statement.

229.17 The contents of paragraph 8 of his examination-in-chief are read over to the witness, wherein he has stated that the mob broke the Jawannagar wall and entered their chawl, wherein he had seen Guddu Chhara and Suresh Langda in the mob. The witness has stated that he does not remember whether he has stated these facts to the SIT.

229.18 The attention of the witness is drawn to the contents of the third line at page 4 of paragraph 8 of his examination-in-chief, wherein the witness has stated that Suresh Langda was inflicting blows with a gupti on women. The witness has stated that he does not remember whether he had stated such facts before the SIT.

229.19 The witness is cross-examined with regard to the topography of the area. He has denied that he does not know as to from which directions the mobs came and has voluntarily stated that the mobs had come from three directions. The witness has denied that he had seen Guddu, Bhavani and Suresh in the mob in the morning near Noorani Masjid and has voluntarily stated that he had seen them in the afternoon. The witness has admitted that while he was at the camp, he had made an application to the Police Commissioner. He does not remember as to whether in the application he had named any accused other than Pappu Chhara. He has stated that he had seen four youth raping a woman from the terrace of Gangotri. He has denied that he has not stated before the SIT officer as to where this incident had taken place. The witness has voluntarily stated that he had seen the incident taking place at Jawannagar. The witness has denied the suggestion that on the day of the incident, he had not gone to the corner of the S.T.

Workshop, he had not seen Guddu and Bhavani, and therefore, in his statement dated 6.5.2002, as well as the application made to the Police Commissioner, he has not given these three names. The witness has admitted that he has no social relations with Suresh Langda. He had no occasion to visit his house and has no talking relations. The witness has admitted that after the incident took place, he had never met Suresh. The witness has denied that under the pressure from the people of his community, he was falsely deposing to implicate the accused.

229.20 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has been cross-examined by the defence to prove the omissions and contradictions in the testimony of this witness. The Investigating Officer, in his cross-examination, has admitted that he has recorded the statement of this witness on 23.5.2008. The words, "the mobs opposite S.T. Workshop" are read over from paragraph 4 of the examination-in-chief of the witness. The Investigating Officer has admitted that the witness has not mentioned these words in the statement recorded by him but had stated that they had gathered at the Naroda Patiya area.

229.21 A sentence from paragraph 4 of the examination-in-chief of the witness is read over to the Investigating Officer, wherein he has stated that upon hearing this, he too went out of his chawl to the corner of the S.T. Workshop and stood there. The Investigating Officer has denied that this witness has not stated these facts before him and that the witness had stated before him that he had gone out and was standing there. Therefore, whether the witness says that he went and

stood outside the chawl or outside at the corner of the S.T. Workshop, the meaning is the same.

229.22 The contents of paragraph 5 of the examination-in-chief of the witness wherein the witness had stated that the mobs were coming from the side of Krushnanagar, Mahajaniyavas and Patiya are read over to the Investigating Officer, who has denied that the witness has not stated such facts in the statement recorded by him. He has stated that the witness had stated before him that these mobs had come from two to three directions to the Naroda Patiya area.

229.23 Extracts of paragraph 8 of the examination-in-chief of this witness are read over to the Investigating Officer, wherein the witness has stated that in the mob which had broken the Jawannagar compound wall and entered their chawl, he had seen Guddu Chhara as well as Suresh Langdo. The Investigating Officer has denied that the witness has not stated these facts in the statement recorded by him but has stated that the witness had stated before him that Muslim mobs entered the chawl and the people in the mob had weapons with them and they were assaulting the people belonging to the Muslim community and burning them with kerosene and in that mob he had seen Guddu Chhara, Suresh Langdo and Bhavanisingh Chhara.

229.24 The contents of paragraph 8 of the examination-in-chief of the witness are read over to the Investigating Officer wherein the witness has stated that in the mob Suresh Langdo was inflicting blows with a gupti on women. The Investigating Officer has admitted that all these facts have not been stated

by the witness and that the witness has stated that Suresh Langdo had a gupti and he was assaulting with it, however, he has not stated that he was inflicting blows on women with a gupti.

229.25 SUBMISSIONS: The learned counsel for the appellants submitted that no police statement of this witness regarding the incident has been recorded and the only statement which has been recorded is by the SIT on 23.5.2008. It was submitted that while Shri S.S. Chudasma has recorded the statement of this witness on 6.5.2002, the witness has denied any such statement having been recorded.

229.26 It was submitted that the witness has admitted that from the camp he had made an application to the Police Commissioner and he has also admitted the name which was being discussed in the camp of one person, he had given his name and he says that he does not remember having given any name other than Pappu Chara. It was submitted that in such circumstances when there is an omission before the SIT as regards the place from where the witness has seen the mob in the afternoon, his naming the accused for the first time before the SIT may not be relied upon. The learned counsel for the appellants further invited the attention of the court to the contents of paragraphs 8 and 9 of his examination-in-chief to submit that no witness has stated about any such incident having occurred at Jawannagar.

229.27 The learned Special Public Prosecutor has submitted that this witness has specifically given the names of the accused with weapons and when a question was asked as to

whether accused No.22 was near the Noorani Masjid, he has clarified that he had seen him in the afternoon. It was submitted that the witness has denied his first statement recorded by the police on 6.5.2002 and that the statement recorded on 6.5.2002 is a panchnama of his house and no specific question has been put in respect of the statement to the Investigating Officer to bring out the contradictions. It was submitted that this witness is, therefore, credible as well as dependable.

229.28 ANALYSIS: As per the version given by this witness, in the morning on the day of the incident he had seen mobs coming from three directions. The people in the mobs were armed with weapons. In the afternoon, the Jawannagar compound wall was being broken by the mob and amongst the people in that mob he had seen Guddu Chhara and Suresh Langda assaulting women with sword and gupti respectively, and Bhavanisingh Chhara gesturing to the mob and calling them. The witness went to the S.R.P. Quarters but they were not permitted to go inside, and hence, they stood outside the compound wall till 5:00 p.m. Thereafter they went to a terrace of Gangotri. Since his brother Mohammad Afzal had got separated from them, he went in search of his brother and at around 6:30 to 7:00, he saw four youths stripping and raping a girl and further saw a woman being assaulted by the mob and her hands and legs being broken and he also saw Zakirhussain being thrown in the fire by the mob. While the record shows that the witness's statement was recorded on 6.5.2002, he has denied that his statement was so recorded. Therefore, according to him his statement was recorded for the first time by the SIT in the year 2008. From the testimony of the witness

it is evident that a panchnama of his house came to be drawn by the police at the relevant time, however, at that time he has not disclosed the names of the accused. This witness has named three accused persons, out of whom two are dead. Insofar as accused No.22 Suresh Langda is concerned, he has been named by the witness for the first time in the year 2008, and hence, it would be hazardous to rely upon such evidence to prove the charge against the accused. Insofar as the incidents which the witness claims to have seen, the chances of the witness having been tutored cannot be ruled out as such facts appear to have been stated only with a view to corroborate the version given by some of the other witnesses. Considering the quality of the evidence of this witness, he does not come across as a credible and reliable witness and his testimony cannot be relied upon.

230. **PW-258 Mahammadusman Mahemoodbhai Shaikh**, aged 45 years, has been examined at Exhibit-1755. The witness has deposed that he knows Gujarati, but would find it more convenient to depose in Hindi. He has stated that he has studied up till the 5th standard in Karnataka State.

230.1 The witness has deposed that since the last thirty years, he is residing at *Pandit-ni-Chali, Behind Noorani Masjid, Naroda Patiya* and has a licence to sell kerosene and is engaged in the business of distribution of kerosene. He has a licence in his name since the last sixteen years and is carrying on business.

230.2 In the year 2002, he used to park his cart outside Girishkumar Jayantilal Shah's shop at Krushnanagar and carry

on his business. After his business was done, he would park his kerosene cart opposite Noorani Masjid, near a railing. Like him, three to four other persons also used to park their kerosene carts there.

230.3 On 27.2.2002, the incident of burning Kar Sevaks at the Godhra Railway Station had taken place and hence, the situation was volatile, due to which, he had returned home on that day.

230.4 On 27.2.2002, in the evening, at around 6 o'clock, he wound up his business and parked his cart opposite Noorani Masjid as per his routine. At that time, no sale had taken place and he had forty litres of kerosene in his cart. He used to serve in Girishkumar's shop in the morning and evening, and in the afternoon, he used to keep his cart outside the shop and deal in kerosene.

230.5 The incident took place on 28.2.2002. On that day, there was a call for bandh. He was at home. At around 9:00 to 9:30 in the morning, upon the public gathering, his wife woke him up. After waking up, he went near Noorani Masjid. The people residing in the neighbourhood were standing there. At that time, he saw that mobs of people had gathered towards Natraj Hotel. He had also seen the mobs gathering at Krushnanagar. The mobs were slowly coming towards Noorani Masjid.

230.6 The people in the mob were Hindus. The people in the mob were pelting stones at Muslims and were throwing burning rags. The police were also there. The police was

releasing tear gas against them. Upon seeing all this, they were frightened and went and hid in the lanes. At that time, the people in the mob took the kerosene from their carts and threw it on the masjid and set it ablaze. The people in the mob had also entered the masjid.

230.7 At this time, in the Krushnanagar mob, he had seen Bipin Panchal (A-44). In the mob which was coming from the Natraj side, he had also seen a youth who used to drive a rickshaw, whose name was Manoj Sindhi (A-41). In these riots, they, the Muslims, were very worried. His family members had gone to *Jigarhasan-ni-Chali*.

230.8 In the mob, Bipinbhai Panchal and Manoj Sindhi were instigating the people in the mob. Thereafter, with a view to save himself from the mob, he had gone to his family near *Jigarhasan-ni-Chali*. They stayed at *Jigarhasan-ni-Chali* till night. At around 11:00 to 11:30 at night, he and two to three persons of their community came out. At that time, there was a police vehicle which was parked in front of the S.T. Workshop gate, in which a police officer was sitting. He had requested that police officer to make arrangements to drop them at the camp, whereupon he had told him that it could not be done as it was very late. However, they would make arrangements in the morning.

230.9 Thereafter, on 1.3.2002, in the afternoon at 5 o'clock, a police vehicle came and they took them to Juhapura camp. They stayed there for around eight months. In the riots, immense loss had been caused to him in connection with his kerosene cart and his household goods. His kerosene cart was

destroyed in the incident.

230.10 The SIT had recorded his statement in connection with the incident.

230.11 As stated by him, he had seen Bipinbhai Panchal and Manoj Sindhi in the incident and he can identify them. The witness has thereafter identified accused No.44 – Bipinbhai Panchal correctly. He, however, could not identify Manoj Sindhi (A-41) though he was present in the court.

230.12 CROSS EXAMINATION: This witness in his cross-examination has admitted that he used to make bills while selling kerosene. He used to distribute kerosene on ration cards. The witness has admitted that he used to maintain an incoming and outgoing register in respect of kerosene as per the Government rules. The witness has stated that on 27.2.2002, he had sold 160 litres of kerosene and had made the entry in the stock register. He has voluntarily stated that amongst the things that had burnt on the day of the incident, the mob had burnt everything. The witness has admitted that he has not lodged any complaint in connection with the kerosene that was destroyed on the day of the incident for the reason that he was in the camp for eight months. The witness has further deposed that he had lodged a complaint with the Civil Supplies Department of the Government and that when he started the business after the incident, the Government had given him fresh registers. The witness has been cross-examined with regard to the topography of the area. He has denied that he had not got forty litres of kerosene in his handcart and that whatever kerosene remained was for his

personal consumption. The witness is confronted with the statement recorded by the SIT to the effect that he had stated therein that on 28.2.2002, he had decided not to sell kerosene from his cart and that his kerosene cart was lying as it is in front of the Noorani Masjid and there was approximately forty litres of kerosene in it. On 27.2.2002, the situation in the Ahmedabad city was volatile and there were chances of riots and hence, he had kept the kerosene himself. The witness has voluntarily explained that what he means to say is that he had not sold the kerosene and had kept it in the cart.

230.13 In his cross-examination, it has further come out that when he reached near the Noorani Masjid after around half an hour to a quarter to an hour, the police had released teargas and has started firing. The witness has admitted that he had seen what the mob was doing while hiding in the lanes. The witness has denied that there was smoke on all sides on account of the teargas but has stated that there was some smoke. The witness has admitted that after the teargas was released, out of fear, he had gone inside and thereafter he had not seen the incidents taking place outside. The witness has admitted that he was aware of the fact that Manoj Sindhi used to drive a rickshaw and has stated that he had seen him earlier driving a rickshaw in the Patiya area. The witness has admitted that after the incident, he has no relations of visiting Bipin Panchal at his house, meeting him or having tea or sitting with him. The witness has denied that he had not seen the incident narrated by him in his examination-in-chief and that he was falsely deposing merely at the instance of the people of his community and that he did not know either of the accused in the mob.

230.14 The witness is confronted with the statement recorded by the SIT to the effect that he had not stated that Bipin Panchal and Manoj Sindhi were instigating the mob. The witness has admitted that in his statement he had not stated as to where Bipin Panchal is residing and what business he carried on. The witness has stated that he knew him very well and that he knows his place of business and that he is known as Bipin Autowala, and therefore, it was not necessary to state his business. The witness has stated that he does not know where he resides and hence, he has not stated such fact, but he is aware that Bipin has an auto centre opposite S.R.P. camp. In his cross-examination, it has come out that he does not know that Bipin Auto Centre was burnt in the incident and till date, he is not aware of such fact.

230.15 The witness has admitted that the Islamic Committee has got his house repaired. The witness has denied that while he was in the camp in the year 2002, he was informed about certain names which were decided and on that basis, he has named such accused in his statement recorded by the SIT in the year 2008 and has falsely deposed before the court. The witness has denied that Bipinbhai was not present at the scene of the incident on the date of the incident.

230.16 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT), has been examined to prove the omissions and contradictions as to the previous statement of the witness recorded by him. In his cross-examination, the Investigating Officer has admitted that he has recorded the statement of this witness on 22.6.2008. Certain extracts of paragraphs 7 and 8

of the examination in chief of the witness are read over to the Investigating Officer wherein he has stated that the people in the mob entered Noorani Masjid. At that time, he had seen Bipin Panchal in the Krushnanagar mob. The Investigating Officer has denied that this witness has not stated such facts in the statement recorded by him. He has deposed that the witness had stated before him that on 28.2.2002 at around 9:00 to 9:30, a huge mob of Hindus had gathered on the side of Natraj Hotel as well as Krushnanagar and opposite the Noorani Masjid. He does not know as to what they were wearing and that the Hindu mob first pelted stones at the Noorani Masjid as well as the surrounding chawls and damaged carts as well as houses on the road. On 28.2.2002, about 40 litres of kerosene which was in the cart, the people in the mob must have poured it somewhere and used it for burning. His cart and his measures were set on fire by the mob and the people in the mob had thrown the kerosene in the masjid and set the masjid on fire, which he had seen with his own eyes.

230.17 An extract of paragraph 9 of the examination-in-chief of the witness is read over to the Investigating Officer wherein he has stated that Bipin Panchal and Manoj Sindhi were instigating the people in the mob. The Investigating Officer has admitted that the witness has not mentioned the fact regarding instigation only; however, the witness has clearly stated that both the accused were leading the mob.

230.18 SUBMISSIONS: Mr. Y.S. Lakhani, learned counsel for the appellants, submitted that this witness has named two accused, namely, Bipin Panchal and Manoj Sindhi. He, however, could not identify Manoj Sindhi, though he was

present before the court. It was submitted that insofar as accused No.41 Manoj Sindhi is concerned, this witness has stated that he was driving a rickshaw and, ultimately, he has not identified him in the court. Therefore, even if he has referred to Manoj Sindhi in his only statement dated 22.6.2008 recorded by the SIT; it is not referable to accused No.41.

230.19 As regards accused No.44 Bipin Panchal, the learned counsel submitted that in his only statement before the SIT, the witness has stated that he was seen in the mob in the morning and beyond that, no overt act has been attributed nor has any participation been alleged and, therefore, the evidence against accused No.44 is not reliable and cannot be used against him. Referring to contents of paragraph 22 of the deposition of the witness, it was submitted that the evidence of the witness is vague as against his claim of seeing the accused in the mob.

230.20 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that the witness is a natural witness and his presence at the scene of offence is established, and hence, there is no reason to disbelieve this witness, who is a credible and trustworthy witness.

230.21 ANALYSIS: The record reveals that only one statement of this witness as recorded in the year 2008 by the SIT. No statement of the witness was recorded at the relevant time and no plausible explanation has come forth as to why his statement could not be recorded at that time. The witness has named two accused, viz. Bipin Panchal and Manoj Sindhi in the incident and has attributed specific roles to them. However,

out of the two accused, he could not identify Manoj Sindhi (A-41). Besides, in his sole statement recorded by the SIT he has attributed a different role to the accused than that stated before the court. Considering the quality of the evidence of this witness, together with the fact that the statement of the witness was recorded at a highly belated stage, only in the year 2008, it would be very risky to rely upon the testimony of this witness to prove the charge against the accused.

231. **PW-259 Hajrabibi Abdulsamad Shaikh**, aged 42 years, has been examined at Exhibit-1761. The witness has deposed that she can understand Gujarati, but cannot speak in Gujarati and hence, she will depose in Hindi.

231.1 The witness has stated that she is totally illiterate. She is residing in *Lane No.1, Jawannagar, Naroda Patiya* since around 25 years with her family. She does only household work. Her husband has passed away around five years prior thereto.

231.2 On 28.2.2002, the incident took place. There was a call for Gujarat Bandh on that day.

231.2 In the year 2002, her mother, her husband and her children were residing with her. Her mother's name was Tarkasbibi.

231.3 Since she was her mother's only child, she used to live with her. Her mother was handicapped and she was bent from the waist.

231.4 On the day of the incident, she was at home in the morning. She was making breakfast for her family members. At that time, since there was a call for Gujarat Bandh, her husband went outside to see. He came back home and told her that the situation was very volatile on that day and that she should not let the children go out anywhere. The Noorani Masjid was being attacked and the shops nearby were being set on fire. Therefore, they had stayed at home.

231.5 On the day of the incident, at around 12 to 1 o'clock in the afternoon, a Hindu mob broke the Uday Gas Agency compound wall and entered into their chawls. Upon the people of the mob coming in, they thought that they should leave their houses and go away, and hence, she told her mother that they would lift her and they would leave that house and go. At that time, her mother asked her as to where they would go around with a handicapped person and said, instead they should make her sit in the toilet. Thereafter they lifted her mother and placed her in the toilet of their neighbour which was on the first floor, which has a room on the ground floor. They had latched the chain of the toilet from outside and left their home. Thereafter, they went from one lane to another in the chawls and went to the terrace of a house in Gangotri Society. From the terrace of Gangotri Society on which they were, they saw that the people in the mob had come in the house near the toilet where they had kept her mother, opened the door of the toilet and lifted her handicapped mother and thrown her down. Upon the people in the mob throwing her down, the mob below had thrown her alive in a burning rickshaw. She had seen this incident herself. Two rickshaws were also burning there. The people in the mob had thrown her

handicapped mother who was thrown down in both the burning rickshaws.

231.6 The people in the mob were also gesturing to them and calling them and saying that “Now, it is time to kill you also, come here”.

231.7 In the incident, her house was damaged and the household goods and other things etc. were set on fire. They had kept sitting on the terrace. At 12:00 to 12:30 at night, upon the police vehicle coming, they were taken to the Shah Alam camp, where they stayed for around six months. Her mother was burnt and died in the incident.

231.8 Upon seeing this incident, her (the witness's) health had deteriorated. She has not even lodged a complaint.

231.9 Five days after the incident, she was called to identify her mother's dead body. However, since she was not well, she had not gone. She had sent her elder son-in-law to identify her mother's dead body. Her son-in-law had come and said that he had identified her mother's body and that she had been buried at Kalandar Kabrastan. Her son-in-law had also obtained burial receipt.

231.10 The witness has deposed that since she had seen the incident, for four to five months, she was very disturbed and her health was not good. She used to remain very tense. They had not received the post mortem report of her mother and they did not have anything other than her burial receipt.

231.11 Since she was not well, the police had not recorded her statement at the camp. The SIT people had recorded her statement at Naroda Patiya. Her father's name was Abdulgani Ibrahimhai Shaikh and he had died prior to the incident.

231.12 CROSS-EXAMINATION: In the cross-examination of this witness, she has admitted that her husband died in the year 2006. She has admitted that her mother used to have meals with them, but was residing separately in a house next door. She has stated that she knows Chandbhai, who lives next door and they had a common wall. Her husband used to do tailoring work at home. On the day of the incident, he had gone out to watch. Her husband was matric pass. She has admitted that through out the day of the incident, except when her husband went out, her husband and children were with her. She has denied that till 12 o'clock to 1 o'clock in the afternoon on the day of the incident, there was total peace in their chawl. She has admitted that the people in the mob had not resorted to rioting near her house till 1 o'clock in the afternoon. The witness has admitted that Chandbhai's house has a terrace and has voluntarily stated that she had made her mother sit in the toilet on the first floor of Chandbhai's house. This was after 1 o'clock in the afternoon. The witness has admitted that while going to the terrace of Gangotri Society, they had tried to take shelter inside the chawls. However, lastly they had gone to the terrace of Gangotri Society. She has stated that first they went to Chandbhai's terrace and thereafter, upon the mob coming there, they hid in the lanes and went to the terrace of Gangotri Society. The witness has stated that they must have been inside the chawls for one and a half hours. She has admitted that the people on Chandbhai's

terrace were from their mohalla and that Chandbhai's house was near the wall from where the mob which came from the direction of Uday Gas Agency broke the compound wall and upon the mob coming there, everyone fled. The witness has stated that the place where the two rickshaws were burning is opposite their house, where at that time there was an open ground. The rickshaw which was set ablaze was their neighbour's rickshaw. Both the rickshaws belonged to them. One rickshaw belonged to Iqbalbhai and the other rickshaw belonged to his son. The witness has admitted that both of them are residing in Jawannagar. She has admitted that till the time she went to Shah Alam camp, she had not met Iqbalbhai and Chandbhai. The witness is cross-examined with regard to the topography of the area. She has admitted that at that time, when her mother's incident took place, her husband was with her on the terrace and he too had seen the incident. That her entire family had seen her mother's incident. The witness has admitted that she has not shown the toilet on the first floor of Chandbhai's house, where her mother was and the terrace of Gangotri Society where they had hidden, for the reason that the SIT people had not asked her.

231.13 The attention of the witness is drawn to paragraph 8 of her examination-in-chief and she has denied that in her statement recorded by the police, she had not stated that the people in the mob had lifted her mother and thrown her down and the mob had thereafter taken her and put her alive in a burning rickshaw. The witness has voluntarily stated that her statement was recorded only by the SIT. The witness has admitted that she has not identified her mother's dead body. She has denied that under pressure from the leaders of their

community and social organizations, she was falsely deposing before the court. The witness has admitted that she has been given a house at Faizal Park by the Islamic Relief Committee.

231.14 To prove the omissions and contradictions as to her previous statement as brought out in her cross-examination, the defence has cross-examined the concerned Investigating Officer/assignee officer who recorded such statement.

231.15 PW-278 Shri R.B. Joshi, the assignee officer, in his cross-examination, has admitted that he had recorded the statement of this witness on 11.5.2002. The assignee officer has admitted that this witness had not named any accused in the statement recorded by him. The assignee officer has stated that he does not remember as to where he had recorded the statement dated 11.5.2002 and that probably he may have recorded it at Patiya. There is no note in this regard. The assignee officer has admitted that majority of the statements have been recorded by him at Patiya. He has further admitted that they used to call the witness from the camp for drawing panchnamas and used to take them to Naroda Patiya and used to record their statements there. He has further stated that he cannot say with certainty that he had drawn the panchnamas of all the witnesses and at present, does not remember as to where he had drawn panchnamas in all cases where he had recorded the statements of the witnesses. He has admitted that whatever work was entrusted to him, the corresponding documents had been handed over by him to the Investigating Officer. He has denied that in every case where he was drawing the panchnama, he was also recording the statements. He has

admitted that he has recorded the statements of all the witnesses in the context of the incident and that the facts recorded regarding damage and other facts are as stated by the witnesses. The assignee officer has admitted that this witness had not stated before him that they had made her mother sit in the toilet on the first floor, but has clarified that the witness has stated that they had taken her mother to the terrace of Chandbhai Shaikh's house. The assignee officer has admitted that this witness had not stated any facts regarding the people in the mob lifting her mother and throwing her and the mob putting her in a burning rickshaw and burnt her alive, have not been stated by her in the statement recorded by him. He, however, has stated that the witness has stated before him that her mother had been burnt.

231.16 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has in his cross-examination admitted that he has recorded the statement of this witness on 17.6.2008. He has admitted that the witness has verbatim not stated the facts stated in paragraph 7 of her examination-in-chief wherein the witness has stated that her mother was made to sit in the toilet at the first floor. He has stated that the witness had stated that her mother was not ready to go with them and hence, they had shut her inside a toilet and latched the chain from outside. In the statement, there is no reference to the toilet being on the first floor.

231.17 SUBMISSIONS: The learned counsel for the appellants submitted that no statement of this witness has been recorded by the police and her only statement has been recorded by the SIT. It was submitted that this witness in

paragraph 8 of her examination-in-chief has stated that her mother was thrown down and was put into burning rickshaws. It was submitted that the said rickshaws belonged to one Iqbalbhai and his son. However, in neither of the rickshaws, any dead body or remnants thereof were found. It was submitted that once the witness has gone to Gangotri Society, it is highly improbable that she could have seen anything happening on the ground in the chawls of Jawannagar. It was submitted that the claim of this witness of seeing her mother being burnt in rickshaws is therefore, highly improbable. It was submitted that this witness is not a credible witness.

231.18 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that there is no occasion for this witness to tell an untrue story since her mother had died and she has not implicated any accused and therefore, it cannot be said that she is not a truthful witness.

231.19 ANALYSIS: This witness has not named any accused. She has only narrated the incident regarding her mother being burnt to death by a mob. But the witness is not consistent in her version as regards the place where her mother was, at the time of such incident and the manner in which her mother was done to death. Having regard to the overall testimony of this witness, all that emerges from her testimony is that her mother was burnt to death in the incident.

232. **PW-260 Rasulbibi Azmuddin Shaikh**, aged 60 years, has been examined at Exhibit-1762. The witness has deposed that she can understand a little Gujarati, but finds it

convenient to depose in Hindi and will, therefore, depose in Hindi. Her native place is Karnataka and she is totally illiterate.

232.1 Since the last twenty five years, she is residing in *Dhanushdhari Mata-ni Chali*. She is doing tailoring work at home. She resides with her family. She has four children, namely, her daughter Mahemuda, second daughter Kankarbanu, third daughter Faridabibi and her son Abdulkarim. Her daughters Mahemuda and Faridabibi are married. Her mother-in-law Kankarbi also used to reside with them. Her husband died 26 years ago. She did tailoring work and used to earn a livelihood for her family.

232.2 The incident took place on Thursday, 28.2.2002. On that day, there was a call for Gujarat Bandh. During the communal riots, she, her mother-in-law, her son and her daughter Kankarbanu, were all residing together.

232.3 On the date of the incident, at around 8 o'clock in the morning, she had gone near the public tap. This public tap, at the relevant time, was on the road near the S.T. Workshop. At that time, she had seen that cabins were being burnt towards Krushnanagar. Hence, they decided that they should not go out anywhere. There were mobs on the road; they had weapons in their hands. They had tied saffron bands on their foreheads. The people in the mob were coming from the direction of Krushnanagar and Patiya. The people in the mob were asking them to come near; however, they had not gone near them. Thereafter, the mob rushed towards them and they went away to their chawls. The people in the mob had started pelting stones and setting things ablaze.

232.3 In the stone pelting by the mob, she was injured on the head with a stone and her daughter Mahemuda was also injured on the forehead with a stone. Her daughter Mahemuda's son Taufik also sustained a stone injury on his legs. Upon them having been injured in the stone pelting in this manner, they, that is, she and her children went two chawls after her house, to the house of the Bakerywala and hid there. They were hiding in the Bakerywala's house to save their lives, where there were other Muslims also. They were sitting on the top of Bakerywala's house and the house was locked below.

232.4 From the top of Bakerywala's house, she had seen that the mob was coming. The mob entered their chawls. Bipinbhai was present in the mob. He was leading the mob. Sureshbhai was also there in the mob. Guddu Chharo and Bhavani were also in the mob. However, they have died. The people in the mob were burning everything. They were also burning the tyres and throwing them on their huts. The people in the mob had also set her house on fire. She had stealthily gone to extinguish the fire on her house, however, the fire could not be extinguished and everything in her house was burnt.

232.5 Her house was burnt by the mob in which Bipinbhai was there. She had come protect her house and had returned and gone to terrace of the Bakerywala to save her life.

232.6 Late at night, the police vehicle came and she went in the vehicle to the Shah Alam camp. When she got down

from the terrace to go to the police vehicle, on the way, she bumped into a dead body and she told others to walk carefully as there were there are dead bodies on the road. They stayed at the relief camp for around six months.

232.7 At the relief camp, she had given an application. Everything in her house was burnt in the incident. They only had the clothes which they were wearing. The police had recorded her statement at the camp. Later on, the SIT had also recorded her statement at Gandhinagar.

232.8 The witness has stated that she knows Guddu, Bhavani, Suresh and Bipinbhai. She has stated that on account of lapse of time, the physical features of Bipinbhai and Suresh must have changed, but she would try to identify them. The witness has, thereafter, identified Bipinbhai Panchal (A-44) and Suresh Langda (A-22) correctly.

232.9 CROSS-EXAMINATION: In the cross-examination of this witness, she has admitted that at 8 o'clock in the morning when she went to fetch water from the public taps, other people had also come to fill water. In her cross-examination, it has been elicited that the mob was setting things ablaze beyond Bipin Auto Centre and that the people in the mob were setting things ablaze near the cemetery near Bipin Auto Centre. The witness has admitted that the cemetery and the S.T. stand are opposite each other. The witness has admitted that from the newly constructed S.T. bus stand, if one comes towards their chawls, the S.R.P. Quarters come in between first and thereafter there are shops and thereafter, there is a road which goes towards the Jawannagar pit. Thereafter, at the

relevant time, there was a hall and her house was behind the hall. The witness has admitted that there was a small road from near the hall from which one could go to her house. The witness is further cross-examined with regard to the topography of the area. The witness has stated that floor of the Bakerywala's house was filled with people and that there were many people.

232.10 From her evidence, it has come out that they were standing near the public tap for about one to two hours and that the mob had gone towards Noorani Masjid and from the rear side of the hall entered into the chawl and were pelting stones at their houses. The witness has admitted that many people from the chawl were standing near the tap. The witness has denied the suggestion that while she was standing at the public tap, there was cross stone pelting. The witness is confronted with her earlier statement recorded in the year 2002, to the effect that she has not named the four accused referred to in her examination in chief in her statement before the police. The witness has admitted that at the time when the SIT recorded her statement, her previous statement dated 5.5.2002 was read over to her and she had stated that the facts stated therein were correct. The witness has denied the suggestion that she had not seen the accused named by her in her examination in chief on the day of the incident and that under pressure from the people of their community she was giving false testimony and that she had named these persons for the first time subsequently in the year 2008 in the presence of the SIT.

232.11 The witness has admitted that if she stands in the

Bakerywala's house of the Bakerywala, she cannot see her house in the chawl. The witness has denied that when her house was set on fire, she was in the Bakerywala's house and has stated that after her house was set on fire, she had gone to the Bakerywala's house. The witness has stated that it has not happened that she had first gone to the Bakerywala's house and thereafter, upon her house being set on fire, she had returned to extinguish it.

232.12 The witness has admitted that the internal roads of their chawl are about three feet wide and has further admitted that her house is on the interior side of the chawl. She has admitted that after her house there is the wall of the Uday Gas Agency and that just like her house had been set on fire, other houses in the chawl were also set on fire.

232.13 The witness has stated that at the time when her house was being set on fire, she was hiding in the lanes. The witness has been confronted with her statement recorded by the police in the year 2002 to the effect that she had not stated the facts stated by her in the paragraphs 6 and 7 of her examination-in-chief before the police. The witness is further confronted with certain parts of paragraphs 6 and 7 of her examination-in-chief to the effect that she had not stated such facts in her statement recorded by the SIT. The witness has admitted that she has not stated as to where the accused referred to by her in her examination-in-chief were residing and as to what was their occupation as well as their full names in her statement.

232.14 To prove the omissions and contradictions as to her

previous statement as brought out in her cross-examination, the defence has cross-examined the concerned Investigating Officer who recorded her statement.

232.15 PW-307 S. S. Chudasama, the Investigating Officer has admitted that he has recorded the statement of this witness on 5.5.2002. He has admitted that this witness had stated before him that people came from all four sides and started pelting stones and that, they too in their defence, pelted stones. They were sitting and hiding and upon calling the police on phone, the police vehicles came. The Investigating Officer has admitted that this witness, in the statement recorded by him, has not named Bipinbhai (A-44), Suresh (A-22) and Guddu and Bhavani (deceased), nor has she attributed any roles to them.

232.16 The contents of paragraphs 6 and 7 of the examination-in-chief of the witness are read over to the Investigating Officer, who has admitted that the facts stated in paragraph 7 of her examination-in-chief have not been stated by the witness in the statement recorded by him. However, he has denied that all the contents of paragraph 6 have not been stated by the witness and that the witness had stated before him that the people from outside had come to their chawls, whereas the other facts have not been stated by her.

232.17 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has, in his cross-examination, admitted that he has recorded the statement of this witness on 21.5.2008. Certain extracts of paragraphs 6 and 7 of the examination-in-chief are read over to the Investigating Officer wherein she has

stated that she had seen from the top of the Bakerywala's house that a mob was coming; she had come to protect her house and had returned back and gone to the terrace of the Bakerywala's house and was sitting there to protect her life. The Investigating Officer has denied that these facts have not been stated by the witness in the statement recorded by him. and has stated that the witness has stated that she was hiding in the house of the Bakerywala which has two storeys. An extract of paragraph 6 of the examination-in-chief of the witness was read over to the Investigating Officer wherein the witness has stated that they were burning the tyres and throwing them on their huts. The Investigating Officer has denied that such facts have not been stated before him and has clarified that the witness has stated that in the mob Suresh Langdo, Guddu Chhara, Jaybhawani and other Sindhi and Chharas were there and these persons were damaging and looting their house and setting them ablaze.

232.18 Insofar as the above extract of paragraph 6 is concerned, all that is put to the Investigating Officer is as to whether the witness had stated that tyres were thrown on their hut, whereas the Investigating Officer has sought to bring on record such part of her statement wherein she has implicated certain accused and has referred to damaging and looting and burning their houses. This part of the evidence of the Investigating Officer wherein he has referred to the accused and Sindhi and Chhara people is not admissible in evidence and the only part admissible is that these people were setting their houses ablaze.

232.19 SUBMISSIONS: Mr. Y. S. Lakhani, learned counsel

for the appellants submitted that two statements of this witness have been recorded firstly by the police on 5.5.2002 and thereafter by the SIT on 21.5.2008. It was submitted that as far as the police statement is concerned, the witness has not named any of the four accused named in her examination-in-chief and that out of the four names mentioned by her, two have died. It was submitted that before the SIT also, she has not given the full names of the accused, their addresses and occupation, which means that in paragraph 6 of her examination-in-chief, the witness refers to Bipinbhai and Sureshbhai without their father's name, nickname, surname etc. Therefore, before the SIT when only the first names are referred to, after about six and a half years, for the purpose of establishing their identity beyond doubt, their test identification parade ought to have been held. In absence thereof, it cannot be said that these two accused who were identified in the court were the same who were referred to in the statement recorded by the SIT.

232.20 Referring to the contents of paragraph 22 of her deposition, it was submitted that the witness has admitted before the SIT that her earlier statement dated 5.5.2002 was correct, which would destroy her case qua the named accused and therefore, naming the four accused in paragraphs 6 and 7 of her deposition is a clear afterthought. Inviting the attention of the court to the contents of paragraph 27 of her testimony, it was submitted that the witness has stated that she cannot see her house from the Bakerywala's house, which is enough to destroy the assertions made in paragraphs 6 and 7 of her examination-in-chief. Referring to the contents of paragraph 30 of her cross-examination, it was submitted that it is clear that

the witness has no relationship whatsoever with the two accused and, therefore, it is very doubtful as to when she refers to Bipinbhai and Suresh before the SIT, they were named at the instance of someone else.

232.21 Mr. B. B. Naik, learned counsel for the appellants invited the attention of the court to the contents of paragraphs 5 and 6 read with paragraphs 27 and 29 of the testimony of the witness to submit that there are serious contradictions in the evidence of this witness and, therefore, her allegations against the accused of burning her house cannot be accepted.

232.22 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that the witness has identified both the accused named by her, namely, accused No.22 Suresh and accused No.44 Bipin. It was submitted that considering the overall evidence of this witness, her version is believable because her presence at the scene of offence is established. It was submitted that a suggestion was made to the witness that there was stone pelting from both the sides, which would also establish her presence at the scene of offence.

232.23 ANALYSIS: This witness's statement came to be recorded at the relevant time on 5.5.2002. Subsequently, her statement also came to be recorded on 21.5.2008 by the SIT. In her first available statement dated 5.5.2002, the witness has not named any accused and for the first time, after more than six years, before the SIT she has implicated four persons viz. Bipinbhai (A-44), Sureshbhai (A-22), Guddu Chharo (deceased) and Bhavani (deceased) stating that she had seen them in the mob which was committing arson. The witness was a resident

of Dhanushdharimata-ni-Chali which is situated at a slight distance from the Noorani Masjid and is on the same side of the highway as the Noorani Masjid. The witness has deposed that when she came on the road near the S.T. Workshop, she saw cabins being set ablaze on the side of Krushnanagar. Considering the overall evidence that has come on record, no such incidents took place before 9:00 a.m. in the morning. Whereas several witness have deposed about the presence of these accused on the road near the Noorani Masjid or the S.T. Workshop, this witness has alleged that the accused had set their chawls, which are situated at a distance from the Noorani Masjid, on fire. Since, the accused could not have been at two places at the same time, it would be safer to rely upon the version given by majority of the witnesses than to rely upon the version of this witness, which has come on record only in the year 2008, to prove the charge against the accused. However, insofar as the version of the incident narrated by the witness is concerned, to the extent the same is consistent with her original version and the evidence on record, the same can be taken into consideration. The testimony of this witness, therefore, cannot be relied upon to prove the charge against the named accused.

233. **PW-261 Mariyambibi Hasanbhai Saiyed** has been examined at Exhibit-1766. The witness has deposed that she can understand Gujarati to a certain extent. She also does not know how to speak in Hindi properly, but she would try to speak in Hindi. She only knows Malayalam language. Her native place is Kerala.

233.1 She is illiterate. She was married in the year 1969

and since then, she is residing in Ahmedabad city. She is residing in *Naroda Patiya* area since her marriage.

233.2 Her husband has passed away. Earlier, she used to reside with her husband and her children.

233.3 In the year 2002, she used to reside in *Lane No.2, Hussainnagar* with her husband and her children. In the year 2002, her younger son Maiyuddin also used to reside with her. He died in the incident. In the year 2002, one of her sons had gone to Kuwait, however, his wife and his son and her husband and her three sons, including Maiyuddin and her daughter, were all residing with her. Three of her other daughters were married and were residing at their matrimonial homes.

233.4 On the day of the incident, her family members were at home in the morning and she was making breakfast. On that day, in the morning at around 8:00 to 8:30, while she was going to Hiralal's shop to buy milk, she had reached corner of the S.T. Workshop. There, she saw that Hindu mobs had come from the direction of Kubernagar and Natraj Hotel and had started pelting stones. She was standing near ST Workshop and there was stone pelting there and the mob had also pelted stones near the Noorani Masjid. The mob was comprised of Hindus.

233.5 Thereafter, the police came there and released tear gas and resorted to firing wherein four to five persons were injured. Out of them, Abidbhai was injured by a bullet and he died on the spot, whereupon she returned home. She had seen Abidbhai's incident. They sat at home for a considerably long

time, whereafter they took the children and went to Abdulbhai's house at Gangotri Society.

233.6 She has taken all her children and gone; however, her handicapped son Maiyuddin who was on the terrace of madressa refused to come and was watching the incidents taking place during the riots.

233.7 Since her son Maiyuddin had not come with her, she had taken her other family members and gone to Abdulbhai Ghadiyali's house. By the time she left her family members there and returned to the madressa to fetch Maiyuddin, the Hindu mob came, whereupon Maiyuddin told her to hide in the madressa as the mob of Hindus had come. After saying this to her, Maiyuddin went inside her house. Thereafter, she sat on the staircase of the madressa. Two to three other boys were also there.

233.8 At this time, the Hindu mob started wrecking and plundering their houses. This mob of Hindus broke the door of her house and brought her son outside. The persons, who broke the door of her house and took her son Maiyuddin out of the house, were Murli Sindhi (A-2), Suresh Langda (A-22), Suresh Mama (A-26) and Guddu Chhara, whom she had seen. They told her son to say "Shri Ram" and when her son Maiyuddin said that he would not say "Shri Ram", they assaulted him with swords, sticks, pipes, etc. and poured kerosene or petrol over him and burnt him alive, which she had seen. She had seen all this from the window of the madressa.

233.9 She does not know what the time was; however, it

was evening. The two to three boys, who were with her, took her to Gangotri Society.

233.10 She went near the S.R.P. Quarters and requested that they be permitted to go inside; however, they did not let them enter and told them that they had to die that day, there were orders from above.

233.11 Thereafter, they went to a godown like place towards Gangotri Society. A policeman came there and showed them the way to go towards Naroda. They were going in that direction when Hindu mobs came from two sides. Out of which, one mob came from the opposite side and they turned back and came from there, whereupon Jay Bhavani met them and showed them a room. There were many of them in the room. At this place also, somebody said that there was a danger there. Upon hearing this, they left that place also.

233.12 Thereafter, she and several other people took shelter at a temple. At this place, out of her family members, she, her daughter-in-law and her grandson were together but the rest of the family members had got separated in the incident. They were hiding in the temple in this manner, when a woman gestured towards them to point out that they were hiding there.

233.13 At this time, a man who was present there told the woman to move from the cot and called them down from the temple and after seating them inside the temple and fastened the door from outside and saved their lives. Thereafter, this person sat outside the temple with a sword. After fastening,

that man switched off the lights of the temple. She sat for a considerable long time in the temple which was locked from outside. Thereafter he opened the temple door and took them out and left them on the terrace of the Gangotri Society, where other Muslims were sitting.

233.14 After she reached Gangotri Society in this manner, for a quite long time, she had stayed there. Thereafter, at around 2 o'clock at night, a police vehicle arrived to take them and two lads told them that a police vehicle had arrived; however, she could not trust them. Thereafter, upon believing them, she climbed down and went outside and sat in the police vehicle and reached the Shah Alam camp. They reached Shah Alam camp at 4 o'clock in the morning, but by then her family members had already reached Shah Alam camp.

233.15 In the stone pelting during the incident, she had been injured by stones on her leg and head. She had got herself treated at the Shah Alam camp. She stayed at the Shah Alam camp for six months. While she was at the camp, the police had orally examined her.

233.16 In the incident, all her household goods, two rickshaws, two scooters, refrigerator, T.V., etc., all were looted, burnt and destroyed. Her daughter's marriage was to take place for which she had purchased 25 tolas of gold which was also looted in the incident. Her goats, gold ornaments, cash, everything was looted.

233.17 The witness has stated that she knows Guddu Chhara, Suresh Langda, Murli Sindhi and Suresh Mama.

However, on account of being injured with a stone on her head during the incident, her eye sight has become very weak. The witness has stated that she has heard that Guddu Chhara is dead and that she would be in a position to identify the other three. The witness has thereafter correctly identified Murli Sindh (A-2), Suresh Langda (A-22) and Suresh Mama (A-26).

233.18 CROSS-EXAMINATION: In the cross-examination of this witness, she has admitted that there were many families from Kerala in their area. In the year 2002, there was a madressa in Hussainnagar. She has denied that the madressa was opposite the Noorani Masjid. She has stated that the madressa was opposite her house. Because of the riots, Maiyuddin had gone to the madressa to see the incident. She has admitted that when she went to fetch milk, Maiyuddin was at home. He had not asked her before going to madressa, but had told her that other children had gone to watch the riots. The witness has admitted that when he went to see the riots, she had not stopped him from going. She has stated that he was 18 years old at that time. The witness has stated that she does not know at what time she had gone to fetch Maiyuddin. She has admitted that her family members were at the house of Abdul Ghadiyali. She has stated that except for her daughter-in-law and her son's sib, all her family members had got separated from her near the S.R.P. Quarters wall. She has admitted that the woman who was near the temple, had not called the mob and shown them the temple where she was hiding. She has admitted that when she was in the temple, the people from the mob had not come there. The witness has admitted that till 12.5.2002, she had not lodged any complaint. The witness has admitted that prior to 12.5.2002, she has not

mentioned the names of the accused she has referred to in the examination-in-chief to anyone. The witness is confronted with her statement dated 12.5.2002 recorded by the police to the effect that she had stated therein that in the meanwhile, at around 11 o'clock, a Hindu mob comprising of ten to fifteen thousand people with swords, pipes, dharias and sticks in their hands, came screaming and shouting "kill, cut" and one mob came towards the front side of their chawl and were assaulting people with weapons and were setting the houses ablaze. They were looting the goods and articles in the houses and were catching the people and throwing them in the fire. Upon her family members seeing such incidents, all of them left their house open and went on the rear side of their chawl and hid there. The witness has voluntarily stated that the sequence of the incidents was as narrated by her in her examination-in-chief.

233.19 The contents of last line of paragraph 6 of her examination-in-chief except for the words "there were Hindus in the mob", the contents of paragraphs 7 to 9 and paragraphs 11 to 16 are read over to the witness to the effect that she had not stated such facts in the statement recorded by the police at the camp. The witness has stated that the police had not read over her statement to her.

233.20 The contents of paragraph 12 of her examination-in-chief of the witness are read over to her, wherein she has stated that she was in the madressa and she had seen her son Maiyuddin's incident from the window of the madressa. She has denied that she had not stated such facts in her statement.

233.21 The witness is further confronted with her statement dated 12.5.2002 to the effect that she had stated therein that thereafter till date, she had not gone to her house, but people from the relief camp had gone there and they had informed her that her house had been burnt down and through them, she came to know that her house was indeed burnt. The witness has voluntarily stated that her house was set on fire in front of her eyes and she had not stated any such facts. The witness is further confronted with her above statement to the effect that she had stated therein that her son Maiyuddin, aged 18 years was burnt by the people in the mob, whose names are (1) Suresh Langdo, (2) Murli Sindhi, (3) Guddu Chhara and (4) Suresh Mama and that she knows all of them. The witness has voluntarily stated that she had seen the incident herself.

233.22 The contents of paragraph 10 of the examination-in-chief of the witness are read over to her to the effect that she has not stated these facts in the statement recorded by the police.

233.23 In her cross-examination, it has come out that the four accused had taken Maiyuddin out of her house on the verandah and killed him. She has admitted that her house is not in Jawannagar. She has stated that it has not happened that her son Maiyuddin was killed by someone at Jawannagar. The witness has stated that all the four accused had assaulted her son with different weapons. The witness has admitted that she cannot say as to which person had assaulted him on which part of the body. She does not remember as to from where the blood was oozing out of her son's body. She had not seen as to

which part of his body was cut and broken.

233.24 The witness has stated that she does not know as to whether any blood had spilled on the verandah on which her son was killed. She has stated that the veranda to which she refers is the open ground of the pan-cabin near her house, which is an open space. She has stated that she does not understand as to whether the place of incident can be said to be at a distance of three feet from the door of her house, but has stated that it was near the door of her house. She has admitted that petrol and kerosene were sprinkled on her son and he was set ablaze. She has admitted that she herself had seen her son being burnt. The witness has voluntarily stated that out of fear, she had stuffed her saree in her mouth and was sitting there. The witness has admitted that after her son was completely burnt, she had left the madressa. The witness has stated that she came out after the mobs had gone. The witness has denied that her son was made to drink kerosene and was tied to a cot and burnt and that she had seen all this while she was sitting in the kitchen. She has denied that when the incident of her son was taking place, she had gone to save neighbour's daughter. The witness has voluntarily stated that she could not even protect her son, how could she go to save other people's children. The witness has denied that she had in fact not seen any such incident. The witness has voluntarily stated that she had not given any interview to any magazine.

233.25 The witness has stated that she does not know where the houses of the four accused named by her are. She does not know their occupation and the place of their business. The witness has voluntarily stated that Suresh Mama, that is,

Sahejad Chhara used to live in their lane and she had not seen his house. She did not have any occasion to have any economic or social relations with the four accused.

233.26 The witness has stated that when Abid was coming from the Noorani Masjid towards their side, he was injured by a bullet. When the bullet struck him, he was on the road. Abid was injured by the bullet near the Noorani Masjid. She does not know what the time was. She has stated that the time must be around 9:30 in the morning. The witness has denied that Maiyuddin's incident happened immediately after she returned after seeing Abid's incident and has stated that Maiyuddin's incident took place in the evening at around 5:30 to 6:00. She has denied that she has not seen the incident stated by her in her examination-in-chief and that on 12.5.2002, at the instance of the camp people and the people of her community, she had given a false statement and despite the fact that she did not know the accused, she had implicated them and her statement was not true.

233.27 The witness has stated that her son Maiyuddin was suffering from polio. He had fever and at that time, he was given an injection due to which, he had become handicapped. On the day of the incident, he was wearing boots in his legs. He was wearing boots meant for handicapped people. After the incident, she had never seen her son Maiyuddin. She has stated that she has still kept the boot with her at home.

233.28 Certain suggestions are made to the witness that accused Sahejad's sister Purniben was the owner of a hotel in which her husband was carrying on business. There was a

dispute between Purniben and her husband and under the belief that the accused were helping Purniben, she was falsely implicating them. The witness has admitted that her house and the madressa are exactly opposite each other and there is a road in between. The witness has denied that the door of the masjid is exactly opposite the door of her house. The witness has admitted that the other door of the madressa falls towards the S.T. Workshop road. She has admitted that one window of the madressa is towards the S.T. Workshop gate. The witness has voluntarily stated that when she saw the incident, there was another window which was a small one. After the incident, a bigger window has been made. In the year 2002, the madressa had only one floor.

233.29 The contents of third line of paragraph 6 of her examination-in-chief and the last two lines of paragraph 9 of her examination-in-chief are read over to the witness, who has denied that she has not stated such facts in her statement recorded by the SIT.

233.30 To prove the omissions and contradictions as to the previous statement of this witness as brought out in her cross-examination, the defence has cross-examined the concerned assignee officer/Investigating Officer.

233.31 PW-281, Shri D. S. Vaghela, the assignee officer has admitted that he has recorded the statement of this witness on 12.5.2002. He has admitted that this witness had stated before him that at that time, at around 11 o'clock in the morning, a mob of ten to fifteen thousand Hindus armed with swords, pipes, dharias and sticks in their hands, shouting "kill, cut" and

screaming came towards their chawl on the front side and started assaulting people with weapons and were setting the houses on fire and were looting the articles in the houses and some were catching the people and were throwing them alive in the fire and upon the members of their house seeing such incidents, all the members of their house left the house and fled towards the rear side of their chawl and hid themselves. Thereafter, till date, she has not gone to her house and from the people at the relief camp, she had come to know that their house was burnt.

233.32 The contents of paragraph 6 of the examination-in-chief of the witness are read over to the assignee officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him. The contents of paragraphs 7 to 9 and 11 to 15 of the examination-in-chief of the witness are read over to the assignee officer, who has admitted that such facts have not been stated by the witness in the statement recorded by him. Certain parts of paragraph-16 of the examination-in-chief of the witness are read over to the assignee officer, who has admitted that the witness has not stated such facts before him. The assignee officer has admitted that the witness had not stated before him that she was in the madressa and that she had seen the incident of her son Maiyuddin from the window of the madressa. The assignee officer has admitted that this witness has not stated before him that the mob of Hindus had broken the door of her house and had taken her son out. He has also admitted that the witness had not stated regarding her son Maiyuddin refusing to say "Shri Ram".

233.33 PW-327 Shri V.V. Chaudhari, the Investigating Officer (SIT) has in his cross-examination admitted that he has recorded the statement of this witness on 12.6.2008. He has admitted that this witness has stated before him that there was cross stone pelting; that her statement dated 12.5.2002 is read over to her, which is as stated by her and is correct and proper. This part of the evidence is not admissible in evidence as to part of the witness's primary statement is sought to be contradicted.

233.34 Certain extracts of paragraphs 6 and 9 of the examination-in-chief of the witness are read over to the Investigating Officer wherein she has stated that she was going to Hiralal's shop; was standing near S.T. Workshop; thereafter she sat on the staircase of the madressa; there were two – three other boys also. The Investigating Officer has denied that these facts have not been stated by the witness in the statement recorded by him. He has clarified that the witness has stated before him that she was going to purchase milk and was standing at the entrance of the chawl opposite the Noorani Masjid. The remaining facts have not been stated by her.

233.35 SUBMISSIONS: The learned counsel for the appellants submitted that two statements of this witness have been recorded; one by PW-281 Dhananjaysinh Surendrasinh Vaghela on 12.5.2002 and second statement by PW-327 Vinaybhai Vanarbhai Chaudhari on 12.6.2008. It was submitted that this witness claims to be the witness of her son being killed. According to her, she had seen the incident from the window of a madressa. It was submitted that according to this

witness the incident of Mayuddin occurred either on the verandah of her house or just outside, during the evening hours, which may be around 5:00 to 6:00 p.m. It was submitted that this claim raises serious doubt about her being a witness of any such incident for the reason that firstly, as admitted by her, while she was in the camp the police used to come and complaints were being recorded and the people taking shelter in the camp used to give their complaints. However, till 12.5.2002, the witness has neither filed any complaint nor has she informed anybody about the names of the accused or the incident. Secondly, according to her, firstly she had gone to Gangotri and then come back to her house to fetch Maiyuddin. In the process, during number of conversations between her and Maiyuddin, Maiyuddin asked her to hide herself in the madressa. At that point of time the incident occurred which she claims to have witnessed. It was submitted that considering the time at which the witness says the incident had taken place, it is not possible to believe that in the fact situation she could have come from Gangotri back to her home in the evening hours between 5:00 to 6:00 p.m. Thirdly, as per the deposition of the Investigating Officers PW-178 as well as PW-327, with reference to the photograph produced on record, there seems to be no madressa opposite the house of this witness and none of the other witnesses residing in that area have referred to any such madressa and therefore, it is doubtful whether her version is believable or not. Fourthly, having regard to the incident of few other witnesses, who say that body of Mayuddin was burning on the road at different points of time commencing from 1:30 in the afternoon till 4:00 to 5:00 p.m. again raises doubt whether the incident as narrated by this witness, as an incident occurring in

the afternoon between 5:00 to 6:00 can be believed. Fifthly, other witnesses who referred to the incident of Mayuddin, at whatever time, are referring to the presence of tricycle, while this witness does not refer to presence of tricycle being found nearby. Sixthly, at one place in her examination in chief the witness has stated that she was sitting on the stairs of madressa and at another place she claims that she saw the incident from the window of madressa, which runs contrary to each other. Lastly, as stated in paragraphs 45 and 46 of her deposition regarding no acquaintance with at least accused No.2 and 22, in the absence of disclosure of facts regarding the incident and names of accused for 72 days also creates a doubt as to how she named those accused for the first time on 12.5.2002, when she has not stated anywhere in her examination-in-chief as to how she knew the names of accused. Thus, the witness is not believable. It was submitted that moreover, the dead body of Maiyuddin was not found at the place where he is stated to have been burnt.

233.36 The learned counsel further invited the attention of the court to the discrepancies in the testimonies of different witnesses regarding Maiyuddin. It was pointed out that PW-149 Faridabibi Abdulkadar Khalifa has stated that she saw Mullaji's son's body burning in front of her house at about 2 o'clock in the afternoon. Reference was made to the testimony of PW-234 Mohammed Shaikh Yunus Basir Ahemad (Exhibit 652), and more particularly paragraph 17 thereof, to contend that this incident had taken place in the afternoon. There is no evidence or inquest panchnama that his body was found in his house at Hussainnagar. Reference was made to the testimony of PW-229 Sairabanu Khwaja Hussain Shaikh, who has stated that she

saw his dead body in lane no.1. It was submitted that looking to the discrepancies in the testimonies of the witnesses, it is not clear whether the incident took place in the evening or in the afternoon and the discrepancies in the statements of witnesses suggest that this witness has not seen the incident, but is a got up witness, who has stated facts which she heard while she was at the camp. It was submitted that in her examination-in-chief the witness has stated that she saw the incident from the window. However, there is nothing on record to show the height of the window; whether the window was on the staircase, because she does not say she went from the staircase to the window. It is submitted that no panchnama of the scene of offence is drawn to show that there was a window abutting the house from where she could have seen the incident. Therefore, her evidence does not inspire any confidence and cannot be said to be unimpeachable evidence on the basis of which the accused can be convicted of such a serious offence.

233.37 Mr. Prashant Desai, learned Special Public Prosecutor, submitted that this witness had witnessed the killing of her son Maiyuddin. The witness has narrated the sequence of events about the mobs from Krushnanagar and Natraj Hotel, then Abid being killed. Thereafter the witness went home. Maiyuddin was in the madressa. It was submitted that what the witness has graphically narrated the morning incident, the evening incident, the incident of Abid being killed and the Maiyuddin incident. There is no major contradiction in respect of the happening of the incident. It was submitted that while drawing the attention of the witness with respect to her statement dated 12.5.2002, the defence has not referred to

the statement of her further investigation. It was submitted that as regards the contradictions brought out in paragraphs 33 and 34, with regard to paragraphs 6, 7, 9, 10, 11 and 16 of her examination-in-chief, the witness has clearly explained that she had already disclosed everything before the police, but the police had not recorded it.

233.38 It was submitted that this witness has minutely narrated the incident of her son being killed and even in the cross-examination she has stuck to her version which shows that she was present when the incident had happened and she had seen it. It was submitted that there is nothing contrary or contradictory brought out in her cross-examination to the version of the incident narrated in her statement dated 12.5.2002 as well as in her further statement and also as regards involvement of other accused persons in her further statement. It was submitted that therefore, this witness is a credible witness and as regards the four named accused, their involvement in killing of Maiyuddin is proved beyond doubt and she can be considered to be a sterling witness.

233.39 ANALYSIS: This witness is the mother of Maiyuddin, a handicapped boy who was burnt to death by the mob. Several witnesses have deposed either to having seen the incident or having seen Maiyuddin's corpse lying in a burning condition.

233.40 This witness has named all the four accused viz. Murli Sindhi (A-2), Suresh Langda (A-22), Suresh Mama (A-26) and Guddu Chhara (deceased) in her first available police statement dated 12.5.2002. This witness's house is situated in

the second lane of Hussainnagar. The witness in her examination-in-chief has not stated any specific time when the incident took place, but in response to a suggestion made by the defence in her cross-examination has said that it may be 5 to 6 o'clock in the evening. This appears to be the basis for the submission that it would not have been possible for the witness to come back from Gangotri to her house at this time. In the opinion of this court, too much emphasis cannot be laid upon the time of 5 to 6 o'clock brought out in the cross-examination of the witness. Firstly, the witness has not said so with certainty and has only said it may be 5 to 6 o'clock. Therefore, the time stated by the witness is only an approximate time and not the exact time. What she is sure about is that it was around evening time.

233.41 According to the witness, after leaving her family members at a safe place at Gangotri Society, she returned to fetch her son Maiyuddin who had stayed back. By the time she reached the madressa where her son was, the mob had reached there and her son told her to hide in the madressa and he himself went to their house. The mob was ransacking and looting houses and broke open the door of her house and pulled her handicapped son out of the house and assaulted him and sprinkled petrol or kerosene on him and set him ablaze. The witness claims to have seen all this from the window the madressa. From the narration of incidents, viz. after the incident, the witness went to the S.R.P. Quarters and then to the godown and thereafter she took shelter in the temple, it appears that the incident must have taken place before 5 o'clock in the evening. Insofar as the submissions regarding the exact location from where the witness saw the

incident not having been proved is concerned, at the cost of reiteration it may be stated that in this case, neither of the investigating agencies seem to be really interested in bringing the culprits to book. Consequently, either the statements of the witnesses have not been recorded properly or no efforts have been made to bring on record evidence to corroborate what the witness has stated. If the evidence of the witnesses were to be discarded on this ground alone, it would amount to playing into the hands of the investigating agencies.

233.42 In the case of this witness, at the first opportunity she has named the above four accused. The statement recorded by the assignee officer is not very coherent, but it is clear that the witness has implicated the four accused in the murder of her son. Thus, insofar as the accused and their involvement in the killing of her son is concerned, the witness is consistent right from the beginning. Therefore, the witness is consistent insofar as the core of her testimony is concerned and there is no reason to disbelieve her claim of having seen the incident in question and the named accused.

234. **PW-324 Naseembanu Kalimuddin Qureshi** has been examined at Exhibit-2279. This witness has deposed that she has studied up to the ninth standard and knows how to speak in Gujarati.

234.1 The witness has deposed that in the year 2002 she was residing at Pandit-ni-chali behind Noorani Masjid at Naroda Patiya with her mother, her maternal uncle, grandfather, her two children, namely, her son and her daughter and her husband Kalimuddin. She earns a living out of tailoring work

and when her husband was alive, both of them used to do tailoring work.

234.2 The incident took place on 28.2.2002. Prior thereto on 27.2.2002, at 6 o'clock in the evening, two youths had come to her house. Both these youths had come to their house and had asked questions about how many people are residing in their house, their names, their surnames, whether they have light, gas etc. At that time, she had asked them as to why they were asking these questions and they had told her that they were carrying out a survey. Thereafter, both the boys had gone in the neighbourhood and thereafter, they had their meal and had gone to sleep on the night of 27.2.2002.

234.3 The house in which they were residing belonged to her maternal uncle and her maternal uncle had asked them to vacate it. The house was a bit small for them. On 28.2.2002, she woke up in the morning and she and her husband had tea, where after her husband had stated that he wanted to look for a house at Jawannagar and she had gone to buy vegetables from her maternal uncle Yasin's shop on the road. At this time, it was around 9:30.

234.4 While she was at the vegetable shop, she heard from somebody that on that day, that is, 28.2.2002, the Vishwa Hindu Parishad had, in the context of the incident that took place at Godhra on the previous day, given a call for Gujarat Bandh. At her maternal uncle Yasin's shop, she had also read the newspaper. At that time, she had seen that a mob shouting "kill" "cut" was coming from the direction of Natraj Hotel. The mob came near the Noorani Masjid where it resorted to

vandalism and was attacking the Noorani Masjid and their houses. She was frightened because of all this, and hence, though she had gone to buy vegetables from her maternal uncle's shop, without taking anything, she went home and she took her children, her mother and her maternal grandfather and went to Juni Masjid, which is near Zikarhasan-ni-chali. Till then, her husband had not returned.

234.5 At this time, a boy, who was burnt, came to the place where they were. The boy told her that he had come from Chharanagar and that his mother and father had been burnt. For their treatment, Babubhai had also made a phone call.

234.6 Upon her husband not being found, the people had told her that no one had survived in Jawannagar and that almost every one was killed. Thereafter, they had gone to the Shah Alam camp, where after the Relief Committee had given them a house.

234.7 The witness has deposed that she has no information about her husband Kalimuddin Ahmedbhai Qureshi, aged 30 years and that till date, she has not found him. He had gone from her house to Jawannagar on 28.2.2002 to look for another house for them and has not returned till date and there is no news about his whereabouts. Till date, his dead body has not been found.

234.8 The witness has deposed that on the day of the incident, her house was looted and her house was also burnt down. Since her husband was not found, the SIT had recorded

her statement in that regard.

234.9 The witness has deposed that as her house was burnt, she does not have a photograph of her husband.

234.10 CROSS-EXAMINATION: In the cross-examination of this witness, nothing has been elicited to support the case of the defence or the prosecution.

234.11 ANALYSIS: From the testimony of this witness, there is nothing whatsoever to establish the charge against the accused. The witness has not seen the incident and hence, nothing really turns upon the testimony of this witness. One wonders why the prosecution has examined such a witness, while dropping important witnesses whose testimonies were necessary for proving the charge against the accused.

235. **PW-325 Sairabibi Abdulkadar Shaikh** has been examined at Exhibit-2280. The witness has deposed that she can understand Gujarati to a certain extent but would find it more convenient to depose in Hindi.

235.1 The witness has deposed that in the year 2002, she was residing at Pandit-ni-chali next to the Noorani Masjid with her daughter Shabana, her husband Abdulkadar Gulamrasul Aanori Shaikh. Her other two daughters were at their matrimonial homes.

235.2 The incident took place on 28.2.2002. On that day, there was a call for bandh. They were all at home. In the morning at about 10 o'clock on that day, stone pelting started

and all three of them, with a view to save their lives, went to her other daughter Shehnazbanu's matrimonial home at Jawannagar. Till 5 o'clock in the evening, they stayed at her house at Jawannagar. In the evening, the mobs came to Jawannagar also and they had fled from there also. The people in the mob had caught her husband and assaulted him. She, her daughter Shabana, Shehnaz and her family members as well as her other daughter Mumtaz, who was residing at Jawannagar and her daughter's husband all went and sat on Gauri Apa's terrace. Thereafter, at 2 o'clock at night, the police came and took them to Shah Alam. They stayed at the relief camp for six months.

235.3 The people in the chawl had told her and, therefore, she came to know that on that day in the evening, the people in the mob had killed her husband and burnt him. The witness has deposed that she has not found her husband's dead body. She has also not received her husband's P.M. notes. Since her husband had died, the Committee people had buried his dead body and had given her a receipt of the Kabrastan. The witness has deposed that she has given a photograph of her husband as well as zerox copy of burial receipt of the Kabrastan to Shri Chudasama.

235.4 The witness has deposed that the police had recorded her statement in connection with the incident.

235.5 CROSS-EXAMINATION: In her cross-examination, the witness is confronted with her statement dated 6.9.2002, however, by putting such part of the statement of the witness to her, no contradiction is sought to

be brought out, and hence, the same is not admissible in evidence.

235.6 ANALYSIS: This witness has not implicated any accused in the offences in question. Considering the facts deposed by this witness, nothing really turns upon her testimony except that the mobs came to Jawannagar at about 5:00 p.m. and while fleeing, the mob caught her husband and assaulted him.

236. **PW-326 Zubedabanu Abdulla Shaikh** has been examined at Exhibit-2283. The witness has deposed that she can understand Gujarati to a certain extent and would find it more convenient to depose in Hindi.

236.1 The witness has deposed that in the year 2002, she was residing in Lane No.1, Jawannagar, behind S.T. Workshop at Naroda with her brother Maheboob. In the house, she, her husband Abdulla and her brother as well as his family were all residing together.

236.2 The incident had taken place on 28.2.2002. On that day there was a call for bandh and they were all at home.

236.3 On the day of the incident, they were damaging the masjid outside and were committing arson. Her nephew Ahmed had gone to see all this. There, the police had resorted to firing. In the firing, her nephew Ahmed Maheboobbhai was also injured by a bullet. He was injured at around 11 o'clock in the morning and he was brought home. The witness has deposed that she had herself done the dressing. Four of his

friends had brought him from the rear side of their chawl. Ahmed had thereafter sustained burn injuries in the incident and his friends had brought him and made him lie down in the house.

236.4 Her sister-in-law also resides in their mohalla and her name is Saira. She (her sister-in-law) had three children, and hence, her husband had asked her as to how she would run with the three children and told her to give one child to him. Therefore, she had given her son Shahrukh, who was four years old at that time, to her husband and, therefore Shahrukh was with her husband.

236.5 The witness has deposed that her husband had gone with his sister and she had stayed at home. Thereafter, she had gone to search for her husband. She saw that at Gangotri Society, the mob had encircled her husband. At that time, Shahrukh was with him and he too was encircled. Bhavanisingh and Guddu Chhara were in the mob which had assaulted her husband. Both of them are dead. The people had lifted her nephew Shahrukh and thrown him in the fire and killed her husband with a sword. The witness has deposed that Shahrukh and her husband had died in her presence.

236.6 The witness has deposed that upon seeing this, she was frightened and had gone and stayed at Gauri Apa's terrace where they had stayed till 3 o'clock at night. Thereafter, the police came to take them and they went to the Shah Alam camp with the police, where they stayed for about six months. The witness has deposed that they have not found her husband's dead body. Shahrukh's dead body is also not found.

236.7 The witness has deposed that the police have recorded her statement in connection with the incident in 2002 and the SIT has recorded her statement in the year 2008.

236.8 The witness has stated that her house was ransacked, damaged and set on fire. That she knew Guddu and Bhavanisingh.

236.9 CROSS-EXAMINATION: This witness in her cross-examination has stated that she knows Majidbhai Usmanbhai and that he was residing near them. The witness has stated that he used to reside in the first lane of Jawannagar. The witness has admitted that her house and Majidbhai's house are situated in the central part of the first lane of Jawannagar.

236.10 The witness is confronted with her statement dated 12.5.2002, to the effect that before the police she had stated that thereafter, after five days, Majidbhai Usmanbhai who used to reside next to their house, told her at the Shah Alam relief camp that a mob of Hindu people had killed her husband and her son. The witness is also confronted with her statement recorded by the SIT to the effect that she has stated that Abdulmajid Mohammadusmanbhai had also told her that her husband and her sister-in-law's son Shahrukh aged four had been killed.

236.11 The contents of paragraph 4 of her examination-in-chief from the second line to the last line are read over to the witness to the effect that she has not stated such facts in her statement dated 12.5.2002, which the witness has denied.

236.12 PW-327 Shri V.V. Chaudhary, the Investigating Officer (SIT) has been cross-examined by the defence to prove the omissions and contradictions as to the previous statement of this witness recorded by him. In his cross-examination the Investigating Officer has admitted that he has recorded the statement of this witness on 12.5.2002. The Investigating Officer has admitted that this witness has in her statement recorded by him stated the facts referred to in paragraph 734 of his deposition. It may be noted that the statement of this witness was recorded on 12.5.2002, much before the SIT came to be constituted. Evidently, therefore, the statement dated 12.5.2002 was not recorded by this witness. Under the circumstances, the question of this witness proving any contradiction in the evidence of this witness would not arise. It appears that this witness was not examined along with the other witnesses and in the meanwhile, the concerned Investigating Officer had already been examined and, therefore, the contradictions are sought to be proved through the testimony of the Investigating Officer (SIT). Be that as it may, if the contradictions were sought to be proved, the concerned Investigating Officer ought to have been recalled to prove such contradictions. The Investigating Officer (SIT) was not competent to prove the contradictions in the statement dated 12.5.2002 recorded by some other officer. Therefore, the contradictions brought out in the testimony of the Investigating Officer (SIT) are not admissible in evidence.

236.13 It appears that the statement dated 12.5.2002 was recorded by Shri A.A. Chauhan, who had passed away prior to the recording of the evidence.

236.14 Certain extracts of paragraph 4 as well as the contents of paragraphs 5 and 6 of the examination-in-chief of the witness are read over to the Investigating Officer. The Investigating Officer (SIT) has stated that the statement of this witness was recorded on 12.5.2002 by Shri A.A. Chauhan, who at present is dead and that he has found his statement in the investigation papers. The Investigating Officer (SIT) has denied that the contents of paragraphs 4, 5 and 6 put to him, have not been recorded in the statement recorded by Shri A.A. Chauhan. He has stated that the witness had stated that Shahrukh was with her husband and a huge mob of Hindus had come wherein she had seen Bhavani and Guddu Chhara and that this mob had attacked her, and her husband had taken Shahrukh and fled on the rear side of Gangotri Society and the witness too had escaped with her life and had gone and hidden on a terrace behind their house. The rest of the facts are not found in the statement.

236.15 ANALYSIS: The overall testimony of this witness is rather vague. In any case, she has named only Guddu Chhara and Bhavani, both of whom are dead. Therefore, the testimony of this witness would in no manner help the prosecution prove the charge against any of the other accused.

XVII WITNESSES OF THE MOBILE CALL DETAILS:

Another set of witnesses has been examined to prove the details of the phone calls of the accused; they are PWs 308,

316 and 321:

237. **PW-308 Rahul Nanheshwar Sharma** has been examined at Exhibit-2181. The witness has deposed that, at present, he is working as a Deputy Inspector General of Police (Arms Unit), Rajkot.

237.1 From 16.2.2002 to 26.3.2002 he was discharging his duties as a Superintendent of Police, Bhavnagar. On 26.3.2002, he was transferred from Bhavnagar and has thereafter has reported as D.C.P. Control Room at the Ahmedabad City Control Room on 8.4.2002. In this manner, he was discharging duties as D.C.P. Control Room, Ahmedabad till 5.7.2002. On 6.7.2002, upon his transfer he had reported as Senapati, S.R.P. Group No.11, Surat District at Vav.

237.2 During this period, on 7.5.2002, the then Police Commissioner of Ahmedabad city Shri P.C. Pande had instructed him orally on intercom that he should go to the Additional Commissioner of Police, Ahmedabad City Crime Branch and assist him in the investigation of the offences relating to communal riots of Ahmedabad city. Hence, he had gone there. He had a discussion with the then Additional Commissioner of Police, Crime Branch, Shri Surelia in connection with the investigation.

237.3 At the relevant time, a joint investigation was being carried out in relation to nine cases relating to communal riots which had taken place in Gujarat.

237.4 During the course of such discussion, facts

were revealed to the effect that the accused of the communal riots had made considerable use of mobile telephones. In the year 2002, two mobile operators were providing services in the Gujarat State, namely, AT & T and Celforce.

237.5 The witness has deposed that he had prepared a draft letter for calling for the data regarding use of mobile phones by the accused during the period of the incident from both the mobile companies. He had got the draft letter approved by the Additional Commissioner of Police of Crime Branch, Shri Surelia. He had thereafter, sent the draft letter on 7.5.2002 with the signature of the then A.C.P. Shri S.S. Chudasama to both the mobile telephone operator companies. Vide the said letter, they had called for the data with regard to all the mobile telephones being operated from Ahmedabad city.

237.6 He had called for such data for the period between 25.2.2002 to 4.3.2002. The details included names and addresses of the mobile phone holders as well as the time when outgoing calls were made, the time when incoming calls were received, how long the mobile holder had talked, from which number he had talked and the location of the caller and the receiver.

237.7 About three to four days after he had written the letter, information was received from the mobile operator company named AT & T. He, together with P.S.I. Shri J.K. Chandna, who was discharging duties at the Control Room had personally gone and brought the information. The information received from AT & T was in terms of the information they had

called for. The information was also given on CD. Such information was in MMX Format and Texted Format. He (the witness) had taken the CD home and had saved the data on his personal computer at home and had thereafter, returned the CD to the Crime Branch.

237.8 At the relevant time, no information was received from Celforce Company, and hence, he had reminded Shri Sureliya to call for such information. Thereafter, Shri Sureliya had talked with the officers of Celforce and two to four days thereafter, information was received from Celforce. This information was in MMX Format. At the relevant time, he himself did not have any knowledge of MMX. Hence, he had taken assistance of Shri Chandna and had perused the information. The information was not the information which was called for. Hence, he had talked to Shri Dhiren Lariya, who was discharging duties in Celforce Company and he had informed him that the information sent by them was incomplete and to send the necessary details.

237.9 Thereafter, upon Shri Surelia being transferred in the month of May, Shri P.P. Pande reported as Joint Police Commissioner, Crime Branch. Thereafter, after about ten days, Shri Lariya made a phone call to him from Celforce and informed him that the information is ready and he should send some person to fetch it. Prior thereto, he had returned the CD with incomplete information received from Celforce to the Celforce Company through Chandna.

237.10 Thereafter, he had sent P.S.I. Shri Chandna from the Control Room to Celforce Company and had obtained the

information called for. This information was also incomplete.

237.11 Thereafter, in the last week of May, another CD containing information was sent by Celforce to the Crime Branch, which information was sent to him by Shri P.P. Pande, by a D.O. letter and, accordingly, he had received the CD sent by Celforce. Shri P.P. Pande had vide the D.O. letter instructed him to analyse the information in the CD given by Celforce Company and to inform his accordingly. The CDs sent by the Celforce were two in number. He had taken the two CDs also to his house and had saved the information on his personal computer at home. In fact, they had called for information from Celforce only regarding Ahmedabad city; however, by mistake, they had sent the information about Godhra, which information also he had received. The witness does not remember as to of which period, the information regarding Godhra pertained to. The witness has further deposed that, as stated by him earlier, he had copied both the CDs in his computer at home and had saved them and had returned both the CDs with instruction to PSI Shri Chandna that he should personally go and hand over the same to Shri P.P. Pande at the Crime Branch.

237.12 In the first week of July 2002, he was transferred to S.R.P. Group-11. Upon his transfer, one or two days prior thereto, he had inquired from Shri Chandna as to whether he had delivered the CDs to Shri Pande, whereupon he had told him that he had taken the CDs and had visited the Crime Branch three or four times but he could not meet Shri Pande and that he had given both the CDs to his rider and told him to deliver the same to Shri Pande. The witness has deposed that he had ascertained this fact from the rider, namely, the

messenger and he had informed him that both the CDs had been delivered to Shri Pande. The witness does not remember as to who the rider or messenger was.

237.13 The witness has deposed that the purpose for copying and saving the information in his personal computer is for the purpose of maintaining confidentiality. Since, it was necessary to analyse the information, it was necessary to save the information in some computer.

237.14 The witness has further deposed that there is a practice prevailing in the Gujarat State Police Department that every Police Officer should keep the important documents and the action taken by him when he is at a particular place, with him. In view of this practice, he had retained the important information with him. This information was of 1.8 Gigabytes (GB), which could not be included in one CD and hence, he had zipped it and had kept the information in another CD. The witness has deposed that he had written the information from his computer in the CD with the help of a CD writer.

237.15 The witness has deposed that he had written all the information of both the companies on one CD, wherein he had made different files of the information, namely, the information from Celforce in one file and the information from AT & T in another file. The witness has deposed that whenever any information is zipped, the details of such information do not change and furthermore when it is unzipped, the original file can be obtained.

237.16 The witness has deposed that two copies of the CD

prepared by him in this manner were submitted by him before the Hon'ble Justice Nanavati and Justice Shah Commission. Moreover, he had also submitted a copy of the CD before the Hon'ble Justice Banerjee Commission at Delhi.

237.17 The first CD prepared by him was given by him to Shri Mal, Investigating Officer of the Naroda Gam case. His personal computer had been seized by Shri Mal, the Investigating Officer during the course of investigation of the Naroda Gam case.

237.18 The witness has deposed that Shri Mal and Shri Chaudhary, as Investigating Officers, have recorded his statements in the Naroda Gam as well as Naroda Patiya case respectively.

237.19 CROSS-EXAMINATION: In the cross-examination of the witness, he has stated that he had written the facts as to what data was necessary from both the Mobile Operators and in the letter addressed to them and he had also stated therein his expectations. Prior to his writing the letter, he had a basic knowledge of how mobile telephones work and how the signals are transmitted. Hence, he had not discussed the draft letter with anyone.

237.20 The witness has admitted that Chandna was an employee in his division and he knew him. The witness has stated that when he took the assistance of Shri Chandna for reading the CD, he had not informed his higher Officer as he did not know how to read a CD; he had taken the assistance of Shri Chandna. The witness has stated that he has not issued

any written order to Shri Chandna, and he did not deem it necessary to see that Shri Chandna's statement is recorded during the course of investigation.

237.21 The witness has stated that when the AT&T CD was received for the first time, he was an Officer assisting the Crime Branch in the ongoing investigation. He had personally gone to pick up the CD. The witness has stated that he did not find it necessary to issue a receipt and deposit the CD as muddamal because the CD is not considered to be a muddamal. It is considered to be an electronic document. The witness has stated that when he obtained the CD from AT&T Company, he did not deem it necessary to draw any panchnama in that regard. The witness has stated that there was no personal marking of his, on the AT&T CD received by him.

237.22 The witness has further stated that at the relevant time, the AT&T Office was at Gandhinagar. He had met the then Chief of AT&T. The witness has admitted that upon going there and disclosing his identity, he had given him the CD and he had taken the CD and gone to his office. The witness has stated that, at present, he does not remember whether any signatures or stamping were made while obtaining the CD from the AT&T Company. The witness has stated that at the time when he received the CD, the service provider had not given him any instructions or letter. The witness has stated that after receiving the CD, he had not thought it proper to open it in his office or Shri Surela's computer. The witness has stated that he is not aware as to whether, at the relevant time, the Crime Branch had a computer. The witness has stated that he did not

deem it proper to go to the Crime Branch and open the CD in the computer there.

237.23 The witness has admitted that at the relevant time, he did not deem it fit to see the CD in the presence of then Investigating Officer Shri Chudasama. The witness has voluntarily stated that he was entrusted with the responsibility of obtaining the CD and analysing it, and in the initial procedure without obtaining any specific information or direction, he did not deem it fit to call the Investigating Officer in connection with the CD. The witness has admitted that in the draft letter, he has not asked for the data of any individual accused. The witness has voluntarily stated that they had asked for general information.

237.24 The witness has stated that after copying the CD which he had received in his home computer, he had not read it. The witness has denied that for the purpose of copying a CD, he was required to take the assistance of Shri Chandna. The witness has stated that at the relevant time, he had not read the CD and he had read it after a considerable time. The witness has stated that the CD contained only the information requested for and nothing else.

237.25 The witness has admitted that the service providers had not given any certificate that the CDs of both the Mobile Companies were authorised or certified. The witness has stated that he had not read any certificate with the CD. The witness has admitted that as he had not received the information called for from Celforce at the first instance, the CD was returned and a new CD with the requisite data was

obtained. The witness has admitted that as the data was not what he had asked for, he was required to return the CD. The witness has stated that he has not put any note in his office regarding his having taken the CDs home. The witness has admitted that in his statement before the SIT, he has not stated as to on which date, he had taken the CD home. The witness has admitted that he had zipped the information in both the CDs. He had taken them in one CD in one sitting.

237.26 The witness has admitted that the AT&T CD, which he had given to Shri Surela and the Celforce CD which he had given to Shri Pande had thereafter never come to him. The witness has admitted that the first CD which he had prepared by copying from his computer was given by him to Shri Mal and copies thereof had been given to the Hon'ble Shri Nanavati and Shah Commission as well as Hon'ble Shri Banerjee Committee. The witness has admitted that he is not aware as to what Shri Surela and Shri Pande had done with the CDs which had come from AT&T and Celforce Companies.

237.27 The witness has denied that when he had handed over the CDs to Shri Mal, he had prepared a muddamal receipt. The witness has stated that Shri Mal had himself done it. The witness has voluntarily stated that the CDs of this kind are not required to be taken as muddamal which is mentioned in the Police Manual. The witness has stated that he has not received any receipt regarding presentation of the CDs before the Hon'ble Justice Nanavati and Hon'ble Justice Shah Commission and Banerjee Committee. However, he has mentioned the same in his statement.

237.28 The witness has admitted that there are devices whereby any information stored in a computer can be changed or tampered with. The witness has stated that wherever he has submitted the CDs, he has not given any certificate that the CDs' are not tampered. However, he has mentioned it in his statement.

237.29 The witness has denied that when he obtained the CDs he was aware that the CDs are to be used as evidence. The witness has stated that after analysing the available data in the CD, it was required to be decided as to whether the same can be considered to be evidence. The witness has stated that in his statement dated 31.5.2008, he has not stated that he had given the CD to his Joint CP Shri Surela, however, he has stated that the original CD was returned to the office. The witness has admitted that he has not obtained any receipt from Shri Surela regarding his having received the CD. The witness has voluntarily stated that at the relevant time, he was an Officer of a rank higher than his, he was of the level of DIG, whereas the witness was of the level of SP.

238. **PW-316 Dhiren Jayantilal Lariya** has been examined at Exhibit-2226. This witness has deposed that he was working as an Assistant Manager in the Legal Department of Vodafone Essar Gujarat Limited Company since the last fourteen years.

238.1 The witness has, inter-alia, deposed that on 8.5.2002 Shri S. S. Chudasama, ACP in the Crime Branch had vide letter called for complete call details of the postpaid and prepaid sim cards of Ahmedabad city from 00:00 hours of

25.2.2002 to 24:00 hours of 4.3.2002 and had asked their IT Department to prepare such details. Upon such details being prepared, two CDs containing the details called for by Shri Chudasama were handed over to the Police Constable of Crime Branch on 14.5.2002. After providing such information, they had obtained a signature of Police Constable Shri Gohil.

238.2 Thereafter, Police Officer Shri Rahul Sharma had made a phone call wherein he had informed that the details in the CD were not in the format stated in the letter, and hence, such information be prepared afresh. On 25.5.2002, Shri Chandna had come to their office on behalf of Shri Sharma and they had given him two CDs of the call details and Shri Chandna had put his signature as acknowledgement of receipt of the CDs.

238.3 Thereafter, Shri Sharma had once again made a phone call. He had informed them that the CD is not as per the format. Thereafter, they had once again prepared a fresh CD and the said information in the form of two CDs was handed over to Police Sub-Inspector Shri Chandna on 25.6.2002 in connection with the information requested for by Shri Chudasama.

238.4 The witness has stated that SIT had recorded his statement on 18.12.2009.

238.5 CROSS-EXAMINATION: This witness in his cross-examination has admitted that the information regarding call details is confidential. The witness has admitted that Police Constable Harisingh and Shri Chandna did not have any

authority letter from Shri Chudasama. The witness has stated that as far as he remembers, two CDs which he had given to Police Constable Harisingh had not been returned back. The witness has stated that after having a talk with Shri Rahul Sharma, he had, in all, given CDs twice. At both times, he had given two CDs to the person who had come. The witness does not remember as to whether the two CDs which were given on the first occasion had been received back.

XVIII POLICE WITNESSES:

239. The next set of witnesses is the police witnesses. They are either witnesses of the incident or Investigating Officers or their assignee officers or both.

240. **PW-178 Pravinkumar Naththubhai Barot**, aged 64 years, has been examined at Exhibit-1227. This witness has deposed that in the year 2002, he was working as an Assistant Commissioner of Police in the A.C.P., "B" Division, Ahmedabad City. At that time, Navrangpura, Naranpura, Ghatlodia and Sola Police Stations were under the jurisdiction of "B" Division.

240.1 In the year 2002, in the month of January, he was also in-charge of the "A" Division, which included the Satellite Police Station, the Vejalpur Police Station and the Ellisbridge Police Station.

240.2 Pursuant to an order dated 7.3.2002 of the Police Commissioner, Ahmedabad city, he had investigated into the offence (Naroda Police Station I – C.R. No.100/2002) from

8.3.2002.

240.3 During the course of investigation, on 11.3.2002, he had called a videographer Ashok Hemrajbhai and the panchas for the purpose of videography of the scene of offence and on that day, the videography of the scene of offence was carried out.

240.4 After the video recording was done, the photographer handed over the cassettes to him in the presence of the panchas and the same were sealed by drawing a panchnama and included with the investigation papers. A detailed panchnama was drawn in the presence of the panchas taking over the custody of the video cassettes. The witness has been shown the handwritings of the panchnama. The witness has deposed that this panchnama was drawn by him starting from Noorani Masjid, Naroda Patiya to Hussainnagar-ni-Chali and thereafter, going towards the interior side of this area to other chawls to the rear side and returning to the highway through the Timber Mart.

240.5 The panchnama Mark 134/69 is shown to the witness who has read the same and has admitted the contents thereof and has stated that the same was signed in his presence by both the panchas. He panchnama was drawn on 11.3.2002 between 17:30 to 18:30 hours. The panchnama is exhibited at Exhibit-1228.

240.6 The witness has deposed that the cassette of the video recording had been taken from the videographer under a panchnama and was sealed and included in the muddamal. In

this regard the muddamal receipt was made through the PSO, Naroda Police Station.

240.7 The witness has thereafter been shown muddamal article No.6 which is a sealed cassette of the video recording. The witness has stated that the muddamal cassette which is shown to him is the same cassette which he had obtained from the videographer under a panchnama and had been sealed.

240.8 The witness has deposed with regard to the procedure carried out in connection with the cassette wherein the scene of offence panchnama has been recorded. The witness has proved his signature on the panch slips Exhibit-1230 and has stated that both the panch slips had been prepared in the routine course while seizing the video cassette. The witness has stated that the video cassette which he has seized vide panchnama Exhibit-1228 from Videographer Ashok Hemrajbhai is the same video cassette, which has been kept in the muddamal of the investigation.

240.9 It has come out that pursuant to the order received by him from the Police Commissioner, Ahmedabad city he had taken over the charge of investigation of Naroda Police Station I-C.R. No.98/02, I-C.R. No.100/02 and Meghaninagar Police Station I-C.R. No.67/02 from the previous Investigating Officer on 8.3.2002 and the investigation remained with him till 30.4.2002 and thereafter he had handed over the investigation to Crime Branch ACP Shri Chudasama. On 9.3.2002, he drew the panchnama of the scene of offence in the presence of two panchas. He has read over the panchnama to them and got their signatures in his presence. The witness is shown the

panchnama Exhibit-1556, which is comprised of four pages and is a handwritten panchnama and he has admitted that the same bears the signatures of the panchas as well as his signature. The witness has stated that under orders of the Police Commissioner, P.I. R.C. Pathak, who at the relevant time was in the Crime Branch, Police Constable Vikramsinh Udesinh, P.S.I. Shri Karoliya, etc. were placed under him for assisting him with the investigation.

240.10 On 11.3.2002, he recorded the statement of Videographer Ashokbhai Hemrajbhai (PW-215). On 13.3.2002, he prepared a draft map of the scene of the offence. At the relevant time, sometimes under written instructions and sometimes under oral instructions from him, P.S.I. Shri R.C. Pathak had recorded statements of important witnesses of this case, who were residing near the scene of offence. Accordingly, he had recorded statements of the witnesses who were found to be present and had handed over their statements to him which he has seen and examined and kept with the case papers.

240.11 On 6.4.2002, he had received statements of victims, dying declarations recorded by the Executive Magistrate, cause of death slips as well as record of documents together with the forwarding letter of the Senior Police Inspector, which he had kept with the investigation papers.

240.12 On 10.4.2002, he had recorded the statements of Basirkhan Nanhekhan Pathan (PW-136), on 11.4.2002, he had recorded the statement of Salimbhai Roshanali Shaikh (PW-37) and Inayat Abdulrahim Saiyed (PW-251) as well as other

Muslim witnesses.

240.13 On 13.4.2002, he had recorded statements of Mohammadsafi Allabax Mansuri (PW-157), Lalabhai Nizambhai Luhar (PW-116), Ibrahimbhai Chhotubhai Shaikh (PW-115) and other Muslim witnesses.

240.14 The witness has thereafter deposed with regard to the arrest of nineteen accused and the steps taken for obtaining remand, etc. The witness has further deposed that, under his instructions issued on 18.4.2002, Shri R.C. Pathak had drawn house to house panchnamas of about thirteen houses from 11.4.2002 to 16.4.2002 and such panchnamas had been kept with the case papers. On 19.4.2002, he had recorded statements of Nazirkhan Rahimkhan Pathan (PW-208), Jainulabedin Mohammadkhwaja Shaikh (PW-113), Fatimabibi wife of Mohammadyusufbhai (PW-112), Naemuddin Ibrahimbhai Shaikh (PW-158) and other Muslim witnesses.

240.15 On 29.4.2002, P.I. Shri Khunti had together with a report forwarded several complaints to him, which he had kept with the investigation papers. Under orders of the Police Commissioner, Naroda Police Station I-C.R. No.238/02 was included in I-C.R. No.100/02 and upon the orders being passed to hand over the investigation papers and case diary to him with a view to connect that offence with the present offence, A.C.P. Shri M.T. Rana handed over the case papers and the case diary of the investigation to him on 30.4.2002.

240.16 The witness is shown Mark 1732/1, which is the order of the Police Commissioner. Upon perusing the same, the

witness has stated that this was the order which was received by him and he has kept with the investigation papers. The order is given Exhibit No.2004, which is an administrative order passed by the Police Commissioner in the routine course. As per the order, Shri Rana was directed to include I-C.R. No.238/02 with the investigation of I-C.R. No.100/02.

240.17 On 27.4.2002, pursuant to the order of the Police Commissioner, the investigation of I-C.R. No.100/02 was sent to Crime Branch A.C.P. Shri S.S. Chudasama together with a report as well as along with the papers of I-C.R.No.238/02.

240.18 CROSS EXAMINATION: In the cross-examination of this witness, he has admitted that together with this offence, he had taken charge of two offences on 8.3.2002 and since then, he was actively investigating into all the offences. The witness has admitted that the offence registered vide I-C.R. No.98/02 relating to Naroda Gam as well as the present offence viz. I-C.R. No.100/02 are offences registered with the Naroda Police Station and I-C.R. No.77/02 is registered with the Meghaninagar Police Station and all of them relate to communal offences.

240.19 The witness has admitted that on 9.3.2002, he had personally gone to all the places in connection with which the additional scene of offence panchnama was drawn. He has admitted that when he went to draw the additional panchnama Exhibit-1556, at that time, the earlier panchnama Exhibit-1749 (Part-1 to Part-3) was included in the investigation papers and he has received the complaint Exhibit-1773 of P.S.I. Shri Solanki. The witness has admitted that he has read over the

investigation papers received by from prior thereto.

240.20 The witness has admitted that the panchnama Exhibit-1749 Part-1 to Part-3 was drawn in the presence of P.S.I. Shri Surela, which he is stating on the basis of the record. The witness has stated that to eliminate the deficiencies in the panchnama Exhibit-1749, Part-1 to 3, he had drawn the additional panchnama Exhibit-1553. He has stated that he had not seen the site position in the panchnama drawn by Shri Surela. The witness has stated that video recording which was got down by him does not include all the spots, but after taking over the investigation, he felt that the number of places which have been included in this offence are many and that the video recording was limited to only certain spots. The witness has stated that in this offence many places have been shown as the scene of offence, however, he has carried out the video recording of only those places which, as an Investigating Officer, he felt was the scene of offence.

240.21 The panchnama Exhibit-1556 is shown to the witness, who has stated that there is a description of Hussainnagar-ni-Chali in the panchnama. The witness has admitted that in this panchnama, there is no reference to any madressa or masjid in Hussainnagar. The witness has admitted that in the panchnama, there is no description of any masjid or madressa even in Jawannagar. The witness has admitted that while drawing the panchnama, the complainant Shri V.K. Solanki was present with him. The witness has admitted that the distance shown in the panchnama were measured with a measure tape and in a similar manner, the height of the S.T. Workshop compound wall and the wire fencing, etc. was also

measured and written down in the panchnama.

240.22 In the cross-examination of the witness, it has come out that the Exhibit-1556 panchnama has been drawn mostly for the purpose of clearly identifying the chawls opposite the S.T. Workshop. The witness has admitted that during the course of investigation of the scene of offence, it is necessary to take note of evidence connected with the offence. The witness has admitted that at the time when he drew the panchnama Exhibit-1556, he had not found any evidence worth sending to the F.S.L. and, therefore, he had not made any such note.

240.23 The witness has stated that the video cassette given by him to the videographer Shri Ashok Hemraj, was totally blank. He has stated that the area of which video recording was carried out is mentioned in the panchnama Exhibit-1228. He has admitted that he has carried out the video recording of the lanes of Hussainnagar and Jawannagar and has admitted that there is no mention of any madressa or masjid in the panchnama Exhibit 1228. The witness has stated that without looking at the video cassette, he cannot say whether any masjid or madressa can be seen in Hussainnagar or Jawannagar. He has stated that the draft map prepared by him of the scene of offence has been handed over by him to Investigating Officer Shri Chudasama.

240.24 The witness has admitted that he has not particularly studied the complaint application given to him by Shri Khunti for the reason that thereafter he was required to hand over the investigation. The witness has stated that he

does not remember the exact number of persons who had given such complaints. He cannot say exactly as to whether all the applications were in printed forms or in writing but has stated that many of the complaints were in printed forms. The witness has admitted that many of these complaints were addressed to the Police Commissioner, Ahmedabad.

240.25 In the cross-examination of this witness, it has come out that during the course of his investigation, he had no occasion to visit the Sola Civil Hospital. The witness has admitted that he has recorded the statements of Gaurav Jairambhai and Dhirajbhai Lakhabhai on 16.5.2002 but has stated that the investigation of the offence was with him only till 30.4.2002 and that as far as he remembers, these statements were recorded in connection with the offence registered vide I-C.R. No.98/02. The witness has stated that the investigation of that offence was with him till 18.5.2002 and he might have recorded these statements in that offence, however, in connection with the Naroda Patiya incident, he has certainly not recorded such statements.

240.26 The witness is cross-examined as to his statement recorded by the SIT, however, reference to such statement has not been made to contradict any part of the evidence of the witness but to bring on record certain facts stated by him before the SIT. In this regard, it may be noted that the statements recorded by the SIT are statements under section 161 of the Code and, therefore, can be used only for the purpose of contradicting the witness. Under the circumstances, reference to the statement of this witness as recorded by the SIT without seeking to contradict the witness is inadmissible in

evidence. Therefore, the court does not deem it fit to refer to the same.

240.27 The witness has admitted that he has recorded the statements of the witnesses referred to in paragraph 64 of his deposition. The witness has stated that he has recorded the statements of all those witnesses, as stated by them, and it has not happened that the witness has said something, which he has not written down or that the witness has not said something which he has written down. The witness has admitted that majority of the people residing at Naroda Patiya were Muslims from outside Ahmedabad city.

240.28 In the cross-examination of the witness, it has come out that Shri Mysorewala had shown him all the places where the offence had taken place. The witness has admitted that the places shown in Exhibit-292 had been shown to him by Shri Mysorewala. The witness has denied that he was required to draw a panchnama of these places. The witness has admitted that a panchnama of all the places referred to in the complaint has not been drawn.

240.29 The witness has thereafter been cross-examined to prove the contradictions in the statements of the witnesses recorded by him, reference to which shall be made while considering the depositions of those witnesses.

240.30 In the cross-examination of this witness, it has further come out that he had read the FIR in this case. He has admitted that he had also taken charge of Naroda Police Station I-C.R. No.98/02 and that the SIT has recorded his

statement in connection with both the offences.

240.31 BY COURT: This witness has also been examined by the court, and has stated that he is aware of the fact that the investigation of this case was with a P.I. and it was taken over and handed over to him as he was an A.C.P., which is a senior position and that the investigation was handed over to him so that it is carried out very efficiently.

240.32 The witness has further stated that Shri R.C. Pathak, had helped him with the investigation from 9.3.2002 to 30.4.2002 and that during this period, he had recorded around 150 statements and had drawn panchnamas of about 513 properties. The witness has admitted that during this period, Shri R.C. Pathak was also entrusted with the work relating to the Crime Branch and that he was also required to visit the Crime Branch. Amongst the statements recorded by Shri R.C. Pathak were also statements of family members of those who had died and of those persons who were injured. The witness has admitted that he had felt that in case of those persons whose family members had died and those persons who had been injured, it would have been more advisable if he himself had recorded their statements instead of Shri R.C. Pathak and that it would have subserved the purpose for which he has been appointed as an Investigating Officer. The witness has stated that, however, the position after February, 2002 was very extraordinary. As stated by him, he was in-charge of three serious cases of Gulbarg, Naroda Gam and Naroda Patiya at a time. Moreover, as A.C.P. he had the responsibilities of four police stations, due to which, he himself could not perform the task.

240.33 The witness has admitted that he himself has not gone to the relief camp and has not met the victims. The witness has stated that he cannot remember that certain statements recorded by Shri Pathak were not in consonance with this complaint and, therefore, cannot be considered to be statements in connection with this investigation.

240.34 The witness has stated that during the course of investigation he had not taken any steps to take PW-158 Naemuddin to Gopinath Society and get the accused identified, for the reason that before he could do so, the investigation was taken away from him. The witness does not remember as to the period during which the investigation was with him, any person in the mob had been injured on the day of the incident and as to whether the statement of such injured persons or the statement of such person or the doctor who had treated such person has been recorded. The witness has stated that he had not made any attempts to recover the immovable properties of the victims which are mentioned in the statements of such victims for the reason that there was too much pressure of work. The witness has stated that he had made attempts to recover the weapons used by the riotous mob on the day of the incident, but could not make any such recovery.

240.35 The witness has admitted that he is in agreement with the suggestion that on 9.3.2002 when he had drawn an additional panchnama of the scene of offence, he had believed that there was no necessity of calling the FSL. However, if on that day, he had called the FSL and had obtained such additional report, it would have been additional evidence in the

investigation procedure.

240.36 ANALYSIS: This witness is the second Investigating Officer in this case. From his testimony it emerges that he had drawn a second panchnama of the scene of offence as the first panchnama was deficient, which is one of the sensible tasks performed by this officer, as this panchnama gives a better picture of the area starting from the entrance of the road adjoining the S.T. Workshop compound wall till the end. He had also got the video recording of the scene of offence done through a videographer. A perusal of the video recording of the scene of offence makes it manifest that the same was done in a hurried manner without bringing on record material parts of the scene of offence which would have helped the court to appreciate the evidence in proper perspective. Moreover, the video recording was started quite late and hence, they had to hurry as it was likely to become dark, resulting in the recording not being up to the mark. One fails to understand the rationale behind starting the recording late and finishing it hurriedly merely because it was becoming dark. Besides, if it was likely to become dark, part of the recording could have been done on the next day, but there was no sense in carrying out the video recording perfunctorily and in a hurried manner, resulting in failure to give a correct picture of the scene of offence. Thus, the officer has failed to ensure that the video recording of scene of offence is done in a proper manner, causing immense prejudice to the investigation.

240.37 It further emerges from the testimony of this witness that he had got panchnamas of 513 properties drawn during the period when he was in charge of the investigation,

which was more or less an exercise in futility as the same are meant for assisting the concerned persons in obtaining compensation (a task which is required to be performed by the Collectorate) and do not in any manner help the prosecution in establishing the charge against the accused. Thus, it would have been better, having regard to the situation prevailing at the relevant time, when there was shortage of man-power if the available man-power had been utilized efficiently instead of wasting so much time in unnecessary tasks, which speaks volumes about the nature of the investigation and the lack of seriousness on the part of the concerned Investigating Officer in investigating into the offence.

241. **PW-262 Vinubhai Khemabhai Dilwadiya**, aged 47 years, has been examined at Exhibit-1770. This witness has deposed that earlier he was known as Vinubhai Khemabhai Solanki, in short, V.K. Solanki. However, subsequently vide Gujarat Government Gazette Part-II dated 13.6.2002, he is now known as Vinubhai Khemabhai Delwadia, which is, in short, V. K. Delwadia. The witness has stated that it is for this reason that in the first information report dated 28.2.2002, his name as complainant is shown as V. K. Solanki.

241.1 The witness has deposed that in the year 1993, he was selected by way of direct recruitment as Police Sub-Inspector and was appointed. After his training, in the year 1994 to 1996, he was posted at Junagadh. From 1996 to 1998, he was working as a P.S.I. at Ellisbridge Police Station in Ahmedabad city. From 1998 to November, 2002, he was working as a P.S.I. at Naroda Police Station. At the relevant time, he was discharging duties at Krushnanagar Police

Chowky, Udhyognagar Police Chowky as well as the Surveillance Squad at Naroda Police Station. In February, 2002, he was discharging duties as a P.S.I. in Surveillance Squad at Naroda Police Station. At present, he has been promoted and is working as a P.I. at Himmatnagar.

241.2 The incident took place on 28.2.2002. In connection with the incident that took place at Godhra on 27.2.2002, the Vishwa Hindu Parishad had given a call for Gujarat bandh on 28.2.2002, when the communal riots had taken place.

241.3 On the day of this incident, he was assigned duties for patrolling in the requisitioned jeep in the Naroda Police Station area. Together with him in the vehicle were his staff members A.S.I. Dashrathsinh Udesinh, Police Constable Ashoksinh Laxmansinh, Police Constable Bharatsinh Chanduji, as well as Police Constable Deepak Govindrao. They were patrolling in the Naroda Police Station area. In the meanwhile, at around 9:00 to 9:30 in the morning mobs of people started coming on the road. They tried to disperse the mobs of people during the course of patrolling.

241.4 At 11:00 to 11:30 in the morning, while patrolling they came near the Noorani Masjid, Naroda Patiya when A.S.I. Ramubhai Parsottambhai, A.S.I. V. T. Ahari, Police Constable Pradeepsinh Ratansinh, Police Constable Kiran Parsottambhai (PW-264) as well as Police Constable Chandravadan Ramjibhai, who were placed at the police point near the Noorani Masjid were present at the point and A.S.I. Sajjansinh (PW-265) as well as Police Constable Vinubhai and Police Constable Jitendrabhai were present at the point near the S.T.

Workshop gate.

241.5 At this time, Hindu mobs in large number had gathered at the Noorani Masjid as well as the entrance of Hussainnagar-ni-Chali and were shouting “kill” “cut” and were raising slogans.

241.6 In the meanwhile, the then Deputy Police Commissioner Shri P. B. Gondia as well as ‘G’ Division A.C.P. Shri M.T. Rana as well as Senior Police Inspector of Naroda Police Station Shri K. K. Mysorewala had also come to the spot. At that time, mobs were coming from Krushnanagar, Saijpur Fadeli, Kubernagar, Chharanagar and were gathering near the Noorani Masjid as well as Hussainnagar hutments.

241.7 In the mob, at that time, as leaders, active workers of V.H.P. as well as B.J.P., namely, Kishan Korani (A-20), P. J. Rajput (A-19), Haresh Rohera (A-43), Babu Bajrangi (A-18) as well as Raju Chaumal (A-24) were present. They had taken the leadership of the mobs and were instigating the mobs and in a little while, shops and houses belonging to Muslim community as well as the Noorani Masjid were targeted and damaged and were set on fire and looted. The five persons whom he has named were shouting “kill them” “cut them” and were instigating the people in the mobs. Therefore, with a view to disperse the mobs they had again and again made announcements from the loudspeaker in their jeep and had warned the mobs to disperse. Despite giving such warning, the mob had become uncontrollable and had started burning houses and shops as well as the Noorani Masjid and the people in the mob had also started looting all these places.

241.8 In the above circumstances, the then Deputy Police Commissioner had given an order, pursuant to which, he fired five rounds from his service revolver, Police Constable Bharatsinh who was with him fired two rounds in the air with a 410 musket rifle. At this time, the then Senior P.I. Shri K.K. Mysorewala also fired eight rounds in the air. At this time, they had also lobbed tear gas shells, despite which, the mob became uncontrollable and got distributed into different groups, out of which, one mob was on the side of Saijpur Fadeli, another on the side of Krushnanagar, another towards Bhagyodaya hotel and one towards Hussainnagar, Gangotri Society. The mobs were shouting slogans of “kill them”, “cut them”. The mob was committing arson and had broken the lock of Uday Gas Agency which was nearby and taken out the gas cylinders and thrown them in the Noorani Masjid and were torching it and damaging it.

241.9 Out of the mob, which got distributed in this manner, one mob assaulted men, women and children belonging to the Muslim community, which resulted in the death of fifty eight persons. They assaulted these people and burnt them to death.

241.10 In connection with the facts stated by him, he had filed a detailed complaint in respect of all the incidents in the presence of Senior Police Inspector Shri K. K. Mysorewala on the same day on 20:15 hours.

241.11 The witness is shown Mark 134/1 and is handed over the same for the purpose of reading. The witness has

deposed that the complaint is comprised of two pages with handwritings on both sides. The witness has identified his signature on the complaint and has also admitted the contents thereof.

241.12 The witness has stated that this complaint has been registered as Naroda Police Station I-C.R. No.100/2002 and below the complaint, P.I. Shri K .K. Mysorewala had signed as having been signed in his presence. The witness has, accordingly, identified his own signature as well as the signature of Shri K. K. Mysorewala on the complaint. The complaint is given Exhibit-1773.

241.13 The witness has further deposed that after the complaint was lodged, the investigation was taken over by Senior P.I. Shri K. K. Mysorewala.

241.14 After the complaint was given on the next day, the then Sub-Inspector of Naroda Police Station Shri J. V. Surela had called him at the scene of offence. He had shown the scene of offence. He had prepared a detailed panchnama, of the scene of offence in the presence of two panchas. The procedure for drawing the panchnama went on for four days. He had taken part in the four day proceedings for drawing the panchnama.

241.15 Crime Branch A.C.P. Shri A. S. Chudasama had, in connection with this investigation, called him on 24.5.2002 as well as on 26.6.2002 and recorded his statement in connection with the complaint. Thereafter, on 24.10.2008, the Deputy Superintendent of Police Shri V. B. Chaudhary of the S.I.T. had

recorded his statement at the S.I.T. office at Gandhinagar.

241.16 The witness has deposed that he knows the accused named by him in the complaint and can identify them. The witness has thereafter correctly identified P. J. Rajput (Accused No.19), Babu Bajrangi (Accused No.18), Haresh Rohera (Accused No.43) and Raju Chaumal (Accused No.24). Accused No.20 Kishan Korani had filed an exemption application and is, therefore, deemed to have been identified.

241.17 CROSS EXAMINATION: In his cross-examination, the witness has stated that no such fact has come to his notice that on 27.2.2002 in the evening, at around 7 to 8 o'clock, leaders of Hussainnagar had met Senior P.I. Shri Mysorewala and had requested him to place a police point and accepting such request, two constables had been posted at the corner of Hussainnagar on the day of the incident. The witness has denied that the people in the mobs were from the areas outside Naroda Patiya and has stated that over and above Naroda Patiya area there were people from outside also. The witness has admitted that he is aware of the fact that a Muslim driver had recklessly driven a Matador over the mob, due to which the mob had become more incited.

241.18 In his cross-examination, the witness has further stated that on that day there was a fixed point for discharging duties; his duty was to patrol. Hence he was required to go to the entire area. The entire Naroda Police Station jurisdiction was in an area of 40 kilometres. The witness has denied that after seeing fifty eight dead bodies he had gone to lodge the complaint. The witness has stated that he has no personal

knowledge as to whether Mysorewala had deputed anyone to take care of the fifty eight dead bodies which were found at the scene of incident. The witness has denied that he has not shown Shri J.B. Surela the place where the fifty eight dead bodies were found and that he had shown the spot on the next day.

241.19 The witness has admitted that he had participated in the proceedings of drawing of the panchnama of the scene of offence which went on for four days. The witness has admitted that on 27.2.2002, he was present at Naroda Police Station. He does not remember the RTO number of the police vehicle which was allotted to him, but the vehicle is known as 'Naroda-1'. The witness has admitted that whenever any incident takes place they inform their higher officers about such incident through wireless message. The witness has admitted that he has not seen the incident where fifty eight dead bodies were lying with his own eyes.

241.20 The witness has admitted that he has not informed his higher officers that the five accused whom he has named in his examination-in-chief were present and were instigating the mob. The witness has stated that the reason is because his higher officers were present at the spot and there was no necessity for him to inform them. The witness has stated that he had not given any wireless message in this regard to the police station, nor had he sent any message to the Gujarat Government, Home Department that the five accused are instigating the mob.

241.21 The witness has admitted that on the day of the

incident he had set out for patrolling at 7:00 in the morning. The witness has admitted that it was a part of his duty to move around in the entire 40 km. of the jurisdiction of Naroda Police Station and keep himself informed about it. The witness has admitted that on that day he was moving around in his jeep in the 40 km. area. The witness has stated that Naroda Police Station has four police chowkies, namely, Krushnanagar Police Chowky, Saijpur Police Chowky, Udyognagar Police Chowky and Nava Naroda Police Chowky. The witness has admitted that at 11:00 to 11:30 in the morning on the day of the incident, mobs started gathering on the roads from the Naroda Gam Road, Himmatnagar Road, Kubernagar Road, Saijpurbogha Road and towards Krushnanagar. The witness has admitted that people in the mob were thousands in number. The witness has stated that he had not seen any people in the mob coming in any vehicles. The witness has stated that he has seen these mobs at 11:00 to 11:30 while he was standing at the S.T. Workshop gate. The witness has stated that the mobs were also present at the S.T. Workshop.

241.22 The witness has admitted that at that time, he himself, DCP Shri Gondia, ACP Shri M.T. Rana, Senior P.I. Shri K.K. Mysorewala as well as 2nd P.I. Shri Gohil and other police staff were present at the S.T. Workshop gate. The witness has admitted that the police vehicles allotted to them were also present at the spot. The witness has admitted that armed policemen had also been placed there.

241.23 In his cross-examination, it has further come out that no untoward incident had taken place in his presence at the spot till 11:00 to 11:30 in the morning. However, he had

come to know about such incidents having taken place. The witness has admitted that he is not aware that prior to 11:00 to 11:30, there was any police firing. The witness has stated that he has not received any complaint that prior to his reaching the area, there was private firing. The witness has admitted that till he was there, no police firing had taken place from near the S.T. Workshop or near the Noorani Masjid. He has admitted that for the first time police firing had taken place after 11:30 in the morning. In his cross-examination, it has further come out that on the day of the incident he had continuously remained at the S.T. Workshop gate till 7:30 in the evening. Certain extracts of his statement recorded by the SIT have been brought on record in the cross examination of the witness. However, since such part of his statement has not been brought on record with a view to contradict any part of the evidence of the witness, the same is not admissible in evidence.

241.24 The witness has admitted that the Tata-407 was started from the road on the opposite side of the Noorani Masjid. The witness has admitted that at that time there were mobs of thousands of people on the road. The witness has admitted that driver of the Tata-407 had driven the vehicle in a manner whereby it would dash against the people and cause death. The witness has admitted that Senior P.I. Shri Mysorewala had followed the Tata-407 and has apprehended the driver and brought him to the police station.

241.25 The witness has admitted that upon the driver having driven the Tata-407 in this manner, one person had died and two persons were injured. The witness has admitted

that thereafter the mob got more aggressive and had started shouting loudly. The witness has admitted that amidst thousands of people, it was not possible to understand what any person was speaking.

241.26 The witness has admitted that he has not come to know that any rifle was taken away from any police personnel and private firing was resorted to. The witness has admitted that at the scene of incident, two persons under him, namely, Police Constable Bharatsinh and ASI Sajjansinh had musket rifles. The witness has admitted that ASI Sajjansinh and Bharatsinh were present at the point assigned to them. He has admitted that he had taken a rifle from Bharatsinh and fired in the air. The witness has admitted that it had not happened that any private person had taken the musket rifle from Bharatsinh. The witness has admitted that as long as he was on duty, till then they had not permitted the mob to enter the Muslim areas from the corner of the S.T. Workshop. The witness has admitted that when he was on duty Muslims had also come out of their chawls and gathered outside. The witness has admitted that he was on duty near the S.T. Workshop wall and on the opposite side the Muslim area was situated and there was passage in between. The witness has admitted that while he was there, Hindu and Muslim mobs pelted stones against each other. He has admitted that tubelights, glass, etc. were being thrown from the Muslim chawls. The witness has admitted that Muslims from the chawls brought weapons like sticks, pipes and dharias and started fighting with the Hindus.

241.27 The witness has admitted that at the entrance of

Hussainnagar lane, glass, stones, tube-lights, etc. were lying. The witness has admitted that due to this position, it was not possible to enter inside from the S.T. Workshop road. The witness has admitted that the incident of the Matador 407 was prior to throwing the glass, stones, etc. The witness has admitted that after throwing glass, stones, etc. at each other, the mobs on both the sides got more incited.

241.28 The witness has stated that during the course of his duties, he did not have occasion to enter the Noorani Masjid. He has stated that on that day he has seen people lifting gas cylinders and bringing them. The witness has stated that they were pushing gas cylinders with their feet and rolling them. The witness has admitted that he must have seen five to ten such persons. The witness has admitted that he has seen such people in the mob. The witness has admitted that all of them had entered the Noorani Masjid and climbed up and had thrown gas cylinders on that day. The witness has admitted that at the time of climbing on the Noorani Masjid, those persons had lifted gas cylinders on their shoulders and had climbed and thrown them. The witness has admitted that all the gas cylinders were full. He has admitted that upon gas cylinders being thrown inside the Noorani Masjid, there were loud sounds. The witness has admitted that he had seen all this from the S.T. Workshop gate. The witness has stated that he has not seen any tanker dash against the masjid wall as well as its gate. The witness has stated that he cannot say as to in which mob, the four persons named by him were present.

241.29 The witness has admitted that he had seen the accused in the afternoon between 12 to 2 o'clock. The witness

has admitted that after 2 o'clock he had seen the five accused near the S.T. Workshop gate.

241.30 The witness has admitted that on the day when the incidents took place, a complaint in respect of Naroda Gam was also registered. The witness has stated that as far as he is aware, the complaint in the Naroda Gam case has been lodged by ASI Shri N.T. Vala. The witness has admitted that the SIT officers had investigated both the complaints of Naroda Gam as well as Naroda Patiya. The witness has admitted that ASI Shri Vala has passed away. The witness has stated that he does not know as to at what time Shri Vala has lodged his complaint. The witness has denied that the Naroda Gam complaint was first read over to him and thereafter he had given the complaint Exhibit 1773. The witness has denied that the names of the five accused are verbatim the same as in the Naroda Gam complaint and that he had written those names in the same sequence in his complaint. He has denied that firstly Shri Vala's complaint came to be registered and his complaint had been registered after 1:30 at night and hence he had registered a time anterior to 1:30 in this complaint.

241.31 The witness has admitted that prior to lodging the complaint he had not gone near the Gangotri Gopinath water tank on the S.T. Workshop road. The witness has stated that he has seen the tank. He had reached this place at 12:00 to 12:30 at night on the day of the incident. The witness has stated that Mysorewala was with him at that time.

241.32 The witness has admitted that at the passage of water tank he had seen fifty eight corpses. The witness has

admitted that prior to seeing fifty eight dead bodies in the passage of the tank, he had not gone to Jawannagar or Hussainnagar. The witness has admitted that on the night of the day of the incident he had not gone to the Jawannagar hutments. The witness has admitted that he had gone to the water tank-passage from the road on the rear side and had not gone through the S.T. Workshop road. The witness has admitted that the corpses and the injured persons were sent to the Civil Hospital in police vehicles. The witness has admitted that those who were injured near the water tank were taken by Senior P.I. Shri Mysorewala.

241.33 The witness has admitted that on 1.3.2002, he had gone to show the spots for drawing of parts of the panchnama of the scene of offence. The witness has stated that he does not remember as to whether when he went for drawing the scene of offence panchnama, he had seen any corpses in Hussainnagar or Jawannagar. The witness has admitted that in the scene of offence panchnama, he has not shown any dead body.

241.34 The witness has admitted that the members of the Peace Committee are appointed from the people residing in the concerned area. The witness has stated that at present he does not remember whether Kishan Korani and Raju Chaumal were members of the Peace Committee. The witness has stated that he is not aware as to whether the five accused mentioned by him are social workers. The witness has denied that it is his personal opinion that the five persons whom he has named in his examination-in-chief are political leaders. The witness has stated that time and again they used to come to

the police station, and hence, he was saying so.
